Bond houses are beginning to figure on the funding of the short term loans which were floated this year The entire list of these notes is spread over a period of several years although a very large share of them mature next year. The notes falling due next year are $5,000,000 Clinton Pacific, $5,000,000 Rock Island, $5,000,000 New York Central, $50,000,000 Pennsylvania Company, and $30,000,000 Southern Pacific. In 1905 there mature $5,000,000 Missouri Pacific, $10,000,000 Delaware and Hudson, $10,000,000 Baltimore and Ohio, $7,270,410 Rocking Valley, $7,500 03 Rock Island, and $5,000,000 Frisco. In 1907 there mature $6 16,000 Wabash, and $5,000,000 Chicago and Alton Loans. In 1909 there mature $15,000,000 Southern Railway notes.

The belief is general in the West and South that more money will be required to move the crops this year than ever before The belief is founded upon the anticipation of large crops at high prices. There is more money in the country than there was last year by perhaps $150,000,00, still there are those who believe even the sum named will be entirely absorbed. The claim that the West has grown strong enough financially to move its crops on its own money to a large extent well founded, although there is still some rediscounting by New York for Western banks. This, however, is now the exception, while a few years ago it was the rule. The country generally has strengthened the Southern banks so that they may not call on New York for cash as early as usual. The cross shipments of currency from New York to the West and vice versa, in the Sub-Treasury, from Aug. 20 to Dec. 28, 1903, were $113,806,146, compared for like periods with $80,675,300 in 1902 and $58,500,000 in 1901. Receipts of currency from the interior for the same periods were $77,809,700 in 1903, $62 689,800 in 1902, $73,601,700 in 1901, making the net loss during the time of moving the crops $36,297,000 in 19 3, $27,865,500 in 1902, $35 362,100 in 1901.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Provisions for the past 48 hours as compared with the same time last year:

ARTICLES.	RECEIPTS.		SHIPMENTS.	
	1904.	1903.	1904.	1903.
Flour, brls.	16,801	10,443	9,985	15,961

MOVEMENT AND WEIGHT OF HOGS.

The following table exhibits the movement and weight of Live Hogs during March, April, May, and June in the past two years:

	1904.		1903.	
	Rec'd.	Ship'd.	Rec'd.	Ship'd.
March	456,251	436,875	550,735	526,820
April	580,399	488,002	556,101	527,341
May	618,889	542,787	654,253	608,993
June	621,881	545,888	724,566	695,547
July 1	378,344	97,778	590,703	581,111
Total	2,657,791	771,590	3,034,421	470,312

The average weight of the Hogs received during July was 236 lbs. against 221 lbs in June, and 226 lbs in July, 1903.

EXPORTS OF GRAIN.

Below is a given statement of the exports of Flour, Wheat and Corn from the Atlantic ports with the names of the markets to which exported, for the week ending July 30, 1904:

	Flour Brls.	Wheat, bu.	Corn bu.
Liverpool	16,707	228,000	11,000
London	2,000	196,000	130,000
Glasgow	29,160	49,000	50,000
Bristol	7,000		41,000
Other English		41,000	9,000
Antwerp		53,000	26,000
Continental	23,000	44,000	56,000
Total	77,867	611,000	323,000
Previous week	79,200	610,000	386,000

EXPORTS OF HOG PRODUCTS.

Below is given a statement of the exports of Pork, Lard and Meats from the Atlantic ports with the names of the countries to which exported, for the week ending July 30, 1904.

	Pork lbs.	Lard, lbs.	Meats, lbs.
Liverpool	70	1,361,000	6,953
London		1,559,000	1,253
Glasgow	20	309,000	1,452
Bristol		19,000	
Other English ports	10	935,000	3,158
Antwerp	110	195,000	110
Germany		641,000	28
Hamburg		252,000	
France		22,000	
Other Continental		1,000,000	
Elsewhere	1,410	813,000	837
Total	1,620	5,457,000	13,626

FOREIGN EXPORTS.

The following were the foreign exports of the articles named from the Atlantic seaboard ports for the week ending on the dates named:

	July 30, 1904.	July 23, 1904.	Aug. 1, 1903.
Flour, brls	170,200	166,000	191,000
Wheat, bu	1,050,000	492,000	1,313,000
Corn, bu	750,000	1,250,000	1,010,000
Oats, bu	203,000	55,000	181,000
Rye, bu			36,000
Barley, bu	11,000	10,000	32,000
Pork, brls	1,620	2,760	1,818
Lard, lbs	5,457,000	13,064,000	8,135,000
Meats, boxes	13,626	20,783	19,634

The United States Steel Corporation has purchased the wire plant of the Trenton Iron Company, and has paid for it with second mortgage 5 per cent bonds The exact price paid has not been officially stated, but it is known that the directors of the Steel corporation consider the terms distinctly advantageous, and that the Steel corporation will not be less than 25 per cent on the purchase. The purchase was made by the Steel corporation for the American Steel and Wire Company, which will operate the plant.

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows

Spring Wheat—Unfavorable reports respecting Spring Wheat are more pronounced as well as more general than in the previous week rust being more or less prevalent in all of the Spring Wheat States east of the Rocky Mountains In portions of Minnesota and North Dakota, however, a good crop is promised Harvesting is in progress in Iowa, Nebraska and South Dakota and will begin about Aug. 5 in Minnesota Harvest is also in progress in Oregon, with better yields than were expected.

Winter Wheat—Threshing of Winter Wheat has advanced under favorable weather conditions in Central Valleys, but frequent rains have interrupted this work in the Middle Atlantic States. The quality and yield of the Grain are proving disappointing in the lower Missouri Valley where the crop suffered much from excessive rains during the period of harvest.

Corn—Has experienced a week of favorable temperatures, and, while needing rain in portions of the Ohio, Central Mississippi and Missouri Valleys, the crop as a whole has made good progress, and continues in promising condition.

Oats—Harvest is in general progress in the more northerly sections, and is largely finished in the central and southern districts Rust has caused damage in North Dakota and portions of Minnesota, and rains have proved injurious to Oats in shock in Maryland, Delaware and New Jersey.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $27,631,751.

Wheat in Buda Pesth has advanced 7c since Saturday

Reported that no Wheat and 112,000 bu Corn were taken at the seaboard to-day for export.

Nine packers purchased 11,400 Hogs to-day; shippers, 3,000; left over, 14,000. Market closed weak.

A movement is under way among Chicago Grain men to secure a reduction in freight rates from the West.

A correction has been made in the stock of Wheat in elevators in the Northwest, and they are republished to-day.

The duty on Corn in Germany is 10c per bu. and there is a talk of a reduction owing to the scarcity of fodder.

Estimated receipts for to-morrow: Wheat, 82 cars; Corn, 124 cars; Oats, 82 cars; Rye, 2 cars; Barley, 2 cars. Hogs, 18,000.

It is anticipated that there will be a good demand from Europe for Corn, owing to the shortage in Danubian countries and Italy.

There were sales of 10,000 bu of No 2 Red Winter at 95@95¼c, and 5,000 bu of No. 2 Hard at 93c, in the Chicago market to-day for "whom it may concern."

Cotton in New York suffered a sharp break. Crop news was of both sorts, but in the main rather favorable. Closing sales were 27@30 points lower.

Local Securities were more active and averaged higher. The main interest centered in Biscuit common and Can preferred. South Side Elevated was weak and ½ lower.

The receipts of Wheat at Liverpool during the past three days were 360,000 bu, of which 40,000 bu were American. Receipts of Corn, 32,000 bu, of which none were American.

Stocks of Wheat in interior elevators of the Northwest are reported at 366,000 bu, compared with 1,268,000 bu one month ago, 316,000 bu one year ago, and 292,000 bu two years ago.

Good rains prevailed in the Canadian Northwest during the latter part of last week, which were beneficial to the crops. Wheat yield is now placed at 65,000,000 bu. unless early frosts occur

Stocks of Wheat in public warehouses in Liverpool reported at 3,136,000 bu, against 3,192,000 bu one week ago and 2,896,000 bu one year ago. Stocks of Corn reported at 560,000 bu, against 656,000 bu one week ago and 1,336,000 bu last year.

Stocks in New York were higher in the morning, but broke and mostly closed lower. The advance was due to active buying by London. The selling was on reduced estimates of a Spring Wheat yield, the advance in Wheat being taken as a motive for selling Stocks. Money 1 per cent.

Secretary of Agriculture Wilson, Monday, announced that this year's crop outlook is highly satisfactory. Corn looks better at this time than for several years, he said, and the Wheat outlook is also more favorable. Crops of Hay and Oats are reported good. In the Cotton belt the prospect is highly encouraging.

Bradstreet's report of the available supply for the past week shows the following changes:

		1904, bu.		1903 bu.
Wheat east of Rockies	Inc.	1,186,000	Inc.	1,187,000
Europe and afloat	Dec.	1,500,000	Dec.	2,800,000
Total	Dec.	314,000	Dec	1,613,000
Corn	Dec.	76,000	Dec.	659,000
Oats	Dec.	566,000	Inc.	985,000

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is ruling quite firm under a moderate local and domestic demand. Foreign bids still out of line. Local stocks decreased 8,750 brls. Stocks at London 74,000 brls, decreased 13,000 brls last month.

WINTER WHEAT—Was in good demand and prices 1@2c higher. There was considerable competition for the offerings and Wheat was wanted by the various interests No 2 Red in store sold at 95@95¼c and fresh receipts to go to store at 95½c, free on board at 96@96½c, and billed through at 94¼@94½c No. 3 Red fresh receipts to go to store sold at 93¾@94¾c, free on board at 92@95c, and billed through at 92½c. No. 4 Red fresh arrivals sold free on board at 75c for poor to 8 @91½c for good to choice. No 2 Hard in store sold at 93c, fresh receipts free on board at 93½@94¼c, and billed through at 93@93½c No. 3 Hard to go to store sold at 92¼c, fresh arrivals free on board at 87c for ordinary to 93@93½c for good and 95c for a very choice car, and at the river at 93c. No. 4 White sold at 76c.

SPRING WHEAT—Ruled firm and prices 1@2c higher. Demand good and there were sales of 75,000 bu of No 1 Northern for Eastern shipment, evidently on milling account. No. 1 Northern in store sold at $1 03 and held firmly. No 2 Northern fresh receipts nominally 99c@$1 00 No 3 Spring nominally 90@97c and No. 4 Spring nominally 70@90c for poor to choice

REGULAR WHEAT—Was again active, excited and higher, the close showing gains ranging from 2¼c to 3⅛c. The higher cables, Northwest crop news and "bullish" reports emanating from that section started renewed buying and market was decidedly strong Commission houses were good buyers, but on the advance there was heavy selling, credited to local "longs," but same was well absorbed. Liverpool quoted spot ½@1¼d higher and futures 1¼@1½d better than Friday, and London came 1⅛@2d higher. Stocks at Liverpool 2,752,000 bu, decreased 424,000 bu during July English country markets were up 6d, and cargoes on passage held 1½d higher. Paris was up 1c and Antwerp ⅝c higher. Buda Pesth was reported 7c higher and Berlin 3½c better than last Friday Liverpool strength was partially due to action here and the large reduction in stocks during July Map showed clear and cool conditions Northwest with no precipitation Fairly heavy and general rains Southwest Temperatures slightly lower West and Southwest. Generally fair weather was predicted, with exception of possible showers for Kansas and Nebraska. LaCrosse advices were "bullish" reporting black rust and reports from Central Western Minnesota states the crop promised 13@15 bu, but rusting badly and quality poor, will be ready to cut in a week Winnipeg estimated the Manitoba crop about 65,000,000 bu of good milling grades based on present conditions and no frost damage during the month of August. The Government weekly crop bulletin was looked upon as "bullish." *Bradstreet's* decreased 314,000 bu, against 1,613,000 bu decrease same week in 1903. Stocks here in all positions, 2,396,000 bu, increased 404,000 bu last week Stocks a year ago, 3,957,000 bu. Contract stocks increased 391,165 bu and now include 629,111 bu, against 2 225 249 bu one year ago. Primary receipts were 108,000 bu smaller than a year ago Kansas City and St Louis received 388,000 bu, against 488,000 bu one year ago Reports from the Jim River Valley favored the "long" interest. Northwest cars 65 larger than last year. Exports were small and no boat loads accepted at the seaboard. Duluth reported the sale of two cargoes to Eastern millers, one of which was new Wheat for September delivery. A feature the closing hour was the strength at the seaboard and in the Northwest. A sale of 75,000 bu cash was made at $1 03 Last prices about best Receipts at Duluth 135 cars and at Minneapolis 79 cars, a total of 214 cars, against 180 cars yesterday, 246 cars a week ago, and 149 cars last year. Local receipts included 211 cars Winter, 2 cars Spring, 1 car mixed, a total of 214 cars, against 183 cars last year. Included in the above were 27 cars contract grade There were 4 cars and 25,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 82 cars. Withdrawals to-day were 71,053 bu. Receipts at Western points were 728,643 bu, against 837,336 last year. At Eastern points 68,698 bu, against 290,119 bu last year Shipments from Western points were 500,037 bu, against 349,612 last year, and from Eastern points 18,850 bu, against 68,200 last year. Shipments of Flour were 17,098 brls. Exports of Wheat in Flour were equal to 85 691 bu

Future Deliveries of Regular Wheat—Good trade and prices higher.

SEPTEMBER—Old Style—Sold at 93⅛@93¼c and at 95⅛c Opened at 93⅜c; sold to 93⅛@93¼c, to 94c, to 93¾c, to 94⅛c, to 93⅝@93¾c, to 94⅛c to 94½c, to 95⅛c, and closed at 95⅛c.

SEPTEMBER—New Style—Sold at 92⅛@94¼c Opened with sales at 92½c to 92¼c; sold to 92⅝c to 92⅞c, to 92⅞c to 92¾c, to 93⅛c, to 93c, to 93¼c, to 92⅞c, to 93⅛c, to 92½c, to 93¼c, to 92⅞c to 93⅝c, to 93½c, to 93¾c, to 93⅜c, to 93¾c, to 93½c, to 94¼c, to 93⅞c, to 94¼c, and closed at 94⅛@94¼c

DECEMBER—Sold at 91⅛@94⅛c. Opened with sales at 91⅛c to 91½c; sold to 91⅜c to 91½c to 91⅛c, to 91⅝@91¾c, to 91⅝c, to 92½c, to 92c, to 92⅝c, to 92⅜c, to 93¼c, to 93c, to 93½c, to 93¼c, to 93⅝c, to 93½c, to 93⅞c, to 93⅝c to 94⅛c, to 94c, and closed at 94c bid.

MAY—Sold at 93¼@93⅝c and at 96⅜c Opened with sales at 93⅜c to 93⅝c; sold to 93¼@93⅝c, to 93⅞c, to 93¾c, to 94½c, to 94¼c, to 94⅛c, to 94¼@94⅜c, to 95c, to 94¾c, to 95⅞c, to 95⅝c, to 96⅜c, to 96¼c, and closed at 96¼c.

CORN—The market was broad and active, with a large trade the close show September 2⅛@2¼c higher, while December gained 2¼c and May 2⅛@2¼c. The start was stronger under a good commission house demand, the higher cables further rise in Wheat and foreign advices being the "bull" helps. At the advance the principal September "longs" were credited with selling and prices settled back, but rallied again and closed at the top. Provision interests sold the May freely, and there was also selling supposed to be for Eastern account The cash demand was not as urgent and the weather was favorable There was some talk of Germany reducing the import duty on Corn, owing to the scarcity of fodder. The present duty is about 10c It was rumored the large Eastern holders of cash had turned the same over to an elevator concern to market. Liverpool quoted spot ½d higher and futures 1½d better Stocks there 1,032,000 bu, decreased 228,000 bu last month Receipts past three days only 32,000 bu. *Broomhall* cabled that a large demand for Corn was expected, owing to the shortage in Danubian countries and in Italy and generally poor outturn of fodder crops. Further buying for foreign account was reported and selling for local elevator interests. *Bradstreet's* decreased 76,000 bu, against 650,000 bu decrease one year ago Stocks here in all positions 5,389,000 bu, decreased 92,600 bu Stocks one year ago 6,791,000 bu. Contract stocks increased 111,706 bu to 2,962,906 bu, compared with 3,291,535 bu one year ago. Primary receipts 465,000 bu; last year 356,000 bu Shipments 354,000 bu and 590,000 bu respectively. Local arrivals 287,000 bu and shipments 270,000 bu. Exports 3,000 bu and 14 boat loads accepted at the seaboard Weekly Government crop bulletin was rather "bearish." Southwestern markets were again strong. Car lots in good demand and prices ½@1c higher. Sales for shipment 125,000 bu. No. 2 closed about 53½c, and No. 2 Yellow at 54¼c No. 3 closed about 53¼c. No. 3 Yellow closed at 54½c. No 3 White sold at 52c No 4 sold at 50½@51⅝

Corn by sample—Was in good demand with the offerings light Feeling firm and prices ½@1c higher. Sales on track and free on board No. 4 sold at 50¾@52¼c. No. 3 at 51¾@52¼c. No 3 Yellow at 52¾@53½c. No. 2 Yellow at 54c. No. 2 White at 51¾c Billed through: No Grade at 47@48c. No. 4 at 49½@51¾c No 3 at 51@51½c No. 3 Yellow at 51¼@52c. No. 3 White at 50½@51c.

Future Deliveries of No. 2 Corn—Active and stronger, closing 2⅛c to 2¼c higher.

AUGUST—Ranged at 50⅝@52⅝c Opened at 50¾c and sold at 50⅝c, to 52c, and closed 52⅝c nominally.

SEPTEMBER—Sold at 51@53¼c Opened at 51¼c to 51⅝c, and sold at 51⅛c, to 51¼c, to 51c, to 51⅝c to 51¼@51⅜c, to 51¾c, to 51½c, to 51⅞c, to 51⅝c up to 53¼c, to 53⅛c, to 53⅛@53¼c, and closed at 53⅛@53¼c

DECEMBER—Sold at 47¼@49¼c Opened at 47⅜c to 47¾c, and sold at 47¾c, to 47¼c, to 47¾c, to 47½c, to 47⅝c, to 47¼c, to 47⅝@47¾c, to 47½c, to 47⅞@48c, to 47¾c, up to 49¼c, and closed at 49¼c

MAY—Sold at 46⅝@48½c. Opened at 46½c to 47c and sold at 46⅝c, to 47¼c, to 46⅝c, to 47c, to 46⅞c, to 47c, to 46⅞c to 47¼c, to 47⅛c, up to 48½c, and closed at 48½c

OATS—Were active and excited at the last, with closing sales at the top, net gains of 1¼@1¾c being made, the latter on May. August was called nominally ½c higher. Cash houses were liberal sellers early against good offerings, receipts being 289 cars Later they bought on predictions of 82 cars for to-morrow Speculative buying of both kinds was larger and the last few minutes witnessed a rush which carried prices to the top. The East was a good seller against purchases of cash lots and "longs" took profits, but all offerings were readily taken Cash sales were small. Contract stocks increased 152,000 bu and are 321,400 bu Stocks in all positions increased 230,000 bu and are 872,000 bu. Seaboard clearances were 22 000 bu Car lots to go to store were ¼c higher at the close No. 3 White old sold at 39c. Standard in store sold at 40c for old, but new closed about 34½@35c.

Oats by sample were weak and ¼c lower early, but advanced ½c with futures and closed strong Demand was better Sales on track and free on board. No Grade new 31@35c No. 4 old 34c, new 32½c No. 4 White new 35c old 31@39c. No. 3 old at 31c No. 3 White new at 35@37c, old at 36½@40c. Standard new at 35½@37c; old at 40½c. No 2 new at 34½@35½c, old at 37½c No 2 White new at 35½@38c Billed through No Grade new at 32½c. No. 4 White new at 33½@34 old at 38c. No. 3 new at 33¾c. No 3 White new at 34@35½c old at 40c. Standard new at 34½@35¼c. No 2 new at 33c. No 2 White new at 31¾@35½c At the river No 4 White old at 29@34c No. 3 White new at 33½@34, old at 37@39c Standard old at 39½c

Future Deliveries of Contract Oats—Were active and higher

AUGUST—Slow. Offered at 35c at about the close

SEPTEMBER—Active Sold at 33⅜@34⅞c Opened at 33⅜c to 33½c sold to 34⅞c at close

DECEMBER—Active. Sold at 34@35⅜c. Opened at 34@34¼c sold to 35⅜c and closed there

MAY—More active Sold at 35½@37⅜c Opened at 35½c, sold to 37⅜c and closed at 37¼c

RYE—Was firm, and while early sales of cash showed no improvement there was a stronger feeling later and prices about 1c higher, while September advanced 1¾c. Demand good and offerings light. Some of the car lots were taken for milling account Only eight cars were received There were no withdrawals from store here and no clearances from New York. No 2 in store sold early at 62c, and part car free on board sold at 61c No 3 fresh receipts sold free on board at 61@61c, and No 4 at 54c

Future Deliveries of No. 2 Rye—Firm Some demand and offerings light. September sold at 62½c, and closed at 63⅝c bid

BARLEY—There were a few cars of old Barley offered; no fresh arrivals of new Postings to-day showed 18 cars in, 5 cars new. There were no such offerings, however No special demand for Barley existed. Values for the present are uncertain. No one cares particularly about buying and no one will buy except within a certain range of prices, or at prices which would be favorable to the buyer Samples of new Barley continue to be shown. They are of uneven quality, yet on the whole better than last crop A specimen of Wisconsin Barley was exhibited which was of particularly high grade in every way. Old Barley quotably about as follows Screenings over a range of 28@36c for poor to choice Feed Barley, common to good 30@35c Malting, low grade, was quotable 38@40c; fair to good, sound, 42@45c.

SEEDS—Were steady to firm as a rule The only change noted was a small improvement in the price of Flax Seed Trading almost at a stand still.

Timothy—There was no trading On new crop delivery, buyers and sellers were apart. September were called nominally $3 20, a shade above this was asked and a shade lower was bid. No cash Seed offered. Market nominal for it. Contract old spot or August delivery about $3 05 Country lots quotable at $2 00@3 00 for low grade to fancy, choice about $2 75@2 85, fair to good Seed $2 55@2 70 and rough at $2 40@2 50.

Flax—There was ½@1c improvement The market was firmer mainly because it was stronger in the Northwest. Offerings remain small. No special feature was presented. In the Southwest cutting and threshing of Flax was said to be in progress. Posted receipts 2 cars or 1,800 bu, no output. Minneapolis got 8 cars and Duluth 70 cars—good receipts for latter No. 1 Northwestern or No. 1 from the Northwest salable at $1 24½ No 1 sold at $1 17 Rejected about $1 13@1 16, depending on quality September was at $1 16½ bid and $1 17 asked

Clover—Lifeless and nominally the same as of late reported. Contract spot Seed at $11 25 Country lots, common to choice, $9 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 50; poor, cleaned out of Timothy, very foul, lower Fair to good, $9 50@10 25

Other Seeds—Inactive. No quotations for Hungarian and Millets. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10 poor down to 50@60c

HOG PRODUCTS—Trade was fair in the market for Hog Products, and the feeling was rather easy. Stocks on hand were somewhat larger than generally anticipated, and the supply of Hogs was fairly liberal Conditions at packing houses are gradually improving. Outside orders were small, and local trading was moderate. Offerings were fair from miscellaneous source, and the demand was not particularly urgent. The market opened rather easy, at a slight reduction, and a further decline was submitted to, with some realizing by "longs," and a little selling by packers. Toward the close, a little more steadiness prevailed with a moderate inquiry, and prices rallied again. Market closed rather steady at nearly outside figures. Receipts of Hogs at the leading Western packing points were estimated at 53,700, compared with 50,500 one year ago Foreign markets were stronger, and prices were advanced 3d on Lard and 6d on Hams. Domestic markets were steady. Receipts of Products were fair—of Lard and Meats about 15 cars. Shipments were moderate—of Lard and Meats about 98 cars. Shipping demand was moderate and offerings were fair. Prices steady, with only fair sales.

Mess Pork—A fair business was transacted in Mess Pork, and the feeling was easier. Offerings were fair, and the demand was only moderate Stock increased about 300 brls, and is about 75 per cent larger than last year. Market opened easy at 2½c decline, and further declined 2½c. Later, a little more steadiness prevailed, and prices rallied 5c but a weaker feeling again developed, and prices receded 7½@10c. Toward the close, a little more steadiness prevailed, and prices rallied 5@7½c and the market closed steady. Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $12 80@12 85.

SEPTEMBER—Offerings were fair and the demand was moderate. Sales were made at $12 80@12 90. Opened at $12 87½, sold to $12 82½@12 85, to $12 85, to $12 80, to $12 82½, to $12 80, to $12 82½@12 85, to $12 82½, to $12 87½, to $12 85, to $12 87½, and closed steady.

OCTOBER—Called for moderately, and offerings were only fair. Sales were made at $12 85@12 97½. Opened at $12 97½, sold to $12 85, to $12 92½, to $12 90, to $12 90@12 92½, and closed steady.

Lard—Trade was moderate in Lard, and the feeling was easy Offerings were fair, and the demand was only moderate Foreign advices were a little more favorable to holders. Supply on hand increased about 20,000 tcs, and the world's supply about 25,000 tcs. Prices on the whole range declined 7½@10c, but rallied again 2½@5c, and closed steady around medium figures. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 85@6 87½ Loose lots in small request with limited offerings Prices steady at about 50c discount on September figures Leaf Lard was in light demand, with moderate offerings. Quotably steady at $6 25. Neutral in only limited demand, with fair offerings Prices quotably steady at $7 00@7 12½ for No 1, and $6 75@6 87½ for No. 2.

SEPTEMBER—In moderate request and offerings were fair. Sales were made at $6 90@6 97½ Opened to $6 97½, sold to $6 90, to $6 95, and closed steady.

OCTOBER—Offerings were moderate and the demand was rather light Sales were made at $7 00@7 02½ Opened at $7 02½, sold to $7 00, to $7 00@7 02½, and closed steady

DECEMBER—Quiet, with small sales at $6 97½.

JANUARY—Sold sparingly at $6 85.

Short Rib Sides—Trade in Short Rib Sides was moderate, and the feeling was easier Offerings were fair and the demand was only moderate Prices on the whole range declined 5@7½c early but rallied again later in the day and the market closed steady at outside figures. Stock on hand increased about 1,375,000 lbs during July Shipping demand was light, and offerings were somewhat limited Cash lots were quotable at $7 50@7 62½ according to weight

SEPTEMBER—Offerings were fair, and the demand was only moderate. Sales were made at $7 57½@7 65. Opened at $7 65, sold to $7 57½ to $7 62½@7 65 and closed steady.

OCTOBER—Inquiry rather light, and offerings were moderate Sales were made at $7 62½@7 67½ Opened at $7 65 sold to $7 62½, to $7 67½ and closed steady

Other Meats—Trade was only fair, and mainly on domestic account Exporters buying moderately Offerings fair, and the inquiry moderate Green Meats in limited supply with a light inquiry and prices steady Pickled Meats in fair request with only moderate offerings and prices were higher. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately and prices were steady Closing prices ranged as follows

GREEN—Hams av 10@12 lbs, 9¾@9⅞c 12@14 lbs, 9½@9⅝c 14@16 lbs, 9½@9¾c; 18@20 lbs 9¾@9⅞c, Skinned Hams 11⅛@11¼c; Shoulders, 6¾@6⅞c; Picnic Hams, 7⅛@7¼c, Bellies, 10@11c PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9⅝@9¾c; 14@16 lbs, 9⅝@9¾c cash, 9¾@9⅞c August; 18@20 lbs, 10@10⅛c; Skinned Hams, 11½@11⅝c cash, 11⅝@11¾c August; Shoulders, 7½@7¾c; Picnic Hams, 7¼@7⅞c; Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7¼@7⅜c; Short Fat Backs, 6¼@7½c; Short Clear Backs, 8¼@8¾c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c Extra Short Rib Sides, 7⅜@7½c; Extra Short Clear Sides 7⅜@7½c; Rough Sides, 7½@7¾c Plates, 5¾@6c; Jowl Butts, 5@5⅛c. Sales were: ON TRACK—Tangled Rye—1 car at $9 00.

CALIFORNIA WHEAT.

[San Francisco Weekly Commercial News, July 28.]

At a recent meeting of the California State Board of Trade the principal subject of discussion was California Wheat and its merits in competition with Wheat produced in other States. In the past, the prosperity of California largely depended upon its Wheat crop and there is no reason why, in the future, it should not be one of its greatest resources. When a country like France, where the land has been cropped for centuries, can profitably produce an annual yield of 10,000,000 tons, or an average of 3) bu per acre, can any one say that this great State of ours will never again raise 1,000,000 tons. To-day our average yield does not exceed 13 bu per acre. A great deal can be done by the individual effort of the farmer in planting proper seed, and with a scientific application of the necessary fertilizers we can increase our output, and with profit, too, just as the Hawaiian Islands doubled their yield of Sugar by the same scientific measures. This is a matter of such vital importance to the State at large that certainly the Legislature should make a liberal appropriation for experimental purposes, as suggested by the State Board of Trade. To this city it means much, for if we have no Wheat to export there will be practically few ships seeking our port, and our much vaunted commerce will sink into greater insignificance than the position which it occupies to-day as regards its foreign trade, which is practically at the bottom of the list of the fifty great mercantile ports of the world. This is hard for us to believe, perhaps, but it is true nevertheless.

IMPORTS OF FLOUR AND WHEAT.

[From the Liverpool Corn Trade News.]

The following table exhibits the imports of Flour and Wheat into and on passage to the following countries from August 1, 1903, to July 15, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
United Kingdom	229,461,000	200,408,000
France	17,984,000	26,624,000
Belgium	63,072,000	51,200,000
Holland	49,405,000	53,2 8,000
Germany	27,768,000	29,664,000
Italy	32,936,000	59,912,000
Spain	5,976,000	3,840,000
Portugal	1,432,000	2,720,000
Greece	3,904,000	6,240,000
Scandinavia	13,040,000	10,968,000
Austria-Hungary	190,000	784,000
North Africa, etc	1,056,000	1,864,000
Other countries	57,296,000	68,248,000
Totals	502,456,000	514,680,000

EXPORTS OF BREADSTUFFS.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Breadstuffs from the following countries from August 1, 1903, to July 16, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
America	138,282,000	231,720,000
Russia	134,512,000	131,152,000
Danubian	55,712,000	55,624,000
India	53,240,000	25,352,000
Argentina	77,976,000	58,644,000
Australasia	27,760,000	......
Austria-Hungary	4,936,000	2,840,000
Chili, North Africa	10,088,000	9,448,000
Totals	502 456,000	514,680,000

EXPORTS OF CORN.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Corn from the following countries from November 1, 1903, to July 16, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bushels.	1902-3, bushels.
America	33,152,000	66,992,000
Russia	11,816,000	10,888,000
Danube and neighborhood	28,520,000	22,496,000
Argentina	41,712,000	21,836,000
Other Countries	448,000	2,120,000
Total	115,648,000	126,332,000

EXPORTS OF OATS.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Oats from the following countries from August 1, 1903, to July 16, 1904, compared with the corresponding time in 1902 3:

Countries—	1903-4, bushels.	1902-3, bushels.
Russia	27,664,000	69,696,000
America	2,272,000	8,040,000
Sweden	104,000	64,000
Roumania and Turkey	22,664,000	11,096,000
Algeria and Tunis	3,976,000	5,136,000
Total	56,680,000	94,032,000

EXPORTS OF RYE.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Rye from the following countries from August 1, 1903, to July 16, 1904, compared with the corresponding time in 1902 3:

Countries—	1903-4, bushels.	1902-3, bushels.
Russia and Danube	37,112,000	61,192,000
America	696,000	5,576,000
Germany	6,624,000	4,864,000
Total	44,432,000	71,632,000

THE WEATHER CONDITIONS.

Clear and cool Northwest and West. Light rains in Ohio Valley. Fairly heavy and general rains Southwest, heaviest at Springfield Mo., with 96 inch. Memphis 1.21, at Chattanooga 2.92. Wichita has .23 inch rain; Oklahoma City .44 inch.

Indications are for generally fair weather for entire forecast district, with slowly rising temperatures.

ITEMS OF GENERAL INTEREST.

The gross earnings of the "Monon" in the third week of July were $100,087, a decrease of $6,080.

The output of the St. Louis Flour mills for the past week was 61,100 brls, against 32,000 brls for the previous week

Fire, Sunday, destroyed the establishment of the Shilbest Mercantile Company in San Francisco. Loss, $12,5000.

The gross earnings of the Chicago Terminal Transfer Company in the third week of July were $28,549, a decrease of $3,181.

The wholesale grocery warehouse of Eby, Blain & Co., in Toronto, Ont., was partly destroyed by fire, Friday, causing a loss of $150,000.

Rochester, N. Y., has awarded $150,000 eight months local improvement loan and $75,000 eight months high school loan at 3.45 per cent.

The report from St. Louis that the Wabash and Missouri Pacific Railroad companies are to be consolidated is denied absolutely by a prominent official of the Missouri Pacific.

Fire in the saw and planing mills of Squire & Sons at Omega, Fla., Thursday, caused a loss of $100,000. The planing mill, dry kilns and a large amount of Lumber in the yards were burned.

The regular quarterly dividend of 1¾ per cent on the guaranteed stock of the Cleveland and Pittsburg Railroad Company has been declared, payable Sept. 1 to stockholders of record Aug. 10.

Directors of the Michigan State Telephone Company have decided to expend $200,000 at once on betterments to the system. The growth of the business since the reorganization of the business has been unusually flattering.

The group of four buildings of the Ornamental Terra Cotta Works owned by Conkling, Armstrong & Co. at Philadelphia, was totally destroyed by fire Sunday. The loss is estimated at $150,000, fully covered by insurance.

The committee on Stock list of the New York Stock Exchange has stricken from the list Oregon Railway and Navigation Company common stock. The stock has all been returned in exchange for Union Pacific stock under the order of October, 1899.

The directors of the Hargreaves and Harker Cotton mills at Fall River, Mass., passed quarterly dividends for the first time on record. It is reported also that the Union Weetamoe and the Border City mills have passed their quarterly dividends.

Payments for the new preferred stock to be issued by the Southern Pacific have been called for the following dates: Twenty-five per cent before Sept. 1, 25 per cent before Oct. 3 and 50 per cent before Dec 1. After the last named date the stock will be issued as soon as possible

The General Electric Company has been contemplating for some time the idea of installing the Fessenden wireless telegraph system between the Schenectady and Lynn plants as a saving in time and money. It is expected the system will be in operation early in the autumn.

A dispatch from Portland, Ore., says: "Indications are that the Oregon Hop crop will amount to about 90,000 bales, or about 15,000 bales less than last year. The season has been unfavorable, the long dry spell which occurred last month nearly causing a failure. The quality of the Hops is exceptionally good, however."

The State Bank at White Pigeon, Mich., capitalized at $251,000 and one of the oldest financial institutions in the southern part of the State, did not open for business, Saturday. A statement was issued by the officers of the bank promising the depositors payment in full. No reason was assigned for the closing of the bank.

A strike of 75,000 miners in the Anthracite Coal field is considered imminent. The executive board of District No. 1, United Mine Workers, meets, Monday, to consider the action of the operators in failing to make deductions in check weighmen's wages. The companies are said to have agreed to do this. Chances of conciliation are considered remote.

Corn Trade News of July 20: "Our Barcelona agent writing under date 17th inst. says that the crop news is changing for the worse: even in old Castile and other districts where the crop promised to be abundant, estimates are being reduced. The long drouth of April and May, the excessive heat of June, and recent severe hailstorms have much impaired all crops."

Judge Putnam, in the United States Circuit Court at Portland, Me., Friday, entered a final decree of foreclosure and sale against building plants in different parts of the country controlled by the United States Ship Building Company on bills in equity brought by the Mercantile Trust Company of New York and the New York Security and Trust Company of New York.

Although the report has been circulated that the temporary closing of the plants of the International Harvester Company signifies at least a partial permanent shut down or removal, the general manager of the company declares that the works will be closed for two weeks only in order that a complete inventory of the stock may be made and improvements installed. The company in all its plants employes over 15,000 men.

In regard to a report that the Tennessee Copper Company had passed the dividend of $1.25 a share on its stock, it was stated at the office of the company, Friday, that efforts had been made for a month past to secure a quorum for the purpose of acting on the dividend, but without success. The president of the company is not in town, but it is stated that the dividend has not as yet been formally passed

Top and average weekly Cattle prices at Chicago for periods mentioned:

	Past week. Top.	Past week. Av.	Prev. week. Top.	Prev. week. Av.	Year ago. Top.	Year ago. Av.
Beef, Steers	$6 65	$5 50	$6 40	$5 65	$5 60	$4 95
Heifers	5 50	3 95	5 75	4 20	5 50	3 90
Cows	5 00	3 40	5 25	3 60	4 80	3 30
Feeders	4 00	3 50	4 15	3 60	4 35	3 95
Stillers	6 20	5 95	6 25	6 10	5 30	5 20
Still Bulls	4 30	4 30	4 35	4 35	4 25	4 20

Directors of the American Guaranty Company, Chicago, Friday, placed the stock of that corporation on a 6 per cent basis. The first dividend will be paid to stockholders Aug. 1. This declaration is the first in the history of the company, which has been in business twelve years. The directors of the company adopted the policy of not making payments until the surplus of the company equaled the capital stock. Both funds now stand at $500,000.

The forthcoming report of the United States geological survey will show that the United States exceeded all previous records in the production of Coal in 1903. The total amount of the output of the Coal mines of the country during that year was 359,421,311 tons, an increase of nearly 58,000,000 tons or 19 per cent over the preceding year. The value of the product of 1903 is given as $564,190,733, an increase in value of 38 per cent over the preceding year.

The *Corn Trade News* of July 20 says: "The hot weather still prevailing in France will, it is thought, have a marked effect upon the yield of the crop, for already in several districts the Grain has matured before having developed to the full extent. Reports show some variety, but speaking generally, the harvest has commenced almost everywhere, and so far it is believed the yield will prove to be one-fourth to one-third short of last year's crop."

According to an authority, the Western Electric Company is very busy, and new orders are said to be coming in in greater volume than for some time past. A full force of men is at work in all departments of the company's plants. The large order from Russia for a complete telephone plant has been followed by numerous others of large size. It will take the company about a year to complete the work of making 40,000 telephones for the St. Petersburg plant.

J. A. Everitt, president of the "National Union of the American Society of Equity," has issued a circular advising farmers to hold their Wheat for $1.20 a bu, Chicago basis. He says that of 12,128 reports received from farmers, 11,122 said they did not need to sell at once and could hold until December if necessary. Everitt estimates the crop at 575,000,000 bu. He says the farmers can easily make the price for their Wheat by marketing it slowly and they ought to do so.

A London cable to the Chicago *Tribune* says: "Day by day men in every station of life throughout the length and breadth of Great Britain are having the sad truth forced upon them that there is no money about. Those who may have thought the trade depression was not general are finding themselves with falling dividends and decreased business. Men out of employment, whether skilled clerks or artisans, or unskilled laborers, are discovering that situations are even more difficult to obtain than hitherto, and throughout every trade and profession increasing difficulty is experienced in collecting money for goods supplied and work done. Yet all the while the cost of the necessaries of life shows a tendency to increase. Charitable institutions are in the depths of despair, while the Stock Exchange stagnation is no longer heeded, the complaint having become chronic."

The London *Times* says: "Amid the intense heat and brilliancy of last week further progress, and that of a substantial character, was made with the harvesting of the Hay crop. Recent weather conditions have all been such as make for harvest, and this critical period of the farmer's year has been brought appreciably nearer thereby. Nevertheless, the Grain harvest cannot be an early one, for at this date in years so recent as 1899, 1900 and 1901 Wheat-cutting, it may be recalled, was in progress in several of the southern shires. While farmers have been filling their yards with Haystacks that will enable them to carry their Live Stock well into the coming year, they have had the mortification of seeing their young Swedes and Turnips shrivel up and die away. But, with so much Hay well saved in the background there is no present reason to lose hope or to depreciate the price of Live Stock, more especially Sheep, at the autumn sales."

STOCKS OF PROVISIONS IN LIVERPOOL.

The following were the stocks of Provisions in Liverpool on the dates named:

	Aug. 1, 1904.	July 1, 1904.	Aug. 1, 1903.	Aug. 1, 1902.
Bacon, boxes	10,824	10,802	11,379	12,261
Hams, boxes	5,289	6,899	2,093	3,257

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling steady at 484½

Chicago Bank Clearings to-day, $28,378,735.

Ten packers purchased 13,600 Hogs to-day; shippers, 4 000; left over, 9,000 Market closed strong.

Reported that 56,000 bu Wheat, 68,000 bu Corn and 50 000 bu Oats were taken at the seaboard to-day for export.

Sales of 4 cars new No. 1 Oats were made here to-day at 3?c, and 1 car No. 1 White Oats at 40½c billed through.

A reliable authority in the Northwest estimates that the crops have been damaged at least 10 per cent up to date

Estimated receipts for to-morrow: Wheat, 107 cars; Corn 216 cars; Oats, 208 cars; Rye, 2 cars; Barley 14 cars Hogs, 12 000.

Average cost price of Hogs at Chicago, Tuesday, was $5 27, against $5 36 Monday, $5 51 last Saturday, $5 42 a week ago, and $5 16 a year ago.

Local Securities were slow and mostly steady There were gains of ½ on Box Board preferred and 1 point on Diamond Match. South Side Elevated lost ½

Ohio crop report says: "Condition of Wheat 60; last month 59, last year 80. Crop very uneven, ranging from barely seed to a fair average Next report on threshing returns. Condition of Oats, 99.

In answer to cables, a Chicago commission man had the following from Paris. "Wheat prospects below an average. Corn prospects in the Danubian provinces very poor. Fodder crop prospects for Continent poor."

The August report of the Chief of the Bureau of Statistics of the Department of Agriculture makes the present average condition of Cotton 91.6 per cent, against 88 per cent last month, 79.7 per cent at this time last year, and 81.6 per cent at this time in 1902.

Cotton in New York was weak and lower early on the "bearish" Government report. Wall Street sold heavily, but the "bulls" took the offerings and advanced prices at the last Closing sales were at 1 point off on August and 6@10 points lower on other months.

Stocks in New York were strong, despite reports of crop damage in the Northwest. There was strong buying by leading interests, and "shorts" were run in Western Railway shares advanced ½ to 1½ points, Coalers ¼ to ⅝ and Industrials ¼ to ½. Money ¾ to 1 per cent

A repetition of the recent experience in the delivery of July Wheat at the end of the month is not likely to occur again. Directors of the Chicago Board of Trade have instructed the committee on rules to revise the rules regulating deliveries and lengthen the hours on the first and last day of each month. The idea is to give plenty of time.

Broomhall's cable says of Russia: "In the Southwest, in the Dneiper River districts, crops are an average, this being an important Wheat growing territory In the Government of Podolia Winter Wheat is good, but Spring bad This is about the second largest grower of Winter Wheat, but the Spring not important Odessa district crops bad. This is one of the leading growers of both varieties of Wheat In Bessarabia, which is a very important Winter and moderate Spring grower condition in North is good, but in the South is a total failure."

A freight bureau was authorized by the Chicago Board of Trade Directors, Tuesday. The Directors ordered the appointment of a committee of three, who are to secure a man thoroughly posted in freight rates. He is to keep a record of the freight rates on products dealt in on the Board, and is to use his influence in preventing all rate discriminations, and to work for the benefit of members of the Board. The committee has power to establish the office and all its details. Its actions are to be approved by the Board of Trade Directors.

A Minneapolis elevator firm says: "We have had a careful investigation made throughout the three states and condition to be about as follows: In the southern part of South Dakota there was little damage as the crop was mostly ready for harvest. The section which suffered the greatest damage seems to lie through the eastern counties of South Dakota and north of Mitchell In this district where the prospect ten days ago was for the best yield of Wheat ever harvested in South Dakota, the prospect is now for a yield no better than that of 1903, possibly not as good There are several reports from the southeast corner of North Dakota showing rust, and rust is noticed by reporters through the Red River Valley and through southern Minnesota, but, with two or three exceptions, the opinion is expressed that the crop will not be damaged by the small amount of red rust noticed. Some reporters, who have evidently been very careful in their examinations report the heavy rains of the 29th have washed off the red rust and fields which had shown rust have improved Where the Wheat has black rust it is seriously damaged All of the reports used as the basis for this letter were written July 29th and 30th and many of them say that there has been no damage to crop and that the district covered never promised better yields than now It is to be noted also that Oats and Barley have been damaged by rust Northern points all mention the lateness of the crop, and there is general fear of frost damage to Wheat in North Dakota Rye and Barley are about out of the way, and Wheat harvest is general in South Dakota and Southern Minnesota."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate but market was stronger, with prices in some instances 10@20c higher.

WINTER WHEAT—Demand good on milling and speculative account and feeling firm and prices about 1c higher The offerings were taken up readily. No. 2 Red fresh receipts free on board sold at 96¾@97c, and billed through at 96c No. 3 Red fresh receipts free on board sold at 94¼@95c and billed through at 94½c No. 4 Red car at 85@93c, and No Grade Red at 72½c No 2 Hard sold to the extent of 90,000 bu but price not given, and a car sold to go to store at 95¼c, with sales free on board at 95@96c, and billed through at 95c No 3 Hard sold at 95c and ranged down to 93c No Grade Hard sold at 78c

SPRING WHEAT—Ruled firm, with sales of No 1 Northern to-day of 192,000 bu at $1 03@1 03½, making since yesterday noon sales aggregating 267 000 bu The demand was good. No. 2 Northern quotably $1 00@1 02 No. 3 Spring nominally 92@99c No 4 Spring quotably 70@92c

REGULAR WHEAT—The trade was again very heavy and market broad with prices most irregular, the close showing new September ⅛c higher, while December gained ⅛@¼ and the May ⅛c Sentiment was very much mixed and transactions of immense volume and difficult to follow The start was easier, with local "longs" selling and taking profits The weather was looked upon as favorable, the receipts were large and cables while higher, did not respond fully to the rise on this side yesterday. At the decline the demand improved, buying of December being a feature and situation turned stronger. Reports of rust from the Northwest were again numerous. British consols were off 5-16 and Russian crop news unfavorable. Many of the early sellers turned buyers and market for a time was very strong. Primary receipts were 150,000 bu larger than a year ago, Kansas City and St. Louis receiving 387,000 bu, against 197 000 bu same day in 1903. Liverpool quoted spot 1d lower to ¼d higher and futures 1@1⅛d better. English country markets were up 6d and Mark Lane was quoted 6@9d better, while Flour was up 9d to 1s. London came ½@1½d higher Paris was ⅛@¼c lower, Berlin ⅜c higher, and Antwerp and Buda Pesth ⅝c higher. Local shipping demand was better and sales of about 400 000 bu No 1 Northern reported at $1 03@1 03½. Paris cabled that Wheat prospects were below an average Toledo wired: "Ohio Wheat 60 per cent last month, 59 per cent against 80 per cent one year ago" Map showed general light rains in the Canadian Northwest with temperatures a little higher in our Northwest Showers were quite generally predicted Minneapolis reported stocks had decreased 450,000 bu the past four days Exports were small and 7 boat loads were accepted at the seaboard. Minneapolis wired "Some fresh samples of rusted Wheat in from South Dakota The kernel of the Wheat is not as bad as might be expected. This crop is not going to be completely ruined just yet, unless we get much more rain " A local crop authority who's reports are now coming in said: "Reports show that rust damage is confined to South Dakota where the crop was attacked just as it was ready to cut The damage is variable heavy in a very few counties light in a larger number, with none worth reporting in a majority of cases In reports from 27 countities in Minnesota received this morning, rust is noted in but three with no claim of damage in these Returns from Barnes, McHenry and Kidder counties, North Dakota, specifically deny any appearance of rust. In South Dakota Lincoln, Hutchinson and Spink report some damage, while Brule, Hyde and Lake report crop harvested without showing any rust." This latter report induced renewed liquidation by local "longs" and prices again settled back Receipts at Duluth 22 cars and at Minneapolis 71 cars, a total of 93 cars against 211 cars yesterday, 140 cars a week ago, and 138 cars last year. Local receipts included 82 cars Winter, 3 cars Spring, no car mixed, a total of 85 cars, against 123 cars last year. Included in the above were 7 cars contract grade There were 40 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 107 cars. Withdrawals to-day were 43,750 bu. Receipts at Western points were 848 460 bu, against 643,937 last year At Eastern points 90,123 bu, against 237,1?3 bu last year. Shipments from Western points were 487,052 bu, against 197,610 last year, and from Eastern points 9 694 bu, against 76,432 last year. Shipments of Flour were 4,670 brls. Exports of Wheat in Flour were equal to 30 779 bu

Future Deliveries of Regular Wheat—Good trade and market firm.

SEPTEMBER—Old Style—Sold at 94⅞@96¼c. Opened at 95¼c to 95c; sold to 94⅞c, to 95¼c, to 95⅛c, to 96¼c, to 96c, to 96⅛c, to 95¼c, to 95¾c, to 95c, to 95¾c, to 95⅝c, and closed at 95⅝c

SEPTEMBER—New Style—Sold at 93¾@95⅜c—only sparingly at 93¾c. Opened with sales at 94¼c to 94c: sold to 94⅛c, to 94c, to 94½c, to 94¼c, to 95⅜c, to 94½c, to 94⅞c, to 94⅛c, to 93¾c, to 94⅝c, to 93⅞c, to 94¾c, to 94⅝c and closed at 94⅝c bid.

DECEMBER—Sold at 93½@95¼c. Opened with sales at 93⅞c to 94⅜c; sold to 94¼c to 94c, to 94⅜c, to 94¼c, to 95¼c, to 94½c, to 91⅞c, to 94c, to 94⅝c, to 93½c, to 94¼c, to 93½c, to 94¼c, and closed at 94¼c sellers.

MAY—Sold at 95⅝@95¾c and at 97⅝c. Opened with sales at 96⅛c to 96½c, sold to 96¼c, to 97⅛c, to 97c, to 97⅝c to 96⅞c, to 97c to 96¾c, to 97⅛c, to 96½c, to 96⅝c, to 95¾c, to 96½c, to 96¼c to 95⅝@95¾c, to 95⅝c, and closed at 96¼@96⅜c

CORN—There was a tremendous trade and active unsettled market, with the close 1⅜c lower for September, while December lost ⅝c and the May ½@⅝c The start was easy on free selling of September which was credited to the principal "long" interest, the offerings being immense and taken chiefly by "shorts." December and May at the time sold off in sympathy, but later, under a good miscellaneous demand ruled stronger, the Southwest being conspicuous on the buying side. Later these deliveries reacted with the September. The "long" line of September referred to above was estimated anywhere from 5,000,000 bu to 7,000,000 bu, and a fair share of the same was supposed to have been taken by foreigners. Provision interests were thought to have covered May that was sold yesterday. Cables were strong and foreign crop news "bullish." Liverpool quoted spot 1½@1¾d higher and futures up ¾d. Paris cabled that Corn prospects in the Danubian provinces were very poor and also the fodder crops. Receipts were only 113 cars, against 98 cars last year, and 216 cars are estimated for to-morrow. Weather conditions were looked upon as favorable and showers quite generally predicted. Primary receipts were 371,000 bu, against 354,000 bu. Shipments 211 000 bu and 340,000 bu respectively. Local arrivals 251,000 bu and shipments 161 000 bu Exports were small at 9,000 bu and 2 boat loads accepted at the seaboard But seven cars of contract switched from private elevators Shippers reported a fair demand, and sales were 170,000 bu. London Mark Lane was quoted 9d higher Car lots were in good demand and moderate supply. Prices were ¼@½d higher Charters were made for 520,000 bu No 2 closed at 52¼c and No 2 Yellow at 53¼c No 3 closed at 52c No 3 Yellow sold at 53½@54c and closed at 52¾c. No. 4 sold at 51½c

Corn by sample—There was a good demand, and not much on the market Feeling firm and prices ½c higher, but the close was easy Sales on track and free on board: No Grade sold at 47@48½c No 4 at 50@51½c No. 3 at 51½@52¾c No 3 Yellow at 53½@54½c, No. 2 at 53c No 2 Yellow at 54¾c, No 3 White at 52@52½c. Billed through. No Grade at 48½@49½c No. 4 at 50½@52¼c. No 3 at 51½@52½c No 3 Yellow at 52@52½c No. 3 White at 51¼@51½c, No. 2 White at 52c

Future Deliveries of No. 2 Corn—Active and weaker closing ½@⅝c and 1⅜c lower.

AUGUST—Inactive Sold at 51⅝c; closed at 51¼c

SEPTEMBER—Sold at 51½@53c Opened at 53c to 52⅝c, sold at 52¼c, to 52¾c, to 52¼c, to 52⅛c, to 52c, to 52¼@52⅜c, to 51¾c to 52c, to 51½c, to 51⅞c, to 51¾@51⅞c and closed at 51¾@51⅞c

DECEMBER—Sold at 48¼@49⅜c Opened at 49¼c to 48⅝c and sold at 58⅝c, to 49⅜c to 48¾c, to 49⅛c, to 48¾c, to 49⅛c, to 48½@48⅝c, to 48⅞c to 48¼c, to 48½@48⅝c to 48½c, and closed at 48½c bid

MAY—Sold at 47¾@48¾c Opened at 48⅝c to 49c, and sold at 48½@48⅝c to 48⅜c, to 48⅝c, to 48c, to 48¾c, to 48¼c, to 48¾c, to 48⅜c, to 48⅝@48¾c, to 48½c to 48⅜c, to 47¾c to 48c to 47⅞@48c, and closed at 47⅞@48c.

OATS—Were heavily traded in there being a general business. "Shorts" covered, new buying was conspicuous and extensive taking of profits and selling by cash houses to hedge against cash purcheses were the features Prices at their best were ⅛@¼c higher than yesterday's close, except on May A break of ⅞@1¼c followed and last sales was at losses of ½@¾c from Tuesday's close. The Ohio crop report made the condition 99 and said acreage was large Cash sales were only 25,000 bu. Arrivals were 96 cars, with 208 cars expected to-morrow. Seaboard clearances 16,000 bu. Car lots to go to store were ½c higher Standard to go to store sold at 35½@36c No. 2 White at 35½c Standard in store closed at 34⅛@34½c

Oats by sample were in better demand and prices ½c higher Supplies were larger and quality averaged good. A liberal part of the arrivals were new Sales on track and free on board No Grade new at 33@36c. No 4 new at 33½c No. 4 White new at 34@36c: old 36½@38c No 3 new at 34½c, old at 34@36¾c. No. 3 White new at 35½@38c, old at 38@40c. Standard new at 37@37½c No 2 new at 34½c. No. 2 White new at 36½@37½c. Billed through: No Grade new at 32½@34c. No. 4 new at 32@33c No. 4 White new at 34@35c No 3 White new at 34½@35½c Standard new at 35½@38c, old 40c No 2 new at 33@35½c. No 2 White new at 35¼@36c. At the river: No. 4 White old at 34@36½c. No 3 White old at 35½@37¼c

Future Deliveries of Contract Oats—Were stronger early and unsettled and lower later

AUGUST—Slow. Closed at 34¼c

SEPTEMBER—Active Sold at 33¾@35c. Opened unsettled at 34¼c to 35c sold irregularly to 33¾c, to 34@34⅛c at close.

DECEMBER Active Sold at 34½@35⅝c. Opened at 35c to 35⅝c, sold to 34½c, to 34⅝@34¾c at close.

MAY—Freely traded in Sold at 36⅝@37¼c Opened at 36¾c to 37¼c, sold to 36⅝c to 36½@36⅝c at close.

RYE—The market was firm and prices for September show further advance Demand moderate There were only three cars received The withdrawals from public elevators were 3 700 bu No export clearances from New York No. 2 fresh receipts sold at 64c to go to store, and at 65c free on board. No. 3 sold at 60c. The buying was speculative.

Future Deliveries of No. 2 Rye—Ruled firmer. September sold at 64c and closed at 64c sellers

BARLEY—A few cars of old Barley were offered They were not all sold. Demand was of the lightest possible kind. Only a very little wanted for mixing, and since a good crop seems to be assured maltsters are holding off, waiting for new Barley There was no new offered It is not cared for yet. Shipments of new for a short time, are discouraged rather than encouraged It is preferable for all concerned to have Barley go through the sweat, become seasoned and arrive in good order when it does come to market. Six cars of old Barley inspected in Prices were without essential change Screenings, old, quotable over a range of 18@36c for poor to choice Feed Barley, common to good 30@35c Malting, low grade, was quotable 36@41c, fair to good, sound, 42@45c.

SEEDS—Nothing material was done. New crop Timothy sold a shade higher Flax and the rest were nominally steady

Timothy—A few cars of September delivery sold at $3 25. This was 5c over yesterday's nominal quotation There were some buying orders early and no offerings except at the advance Later September was offered at $3 25, and demand absent Spot and some to-arrive Seed offered No sales learned of Some of the Seed was held on limits and some was held for resample Cash market nominally firm, for good quality at least. Contract old spot or August delivery about $3 05 Country lots quotable at $2 00@3 00 for low grade to fancy, choice about $2 80@2 90, fair to good Seed $2 65@2 75 and rough at $2 45@2 55

Flax—There was no essential change Market inactive. A car of Flax was offered, but no sale reported. A nominally steady feeling prevailed Little Flax moving. Local receipts were 2 cars or 1,800 bu; none taken out. Minneapolis got 5 cars and Duluth 7 cars. No. 1 Northwestern or No. 1 from the Northwest was $1 24 bid No 1 salable at $1 17 Rejected about $1 13@1 16, depending on quality September was at $1 16½ bid and $1 17½ asked

Clover—Nothing doing and no change quotable: nominal as follows: Contract spot Seed at $11 25. Country lots, common to choice, $9 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 50; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 50@10 25

Other Seeds—Inactive, with Hungarian and Millets nominal. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10; poor down to 50@60c.

HOG PRODUCTS—A little more life was manifested in the market for Hog Products and the feeling was somewhat unsettled Offerings were moderately free and the demand was fair Outside orders were somewhat larger, and local trading was fair. Hogs were in fair supply and higher, and this feature encouraged a little buying early, and prices ruled slightly higher. Later, there was some inclination to realize, especially by holders of moderate quantities, and an easier feeling prevailed. Prices declined materially on all the leading articles. Toward the close a little more steadiness prevailed, and changes in prices were slight. Market closed steady around medium figures Trading chiefly in September contracts Receipts of Hogs at the leading Western packing points were estimated at 46,600, compared with 60,500 one year ago. Foreign markets were quiet Quotations were advanced 6d on Backs, and reduced 6d on Hams and Lard Domestic markets were steady Receipts of Products were liberal—of Lard and Meats about 49 cars Shipments were moderate—of Lard and Meats about 96 cars. Demand on shipping account was good, and offerings were moderately free. Sales were a trifle larger, and prices well supported.

Mess Pork—A fair trade was reported in Mess Pork. Feeling unsettled, and prices irregular. Offerings were moderately free, and the demand was only fair. Market opened steadier, with a few sales at 5@7½c advance. Later, a weaker feeling was developed, and prices receded 12½@15c, but rallied again 2½@5c, and the market closed comparatively steady. Shipping demand was light, and offerings were small Cash lots were quotable at $12 80@12 85.

SEPTEMBER—Offerings were moderately free, and the demand was fair. Sales were made at $12 80@12 95 Opened at $12 90 to $12 92½, sold to $12 90, to $12 95, to $12 80, to $12 85, to $12 80 to $12 87 to $12 82½, and closed steady

OCTOBER Called for moderately, and offerings were somewhat limited Sales were made at $12 85@12 95 Opened at $12 95 sold to $12 85, to $12 87½ and closed rather steady

JANUARY—Quiet, with small sales at $12 75

Lard—Only a moderate business was transacted in the Lard market and the feeling was easier Offerings were only fair, and the demand was somewhat limited. Liberal stocks encouraged a little selling Foreign advices unfavorable to holders Market opened rather steady but a weak feeling was manifested, and prices declined 7½@10c Toward the close, a little more steadiness was manifested, and prices rallied 2½@5c again, and market closed comparatively steady Demand on shipping account was light with no particular pressure to sell Cash lots quotable at $6 80@6 82½ Loose lots in small request with limited offerings Prices steady at about 50c discount on September figures Leaf Lard was in light demand with moderate offerings Quotably steady at $6 25 Neutral in only limited demand, with fair offerings Prices quotably higher at $7 25@7 37½ for No 1, and $6 87½@7 00 for No. 2

SEPTEMBER—In fair request and offerings were moderate Sales were made at $6 85@6 95 Opened to $6 95, sold to $6 85, to $6 90, and closed steady

OCTOBER Demand light, and offerings were limited Sales were made at $6 95@6 97½ and closed quiet at the range

Short Rib Sides—More interest was manifested in the market for Short Rib Sides, with the feeling a little unsettled, and prices irregular Offerings were moderately free, and the demand was fair At the opening the market was slightly stronger and prices were about 2½c higher Later there was considerable realizing, and a weak feeling was developed and prices settled back 5@7½c and the market closed steady at nearly inside figures. Demand on shipping account was light and offerings were moderate Cash lots quotable at $7 50@7 62½ according to weight.

SEPTEMBER—In rather good request, with fair offerings. Sales were made at $7 60@7 67½ Opened at $7 67½, sold to $7 65, to $7 67½ to $7 60, to $7 62½@7 65, to $7 62½, and closed steady

OCTOBER—Offerings were fair, and the demand was moderate. Sales were made at $7 65@7 70 Opened at $7 70, sold to $7 67½, to $7 70 to $7 65 and closed steady.

Other Meats—Trade was fairly good, and mainly on domestic account. Exporters buying moderately Offerings fair and the inquiry moderate Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in fair request with only moderate offerings and prices well maintained Dry Salted Meats were in good demand with moderate offerings and prices were steady Smoked Meats called for moderately and prices were steady Closing prices ranged as follows

GREEN—Hams, av 10@12 lbs, 9¼@9⅞c; 12@14 lbs 9½@9¾c, 14@16 lbs, 10@10¼c; 18@20 lbs [illegible]; Skinned Hams 11⅛@11¼c, Shoulders 6¾@7c; Picnic Hams, 7⅛@7¼c, Bellies, 9@11c PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs [illegible]@9¾c, 14@16 lbs, 9⅝@10¼c cash, 9¾@9⅞c August, 18@20 lbs, 10@10¼c; Skinned Hams, 11½@11⅝c cash 11⅝@11¾c August; Shoulders, 7½@7¾c Picnic Hams, 7¾@7⅞c, Bellies, 10@11c DRY SALTED—*loose*—Shoulders, 7¼@7⅜c Short Fat Backs, 6¾@7¾c, Short Clear Backs, 8½@8c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c Extra Short Rib Sides, 7⅜@7½c Extra Short Clear Sides 7⅜@7½c, Rough Sides, 7⅜@7⅝c Plates, 6¾@6c, Jowl Butts, 5@5⅛c EXPORT CUTS—*boxed* Long Cut Hams, 10½@10¾c; Cumberland Sides, 9@9¼c, Long Clear Sides, 9@9¼c; Extra Long Clear Sides 9@9¼c, Short Clear Sides, 8@8¼c SMOKED—*loose*—Hams 11¼@11¾c, Skinned Hams, 12½@12¾c Shoulders, 8⅜@8¾c: Picnic Hams, 8⅞@9c, Short Rib Sides, 7⅜@7¾c, Rough Sides, 7⅜@7¾c, Short Clear Sides, 7⅜@7⅞c Extra Short Clear Sides 7⅜@7½c Breakfast Bacon, 11½@12c.

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $18 50@19 00; Extra Mess Beef, $8 25@8 50 Plate Beef, $8 50@8 75; Extra Plate Beef, $9 25@9 50 Tallow steady at 5⅜@5½c for edible; 5@5⅛c for prime packers, 4⅝@4½c for No. 1 do. and 3¾@4c for No. 2 do.; 4⅝@4½c for city renderers, 4⅜@4⅝c for prime country and 3¾@3⅞c for No. 2 do Oleo-Stearine in fair supply and quotably steady at 7@7½c

GREASE—Quiet and rather steady at 3¼@3⅜c for brown 3⅜@3½c for yellow, 3½c for house, 4½@4¼c for B white, and 4½@4¾c for A white

DAILY TRADE BULLETIN.

Devoted Exclusively to

FINANCIAL AND COMMERCIAL NEWS.

HOWARD, BARTELS & CO., Publishers, 28 Sherman St.

Chicago, Wednesday, August 3, 1904.

☞ Communications addressed to the publishers of the DAILY TRADE BULLETIN will not receive attention unless postage is enclosed for reply.

Important Notice.

In March, 1894, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their parts is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

∴

Crop reports are quite numerous now and "rusty."

∴

Trade fairly good in Seeds, and little change to note in prices.

∴

Prices of Fresh Meats have advanced sharply during the strike.

∴

Outlook at present indicates a larger yield of Flax Seed per acre than last year.

∴

Prospects for Barley so far are quite good, with the quality fully up to the average.

∴

Advices from the interior favor a good supply of Hogs for the fall and winter months.

∴

"Shorts" in all kinds of Grain have not been very successful during the past three months.

∴

Stocks of the speculative articles of Hog Products are quite liberal for the season of the year.

∴

Labor troubles have greatly interfered with the trade in Provisions during the past three weeks.

∴

Some demand on the Pacific Coast for Flour, mainly for Japan. Supplies in China are quite liberal.

∴

Inspection returns show a larger proportion of the better grades of Rye than usual at this season of the year.

∴

A fairly good demand for milling Wheat in the interior, but buyers are rather slow to pay the prices demanded.

∴

Outlook favors a good yield of Hay in most sections of the country. Considerable Wheat in California cut for Hay.

∴

There is so much difference in the guesses on the area of Flax Seed in the Northwest that the matter should be arbitrated.

∴

Kentucky and Tennessee appear to be the favored Winter Wheat States, and will probably produce larger crops than in 1903.

∴

Prospects are that California will not raise as much Wheat as last year, while Oregon and Washington will probably raise more.

∴

Prices of Provisions have advanced materially in foreign markets. This may be a factor in enlarging the demand for Breadstuffs.

∴

The DAILY TRADE BULLETIN is an independent publication—has no connection with or interest in speculative commission houses.

∴

Shippers of Grain Eastward by the water route ought to be satisfied with present rates of freight—based on 1c per bu on Corn to Buffalo.

∴

Reports of the threshings of Oats in some sections of the West, indicate that the yield is somewhat below general anticipations, but the quality is generally good.

∴

Interior millers who are purchasing Wheat at lower prices than are current at the larger distributing points have been able to contract for fair quantities of Flour.

∴

The country tributary to the Chicago markets will probably secure good crops this year in the aggregate, and this market should be active during the fall months.

∴

Too many employes of railroads and other large corporations being discharged, or having their hours of labor and wages reduced, to strengthen business affairs generally.

∴

The outcome of the Spring Wheat crop of the Northwest will depend altogether on the weather. At present the outlook is quite favorable, but it may be either "a feast or a famine."

∴

Whenever a Wall Street speculator loses control of a railroad, he is sure to assert that the crops along that line have been seriously injured, and its freight business will be greatly decreased.

∴

Advices in regard to European crops are just as conflicting as those in the United States. Late reports are not very encouraging for small Grain, and the aggregate yield will no doubt be lighter than in 1903.

∴

The crop estimates of the DAILY TRADE BULLETIN are made chiefly on information received by this publication. Some estimates credited to the BULLETIN are merely the interpretation made by it of the reports of the Department of Agriculture.

∴

No one injures the farming interests of the country so much as the chronic "crop killer." We ought to commence talking crops of good quality, so that we could recommend them as suitable for the wants of our consumers, both at home and abroad, and farmers will obtain better prices for them.

∴

There are parties who know all about the crops of all kinds, who could not compile a crop report if paid handsomely for it. Individuals are also quite numerous who cannot guess within 25,000,000 bu of the crop of a certain Grain in one State, but are able to give the aggregate yields of the country with great exactness.

∴

Accept statements credited to the DAILY TRADE BULLETIN with a little caution. Not one-half the statements sent broadcast, and attributed to this publication, ever appeared in its columns, nor were compiled by any one connected with it. Statistics and statements are too often distorted to suit the whims of parties who may be on either side of the market.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, July 28.]

Wheat—The markets on this coast have undergone no change since our last review and sales up here are very few. Harvesting is going on rapidly and yields are turning out far in excess of what was at first predicted. Sellers are not in the market, and buyers are doing nothing, preferring to wait until harvesting is further advanced before making any offers for new Wheat. There is considerable old stock remaining for export when the demand for Wheat shipments should occur. The weather has been ideal for farm work and a great deal has been accomplished the past few weeks. Spring Grain is doing very well. The principal factor influencing the local situation is the comparatively strong tone of tonnage, which is not plentifully offered except at extreme figures. Exporters are generally doing little buying for new crop loading, the evident intention being to provide the necessary tonnage first and meet the Wheat market when the season opens at its export value. Quotations for club are without change; 88c is offered for club, either old or new Wheat; bluestem 72c; valley 73c per bushel.

Flour—There is a better tone to the Flour market during the past week and a great many new orders have been received for future delivery. Prices are not what millers would like to have them, but no order has been turned down to our knowledge. Millers state that there is every indication that the stocks abroad are nearing the vanishing point and extensive purchases in the near future will be a necessity. Most of the present demand comes from Hong Kong, Japan only calling for round lots that are in demand and to keep stocks up with. California is receiving more Flour each week, and there is no let up for the summer months. Shipments to South America is without change since our previous report. From the United Kingdom there is some inquiry and only one milling firm on the North Pacific coast has any trade with that section of the world. Quotations for export are without change and range from $4.10 to $3.15 per barrel; patents from $3.85 to $4.15 per barrel, according to quality and brands.

THE RUSSIAN HARVEST.

[From the London Times Correspondents.]

According to the *Novoe Vremya* the districts in the southern provinces which are more particularly affected by the failure in the harvest are the following: In the province of Kherson, Alexandrisk and Tiraspol; in the province of Bessarabia, Akerman, Bender, Ismail, Kishineff, and parts of the Orgeieff district; in the Taurida, Melitopol and Eupatoria; in Poltava, Senkoff, Konstantinograd, Lookhaitsa, Mirgorod, and the Poltava district; and in Khaikoff, the Khaikoff district. Several of these districts are threatened with famine; in Tiraspol and the adjacent districts the potato crop has begun to eat unripe Grain. The provincial councils and the "zemstvo" executives are taking measures to provide supplies of nourishing food.

The failure in the harvest is accounted for by last year's spring frosts, unfavorable conditions during sowing time, unsettled weather during the winter, and the fact that, while hard frosts were frequent, there rarely remained on the ground. A good spring might have saved the harvest, but warm weather in April and frosts in May, with a scarcity of rain, completed the work of the previous mischief.

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, July 18.]

The crops are being hurried forward toward their harvest by the persistence of the scorching drouth; and if we have another week of the infliction Wheat cutting will be begun in the South and East of England before the end of the present month. Fortunate districts have found a temporary relief in a local shower or thunderstorm on two or three occasions since June 15; but throughout great tracts of country the measurement of rain since that date has been less than a quarter of an inch. The land sown or planted with spring crops was not in a condition to withstand such a drouth. It worked badly, as a rule, and the drouth has penetrated to the depth of the cultivation. Many pieces of Barley and Oats which looked well a week ago are now ripening prematurely, and those which were suffering then are in a wretched condition. For the pulse crops, the dry and hot period has been extensively injurious. A week of rainy weather even now would do much to restore the flagging crops; but the present outlook is a very disheartening one.

ITEMS OF GENERAL INTEREST.

Stock of Lard at Milwaukee, 10,768 tcs, of which 4,235 tcs are contract.

A receiver was appointed, Monday, for the Phil R Toll Box Company of Armourdale, Kas. The assets are estimated at $225,000 and the liabilities at $100,000.

The Michigan Central elevator at Toledo, Ohio, was totally destroyed by fire, Monday, at a loss of $200,000. The insurance on the building amounted to $150,000. The building contained 150,000 bu of Corn and 75,000 bu of Oats. In addition to this fifteen freight cars were destroyed in the fire.

Average weight of Live Stock at Chicago for months mentioned follows:

	July, 1904.	July, 1903.	July, 1902.	July, 1901.
Hogs	246	243	235	230
Cattle	1,044	1,068	1,031	963
Sheep	83	82	80	79

The Government expenditures for July, 1904, aggregated $31,184,15, and included: War, $18,164,31, increase, $630,000, and navy $12,163,652, increase, $4,884,000. There was an increase in the interest payments of $901,906, accounted for by the fact that last year the July interest was anticipated to a large extent.

The shut-down at the collieries in the Schuylkill region, Monday, was complete, with the exception of the Lehigh Coal and Navigation Company which continued to operate its collieries in the Panther Creek Valley. It is conservatively estimated that there are about 60,000 idle men as the result of the suspension.

The monthly cotange statement issued by the Director of the Mint shows that the only coinage executed as the United States mints during July, 1904, was $459.10 in subsidiary coins and $1,258,000 in Philippine pesos. This falling off is due to no annual settlements and recounts which occur at the close of each fiscal year.

The monthly statement of the public debt shows that at the close of business July 31, 1904, the debt less cash in the Treasury, amounted to $980,781,413, which is an increase for the month of $13,549,6.2. This increase is accounted for by the decrease of $14,915,662 in the amount of cash balances in the Treasury, as compared with last month.

The comparative statement of the Government receipts and expenditures for the month of July, 1904, shows a deficit of $17,107,728, as against a deficit of $7,776,013 for July last year. This large deficit is accounted for by a falling off in the receipts from customs and internal revenue and increased expenditures on civil and miscellaneous and war and navy accounts.

The Canal Sugar Company of Peoria, formerly of St. Louis, has been consolidated with the Warner Sugar Refining Company of Waukegan, Ill, and their plant at Peoria has been moved to Waukegan, where it will form a department of the Warner factory soon to start up after being rebuilt. The Canal Sugar Company makes Grape Sugar. It was capitalized at $500,000.

The San Francisco *Weekly Commercial News* of July 28 says: "Indications are that the Oregon Hop crop will amount to about 70,000 bales. The season has been unfavorable, the long dry spell which occurred last month very nearly causing a failure. The quality of the Hops is exceptionally good, however, and there has been an absence of lice owing to the warm weather that many growers have found little or no necessity for spraying. Good prices seem to be assured, several growers reporting offers by the brokers to contract at 20c."

A Pittsburg dispatch says: "Pittsburg's great bituminous Coal producing interests are preparing secretly for a strike in the anthracite Coal region. In certain circles the tip was given today that soft Coal would be a good commodity to have in a short time, with the information that there will be an upward spurt in prices and danger of a scarcity because the anthracite operators, it is believed, are preparing for a long shut-down."

WHEAT FOR MAY DELIVERY.

INTERIOR ELEVATOR SUPPLIES.

The following is the amount of Wheat in the interior elevators of the Northwest on the first of each month for the years named:

	1904.	1903.	1902.	1901.
January	6,514,000	6,887,000	11,331,000	9,052,000
February	5,036,000	6,427,000	8,566,000	8,566,000
March	5,188,000	4,587,000	5,158,000	7,302,000
April	2,781,000	1,763,000	2,269,000	4,861,000
May	1,284,000	808,000	1,435,000	2,505,000
June	1,331,000	1,299,000	1,462,000	2,376,000
July	1,208,000	962,000	1,647,000	1,856,000
August	866,000	315,000	292,000	336,000
September	....	796,000	1,174,000	3,261,000
October	....	4,665,000	7,711,000	5,737,000
November	....	6,001,000	8,238,000	9,368,000
December	....	6,636,000	7,721,000	13,348,000

"Last year's Hops have declined to 21@23c and speculators who bought last winter for 24@26c will consequently lose by the transaction unless conditions are reversed between now and the time the new crop is in the bale, which will be about Oct. 1," says the Portland *Telegram*. "There are only about 4,000 bales of Hops unsold in Oregon. The prospects for a full crop of first-class Hops in Oregon never were better at this season of the year. Vermin have entirely disappeared as a result of a long spell of dry weather, and the bounteous showers have given new impetus to the growth of the vines."

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

Months.	1904.	1903.	1902.	1901.
January	12,172,647	15,509,713	16,193,619	19,297,778
February	7,976,394	11,639,506	12,944,919	17,968,145
March	7,131,221	11,517,730	13,992,862	17,813,695
April	4,991,849	15,226,225	16,724,625	22,691,660
May	3,988,101	14,788,770	16,339,850	23,380,081

November	....	5,981,238	1,923,468	2,823,005
December	....	4,623,296	8,523,764	1,232,459

ITEMS OF GENERAL INTEREST.

The Diamond Match Company has declared its regular quarterly dividend of 2½ per cent, payable Sept. 12. Books close Aug. 27 and reopen Sept. 13.

An expenditure of $500,000 or more is under contemplation by the Baltimore and Ohio Railroad management for the betterment of terminal facilities at Philadelphia.

The New England Telephone and Telegraph Company declared the regular quarterly dividend of $1.50 per share, payable Aug. 15. Books close July 30, reopen Aug. 16.

The Comptroller of the Currency has declared dividends in favor of the creditors of the following defunct National Banks: Galion National Bank of Galion, Ohio, 25 per cent; First National Bank of Cape May, N. J., 30 per cent; First National Bank of Matthews, Ind., 10 per cent.

The San Francisco *Weekly Commercial News* of July 23 says a dispatch from Walla Walla says: "The agent for William Jones, of Tacoma, bought from George Drumheller his new crop of Wheat on a Dry Creek ranch of 1,000 acres. The harvest in progress shows 42½ bu an acre, the heaviest yield ever known on light lands in this county. The price paid for the crop varies from 58c for Club to 62c for Bluestem."

The *Corn Trade News* of July 21 says of the French crops: "The heat is not quite so intense and a change for the better in the atmosphere is very probable. Complaints of heat damage to the crops, however, continue to come in. Offers on country markets are becoming very much reduced in the absence of farmers, and the general tone is one of much firmness at some advance in price. The harvest is making satisfactory progress under excellent conditions. Threshing is now proceeding in many localities in the south, but it is as yet too early to say anything definite, as advices on the whole are very contradictory. The only point upon which all agree is that the quality will leave nothing to be desired, and will largely compensate for the shortage which by some is estimated will equal about one-third of last year's crop.

SCALE OF WHEAT PRICES.

[From the Modern Miller.]

The following figures made by David Anderson of the Noblesville (Ind.) Milling Co. show the result of his work, and form a basis upon which millers can handle the new Wheat. In the scale of Wheat prices Mr. Anderson's results are based on 90c for 59 lb Wheat, and 50c per 100 lbs for Screenings. They are as follows.

60 pound Wheat	91c	54½-pound Wheat	77c
59 " "	90c	54 " "	75c
58½ " "	88c	53½ " "	74c
58 " "	87c	53 " "	73c
57½ " "	86c	52½ " "	71c
57 " "	84c	52 " "	69c
56½ " "	83c	51½ " "	67
56 " "	82c	51 " "	65c
55½ " "	80c	50½ " "	62c
55 " "	78c	50 " "	59c

The next table shows the actual cost of recleaned Wheat as compared with 59-lb uncleaned Wheat at 90c per bu.

Duluth	248,000	273,000	215,000
Total	712,829	807,200	609,009

ILLINOIS CROP BULLETIN.

SPRINGFIELD Aug. 2.—The Illinois weather bureau for to day issued the following bulletin for the week

"The temperature ranged below the seasonal after the first, but was about normal the latter part of the week, the mean daily deficiency average being about three degrees. Scattered showers occurred on the 26th and 27th over limited areas, but rain is now needed in many sections. The rainfall on the 27th was heavy, i some localities being attended by high winds, causing considerable damage to standing crops. Except where haying, harvesting and threshing were hindered by local showers the weather conditions were favorable for farming operations. In the southern district some stubble land has been b oken for Wheat

"Corn maintains an excellent condition, but needs rain in many localities The crop is mostly in tassel, and some fields are earing and silking The cutting of Oats is practically finished and threshing is in active operation. While the yield is uneven in some localities, the general yield is satisfactory and the quality good The threshing of Wheat Rye and Barley has proceeded under favorable conditions, except where hindered by local showers Rye and Barley are yielding well, and while results are disappointing in some localities with regard to Wheat, the general product is compensating.

"Haying has continued under favorable conditions and the crop has been secured in good condition in most localities. A crop of good quality, but below average yield, is indicated. In the southern districts the second crop of Clover is promising Pastures need moisture and have deteriorated to some extent."

WHEAT PROSPECTS IN OKLAHOMA

C V Topping, Secretary of the Oklahoma Millers' Association, writes as follows about the condition of the Wheat crop in that section and the prospects for milling this season:

"So much has been said recently in regard to the damage to the Wheat crop of this country, and the coupling of Oklahoma and Kansas in the ruination of its crop, that we feel that it is nothing more than just to see the mills of this territory put in the right light before the trade. While we will not have a full crop, or as much Wheat as we raised last year, we are going to have all the milling Wheat that we can possibly use, and as fine a quality as was ever reported from this country Considerable of the Wheat in certain localities is light, but the threshing returns and the Wheat that is being hauled to the market at the present time, tests from 58 to 63 lbs, and is satisfactory in every respect We know that Flour ground from this Wheat will bring as good results, and suit the trade fully as well, if not better than our last year's crop."

BOSTON WOOL MARKET.

BOSTON July 29. The *Commercial Bulletin* says: "The Wool market is strong and active. A good deal of new business has been closed this week, and there is a heavy inward and outward movement of supplies Leading houses are sold far ahead and dealers would welcome a quiet spell in order that they might catch up with deliveries. Prices are firm on all grades and slightly higher in instances Ohio one-quarter blood sold at 29c, and Montana original clips, fine and fine medium, on the scoured basis of 60c. Much of the territory Wool recently secured in the West was on a 60c basis at Boston. Reports from the goods market are encouraging, foreign advices "bullish."

"The shipments of Wool from Boston to date from Dec 31, 1903, are 122,823,090 lbs, against 120,658,-964 lbs at the same time last year The receipts to date are 185,50?,144 lbs against 150,385,767 lbs for the same period last year."

THE WEATHER CONDITIONS.

Weather Northwest a trifle warmer Partly cloudy this side, cloudy, with general but light rains beyond Canadian line. Light rains in Nebraska, Iowa and now raining at Wichita. Generally clear in Ohio Valley. Raining in Oklahoma and Texas

ITEMS OF GENERAL INTEREST.

A fire at Milwaukee, Tuesday, caused a loss of $160,000.

Low bids made for exchequer bonds have a depressing effect on the London market, where they are considered a portent of dearer money

Report of the Atchison, Topeka and Santa Fe Railroad for the year ended June 30 shows net earnings of $25,?19,000, an increase of $2,035,000.

The St Louis and San Francisco Railroad Company has declared the regular quarterly dividend of 1 per cent on its second preferred stock, payable Sept. 1. Books close Aug. 17 and reopen Sept 2.

The Boston *News Bureau* says: "We have reason to believe that unless business materially improves (and it is expected to improve) the next dividend on United States Steel preferred will be cut to 4 per cent."

It is reported that a meeting of the directors of the Northern Securities Company has been called for next Wednesday. At that meeting it is expected that a plan for paying the dividend for the March 31 and June 30 quarters will be considered

The United States Steel Corporation paid $490,000 in Steel second 5 per cent bonds for the wire plant of the Trenton Iron Company. The company has outstanding $600,000 of its authorized capital, so that the price paid in bonds is equivalent to $80 per share.

The Jones & Laughlin Steel Company has awarded a contract which calls for the expenditure of nearly $1,000,000 for four new open hearth Steel furnaces. They will add something like 350,000 tons to the company's yearly capacity, giving a total producing capacity of 1,800,000 tons per year

It is said the foreign demand for Pennsylvania stock, which practically ceased two years ago, has again assumed some proportions, and about 12,000 shares of stock have been shipped to England in the last two weeks. Notwithstanding the war, this demand is said to be still in evidence, although the volume has been reduced.

According to a dispatch from Cincinnati the differences between the minority holders of the preferred stock of the Cincinnati, Hamilton and Dayton Railroad Company and the syndicate which arranged a merger of that company and the Pere Marquette Railroad have been practically settled, and that early this week the details of the settlement will be completed.

One-third of the Cuban $35,000,000 loan will be paid this week to the financial agent of the Cuban Government now in New York It has not been determined how much of this amount, which is something over $10,000,000, will be shipped in Gold by the Cuban agent The remaining two-thirds will be paid over at such intervals as will obviate any disturbance of the money market.

Dornbusch of July 22 says: "The cereal crops in France are suffering from excessive heat, and in some districts, the Wheat being overripe, is reported to be shedding the Grain. The general outlook has lost its brilliancy and early promises of abundance do not appear likely of fulfilment. Country markets, as usual at this season, are thinly attended, but prices of Wheat are maintained."

The fight between the Cunard and German lines is said to have led to a conflict between the Hungarian and Austrian Governments, which, it is feared, may seriously affect their commercial relations The Austro-American line recently has taken from Fiume large shipments of Corn and Sugar. The Hungarian Ministry of Commerce has now resolved to introduce special combined rail and ocean freight rates.

After two months of strenuous effort to get the Raisin growers into line for the season, the California Raisin Growers' Association, through its president, has abandoned all efforts to preserve the association, and announced that all contracts so far signed would be returned. This has been brought about by the failure of the association to reach an agreement with the packers and of growers to join the association.

The current reports that the St. Louis and San Francisco is to issue an indefinite amount of second preferred stock is characterized as absurd in view of the fact that the company cannot under its by-laws issue and sell, either for cash or for value received, any additional second preferred stock except at $100 per share. The recent statement of B. F. Yoakum that no further Frisco financing is impending may be repeated in this connection.

A Des Moines message, Tuesday, said: "Oats are threshing from 28 to 40 bu per acre, weight 28 to 32 lbs to the bu, averaging 35 bu per acre, and an average weight of 30 lbs to the bushel, all of good color. Farmers, on account of having no Corn to feed, commence to feed Oats just as soon as cut, and will continue to feed their work animals on Oats until new Corn is hard enough to feed. It is estimated that 10 per cent of the crop will be consumed by the farmers between this and October."

There is a possibility that the great Pullman car works at Pullman will be closed down shortly on account of a lack of orders, and remain closed for an indefinite period. If this happens 6,000 workmen will be thrown out of employment. It is said at the works that 1,200 men have been laid off since June 1, and half a dozen departments are even now idle Work will be continued till the present orders are completed and then the general close-down will take place. Reports are circulated that the shops will remain closed from four to six months

According to statistics published by the Ministry of Agriculture to the 15th inst., the estimated yield for Hungary is as follows: Wheat 3,842,000 tons, against 4,407 000 tons last year, Rye 1,165,000 tons, against 1,201,000 tons, Barley 1,035,000 tons, against 1,405,000 tons, and Oats 995,000 tons, against 1,267,000 tons In Austria, the situation is rather better than in Hungary, there having been more rain, although not nearly sufficient. Rye is expected to yield a good middling crop, while Wheat will be rather under middling. Barley is also expected to yield a middling crop with fair quality. Oats give very poor prospects, and Corn is only considered a poor middling.

The Illinois Central Railroad Company has filed the form of its coupon bonds issued for purchased lines for record, with the United States Trust Company of New York and Joel E Williamson of Evansville, Ind., as trustees. The bonds are first mortgage Gold in the amount of $30,000,000, payable July 1, 1952, and bearing 3½ per cent interest. The purchased lines covered by these bonds are: Chicago and Texas; Mound City; Chicago, Madison and Northern; Riverside and Harlem; Mattoon and Evansville; Peoria, Decatur and Evansville and its New Harmony branch: St. Louis and Ohio River, Mounds and Olive Branch; Groves and Sand Ridge, and Christopher and Herrin.

Bombay advices of July 1 say: "Unfavorable reports have been received during the past few days from many of the up-country districts owing to the want of rain. After the first burst, which was fairly general throughout the Berars, United Provinces, Central Provinces, and the Deccan, sowing operations were in progress, and it would appear rain is urgently needed where sowings have been made. At the same time we think that the tendency is to cry out before one is really hurt. If rains fall within the next few days, it is anticipated, very little harm will be done To-day's meterological report is favorable for more rain Large swarms of locusts are reported from many of the districts It is to be hoped that with some heavy rain these may disappear."

The monthly comparative circulation statement issued by the Comptroller of the Currency shows that at the close of business July 30, 1904, the total outstanding circulation of national bank notes was $450,200 888, an increase for year of $32 920,401, and for month of $971,793 Amount of circulation, based on United States bonds, was $416,025,153, an increase for the year of $37,418,331 and for the month of $2 265,707 The circulation secured by lawful money amounted to $35 181,732, a decrease for the year of $1 557 929 and for the month of $1,293,914 The amount of United States bonds on deposit to secure circulating notes was $417,978 690, and the amount of United States and other bonds on deposit to secure public deposits with national banks was $119,577,550.

A conference is to be held in New York Aug. 10 at which representatives of the Sloss-Sheffield Steel and Iron Company, the Tennessee Coal and Iron Company, and the Republic Iron and Steel Company will meet to discuss the much-delayed merger of the Southern properties Since the report of the experts on the Coal and ore deposits of the company was handed in nothing definite has been accomplished. It is well known that the appraisals of the deposits were unsatisfactory. It is not probable, therefore, that a merger can be effected. A representative of one of the companies said: "We have known for some time that there would be no agreement on the question of a merger. It was thought for a time, however, that perhaps the three companies could reach an agreement to form a selling agency. It is not likely this can be done, so it would appear that the whole project will fail."

The Cincinnati, Hamilton and Dayton, Pere Marquette, and Chicago, Cincinnati and Louisville Railroads, it is said, will be merged into one system and the system's name will be Cincinnati, Hamilton and Dayton. The general feeling that there will be a reorganization of the general offices of the three lines is shared by the officials of the companies, but no one seems disposed to hazard a guess as to just what changes will be made. At present each road has its full complement of executives, heads of departments, and subordinate representatives. It is predicted that the president, vice president, and general manager of the Chicago, Cincinnati and Louisville will remain in Cincinnati, the road to be operated by a general superintendent with headquarters in the same city The Pere Marquette will be immediately supervised from Chicago by a general manager and a traffic manager, reporting to Russell Harding, president of the Pere Marquette and vice president of the Cincinnati, Hamilton and Dayton in Cincinnati.

A Boston dispatch says: "The Standard Oil interests are back of the fight which is being conducted by E H Harriman for the control of the Northern Pacific The traffic of the State of Washington and the traffic passing through Puget Sound in particular are eagerly sought by the Standard Oil The Oil fields of Alaska are of vast promise and Puget Sound is the natural port of entry for all Alaskan products. The Union Pacific is effectually shut out from Puget Sound, and so long as James J Hill holds the Northern Pacific so long will he control the commerce of Puget Sound and the unrivalled traffic from the Washington Lumber mills. Washington is the great Lumber State of the Union and the Rockefeller-Gould roads have to pay tribute to the Hill roads in the ever growing Lumber traffic. The Rockefeller-Gould combination is, therefore, determined to wrest control of Northern Pacific from Hill. That is the real aim of the suit to prevent the distribution of the Northern Securities assets on the lines that would leave Hill in control."

Secretary Shaw has assured the President that there was no immediate necessity for making a call on the National Bank depositaries for Government deposits in their possession. The expenditures for the first month of the new fiscal year have been heavy, and have exceeded the receipts by about $20,000,000, and this has reduced the working balance to $28,000,000. The expenditures were not unusual They always occur in July, when appropriations become available. The working balance is not dangerously low, for there is $112,-000,000 in the Government depositaries subject to call The tradition that a working balance of $50,-000,000 must be maintained in the Treasury applied to times when the Government had no deposits in the National Banks. These are regarded by the Treasury officials the same as though they were in the Treasury vaults, and the Treasury balance is $112,000,000 plus $28,000,000, or $140,000,000. Whenever necessary a part of the deposits can be called in, but Secretary Shaw sees no necessity for such a call now, or indication that such necessity will appear in the immediate future.

The *Wall Street Journal* says: "The report that the Steel Trust will soon take over the American Can Company does not appear to have substantial foundation. It is admitted by representatives of both, however, that there have been discussions informally at different times of such absorption. The fact that W. T. Graham, former head of the American Steel and Tin Plate Company, gave up his connection with United States Steel Corporation to become head of the American Can Company is the chief basis for the current story that the company will soon be taken over by the Steel Corporation Acquisition of the American Can Company by the Steel Corporation would probably be considered a good thing if the terms were reasonable, for the business of the two dovetails. The American Can Company has an outstanding capital of $82 466,600, equally divided between common and preferred. It has plants in New York, Brooklyn, Boston, Philadelphia, Baltimore, Chicago, Detroit, Cleveland, and other cities. The Can Company makes about 90 per cent of all the cans made in the United States. It made net $1,775,566 in 1902, while last year its net returns were only $886 711. This year the company is said to have made over $1,000,000 net."

By comparing the balance sheet of the Erie Railroad for May 31, 1904, which was submitted in connection with the application to list certain securities, with the balance sheet of May 31, 1903, we find that there has been a reduction in profit and loss and reserve funds of $1,5 0,000 for the eleven months ended May 31, 1904 Erie follows an ancient practice of reporting its railroad operations monthly, but its Coal operations but once a year. These latter results are incorporated in the figures for the twelfth month. The amount of such profits from Coal operations is estimated at something over $2,000,000 This changed a loss of $1,500,-000 to a profit of nearly $500 000, which is above all rentals and charges. Therefore, for the year we may say that Erie has earned between $500,000 and $600,000, which amounts to a little over 1 per cent of the first preferred stock. If, however, we add to this a figure for betterments, which is estimated to be between $1,500,000 and $2,000,000, we may estimate the total earnings for the year at about $2,500,000, or 4½ per cent of the preferred stock. The factor, which is entirely speculative is how far the directors may see fit to capitalize the betterment expenditure if they capitalize at all In case they do, they will have available 4½ per cent of the first preferred stock to apply as they think fit to the dividend

DAILY MOVEMENT OF GRAIN AND PRODUCE

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year.

Articles.	Receipts. 1904	Receipts. 1903.	Shipments. 1904.	Shipments. 1903.

ITEMS OF GENERAL INTEREST.

New York Exchange 30c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $27,438,202.

Argentine Wheat shipments this week are estimated at 400,000 bu.

Reported that no Wheat and 20,000 bu Corn were taken at the seaboard to-day for export.

Condition of Corn in Missouri is 73, compared with 75 in July and 72 in August last year.

Ten packers purchased 14,800 Hogs to-day, shippers, 5 000; left over, 25,000. Market closed steady.

Average cost price of Hogs at Chicago, Wednesday, was $5 35, against $5 27 Tuesday, $5 44 a week ago, and $5 36 a year ago

Estimated receipts for to-morrow: Wheat, 101 cars; Corn, 245 cars; Oats, 216 cars; Rye, 8 cars; Barley, 7 cars; Hogs, 11,000.

A Liverpool cable says: "In consequence of dry weather European requirements of Corn large. Argentine only 1,000,000 tons, below 40,000 000 bu, left no other supply available except America."

Minneapolis says there is large selling of September, December and May Wheat there by "longs." Reports being modified. Localities that had crop killed a few days ago say rain has washed rust off.

Local Securities were slow, with no change in Biscuit and Can shares, but there was weakness in Swift's, Street's common, South Side Elevated and Metropolitan Elevated common. The chief advance was in Title and Trust.

Cotton in New York was irregular with prices covering a fair range. Estimates on the crop are for a yield of 12 000 000 bales. There was enough buying on the breaks to give the market several rallies. The market closed 3@5 points higher.

Weekly statement of the Bank of England shows a decrease of £2,760,560 in Bullion. The proportion of reserve to liability is now 48.62 per cent against 47.25 per cent last week, and compared with an advance from 49½ to 49⅞ per cent in this week last year.

Stocks in New York were advanced in the morning on buying by London and Wall Street. Southern and Southwestern Railway shares were taken freely. The advance was checked by heavy selling, and the gains were lost, and fair declines established on about all Railway shares. Cotton Oil common advanced 2½. Money ⅞ to 1 per cent.

Western traffic officials, Wednesday, prevented a demoralization in Grain and Flour rates. The Great Western had put in a 9c proportional rate on through Flour from the Missouri River by the way of Chicago, whereas the rate on Grain is 12c. The Grain men protested, and the Flour rate was withdrawn.

The Cincinnati *Price Current* in its weekly crop summary says: "Winter Wheat indications practically unchanged; considerable shriveled Grain. Rust in various Spring Wheat localities awakens apprehensions of injury. Corn continues promise of a large crop, but various localities need moisture soon to avert injury."

The Cincinnati *Price Current* reports the packing of the West for the week at 280,000 Hogs, compared with 250,000 for the week previous and 355,-000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 5,765,000 Hogs, compared with 5,870,000 for the corresponding time last year—a decrease of 105,000 Hogs.

"The crops along our lines more than fill our original estimates," said a traffic official of the St. Paul system. "Barley and Rye have been harvested and the yield was excellent. The Wheat crop was fair. The Corn crop will be the largest in ten years. Crops may be short, as J. J. Hill says, along the Great Northern, but they are not along the St. Paul system."

The Winnipeg *Commercial* says: "Crop reports received from various districts in Ontario by local Grain dealers show that the acreage of Barley and Oats is slightly larger than last year, and that the condition is satisfactory. The reports on the fall Wheat are less encouraging. From the Lake Erie sections they are poor, but rather better in midland and northern districts than the Lake Erie. Based on these reports, it is estimated that the fall Wheat crop will this year be one-half to two-thirds that of last year."

The Winnipeg *Commercial* of July 30 says: "Private advices from all the Wheat growing districts and the railway reports concur in the statement that the crop situation has greatly improved during the past two weeks, and is now exceedingly favorable for a large yield. Even the one or two conservative Grain men, who are always enlarging upon the uncertainty of how the crop will turn out and adopt as gloomy a view as possible until they are absolutely forced to acknowledge the contrary, now admit that conditions are splendid."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is a more general inquiry, but sales continue for moderate quantities. Stocks are small, and prices holding very firm.

WINTER WHEAT—Was in good demand and prices 1@2c higher. Millers bought freely early in the day, and speculators also purchased liberally. The cash market, however, did not follow the speculative market so closely when the top prices were reached for futures. No 2 Red in store nominally about 1c over old July and ranged at 95½@96½c; fresh arrivals car lots sold free on board at 97@98c and billed through at 97½c. No. 3 Red fresh receipts free on board sold at 95@97½c and billed through to 95½c. No 4 Red fresh receipts sold free on board at 88@93c. No 2 Hard fresh arrivals free on board sold at 95½@97c and billed through at 95@95½c. No. 3 Hard fresh receipts free on board sold at 94@96c and No 4 Hard at 90@90½c.

SPRING WHEAT—Quiet and firm and prices quotably about 1c higher. The No 1 Northern in store was $1 03½ bid and $1 05 asked. The sales the last few days comprised virtually about all the Wheat in store. No 2 Northern nominally $1 02@1 03. No. 3 Spring quotably 93c@$1 00. No 4 Spring nominally 72@94c, with a sale of choice hard variety at the river at 94½c. No 3 White sold at 90c.

REGULAR WHEAT—Another active day was witnessed under this head, the market ruling nervous, with the volume of trade enormous. Early tone was weak, but a stronger feeling developed later. Closing prices showed gains of 2⅝@2⅞c to 3@3⅛c. The better weather in the Northwest, lower cables and liberal receipts were among the "bear" influences early in the session. Local professionals sold with considerable freedom, while support was lacking and market declined. Later the drop in British Consols of 5-16 to ¼, and further damage claims from the Northwest, changed local sentiment, and there was a rush on the part of "shorts" and the early sellers to cover, resulting in the sharp advance. Map showed clear and cool conditions in the Northwest, general rains in eastern portion of Manitoba. Light rains in Indiana, Nebraska and Kansas. Showers and thunderstorms were predicted for Iowa, Illinois, Indiana and Missouri, fair for Minnesota and Dakotas. The *Price Current* claimed Winter Wheat indications were practically unchanged, but considerable shriveled. Rust in Spring Wheat localities causing apprehensions of injury. St Louis wired country millers were good buyers of cash Wheat. Liverpool quoted spot California and Hard Kansas unchanged, No. 1 Northern ½d higher and La Plata 1d lower, futures ⅝d lower. English country markets 6d to 1s higher. Cargoes on passage about neglected. London was ¾@1½d lower and Paris was off 1c. New York reported Antwerp 1¼@1⅜c higher, but the local public cable here was unchanged. Buda Pesth ⅝c lower and Berlin up ¾c. New York reported foreigners free sellers of futures in that market. Primary receipts were 350,000 bu larger than a year ago. Kansas City and St Louis received 478,000 bu, against 217,000 bu last year. Clearances were small and no boat loads were accepted for export. Northwest cars were 58 larger than a year ago. Minneapolis claimed stocks had decreased 500,000 bu so far this week. Louisville reported an active demand from country millers. A late London cable stated that crop prospects in Russia were very favorable and the London market dull and tending downward. Primary receipts June 27 to August 1 aggregate 12,303,000 bu, against 13,748,000 bu in 1903 and 25,438,-000 bu in 1902. Argentine shipments this week estimated at 400,000 bu. Cash values here 1@2c higher. Receipts at Duluth 49 cars and at Minneapolis 101 cars, a total of 150 cars, against 93 cars yesterday, 121 cars a week ago, and 92 cars last year. Local receipts included 75 cars Winter, 1 car Spring, no car mixed, a total of 77 cars, against 117 cars last year. Included in the above were 10 cars contract grade. There were 2 cars and 25,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 101 cars. Withdrawals to-day were 28 850 bu. Receipts at Western points were 807,997 bu, against 452,316 last year. At Eastern points 97,093 bu, against 390 876 bu last year. Shipments from Western points were 366 352 bu, against 311 893 last year, and from Eastern points 34 918 bu, against 127,906 last year. Shipments of Flour were 8 321 brls. Exports of Wheat in Flour were equal to 12 376 bu.

Future Deliveries of Regular Wheat—Active and prices higher.

SEPTEMBER—Old Style—Sold at 94½@98½c. Opened with sales at 94½c to 95c; sold to 95¾@95½c, to 95c, to 97¾c, to 97⅝c, to 98½c, to 98⅜c and closed at 98⅜c.

SEPTEMBER—New Style—Sold at 93¾c and at 97½@97⅝c. Opened with sales at 94c to 93¾c; sold to 94½@94⅝c, to 93¾c, to 95¼c, to 95c, to 95⅝c, to 95⅛c to 96¼c, to 96⅛c, to 96½c, to 96c, to 97⅛c, to 96½c, to 96⅞c, to 96½c, to 97c, to 96⅝c, to 97⅜c, to 97c, to 97½@97⅝c, to 97½c and closed at 97½c bid.

DECEMBER—Sold at 93¼@97¼c. Opened with sales at 93⅝c to 93¼@93⅜c, sold to 93½c to 94c, to 93¼c, to 94⅝c, to 94½c, to 96c to 95¾c, to 96⅜c, to 96c, to 97⅛c, to 96½c, to 96¾c, to 96⅝c, to 93¾c, to 96½c to 97⅛c, to 96⅞c, to 97¼c and closed at 97¼c bid.

MAY—Sold at 95⅜@99⅜c. Opened with sales at 95¾c to 95½c; sold to 95⅜c, to 96¼c, to 95⅝c, to 97c, to 96¾c, to 98¼c, to 97⅝c, to 99⅛c, to 98⅝c, to 99c, to 98¾c, to 99⅛c, to 99c, to 99¼c, and closed at 99¼c bid.

CORN—A very good trade, about as of late, with the feeling unsettled. Lower prices ruled early, followed by a complete recovery, the close being ½@⅝c to 1c higher. Cables were lower, the weather favorable, and crop reports more assuring. Offerings were rather free, commission houses as well as receivers selling, while the demand was moderate. The Southwest was credited with buying May and shippers purchased the September. Part of the September selling was credited to the principal "long" interest. The late advance was due to the rise in Wheat. Liverpool quoted spot ½@1c higher while futures were ⅝d lower, and London claimed cargoes on ocean passage were 1½d lower. Iowa advices reported the crop in good condition, claiming wonderful progress had taken place the past three weeks, and Topeka also reported great improvement in the crop outlook in Kansas the past few weeks, the stocks being strong and vigorous and ears promise to be large and exceedingly well filled. The Missouri State report made the condition 73 per cent against 75 July 1, and 72 one year ago. The *Price Current* claimed the Corn promise was for a large crop, but moisture needed in certain localities to avert injury. Samples of new Texas Corn were on exhibition here, showing the same practically all merchantable, fully dented and thoroughly developed, and so dry that it is hardly loose on the cob. Lake freights up ⅛c to 1⅛c, indicating better demand for boats. Private Continental cables claimed the drouth there would cause a heavy demand on American Corn for export. Argentine supplies were reported less than 40,000,000 bu, and no other supply available except in America. Receipts 221 cars; last year 89 cars, and 245 cars estimated for to-morrow. Shipping inquiry was reported fair, with sales 25,000 bu. Exports 103,000 bu and 2½ boat loads accepted at the seaboard. Western receipts, 297,000 bu; last year, 330,000 bu. Shipments 592 000 bu and 242 000 bu respectively. Local arrivals 207,000 bu and shipments 520,000 bu. Southwestern markets strong. Car lots in good demand and moderate supply. Prices were ½c lower. No 2 closed about 53c. No 2 Yellow sold at 53⅜c and closed at 51¼c. No 3 sold at 51¼@53¼c outside for yellow, and closed at 52¾c. No. 3 Yellow sold at 53¼@53½c and closed at 53¾@51c. No 3 White sold at 51½c. No. 4 sold at 50½@52¾c.

Corn by sample—Was in good demand, and offerings moderate. Market opened about 1c lower and later gradually advanced to yesterday's figures. Sales on track and free on board: No Grade sold at 47½c. No. 4 at 50@53¼c. No 3 at 52@52½c. No 3 Yellow at 53@53¾c. No 3 White at 52@52¼c. Billed through: No Grade at 48@50c. No. 4 at 50@52c. No 3 at 50¼@51½c. No. 3 Yellow at 52@52½c. No. 2 Yellow at 52@52½c. No 3 White at 50½@51¼c.

Future Deliveries of No. 2 Corn—Active and weak early, but rallied sharply, the close being ½@⅝c to 1c higher.

AUGUST—Inactive. Sold at 52c, and closed about 52¼c nominally.

SEPTEMBER—Sold at 50⅞@52⅞c. Opened at 51½c to 51¼c, and sold at 51⅝c, to 51⅜c, to 51¾c, to 50⅞c, to 51⅜c, to 51⅛@51¼c, to 52¼c, to 52c, to 52½c, to 52c, up to 52⅞c, to 52¾c, to 52¾@52⅞c, and closed at 52¾@52⅞c.

DECEMBER—Sold at 47¾@49½c. Opened at 48⅜c to 48c, and sold at 48⅜c, to 48¼c, to 48⅜c, to 47⅞c, to 48c, to 47¾c, up to 48¾c, to 48⅝c, up to 49½c, to 49¼c, and closed at 49¼c.

MAY—Sold at 47⅛c and 48¾@48⅞c. Opened at 47¾c to 47½c, and sold at 47¾c, to 47⅝c, to 47⅞c, to 47⅜c, to 47½c, to 47⅛c, up to 48¾@48⅞c, to 48½c, and closed at 48½c bid.

OATS—Were depressed ¼c by liberal general selling and advanced 1@1⅛c and closed at net gains of ⅝@¾c. The selling early was to take profits and hedge against cash purchases. The buying was to cover "shorts" and in sympathy with the advance in other Grains. There were rains West and showers are predicted. Arrivals were 208 cars with 216 cars estimated for to-morrow. Withdrawals were 12,975 bu. Seaboard clearances 22,000 bu. Most of the arrivals are new. Cash business was slow and prices ½c lower. Car lots to go to store sold at 35@35½c for new No. 3 White, 35c for Standard and 35c for No 2 White. Standard in store closed about 34½@34¾c.

Oats by sample were in good demand but liberal offerings made prices weaken ½c. There were also free offers to arrive. Most of the supply was new. Sales on track and free on board: No Grade new 30@34½c. No. 4 White new 31½c, old 36@38c. No. 3 new at 35c; old at 37¼c. No 3 White new at 35@37½c; old at 37½@40c. Standard new at 36@37c. No 2 new at 34½c. No 2 White new 35@37¼c. Billed through: No Grade new at 31¾@32¾c. No 4 White new at 34@34½c, old at 37@39. No 3 White new at 34@35¼c, old at 39@41c. Standard new at 34¾@36c. No 2 new at 33¼@33½c. No 2 White new at 34¾@36c. At the river: No. 4 White old at 35½@36¾c. No 3 White old at 37¼c. Standard new at 34¼c.

Future Deliveries of Contract Oats—Were lower early and higher later.

AUGUST—Closed at 34¼c.

SEPTEMBER—Active. Sold at 33¼@33⅜c and at 34¼@34⅜c. Opened at 33¾c to 34c, sold to 33¼@33⅜c, to 34¼@34⅜c at close.

DECEMBER—Active. Sold at 34c and at 35@35⅛c. Opened at 34⅜c to 34⅝c, sold to 34c, to 35@35⅛c at close.

MAY—Sold at 35⅞@37c. Opened at 36¼c to 36⅜c, sold at 35⅞c to 37c; closed at 36⅞c.

RYE—The market was firm and later advanced 1c. Demand good and offerings light. Only two cars received. There were no withdrawals from store here and no export clearances from New York. No. 2 to go to store sold at 64c and free on board at 65c. No. 3 sold at 62c and choice No. 4 also sold at 62c.

Future Deliveries of No. 2 Rye—Firm. Demand good. September sold at 64@64½c and closed at 65c bid.

BARLEY—There was no special feature to the market. There was nothing new. A few cars of old were offered. Demand very light. Maltsters entirely indifferent. They will take an occasional car when the quality suits them and a purchase can be made at an unquestionably reasonable price. A little new was offered. Some spot very good and some at the river which was faulty. Latter included small berry, good color Iowa and some dirty, off color, not plump and a little soft Nebraska. Sales are elsewhere shown. As yet no regularly established market for new Barley, there has not been enough of it. It is not desired to have new Barley move too early. It will be to the best advantage to have it cured before shipping so that it will arrive in good order. Posted 11 cars in and 1 inspected in. Old Barley prices nominal as follows: Screenings over a range of 28@37c for poor to choice. Feed Barley, common to good 30@35c. Malting, low grade, was quotable 38@40c, fair to good, 42@45c.

SEEDS—Late quietness was continued. There was no particular change. All lines steady, with offerings extremely limited.

Timothy—Several samples of new Seed were shown. They were from Southern Iowa and Northern Missouri. They indicated a fine quality, being bright, plump Seed, better than the first samples on several crops. Some cash Seed was offered and a part was sold. A steady to firm market quotable for old. At about former prices it was salable. September delivery new was held at $3 25, being unchanged, $3 20 bid and nothing was done. Contract old spot or August delivery nominally $3 05. Country lots quotable at $2 00@3 00 for low grade to fancy, choice about $2 86@2 90, fair to good Seed $2 65@2 75 and rough at $2 45@2 55.

Flax—No change in prices and the market was entirely devoid of trading. There was not a single feature of change or interest to note. Only 1 car or 900 bu came in and none taken out. At Minneapolis there were receipts of 9 cars, and at Duluth 32 cars. No. 1 Northwestern or No 1 from the Northwest again $1 24 bid. No 1 salable at $1 17. Rejected about $1 13@1 16, depending on quality. September remained at $1 16½ bid and $1 17½ asked.

Clover—Inactive. No interest whatever was shown. Advices from some other markets indicated some future delivery trading and a firmer feeling. New crop, October delivery contract grade, was quoted at $11 50@11 65. Contract spot Seed nominal at $11 25. Country lots, common to choice, $9 00@10 50, fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 50; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 50@10 25.

Other Seeds—Occasionally some Mustard comes in, but nothing else at present. This nominal at 75c@$1 10 for common to choice. No quotations for other lines.

HOG PRODUCTS—Only a fair trade was reported in Hog Products, and the feeling in a general way was stronger. Offering were not very large, and the demand was fair. Hogs were in fair supply and higher, but this feature had little effect on the market for Products. Outside orders were moderate, and local trading was fair. Market opened rather steady, with little change to note in prices. Later in sympathy with the strength in Grain, the market was firmer, with "shorts" inclined to provide for a portion of their outstanding contracts. Prices advanced on all the leading articles, and the appreciation was fairly well supported to the close. Receipts of Hogs at the leading Western packing points were 59,200, compared with 61,100 one year ago. Foreign markets were quiet, and prices ruled 1s lower on Cumberland Sides and 6d higher on Hams. Domestic markets were quiet. Packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 75,000 Hogs. Receipts of Products were good—of Lard and Meats about 24 cars. Shipments were light of Lard and Meats about 71 cars. Demand on shipping account was moderate with no particular pressure to sell. Sales were fair but not fully reported, and prices were well maintained.

Mess Pork—A fair business was reported in Mess Pork, and the feeling was stronger in a general way. Offerings were not very large, and the demand was fair. Opening trades were made at about the closing figures of Wednesday, but a stronger feeling was developed and prices advanced 17½@20c on the whole range. Toward the close settled back 2½@5c, and the market closed comparatively steady. Shipping demand was light, and offerings were small. Cash lots quotable at $12 95@13 00.

SEPTEMBER—In fair request and offerings were moderate. Sales were made at $12 80@13 00. Opened at $12 80, sold to $13 00, to $12 92½, to $12 95, and closed steady.

OCTOBER—Offerings were not very large, and the demand was fair. Sales were made at $12 87½@13 02½. Opened at $12 87½, sold to $13 00, to $12 97½, to $13 00@13 02½, to $12 95, to $12 97½, and closed steady.

JANUARY—Quiet and steady, with small sales at $12 60.

Lard—A little more activity prevailed in the Lard market, and the feeling was stronger. Offerings were fair, and the demand was quite active. At the opening, the feeling was rather easy, and a few trades were made at 2½c decline. Later, the market exhibited a stronger feeling and prices were advanced 10@12½c, and market closed rather steady. Foreign advices were unchanged. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 90@6 92½. Loose lots in small request with limited offerings. Prices steady at about 50c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at $6 25. Neutral in only limited demand, with fair offerings. Prices quotably higher at $7 25@7 37½ for No. 1, and $6 87½@7 00 for No. 2.

SEPTEMBER—Offerings were moderate, and the demand was fairly active. Sales were made at $6 87½@7 02½. Opened at $6 87½ to $6 87½@6 90, sold to $7 02½, to $6 97½, to $7 00, to $6 97½@7 00, and closed steady.

OCTOBER—In fair request, and offerings were not very large. Sales were made at $6 95@7 07½. Opened at $6 95 to $6 95@6 97½, sold to $7 07½ to $7 05@7 07½, and closed steady.

DECEMBER—Quiet, and steady with sales at $6 85.

JANUARY—Sold sparingly at $6 90.

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was stronger. Offerings were fair, and the demand was moderately active. At the opening the feeling was easy, and a few trades were made at 2½c decline. Later, the market was quite strong, with fair miscellaneous buying and prices were advanced 7½@10c, and the market closed steady. Inquiry on shipping account was moderate in a quiet way and offerings were only fair. Cash lots were quotable at $7 5@7 70 according to weight.

SEPTEMBER—Demand fairly active, and offerings were moderate. Sales were made at $7 60@7 70. Opened at $7 60 to $7 62½, sold to $7 60, to $7 70, to $7 67½, to $7 70, and closed steady.

OCTOBER—In fair request and offerings were not very large. Sales ranged at $7 62½@7 70. Opened at $7 62½, sold to $7 70, to $7 67½, to $7 70, to $7 67½, to $7 70, and closed steady.

JANUARY—Quiet, with small sales at $6 75.

Other Meats—Trade was only fair, and mainly on domestic account. Exporters buying sparingly. Offerings fair, and the inquiry moderate. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in good request, with only moderate offerings, and prices well maintained. Dry Salted Meats were in fair demand with moderate offerings, and prices were steadier. Smoked Meats called for moderately, and prices were steady. Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs, 9¾@9⅞c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9⅝c; 16@20 lbs, 9⅝@9⅞c; Skinned Hams, 11⅛@11¼c. Shoulders, 6¾@6⅞c. Picnic Hams, 7⅛@7¼c; Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9⅝@9¾c, 14@16 lbs, 9⅜@9¾c cash, 9¾@9⅞c August; 18@20 lbs, 10@10⅛c; Skinned Hams, 11½@11⅝c cash, 11⅝@11⅞c August. Shoulders, 7½@7¾c. Picnic Hams, 7¾@7⅞c; Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7¼@7⅜c; Short Fat Backs, 6¾@7¾c, Short Clear Backs, 8½@9c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c; Extra Short Rib Sides, 7⅜@7½c, Extra Short Clear Sides, 7⅜@7½c; Rough Sides, 7⅜@7⅝c. Sales were: ON TRACK—Tangled Rye—3 cars at $8 00, 1 car at $8 25. Oat—1 car at $6 00.

THE SPRING WHEAT CROP.

[From the Northwestern Miller, Aug. 3.]

The crop situation in the Northwest is not as favorable as a week ago, as some impairment seems to have resulted from rust. To what extent the crop is affected is difficult at this time to say, as reports are conflicting. Reports of the most serious damage come from South Dakota, and some points in the central western part of Minnesota. Black rust is represented to have done the harm, and from its exceptional nature it is much less easily detected than is red rust. Some very conservative elevator men give so much credence to the reports as to believe that the crop of South Dakota and Western Minnesota will be seriously reduced in yield compared with what was promised ten days ago.

On the other hand, late reports to the *Northwestern Miller* from South Dakota minimize the effect of rust and hold that no great impairment has resulted. That the damage has been at least a great deal exaggerated is not hard to believe. It would seem as though to expect a fair average crop, from the present outlook, if not even better than that is only a rational view to take of the situation.

In Southern Minnesota the crop is exceptionally promising, and the Grain having rapidly matured in the last week cutting is now in full progress. Cutting is also well under way in South Dakota.

In North Dakota and Northern Minnesota, Wheat, while late, has made material headway during the week, and in that district the outlook for the crop is reported as very favorable. Of course early frost could do heavy damage.

The weather is at present bright and cool, and highly favorable to the growing Wheat.

THE FLOUR PRODUCTION.

MINNEAPOLIS Aug 3.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks with comparisons as follows:

	July 30, 1904, Brls.	July 23, 1904, Brls.	Aug. 1, 1903, Brls.	Aug. 2, 1902, Brls.
Minneapolis	200,245	2.7,420	246,005	315,120
Duluth-Superior	17,005	19,260	8,100	41,505
Milwaukee	30,900	34,500	30,840	59,850
Total	248,150	281,280	284,945	416,475
*40 outside mills	111,075	...	129,870	......
Aggregate Spring	359,225	...	414,815	......
St Louis	19,000	16,300	33,100	32,000
†St Louis	21,100	16,700	31,000	70,000
Indianapolis	10,400	5,380	13,780	17,490
Detroit	11,700	11,700	11,400	7,510
Chicago	16,500	6,000	12,100	29,870
Kansas City	22,250	14,875	34,100	34,825
Toledo	8,000	1,000	39,000	......

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

There was a decrease of 27,000 brls in the Flour output last week. One large mill was shut down Tuesday and made a heavy cut into the production. To-day 12½ mills were in operation, and the output promises to approach 40,000 brls. For the same week in 1903 it was 282,200 brls.

Minneapolis mills had an unsatisfactory Flour trade. Foreign trade, except on Clears was generally out of the question, while the domestic trade was of the most meager description, so that business was if anything, worse than the week before. To illustrate the state of the domestic trade, one miller said that a buyer who usually orders 5,000 or 10,000 brls at a time is now sending in orders for single car lots at the market not wishing to stock up with any Flour at present prices. As for Patent for export the same authority stated that they are at least 1s out of line even on the basis of September Wheat prices. Taking present cash Wheat prices into account, the difference would, of course, be much greater. Clears are not so much out of line and a little export business is passing in this grade, some mills reporting a good demand for it, while others are not selling their output. The advance in Wheat does not seem to have brought any large orders for Flour. What Flour is bought is wanted for quick shipment, indicating that the domestic trade generally has little confidence in present prices and prefers to buy from hand to mouth, without reference to the course of the Wheat market.

WHEAT AT PRIMARY MARKETS.

[From the Cincinnati Price Current, Aug. 3.]

The following table shows the receipts of Wheat at Winter and Spring Grain markets for five weeks, from June 27 to Aug. 1 with comparisons, as compiled by the Cincinnati *Price Current:*

	1904. Bushels.	1903. Bushels.
St. Louis	2,183,000	3,123,000
Toledo	264,000	1,136,000
Detroit	142,000	87,000
Kansas City	2,501,000	2,481,000
Winter Wheat	5,089,000	6,851,000
Chicago	1,006,000	1,441,000
Milwaukee	315,000	470,000
Minneapolis	4,566,000	4,312,000
Duluth	1,327,000	651,000
Spring Wheat	7,214,000	6,897,000
Aggregate, 6 weeks	12,303,000	13,748,000
Winter, past week	2,766,000	2,427,000
Spring, past week	1,748,000	1,299,000
Total week	4,514,000	3,726,000
Previous week	2,757,000	3,108,000

The receipts of Wheat the past week at primary markets, compared with the preceding week and corresponding week last year:

	Past week	Preceding week.	Last year.
St. Louis	1,077,000	722,000	1,017,000
Toledo	210,000	14,000	417,000
Detroit	79,000	12,000	31,000
Kansas City	1,400,000	644,000	912,000
Chicago	618,000	131,000	407,000
Milwaukee	43,000	85,000	66,000
Minneapolis	555,000	885,000	761,000
Duluth	532,000	264,000	65,000
Total	4,514,000	2,757,000	3,726,000

The total receipts of Winter and Spring Wheat at primary markets from June 27 to Aug. 1, with comparisons:

	Winter	Spring.	Total
1904	5,089,000	7,214,000	12,303,000
1903	6,851,000	6,897,000	13,748,000
1902	13,693,000	11,715,000	25,418,000
1901	13,087,000	14,386,000	27,473,000
1900	11,875,000	8,874,000	20,749,000
1899	9,631,000	14,799,000	23,330,000
1898	5,734,000	2,687,000	8,421,000
1897	8,212,000	9,379,000	17,591,000
1896	5,855,000	12,693,000	18,548,000
1895	5,315,000	4,453,000	9,768,000

CROP PROSPECTS IN ARGENTINA.

[From the River Plate Review, June 25.]

The change of weather has come just in the nick of time to relieve what was fast becoming a very serious situation, both from an agricultural and pastoral point of view. The extent of the damage caused by the drouth and frost combined will probably not be known for some time yet, and should a return of the latter now take place there will undoubtedly be a critical time in front of us. From over fifty districts of the Republic the same reports have been received of heavy frosts, prolonged drouth, plowing either suspended or difficult, and pasturage dried up and burned. Coming to the Wheat and Flax Seed sowings, it is necessary to deal with them by Provinces. The majority from Buenos Ayres are to the effect that little sowing has been done, and where this has taken place the seeds are not yet up, so that no damage has been done to them by the frost, but on the whole the planting has been delayed. From Santa Fe Province reports vary. In some districts the Flax Seed now coming up has suffered to an estimated extent of 10 per cent frost bitten, while another district Galvez, reports it as badly cut off to the extent of one-half; Rosario district is said to have suffered badly and farmers are preparing to resow the land with Wheat; Coronada district says Flax Seed is considered lost; Rufino district Wheat not yet come up and Flax Seed will not be sown till August; the same applying to Arroyo Seco and Castellanos. From the Province of Cordoba reports vary. Laboulaye, sowings only recently begun; Leones, Flax Seed damaged, Wheat not yet up; Santa Victoria, Flax Seed totally lost; San Francisco, Wheat and Flax Seed not yet up. Entre Rios reports Wheat and Flax Seed only just commenced sowing. Corrientes, seeds not yet up. As regards Corn, all mention of it is to the effect that the dry weather has improved it immensely.

THE HOP SITUATION.

[New York Producers' Price Current, July 30.]

Since our last weekly review there has been a decided strengthening in Hop values and quotations must be advanced fully 1c per lb on Pacifics. There has been some trading on the local market and 27c been paid for prime quality. The reason for this stronger feeling is the sudden change in crop prospects in Germany and Austria. Owing to severe tropical heat and lack of rain the vine is turning yellow. At the present writing the highest estimate on the English crop is placed at 400,000 cwts, and of the German crop it is still too early to say how much the output will have been reduced by the drouth. It remains to be seen whether the situation will be somewhat relieved there by heavy rains. In New York State the crop is doing exceedingly well and no bad reports are heard from any one section. In California the favorable conditions remain unchanged. In Oregon the output is now estimated at 90,000 bales. In Washington growers are well satisfied with the state of affairs. Dealers are trying very hard to contract on the Coast at 21@22c, but growers are very indifferent about accepting these prices. Brewers report an increased Beer output.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Aug. 3.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth together with that of 40 "outside mills" with a daily capacity of 30,005 brls, from Sept. 1, 1903 to July 30 1904.

	1903-04 Flour, brls	1903-04 Wheat, bu.	1902-03 Flour, brls	1902-03 Wheat, bu.
Minneapolis	13,079,903	58,860,000	15,181,980	68,313,000
Duluth	868,255	3,907,000	1,399,195	6,296,000
40 outside mills	6,214,545	27,965,000	6,148,500	27,668,000
Totals	20,162,703	90,732,000	22,728,275	102,277,000

These figures represent the approximate consumption of 11,545,000 bu less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,631,620 brls less Flour, equal to 11,842,000 bu of Wheat, than last year. In contrast, the outside mills have increased their output to the extent of 66,047 brls, equal to 297,000 bu of Wheat.

HOPS ON THE PACIFIC COAST.

[San Francisco Weekly Commercial News, July 30.]

Conditions in California have improved considerably during the past fortnight. Warm weather has been of distinct advantage to the new crop and an average yield is now looked for. Conditions in Washington are also favorable and a crop of 40,000 bales is looked for; sales of new crop have been made at 20c.

Oregon's crop of Hops, as appears from present indications, will be about the same as last year's, says the *Oregonian*. In 1903, the State produced 88,000 bales. Two weeks ago an output of 100,000 bales or over was figured upon. Since then the weather indications have been such that this estimate must be reduced. The State may turn out a few thousand bales less than last year or a few thousand more.

THE WEATHER CONDITIONS.

The weather map shows rains all through Nebraska, Iowa and Kansas, also in the eastern part of Manitoba. Clear in Minnesota and Dakotas and the Ohio Valley. Temperatures cool. Extreme Northwest 56 to 62; Northwest, 50 to 62; West, 52 to 68, Southwest, 64 to 72; Ohio Valley, 52 to 72.

ITEMS OF GENERAL INTEREST.

The net earnings of the Sloss-Sheffield Steel and Iron Company for July, 1904 after paying interest and taxes were $79,81.

A New York refiner has advanced his price for refined Sugars 5 points to 5.05c, less 1 per cent cash, for fine granulated in barrels.

A Chicago banking firm is offering $400,000 of the new first mortgage 5 per cent bonds of the United States Gypsum Company at 95 and interest.

It is stated that orders for locomotives are now at the rate of about 1,500 per year. The capacity of the locomotive plants of the country is about 4,500 per year.

The July Gold production of the Cripple Creek district reaches 51,200 tons of ore worth $1,714,000. This is 1,500 tons less than in June, but an increase in valuation of $97,00.

The Southern Railway Company has declared the regular semi-annual dividend of 2½ per cent on its preferred stock, payable Oct. 17. Books close Sept. 24 and reopen Oct. 18.

The Atlantic Coast Line reports $20,544,975 gross and $7,717,882 net for the fiscal year ended June 30, increases of $86,5.0 and $617,703 respectively. Both items showed decreases for June.

The Duluth *Commercial Record* says of the reports of serious damage to the crops in the Northwest: "Such reports are the merest rot, and are not worthy of a second consideration."

New York State Savings Banks in year ended July 1 increased $53,739,155, in total resources increased $54,672,892; in amount due depositors and surplus increased $104,776, and open accounts increased $78,818.

The St. Paul and Northwestern Railroads, which cover Southern Minnesota and South Dakota thoroughly, have received numerous crop reports the past few days, which fail to show the extensive claims of damage.

At a meeting of the directors of the American Radiator Company, Tuesday, a regular quarterly dividend of 1¾ per cent on the preferred stock was declared, payable Aug. 15. The books will be closed from the 10th to 15th, both inclusive.

The Montana Wool clip this year is placed at 30,000,000 lbs as compared with a clip of 36,003,000 lbs last year. The average price received for the clip was 18.46c per lb in Montana which would give a total value to this year's clip of $5,538,000.

Directors of the United States Cast Iron Pipe and Foundry Company, Tuesday, increased the preferred dividend rate one quarter of 1 per cent for the last quarter. The declaration was 1¼ per cent for the quarter, compared with 1 per cent paid in the previous quarter.

For the purpose of preserving a record of the stockholders who would be entitled to rental on the fifteenth day of August, 1904, the books of the West Chicago Street Railroad Company will close at the close of business Aug. 5, 1904, and reopen at the commencement of business Aug. 16, 1904.

Transactions upon the Boston Stock Exchange for July were the largest for any month since August, 1903. They aggregated 720,603 shares listed, 175,417 shares unlisted, compared with 624,869 and 281,131 shares repectively July last year. Bond transactions aggregated $973,807 compared with $1,060,520 July last year.

The Union mills of Fall River, Mass., has passed its August dividend for the first time in years. The Union is usually placed at the head of the list of corporations in Fall River in financial strength, ability of management and low cost of production. The company has not only paid regular annual dividends of 6 per cent or more, without a break, but has declared several extra dividends.

The strike at the packing-house centers has been reflected in Hides, in consequence of which the United States Leather Company has advanced the price of sole Leather 1c per pound all around. The advance in the price of sole Leather is more than the equivalent of the advance in the price of Hides, and an official of the United States Leather Company is authority for the statement that this advance in the price of sole Leather is worth $2,000,000 to the United States Leather Company.

The expenditure of the United States Government is less in proportion to the population than that of most other countries. Seven dollars and ninety-seven cents a head; that's the figure. For Germany it's $9.45; for France, $17.84; for Great Britain, $21.30; for Canada, $9.30; for New Zealand $38.38. Except in political campaigns it is unnecessary to view with alarm the reckless and profligate extravagance of the Federal Government.

Dornbusch's Buda Pesth correspondent, writing under date of July 23, says: "Flour continued firm during the week, in sympathy with the rising tendency on Wheat market. For the last three weeks a very active business has been in progress, aggregating about three times the normal output. The stocks, however, have not materially decreased, and there are fears in some quarters that the present forced output will tend to increase the reserves. Mill feeding stuffs continue firm."

Buenos Ayres advices of July 1 say: "Latest advices regarding agricultural prospects report that good rains have fallen during the last few days, which have benefited the recently-sown Wheat and Seed, and put the ground into good condition for sowing in those districts which are behind, owing to the extreme drouth. All indications point to an increased acreage of Wheat, amounting in some parts of the province to a third more. The area under Flax Seed will be large in this province."

A Boston dispatch says: "The Wool market here is quiet this week, most manufacturers having freely stocked up during the early part of the summer. Dealers have sold enough of their new Wools to make them feel independent for some time, and a firm tone prevails. Future prices depend to some extent on the state of the goods market, which has not been as active as the manufacturers would like. Fleeces and Territory Wools are firm, and the present demand for fleece Wools is largely for the medium grades. Old Wools are quiet.

The Westinghouse Electric Company issues a circular to stockholders offering 50,000 shares of new stock on the same terms as the 90,000 shares issued last May, at $80.00 per $50.00 share, or 160 per cent. Of this issue 37,500 shares have been underwritten at the subscription price. Payment for stock will be $30.00 per share Aug. 15, $25.00 per share Sept. 30, and $25.00 per share Nov. 30. The new stock will be entitled to participate in dividends declared for the quarter ending Sept. 30. Subscription rights for fractional amounts may be purchased or sold at the New York office of the company.

In the United States census bulletin for 1902 is contained the following figures on electric lighting for 1902 in the United States:

	Per K. W. capacity.
Capitalization	$136.00
Gross income	71.10
Expense	56.80
Net income	14.30
Profit on par value of capitalization	3.28 per cent

It is estimated by capable engineers that the actual cost per kilowatt capacity is about $250, instead of $136, as capitalized. If this is so the productivity on actual investment is about 5.76 per cent.

An Eastern Steel manufacturer in close touch with the affairs of the American Can Company says, "Before the close of the current year you will witness a vast improvement in the business of the American Can Company. W. T. Graham, who is one of the most thorough and experienced Steel men in the United States, has outlined a policy that will add largely to the earnings of the corporation. As an illustration, the Can Company proposes to manufacture tin boxes for cigars. I believe that within the next few years you will find very few wooden cigar boxes in use. If tin boxes are adopted by cigar manufacturers it will mean a very large increase in the tin output of the country."

The weekly weather crop bulletin of Aug. 2 says of Cotton: Has made good growth in central and eastern portions of Cotton belt. Too rapid growth reported from portions of Alabama, Mississippi and Louisiana. Complaints of rust and shedding are more general than in the previous week in the Carolinas Georgia and Florida. Shedding is also generally reported from Texas, where most of the crop would be benefited by rains, drouth being most serious in the north central counties. Much of the crop in Mississippi and Louisiana is grassy. Picking continues in Southern Texas, where it is expected to be general by the middle of August, and has begun in Alabama and Florida.

Earnings for June of Greene Consolidated were $215,673 and for May were understood to be practically the same. The net earnings for the past four months during which they have been made public compare as follows:

March	$180,230
April	192,438
May (estimated)	215,000
June	215,673
Total	$809,341

At this rate Greene Consolidated is earning about 30 per cent on its capital stock of $8,640,000 and is declaring dividends at the rate of 18 per cent per annum.

M. L. Amster is addressing circulars to the minority stockholders of the Anaconda Copper Company and inclosing therewith blanks whereon the shareholders are requested to indicate their purpose to vote their stock in furtherance of Mr. Amster's crusade. He says: "We figure that the Anaconda has been victimized (by Amalgamated interests) up to the first of July to the extent of about $6,000,000 at the mine and about $3,000,000 by the United Metal Selling Company in New York in Copper speculation during 1900 and 1901. The extraordinary shrinkage in the company's profits from $6,305,000 for the year ended June 30, 1900, to $1,259,875 for the year ended June 30, 1901, was not due to natural causes, but to the management of the company."

An example of railroad economy and retrenchment is afforded by the Rock Island since the beginning of the current year. According to the *Wall Street Journal*, the results of the policy of President Loree are felt in every department of the system. In the accounting department here in Chicago and in the auditing department the forces have been cut down from over 1,300 to fewer than 700. In all directions clerical forces have been radically reduced. The heavy and cumbersome methods that arose out of the quick consolidations that made the Rock Island have given way to the simplest kind of administration devices in the hands of the lightest possible force. The net saving per annum in salaries alone in 1905 is estimated at over $500,000.

STOCKS OF PROVISIONS AT MILWAUKEE.

The stocks of Provisions at Milwaukee at the close of business July 30, 1904, with comparisons, were as follows:

	July 30, 1904.	June 30, 1904.	July 31, 1903.

Estimated receipts for to-morrow Wheat, 115 cars; Corn, 2 6 cars Oats, 376 cars; Rye 5 cars, Barley, 6 cars; Hogs, 16 000

The Kansas City *Star* estimates the Kansas Corn crop at 175,000,000 to 200,000,000 bu Much Corn in the Eastern 75 miles of the State is poor

Stocks in New York were strong and made substantial gains. London had a better tone and sent buying orders. Money ⅞ to 1 per cent.

Cotton in New York made good advance on "bull" support and higher cables Trading was larger. Closing sales were at gains of 12@15 points.

Reported that the condition of Wheat at harvest in Kentucky was 86, compared with 79 last report. Acreage one-third less than last year. Corn, 93. Oats, 83.

Local Securities were moderately traded in, and with few exceptions averaged higher The declines were on Northwestern Elevated and Box Board preferred.

The receipts of Wheat at Liverpool during the past three days were 296,000 bu, of which 112,000 bu were American. Receipts of Corn, 350,000 bu, of which 56,000 bu were American.

Argentine Wheat visible is 3,896,000 bu, against 3,352,000 bu the previous week, and 2,800,000 bu last year. The Argentine Corn visible is 3,112,000 bu, against 3,822,000 bu the previous week and 3,943,000 bu last year.

Col. G. D. Rogers, Secretary of the Minneapolis Chamber of Commerce, estimates the damage to Wheat in the Northwest at 20 per cent in South Dakota, 10 per cent in North Dakota, and 5 per cent in Minnesota.

Shipments of Wheat from Argentina this week were 1,184,000 bu, against 1,272,000 bu the previous week, and 1,111,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 72,904,000 bu, against 53,06?,000 bu same time in 1903

Shipments of Corn from Argentina this week were 2,580,000 bu, against 1,046,000 bu the previous week and 3,463,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 37,301,000 bu, against 30,112,000 bu for same time last year.

The Duluth *Commercial Record* estimates the area of Flax Seed in the Northwest at 2,056,000 acres and the prospective yield at 18,263,000 bu The area last year, according to the same authority, was 3,292,000 acres, and the yield 25,688,000 bu.

The death of JOHN RANKIN, ESQ., one of the oldest members of the Chicago Board of Trade, occurred at Oak Park, on Tuesday. He was connected with the organization for over one-third of a century and was highly esteemed by his business associates.

The shipments of Flax Seed from Argentina this week were reported at 536,000 bu, compared with 528,000 bu last week, and 456,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 33,546,000 bu, compared with 20,269,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 273 000 bu, against 416,000 bu for the previous week and 884,000 bu for the corresponding week last year. Exports since July 1 were 2,588,000 bu, compared with 6,241,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,379 000 bu, against 1,013,000 bu for the previous week, and 3,040,000 bu for the corresponding week last year. Exports since July 1 were 6,564,000 bu, compared with 15,046,000 bu for the corresponding time last year.

According to a special cablegram from the Liverpool *Corn Trade News* to the DAILY TRADE BULLETIN the aggregate supplies of Breadstuffs in store in Europe and Argentina and afloat for Europe on Aug. 1 were equal 74,0?2,000 bu, compared with 84 724,000 bu on July 1, and 52,910,000 bu on Aug. 1, 1903 The decrease during July was 10,712,000 bu, compared with 19,390,000 bu in July, 1903

The *Modern Miller* says: "Disappointing threshing results of the Winter Wheat crop come from the States of Ohio and Mississippi Valleys, these being due largely to the light weight of the Grain in many sections. Elsewhere except in the eastern portions of Kansas and Nebraska, the yield generally is up to expectations The Grain averages lighter in weight than last year, and much of it is bleached, yet its Flour-producing quality is better than the 1903 crop."

One year ago the editor of the Duluth *Commercial Record* estimated the Wheat crop of the three Northwestern States at 175,000,000 bu He has issued a statement to verify his estimate For the year, ending August 1, 1904, the aggregate receipts at Minneapolis and Duluth are given at 115,000,000 bu, of which 14,500,000 bu (reported by railroads) was Winter Wheat, leaving a net supply of 100 500,000 bu. Of this supply 12 000 000 bu was shipped to interior mills, leaving 88 5 0,000 bu for the milling interest of the two cities. The quantity used for seed is placed at 18,000,000 bu, The milling capacity of the interior mills is stated to be 101,000 brls daily, but the capacity allowed is the same as last year—93,000 brls—and the running time 170 days. Aggregate production 15,743,000 brls which would require 70,835 000 bu of Wheat Taking all these items into consideration, the aggregate crop of the three States for 1903 was 177,300,000 bu.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate but market very firm and prices 25@30c higher than a week ago Foreign inquiry more general, and few scattered sales

WINTER WHEAT—The market was steady to about ¼c higher. A good demand existed, with millers and speculators buying It was claimed some round lots were sold to millers besides the car lots of fresh arrivals Trade very good. No 2 Red in store was quotably about price of old September, with sales of car lots to go to store at 98½c, free on board at 99c and billed through at 97@98c No. 3 Red fresh arrivals free on board sold at 93@98c and billed through at 96@98½c No 4 Red fresh receipts sold free on board at 90@96c. No 2 Hard sold to go to store at 97¼c, free on board at 97@99c and billed through at 96¼@97c No. 3 Hard fresh receipts sold at 95@97c and No 4 Hard at 91@91½c. No 3 White sold at 94@95c

SPRING WHEAT—The No 1 Northern in store here has been about all sold, the last of it selling late yesterday at $1 05@1 07, aggregating some 75,000 bu. To-day car lots were quotably about $1 08 free on board. No. 2 Northern nominally $1 0?@1 05 No 3 Spring nominally 94c@$1 02. No 4 Spring nominally 75@95c

REGULAR WHEAT—Was active with a heavy trade, the market ruling sensitive and unsettled. Closing prices showed declines of ⅝c for December and ⅞c for May, while new September gained ⅛@¼c Selling by local as well as Eastern and Northwestern "longs" was the chief feature early in the session, the better weather present and prospective in the Spring Wheat belt, liberal receipts and the fact that cables responded only partially to the rise on this side yesterday were the principal "bearish" influences Continental crop conditions were more favorable the weather in Western Europe being fine for harvesting and it was said if present conditions should continue, the foreign wants would be less than the past two years. Market rallied sharply after the early break on fresh damage claims from Northwest but settled back again, and closed as noted above Liverpool quoted spot unchanged to ⅛d lower and futures ¼@½d higher. London ½@2d higher, and Paris ¾@1¼c better. Berlin ⅛c higher and Buda Pesth ⅞c higher Stocks in Europe, Argentina, and afloat reported reduced 10,700,000 bu during July, and aggregate supply 74,000,000 bu, against 53,000,000 bu last year. Argentine shipped 1,181,000 bu, and since Jan. 1 72,904,000 bu, against 53,06?,000 bu in 1903. Visible there 3,896,000 bu; last week 3,352,000 bu; year ago 2,800,000 bu. Cables reported the Argentine crop making excellent progress Map showed cool weather in the Northwest and Manitoba with no precipitation. Fair weather was predicted for the Northwest, and showers for Illinois, Indiana and Kansas. Minneapolis reported harvesting commenced around St. James, Minn., and yields 18@20 bu per acre. The editor of the Minneapolis *Market Record* estimated the damage in South Dakota 20 per cent, 10 per cent in Minnesota, and 5 per cent in North Dakota The *Modern Miller* was construed as moderately "bullish." Primary receipts were over double those of a year ago, Kansas City and St. Louis receiving 520,000 bu, against 274,000 bu in 1903 Minneapolis stocks expected to decrease 700,000 bu this week Clearings small and total for the week 1,379,000 bu, against 3,010,000 bu last year. Kansas City expects 378 cars to-morrow. Duluth stocks are expected to decrease 415,000 bu this week. Receipts at Duluth 31 cars and at Minneapolis 95 cars, a total of 129 cars, against 170 cars yesterday, 120 cars a week ago, and 129 cars last year. Local receipts included 88 cars Winter, 4 cars Spring, 1 car mixed, a total of 93 cars, against 135 cars last year. Included in the above were 10 cars contract grade There were 18 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 115 cars. Withdrawals to-day were 14,800 bu. Receipts at Western points were 849,8?9 bu, against 564,498 last year At Eastern points 135 6?3 bu, against 283 7?2 bu last year. Shipments from Western points were 631,414 bu, against 467,400 last year, and from Eastern points 20,835 bu, against 367,1?7 last year. Shipments of Flour were 15,93? brls. Exports of Wheat in Flour were equal to 92,528 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

SEPTEMBER—Old Style—Sold at 97⅝c@$1 00½. Opened with sales at 98½c to 98¼c; sold to 99⅛c, to 98⅛c, to 98⅝c, to 97⅞c, to 98⅛c, to 97⅝c, to $1 00, to 99c, to $1 00½, to 98¾c, and closed at 98⅞c.

SEPTEMBER—New Style—Sold at 96½@99⅛c. Opened with sales at 97½c to 95¾c; sold to 97c, to 98¼c, to 97⅜c, to 97⅝c, to 96⅞c, to 97⅝c, to 96⅞c, to 97⅜c, to 98½c, to 97¾c, to 97⅜c, to 99⅛c, to 98c, to 99⅛c, to 98¼c, to 98½c, to 97½c, to 97⅝@97¾c, and closed at 97⅝@97¾c

DECEMBER—Sold at 95⅝@98c. Opened with sales at 97¼c to 96¾c; sold to 98c, to 97½c, to 97¾c to 96⅜c, to 97c, to 96½c, to 97c, to 95⅝c, to 96⅛c, to 96c, to 96c to 97c, to 98c, to 96½c, to 96⅝c, and closed at 96⅝c bid.

MAY Sold at 97½@99⅞c. Opened with sales at 99¼c to 98¾c; sold to 99⅞c, to 99⅜c, to 99¾c, to 98c, to 99c, to 97½c, to 98½c, to 99c, to 99½c, to 98⅜c, and closed at 98⅜c sellers.

CORN—A good general trade and with the feeling more unsettled, the close showing declines ranging from ⅜@½c to ⅝c Commission house selling was more general and demand less urgent, though the May appeared to be wanted on the soft spots and not an overabundance on sale September "longs" again sold with considerable freedom Market was inclined to sympathize to some extent with Wheat Cables were firm Liverpool quoted spot steady to ¼d higher and futures ⅝d better. Receipts there the past three days 360,000 bu and 55,000 bu of same from America. Cargoes on passage were firm with less offering Argentina shipped 2,580 000 bu, making 37,301,000 bu since Jan 1, against 30,112,000 bu in 1903, and the visible reported 3,112,000 bu, against 3,822,000 bu last week and 3,943 000 bu one year ago. Movement in Argentina reported delayed by rains. *Broomhall* cabled that further rains have fallen in Roumania, which will be of some benefit to late planted Corn, and that it was hoped the prohibition of exports will be rescinded when the Government has provided for the needs of the peasant. Southwestern markets were easy Kentucky report made condition 94 per cent but advices from Illinois around Champaign were "bullish," claiming rain was needed badly. There was also talk of the weather being too cool. Receipts 241 cars, making 1,216 cars this week, against 963 cars a year ago, and 237 cars estimated for to-morrow Western receipts 404,000 bu, last year 251,000 bu shipments 269,000 bu and 339,000 bu respectively. Local arrivals 265,000 bu, and shipments 162,000 bu. Exports 9,600 bu, and total for the week 273,000 bu, against 884,000 bu one year ago. Cash demand here moderate; sales 100 000 bu, and no boat loads accepted at the seaboard. Car lots in fair demand and prices ½c higher. No. 2 closed about 52¼c No. 2 Yellow sold at 54c, and closed at 54c No. 3 sold at 52½c, and closed at 52¼c. No 3 Yellow sold at 54c, and closed at 53¾c. No. 4 sold at 51½@53½c, outside for yellow

Corn by sample—Was in good demand, and feeling firm. Prices about ½c higher Offerings were moderate. Sales on track and free on board: No Grade sold at 50@50½c No. 4 at 50½@53½c. No. 3 at 52½@53¼c. No 3 Yellow at 53@54¼c. No. 2 at 53c No. 2 Yellow at 54¼@54½c. No 3 White at 52¾@53c. No 2 White at 52½c Billed through. No. 4 at 50@53½c. No. 3 at 51½@52c No. 3 Yellow at 52½@53¼c. No. 2 Yellow at 52¾@53c. No 3 White at 51½@52c.

Future Deliveries of No. 2 Corn—Active and prices irregular, closing ⅜@½c to ⅝c lower.

AUGUST—Sold at 52⅛c and closed nominally at 51⅝c

SEPTEMBER—Sold at 51⅞c and at 52¾@52⅞c Opened at 52⅜c to 52c, and sold at 52¾c, to 52⅜c, to 52⅝c to 52¼c, to 52¾@52⅞c, to 52@52⅛c, to 52⅜@52¼c to 51⅝c to 52¾c, to 52¼@52⅜c, to 52½c, to 52⅛c, to 52⅛@52¼c, and closed at 52⅛@52¼c asked

DECEMBER—Sold at 48⅜@49¼c Opened at 49¼c to 48⅞c and sold at 48⅞c, to 48¾@48⅞c, to 49⅛c, to 48⅝c, to 49⅛c to 48¾c to 49c, to 48¾c, and closed at 48¾c bid

MAY—Sold at 47¾c and 48½@48⅝c. Opened at 48⅛c to 48c, and sold at 48⅜c to 48⅝c, to 48⅛c, to 47¾c, to 48½@48⅝c, to 48¼c, to 48⅜c, to 48c, to 48⅜@48½c, to 48¼c to 48½c, to 48c to 48@48⅛c, and closed at 48@48⅛c

OATS—Were weak and closed ¾@1c lower despite the advance in Wheat The selling was by hedgers and by receiving houses. Buying was scattered. Trading in the aggregate only fair. Arrivals were 235 cars with 378 cars estimated for to-morrow Withdrawals 19,925 bu Seaboard clearances small Car lots to go to store closed 1@1¼c lower. No Grade new sold at 33½c. No 4 White new at 34@35c. No. 3 White new at 31@35c. Standard at 35c. No. 2 White new at 34½c. Standard in store closed about 33⅝@33¾c

Oats by sample were slow at the start, but on a break of 1@1¼c the demand improved. Offerings were liberal and quality averages high Most of supply was new. Sales on track and free on board: No Grade new 33½@33¾c No 4 old at 35@35½c. No 4 White new 34@34½c; old 34@35½c No. 3 new at 33@34½c; old at 34@36½c. No. 3 White new at 34½@37¼c old at 36½@40c. Standard new at 35@37½c No 2 new at 33¼@34c No 2 White new 34½@36c. Billed through. No Grade new at 32½@34c. No 4 White new at 33@34½c No. 3 new at 31½@32c No. 3 White new at 32¼@35c old at 37c Standard new at 34@35¼c No 2 new at 32¾@31c No 2 White new at 31½@35½c At the river No Grade new at 29c No. 4 White old at 36½c. No. 3 White new at 33½@34c Standard new at 34c.

Future Deliveries of Contract Oats—Were weaker on moderate trading.

AUGUST Closed at 33⅜c

SEPTEMBER—Moderate trading. Sold at 33⅜@34⅛c Opened at 33⅞c to 34⅛c, sold to 33⅜c at close.

DECEMBER Sold at 34¼@35c. Opened at 34⅝c to 35c sold to 34¼c, to 34¼@34⅜c at close.

MAY Sold at 35¾c and at 36⅞@37c. Opened at 36⅝c to 36¾c, sold to 36⅞@37c to 35¾c, to 35⅞c at close.

RYE—Was in good demand and but little offered Prices were 2@3c higher Only seven cars received None withdrawn, and there were no export clearances from New York. No 2 fresh receipts free on board sold at 67@68½c.

Future Deliveries of No. 2 Rye—Prices 3c higher. September sold at 68c. December nominally 70c.

BARLEY—A small business was done. The few cars sold did not reflect any change. Some cars of new offered were not sold, being held for new samples or not sold for some other cause. New, good color, but thin and Oaty, not suitable for malting, sold at 43c; several cars of nice malting also at 48@50c Demand as yet very tame New Barley seems to be coming through good for the first of the crop. It is well not to be in too much of a hurry, Barley should go through the sweat as a better assurance of its arriving in proper condition It makes a big difference in prices whether or not Barley is in good condition. Nine cars inspected in, three of them new and graded No. 3. Screenings nominal over a range of 28@37c for poor to choice old Feed Barley, common to good 30@35c Very nice color, new, sold at 43c. Malting, low grade, was quotable 38@40c, fair to good, 42@45c, and choice new sold at 50c

SEEDS—Little was done. New-crop Timothy was weaker, but no other change in Grass Seeds was noted. Flax showed some evidence of improvement.

Timothy—For new crop Seed there was rather a lack of demand. Nothing was done September delivery was offered at $3 20, or at 5c decline No regular demand seemed to exist though finally $3 10 was reported bid. No old cash Seed was offered No trading and no change in that part of the market. Contract old spot or August delivery nominally $3 05. Country lots quotable at $2 00@3 00 for low grade to fancy; choice about $2 80@2 90, fair to good Seed $2 65@2 75 and rough at $2 45@2 55 A number of samples of new Seed again shown They continue to reflect a high quality It was attempted to get at the probable salable value of some of these lots, but it could not be done No one would venture a positive quotation

Flax—There was a steady firm market, with some evidences of ½c improvement. The market was again a shade better in the Northwest, and that led to improvement here. Trading about at a standstill. Five cars or 4,500 bu came in and none taken out. At Minneapolis the receipts were 5 cars, and at Duluth 12 cars. No. 1 Northwestern or No. 1 from the Northwest was $1 24½ bid and a sale was made. No. 1 salable at $1 17 Rejected about $1 13@1 16, depending on quality. September $1 17 bid and $1 19 asked.

Clover—Was nominally higher. No Clover offered and no trading. In some of the outside markets there was speculative excitement On advanced prices at other points, nominal quotations here were raised. New crop, October delivery, contract grade, was quoted at $12 00. Contract spot Seed nominal at $11 60. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@11 00

HOG PRODUCTS—Trade was moderate in the market for Hog Products, and the feeling was easier Hogs in good supply and lower Outside orders small, and local trading only fair. Feeling easy, and prices somewhat lower in sympathy with Hogs and Grain. Receipts of Hogs at the leading Western packing points estimated at 47,800, compared with 62,600 one year ago. Foreign markets firmer, and Lard, Hams, Backs and Cumberland Side quoted 6d higher. Domestic markets steady Receipts of Products were good—of Lard and Meats about 22 cars Shipments were light of Lard and Meats about 72 cars Shipping demand was moderate and offerings were fair. Sales not very large, and prices steady.

Mess Pork—A moderate trade was reported in Mess Pork, and the feeling was easier. Offerings were fair, and the demand was moderate Opening sales were at 2½c decline, and a further reduction of 12½@15c was submitted to, and the market closed quiet. Shipping demand was light, and offerings were small. Cash lots quotable at $12 75@12 80

SEPTEMBER—Offerings were fair and the demand was moderate. Sales were made at $12 77½@12 92½. Opened at $12 92½, sold to $12 85@12 87½ to $12 87½, to $12 80, to $12 82½, to $12 77½, and closed steady

OCTOBER—In light demand and offerings were moderate Sales were made at $12 77½@12 97½ Opened at $12 97½, sold to $12 77½, and closed steady

JANUARY—Quiet, with small sales at $12 80.

Lard—Trade was moderate in the Lard market and the feeling was easier. Offerings were fair, and the demand only moderate. Prices declined 10@12½c, and the market closed quiet at about inside figures. Foreign advices were favorable to sellers Trading was mainly local. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 80@6 82½. Loose lots in small request with limited offerings Prices steady at about 50c discount on September figures Leaf Lard was in light demand with moderate offerings Quotably steady at $6 25 Neutral in only limited demand, with fair offerings Prices quotably steady at $7 25@7 37½ for No 1, and $6 87½@7 00 for No 2

SEPTEMBER—Demand was light and offerings were moderate. Sales were made at $6 90@6 92½ Opened at $6 92½, sold to $6 90, to $6 92½, to $6 90, and closed steady

OCTOBER Offerings were moderate, and the demand was rather light. Sales were made at $6 95@7 00. Opened at $7 00, sold to $6 95, and closed steady

DECEMBER—Quiet with small sales at $6 82½

JANUARY—In fair request, with moderate offerings. Sales were made at $6 85@6 90, and closed at $6 85.

Short Rib Sides—A fair business was reported in Short Rib Sides, and the feeling was easier. Offerings were moderately free, and the demand was fair Prices declined 7½@10c on the whole range and the market closed steady. Shipping demand light and offerings were moderate Cash lots quotable at $7 50@7 62½ according to weight

SEPTEMBER Offerings were fair and the demand was moderate Sales were made at $7 62½@7 67½. Opened at $7 65 sold to $7 65@7 67½ to $7 62½@7 65, to $7 65 to $7 62½, and closed steady

OCTOBER In fair request and offerings were moderately free. Sales were made at $7 60@7 67½ Opened at $7 65, sold to $7 67½, to $7 60@7 62½, to $7 62½ to $7 60, and closed steady

JANUARY—Quiet, with small sales at $6 70

Other Meats—Trade was only fair, and mainly on domestic account Exporters buying only sparingly Offerings fair, and the inquiry moderate Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in good request, with only moderate offerings, and prices well maintained. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately, and prices were steady. Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs, 9¾@9⅞c; 12@14 lbs, 9½@9¾c, 14@16 lbs, 9½@9¾c; 18@20 lbs, 9¾@9⅞c; Skinned Hams, 11⅛@11¼c; Shoulders, 6⅞@7c; Picnic Hams, 7¼@7½c. Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c; 12@14 lbs, 9⅝@9¾c; 14@16 lbs, 9⅝@9¾c cash, 9¾@9⅞c August, 18@20 lbs, 10@10⅛c; Skinned Hams, 11⅛@11⅜c cash, 11⅜@11⅝c August; Shoulders, 7½@7¾c. Picnic Hams, 7¼@7⅞c, Bellies, 10@11c DRY SALTED—*loose*—Shoulders, 7¼@7¾c Short Fat Backs, 6¼@7¾c; Short Clear Backs 8½@9c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c, Extra Short Rib Sides, 7⅜@7½c Extra Short Clear Sides 7⅜@7½c, Rough Sides, 7⅜@7⅝c; Plates, 5⅜@5⅞c; Jowl Butts, 5@5⅛c EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10⅜c Cumberland Sides, 9@9¼c. Long Clear Sides, 9@9¼c; Extra Long Clear Sides, 8@8¼c; Short Clear Sides, 8@8¼c SMOKED—*loose*—Hams 11¼@11¾c, Skinned Hams, 12¼@12¾c; Shoulders, 8⅞@9c Picnic Hams, 9@9½c. Short Rib Sides, 7¾@7⅞c Rough Sides, 7¼@7⅞c, Short Clear Sides, 7⅞@8c. Extra Short Clear Sides, 7⅝@7¾c; Breakfast Bacon, 11½@12c.

CASH PRODUCE TRANSACTIONS.

Lake Freights—Charters were for 60,000 bu Wheat at 1¼c and 200,000 bu Corn at 1¼c to Buffalo.

Flour—SPRING 500 sacks Bakers' for export on p. t.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Aug. 4.]

In the central regions there has been lack of general rains the past week. This condition has favored Wheat threshing operations, the securing of Hay in good condition, the harvesting of Oats, etc. Corn has withstood the lack of moisture quite well, with comparatively little exception. This has manifestly been possible from subsoil resources resulting from the exceptional snows of the winter and the spring rains.

In regard to the Winter Wheat crop there is little to be said that is new. Threshing is progressing, and disclosing much shriveled Grain, but with many instances of good quality and results in varying degree better than the earlier calculations. Taken all in all there appears no occasion at this juncture for changing the general views as to the outcome of this portion of the crop.

Information from the Northwest reflects considerable complaint in regard to rust in the Wheat. It is reasonable to accept it as a factor in the situation as well-founded, but with considerable allowance for overstatements as to extent of injury. Whatever may be developed by final returns it is not yet in order to assume serious curtailment in the promise as to yield; much Grain.

The progress of the Oats harvest in the central regions has disclosed results which in general are not at essential variance from expectations. More of disappointment indicated in various portions of Illinois than elsewhere. The shortages west of the Mississippi River, in Missouri and Kansas, have been previously reflected.

The general promise of the Corn crop continues one ranging for a large yield. While there have been local rains, beneficial there in the present time in the central regions, much of the area is becoming so deficient in moisture as to threaten unfavorable influence on the crop unless relief comes without much delay.

The indications are that a fairly large crop of Hay has been and is being secured, and generally in good condition.

MONTHLY COTTON REPORT.

The monthly report of the chief of the Bureau of Statistics of the Department of Agriculture shows average condition of Cotton on July 25 to have been 91.6 as compared with 88 on June 25, 1904, 71.7 on July 25, 1903, 81.9 on July 25, 1902, and a ten-year average of 82.7.

The following table shows the condition by States on July 25 in each of the last three years and that on June 25, 1904, with the ten-year average:

States—	July 25, 1904.	June 25, 1904.	July 25, 1903.	July 25, 10-yr. Av.
Texas	91	89	81	77
Georgia	91	85	77	83
Alabama	90	85	77	87
Mississippi	92	90	83	83
South Carolina	94	86	78	88
Arkansas	94	90	76	92
Louisiana	95	90	84	81
North Carolina	93	90	78	86
Tennessee	92	90	82	86
Indian Territory	91	87	75	85
Oklahoma	93	92	70	84
Florida	94	93	85	84
Virginia	93	87	79	91
Missouri	90	89	78	96
United States	91.6	88.0	77.2	81.9

THE WEATHER CONDITIONS.

Weather perhaps a little too cool for best and most rapid development of Corn.

Indications are for generally fair weather over the district with no important changes in temperature.

ITEMS OF GENERAL INTEREST.

The $10,000,000 4 per cent consolidated mortgage bonds of the New York and New England Railroad have been awarded at 106.777

A New York exporter in a message, Thursday, said: "Recent cables from the London house saying Russian crop prospects favorable."

The People's Gas Light and Coke Company, Chicago, has declared the regular quarterly dividend of 1½ per cent, payable on Aug. 25. Books close Aug 15 and reopen Aug 29

Hogs at Kansas City last month averaged 206 lbs. 206 lbs in June, 213 lbs a year ago, 204 two years ago and 187 the ten-year av. Receipts at Sioux City last month, 329 lbs, against 248 lbs a year ago.

It is semi-officially stated that the directors of the Northern Securities Company have altogether given up all plans for paying dividends, and have decided to let the matter work out to its end in the courts

Preliminary figures of the operations of the Chicago, Milwaukee and St. Paul Railroad for the year ended June 30 indicate net earning of $16,454,-0.0, an increase of $389,000 over the net for the preceding year.

The directors of the Erie Railroad Company, Wednesday, declared the regular semi-annual dividend of 2 per cent on the first preferred stock The dividend is payable Sept 1 Books close Aug. 17 and reopen Sept 8

It is officially announced that the Pennsylvania Road shareholders number 14,950, the highest figure ever reached by the company. The company in May, 1903, the number of shareholders was 28,375. In May, 1899, the number was 41,794.

Samples of new Texas Corn, large heavy ears, well matured and out of the danger of frost, were shown at Chicago Thursday It is claimed that the State will have 30,000,000 bu. The acreage is 5,000,000. A yield of 25 bu per acre, which is above the average, would give 125,000,000 bu.

The Central of Georgia Railroad Company has declared the full 5 per cent dividend for the year on the first preferred income bonds and a dividend of 2 per cent on the second preferred income bonds. This is the first dividend declared on the latter issue since the reorganization of the company. Both dividends are payable Oct 1.

It is reported that contracts for structure iron manufacturers have been up preliminary plans for the erection of a bridge across which will be located in Pennsylvania. The company will manufacture general steel work for bridges and other equipment. The capital stock of the company will be several million dollars.

The Cincinnati, New Orleans and Texas Pacific Railway Co. has declared the regular semi-annually dividend of 1½ per cent on its preferred stock and a dividend of 2 per cent on its common stock, payable out of the surplus net earnings which had accrued prior to June 30, 1904. The dividends are payable Sept 1. Books close Aug 20 and reopen Sept 8

Santa Fe officials have full reports of crop conditions in the territory tributary to their road, from which they conclude that there is no reason to change the estimate made some time ago of the Wheat yield of 60,000,000 bu. It is estimated in that state at 65,000,000 bu Nothing can now occur to lower this estimate since the Wheat is harvested, and the Santa Fe figures, if erring at all, do so on the side of conservatism The outlook for Corn is encouraging, indicating the best crop ever produced in Santa Fe territory

A Minneapolis dealer when asked for his opinion of the Wheat situation in the Northwest, said: "There are some sections where the yield is going to be tremendous, and there are others where it will be cut down considerably, but if the damage by rust is not too great, and the frost does not catch it, I believe we will have nearer 200,000,000 bu than 160,000,000 bu I mean that we will harvest more than we did last year, and I think about 160,000,000 bu will be what they figured on a year ago. Even with the rust they are having up to the present time I think we should get more than 175,000,000 bu, but this is purely guess work on my part. Our flour is being sold for movement now as fast as business will permit, and we are further than ever out of line for export."

An order was issued, Wednesday, by the Chicago and Northwestern Railroad for the use of every available car carrying Grain be allowed to leave the company's lines. The management has been concentrating its cars in the Northwest for some time in anticipation of the movement. Reports of the latest reports show will be so heavy as to tax the system's transportation facilities to the utmost. "We believe that the crops along our lines will be equal to those of any year, if not larger than ever before," said a traffic official of the road. "Our equipment is increased this year by 1,000 box cars of 80,000 lbs capacity each, and even with this addition we cannot afford to let any of our Grain carrying cars go to other roads until after we have cared for the crops in the Northwest."

An official of the National Biscuit Company is quoted as saying that the new \$2,000,000 cracker plant capacity has been completed. None of the bakeries have been dismantled, nor is it intended that they shall be. The policy is to supply the trade of greatest consumption from the large distributing centers during the dull season, and when winter trade begins, if it is found necessary, the bakeries will have to be used to meet the demand of some special brand. The company's secret of success in turning out meritorous goods lies in great facilities which enable the baking of large quantities of the many packages of crackers and sweets. It is figured that the smaller plants cannot turn out goods of equal merit nor so cheaply as the larger plants, hence the chance. It is expected that the plan will effect a saving of many thousands of dollars yearly.

One of the largest contracts for pig Iron and Steel awarded for many months has just been closed between the Pittsburg Steel Company and the Republic Iron and Steel Company. It involves the delivery of 110,000 tons of billets to the Pittsburg company at the latter's works at Monessen during the next 10 months. The contract involves about $2,000,000. The particular matter of interest in the contract is the price at which the deal is said to have been made. The Pittsburg Steel Company obtained 80,000 tons of the pig Iron from the Bessemer Association. The price paid was $12.00. From the Republic's own furnaces 30,000 more of the pig Iron will be made and 35,000 tons are to be taken from various outside interests. The Republic will convert all the Iron. The price at which the conversion was figured, f. o. b. Youngstown, Ohio, was $8.00. It is said decided cut below the usual charge for conversion. Computed on the $5.00 conversion base, the price of the billets to the Pittsburg Steel Company at Monessen will be practically $13 25. The conversion price fixed a few weeks ago is $13.00 per ton, Pittsburg

Since the American Locomotive Company purchased the Locomotive and Machine Company plant at Longue Point last spring, $300,000 has been expended in enlarging the shops, the purchase of new tools and equipment, etc. The directors have now authorized the expenditure of $100,000 to erect a hotel and dwelling houses on the property that the handicap of being unable to provide proper accommodations for guests visiting on the ground may be removed. It is estimated that the total current orders for locomotives are at the rate of less than 1,500 machines per annum. This is obviously very much below the capacity of the manufacturing capacity of the various companies is more than 4,500 locomotives per annum. Current business, therefore, is about one-third of what it was several months ago. While new orders are scarce, the locomotive builders are turning their attention to the large number of repair orders now coming in. The American Locomotive Company by the Erie being the largest order of this kind so far announced. It is understood that the American Company has received other important contracts which will help to keep plants in operation during the dull period.

The picking-house strikes has seriously affected the Cotton goods market, as the mills refuse to break rates below the present minimum of 4 per cent. Owing to the small amount of business being carried on by the packers at present, they are accumulating large quantities of Cotton which they have no immediate use in their business, and in consequence are paying off their obligations at the banks in Chicago. The cash thus turned into the banks is at present causing the local institutions the money market is now easier than it has been in Chicago for a long time It is stated that the banks have large supplies of money on hand, borrowers to the extent of perhaps $100,000,0.0. Of this amount about $10,000,000 is ordinarily carried by the Chicago banks. Since the beginning of the year the banks have paid out about $10,000,000 of their local loans and notes, and are now retiring their obligations at the rate of perhaps $3,000,000 a week. If the strike continues much longer there will be a large amount of loanable funds idle in Chicago, which can scarcely fail to have the effect in further reducing interest rates The continued ease in New York money in change is believed to be largely due to the efforts of Chicago bankers to put part of this money at work in New York.

DAILY MOVEMENT OF GRAIN AND PRODUCE

The receipts and shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year:

The fact that the Tennessee Copper Company has thus far failed to declare its semi-annual dividend, when last year it declared it in July, has caused a report of a deadlock in the board of directors. An official of the company denies the rumor, and states that a meeting of the directors will probably be held the latter part of this month or early in September, when the dividend question will be decided.

DAILY MOVEMENT OF CORN

The receipts and shipments of Corn at the points given were as follows on the dates named:

NEW FLAX SEED

Several cars of new Flax were reported in to-day. They were from Kansas, of good quality, and graded No. 1. The Seed did not appear on sale. Last year the first new Flax came in on Aug. 4, was also from Kansas, and graded No 1.

ITEMS OF GENERAL INTEREST.

New York Exchange 2c premium.

Documentary Sterling steady at 484½.

No export sales at the seaboard to-day.

Chicago Bank Clearings to-day, $24,871,303.

There appears to be no doubt of the good quality of the oats crop.

About 185,000 pcs of Sides were shipped South during the past week.

The packing of Chicago since March 1 shows a decrease of 480,000 Hogs.

Shippers purchased about 17 per cent of the Hogs received the past week

The shipments of Hams from Chicago for the past week were equal to 11,000 tcs

Cotton in New York closed 10 points lower, except on August, which was steady

About equal to 6,900 tcs of Lard were shipped from Chicago during the past week

Aggregate receipts of Live Stock at Chicago for the past week were about 241,000 head.

Australian Wheat shipments for the week 696,000 bu, compared with 296,000 bu last week

About 510 car loads of Hog Products were forwarded from Chicago during the past week.

Nine packers purchased 10,100 Hogs to-day; shippers, 4,000 left over, 2,000 Market closed steady

A commercial paper in the Northwest has an interesting article on "The Healthfulness of 'shake outs'"

Chicago Bank Clearings for the week were $161,285,309, against $155,2.6,330 for the corresponding week in 1903.

Estimated receipts of Hogs at Chicago for next week 140,000 Receipts for the corresponding week last year were 153,939

The Kansas City *Star* makes the Wheat crop of Kansas 58,000,000 bu; Oklahoma 15,000,000 bu. and Nebraska, 32,000,000 bu.

Estimated receipts for Monday: Wheat, 163 cars; Corn, 300 cars; Oats, 414 cars; Rye, 7 cars; Barley, 5 cars; Hogs, 31,000

Stock of Wheat at San Francisco Call Board ports on Aug. 1 was 785,890 bu, compared with 851,000 bu on July 1, and 549,000 bu on Aug. 1, 1903.

The receipts of Wheat at Minneapolis and Duluth for the past week were 911 cars, compared with 1,133 cars one week ago, and 821 cars one year ago.

Local Securities were slow, with slight changes for all Industrials except Diamond Match, which gained ½, and Northwestern Elevated with an advance of ⅞.

Broomhall estimates the world's shipments of Breadstuffs this week at 8,000,000 bu, and predicts there will be considerable change in the quantity on ocean passage.

The receipts of Hogs at the leading Western markets during the past week were about 281,000, against 193,000 the previous week, and 327,000 for the corresponding time in 1903

Arrivals of Breadstuffs in the United Kingdom for the week were about 4,000,000 bu, compared with 4,100,000 bu last week, and 4,830,000 bu for the corresponding week in 1903.

English visible supply of Wheat decreased 615,000 bu, compared with a decrease of 1,718,000 bu last week, and an increase of 270,000 bu the corresponding week last year.

Secretary Neill, of the Millers' Association of South Dakota, says: "After personal investigation, estimate that rust damage in South Dakota will not exceed 6 per cent."

A press dispatch from San Francisco estimates the Wheat crop not to exceed 18,500,000 bu, which is about 3,000,000 bu less than estimated on July 1, and about 2,000,000 bu less than last year.

Included in the shipments of Meats from Chicago for the past week were about 211,000 pcs of Hams, 50,000 pcs of Shoulders and 215,000 pcs of Sides. For the corresponding time last year the shipments were about 187,000 pcs of Hams, 33,000 pcs of Shoulders and 227,000 pcs of Sides.

Stocks in New York, although sparingly traded in, 130,400 shares selling, were firm and closed higher. The "bears" were more cautious Cotton Oil common advanced 2½, due to the large Cotton crop suggesting a better business. The bank statement was good and induced covering.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years:

1904	2,200,000	1901	2,835,000
1903	2,686,000	1900	2,793,000
1902	2,763,000	1899	2,940,000

The receipts of Flour and Grain at Chicago for the past week were equal to 4,710,000 bu and the shipments were equal to 3,153,000 bu. For the corresponding week in 1903 the receipts were equal to 4,156,000 bu, and the shipments to 2,674,000 bu. These figures are supposed to include the through shipments of Flour

Broomhall cables: "Germany—Some rains have fallen, but proved insufficient to relieve drouth, and complaints are serious regarding Oats, fodder and Potato crops. Hungary—Wheat crop has been raised 3,200,000 bu owing to the heavy quality of Grain Sweden—Crop prospects have been lowered by the drouth."

The weekly statement of the New York banks shows the following changes: Increases—Reserves on all deposits, $310,250; Reserves, less United States deposits, $323,350; Specie, $1,085,300. Decreases—Loans, $1,861,200; Legal Tenders, $1,854,100; Deposits, $732,200; Circulation, $321,400. Banks hold $56,307,850 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 56,000 brls of Flour and 135,000 bu Wheat, against 96,000 brls of Flour and 278,000 bu of Wheat the preceding week, a decrease of 40,000 brls of Flour and a decrease of 143,000 bu of Wheat. For the corresponding week last year the exports were 225,000 brls of Flour and 882,000 bu of Wheat

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Millers continue "bullish" in their views, and buyers are slow to pay the prices ruling.

WINTER WHEAT—Was in good demand again by the usual buyers and market steady Trading confined to car lots of fresh arrivals. Millers bought freely. No 2 Red fresh arrivals sold to go to store at 99c, and free on board at 98½@99½c. No. 3 Red fresh arrivals free on board sold at 95@98½c, and very choice to go to store at 99c and billed through at 97c No. 4 Red sold free on board at 94@97c and billed through at 92½c No. 2 Hard c. i. f. Buffalo sold to the extent of 25,000 bu at new September price, and fresh receipts sold free on board at 95½@98c and billed through at 96@98c. No 3 Hard fresh receipts sold at 96@98¾c outside very choice.

SPRING WHEAT Was quiet and easy. However, so little coming that prices were entirely nominal. No. 1 Northern fresh arrivals nominally about $1 08 and No. 2 Northern about $1 04@1 06. No. 3 Spring quotably 95c@$1 02 and No 4 Spring at 7..@95c.

REGULAR WHEAT—A large trade, not as heavy as yesterday, but market was nervous and sensative. Closing prices showed declines of ⅜c for September, while December lost ⅜c and the May ⅝c Fine weather in the Northwest, easier cables, and liberal receipts, started a rush of selling at the start and market was weak. New York reported foreigners sellers of December and May in that market and there was general liquidation here Manitoba crop advices were "bearish," the map clear in the Northwest, and fair weather predicted. Australia shipments were larger at 696,000 bu, and *Broomhall* estimated the world's shipments at 8,000,000 bu, and predicted considerable change on ocean passage Imports into the United Kingdom were 1,000,000 bu, against 4,100,000 bu last week and 4,800,000 bu one year ago At the decline, market found resting orders and "shorts" covered freely, causing a steadier tone, the strength at Minneapolis being a factor. *Broomhall* cabled rain had fallen in Germany, but proved insufficient to relieve the drouth and complaints serious regarding the Oats, fodder, and Potato crops Hungarian crop raised 3,200,000 bu, owing to heavy quality of the Grain Crop prospects in Sweden lowered by drouth Liverpool quoted spot steady to ⅛d lower, and futures ⅛@¼d lower English country markets were firm and 3@6d higher London came unchanged to ¼d lower Paris and Antwerp unchanged. Buda Pesth closed ⅛c lower, and Berlin quoted 1¼c lower. Local weekly receipts were 98,400 bu and shipments 41,100 bu. Primary receipts this week were large at 5,270,000 bu against 4,516,000 bu last week and 3,952,000 bu one year ago English farmers' deliveries were 176,000 bu at 95½c, against 176,000 bu last week at 84⅝c, and 144,000 bu one year ago at 88½c A message from Red River Valley read: "Wheat looking well; some red rust showing on late and may do some damage later—no black rust and no serious damage yet. Earliest Grain tilting well; weather perfect; still think crop here 15 bu average" Kansas City and St. Louis received 415,000 bu, against 113,000 bu last year. Receipts in the Northwest this week were 911 cars, against 1,133 cars last week and 821 cars one year ago. Exports were again small and no boat loads accepted at the seaboard. Press reports from the Northwest as to the extent of rust damage were decidedly 'bullish" A fair sized increase in the visible is looked for on Monday Last year decreased 315,000 bu The English visible supply decreased 615,000 bu, against 1,718,000 bu increase for the same week in 1903 Cash sales were 25,000. Receipts at Duluth 41 cars and at Minneapolis 131 cars, a total of 172 cars, against 129 cars yesterday, 168 cars a week ago, and 101 cars last year Local receipts included 117 cars Winter, 1 car Spring and no mixed, a total of 118 cars, against 141 cars last year. Included in the above were 9 cars contract grade There were 14 cars and no bu taken from unlicensed elevators The estimated receipts for Monday are 162 cars. Withdrawals to-day were 140,278 bu. Receipts at Western points were 803,225 bu, against 518,935 last year. At Eastern points 105,168 bu, against 181,550 bu last year Shipments from Western points were 507,250 bu, against 263,590 last year, and from Eastern points 31,077 bu, against 118,345 last year. Shipments of Flour were 6,881 brls. Exports of Wheat in Flour were equal to 65,851 bu

Future Deliveries of Regular Wheat—Active and irregular

SEPTEMBER Old Style—Sold at 97½@99c Opened with sales at 97¾c to 97½c; sold to 98¼c, to 97¾c, to 99c to 98⅜c, to 98½c, and closed at 98½c bid

SEPTEMBER—New Style Sold at 96¼@97¾c. Opened with sales at 97c to 96½c; sold to 96⅜c, to 96¼c to 97⅛@97¼c, to 96¾c, to 97c, to 96⅜@96½c, to 97½c, to 97¼c, to 97¾c, to 97¼c, to 97¼c, to 97⅜c, to 97⅛c, to 97½c, to 97¼@97⅜c and closed at 97¼@97⅜c

DECEMBER—Sold at 95@96¾c. Opened with sales at 96c, to 95¼c; sold to 95½c, to 95c, to 95¾c, to 95½c, to 96c, to 95¾c, to 96c, to 95½c, to 96¾c, to 96¼c, to 96⅝c, to 96c, to 96½c, to 96¼c, and closed at 96¼c bid

MAY—Sold at 96¾c and at 98¼@98⅜c. Opened with sales at 97¾c to 96¾c; sold to 97¼c, to 97⅞c, to 97½c, to 98c, to 97¼c, to 98¼@98⅜c, to 97⅝c. to 97¾c, to 97⅝c, and closed at 97¾c

CORN—Was easier with a fair general trade, the close showing declines of ⅛c and ⅛@¼c. The mood and influenced chiefly by the weather, cables and action of Wheat Commission houses and floor traders sold, while the demand was only moderate. Professionals bought May, and the "long" interest gave September some support. Fine rains were reported in Western Kansas where most needed, and showers are probable in that State, but generally fair weather elsewhere Liverpool quoted spot steady and futures ⅛d lower Serious complaints were received regarding the fodder crops in Germany, owing to drouth. Receipts were 212 cars, against 119 cars last year and 300 cars estimated for Monday Local weekly receipts were 1,555,000 bu and shipments 1,661,000 bu Primary receipts this week were 2,452,000 bu, against 2,711,000 bu last week and 1,910,000 bu in 1903. New York wired that Hungary was likely to remove the duty on Corn. Southwestern markets were weaker Shipping demand was reported as quiet, but sales are probably larger than appear on the surface Exports were 94,000 bu, and no boat loads accepted at the seaboard. Local arrivals 278,000 bu and shipments 335,000 bu. There was 209,400 bu contract withdrawn from store yesterday Car lots were in fair demand and offerings moderate. Prices slightly lower. No. 2 closed about 52¼c No. 2 Yellow sold at 53½@53¾c, and closed at 53¾c. No. 3 closed at 52c. No. 3 Yellow sold at 53½c. and closed at 53½c. No. 4 sold at 51½@53½c, outside for yellow.

Corn by sample—Offerings moderate and demand rather good. Feeling easy. with prices steady to ¼c lower. Sales on track and free on board: No Grade sold at 47c. No 4 at 50½@53¾c. No. 3 at 52¾c. No 3 Yellow at 53½@54c. No. 2 Yellow at 53¾c. No. 3 White at 52¾c No. 2 White at 52½c. Billed through: No Grade at 48½@50c. No. 4 at 50½@52½c. No. 3 at 51½@52½c. No 3 Yellow at 52¼@52¾c. No. 2 Yellow at 52¾c. No. 3 White at 51½c. No. 2 White at 51¾c.

Future Deliveries of No. 2 Corn—Fairly active and weak early, but later on rallied, but closed fractionally lower.

AUGUST Inactive; closed nominally 51⅝c

SEPTEMBER—Sold at 51½c and at 52⅜@52½c. Opened at 51⅞c to 51½c, and sold at 51⅝c to 51⅞c, to 52@52⅛c, to 51⅞c, to 52c, to 51⅞c, to 52⅛@52½c, to 52c to 52⅛c, and closed at 52⅛c

DECEMBER—Sold at 48⅛@48⅝c. Opened at 48½c to 48⅛c, and sold at 48¼@48⅜c, to 48⅛c, to 48½c, to 48⅛c, to 48½c, to 48⅜@48⅝c, to 48⅜c to 48½c to 48⅜@48⅝c, and closed at 48½@48⅝c

MAY—Sold at 47⅜c and 48⅛@48⅝c. Opened at 47⅞c to 47¾c, and sold at 47⅝c, to 47⅞@48c, to 47¾c to 48⅛@48¼c. to 47⅞c, to 48c, to 47⅞@48c, and closed at 47⅞@48c.

OATS—Were weak on liberal selling by cash interests, and closed ½@¾c lower Buying was scattered and mainly by commission houses. There were no new developments in the weather or crop conditions Arrivals were large, 351 cars, with 414 cars expected for Monday. Withdrawals were small, and seaboard clearances 20,678 bu. Cash sales were 10,000 bu Car lots to go to store steady to ¼c lower. No Grade new sold at 3[illegible]c. No. 4 White new at 32½@33c. No 3 White new at 33½@34c Standard new at 33½c. No. 2 White new at 34c

Oats by sample were in good demand and supply large, but they cleaned up well Prices were steady to ½c lower. Sales on track and free on board: No Grade new at 31@32c. No 4 old at 32½c No. 4 White new at 33@34c old at 37c. No 3 new at 32@32½c; old at 33@35c No. 3 White new at 3.@34½c, old at 33½@3.c. Standard new at 33@34½c No. 2 new at 32@31½c No. 2 White new at 3..@..c Billed through No Grade new at 31½@3.c No 4 new at 32c No 4 White new at 32½@33c; old at 37½c. No. 3 new at 31½@32½c No 3 White new at 3.@31c; old at 35½@36c Standard new at 3..@34½c No 2 new at 31¾@33c No. 2 White new at 33½@31¼c No. 1 White at 34½c At the river No. 4 White new at 31@32¼c, old at 37.. 5½c No. 3 White new at 32½c. Standard new at 3.c

Future Deliveries of Contract Oats - Were weak and lower.

AUGUST—Quiet Closed at 32⅞c

SEPTEMBER—Active Sold at 3..@3..c Opened at 33c to 33¼c, sold to 33⅜c, to 32⅝c at close.

DECEMBER Active Sold at 33⅝c and at 34@34⅛c. Opened at 3..c to 31c; sold at 34@34⅛c, to 33⅝c at close.

MAY Sold at 35¼@35¾c Opened at 35¼c to 35½c; sold to 35⅜c, to 35¼c, to 35⅜c at close

RYE—Market was firmer for cash and about 1c higher, under light receipts and a fair demand on milling and on speculative account, while September delivery was weaker and fully 1c lower under lack of demand and fair offerings There were six cars received. No withdrawals reported from store and no export clearances from New York. No. 2 fresh receipts free on board sold at 68@70c and No. 1 sold at 69c No. 3 sold at 66c and a small bag lot, not graded, sold at 63c.

Future Deliveries of No. 2 Rye Quiet. September offered at 67c and at 66c bid—no trading.

BARLEY There was a small business, about as much as has been done lately. Not much interest shown as yet The few cars coming on sale, old and new, are taken. The market as yet favors buyers, for there are few who care to purchase Nothing new in way of prices to note A little new sold at 47c, good quality, local, and some at 40@45c river billed. A few cars of heating, old Barley, sold at 38@39c Posted receipts were 6 cars. Old Barley prices quotable over a range as below. Screenings quotable over a range of 28@37c for poor to choice old; a sale made at 30c Feed Barley, common to good 29@37c. Malting, low grade, was quotable 3.@40.; fair to good, 42@45c, and choice new 47c, possibly up to 5.c.

SEEDS—The session passed without transactions No cash Seed of any kind on sale, and in the case of futures the orders were few and limits of buyers and sellers were apart.

Timothy—There was no trading From the little developed rather an easy feeling seemed to prevail. There were reported some offerings to arrive of both old and new Seed In the case of September delivery buyers and sellers were 5c apart; their views were not materially changed from yesterday. September delivery was $3 20 asked and $3 16 bid. Old contract spot or August delivery $3 05 sellers. Country lots quotable at $2.0@3 00 for low grade to fancy; choice about $2 8.@2 90, fair to good Seed $2 65@2 75 and rough at $..@2 55.

Flax—No business was done. Last quoted prices could be obtained for cash and future delivery. The market was entirely devoid of offerings hence no trading. Locally only 1 car or 900 bu received; none taken out Minneapolis got 2 cars and Duluth 16 cars. No important news from the Northwest. Some new Flax was received from Kansas, but it did not come on sale No 1 Northwestern or No. 1 from the Northwest remained at $1 21½ bid. No. 1 salable at $1 17. Rejected nominal at $1 13@1 16, depending on quality. September $1 17 bid and $1 18 asked.

Clover—Was quoted a shade easier outside, but no change noted here. No Clover offered and no trading. New crop, October delivery, contract grade, nominal at $12 00. Contract spot Seed was quoted at $11 50. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@11 00.

Other Seeds—Occasionally some Mustard comes in, but nothing else at present. This nominal at 75c@$1 10 for common to choice. No quotations for other lines.

HOG PRODUCTS—Trade in Hog Products was more active than for some time past, and the market was unsettled and weak during the greater portion of the session "Longs" were rather anxious to realize, and packers were credited with selling fair quantities. Market had little support during the early part of the session, and prices declined materially on all the leading articles Toward the close, a little more steadiness prevailed, but the rally in prices was moderate. Liquidation mainly in September contracts Hogs were in rather good supply and prices higher Fair supply expected during the coming week. Receipts at the leading Western packing points were estimated at 37,200, compared with 29,300 one year ago. Foreign markets were firm, and Hams quoted 6d higher. Domestic markets steady Receipts were fair—of Lard and Meats about 10 cars Shipments were moderate—of Lard and Meats about 93 cars. Shipping demand was moderate and offerings were fair. Sales not very large, and prices were unchanged.

Mess Pork—An active business was transacted in Mess Pork, and the market was unsettled Offerings were liberal, and the demand was only fair. Considerable liquidation in near deliveries Market opened weak and prices about 5c lower. With considerable pressure to sell, and no particular support to the market, prices irregularly declined 40@42½c. Toward the close a little more steadiness was manifested, and prices rallied 12½@15c, and the market closed steady. Shipping demand was light, and offerings were small. Cash lots quotable at $12 37½@12 50.

SEPTEMBER—Offerings were free and the demand was only fair. Sales were made at $12 30@12 72½. Opened at $12 72½, sold to $12 67½ to $12 70, to $12 57½, to $12 60, to $12 45, to $12 50, to $12 40, to $12 45, to $12 30, to $12 42½, to $12 40, to $12 47½, to $12 35@12 37½, to $12 37½, to $12 35, to $12 42½, and closed steady.

OCTOBER In fair request and offerings were moderately free. Sales were made at $12 35@12 70. Opened at $12 70, sold to $12 50, to $12 52½, to $12 40, to $12 42½, to $12 35, to $12 47½, to $12 37½, to $12 45, and closed steady.

JANUARY—Quiet and steady, with small sales at $12 65.

Lard—A fair business was reported in the Lard market, and the feeling was easier Offerings were rather free, especially for September, and the demand was moderate. Opening trades were made at 2½c decline, and a further reduction of 10@12½c was submitted to, with rather liberal trading at the receding scale. Toward the close, there was a little more steadiness manifested and prices rallied about 2½c, and the market closed quiet. Foreign advices were unchanged Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 67½@6 70 Loose lots in small request with limited offerings. Prices steady at about 50c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at $6 25 Neutral in only limited demand, with fair offerings Prices quotably steady at $7 25@7 37½ for No 1, and $6 87½@7 00 for No. 2

SEPTEMBER—Offerings were rather free, and the demand was only fair. Sales were made at $6 75@6 87½ Opened at $6 87½, sold to $6 75, to $6 77½, to $6 75, to $6 77½ to $6 75, to $6 77½, to $6 75, to $6 77½, and closed steady

OCTOBER In moderate request and offerings were fair Sales were made at $6 82½@6 92½. Opened at $6 92½ sold to $6 82½ to $6 85, to $6 82½, and closed steady.

JANUARY Quiet and steady with small sales at $6 .5

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides, and the feeling was easier Offerings were rather free, and the demand was only fair Market opened with a little pressure to sell, and prices declined 10@12½c on the whole range. Later, a little more steadiness was manifested, and prices rallied .½@5c and the market closed steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $7 50@7 60 according to weight

SEPTEMBER—Offerings were rather liberal, and the demand was fair Sales were made at $7 52½@7 62½ Opened at $7 62½, sold to $7 52½, to $7 55, to $7 52½, to $7 57½@7 57½, to $7 52½, to $7 57½@7 60, and closed steady

OCTOBER In fair request and offerings were rather good. Sales were made at $7 50@7 60 Opened at $7 57½ to $7 60, sold to $7 50@7 52½, to $7 52½, to $7 50, to $7 55, and closed steady

JANUARY Quiet, with small sales at $6 65

Other Meats—Trade was only fair, and mainly on domestic account Exporters buying only sparingly Offerings fair, and the inquiry moderate Green Meats in limited supply with a light inquiry and prices steady Pickled Meats in good request, with only moderate offerings, and prices well maintained. Dry Salted Meats were in fair demand with moderate offerings, and prices were easy. Smoked Meats called for moderately and prices were steady Closing prices ranged as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, August 5, 1904.

The money market is moving in the same channel as the previous week. There is a fair demand for accommodations and rates are mainly 4½ per cent on call, although special borrowers occasionally get 4 per cent. Time money was 4½ to 5 per cent. The movement of currency to the country is slow in starting this year and some of the banks have shipped very little. In a few of the agricultural districts country banks are paying off their loans and increasing their balances. In others they are drawing them down. Chicago bankers and those throughout the West are well stocked with currency and are prepared to furnish more money to move the Grain crops than in previous years. From present indications there will be a largely increased amount of money required owing to the high prices prevailing above last year's. In New York rates on the Stock Exchange were ¾ to 1¼. Time money was slow at 2½ to 4 per cent depending upon the length of the loan and the character of the security.

New York exchange was firm at 20 to 30c premium, and closed at 2[illegible]c.

Foreign exchange was unsettled, and the supply of documentary sterling bills on London was small, as shipments although increasing of late are still below last year's. The range was 184¼ to 184½.

Local Securities were weaker most of the past week, with small trading. There were no new developments in the industrial shares and fluctuations were confined to narrow limits. Biscuit common and Corn preferred were the most extensively handled. Box Board shares made small gains. South Side Elevated was weak on decreased traffic reports. The statement of the Union Traction Company for the year was unfavorable showing an increase of $767,030 in operating expenses, the latter being 71 per cent of the gross earnings. The bond market was active and steady.

Stocks in New York were liberally traded in and fluctuated sharply. The depressing news during part of the time was the unfavorable crop reports from the Northwest regarding the Spring Wheat crop and selling by Western interests. Prices were forced lower and then a sharp rally came. The volume of business was not as heavy as of late and most of the largest operators are out of Wall Street for the present, some being in Europe and others summering at the various resorts. There were enough left, however, to stir the market up after the break and force "shorts" to cover and in so doing bid prices up. The change at the last was on more favorable crop news and from reports from the Iron and Steel interests of increased buying of pig Iron and of finished materials. A feature of the week was the declaring of the 2 per cent in the Erie dividend on the first preferred. It is semi-annual and was due in July, but in view of the decreased earnings the directors postponed action and only recently decided that the situation warranted the payment of the dividend. It helped the market moderately. Foreign markets were mostly higher, and there was good buying from that quarter even when the selling was the heaviest. This helped to absorb the offerings. Money remained easy with rates at ¾ to 1 per cent. Trade conditions throughout the country are more favorable, and this helped to make a more cheerful feeling. At the close prices were slightly higher than the previous week. Business in bonds was good and prices relatively better. Total sales on the New York Stock Exchange for the week were 1,447,000 shares, against 2,619,000 shares the previous week and 3,631,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Am. Sug. Ref. Co.	33,800	Missouri Pacific..	28,700

Business with the mercantile houses made a slight gain. Weather conditions were more favorable and the distribution of goods in the interior is about as liberal as can be expected at this season. Shipments of dry goods and collateral lines are increasing on sales made previously. The new buying is of moderate volume and is expected to increase from now on. Uncertainty over the Spring Wheat crop prospects in the Northwest is causing uneasiness among those who have a large trade there, but conditions at present are too uncertain to make any definite calculations as to the volume of goods they will buy. Pig Iron has a better tone, sellers are less numerous as there is no money for the majority of furnace men in selling at current prices and they show greater indifference about shading values than in months. There have been good sales made the past two weeks and evidence of an increased consumption and decreased production. Finished products are moving moderately. Some of the big Steel mills are shutting down for want of orders but the rail mills are busy. Jobbers report increased orders for light and heavy hardware, their business last month exceeding expectations. Anthracite Coal advanced 10c August 1. The distribution is increasing, as many Western consumers are without supplies, whereas a year ago they were heavily stocked. Bituminous Coals are moving in better volume and there is a steadiness in prices. Sales of Lumber are increasing. All grades were taken. Linseed Oils are heavily held in sympathy with the advance in Flax Seed. Collections are fair.

Cotton in New York was active and the movement of prices erratic. There was aggressive buying on the part of the leading "bull" interests and heavy selling by the "bears." The latter were especially active on the theory that the Government crop report would be favorable and were backed in their opinion by the report which came out Wednesday. It gave the condition as 91.6, compared with 88 in July and 79.7 last year. These figures suggest a crop of 12,000,000 bales. Consumption has been decreased by the closing of the mills, but the excessive "short" selling made the market easily controlled by the "bull" interests. Closing prices were at losses of 11@26 points for the week.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was much improved the past week. All the cereal markets were active, with the trade broad. Outside interest was more in evidence with orders for larger quantities, while there was a marked improvement in the trading for local account. The shortage in the European crops, coupled with the less favorable advices in this country, no doubt interested parties with capital to invest in the leading cereals and purchases for foreign account were reported larger. The increased activity due to the upward trend of values also induced the smaller operator in the interior to come into the various markets. Receiving interests were favored with larger receipts owing to the new crops moving, and business in this branch of the trade enlarged considerably. Conditions at the Stock Yards are gradually improving and with the labor troubles adjusted business in packing circles should materially enlarge. All things considered, the outlook continues bright for a continuance of the present activity in all the leading commodities. A freight bureau was authorized by the Chicago Board of Trade Directors, Tuesday. The Directors ordered the appointment of a committee of three, who are to secure a man thoroughly posted in freight rates. He is to keep a record of the freight rates on products dealt in on the Board, and is to use his influence in preventing all rate discriminations, and to work for the benefit of members of the Board.

Foreign crop news the past week was not of the best; in fact reports from the Continent noted considerable uneasiness on the part of growers. The Corn and fodder crops in the Danubian districts were reported a partial failure, and rumors were in circulation that exports were likely to be prohibited in the near future. Reports from Russia were variable. There is little doubt, however, but what the crops have deteriorated in important growing districts. Harvesting returns from France indicated that the yield of Wheat was below general expectations, while reports from Germany referred to damage owing to dry weather. The Corn as well as other cereal crops in Italy were reported short. The Wheat area in Argentine this season is reported 10 per cent larger than last year and the new crop doing nicely. The Flax crop is also reported as starting well.

Weather conditions the past week in the United States and Canada were on the whole fairly seasonable and favorable for field work and the growing crops. Corn undoubtedly experienced a favorable week and made good growth and progress and in most sections is said to be in promising condition. Rains were beneficial in sections of the Southwest. The Oats harvest is largely finished in the Central and Southern districts and the quality is very satisfactory, though in some of the Northern districts rust was reported. Threshing Winter Wheat progressed favorably, though the rains in the Middle Atlantic States interrupted this work to some extent. In the Southwest the quality is said to be affected owing to the excessive moisture during harvest. Reports from the Northwest were less assuring, complaints of injury being more pronounced as well as more general, rust being more or less prevalent. In portions of Minnesota and North Dakota, however, a good crop is promised. Harvesting is in progress in Iowa, Nebraska and South Dakota, and will begin this week in Minnesota. Harvest is also in progress in Oregon, with better yields than were expected.

The movement of Grain from the farms and interior elevators was enlarged considerably the past week. In the Northwest the Wheat movement was moderate, but slightly in excess of that of one year ago. Stocks of Wheat in interior elevators of the Northwest were reported at 366,000 bu on Aug 1, compared with 1,268,000 bu one month ago, 315,000 bu one year ago, and 292,000 bu two years ago. Through the West and Central West coarse Grains were marketed with greater freedom, the Oats movement being noticeably improved. Large quantities were purchased in the interior to arrive ten to fifteen days shipment. Wheat, too, was marketed freely in the Southwest, the recent premiums ruling no doubt proving attractive to growers and holders at the smaller interior elevators. Arrivals in the South and Southeast were fair. On the Pacific Coast receipts were moderate. The movement of Grain Eastward via the great lakes was larger, as also arrivals at seaboard points. Exports of Flour and Wheat continue rather meager. Corn clearances were moderate, but a better business was booked with the other side this week and indications are for a still larger business owing to the shortage on the continent. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Wheat, Corn, Rye and Barley and a decrease in Oats. *Bradstreet's* reported a moderate reduction in the Wheat, about one-fifth the decrease of one year ago. A slight reduction was likewise reported in Corn and a fair decrease in Oats.

An active week was witnessed in the speculative markets on 'Change the past week. Price changes were sudden and frequent, with the undertone quite firm. Sentiment was "bullish" and still higher prices were established the opening days. Wheat was influenced chiefly by the adverse crop advices from the Northwest and upward tendency abroad, where the yields were reported disappointing. "Shorts" covered freely on the advance and realizing and profit taking was much in evidence, but the offerings were well taken and market well supported, the close being firm. Corn was stronger on reports that exports from Roumania were to be prohibited. The shortage of the fodder crops in Eastern Europe, due to drouth, was also a factor and the export demand was more general. Oats sympathized with the other cereals, notwithstanding the liberal selling by "bear" interests and decline in cash values. Rye was firm and Barley quiet and steady. Seeds were steady to firm, with trading limited. Hog Products were more active and the feeling rather easier. Conditions at the packing houses are gradually improving. Local trading moderate and outside orders generally for small amounts. Rather more selling by packers. Foreign markets were firm. Hogs were in larger supply and prices were easier. Packing of the West for the week 75,000 Hogs short of last year; season, 8,765,000, against 8,870,000 in 1903. The total amount of Products on hand is about 195,575,000 lbs. against 201,010,000 lbs one month ago, and 160,383,000 lbs one year ago. Compared with one year ago the present supply of "contract" Mess Pork is 21,386 brls more—equal to 4,063,310 lbs—and of Lard 62,306 tcs more, and of Meats 4,115,328 lbs more.

A good business was transacted in cash Grain this week, receivers being favored with larger receipts. Wheat was in good demand, with freer offerings, and prices were higher. More competition for the receipts by the various buyers, with elevator interests taking the bulk of the receipts. Corn was in good request, with offerings moderate. Prices higher and more doing in cargoes for shipment East. New Oats in larger supply and demand quite active. Quality good. Prices were lower. Rye was quiet and firm. New Barley has commenced to move and values rather irregular. Demand moderate. Seeds were quiet, but Flax rather firm. Hay was in good demand and the offerings moderate. Choice grades were firm. Hog Products were in moderate request and the offerings fair. Prices steady, with fair sales. Hogs were lower and Cattle and Sheep prices favored buyers.

FREIGHTS—The traffic East and West is fair. There are lower rates on Grain and Flour from Northwest to New England than from Chicago. An effort is being made to have them taken out. The tariff is as follows:

	From Chicago.		From Miss. River.	
To—	Domestic.	Export.	Domestic.	Export.
Boston............	19½	13½	24½	16
New York........	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News...	14½	11	18½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are to be advanced ½c Aug. 15 and ½c Sept. 1. Present rates are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are steady and engagements light. Rates on Grain are ¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.65c per bu and Corn 6.65c. Flour 19c per 100 lbs and Provisions 35½c per 100 lbs.

Lake rates are firmer, with a better demand for boats, at 1¼c on Wheat and 1⅛c on Corn to Buffalo.

FLOUR—This market was a little more animated this week, that is to say there was more inquiry from miscellaneous sources. The steady advance in Wheat values due to the adverse crop conditions in the Northwest was mainly responsible for the change in the situation. Certain interests bought more freely as stocks had become depleted, while others are still inclined to hold off expecting a reaction in values. Millers in many instances marked up prices 25@30c this week, and there was no particular pressure to sell. The foreign inquiry was perhaps more general, but bids still below the views of millers. The markets abroad displayed an advancing tendency and stocks are gradually decreasing. Liverpool reported 74,000 brls on hand August 1, against 87,000 brls July 1, and 48,000 brls August 1, 1903. Offerings of new Flour to arrive from the Southwest were moderate, and consignments are small. Local stocks are now down to 40,750 brls, as compared with 39,500 brls July 1, and 50,000 brls on August 1, 1903. City mills are turning out only fair quantities and running on part time. The output in the Northwest the past week was 359,000 brls, compared with 415,000 brls for the same week in 1903. The large cracker manufacturers and city bakers are carrying very limited stocks and it is thought the demand from this branch of the trade will shortly revive and sales enlarge. The week closed firm at the following prices:

WINTER WHEAT FLOUR.

MILLSTUFFS—A good demand existed during the past week, and a firm feeling existed, with prices some 50c per ton higher. The receipts were small. Bran in 100-lb sacks sold at $16 50@17 00 per ton, sacks included.

WINTER WHEAT—A firm feeling developed in this market, and prices have steadily advanced some 3@5c. The receipts have been larger, and there has been more Wheat on sale, but there has been enough demand to take up all the offerings at the advancing prices. The competition proved to be quite sharp among buyers. The Wheat was taken by millers and speculators, and some blocks were sold for shipment. Crop news has been somewhat irregular, and at times somewhat sensational, and this affected the speculative market and the cash market acted in sympathy. The quality of the arrivals has been good, grading mostly No. 2 and No. 3 Red and No 2 Hard. The stock in store of No 2 Red is being increased quite rapidly and was reported at 433,000 bu, against 181,000 bu the previous week. The next statement is likely to show a corresponding increase. Prices here compared favorably with other markets and that attracted the Wheat. For the week the receipts were 732 cars, against 550 cars the previous week. There were withdrawn from public elevators 135,763 bu, and from private warehouses there were withdrawn 225 cars and 96,400 bu. No 2 Red fresh receipts to go to store sold at 94@95c, and ranged up to 98@99½c round lots; free on board sold at 9 @35c to 97@99c, and billed through at 92½@99c. No 3 Red sold free on board at 9 @98½c, to 93@98c, and billed through at 92½@96½c. No 4 Red free on board sold at 75c for poor to 8@96c for good to choice, and No Grade Red at 72½c. No 2 Hard in store sold at 93@97¼c, fresh receipts free on board at 92@94c to 95@98c, and billed through at 91@97c. No. 3 Hard fresh receipts free on board sold at 85@91c to 93@97c, and billed through at 93c. No. 4 Hard sold at 83@91½c, and No Grade Hard at 78c. No. 3 White sold at 90@96c, and No. 4 White at 78c.

SPRING WHEAT—A surprise in the market during the past week was the selling of about 350,000 bu of No. 1 Northern in store to millers and shippers. This was practically about all the Wheat of this grade in store that was for sale, and cleaned up the stock of last year's crop. The Wheat has been in the hands of two or three strong parties, who have held it off the market, until they could secure satisfactory prices. Very little Wheat was received during the week, only an occasional car, and these were taken by millers and shippers. The receipts for the week were 20 cars, against 16 cars the previous week. There were withdrawn from public elevators 52,650 bu and from private warehouses 11 cars. No. 1 Northern in store sold at $1 03@1 07, and fresh arrivals free on board nominally $1 01@1 08. No. 2 Northern fresh arrivals nominally 98c@$1 02. No. 3 Spring was quotable 88@94c to 92c@$1 02. No. 4 Spring nominally 68@90c and later 92@94½c—outside for choice hard variety.

REGULAR WHEAT—The trade was of large volume and market excited and decidedly buoyant the past week. Higher prices were established on all deliveries with old September selling to $1 00½, while the new touched 99½c. December sold to 98c and May 99⅞c. The advance was rapid, and while extreme gains were not maintained, the close was anywhere from 7c to 7⅜c higher than quoted on last Friday. There was a rush of buying the opening days, the Northwest being conspicuous on the "long" side of the market and purchases for foreign account were on a larger scale. Sentiment was decidedly "bullish" and the rise continued in face of liberal receipts at primary markets. The strength of cash values at outside speculative centers, where the movement was heaviest, was looked upon as a strong feature and added not a little to the "bull" enthusiasm. The readiness with which the market absorbed the large quantities of "long" property that came out on the rise apparently convinced many traders who heretofore had entertained "bear" views that a further advance was likely and many turned from the "short" to the "long" side of the market. The Spring Wheat crop condition was the main factor in the advance, and the market was helped also by press reports of unfavorable harvest returns in Europe owing to the prolonged drouth. There were reports of foreign buying orders both in this market and in New York and more claims of black rust in Spring Wheat and from a wider area, North Dakota as well as South Dakota. The fact that reports of this kind were sent by conservative authorities influenced local buying. There were claims also of Hessian fly doing damage in North Dakota. Interests in the Northwest collected and sent on complaints of the progress of the crop in Manitoba and held up the fear of damage in the Spring Wheat States by early frost. A prominent concern in the Northwest after a careful investigation made in the three States issued the following report: "In the southern part of South Dakota there was little damage as the crop was mostly ready for harvest. The section which suffered the greatest damage seems to lie through the eastern counties of South Dakota and north of Mitchell. In this district where the prospect ten days ago was for the best yield of Wheat ever harvested in South Dakota, the prospect is now for a yield no better than that of 1903, possibly not as good. There are several reports from the southeast corner of North Dakota showing rust, and rust is noticed by reporters through the Red River Valley and through southern Minnesota, but, with two or three exceptions, the opinion is expressed that the crop will not be damaged by the small amount of red rust noticed. Some reporters, who have evidently been very careful in their examinations, report the heavy rains of the 29th have washed off the red rust and fields which had shown rust have improved. Where the Wheat has black rust, it is seriously damaged. All of the reports used as the basis for this letter were written July 29th and 30th and many of them say that there has been no damage to crop and that the district covered never promised better yields than now." A reliable authority in the Northwest estimates that the crops have been damaged at least 10 per cent up to date. The sharp advance in the English and Continental markets also proved a "bull" help and "shorts" hastened to provide for outstanding contracts. The London *Times* reported increased crop damage from practically every country on the Continent, due chiefly to drouth, and was likewise a strengthening factor. The weekly Government weather crop bulletin was interpreted as rather more "bullish" than otherwise and indirectly confirmed many of the private claims of damage in the Northwest. Unfavorable reports respecting Spring Wheat were more pronounced as well as more general than during the previous week, rust being more or less prevalent in all of the Spring Wheat States east of the Rocky Mountains. In portions of Minnesota and North Dakota, however, a good crop is promised. Harvesting is in progress in Iowa, Nebraska and South Dakota, and will begin this week in Minnesota. Harvest is also in progress in Oregon, with better yields than expected. Threshing of Winter Wheat was advanced under favorable weather conditions in the Central Valleys, but frequent rains interrupted this work in the Middle Atlantic States. The quality and yield of the Grain proved disappointing in Lower Missouri Valley, where the crop suffered much from excessive rains during the period of harvest. Winnipeg estimated the Manitoba crop about 55,000,000 bu of good milling grades based on present conditions and no frost damage during the month of August. Domestic Wheat routine statistics were looked upon as "bearish," the movement toward primary markets being heavy, while the exports and bookings at Atlantic and Gulf ports showed no perceptible betterment. The world's shipments were a little larger than expected, at 8,536,000 bu, compared with 8,056,000 bu previous week and 7,912,000 bu one year ago. The quantity on ocean passage decreased 1,152,000 bu to 38,712,000 bu, against 25,644,000 bu in 1903. The visible supply increased 918,000 bu, against 464,000 bu increase last year. Total is now 13,093,000 bu, against 13,414,000 bu in 1903, and 21,372,000 bu in 1902. Local public stocks increased 836,000 bu, and are now 1,379,000 bu, against 1,480,000 bu same date one year ago. Stocks here in all positions, 2,396,000 bu, increased 404,000 bu last week. Stocks a year ago, 3,967,000 bu. Contract stocks increased 391,165 bu and now include 629,111 bu, against 2,205,240 bu one year ago. *Bradstreet's* decreased 314,000 bu, against 1,613,000 bu decrease same week in 1903. Stocks of Wheat in interior elevators of the Northwest are reported at 366,000 bu, compared with 1,268,000 bu one month ago, 315,000 bu one year ago, and 292,000 bu two years ago. Stocks at Liverpool were reduced 424,000 bu during July and reported 2,752,000 bu on Aug. 1, against 2,896,000 bu one year ago. Around 99c for new September, 98c for December and 99⅞c for May "bear" leaders became more aggressive in their operations and "short" selling was more in evidence, while there was a noticable let-up in the demand. "Longs" endeavored to secure profits resulting in a reaction in all deliveries, December selling back to 96½c and May to 97½c. Cables failed to fully sympathize with the steady rise on this side and the enhanced values brought out increased offerings in the interior. The indifferent foreign demand, considering the reported conditions abroad, too, was rather disappointing to holders and there was a rush to unload. Primary receipts June 27 to August 1 aggregated 12,303,000 bu, against 13,718,000 bu in 1903 and 25,438,000 bu two years ago. Exports for the week were only 1,379,000 bu, and total since July 1 foots up 6,564,000 bu, compared with 15,048,000 bu for the same period in 1903. Argentine shipments were fair at 1,194,000 bu and since January 1 form a total of 72,901,000 bu, against 54,062,000 bu for the same period in 1903. The visible supply there is at present reported 3,896,000 bu, compared with 3,[illegible]000 bu last week and 3,040,000 bu one year ago.

CORN—The market was broad, active and excited the past week, fluctuations being wide and at times a little on the sensational order. Much higher prices were recorded the first of the week under an urgent miscellaneous demand and moderate speculative offerings. The rise was not checked until September touched 53¼c, December 49¼c and the May 48⅞c. The close showed the September 2½@2⅝c higher, while December gained 2⅝@3c and the May 2⅞c. There was general covering by "shorts" on the bulge while realizing and profit taking were conspicuous at the advance, but market absorbed the same very readily. The impetus to the advance was given by the report that the Roumanian Government had prohibited the exportation of Corn because of the damage to the crop done by drouth and by the buying of futures both here and in New York for foreign account and buying of spot Grain for export at the seaboard. The export sales on Monday were estimated as high as 504,000 bu. There was a good shipping demand here and the cash market was firm and higher. There seemed to be a disposition to keep the business under cover. There was also talk of Germany reducing the import duty on Corn, owing to the poor condition and scarcity of the fodder crops. The present duty is about 16c. *Broomhall*, in a cable received Tuesday, predicted a larger demand for Corn owing to the shortage in the Danubian districts and in Italy, and generally poor outturn of the fodder crops. English and Continental markets advanced rapidly and the foreign buying continued as the week advanced. Among the minor "bull" influences were the moderate receipts and more general demand for the cash article. Weather and crop conditions on this side were apparently a secondary consideration, the bulge in Wheat and the "bullish" foreign situation overshadowing all other factors. On the advance the principal "long" interest in September, which took in the cash on July deliveries, started to unload their holdings and caused temporary reaction in prices. It was also rumored that considerable cash Corn had been turned over by the chief holders to one of the larger elevator concerns to be marketed. Liverpool, London, Berlin and Buda Pesth all showed sharp gains and in turn was reflected here. Around 49¼c for December and 48⅞c for May "bear" interests became more aggressive and sold freely, causing a decline to 48⅜c and 47¾c respectively. The statistics as presented the first of the week received but casual consideration. If anything they were "bearish." The visible increased 71,000 bu, against 319,000 bu decrease last year. Total is now 5,819,000 bu, against 6,992,000 bu in 1903 and 7,281,000 bu in 1902. Local public stocks increased 112,000 bu to 2,970,000 bu, against 3,5[illegible]000 bu same date last year. Stocks here in all positions 5,383,000 bu, decreased 92,000 bu. Stocks one year ago 6,791,000 bu. Contract stocks increased 111,[illegible] bu to 2,962,905 bu, compared with 3,291,535 bu one year ago. World's shipments 3,214,000 bu; previous week 4,174,000 bu; year ago 5,355,000 bu. Quantity on passage increased 676,000 bu to 16,8[illegible]000 bu against 18,583,000 bu one year ago. *Bradstreet's* decreased 76,000 bu, against 650,000 bu decrease one year ago. Stocks at Liverpool were reduced 2[illegible],000 bu during July and on Aug. 1 were 1,032,000 bu, against 1,336,000 bu one year ago. Receipts abroad this week were very moderate. The Government weekly crop bulletin was "bearish," claiming Corn had experienced a week of favorable temperatures, and, while needing rain in portions of the Ohio, Central Mississippi and Missouri Valleys, the crop as a whole had made good progress and continues in promising condition. Private crop advices, too, were less pessimistic and as a rule more assuring. Local receipts were 1,216 cars compared with 1,731 cars last week and 963 cars one year ago. Receipts at primary markets were fair and larger than for the corresponding week in 1903. Bookings on the coast were more liberal, but the sharp rise in values tended to curtail transactions to some extent. Exports were moderate this week at 273,000 bu, and total since July 1 aggregates 2,589,000 bu, compared with 6,241,000 bu for the same period in 1903. Argentine shipped 2,580,000 bu this week, making 37,301,000 bu since Jan 1, against 30,112,000 bu for the same period in 1903. The visible is now reported 3,112,000 bu, against 3,822,000 bu last week and 3,913,000 bu one year ago. The demand for car lots was more brisk this week and sales readily affected at the enhanced values. No. 2 to go to store was quoted ¼c over September and No. 3 at September price. No 2 Yellow was salable at 1½@1¾c over September and No 3 Yellow at 1½c over that delivery.

OATS—Were actively traded in with an excited market and a higher range of prices for all deliveries. There was increased outside buying, active covering by "shorts" and heavy selling by hedgers against cash Oats bought in the interior. The latter held prices down part of the time but the excitement and advance in Wheat and Corn overcame the effects of the selling, and forced a rapid advance of 1¾@2c part of which was lost at the last on extensive taking of profits. Professionals bought on the theory that the scarcity of feed stuffs in Europe is bound to increased the export demand. On this point there is considerable doubt, especially for the time being, as foreigners will clean up their home supplies before going abroad for more. The price will also cut some figure. September sold between 33⅛@35c and closed at 33⅝c, or unchanged. December closed at 34⅛@34⅜c, gaining ⅝c. May at its highest was up to 37⅜c, and closed at 35⅞c, a net gain of ⅜c for the week. Threshing returns from Illinois are somewhat disappointing, and from Iowa ranged from 30 bu to 60 bu, with an average of 35 bu per acre. Harvesting has progressed rapidly and is well under way in the Northern districts. The marketing in the interior is of fair volume and the territory east of Chicago is harvesting a large crop and selling it at relatively lower prices than can be made from here which has cut off the shipping demand. Receipts for the week were 1,071 cars, against 691 cars the previous week, and 1,339 cars last year. In the sample market prices advanced 1@2½c with fair trading, but reacted 3@6c. Export clearances were 134,900 bu, against 95,779 bu the previous week, and 100,857 bu last year. Stocks in all positions in Chicago increased 240,000 bu and are 812,000 bu of which 324,401 bu are contract, a gain of 156,556 bu over the previous week. The visible supply decreased 326,000 bu, and is 2,681,000 bu, against 6,992,000 bu last year.

RYE—With the closing of July and canceling of all July contracts, the market became weak for cash and prices declined some 8c per bu, followed later by an advance of about 6c from the inside figure reached. The price for cash declined to a basis with the September delivery. A good demand existed for the cash, chiefly on speculative account, although millers bought a part of the re-

ceipts. For September delivery a good demand existed, and the offerings have been light. Prices were advanced 6c from low point. The receipts have been light and quality good. The receipts for the week aggregated 41 cars, against 49 cars the previous week. There were withdrawn from public elevators 3,700 bu and from private warehouses 3,500 bu and 10 cars. The visible supply increased 7,000 bu, and was reported at 868,000 bu, against 58,000 bu a year ago. Local stock in store was 97,000 bu, and a year ago was 244,000 bu. No. 2 fresh receipts sold at 66c, which was a decline of 1@2c from the previous day, and further declined to 65c, then sold to 67@68c. Billed through sold at 65c. No 3 sold at 60@64c, and No. 4 at 54c. For September delivery 61c bid at the start, and later sold at 62c to 68c, and closed at 68c.

BARLEY—There was a little more activity in the market the past week, yet the volume of business transacted was not large. There were fair offerings of old Barley, which met with rather slow sale, as most of the malt houses are closed. The indications are for a good crop of new Barley, which is expected to arrive quite freely within the next few weeks, consequently maltsters showed little or no disposition to purchase old Barley. There were some arrivals of new Barley, which varied considerably in weight and color, but indicated that the crop of this year is better than that of 1903. Receipts posted as inspected in were 52 cars, the previous week 53 cars reported and two weeks ago 25 cars were received. There was no output. New York reported no exports to speak of; a week ago 11,303 bu were reported. Visible supply increased 90,000 bu over last week, and was given as 1,154,000 bu, against 348,000 bu a year ago. There was a small decrease in local regular stock. Values for old Barley were at times rather uncertain, but closing prices were quotable about as follows: Screenings 28@37c for poor to good. Feed Barley, common to good, 30@35c. Malting, low grade, ranged at 38@40c; fair to good, sound, 41@45c. Sales of new Barley were at 48@50c for choice; some thin and Oats mixed for feed at 40@41c. New Barley received has so far arrived in good condition for first receipts, but there is still danger, and too great a hurry is not advised. Barley should remain in stacks until having gone through the sweat. Some which came soft had only 40c bid for it, and if sound would have brought 8@10c more, for it had color and weight to make it desirable.

SEEDS—Little business was done. Timothy and Flax were the only lines traded in and both of these ruled quiet. Steadiness of prices was a feature of the entire market. There were fluctuations but they were of no special importance. There has been little comment on the market relative to crop conditions. Clover has remained entirely nominal. Hungarian and Millets remain without quotations.

Timothy—Movement was very small. The middle of the week some consignments came to the market. In some cases they were held at limits above the views of buyers. Some demand existed for old Seed. The market was firm and quotations were advanced about 5c, at the same time little was done. After a slight gain cash values were about as follows: Contract old spot or August delivery about $3 05. Country lots quotable at $2 00@3 00 for low grade to fancy; choice about $2 80@2 90, fair to good Seed $2 60@2 75 and rough at $2 45@2 55. New crop Timothy received a little more attention, still this was quiet. There was a fairly strong tone though from the opening there was 7½c decline which later was recovered. At the opening $3 25 was asked, later it sold at $3 17½ and then went up again with sales $3 25, closing finally at $3 20 asked. A number of samples of new Seed were shown. They were from Northern Missouri and Southern Iowa. The samples were of better quality than for several crops. It was attempted to get at the probable salable value of some of these lots, but it could not be done. No one would venture a positive quotation. Movement the past week with comparisons was as follows:

Receipts the past week, lbs.	118,660
A week ago	23,050
Two weeks ago	246,150
Corresponding week last year	177,800
Shipments the past week, lbs	440,820
A week ago	117,520
Two weeks ago	94,807
Corresponding week last year	594,450

Flax—Little old Flax came on sale. Only an occasional car was sold. So little was done that prices for the most part were nominal. With the maturity of the new crop drawing near, more interest of a speculative kind would be looked for. It was not in evidence, however, and the business done in new crop Seed was of no significance. In the Southwest cutting and threshing of Flax was in progress. Crop in that quarter is not expected to be large. It is doubtful if much of this will get to Eastern markets. The Western mills it is thought will consume most of it. Prices changed very little during the week. A ½@1c fluctuation was about all there was to it. There were receipts of 20 cars, compared with 8 cars a week ago and 13 cars two weeks ago. Taken out 5,130 bu, the previous week 8,024 bu and two weeks ago 5,330 bu. In the local stock the last report showed no change. Duluth decreased 12,471 bu, and Minneapolis increased 5,000 bu. Western stocks the first of the month, compared with a year ago, were as follows:

	1904.	1903.
Chicago, bu	18 374	67,291
Duluth, bu	6,011,171	2,067,271
Minneapolis, bu	105,000	724,382
Total	6,134,545	2,858,944

No. 1 cash was quoted during the week at $1 16½@1 17. No 1 Northwestern or No. 1 from the Northwest at $1 24@1 24½, usually at $1 24. Rejected had a nominal range of $1 13@1 16. September was $1 16½ bid, sold later at $1 16, and then $1 17 was bid.

Other Seeds—Remained inactive, and for the most part without quotations. There were neither offerings or demand. There was some Seed under this head moving, but none was seen on the regular market.

Receipts the past week, lbs.	317,960
A week ago	248,182
Two weeks ago	1,581
Same time last year	39,900
Shipments the past week, lbs	651,754
A week ago	523,8?0
Two weeks ago	217,975
Same time last year	880,495

Clover—There was no business done in this line of Seed. Of old none whatever came on sale. There was an absence of offerings of new crop deliveries and there were no bids. From other points the advices reflected firmness. The Seed crop is now growing and during the week conditions were such as to cause some apprehensions at other points, and prices advanced. This caused finally nominally higher prices here. There has been a small movement of Clover as the following shows:

Receipts—The past week, lbs.	40,600
A week ago	66,920
Two weeks ago	156,000
Corresponding week last year	5,910
Shipments—The past week, lbs.	35,930
A week ago	47,050
Two weeks ago	36,870
Corresponding week last year	7,095

Prices were purely nominal and at the close after a nominal advance were given a range as follows: Contract spot Seed at $11 50. Country lots, common to choice, $8 00@11 00; fancy above, mixed with Buckhorn or other weed Seeds, $7 00@8 50; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@11 00

HAY—The receipts for the week were 2,929 tons, against 2,075 tons for the previous week. Shipments for the week were 193 tons, against 182 tons for the previous week. A good demand existed for choice grades of Timothy and Prairie Hay during the past week. The offerings of these grades were small and a firm feeling prevailed, with prices 50c@$1 00 per ton higher towards the close of the week. Medium and low grades were in fair supply, and the demand was light. The market was dull and sales were slow, but prices ruled steady, due more to the moderate offerings than anything else. Quotations the close ranged as follows: Choice Timothy, $14 00@15 00; No 1 Timothy, $12 50@13 50; No. 2 Timothy, $11 00@12 00; No. 3 Timothy, $8 00@10 00 Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@11 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@15 00 for poor to fancy Timothy, $4 00@7 50 for State, and $8 50@12 00 for Kansas and Nebraska Prairie Hay Rye Straw sold at $8 00@9 50, Wheat Straw at $6 50, and Oat Straw at $6 00.

COOPERAGE—Very little business transacted in Cooperage during the past week. Packers were backward about taking hold and outside ers were light. Offerings were moderate, and sellers not inclined to grant concessions. Difficulty in unloading tended to check business to some extent. Ash Pork Barrels quiet and quotable at 95@97½ Oak Pork Barrels were inactive and prices nominally unchanged at $1 05@1 07½. Lard Tierces were in very small request and prices were steady at $1 25@1 27½. Iron bound Lard Tierces quiet and quotable at $1 10@1 12½ for six hoop, and $1 15@1 17½ for eight hoop. Oleo Tierces were quiet and prices quotable at $1 17½@1 20.

HOGS—There was fair supply of Hogs marketed during the past week, though the receipts were not as large as usual, owing to the labor troubles. Quality of the Hogs rather good. Market was a little more active on packing account, and shippers provided for fair orders from the Eastern markets. Early in the week, the market was rather easy with buyers a little backward, and prices declined 15@20c. During the latter part of the week, more steadiness was manifested, and prices rallied 5@10c and the market closed comparatively steady. Sales during the week were made at $5 10@5 72½ for light, $4 75@5 20 for rough packing, $5 10@5 75 for mixed, and $5 00@5 70 for heavy packing and shipping lots, with the bulk of the sales at $5 15@5 60 for fair to good averages. At the close about 3,000 Hogs remained in the pens unsold. Pigs were in fair supply, with a good inquiry, and sales were made at $5 00@5 45 according to size and weight. Receipts of Hogs at the other Western packing points were only fair and the quality rather good.

PACKING—There was a moderate increase in business at the packing houses during the past week, but the aggegate was not very large, owing to the labor troubles. Supply of Hogs was larger, and prices ruled lower, and packers were encouraged to slightly enlarge their business. Bulk of the productions were those for the wants of Dressed Meat trade Pork of all kinds made sparingly. Lard produced moderately, and chiefly packed in tierces. Hams, Skinned and Picnic Hams made in limited quantities, and cured by manufacturers. Shoulders made very sparingly. Long Clear Sides, Extra Long Clear Sides, Short Clear Sides and all fancy and export cuts were neglected. Short Rib Sides, Extra Short Rib Sides, Extra Short Clear Sides, Rough Sides, Backs and Bellies made in limited quantities. Loins cut moderately to supply current wants.

PROVISIONS—Rather more life was manifested in the market for Hog Products during the past week, but still under the activity at this season of the year, due to the labor troubles at the packing houses. Outside orders were a trifle larger, and local operators and packers were inclined to do a little business. Hogs were in better supply, and fairly well taken care of, and this feature encouraged a little more trading in a general way. The returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 75,000 Hogs, and the aggregate packing is now slightly less than reported one year ago. Foreign markets were stronger during the week, with advances on most descriptions. Domestic markets were a little more active, and undertone a little stronger. Receipts of Products from Western packing points were rather liberal, and the shipments were only moderate, being checked to some extent by the difficulty in loading cars. Early in the week, the feeling was rather easy. Hogs were in good supply and prices were considerably lower. Packers were inclined to sell fair quantities, and "longs" were disposed to realize. Prices declined materially on all the leading articles. At the inside figures there was quite a good demand from miscellaneous sources, while there was less pressure to sell, and a stronger feeling was developed, to some extent in sympathy with Grain. Prices rallied slightly, but toward the close prices declined again, and the market closed comparatively easy. Trading almost exclusively in September and October contracts. Stocks on hand are quite liberal season of the year—showing only a small reduction during July. In the shipping branch of the trade there was a fairly good business transacted. Exporters accepted a few lots, and merchants in the domestic trade were disposed to enlarge their supplies. Interior packers were rather free sellers, and local packers disposed of fair quantities. Difficulty in loading cars checked business to some extent. Holders were rather firm in their views, and prices were advanced slightly on most of the leading articles.

Pork—Trade was fair in the market for Mess Pork during the past week, though the feeling was a little unsettled. Offerings were fair at times, while the demand was not particularly urgent. Supply on hand is rather liberal for the season of the year, and increased about 300 brls during July. Trading confined to September and October contracts, with the latter commanding a slight premium. Packers sold moderately. Early in the week, there was considerable pressure to sell, while the demand was moderate. Feeling ruled weak and prices declined 25@27½c. At the reduction, there was a fair miscellaneous demand, while the offerings were lighter, and prices rallied 17½@20c. Toward the close, the feeling was not quite so strong, and prices receded 20@22½c, and market closed steady. Inquiry on shipping account was light, and offerings were moderate. At the close, cash lots were steadily held at $12 75@12 80. Other cuts of Pork were called for sparingly, and prices were advanced slightly on all the principal cuts. Stocks on hand reduced materially.

Lard—Only a moderate trade was reported in the Lard market during the past week, and the feeling was somewhat unsettled. Offerings were fair and the demand was moderate. A good share of the trading was credited to local operators and packers. Stock on hand quite liberal, and increased about 20 000 tcs during July. World's supply probably 25,000 to 30,000 tcs larger. Production moderate. Foreign advices a little more favorable to holders. Trading mainly in September and October contracts, with the latter commanding 5@7½c premium. Early in the week, the feeling was rather easy, with a little pressure to sell,

and prices declined 17½@20c on the whole range. At the reduction, the demand improved, while the offerings were not very free, and prices gradually advanced 15@17½c. Toward the close, settled back again 10@12½c, and the market closed comparatively steady. A few trades made for December and January delivery. The inquiry on shipping account was limited, and offerings were small. A few small trades were made at 7½@10c discount on September figures—closing at $6 80@6 82½. Refined Lard was in moderate demand, and a few sales were made at prices not made public Loose lots were in rather light request, and offerings were moderate. Quotable at 50c discount on September figures. Leaf Lard was in small demand, and in limited supply, and sold sparingly at $6 25. Neutral was in only limited request, and offerings were fair. Market was rather quiet and prices quotably higher at $7 25@7 37½ for No. 1, and $6 87½@7 00 for No. 2.

Short Rib Sides—Trade was a trifle larger in Short Rib Sides, and the feeling was somewhat unsettled. Offerings were fair, while rather a good general demand prevailed. Interior packers sold fair quantities. Stocks on hand quite liberal for the season of the year, and increased about 1,375,000 lbs during July. Trading almost exclusively in September and October contracts, with slight differences in prices. Manufacture moderate. Early in the week, the feeling was easy, with a little pressure to sell, and prices gradually receded 10@12½c. At the reduction, the demand improved, and the undertone to the market was rather firm. Prices rallied 10@12½c, but receded again 5@7½c toward the close, and the market closed rather steady. January contracts sold at $6 70@6 75. Demand on shipping account was moderate, and offerings were not very large. Prices favored sellers, and cash lots at the close were quotable at $7 50@7 62½ according to weight.

Green Meats—Trade in Green Meats was very light. Production was rather small, and offerings were limited. Local packers not inclined to sell, and outside offerings were light. Demand limited. Hams were quiet and prices nominally unchanged. Skinned Hams in light request and prices well supported. Shoulders were inactive and prices were slightly advanced. Picnic Hams were called for sparingly and prices favored sellers. Bellies in light demand and prices were well maintained.

Pickled Meats—Quite a good business was transacted in Pickled Meats during the past week, but details were not fully reported. Offerings were fair, both by local and outside packers, and the demand was rather good Market was firm in a general way, and prices generally ruled higher. Foreign advices were more favorable to holders, and a few more orders were received from that quarter, especially for light weight Hams and Picnic Hams. Supplies of all kinds are fairly liberal. Some difficulty in delivering property owing to the labor troubles Hams were in good request, with fair offerings, and prices ruled about ⅛c higher. Skinned Hams were in fair demand and prices well maintained. Shoulders were fair request to fill small orders, and prices ruled ⅛@¼c higher. Picnic Hams were in fairly good demand, with a fair supply offered, and prices were ⅛@¼c higher. Bellies were in rather good request, and prices were slightly advanced

Dry Salted Meats—Trade was fairly active in the market for Dry Salted Meats during the past week, and the undertone to the market was stronger. Offerings were fair of all descriptions, and the demand was quite good. Foreign markets were stronger and prices ruled higher on most descriptions Orders from abroad, however, were modeate and for limited quantities. Domestic markets were stronger. Supplies of all kinds are quite large. Orders rather free from the Southern markets. Interior packers sold fair quantities. Foreign cuts of Hams were quiet, and prices favored sellers. Shoulders called for sparingly, and prices were slightly higher. Long Clear Sides and Extra Long Clear Sides inactive but held at higher prices Short Clear Sides were quiet, and prices about ⅛c higher. Extra Short Clear Sides were called for moderately, and the market was stronger, with prices slightly higher—closing at 7⅜@7½c. Extra Short Rib Sides were in only fair demand, and prices favored sellers—closed at 7⅜@7½c. Rough Sides were in rather good demand with fair offerings, and prices ruled slightly higher—closing at 7⅜@7⅝c according to weight. Plates were in fair request and prices ruled ⅛@¼c higher. Butts were in light demand at full former prices. Backs were in fair request and prices were advanced ⅛@¼c. Bellies were in rather good demand and prices were advanced ⅛@¼c. Foreign fancy and special cuts of Meats were quiet, and prices favored sellers

Smoked Meats—Rather a good business was transacted in Smoked Meats during the past week. Demand for car lots was fairly good and the jobbing trade was rather active. Fair orders from the Southern markets. Supplies of all kinds rather liberal Market was firm and prices rather inclined in favor of sellers. Hams were in fair request and prices well maintained. Skinned Hams were called for moderately and prices ruled steady. Shoulders were in rather light demand and ruled firm at about ⅛c advance. Picnic Hams were in good request and prices ruled about ⅛c higher. Sides of all kinds in fair demand and prices were advanced ⅛@¼c all around. Breakfast Bacon in moderate request at full former prices.

Beef Products Only a moderate trade was reported in Beef Products during the past week. Offerings were not very large and the demand was only fair. Production rather light, and supplies are being reduced Receipts of Cattle moderate, and prices favored buyers. Foreign markets were steady, and domestic markets rather firm. Shipments of Dressed Beef were somewhat larger. Beef Hams in moderate demand and prices well maintained. Extra Mess Beef was in fair request and firmer, and prices were advanced 25c. Plate Beef was called for moderately, and prices ruled 25c higher Extra Plate Beef in fair demand and prices were advanced 25@50c. Tallow was in moderate request with fair offerings, and prices were unchanged Oleo-Stearine rather quiet and prices quotably steady at 6⅞@7c.

Greases—Trade was only moderate in the market for Greases during the past week. Offerings were not very large, and the inquiry was only fair. Prices ruled comparatively steady, especially on the better grades.

CLOSING QUOTATIONS.

The following table exhibits the closing prices of Live Hogs and Provisions, as compared with the current quotations one year ago:

	Aug. 5, 1904.	Aug. 7, 1903.

THE WEATHER CONDITIONS.

Generally clear over the entire agricultural sections of the Northwest, West, Southwest and in the Ohio Valley. Temperatures rather cool.

Indications are for generally fair weather for the entire forecast district, except possibly showers in Kansas, southern portion, to morrow.

ITEMS OF GENERAL INTEREST.

A fire Friday, at Hutchinson, Kan., caused a loss of $50,000.

The business district of Kendrick, Idaho, was destroyed by fire, Friday. Loss, $250,000.

Flour has advanced 20c in sympathy with Wheat. Trade in the Northwest, however, is light.

London cabled: "Argentine supplies of Corn are delayed. Rains have fallen in various sections."

Twenty-three railroads reporting for the fiscal year ending June 30 show $93,845,676 net earnings, a decrease of $1,936,206, or 2 per cent.

The annual stockholders' meeting of the Chicago Great Western will be held in Chicago Sept. 8, at 11 a. m. Books close Aug. 20, and reopen Sept. 9.

The Birmingham Railway, Light and Power Company has authorized an issue of $10,000,000 fifty-year Gold bonds on its property.

A. Booth & Co., Chicago, have declared the regular semi annual dividend of 4 per cent on the preferred stock, payable Sept. 1. Books close Aug. 20 and reopen Sept. 2.

Business failures in the United States and Canada for the past week were 248, against 238 the previous week, and 197 for the corresponding week last year.

A New York banking firm has purchased from the Illinois Central Railroad $2,653,000 Omaha division first mortgage 3 per cent Gold bonds due Aug 1 1905. These bonds form part of the total issue of $5,000,000, all of which have been issued.

The monthly instrument statement of the Chicago Telephone Company shows an increase in the number of Telephones connected to the system during the month of July of 918. The total number of Telephones connected to the company's lines in the city and country is now 111,630.

Traffic on the Chicago and Oak Park Elevated Railroad, formerly the Lake Street Elevated Railroad, showed a falling off during July in comparison with that of July, 1903. The total number of passengers carried was 1,198,701, as compared with 1,214 735 in July, 1903, a decrease of 16,034, or 1.32 per cent.

For the seven months ending July 30 the sales of listed stocks on the New York Stock Exchange were 54,076,172 shares, compared with 82,632,833 shares in the corresponding period in 1903. For the same period the sales of listed bonds were $366,978,200 this year, compared with $361,330,500 last year.

Notice was issued, Friday, of the meeting of directors of the Quaker Oats Company in Akron, Ohio, next Tuesday, to take up the question of quarterly dividends. The usual payments are expected—1½ per cent on Quaker Oats preferred and 3 per cent on the stock of the American Cereal Company.

The quarterly meeting of the directors of the National Biscuit Company will be held Aug. 10. The regular dividends of 1 per cent on the common and of 1¾ per cent on the preferred will doubtless be declared. Officials of the company report a continually growing business and a generally optimistic outlook.

The Pennsylvania reports for June a decrease of $1,050,000 in gross earnings, but an increase of $195,000 in net earnings on the lines directly operated, owing to a heavy decrease in operating expenses. For six months to June 30, however, the net decreased $2,594,000. On the company's lines west of Pittsburg and Erie the June net increased $30,400, but for six months the net decreased $1,390,000.

The Japanese Consul General at New York has received a cablegram from the Department of Finance at Tokio stating that the Government has issued treasury bills to the amount of 10,000,000 yen payable Dec. 15, and that the issue had no relation to the war finances of the Government. The cable also states that the money market in Japan is easy. The Consul General states that these treasury bills will be disposed of in Japan.

The Niles-Bement-Pond Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock. A semi-annual dividend of 3 per cent on the common stock also has been declared payable in two equal installments on Sept 15 and Dec 15. For the dividend payable Sept. 15 the common stock books will close on Sept. 10 and reopen Sept. 16, and for the dividend payable Dec 15 the common stock books will close Dec. 10 and reopen Dec. 16.

A man prominent in financial circles said: "I have an idea that the purchase by J. P. Morgan of $10,000,000 New England Railroad 4s was for Mr. Morgan's personal account. During the recent heavy liquidation Mr. Morgan, I believe, cleared his decks to a greater extent than people generally realized, so that if certain large financial interests wanted to play ball with him he would be ready. I have heard it estimated that he was carrying deposits of over $70,000,000."

It is not probable that any further announcement regarding the plans of the reorganization committee of the Denver and Southwestern Railway Company will be made public much before Sept. 1. It is understood that all except about twenty five of the bondholders of the old company have assented to the amended plan of reorganization. This plan was declared operative some little time ago, and the regular foreclosure proceedings will be carried out in due time.

The agents of some of the Canadian banks in New York City and some of the National banks there have received letters from their correspondents in Washington, Northern Oregon, and Southern British Columbia asking how extensive are the accommodations they can secure to move what they describe as the largest Wheat crop on record, especially for Washington. The far Western banks have drawn out their deposits pretty well, and will need an unusual amount of money for the next ninety days.

A cross bill to its suit against the Western Union Telegraph Company has been filed in the United States Circuit Court at Pittsburg by the Pennsylvania Company. The bill asks the court for a perpetual injunction against the defendant company to restrain it from using any portion of the telegraph lines along the line of the Cleveland and Pittsburg Railroad, claiming the defendant company has no right to the use of the poles or wires, as all agreements and contracts made between the companies are now void. A partition of the property or the sale of the telegraph lines is also asked.

Associates of F. A. Heinze in New York are reported to have been buyers of Amalgamated Copper within the last few days. Market interests interpret this as meaning that the chances for the acquisition of the Heinze mining interests by Amalgamated Copper are improving. Mr. Heinze is still in Butte, and the last heard from him he was still denying that any negotiations were on with the Amalgamated people. The suits started by the Amalgamated to collect $5,750,000 for ore alleged to have been taken from the Leonard mine is understood to be part of the squeezing process employed in trying to force a settlement with Heinze.

A circular has been mailed to Southern Pacific stockholders, giving details of the subscription for the new preferred stock. The terms of the subscription are as follows. Common stock holders can subscribe for 20 per cent of their holdings of common stock at par up to Sept. 1. Payments shall be made as follows: Twenty-five per cent, or $25 per share, at the time of making the subscription. Twenty-five per cent, or $25, on or before Oct. 3, 1904. Fifty per cent, or $50, on or before Dec. 1, 1904. Subscribers may pay in full at subscription, but no allowance is made for interest on such payments. The company will not buy fractional parts of shares. Such fractions must be deposited by Dec. 1 and full certificates will be issued on Dec 10 for such fractions as combined make up full shares.

The preferred stockholders of the Cincinnati, Hamilton and Dayton Railroad have been appeased by the purchase of their stock at $110 a share, and nothing now threatens the stability of the merger of the Cincinnati, Hamilton and Dayton, Pere Marquette, and Chicago, Cincinnati and Louisville Railroads. While no official statement has been made as to financial details of the plan, it is understood that the Cincinnati, Hamilton and Dayton leases the Pere Marquette upon a basis of 4 per cent for the common stock this year and 5 per cent per annum after this year. It is also understood that control of the Pere Marquette was acquired on a basis of Cincinnati, Hamilton and Dayton bonds and common stock of a par value of $125 and market value of $110 for each share of Pere Marquette stock.

Wheat rust (Puccinia graminis) is a fungus disease usually more severe in a hot, wet season. In the spring it begins growth on plants other than Wheat, preferably Barberry leaves. The spores from this spread to the Wheat fields, where they quickly develop and enter the Wheat leaf tissues. About harvest time the second crop of spores is produced. These are the red spores, and from this the name of red rust comes. Later, another set of spores develops, usually in the stubble, and sometimes along the leaves, and these are seen in long, black rows of spores, giving the name of black rust. This last stage is the dormant, or winter stage, under which the fungus passes the winter. There are two other kinds. Puccinia Rubigo-vera, which is not an important variety, and another variety, Puccinia. Coronata attacks Oats. Very little has successfully been done in suppressing the disease and some Wheat is more susceptible to its attacks than others. As a rule hard red Wheats ripening early appear to be best able to combat the rust.

Arrangements are being made for a conference in New York on Aug 10 of the representatives of the Sloss-Sheffield Steel and Iron Company, the Tennessee Coal and Iron Company, and the Republic Steel and Iron Company, to settle finally the question of a possible merger or permanent selling agreement. Practically nothing has been done since the Coal and ore expert commission reported, which report was wholly unsatisfactory to all interests, so that, if the conference is held on Aug 10, it will be chiefly for the purpose of decisively killing the plan and giving it official burial. The renewed report that the Republic Iron and Steel Company awaits only an opportune time in the securities market to announce a bond issue of not less than $2,000,000 and probably more, is said to come from exceptionally well informed quarters. The Republic Iron and Steel Company has paid no dividends on its outstanding $20,416,900 of preferred stock since October, 1903 all subsequent dividends having been passed. In October it will owe $1,429,183 deferred dividends. For the purpose of rehabilitating its working capital so that it may pay dividends and carry forward the comprehensive plan of new construction, so as to secure best results from its numerous plants, the company needs money. That the required cash is to be raised at the proper time by a bond issue is considered not unlikely.

INSPECTION OF GRAIN AND FLAX SEED.

The following table exhibits the inspection of Grain and Flax Seed at Chicago for the past 24 hours.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $26,916,393.

No export business at the seaboard to-day.

Wheat in Chicago has gone above the dollar mark for all deliveries.

Ten packers purchased 16,900 Hogs to-day; shippers 6,000; left over, 5,000. Market closed steady.

The output of the St. Louis Flour mills for the past week was 63,900 brls, against 61,100 brls for the previous week.

The packing at Milwaukee since March 1 is estimated at 336,845 Hogs, against 406,348 for the corresponding time in 1903.

Estimated receipts for to-morrow: Wheat, 250 cars; Corn, 362 cars; Oats, 652 cars, Rye, 10 cars; Barley, 7 cars; Hogs, 16,000.

It is estimated that Umatilla County, Oregon, will raise 5,100,000 bu Wheat, and Whitman County, Washington, 10 000,000 to 12,000,000 bu.

The quantity of Flour and Wheat on passage to Europe during the past week increased 9,8,000 bu, and the quantity of Corn decreased 952,000 bu.

Local Securities were slow and lower for North Chicago Railway, South Side Elevated and Can preferred. Title and Trust advanced 3 points.

Cotton in New York made substantial gains. Liverpool was 2@6 points higher, and the buying more emphatic. Closing prices were at gains of 16@22 points.

Exports of Flax Seed from India the past week were 504,000 bu, compared with 532,000 bu for the week previous, and 489,000 bu for the corresponding week in 1903

The stock of Flax Seed at Duluth on Aug 6 was 5,835,483 bu, compared with 6,011,171 bu the previous week—a decrease 185,688 of bu. Stock last year, 1,917,227 bu

The average weight of the Hogs received at Chicago last week was 235 lbs, the heaviest of the year, against 232 lbs the previous week, 248 lbs the corresponding week in 1903, and 244 lbs in 1902.

Stocks of Wheat in public warehouses in Liverpool reported at 3,112,000 bu, against 3,136,000 bu one week ago and 3,144,000 bu one year ago. Stocks of Corn reported at 486,000 bu, against 660,000 bu one week ago and 986,000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 580,000 bu Wheat, 572,000 bu Oats, 22,000 bu Rye and 172,000 bu Barley, an increase of 126,000 bu Corn.

Considerable comment to-day regarding the quantities of Wheat reported in the visible supply at Chicago, St. Louis and Kansas City. A good share of the receipts have been placed in private warehouses, and these are not included in the "official visible"

Stocks in New York started strong and advanced but turned weak. Crop news from the Northwest was bad, with selling of Western Railway shares and they showed losses at the last ⅛ to 1 point. Tractions were irregular and ¾ higher to 1½ lower, the latter on Metropolitan Securities. Steel preferred advanced 1½, but closed 1⅛ lower. Money 1 per cent

A special report from all sections of the Northwest this morning indicates a rapid spread of the rust-infected area during the past five days. Weather conditions have favored its propogation. During the week it has appeared in twelve counties in Minnesota, the most important being Big Stone, Blue Earth Kandiyohi, Otter Tail and Yellow Medicine, where it appears to be spreading rapidly, and where there is yet an average of a week before harvest It has also appeared in five counties in North Dakota, bad in Sargent, Traill and Richland, and light as yet in Barnes and Pembina. The crop there is two weeks from harvest, and there is danger of further development if present weather conditions continue Harvest is practically completed in South Dakota, with enough rust damage to cause correspondents to lower their crop estimates by near y 25 per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Was strong and held higher owing to action of Wheat. Demand moderate, and sales still confined to local and domestic trade

WINTER WHEAT—Was 1@3c higher Demand good; some Wheat taken by millers but chiefly by speculators to go to store The advance was in sympathy with the excitement in the speculative market No 2 Red fresh receipts sold at $1 01@1 0.½ and round lots in store quotable at 98½@$1 02, or a trifle under old September. No. 3 Red fresh receipts ranged at 96c@$1 01. No 4 Red at 95@97c No 2 Hard fresh receipts sold to go to store at 99¼c@$1 00¼ and free on board at 99c@$1 01½. No. 3 Hard fresh receipts sold at 97c@$1 00 and billed through at 97½c

SPRING WHEAT—Was quotably stronger However, so little coming that prices were entirely nominal. No. 1 Northern fresh arrivals nominally about $1 00@1 10, and No. 2 Northern about $1 05@1 07. No 3 Spring quotably 95c@$1 04 and No 4 Spring at 75@95c.

REGULAR WHEAT—There was an immense trade, the market ruling excited and got on new ground, old September selling to $1 02⅜, December to $1 00½, and May to $1 02 Closing prices showed gains anywhere from 3¾c to 4⅜c The chief "bull" incentive was the Northwest news, which was the worst yet received and "shorts" hastened to cover from the start. The 60 000,000 bu shortage in Kansas, Nebraska and Oklahoma, as reported by the Kansas City *Star* late Saturday, was, no doubt, one of the early factors, and according to Northwest advices the rust area was spreading. Minneapolis wired: "Just saw a sample of Wheat from Wood Lake, Minn , it is badly rusted and will not grade better than No 2; crop there a few days ago was reported fine." Another read "Our reports along the Soo Line are the worst yet received, and situation is pretty bad for Wheat " The sharp advance at Minneapolis was also a factor The action abroad and the movement on this side were influences of secondary consideration and were overshadowed in the flood of damage claims from the Spring Wheat belt. Liverpool quoted spot ¼d lower to ¼d higher and futures unchanged. Stocks there, 3 112,000 bu, decreased 24,000 bu last week. London came steady to ¼d lower, while English country markets were strong and 6d to 1s higher. Paris was unchanged to ¼c lower and Antwerp steady World's shipments were larger than looked for at 9 112,000 bu, against 8,536,000 bu previous week and 7,.56,000 bu one year ago Quantity on ocean passage increased 9,8 000 bu and is now 39 640,000 bu, against 24,528,0 0 bu one year ago. The visible supply decreased 580,000 bu, compared with 315,000 bu decrease one year ago. Total is now 12 513 000 bu against 13,109,000 bu in 1903 and 21,733 000 bu in 1902 Local public stocks decreased 381,000 bu to 998,000 bu, compared with 1,610,000 bu the corresponding date in 1903. Winnipeg wired: "Weather unfavorable for growing crop; cool temperatures, no actual damage yet but crops not making headway they should this month." The map showed very little precipitation anywhere scattered rains in Manitoba and traces in the Dakotas Showers were predicted for the West and Northwest. Primary receipts were 605,000 bu larger than a year ago Kansas City and St Louis receipts were 840,000 bu against 370 000 bu last year Kansas City received 1,761,000 bu last week, and shipped 900,000 bu and the public stock increased but 197,000 bu Exports were small and no loads accepted at the seaboard. Special crop reports to a local statistician showed rust had appeared in twelve counties in Minnesota, and five counties in North Dakota Crops in North Dakota two weeks from harvest and in danger from further development Correspondents in South Dakota lower estimates 25 per cent One message from the Northwest claimed conditions were likely to be the worst since 1878 Receipts at Duluth 27 cars and at Minneapolis 179 cars, a total of 186 cars, against 175 cars Saturday, 180 cars a week ago, and 175 cars last year. Local receipts included 165 cars Winter, 1 car Spring and no mixed, a total of 166 cars, against 160 cars last year. Included in the above were 20 cars contract grade. There were 20 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 228 cars. Withdrawals to-day were 129,100 bu. Receipts at Western points were 1, 32,855 bu, against 728,274 last year. At Eastern points 134,179 bu, against 326,641 bu last year Shipments from Western points were 593,204 bu, against 230,170 last year, and from Eastern points 91,778 bu, against 444,156 last year. Shipments of Flour were 10,868 brls Exports of Wheat in Flour were equal to 140 784 bu

Future Deliveries of Regular Wheat—Active and excited at much higher prices

SEPTEMBER—Old Style—Sold at 98½c@$1 02⅜ Opened with sales at 98½c to 99⅞c, sold to 99½c, to 99¾c, to 99⅜c, to $1 01¼, to $1 00, to $1 01⅞, to $1 01½, to $1 02⅜, to $1 02, to $1 02⅜, to $1 02¼, and closed at $1 02¼

SEPTEMBER—New Style—Sold at 97½c@$1 01⅛. Opened with sales at 97½c to 98c; sold to 97⅞c, to 98¾c, to 98¾c, to 98¾c, to 99½c, to 98⅝c, to 98⅞c, to $1 00½, to 99⅞c to $1 01⅛, to $1 00⅝, to $1 01⅛, to $1 00¾, to $1 01, and closed at $1 01.

OCTOBER—Was quoted early at 97c.

DECEMBER—Sold at 96½c@$1 01½. Opened with sales at 96½c to 97¼c sold to 97⅛c, to 98¼c, to 97¾c, to 98⅜c to 99c, to $1 00¼, to 99½c, to $1 00½, to $1 0 ⅛, to $1 00¼@1 00⅜, and closed at $1 00¼@1 00⅜

MAY—Sold at 98c@$1 02. Opened with sales at 98c to 99c; sold to 99¼c to 99½c, to 99c, to $1 00⅜, to $1 00, to $1 01½, to $1 00¾, to $1 02, to $1 01, to $1 01½, to $1 01¼, to $1 02, to $1 01⅞, and closed at $1 01⅞ bid.

CORN—Was active, with a good general trade, the tone being stronger influenced chiefly by the unseasonable weather and action of Wheat. Closing prices showed gains of 1⅝c to 1⅞@2c Commission houses were on both sides of the market, with professionals and Provision interests buying. The Southwest was credited with selling May, and there was realizing by local 'longs." "Shorts" covered freely on the advance Map showed showers in Kansas and Nebraska, with temperatures lower, off to 52 at Des Moines and down in the sixties in Missouri. Showery conditions were generally predicted St. Louis wired that North Central Missouri reported much Corn firing, with a third of the crop only two feet high and much not started to tassel. Will require perfect weather from now on to produce average crop. Liverpool quoted spot steady and futures ¼d higher Stocks there 493,000 bu, decreased 84,000 bu last week World's shipments were 4,476,000 bu, against 3,244 000 bu previous week and 4,765 000 bu one year ago. Quantity on ocean passage decreased 952,000 bu to 15,892,000 bu, compared with 15,583,000 bu same date in 1903 Local shipments were large—654,000 bu, against receipts of 264,000 bu. There was loaded out of private elevators 573,250 bu and exports were 53 000 bu Philadelphia claimed export bids were about 3c out of line. Shipping demand moderate and sales small Southwestern markets were strong. The visible supply increased 126,000 bu, compared with 165,000 bu decrease same week in 1903 Total is now 5,975,000 bu, compared with 8,837,000 bu in 1903 and 6,156,000 bu in 1902. Local public stocks decreased 384,000 bu to 2,786,000 bu, against 3,472,000 bu one year ago. Western receipts 417,000 bu; last year 293,000 bu. Shipments 927,000 bu and 379,000 bu respectively. Local receipts were 255 cars, against 159 cars last year and 362 cars estimated for to-morrow. Car lots were in good demand and prices ½@1c higher. No. 2 closed at 53¾c. No 2 Yellow sold at 54¼@54⅜c and closed at 55½c No. 2 White sold at 53¼c No. 3 sold at 53¼c and closed at 53½c. No. 3 Yellow sold at 54@54½c and closed at 55¼c No 4 sold at 52@54c.

Corn by sample—There was a good demand and moderate offerings Feeling stronger and prices about ½c higher. Sales on track and free on board: No Grade sold at 45@50c. No. 4 at 52@54c. No. 3 at 53½c. No 3 Yellow at 54@54½c. No. 2 at 53¾@54½c. No. 2 Yellow at 55c. No. 3 White at 53½c. No. 2 White at 53¼@53½c. Billed through: No Grade at 50c No. 4 at 51@53c. No. 3 at 52@52½c No 3 Yellow at 52¾@53¾c. No. 2 Yellow at 53¾c. No. 3 White at 51½@52½c.

Future Deliveries of No. 2 Corn—Active and feeling stronger, closing 1⅝c to 1⅞@2c higher.

AUGUST—Inactive: sold at 52½c, and closed nominally at 53¼c

SEPTEMBER—Sold at 52⅜@54c. Opened at 52⅜c to 52¾c, and sold at 52⅞c, to 52¾c, to 53c, to 52¾c, to 53c, to 52⅝c to 53⅛c, to 5.¾c, up to 54c, to 53⅜c, to 53¾c, and closed at 54¼c.

OCTOBER—Sold at 51¾c.

DECEMBER—Sold at 48¾@51c Opened at 48¾c to 49¼c and sold at 49½c, to 49¼c, to 49½c, to 49c, to 49¼c, to 49⅜c advanced to 51c to 50½c, and closed at 50½c.

MAY Sold at 48¼c and 50⅜@50½c. Opened at 48½c to 48⅞c and sold at 48⅞c, to 48¾c, to 48⅞c, to 48⅝@48¾c, to 48⅞c, to 48¾c, advanced to 50⅜@50½c, to 49¾c, to 49⅞c and closed at 49⅞c.

OATS—Were active, especially at the last, and closed strong at the top with gains of ½@¾c. Early sales were at ½@¼c under Saturday's close. There was heavy selling by elevator interests and commission houses early and it kept prices from advancing In the last hour the advance in Wheat stimulated buying by commission houses and "shorts" and advanced prices Arrivals were large, 411 cars, with 487 cars estimated for to-morrow, which are likely to overrun. Stocks in public houses decreased 23,000 bu and are 317,000 bu. The visible supply decreased 572,000 bu. Withdrawals were small. Clearances 13 000 bu Car lots to go to store were ½@1c lower No Grade new sold at 32c No. 4 White at 32¼@33c No. 3 White at 33@33¾c Standard 33½@33¾c. Standard in store closed about 33¼@33½c

Oats by sample were in good demand, elevator interests taking most of the large offerings Sales on track and free on board: No Grade new at 31@31½c No. 4 White new 32c@33½, old at 29@37c. No. 3 new 30½@31c, old 33½@35½c. No 3 White new at 32½@34½c; old at 36½@39c. Standard new at 33@34½c No. 2 new at 31½@32c. No 2 White new at 33½@37c Billed through: No Grade new at 31½@32¼c No 4 White new at 32@32½c. No 3 new at 30¾c No. 3 White new at 32½@33½c Standard new at 32½@33¼c No 2 new at 31@31½c. No. 2 White new at 31@31½c. No. 2 White new at 32¾@34c. At the river: No. 4 White new at 31@31¾c, old at 33@34½c. No 3 White new at 32@32¼c. Standard new at 32¼c.

Future Deliveries of Contract Oats—Were easy early and higher at the close

AUGUST Closed at 33¼c.

SEPTEMBER—Active Sales at 32½@33¼c Opened at 32½c to 3.¾c, sold to 32⅞c, to 3.⅝c, to 33¼c, 33⅛@33¼c at close.

DECEMBER—Active. Sold at 33⅜@33½c and at 34¼@34⅜c. Opened at 33⅜@33½c to 33⅝c; sold irregularly to 34⅛@34⅜c; closed at 34¼c

MAY—Active. Sold at 35¼c and at 36¼@36⅜c. Opened at 35¼c to 35½c, to 36¼@36⅜c to 36⅛c at close

RYE The market was firm, influenced some by advance in other Grains Prices 1@2c higher. Demand good and offerings light. There were 10 cars received. No withdrawals reported from store here and no export clearance from New York. The visible supply decreased 22,000 bu. No 2 fresh receipts sold at 69@71c and No 4 Rye mixed with Corn at 67½c It is estimated that the crop of Rye for the United States is about 27,000,000 bu against 29 4 0,000 bu last year

Future Deliveries of No. 2 Rye—Firm and 1@2c higher Demand fair September sold at 68@70c and closed at 70c bid. December 70c asked.

BARLEY—A few cars of new were offered. Main spot car lot offerings are still old Barley and not many of them, enough, however for the demand Buyers as yet are indifferent It is a little too early A number of samples of new were shown They were mostly ordinary to good malting, with a quotable range of 40@45c An occasional sample of very choice appears, which, if here might bring 5c to several cents over. A lot of new to arrive offered had 46c bid for it August delivery. To-day only 6 cars posted inspected in Screenings old, nominal over a range of 29@37c for poor to choice. Feed Barley, common to good 29@37c Malting, low grade, was quotable 3@40c; fair to good, 42@45c and choice new 47c up to 50c. Fancy possibly above

SEEDS—Very little was done, so the market was not at all interesting Timothy showed weakness for new crop delivery but all other Seeds while dull were unchanged

Timothy—A dull and heavy market was experienced In order to sell September concessions had to be made. Demand very backward A final sale made at $3 12½ was 7½c below Saturday's asking price October was called nominally about $3 10 Spot Seed, old without essential change Some offered Quotable Old contract spot or August delivery at $3 05 sellers Country lots quotable at $2 00@3 00 for low grade to fancy, choice about $2 85@2 90 fair to good Seed $2 65@2 75 and rough at $1 45@2 55.

Flax—Nothing of consequence was done; nothing aside from a car of No 1 from the Northwest Former prices were bid, so there was a steady market. Absence of offerings prevented trading. Local receipts 6 cars and a cargo of 95,390 bu, a total of 101,390 bu, and yet only 1 car offered Minneapolis got 12 cars and Duluth 10 cars Local stock did not change last week, remaining at 18 374 bu, against 67,291 bu a year ago. No. 1 Northwestern or No 1 from the Northwest remained at $1 24½ bid No. 1 salable at $1 17. Rejected nominal at $1 18@1 16, depending on quality. September, $1 17 bid and $1 19 asked.

Clover—Nominally firm The advices from outside came in a little better. No Clover, either for cash or future delivery, was offered. New crop, October delivery, contract grade, nominal at $12 00@12 25. Contract spot Seed was quoted at $11 50. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@10 75

Other Seeds—Occasionally some Mustard comes in, but nothing else at present. This nominal at 75c@$1 10 for common to choice. No quotations for other lines

HOG PRODUCTS A fairly good speculative trade was reported in Hog Products, and the market was considerably unsettled. Offerings were moderately free, and the demand was fair. Outside orders were fair, and local trading was moderate Considerable realizing on the downward scale, and a few "stop-loss orders" added to the temporary depression. Hogs were in fair supply, and prices slightly higher. Receipts at the leading Western packing points were estimated at 45,700, compared with 54,300 one year ago. Foreign markets were firm for Meats, and Hams were advanced 1s, while Lard was weak and 9d lower. Domestic markets were rather steady. Receipts of Products were fair of Lard and Meats about 10 cars Shipments were not very large—of Lard and Meats about 98 cars. At the opening the speculative market was rather steady, mainly in sympathy with the Grain markets, and a few trades were made at a slight advance in prices Later there was considerable pressure to sell, and a weak feeling was developed. Prices declined materially on all the leading articles. Toward the close, rather more steadiness prevailed, and prices rallied to outside figures, and the market closed rather steady. Trading chiefly in September and October contracts. Demand on shipping account was fair, and offerings were moderate Sales were not very large, and prices were well maintained. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 460 brls Pork, 3 605,000 lbs Lard, and 742 boxes Meats.

Mess Pork—A fairly good trade was reported in Mess Pork, and the feeling was unsettled. Offerings were rather free, and the demand was moderate. Market opened rather steady at Saturday's closing figures, but there was considerable pressure to sell, and prices receded 20c At the reduction, there was a fairly good miscellaneous demand, and prices rallied 17½@20c, and the market closed steady. Shipping demand was light, and offerings were small Cash lots were quotable at $12 40@12 45

AUGUST—A few lots offered and demand rather light Sales were made at $12 25@12 40, and closed quiet at $12 32½.

SEPTEMBER—Offerings were moderately free and the demand was only fair. Sales were made at $12 30@12 47½ Opened at $12 45, sold to $12 37½, to $12 47½ to $12 30, to $12 45, to $12 42½, to $12 47½, to $12 45 and closed steady

OCTOBER—In fair request and offerings were moderate Sales were made at $12 30@12 50. Opened at $12 50, sold to $12 45, to $12 50, to $12 45, to $12 50, to $12 30, to $12 50, and closed steady.

JANUARY—Quiet with small sales at $12 75

Lard Trade was fair in the Lard market, and the feeling was somewhat unsettled Offerings were fair, and the demand was moderate Market opened rather steady, and prices were slightly higher Later, a weaker feeling was developed, and prices declined 7½@10c Toward the close the feeling was steadier, and prices rallied 7½@10c, and the market closed rather steady. Foreign advices were unfavorable to holders Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 70@6 72½ Loose lots in small request with limited offerings. Prices steady at about 50c discount on September figures. Leaf Lard was in light demand, with moderate offerings Quotably steady at $6 20@6 25 Neutral in only limited demand, with fair offerings Prices quotably steady at $7 25@7 37½ for No. 1, and $6 87½@7 00 for No 2.

SEPTEMBER In moderate request and offerings were fair Sales were made at $6 70@6 80 Opened at $6 77½ sold to $6 80, to $6 70, to $6 80, to $6 77½, and closed steady

OCTOBER Offerings were fair, and the demand was not urgent. Sales were made at $6 77½@6 87½. Opened at $6 85, sold to $6 77½, to $6 85@6 87½, to $6 85, and closed steady.

JANUARY—Met with a little more favor, and offerings were moderate. Sales were made at $6 77½@6 85, and closed steady at $6 85

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides, and the feeling was steady. Offerings were moderately free, and the demand was fair. Prices were advanced 7½@10c on the whole range, and the marked closed rather steady at about outside figures. Shipping demand was light and offerings were moderate Cash lots were quotable at $7 50@7 65, according to weight.

SEPTEMBER—In fair request and offerings were moderately free. Sales were made at $7 60@7 70. Opened at $7 60 to $7 62½, sold to $7 60, to $7 65, to $7 60 to $7 67½@7 70 and closed steady.

OCTOBER Offerings were fair, and the demand was rather active. Sales were made at $7 55@7 60. Opened at $7 57½, sold to $7 60, to $7 57½, to $7 60, to $7 55, to $7 57½@7 60, to $7 57½, to $7 60, and closed quiet.

Other Meats—Trade was only fair, and mainly on domestic account. Exporters bought only sparingly. Offerings fair and the inquiry moderate Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in good request, with only moderate offerings, and prices well maintained. Dry Salted Meats were in fair demand, with moderate offerings, and prices were higher. Smoked Meats called for moderately, and prices were steady Closing prices ranged as follows

FREE ON BOARD AND SWITCHED—Not Graded Timothy 2 cars at $12 00.

Straw—Rye Straw quotable at $7 50@8 00, Wheat Straw at $6 00@6 50, and Oat Straw at $6 00@6 50.

Sales were ON TRACK—Tangled Rye—2 cars at $7 50

FREE ON BOARD AND SWITCHED—Wheat—1 car at $6 00.

CROPS IN FOREIGN COUNTRIES.

(From Broomhall's Corn Trade News, July 26.)

United Kingdom—Hot forcing weather continued to prevail in the United Kingdom until the end of last week, but since then there has been some welcome rain, moderate to fair quantities falling here and in the midlands but in the south the fall appears to have been only light. Nevertheless, it be not of long duration, a rainy period now will do much good to root crops and late sown cereals, some of which have been burnt up terribly. It will so be hoped there will be no heavy storms to beat down the more forward crops. Reports from various parts of the south of England mention the cutting of Winter Oats and even Wheat has been cut. The Wheat crop generally is maturing rapidly and the fields look less thy with the plant standing up well. But even as seen when driving along country roads or views of from a railway carriage, the crop looks thin, while the fields which carry the premier cereal are few and far between. Country correspondents are loud in their praise for our Wheat crop are indeed hard to find, and although the condition has been improved by the hot weather the crop must still be described as under-sown and the acreage very short.

Russia—There have been further complaints of very bad crops in several districts of the South and Southwest. With regard to the forthcoming spring Wheat crop, which is largely grown in the Southeast and East the situation is still uncertain; recent reports have been generally favorable, but to day our Rosoff correspondent telegraphs that the market there is firm, with stocks almost exhausted Present weather in the South is favorable for harvesting Shipments last week were on a larger scale

Roumania—The drouth continues and is ruining the Corn crop, 90 to 60 per cent is said to be lost already It is confirmed that the Wheat crop is of good quality, but recent advice to a firm heresays the quantity is very short, not more than 50 to 60 per cent of its t years. Brails reports a brisk demand for the new to bring down the price of the crop. The quality of the Wheat being good, the movement outward may be early.

Hungary As dry, but weather continues fears are entertained that also the Corn crop will be damaged. Latest reports as to the yield of Wheat are again pessimistic, but the quality is excellent, and this will be some compensation for the short yield.

Argentina—Fine, general rains were reported last week, and the latest word is that the weather continues favorable for the new crops. Large quantities of Wheat are now coming forward at the ports, and shipments last week showed a substantial increase.

Australia—Mail advices from Adelaide say that the rains came in time to give the Wheat crop a fair start.

India—The Wheat crop continues to be shipped freely, and another good lot will almost certainly be dispatched this week.

France—The Ministry of Agriculture has issued its usual July report of crop conditions, and it has been quite expected, there has been much deterioration since June. The *Marche Francais* considers that the present report indicates a crop of 350,000,000, which is slightly better than the official estimate for 1903, which was a large crop of p or quality. The estimate mentioned above would indicate that so far the deterioration has not been serious, but the reports from individual sections cannot be taken very seriously. The broad facts of the situation are: A smaller yield than expected in the centre and south, but of good quality, while the improvement in northern crop promises good results, except that there are occasional complaints of scorching. It may be noted, however, that private reports and estimate- are very pessimistic.

Germany—With fine, hot weather the harvesting of Rye is making good progress, while Oats and Barley are ripening quickly too quickly, it is feared There are not few complaints concerning Winter Wheat, but the official estimate of the condition in Prussia has been further reduced, and is now only 4 per cent higher than at the same time last year. Owing to low water in rivers and canals it is difficult to forward goods to the interior except by rail, and this many importers very cautious of making fresh purchases

Spain—Crop reports are more unfavorable, and even in those parts where the promise has been considered good estimates are now being reduced

Belgium and Holland—The weather has been hot and dry This has studied the Grain crops of the first mentioned country, but in Holland it is feared the harvest will be disappointing, owing to want of rain.

THE WEATHER CONDITIONS.

Temperatures are cool, much too cool for Corn in West and Southwest Range in Illinois, Iowa and Nebraska 50 to 56, Southwest 60 to 70. Northwest 46 to 56, and Ohio Valley 56 to 64.

Indications are that the Northwest depression will extend over the Mississippi Valley and Lake region, supplanting cool and clear with cloudy and warmer weather There will be scattered showers all over the West, Northwest and Southwest.

ITEMS OF GENERAL INTEREST.

Fire, Thursday, in the business section of Herrin Ill destroyed property to the extent of $10,000.

The First National Bank of Cincinnati and the Ohio Valley National Bank have agreed to consolidate.

The White Star Line has reduced its steerage rates to $10 0 by all steamers. It is expected that the Cunard Line will make a similar reduction.

In the year ending June 30 exports are given as $69,839,135, compared with $48,076 288 in the first half of 1903 and $49,931,.92 in the first half of 1902.

The American Glue Company reports a balance of $154,429 for the year ended June 30, after deducting $34,429 for depreciation and $135,962 as a 12 per cent dividend.

The American Telegraph and Cable Company will on Sept. 1 pay the regular quarterly dividend of 1¼ per cent on its stock Books close Aug 15, and reopen Sept 1.

The stock of Flax Seed at Minneapolis on Aug. 6 was reported at 81,000 bu, against 105,000 for the week previous—a decrease of 24,000 bu. Stock last year, 730,161 bu.

The Maryland Board of Public Works, Thursday, decided to sell the interests of the State, amounting to $30,000,000, in the Chesapeake and Ohio Canal to the highest bidder.

After seven days shut-down, the rail and Bessemer mills of the Pennsylvania Steel Company at Steelton resumed in what is believed by officials of the company to be an uninterrupted run.

Bank clearings of the leading financial centers of the United States for the last week aggregated $1 809,118.5 1, a decrease of 7 7 2 per cent compared with the corresponding week last year.

The Pullman Car Works Manufacturing Company has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable Sept. 15 Books close Sept 5 and reopen Sept. 15.

WORLD'S SUPPLY OF BREADSTUFFS.

The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named:

	Aug. 1, '04. Bu.	July 1, '04. Bu.	Aug. 1, '03. Bu.
Afloat for Europe	38,710,000	45,180,000	25,550,000
In store in Europe	31,950,000	36,640,000	21,040,000
In store-Argentina	3,352,000	2,504,000	3,320,000
In store-America	37,140,000	38,603,000	40,356,000
Total	111,152,000	123,327,000	93,266,000

The decrease during July equalled 12,175,000 bu. compared with a decrease of 10,379,000 bu during June and a decrease of 10,265,000 bu during July, 1903.

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—Reports of rust in the Spring Wheat continues general in the Dakotas, and in portions of Iowa and Minnesota, and indicate that the crop has been greatly damaged, except in Minnesota, where only a portion of the Spring Wheat area has been seriously affected, a good crop being promised in other portions of that State. Harvesting is in progress in South Dakota and Southern Minnesota, but has not begun in North Dakota, where the crop is ripening slowly. Very high temperatures on the North Pacific Coast have hastened the maturity of Spring Wheat, and caused premature ripening and shriveling of the Grain in portions of Washington.

Winter Wheat—Fine weather for threshing prevailed over most of the Winter Wheat belt, harvesting of the crop having been completed in the more northerly districts except on North Pacific Coast, where it is nearly completed.

Corn—In the Ohio Valley the Corn crop, especially the late planted, is suffering more or less seriously from drouth, and rain is needed for the crop in portions of Central Mississippi and Lower Missouri Valleys. Over the central and western portions of the Corn belt, however, the crop advanced favorably and continues promising. In the upper lake districts lack of warmth and the absence of rain have checked growth greatly, the crop being generally backward. In the Atlantic Coast Districts, Corn has made vigorous growth and generally is in excellent condition.

Oats—Harvesting and threshing of Oats continued under favorable conditions.

NEW TIMOTHY SEED.

A small lot of new Seed was received Saturday and to-day it was sold at $3 00. It was Illinois Seed, bright, of very nice quality. Last year the first new Seed arrived August 6 and was from Iowa.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $25,905,914.

No export business at the seaboard to-day.

Ten packers purchased 7,900 Hogs to-day; shippers, 3,000; left over, 3,000. Market closed strong.

Local Securities were slow and changes small. The only advance of importance was 2 points in Carbon common.

Estimated receipts for to-morrow: Wheat, 82 cars; Corn, 92 cars; Oats, 247 cars; Rye, 5 cars; Barley, 5 cars; Hogs, 28,000.

Cotton in New York unsettled on covering by "shorts." The "bulls" were aggressive on the unfavorable crop report. Closing prices showed losses of 3@9 points.

Stocks in New York were bought by powerful interests and prices rallied fairly. A feature was the advance of 3⅞ on Metropolitan Street Railway. Western Railway shares gained ⅛ to ⅝. Money, 1 per cent.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 7,000	Inc. 52,000
Europe and afloat	Inc. 1,300,000	Dec. 3,000,000
Total	Inc 1,307,000	Dec. 2,948,000
Corn	Dec. 203,000	Dec. 602,000
Oats	Dec. 418,000	Inc. 798,000

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is firm, but demand only moderate. Many of the Minneapolis mills closing down.

WINTER WHEAT—Trade good and feeling a little unsettled, in sympathy with the speculative market. Prices were fully 1c higher at one time, but closed easier, with some decline from top figures reached. Demand good and trading confined to car lot fresh arrivals. No. 2 Red fresh arrivals free on board sold at $1 02¼@1 04, billed through $1 03. No. 3 Red fresh arrivals free on board sold at 98c@$1 02, with a few cars at $1 02½@1 02¾. No. 4 Red fresh receipts sold at 95c@$1 00. No Grade Red sold at 90@95c. No. 2 Hard fresh receipts sold free on board at $1 00½@1 02 and billed through at $1 00½. No. 3 Hard fresh arrivals free on board sold at 97c@$1 01½c and billed through at $1 0-, with sales at the river at 96@98½c. No. 4 Hard sold to go to store at 91c, free on board at 96@98c.

SPRING WHEAT—Was quotably firm. However, so little coming that prices were entirely nominal. No. 1 Northern fresh arrivals nominally about $1 09@1 10, and No. 2 Northern about $1 05@1 07. No. 3 Spring quotably 95c@$1 05 and No. 4 Spring at 75@95c, with a car hard variety selling at $1 05.

REGULAR WHEAT—Another enormous speculative trade, the market being even more erratic and sensitive, with fluctuations wide. The close showed new September ⅞c higher, while December lost ¼@⅜c and May gained ⅛c. There was a rush of outside buying at the start, and before the demand was satisfied new September touched $1 03, December $1 02⅛, and May $1 04. Heavy realizing and profit taking set in around these figures and prices sold off sharply 2½@3¼c. Locals evidently anticipated a reaction due, but the outside buying kept up and many of the early sellers covered, creating a stronger undertone. Cables were firm and the weather not of the best and Northwest damage claims continued to pour in. Map showed general rains in the Northwest heavy at St. Paul and Huron. In the extreme Northwest and North it was generally fair, with slowly rising temperatures. Showers generally predicted outside South Dakota. Liverpool quoted spot 1@1½d higher and futures 1½@1¾d better. Receipts there 218,000 bu. London 1@2d higher. Berlin up 1⅛c and Buda Pesth ⅞c, while Paris gained ½@1⅛c and Antwerp 1¼c. Cargoes off coast and afloat were quoted 3d higher. The strength in the Northwest was again an influential factor. Officials of the Chicago and Northwestern Railroad were credited with estimating the damage in South Dakota at 20 per cent and yield 40,000,000 bu, against 47,000,000 bu last year, the shrinkage being due almost entirely to quality. Stocks here in all positions 2,330,000 bu decreased 66,000 bu last week. Stocks one year ago 4,251,000 bu. Contract stocks decreased 2 5 9 8 bu and are now 539,282 bu, against 1,262,981 bu one year ago. *Bradstreet's* increased 1,307,000 bu, against 2,948,000 bu decrease same week in 1903. Northwestern cars were 86 larger than a year ago and primary receipts 151,000 bu in excess of last year. Kansas City and St. Louis received 500,000 bu; last year 1,8 1 00 bu. Exports were again small and no boat loads accepted at the seaboard. Market at one time rallied on reports of frost in Manitoba. Estimates at Kansas City to-morrow 353 cars. Minneapolis wired that pending a more certain outlook as to Flour demand and the price of cash Wheat all but five of the local mills have shut down indefinitely. Government weekly weather crop bulletin confirmed the recent claim of damage from rust in the Dakotas and Minnesota and reported the Winter Wheat harvest practically completed. A late Winnipeg message read: "Weather clear and warmer; looks more settled." Receipts at Duluth 84 cars and at Minneapolis 99 cars, a total of 185 cars, against 186 cars Monday, 214 cars a week ago, and 105 cars last year. Local receipts included 189 cars Winter, 2 cars Spring, no mixed, a total of 191 cars, against 209 cars last year. Included in the above were 16 cars contract grade. There were 4 cars and 25 000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 82 cars. Withdrawals to-day were 22,300 bu. Receipts at Western points were 9 3,437 bu, against 782,056 last year. At Eastern points 173,892 bu, against 300,795 bu last year. Shipments from Western points were 486,780 bu, against 245,338 last year, and from Eastern points 11,373 bu, against 425,933 last year. Shipments of Flour were 8,096 brls. Exports of Wheat in Flour were equal to 47 755 bu.

Future Deliveries of Regular Wheat—Good trade at irregular prices and closed higher.

SEPTEMBER—Old Style. Sold at $1 02½@1 04½. Opened with sales at $1 02½ to $1 03¼; sold to $1 03⅝, to $1 03⅛, to $1 04⅛c, to $1 03¾, to $1 04½, to $1 02¾, to $1 03⅜, to $1 02½, to $1 04⅛, to $1 02⅜, to $1 03, to $1 02, to $1 03⅜ and closed at $1 03⅜.

SEPTEMBER—New Style—Sold at $1 00¼@1 00⅜ and at $1 03. Opened with sales at $1 01 to $1 02, sold to $1 01½, to $1 02¼, to $1 02, to $1 01½, to $1 01¾, to $1 03, to $1 01½, to $1 02⅛, to $1 00⅞, to $1 02⅝, to $1 01, to $1 01½, to $1 0 ½, to $1 00⅞, to $1 03⅛, to $1 02, to $1 01⅞, and closed at $1 01⅞ bid.

DECEMBER—Sold at 99⅛c@$1 02⅛. Opened with sales at $1 00½ to $1 01½, sold to $1 02 to $1 01¼, to $1 02¼, to $1 01¾, to $1 02, to $1 00½, to $1 00¾ to $1 00, to $1 01¾, to 99½c, to $1 01, and closed at $1 01 bid.

MAY—Sold at $1 00⅞@1 04. Opened with sales at $1 02½ to $1 04; sold to $1 03⅜, to $1 01 to $1 02⅞, to $1 04, to $1 02¼, to $1 02¾, to $1 01¾, to $1 03⅜, to $1 02, to $1 03⅜, to $1 00⅞, to $1 02⅛ and closed at $1 02⅛.

CORN—A large trade and unsettled, nervous market, early feature being the strength of September and the weakness in the deferred futures. Later September was sold freely and prices reacted. Closing prices showed September off ⅛@¼c, while December lost ⅝c and May ¾c. Market started out higher under a fair miscellaneous demand, "shorts" covering freely and September touched 55c, acting somewhat congested. Advance was helped by interests that have purchased now for several days. Heavy realizing and profit taking followed, professionals and Provision interests selling the May. Liverpool was up ⅝d and Berlin ⅛c higher. Receipts were 350 cars, against 234 cars one year ago and but 92 cars estimated for to-morrow. Stocks here in all positions 4,868,000 bu, decreased 516,000 bu last week. Stock one year ago 6,159 0 0 bu. Contract stocks decreased 381,434 bu, and now include 2,591,472 bu against 3,296,608 bu year ago. *Bradstreet's* decreased 203,000 bu, against 602,000 bu decrease same week in 1903. Map showed heavy rains at Omaha, Des Moines, Sioux City and Kansas City. Temperatures were a little higher through the West. Showers were quite generally predicted. The weekly Government crop bulletin reported late planted suffering in Ohio Valley from drouth. Over Central and Western portions of the Corn belt crop has advanced favorably and continues promising. Southwestern markets were weaker. Western receipts 420,000 bu; last year 382,000 bu. Shipment 423,000 bu and 345,000 bu respectively. Local arrivals 271,000 bu, and shipments 331,000 bu. Loaded out of private elevators 215,700 bu and public 84,000 bu. Exports large at 139,000 bu, and no boat loads accepted at the seaboard. Cash demand here moderate and sales small. Car lots firm, about 1@2c higher, with a good demand. No. 2 closed at 53¾c. No. 2 Yellow closed at 55¼c. No 3 closed at 53½c. No. 3 Yellow sold at 55½@56c and closed at 55c. No. 3 White sold at 54¼c. No. 4 sold at 51¾@55½c. No Grade sold at 54c.

Corn by sample—Was in good demand with the offerings small. Feeling was stronger and prices 1@2c higher early, but the close easy. Sales on track and free on board: No Grade sold at 42@50c. No. 4 at 52½@53¼c. No. 3 at 54¾@56½c. No 3 Yellow at 55⅛@57c. No. 2 at 55½c. No. 2 Yellow at 56¼c. No. 3 White at 54½@55c. No. 2 White at 55@55¼c. Billed through: No. 4 at 52½@54½c. No. 3 at 53¾@54½c. No 3 Yellow at 55@55¼c. No 2 Yellow at 55½c. No. 3 White at 54c.

Future Deliveries of No. 2 Corn—Active and stronger early but weakened later and closed ⅛@¼c to ¾c lower.

AUGUST—Quotable about ¾c under September. Sold at 53⅜@53¾c, and closed nominally at 52⅞c.

SEPTEMBER—Sold at 53⅛@55c. Opened at 54¼c to 54½c, and sold at 54c, to 54¼c, to 54c, to 55c, to 54¼c, to 54⅝c, to 54c, to 54⅜c, to 53⅞c, to 53⅝c, to 53½@53⅝c, and closed at 53½@53⅝c.

DECEMBER—Sold at 49½@51¼c. Opened at 50¾c to 51¼c, and sold at 50⅝c, to 50⅞c, to 50⅝c, to 50⅞c, to 50¼c, to 51¼c, to 50@50⅛c, to 50¼c, to 50c, to 50¾@50⅝c, off to 49½c, to 49⅞c, and closed at 49⅞c asked.

MAY—Sold at 48⅞@50½c. Opened at 50⅛c to 50½c, and sold at 49⅞c to 50⅛c, to 49¾c, to 50⅛c, to 49¾c, to 50c, to 49⅜c, to 49⅝c, to 49½c, to 49¾c, off to 48⅞c, to 49⅛c, and closed at 49⅛c bid.

OATS—Were active and advanced ⅜@½c with Wheat, but reacted when it broke and closed steady to ⅛c higher. The feature was the covering of a big line of September and late buying of May. Crop reports were "bearish." Arrivals 640 cars, with 105 contract. Estimates to-morrow 247 cars. Withdrawals were 2,000 bu and seaboard clearances 28,000 bu. Contract stocks decreased 10 0 0 bu last week and are 314,000 bu. Stocks in public and private elevators increased 129,000 bu and are 1 001 000 bu. The small gain in the face of large receipts and small shipments was attributed to the fact that many cars failed to get to the elevators. Seaboard clearances were 28 000 bu. Car lots to go to store were ¼c to 1¼c higher. No 4 White new sold at 33¼c. No. 3 White new at 33⅜@34¼c. Standard at 34@34¼c. No. 2 at 31½c. No. 2 White at 34c. Standard in store closed at 33⅝@33¾c. Cash sales were 0 000 bu.

Oats by sample were in active demand and ½@@1¼c higher. Sales on track and free on board: No Grade new at 31½@33½c. No. 4 old at 32c. No. 4 White new 32½@34c; old 35@37. No 3 new 31½@32c. No. 3 White new at 33¼@35¼c; old at 35¼@38c. Standard new at 34@35c; old at 42c. No 2 new at 32@32½c. No 2 White new at 34@35c. Billed through: No Grade new at 29@33c. No 4 new at 30½@31c. No. 4 White new at 33c. No. 3 new at 31@31¼c. No. 3 White new at 33@34c; old at 34½@36c. Standard new at 33½@34¼c; old at 35½@36c. No 2 new at 31@32½c. No 2 White new at 33½@35c. At the river: No Grade new at 31¼c. No. 4 White new at 32c; old at 31@34c. No 3 White new at 32½@33c; old at 31¼@35c. Standard new at 32¾@33½c. No. 2 White new at 33c.

Future Deliveries of Contract Oats—Were active and higher.

AUGUST—Closed at 33⅝c.

SEPTEMBER—Active. Sold at 33@33¾c. Opened at 33⅛c to 33⅜c, sold to 33c, to 33¾c, to 33⅝c at close.

DECEMBER—Active. Sold at 31@34⅝c. Opened at 34⅜c, sold to 34¼c, to 34⅝c, to 34c, to 34⅝c, to 34¼c at close.

MAY—More active. Sold at 35¾@36c and at 36½c. Opened at 36⅛c to 36¼c, sold to 35⅞@36c, to 36½c, to 36¼c at close.

RYE—Was firm early, and prices 1c higher, but eased off and for September declined 1c. A fair demand existed, both for cash and futures. There were 18 cars received. There were no withdrawals from store here and no export clearances from New York. Old No. 2 in store sold at 73½c and new fresh arrivals free on board sold at 71@72c. A car of No Grade sold at 66c.

Future Deliveries of No. 2 Rye—In fair demand. September opened at 71c declined to 70c, and closed at 70c. Sales of 1,000 bu lots were made at 70c and 70½c.

BARLEY—Only a few cars of either old or new Barley offered. There was at the same time enough for the demand. A number of samples of new shown and there are said to be fair shipments on the way. Buyers are not ready yet to do much and new Barley is liable to come in out of condition unless it has been properly cared for. There was a car of heating sold at 37c, and there were other cars sold at 41@42c, the latter light weight, dirty, but nice color for some and better weight, but not so good color for the other. No really choice on sale to-day. Inspected postings were 8 cars, 3 cars of which were new. Old Barley had a quotable range as follows: Screenings, 29@37c for poor to choice. Feed Barley, common to good 29@37c. Malting, low grade, was quotable 38@40c; fair to good, 42@45c, and choice new 47c up to 50c. Fancy possibly above.

SEEDS—A little more animation appeared in the speculative Timothy market, with easier prices prevailing. Timothy all round was heavy. In other particulars the market was inactive and unchanged.

Timothy—More speculative interest was shown. There was a little more new crop, September delivery offered. Some was on country account, apparently, and some by local operators. A 12½c lower figure was reached, compared with yesterday's quotations; there followed 5c reaction from the inside. Trading was at $3 00@3 05 but one sale at the inside. Opened at $3 05 and closed at $3 05 asked with $3 02½ bid. Market for cash Seed easy. Some contract old offered and said to have been sold, market quoted as about $3 00, or 5c below recent asking price. Cash Seed nominally easy with country lots quotable at $2 00@3 00 for low grade to fancy; choice about $2 80@2 90, fair to good Seed $2 65@2 75 and rough at $2 15@2 65.

Flax—Market nominally steady with former prices bid, but no trading for the reason that no Seed was offered, either spot or for futures delivery. Receipts 1 car or 800 bu; taken out for shipment 32,500 bu going by lake. At Minneapolis 4 cars were received and at Duluth 4 cars. No. 1 Northwestern or No. 1 from the Northwest remained at $1 20½ bid. No. 1 salable at $1 17. Rejected nominal at $1 13@1 16 depending on quality. September, $1 17 bid, not offered.

Clover—No change quoted. Market still inactive. Advices from outside were on the side of firmness. New crop, October delivery contract grade, nominal at $12 00@12 25. Contract spot Seed was quoted at $11 50. Country lots, common to choice, $8 00@11 00, fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00, poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@10 75.

Other Seeds—Mustard nominally 75c@$1 10 for common to choice. No quotations for other lines.

HOG PRODUCTS—Trade was fairly active in the market for Hog Products, and the feeling was unsettled. Market opened rather easy, with fair offerings and a few sales were made at slightly lower prices but firmed up in sympathy with Hogs and Grain, and "shorts" were inclined to provide for a portion of their outstanding contracts. Prices were advanced moderately on all the leading articles. At the advance the offerings were somewhat enlarged, while the demand was less urgent, and prices receded to inside figures, and closed rather steady. Outside orders were moderate. Packers credited with fair sales. Hogs were in fair supply, and prices ruled higher. Receipts at the leading Western packing points were estimated at 58,600, compared with 61,500 one year ago. Foreign markets were quiet and Bicks quoted 6d lower. Domestic markets were steadier. Receipts of Products were good—of Lard and Meats about 22 cars. Shipments were moderate—of Lard and Meats about 95 cars. Shipping demand was good and offerings were fair. Sales were somewhat larger, and mainly on domestic account, and prices inclined in favor of sellers.

Mess Pork—Rather a good business was reported in Mess Pork, and the market was somewhat unsettled. Offerings were fair, and the demand was rather active. Market opened with a little pressure to sell, and a few trades were made at 2½c decline, but the demand was active, and a stronger feeling was developed. Prices rallied 15@17½c. At the advance, there was some pressure to sell, and prices irregularly receded 20@22½c, and the market closed comparatively steady around inside figures. Shipping demand was light, and the offerings were small. Cash lots quotable at $12 37½@12 40.

SEPTEMBER—Offerings were fair, and the demand was moderately active. Sales ranged at $12 37½@12 60. Opened at $12 42½, sold to $12 5 , to $12 57½, to $12 60, to $12 47½, to $12 55, to $12 45, to $12 50, to $12 37½, to $12 40, to $12 37½@12 40, and closed steady.

OCTOBER—In fair request and offerings were not very liberal. Sales were made at $12 45@12 67½. Opened at $12 47½ to $12 50, sold to $12 67½, to $12 52½, to $12 55, to $12 45, and closed steady.

JANUARY—Rather quiet, with small sales at $12 90@13 00, and closed at $12 90.

Lard—Only a fair trade was reported in the Lard market, and the feeling was easier. Offerings were fair, and the demand was moderate. Foreign advices were unchanged. Market opened rather easy, and prices were about 5c lower. Later, the feeling was steadier, and prices advanced 5c, but toward the close receded 2½c, and the market closed rather steady. Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6 67½@6 70. Loose lots in fair request with limited offerings. Prices steady at about 50c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 25. Neutral in only limited demand, with fair offerings. Prices quotably steady at $7 37½@7 50 for No. 1, and $7 00@7 12½ for No. 2.

SEPTEMBER—In fair request and offerings were not very large. Sales were made at $6 77½@6 85. Opened at $6 80, sold to $6 85, to $6 77½, and closed steady.

OCTOBER—Demand only moderate and offerings were moderate. Sales were made at $6 85@6 92½. Opened at $6 85, sold to $6 92½, to $6 85, and closed quiet.

DECEMBER—Quiet, with small sales at $6 75.

JANUARY—Demand was moderate, and offerings were fair. Sales were made at $6 87½@6 92½, and closed steady at $6 87½.

Short Rib Sides—A fair business was reported in Short Rib Sides, and the feeling was stronger in a general way. Offerings were not very large, and the demand was fair. Market opened with a little pressure to sell, and prices ruled 2½@5c lower. Later, the feeling was firmer, and prices rallied 7½@10c. Toward the close, the market was not so strong, and prices receded 7½@10c and the market were steady. Shipping demand was moderate, and offerings were not very large. Cash lots quoted at $7 65@7 65, according to weight.

SEPTEMBER—Demand was fair and offerings were moderate. Sales were made at $7 65@7 75. Opened at $7 65 to $7 67½, sold to $7 75, to $7 65, and closed steady.

OCTOBER—In moderate request and offerings were fair. Sales were made at $7 60@7 70. Opened at $7 60, sold to $7 70, to $7 60, and closed quiet.

JANUARY—Called for moderately and offerings were light. A few trades made at $6 6 @6 75, and closed quiet at $6 75.

Other Meats—Trade was fairly active, and mainly on domestic account. Exporters bought only sparingly. Offerings fair, and the inquiry rather good. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in good request, with only moderate offerings, and prices favored sellers. Dry Salted Meats were in fair demand, with moderate offerings, and prices were higher. Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows: GREEN—Hams av 10@12 lbs, 9¾@9⅞c; 14@16 lbs, 9½@9⅝c; 14@16 lbs, 9¼@9⅜c; 18@20 lbs, 9¾@9⅞c; Skinned Hams, 11½@11¾c. Shoulders 7⅜@7½c. Picnic Hams, 7¼@7½c. Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 10⅜@10c; 12@14 lbs, 9¾@9⅞c, 14@16 lbs, 9¾@9⅞c cash, 9¾@10c August, 18@20 lbs, 10@10¼c; Skinned Hams, 11½@11¾c cash, 11⅝@11¾ August, Shoulders, 7⅜@7¾c; Picnic Hams, 7¾@8c, Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7⅝@7¾c. Short Fat Backs, 6¾@7¾c, Short Clear Backs 8@8¼c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c, Extra Short Rib Sides 7½@7¾c, Extra Short Clear Sides, 7½@7⅝c, Rough Sides, 7⅜@7⅝c; Plates, 5¼@5⅞c, Jowl Butts, 5@5¼c. EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10½c, Cumberland Sides, 8@8¼c; Long Clear Sides 8@8¼c; Extra Long Clear Sides, 8@8¼c; Short Clear Sides, 8@8¼c. SMOKED—*loose*—Hams 11¼@11¾c, Skinned Hams, 12¼@12¾c; Shoulders, 8⅞@9c; Picnic Hams, 9@9¼c. Short Rib Sides, 7⅞@8c, Rough Sides, 7⅞@8c; Short Clear Sides, 8@8¼c. Extra Short Clear Sides, 7¾@7⅞c; Breakfast Bacon, 11½@12c.

CASH PRODUCE TRANSACTIONS.

Lake Freights—There were no boats on the market for loads. Demand was not large. Rates held nominally 1⅛c for corn to Buffalo.

Bran—Market steady. Sales were: FREE ON BOARD—1 car at $16 00.

Winter Wheat—IN STORE AND TO GO TO STORE—No sale reported.

ON TRACK—No. 4 Red—1 car at 96c, 1 car at $1 00¼, 1 car at $1 02, 1 car at $1 02½, 1 car at $1 02¾. No. 2 Red—1 car at $1 02¾.

FREE ON BOARD, SWITCHED AND DELIVERED—No Grade Red—1 car Rye mixed at 90c, 1 car hot at 95c. No. 4 Red—2 cars at 95c, 2 cars at 97c, 2 cars at 98c, 2 cars at 99c, 4 cars at $1 00. Rye—IN STORE AND TO GO TO STORE—No. 2—1,000 bu old in store, at 73½c.

ON TRACK—No. 2—1 car at 72c.

FREE ON BOARD—No. 2—1 car at 71c, 5 cars at 72c. No Grade—1 car at 66c.

Barley—IN STORE OR TO GO TO STORE—No sales.

ON TRACK—By sample—1 car at 45c.

FREE ON BOARD OR SWITCHED—By sample—Screenings—1 car at 32c. Barley—1 car new heating at 37c, 2 cars old at 38c, 2 cars at 40c, 2 cars new at 44c, 1 car new at 45c.

Timothy Seed—Sales—per 100 lbs—10 bags new at $3 00, 1 car contract old on p. t. Future delivery September—1 car at $3 00, 1 car at $3 02½, 6 cars at $3 05.

Flax Seed—No sales.

Clover Seed—No sales.

Green Hams—Sales 50,000 lbs av. 14@16 lbs on p. t.

Sweet Pickled Hams—Sales 5,000 lbs av. 16@12 lbs on p. t., 18,000 lbs av. 12@14 lbs on p. t., 25,000 lbs av. 14@16 lbs on p. t.

Sweet Pickled Bellies—Sales 56,000 lbs clear av 8@10 lbs on p. t., 10,000 lbs av. 10@12 lbs on p. t.

Dry Salted Shoulders—Sales 28,000 lbs av. 1 @12 lbs on p. t.

Rough Sides—Sales 28,000 lbs av. 60 lbs on p. t.

Extra Short Rib Sides—Sales 28,000 lbs av. 30@35 lbs on p. t., 140,000 lbs av. 35@40 lbs on p. t.

Short Clear Sides—Sales 28,000 lbs av. 45@50 lbs on p. t.

Rib Bellies—Sales 26,000 lbs av. 18@20 lbs on p. t.

Dry Salted Plates—Sales 10,000 lbs av. 14@8 lbs on p. t.

Smoked Meats—Sales 23,000 lbs Rough Sides av. 30@35 lbs on p. t.; 25,000 lbs do av. 40@50 lbs, on p. t., 25,000 lbs Extra Short Rib Sides av. 30@35 lbs, on p. t.

Oleo-Stearine—Sales 60,000 lbs at 7½c.

Cooperage—Demand light and offerings not very large. Market rather quiet. Ash Pork Barrels quotably steady at 95@97½c. Oak Pork Barrels were quiet at $1 05@1 07½. Lard Tierces in fair demand and prices steady at $1 25@1 27½. Sales were 500 Lard Tierces at $1 25.

High Proof Spirits—Steady at $1 28 for finished goods.

Hay—Receipts, 397 tons; shipments, 21 tons. Offerings only moderate, but the demand continues light. Market quiet and dull. Choice Timothy quotable at $14 00@15 00. No. 1 Timothy at $12 50@13 50. No. 2 Timothy at $11 00@12 00. No. 3 Timothy at $8 00@10 00. Choice Prairie at $11 00@11 50. No. 1 Prairie at $9 50@11 00. No. 2 Prairie at $8 00@9 00. No. 3 Prairie at $7 00@7 50. No. 4 Prairie at $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay.

Sales were: ON TRACK—Not Graded Timothy—1 car at $9 00, 2 cars at $10 50, 1 car at $11 00, 1 car at $12 00. Not Graded Prairie—1 car State, heating, at $8 50, 1 car good at $8 00, 1 car Kansas at $10 00, 2 cars at $10 50, 2 cars at $11 00.

FREE ON BOARD AND SWITCHED—Not Graded Timothy—2 cars at $12 00.

Straw—Rye Straw quotable at $6 50@7 00, Wheat Straw at $6 00@6 50, and Oat Straw at $6 00@6 50.

Sales were: ON TRACK—Tangled Rye—2 cars at $7 00.

FREE ON BOARD AND SWITCHED—Wheat—1 car at $6 00.

WORLD'S EXPORTS OF BREADSTUFFS.

The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1904, to August 6, 1904 compared with the corresponding period in 1903.

Countries—	1904, bu.	1903, bu.
America	8 616,000	15,028,000
Russia	9,696,000	10,224,000
Danubian	3 410,000	3,000,000
India	9 110,000	5,256,000
Argentina	6 240 000	6,664,000
Australasia	1 950 000	....
Austria-Hungary	8 000	442,000
Chili, North Africa	1,008 000	888,000
Totals	39,480 000	43,402,000

IMPORTS OF FLOUR AND WHEAT.

[From the Liverpool Corn Trade News.]

The following table exhibits the imports of Flour and Wheat into and on passage to the following countries from August 1, 1903, to July 23 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bu	1902-3, bu.
United Kingdom	231 792 000	210,104,000
France	18,232 000	26,928,000
Belgium	54,.88,000	51,800,000
Holland	50 728 000	53,712,000
Germany	28,021,000	29,808,000
Italy	45 568 000	53,680,000
Spain	5,976 000	3 952,000
Portugal	1,13 000	2,8 8,000
Greece	3,944,000	6,440,000
Scandinavia	13,136 000	11,176,000
Austria-Hungary	120 000	784,000
North Africa, etc	1,156,000	1,864,000
Other countries	58,416 000	69 216,000
Totals	510,512 000	582,232,000

EXPORTS OF CORN.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Corn from the following countries from November 1, 1903 to July 23 1904, compared with the corresponding time in 1902-3

Countries—	1903-4, bushels.	1902-3, bushels.
America	33, 04,000	68,136,000
Russia	12,184,000	11,488,000
Danube and neighborhood.	29,608,000	22,944,000
Argentina	44 104,000	26,928,000
Other Countries	476 000	2,144,000
Total	119,856,000	131,640,000

EXPORTS OF OATS.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Oats from the following countries from August 1, 1903, to July 23, 1904, compared with the corresponding time in 1902-3.

Countries—	1903-4, bushels.	1902-3, bushels.
Russia	29,128,000	71,496 000
America	2 368,000	8,088,000
Sweden	104,000	64,000
Roumania and Turkey	22 808,000	11,168,000
Algeria and Tunis	3,960,000	5,160,000
Total	57,368,000	95,936,000

EXPORTS OF RYE.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Rye from the following countries from August 1, 1903, to July 23, 1904, compared with the corresponding time in 1902 3:

Countries –	1903-4, bushels	1902-3, bushels.
Russia and Danube	36,224,000	61,832,000
America	696,000	5,584,000
Germany	6,744,000	4,944,000
Total	45,644,000	72,360,000

CARS OF GRAIN FOR JULY.

The car loads of Grain brought to Chicago by various Western roads during July, compared with the receipts in the corresponding period for three preceding years, are as follows:

Roads.	1904.	1903.	1902.	1901.	P C 1904

BROOM CORN ACREAGE SHORT.

ARCOLA, Aug 7—With the harvest of Broom Corn less than a month away farmers throughout this section, and broom manufacturers generally, are making anxious inquiries as to the amount of territory planted to Broom Corn this year. The Arcola *Record*, which has secured reports from all sections of the district, says that in Illinois the acreage this year is a trifle less than that of last but that with favorable conditions from now till harvest time the tonnage may be equal to last year's.

Out of a total of twenty-seven townships canvassed only five show an increase over last year's acreage These townships are Arcola Camargo, Hugo and Arthur, all of Douglas County, and Humboldt of Coles County.

All the other townships report decreases as compared with last year ranging from 11 per cent in Brocton and Greenup to 25 per cent in Hillsboro, Pierson, Atwood and Casey Reports on the amount still in farmers' hands unsold show a total of 1,100 tons

MANITOBA WHEAT CROP LOOKS GOOD.

[From the Winnipeg Commercial, Aug 8]

We do not profess to have special information as to the standing of the crop south of the line but we do know that the prospect for the crop in Manitoba and the Canadian Northwest is on the whole very promising at the present date for a yield of from 10 0,000 to 15,000 000 bu larger than last year. The crop is a week to ten days late The weather at seed time and during the growing time has not been equally favorable over all districts but in the last two weeks the weather has been generally very favorable everywhere so that in the aggregate the prospect is good The bulk of the crop is now at the filling stage and it has still to run the gauntlet of crop accidents, but with favorable weather and no accident for the next four weeks a full average in yield and quality would be assured At the present writing we consider the prospect under a continuance of favorable weather good for a yield of 65,000,000 bu

THE WEATHER CONDITIONS.

Rains general West and Northwest: thunderstorms and heavy precipitation St Paul, .78, Huron, 1 54 Soo City, 1.10, Omaha 1 14, Des Moines, 1 00 La Crosse 66, and raining Clear and cool in Ohio Valley. Raining with .6 inch at Kansas City Partly cloudy Southwest

Heavy rains cover most of Minnesota and Dakotas, also Iowa, Nebraska, and parts of Missouri, while light rains extend up to the Canadian line. It is clear in Ohio Valley and most of the Southwest

Indications are for showers and thunderstorms over the Mississippi Valley and lake region to-day and to-night, possibly clearing and cooler to-morrow.

ITEMS OF GENERAL INTEREST.

There was $119 530 in Specie received at New York, Monday from France

The French Rye crop, according to the official report for July 1, is estimated at 54,000,000 bu, against 57,160,000 bu last year.

Prices on refined Sugars were advanced 5 points by one New York refiner, It is 5.10c New York less 1 per cent for cash.

Application has been made to the New York Stock Exchange to list $6,500,000 additional common stock of the Chicago Great Western Railway.

Fire totally destroyed Hazlett Bros' poultry packing establishment at Rochester, Ind, Sunday. The buildings and contents were valued at $25,000

From Russia and the Danube the exports of Flax Seed from Aug. 1 to July 16 have amounted to 4,632,000 bu, against 5,198,000 bu in the previous year, and 2,4 0,000 bu in 1901

An official bulletin for Italy, covering the period 10th to 20th July, says that dry, hot weather in Northern and Central Italy, also in some southern districts, was damaging the Corn crop.

Average price of good Beef Cattle at Chicago for the past week, $5 35 the lowest week in over two months, 15c lower than the previous week, 80c lower than two weeks ago, 55c higher than a year ago, and $1 40 lower than two years ago

Porter Bros Company, the San Francisco Fruit firm which failed a little over a year ago with liabilities of $1,900,000, has made a proposition for the composition of its debts with its creditors. According to the terms of the offer creditors will get 24c on the dollar.

The shipments of Flax Seed from India from April 1 to date amounted to 9,624,000 bu (Calcutta 6,080,000 bu and Bombay 3,544 000 bu), against 9,592,000 bu last season (Calcutta 5 920,000 bu and Bombay 3,672,000 bu) and 9 472 000 bu in 1902 (Calcutta 5,464,000 bu and Bombay 3,0 8 000 bu).

Saturday's average cost price of Hogs at Chicago was $5 31, against $5 29 Friday, $5 51 a week ago, and $5 44 a year ago. Average cost for the week, $5 33, against $5 48 the previous week, $5 80 a year ago, $7 28 two years ago, $5 73 three years ago, $5 30 four years ago, and $4 45 five years ago.

The receipts of Flax Seed at Bombay for the week ended June 30 amounted to 5,273 tons, against 6,958 tons in the previous week and 3,364 tons in the same week last year. The total receipts at Bombay from Jan 1 to June 30 amounted to 145,099 tons, against 133,647 tons in the same period last year.

East bound shipments of the past week are as shown in the following table.

	Flour, brls.	Grain, bu.	Prov. tons.
Past week	59,596	958,000	16,526
Previous week	82,201	1,193,000	10,647
Last year	68,349	535,000	27,5x7

Over $2,000,000 of the American Cigar Company 4 per cent notes which mature in 1912 have recently been sold to private investors. These notes are prior in their obligation to the $158,000,000 Consolidated Tobacco Company bonds, as the notes are guaranteed both as to principal and interest by the American Tobacco Company and the Continental Tobacco Company

Bradstreet's says "Bank clearings in July showed a gain over those of June, but fell considerably below those of July of the last three previous years. The total clearings of ninety-two cities in the United States for July aggregated $8,619,016,544, a gain of 7 6 per cent over those of June, but a decrease of 11.3 per cent from those of July a year ago, and of 15 per cent from July, 1902."

The German Consul at Moscow reports favorably of the Spring Wheat crop of Eastern Russia, where the crop is extensively grown Rye is a satisfactory crop except in Tula, Oats and Barley good, both in the Volga region and central governments. Grass crops poor The Consul at Kieff says that except for the southern districts of Kiew, Poltava and Charkoff, a medium harvest is expected in the southwest of Russia

Top and average weekly Cattle prices at Chicago for periods mentioned

	Past week. Top	Past week. Av.	Prev week. Top	Prev week. Av	Year ago. Top.	Year ago. Av.

Still Bulls	4 .0	4 .0	4 30	4 30	4 25	4 20

The San Francisco *Weekly Commercial News* of Aug. 4 says "The harvest in the State is nearing completion, and all sections report very light returns, but we will derive a good deal of assistance in the way of supplies from the North, which section has already commenced shipping to the southern part of this State A Seattle report states that harvesting in Washington is 50 per cent completed and the returns point to a crop of 25,000 0.0 bu

Corn Trade News, of July 27, says, "We hear from Budapesth that the hot weather continues, and if rain does not come soon Corn will give only half a crop Private estimates for Wheat point to 20 per cent less than last year's crop, which means roundly 32,000 000 bu less and agrees with the official indication, also private estimates for Rye and Barley agree with the official, but the Oat crop is unofficially reckoned 40 per cent worse than last year's, which would give a crop fully 8,000 0 0 bu below that indicated by the officials"

The Chicago, Rock Island and Pacific Railroad is said to be behind a scheme to build north and south lines of railroad through the Wheat belt of Kansas, connecting on the north with the through line to Denver and the Northwest and on the south at Enid, for the Gulf of Mexico points. It is said that the construction of the proposed Gulf, Hutchinson and Northwestern and the Denver, Enid and Gulf Railroads contemplates corralling the bulk of the enormous Wheat traffic from the Wheat belt of Kansas for the Rock Island Railroad Company. Part of the preliminary survey is said to have been made

The *Agricultural Gazette* of July 25 says. "So rapidly has the hot drouth hurried on the Grain crops that Winter Oats in many places, and a little Wheat in a few early districts, have been cut, while harvest will begin this week weather permitting, on a considerable scale. Up to Saturday night there had not been as much as one-tenth of an inch of rain in July in many parts of the country, and we imagine that such a register for the whole of the month would be a record The Grain crops are standing up well for the reaping machine, and we hope they will not be lodged as they were last season Rain fell in the North and West on Saturday and in London this morning."

Four new Iron companies have been organized by the United States Steel Corporation for the purpose of holding and acquiring ore lands in Minnesota. They are The Braddock Iron Company, the Duquesne Iron Company, the Homestead Iron Company and the Allegheny Iron Company, each with a capital of $50 000 and each with headquarters at Duluth It is understood that the companies were formed for the special purpose of acquiring Minnesota State ore lands under the liberal laws governing leases by the State government to home corporations. For the purpose of meeting all the requirements the four companies were organized under the laws of Minnesota.

President Stuyvesant Fish of the Illinois Central, who recently made a tour of the system, has the following to say regarding his trip: "In a broad, general sense, the crop situation is satisfactory. Particular crops may be deficient in some localities, but shortage here is made up by abundance there, or perhaps the very section in which Wheat has been poor shows excellent prospect for Corn. To form a fair idea as to the business prospects, based on the crops, it is necessary to consider not only Wheat, Corn and Cotton, but also Sugar, Rice, Tobacco, Oats, Hay, Fruits, and the minor crops—not in a comparatively limited section, but over the wide area tributary to the Illinois Central system When viewed in that way, the outlook is encouraging. The indications are that we shall have a year of good business. Sentiment throughout the country which I visited is cheerful."

A New York dispatch says: "There is no truth in the report from Chicago that the Minneapolis, South Dakota and Illinois Railroad Company, said to have been recently chartered, represents a plan of Edwin Hawley and his associates to consolidate the Minneapolis and St. Louis, the Iowa Central, and the Des Moines and Fort Dodge Railroad Companies. The new company was not formed in the interests of the Hawley party. Although no direct official statement has been made regarding the matter, it is generally understood that Mr Hawley and his associates own a controlling interest in the Des Moines and Fort Dodge Railroad. It may be stated on good authority, however, that as yet they have not decided on what disposition they will make of the property. The new interests cannot get natural control of the property until the expiration of the lease of the Rock Island on Jan 9."

Incorporations in the Eastern States of new companies having $1,000,000 stock or over show a total authorized capitalization of about $61,300,000 for July. This is the smallest aggregate of capital since February of this year, and is far below the amounts reported for May and June The Southern Cotton Corporation, organized under New Jersey laws with an authorized capital of $20,000,000, accounts for about one-third of the July total. The incorporations for the month were distributed as follows:

New Jersey	$31,500,000
Maine	16,550,000
Pennsylvania	8,074,000
Miscellaneous	5,250,000
Total	$61,374,000

The figures are far below those of last year and are insignificant as compared with those of the boom days in the Industrials.

The announcement that the Vanderbilt interests as represented by the New York Central is negotiating for many trolley lines in the interior of the State means, it is said, that ultimately the Hudson River division of the Central will be operated by electric power. There is authority for the statement that the Vanderbilts intend to turn the entire West Shore Railroad between Buffalo and Utica into an electric line, and furthermore that large sections of the West Shore tracks between Utica and Albany will be used by electric traction companies controlled by the New York Central. From Albany as far south as the city of Hudson there is an electrical line controlled by a New York capitalist, who is associated with the Horace Andrews syndicate Ultimately the Hudson River division of the New York Central will be equipped with electric power from New York to Hudson, so that it will be possible to run electric cars through from New York to Buffalo.

Dividends on industrial stocks in August this year will be about $5 000,000 less than in the same month last year. Part of the decrease is due to the suspension of the dividend on United States Steel common and partly to the suspension of the Allis-Chalmers preferred and the Car and Foundry common payments. The Industrial dividend payments for the month compare as follows with those of the preceding months this year and for two years back:

	1904	1903.	1902.
January	$25,779,934	$23,315,803	$27,151,185
February	19,384,644	18,397,212	17,450 722
March	21,891,635	31,283,109	29,968,561
April	22,594,691	19,872,919	20 089,182
May	16,740,256	21 025 697	18 793,981
June	15,841 409	18,320,877	20 058,622
July	24,846 559	25,443 651	22,313,769
August	13,573,851	18 624,289	18,815,7.8
Total	$160,403 086	$179,783,857	$175,271,680

The *Corn Trade News* of July 28 says: "Storms, with rather heavy rains, have relieved the excessive heat and drouth in France, but growers have soon had enough of the wet weather and want it fine again for the finish of harvest. The work has not been much hindered, however, by change of weather. There is no important change in the general situation, except that we have to-day rather a bad report concerning the important Northern crop Our correspondent says the ears are well filled and good quality can be expected, but the plant is very thin on the ground, and he learns from reliable sources that the outturn will be much below previous estimates, at the utmost an average and most likely short of an average. From other parts reports continue to say that the yield is inferior to last year's, but the quality leaves nothing to be desired, the Wheat generally being dry, with good weight and quality. The *Marché Français* says that if the late portion of the crop is secured in good condition there will be enough for home consumption, without reckoning any reserves carried over from the season now closing At yesterday's Paris weekly market many samples of new Wheat were shown, the same being of fine quality and good weight."

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year:

Articles.	Receipts. 1904.	Receipts. 1903.	Shipments. 1904.	Shipments. 1903.

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $28,361,170.

No export business at the seaboard to-day.

Gross earnings of the New York Central for July were $6,443,618, a decrease of $405,845.

Local Securities were slow and without features of interest. Price changes were limited.

Ten packers purchased 18,600 Hogs to-day; shippers 5,000, left over, 5,000. Market closed weak.

St Louis "shorts," who defaulted on July Wheat at $1 10 have secured an award of 94c as a settling price.

Chicago Board of Trade memberships have advanced $200 of late. Sold Tuesday, at $3,350 net to the buyer.

Average cost price of Hogs at Chicago, Tuesday, was $5 44, against $5 39 Monday, $5 27 a week ago, and $5 49 a year ago.

Estimated receipts for to-morrow: Wheat, 89 cars; Corn, 127 cars; Oats, 252 cars; Rye, 6 cars; Barley, 4 cars; Hogs, 22,000.

A report from North Dakota says: "Crops not worth cutting, am going to Duluth to-night to purchase next year's seed."

Minneapolis had its first car of new Spring Wheat, Tuesday. It was said to have come from Nebraska, and graded rejected.

Cotton in New York was advanced early after a lower opening, but reacted on profit taking. Closing sales were 3@6 points higher.

The American Coal Company has declared the usual semi-annual dividend of 5 per cent, payable Sept. 1. Books close Aug. 20 and reopen Sept. 2.

Antwerp Cables says: South Russia Wheat crop large. Wheat harvested in good conditions and above expectations. Superior to last year.

Michigan report gave the yield of Wheat at 8 bu per acre, and the total yield at 5,500,000 bu, compared with 15,500,000 bu last year. Condition of Corn, 72.

The receipts of Wheat at Liverpool during the past three days were 240,000 bu, of which 136,000 bu were American. Receipts of Corn, 216,000 bu, of which 8,000 bu were American.

A dispatch credited to the *Northwestern Miller* says: "Undoubtedly there was some damage to Wheat but estimates are for slightly larger crop for the three States than last year."

The Duluth *Commercial Record* publishes returns from 14 stations which raised 2,785,000 bu Wheat last year, indicating a yield of 2,168,000 bu this year—a loss of 599,000 bu, or 21½ per cent.

The President of the Chicago Board of Trade has appointed the following committee who are to take charge of the Freight Bureau and select a traffic manager: Directors John B. Adams, James Creighton, and John T. Sickel.

Reports from Pig Iron makers are steadily growing more encouraging. According to these reports sales are not only increasing, but prices appear to be gradually hardening all along the line, and inquiries are growing more satisfactory.

The Government crop report, due to-day, will show the condition of Corn, Oats, and Flax, and the yield per acre of Winter Wheat, also farm stocks of Oats August 1 of crop of 1903. The condition of Corn last month was 86.4, and in August last year 78.7.

It is not expected that the Government crop report due late to-day will show the reported losses to Spring Wheat in the Northwest, as they have occurred mostly since Aug. 1. Some impairment, however, is likely to be shown from the condition of 93.7 last month. Last year it was 77.1.

About 571,000 bu of Wheat have been lost in Chicago during the week. Total supply reported one week ago, 2,396,000 bu; received, 989,000 bu; total supply, 3,385,000 bu. Shipments, 484,000 bu. Remaining, 2,901,000 bu. Reported on hand, 2,330,000 bu. Mislaid or used up, 571,000 bu.

Stocks in New York were active and higher. The feature was the increased interest in Tractions. There is a deal on for the merger of all traction lines in New York, and they were bought freely, Metropolitan Securities advancing 5 points. Western Railways made small gains, but failed to hold the extreme limits. Sugar gained 2 points, but reacted. Steel had a good break. Money 1 per cent.

Statistics compiled by the traffic department of the Oregon Railroad and Navigation Company show that the Wheat crop now being harvested in Oregon, Washington and Northern Idaho will approximate between 45,000,000 bu and 50,000,000 bu. This season's crop is much better than anticipated, being nearly one-third greater than the crop of last year. The acreage sown this season was much larger than that of last year.

"Our company's business has been satisfactory this season," said the president of A. Booth & Co., "especially so since the Stock Yards strike has been on. Our business since the strike was declared has increased from 60 to 100 per cent. The season with us has been about thirty days later than usual, so we are especially well prepared just now to care for the extra trade. We feel confident that we can hold at least part of the increase in the business caused by the strike, as the situation will tend to educate the people up to the value of Fish as a food product and its cheapness as compared with Meats."

A New York dispatch says: "Rumors concerning Cincinnati, Hamilton and Dayton were plentiful enough, Monday. One had it that a deal has been closed with H. B. Hollins & Co., whereby the latter agrees to furnish the money required to purchase all the outstanding preferred stock of the Cincinnati, Hamilton and Dayton Railway Company in connection with the proposed merger of the old Cincinnati, Hamilton and Dayton Railway Company, the Pere Marquette Railroad Company and the Chicago, Cincinnati and Louisville Railroad Company into a new company to be known as the Cincinnati, Hamilton and Dayton Railroad Company. Another story was to the effect that late in the week it will be finally decided whether or not any of the preferred stockholders of the Cincinnati, Hamilton and Dayton will receive consideration in the Pere Marquette-Cincinnati, Hamilton and Dayton transaction. It is understood that an offer has been made to a small clique of these stockholders to buy their stock at a point or two above market quotations, but no general offer to preferred stockholders has been made or is likely to be made."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is but little enlargement of sales, buyers refusing to follow advance and have little confidence in present values. Recent advance ranges from 5@10c.

WINTER WHEAT—Was 1@2c lower, due to the break in the speculative market. Demand good and Hard Winter did not suffer as much decline as the Red Wheat. No. 2 Red round lots in store nominally $1 01¾@1 03, and fresh arrivals car lots free on board sold at $1 01@1 02. No. 3 Red fresh receipts sold at 97c@$1 01, and billed through at $1 00. No. 4 Red fresh arrivals sold free on board at 91c@$1 00, and billed through at 97½c. No Grade Red sold at 93½c@$1 00. No. 2 Hard fresh receipts free on board sold at $1 01@1 01⅝, and billed through at 99½c@$1 00. No. 3 Hard fresh receipts free on board sold at 97½c@$1 01, and billed through at 99c.

SPRING WHEAT—Was quotably steady. However, so little coming that prices were entirely nominal. No. 1 Northern fresh arrivals nominally about $1 10@1 12, and No. 2 Northern about $1 07@1 08. No. 3 Spring quotably 94c@$1 05—one car selling at 94c. No. 4 Spring quotable at 75@90c.

REGULAR WHEAT—Trade was not as large, but market was, nevertheless, sensitiveness and fluctuated frequently within the limits established. Closing prices showed declines ranging from ⅜c to 1½c. The market started out easy with the cables, which were disappointing, and local "longs" as well as "bear" interests sold freely, causing a sharp break, but at the decline there was fair support. Northwest crop news was, in many instances, as bad as heretofore, but advices in many cases quite conflicting. Rust was reported in the Red River Valley and other messages claimed many fields in the Northwest would not pay to harvest. A St. Louis message from the *Northwestern Miller*, however said: "Undoubtedly been some damage but estimate is for slightly larger crop for three States than in 1903." Winnipeg wired: "Yesterday and this morning weather is best possible, warm and bright; forecast best possible. Damage reports, frost or rust, have no authority. Outlook is for fine large crop, never better at corresponding date confidently expect cutting early districts next week." Liverpool quoted spot steady to ⅛d lower and futures ⅜d lower. London steady to ⅜d lower. Paris advanced ⅛@¾c and Antwerp unchanged. English country markets were firm and 6d higher. A private Liverpool cable read: "Heavy buying orders here from Chicago and New York for December Wheat." Antwerp cabled: "South Russia's new crop Wheat large; Wheat harvested in good condition and above expectations, superior to last year's." There were scattered rains in Minnesota but generally fair and warmer weather was predicted for the Northwest. Primary receipts were 256,000 bu larger than a year ago. Kansas City and St. Louis received 393,000 bu, against 241,000 bu last year. Minneapolis wired stocks had decreased 300,000 bu past three days. Exports were small and no boat loads accepted at the seaboard. Michigan State report made yield 8 bu, against 16 bu, and crop 5,500,000, against 15,500,000 bu in 1903. Receipts at Duluth 16 cars and at Minneapolis 99 cars, a total of 115 cars against 185 cars yesterday, 93 cars a week ago, and 104 cars last year. Local receipts included 83 cars Winter, none of Spring, no mixed, a total of 83 cars, against 117 cars last year. Included in the above were 3 cars contract grade. There were 13 cars and 8,200 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 89 cars. Withdrawals to-day were 14,066 bu. Receipts at Western points were 807,442 bu, against 551,312 last year. At Eastern points 136,024 bu, against 240,185 bu last year. Shipments from Western points were 507,637 bu, against 240,735 last year, and from Eastern points 33,216 bu, against 307,680 last year. Shipments of Flour were 15,293 brls. Exports of Wheat in Flour were equal to 102,024 bu.

Future Deliveries of Regular Wheat—Good trade and prices lower.

SEPTEMBER—Old Style—Sold at $1 01⅞@1 03¼. Opened with sales at $1 03⅛ to $1 03; sold to $1 02½, to $1 01¼, to $1 02⅞, to $1 03¼, to $1 01⅞, to $1 02¾, to $1 02, to $1 02¼, and closed nominally $1 02¼.

SEPTEMBER—New Style—Sold at $1 00¼@1 02. Opened with sales at $1 01¼ to $1 01⅜; sold to $1 01⅝, to $1 00¾, to $1 01¼, to $1 01, to $1 02, to $1 00¼, to $1 01, to $1 00½, to $1 01⅜, to $1 00¼, to $1 01, to $1 00¾, to $1 01½, to $1 01, and closed at $1 01 sellers.

DECEMBER—Sold at 99¼c@$1 00¾. Opened with sales at $1 00¼ to $1 00¾; sold to $1 00½, to 99⅞c, to $1 00⅜, to $1 00¼, to $1 00¾, to 99½, to $1 00, to 99¼c, to $1 00¾, to 99½c, to $1 00½, to 99⅞c, and closed at 99⅞c@$1 00.

MAY—Sold at $1 00¼@1 02. Opened with sales at $1 01½ to $1 01⅞; sold to $1 01½, to $1 00⅞c, to $1 01¾, to $1 01⅜, to $1 02, to $1 01, to $1 01¼, to $1 00¾, to $1 01⅝, to $1 00¼, to $1 01⅝, to $1 01, and closed at $1 01 bid.

CORN—A good trade and nervous, unsettled market, the close being 1-16c lower for September, while December gained ⅜c and the May ¼@⅜c. Initial trades were lower with Wheat, there being general commission house selling at the opening, the bulk of the offerings consisting of "long" property. At the decline "shorts" covered freely, the distant futures being in more general demand and situation turned stronger. Receipts were small, only 105 cars, against 114 cars last year, and but 127 cars estimated for to-morrow. Liverpool quoted spot steady to ¼d lower and futures were ⅛d higher. Weather was too cool, but portions of the Corn belt had rain, and offerings from Central Illinois and Nebraska were reported freer. Showers were indicated for Kansas and Indiana. Withdrawals from store were large, 534,000 bu, about half of which was from private elevators. Local arrivals 360,000 bu and shipments 173,000 bu. Traders generally anticipated but little change in the Government report from last month, when it was 86.4 per cent, possibly a trifle lower. Aug 1, 1903, reported 78.7 per cent. Michigan State report made condition 73 per cent. Western receipts, 442,000 bu; last year, 532,000 bu. Shipments, 243,000 bu and 308,000 bu, respectively. Southwestern markets were steady. Shipping demand slow and sales 50,000. Exports were 141,000 bu and no boat loads accepted at the seaboard. Car lots were in good demand. Offerings small. Prices weaker. No. 2 closed about 53¾c and No. 2 Yellow at 55¼c. No. 3 closed at 53½c. No. 3 Yellow sold at 55@55¼c and closed at 55c. No. 3 White sold at 53¾c. No. 4 sold at 53¼@54¾c.

Corn by sample—Demand good and spot offerings moderate. Feeling weaker and prices ½@1½c lower. Sales on track and free on board: No. 4 sold at 51@55¾c. No. 3 at 53¾@54c. No. 3 Yellow at 55@55½c. No. 3 White at 54@55c. Billed through: No Grade at 50c. No. 4 at 51@53¾c. No. 3 Yellow at 54¼@54½c. No. 3 White at 53¼@53½c. No. 2 White at 54½c.

Future Deliveries of No. 2 Corn—Active and unsettled, closing 1-16c lower to ⅜c higher.

AUGUST—Inactive and closed nominally at 52¾c.

SEPTEMBER—Sold at 52⅞@54¼c. Opened at 53c to 52⅞c, and sold at 53¼c, to 54⅛c, to 54c, to 54¼c, to 53¾c, to 53⅞c, to 53⅜c, to 53½c, to 53⅛c, to 53¾c, to 53⅜@53½c, to 53⅞c, to 53¼c, to 53¾c, to 53½c, and closed at 53½c asked.

DECEMBER—Sold at 49¼@50¾c. Opened at 49¾c to 49¼c, and sold at 49⅝c, to 50¾c, to 50c, to 50⅛c, to 49⅞c, to 50c, to 49⅝c, to 50¼@50⅜c, to 50c, to 50⅛c, to 50¼c, and closed at 50¼c.

MAY—Sold at 48⅝@49⅞c. Opened at 48⅞c to 48⅝c, and sold at 49⅞c, to 49c, to 49½c, to 49⅛c, to 49¾c, to 49⅜@49½c, and closed at 49⅜@49½c.

OATS—Were more actively traded in. Prices advanced and closed at about the top, with net gains of ⅜@⅝c. Covering by the largest "shorts" and talk of reduced arrivals, also lighter offerings, were factors in making the advance. Detailed reports by States indicates damage to the Northwestern crop. Arrivals were 240 cars, all but 12 cars being new. Of contract there were 95 cars. Estimates for to-morrow 252 cars. Seaboard clearances 20,000 bu. Elevator interests bought September and sold December. Car lots to go to store were steady to ½c higher early, but closed easy. No. 4 White sold at 33c. No. 3 White at 33¾@34¼c. Standard at 34@34½c; the latter closed in store about 34c.

Oats by sample were in good request with liberal offerings. Prices were steady to ½c higher, but closed with advance lost despite the gain in futures. Sales on track and free on board: No Grade new 29@31½c. No. 4 new at 30c. No. 4 White new 33@34c; old at 34@35c. No. 3 new at 31¼c; old at 35c. No. 3 White new at 33¾@35½c, old at 33½@39c. Standard new at 34¼@35¼c. No. 2 new at 32¼c; old at 34¾c. No. 2 White new at 35@36c. Billed through: No. 4 new at 31c. No. 3 new at 31@31½c. No. 3 White new 33¾@34½c. Standard new at 34@34½c. No. 2 new at 31¼@31½c. No. 2 White new at 34@34½c. At the river: No. 4 White new at 32@33c. No. 3 White new at 32¾@33¼c, old at 35@36½c. Standard new at 33c.

Future Deliveries of Contract Oats—Were active and higher.

AUGUST—Closed at 33⅞c.

SEPTEMBER—Was freely traded in at 33⅛@34c. Opened at 33¼c to 33¼@33⅜c, sold at 33½c, to 34c, to 33⅞c at close.

DECEMBER—Active. Sold at 34⅛@34⅞c. Opened at 34⅛c, sold to 34⅞c, to 34¾@34⅞c.

MAY—Active. Sold at 36⅛@36¾c. Opened at 36⅛c, sold to 36¾c to 36⅝c at close.

RYE—The market was quiet and steady. Offerings light and demand also limited. Only three cars received. No withdrawals from store here and no export clearances from New York. No. 2 fresh receipts free on board sold at 71@72c. No. 3 to go to store sold at 69c.

Future Deliveries of No. 2 Rye—Quiet. September sold at 70c and closed at 70c sellers.

BARLEY—The market seemed to rule about steady. There were a few cars of good to choice new on sale, but market nearly bare of old. No demand especially from maltsters existed. The new Barley was taken mainly for pearling. Prices on the new crop seem to be entering about where the old stopped. Good to choice new sold at 46@50c; something of particularly fine style might bring more. Receipts 6 cars, 3 cars new. Old Barley was quotable, for the most part nominal, as follows: Screenings 28@37c for poor to choice. Feed Barley, common to good 29@37c. Malting, low grade, was quotable 38@40c; fair to good, 42@45c and new, good condition, good to choice, as above quoted.

SEEDS—Nothing of importance was done. In the case of Timothy steadiness prevailed, and Flax prices were advanced. Aside from this there was a nominal market.

Timothy—Was steady and firm. There was some call for September delivery. Outside price of yesterday was paid and bid. Very little secured. Offerings small and after an early sale more was asked. It sold at $3 05, that remained bid and $3 10 finally was asked. Contract old quoted $3 00 sellers. Cash country lots quotable at $2 00@3 00 for low grade to fancy; choice about $2 80@2 90; fair to good Seed $2 65@2 75 and rough at $2 45@2 55.

Flax—There was no advance over yesterday's prices. It was a nominal improvement following after the change in quotations in the Northwest, in which section firmness was caused by low temperature. No transactions occurred, there was no Flax for present or future delivery on sale. Neither receipts nor shipments posted for the past 24 hours. Minneapolis and Duluth each got 4 cars. No. 1 Northwestern or No. 1 from the Northwest were salable at $1 25½. No. 1 salable at $1 18. Rejected nominal at $1 13@1 17, depending on quality. September, $1 18 bid.

Clover—Feeling in this market firm, with outside quotations raised a trifle. The market was in a purely nominal state, for there was no Clover on sale. New crop, October delivery, contract grade, nominal at $12 25. Contract spot Seed was quoted at $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@10 75.

Other Seeds—Mustard nominally 75c@$1 10 for common to choice. No quotations for other lines.

HOG PRODUCTS—The general surroundings of the market for Hog Products was rather favorable to the "short" side. The receipts of Hogs were larger and prices somewhat lower, and the Grain markets were not so strong. Outside orders were moderate and local trading was only fair. Feeling was rather weak, and prices declined on all the leading articles, with little recovery from the inside figures reached. "Longs" rather anxious to sell, and packers sold moderately. Receipts of Hogs at the leading Western packing points were estimated at 82,800, compared with 83,000 one year ago. Foreign markets were quiet and Liverpool quotations were reduced 6d on Backs and Cumberland Sides. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 38 cars. Shipments were moderate—of Lard and Meats about 88 cars. Demand on shipping account was rather good, and offerings were fair. Sales were moderately large, and prices well supported.

Mess Pork—A fairly good trade was reported in Mess Pork and the feeling was easier. Offerings were moderately free and the demand was fair. Market opened easy, and prices ruled 7½@10c lower. Later, a little more steadiness was manifested and prices rallied 5@7½c. Toward the close, the feeling was easier with a little pressure to sell, and prices settled back 20@25c, and the market closed steady. Shipping demand was moderate and offerings were not very large. Cash lots quotable at $12 12½@12 15.

AUGUST—Quiet and dull, with small sales at $12 12½.

SEPTEMBER—Offerings were fair, and the demand was moderately active. Sales were made at $12 12½@12 37½. Opened at $12 30 to $12 32½, sold to $12 35, to $12 37½, to $12 27½@12 30, to $12 30, to $12 22½, to $12 32½, to $12 27½, to $12 30, to $12 27½, to $12 35, to $12 20, to $12 12½, to $12 15, to $12 12½, to $12 15, and closed steady.

OCTOBER—Offerings were fair and the inquiry was moderate. Sales were made at $12 20@12 42½. Opened at $12 35, sold to $12 42½, to $12 32½, to $12 35, to $12 20, to $12 22½, and closed steady.

JANUARY—Called for moderately and offerings were rather light. Sales were made at $12 80@$12 90, and closed steady at $12 80.

Lard—Trade was moderate in the Lard market, and the feeling was easier. Offerings were not very large, and the demand was only fair. Foreign advices were unchanged. Prices were about 10@12½c lower, and the market closed quiet. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 60@6 62½. Loose lots in fair request with limited offerings. Prices steady at about 47½c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 25. Neutral in only limited demand, with fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1, and $7 12½@7 25 for No. 2.

SEPTEMBER—Demand only moderate, and offerings were limited. Sales were made at $6 65@6 77½. Opened at $6 75 to $6 77½, sold to $6 70 to $6 72½, to $6 65@6 67½, to $6 67½, and closed steady.

OCTOBER—In only fair request and offerings were moderate. Sales were made at $6 75@6 85. Opened at $6 82½, sold to $6 85, to $6 75, to $6 77½, to $6 75@6 77½, and closed steady.

JANUARY—Quiet and steady, with fair sales at $6 80@6 82½ and closed steady.

Short Rib Sides—A fair business was reported in the market for Short Rib Sides, and the feeling was easier. Offerings were fair, and the demand was only moderate. Trading largely local. Prices declined 5@7½c on the whole range, and the market closed rather steady at inside figures. Demand on shipping account was light, and offerings were moderate. Cash lots were quotable at $7 50@7 62½, according to weight.

SEPTEMBER—In fair request and offerings were moderately free. Sales were made at $7 57½@7 65. Opened at $7 62½, sold to $7 60, to $7 65, to $7 57½, to $7 57½@7 60, and closed steady.

OCTOBER—Offerings were rather liberal and the demand was fair. Sales were made at $7 55@7 62½. Opened at $7 57½, sold to $7 62½, to $7 57½, to $7 60@7 62½, to $7 55 and closed steady.

JANUARY—Quiet with small sales at $6 70@6 72½.

Other Meats—Trade was fairly active, and mainly on domestic account. Exporters bought only sparingly. Offerings fair, and the inquiry rather good. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in good request with only moderate offerings, and prices favored sellers. Dry Salted Meats were in fair demand with moderate offerings, and prices were easier. Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows:

Australasia	27,984,000	
Austria Hungary	4,900,000	
Chili, North Africa	10,752,000	5,040,000
Totals	5 04,852,000	822,784,000

ILLINOIS CROP BULLETIN.

SPRINGFIELD, Aug 9 The weekly crop bulletin for the week ending Aug. 8 says:

Except temporary interruptions by showers, the weather has been very favorable for farming operations Considerable plowing for fall Grain has been done In the northern district Corn is in an excellent condition. Some reports say it was never better. In the central district the crop is suffering for rain, and some fields are firing. In the southern district the crop is well advanced. Harvesting of winter Wheat and Oats is progressing.

The threshing of Oats is progressing under favorable circumstances Reports indicate a very unevenly yield, ranging from poor to heavy.

As the threshing of Wheat proceeds the results are varying, the quality being good, but the yield below average Rye and Barley are yielding well Buckwheat is promising

The Hay crop was secured in good condition, and some baling has been done. Reports indicate a heavy second stand of Clover.

The Potato crop is very promising.

THE WEATHER CONDITIONS.

Indications are for generally clear weather in Mississippi and Missouri Valleys, but showers east of these districts and generally in Northwest Cooler in Ohio Valley Little change elsewhere The Iowa storm has moved to lakes with decreasing energy.

ITEMS OF GENERAL INTEREST.

During the first fortnight of July, Germany imported for home consumption 4,261,000 bu Wheat and exported of that quantity 1,120,000 bu. And during August, 1903, to 15th Jul y, 1904, amounted to 64, 14 000 bu compared with 61,600,000 bu in the corresponding period of last season.

The receipts of Flax Seed at Bombay for the week ended July 7 amounted to 3 746 tons, against 5,73 tons in the previous week and 2,033 tons in the same week last year. The total receipts at Bombay from April 1 to July 7 amounted to 148,846 tons, against 125,613 tons in the same period last year.

Although there has been unofficial announcement it is an open secret, says the New York *Journal of Commerce*, that the Trunk Line Association will not wholly grant the recent request of the Millers' National Federation, and raise the rates on Wheat to protect the export Flour of the American millers

The National City Bank, New York, the most important of banking institutions allied with the Standard Oil interests, according to the latest current in New York banking circles, is negotiating for the purchase of one of the London banks, with the purpose of extending its facilities for handling foreign business.

A Boston dispatch says. "The Wool market is quiet but firm. The fact that manufacturers have bought considerable supplies of the new clip has put them in a very independent position for some time to come, and the present quietness does not incline to any feeling of weakness. Fleece Wools are steady."

The London Board of Trade returns for July show a decrease in imports of £23,483,500 and a decrease in exports of $5,160,000. The decrease in imports consists of July 7 articles in Foodstuffs, 44,145, and Wool, $3,345 ,25. The decrease in exports was mainly in Iron, Steel and manufactures thereof, amounting to $2,436,250.

Although the exports of Grain via Montreal have shown a large falling off, vesselman are of the opinion that the shipments will gain very rapidly once the Northwestern crop begins to move Grain is coming in very fast from the west to the elevator service at Montreal and that more than 900,000 bu a week can be handled without difficulty.

It is stated that the Westinghouse gross business has in many months aggregated $2,000,0 0 per month, or about two-thirds of the amount of the gross business of the General Electric Company. The capacity of the Westinghouse Company is $3,000,000 gross business per month or substantially equal to that of the General Electric Company.

An improvement is reported in the Flour trade, both on export and domestic account. Sales the past few days have increased Stocks with many distributors have been reduced to a point where they must buy freely. The trade does not like to load up with Flour while Wheat is at present prices, but many have reached a point where they have to take on moderate supplies.

Bombay dispatch of July 23 stated: "During the past week light rains have fallen occasionally. The Cotton acreage is slightly increased and crop accounts are satisfactory. In many districts, however, rain is needed and the absence of it is causing apprehension. Rainfall during the week at Colaba 1 inch, at Byculla 1 inch. Since the beginning of the season 25 and 35 inches respectively."

A bond issue of $750,000 made by the United Button Company, a Delaware corporation, has been called for record on Aug. 15 by the Mercantile Trust and Safe Deposit Company also of Delaware, is acting as trustee These bonds are payable June 1, 1923, at 6 per cent interest, so they may be redeemed sooner at the option of the company in amounts not exceeding $100,000 each year, at the rate of 105.

Official announcement was made Saturday, that the Board of Directors of Chicago, Inca purchased the assets of the First Mortgage Bond and Trust Company There will be no change in the capitalization of the bank, it merely taking over the assets and paying off the liabilities. The Second First Mortgage Bond and Trust Company was $250,000 and had a book value of 101 Recent sales, however, were as low at 46½.

The Merchant-Heather Europe Company will end its fiscal year on Sept. 30 The treasurer says: "While the year is not ended, yet we can say from the figures of the year's business so far and from present indications that the year ending Sept. 30 will be by far the best that our company has ever experienced. Last year's earnings of the Mergenthaler Company, the Linotype and Bridge Company paid the $10,0 0,0 0 stock, and the surplus after dividends of 15 per cent was $8,6 3."

The weekly weather report says that rains benefited Cotton in Texas, but in the central and eastern portions of the belt the crop still suffered from excessive moisture. Many fields were grassy and too rapid growth Rust and shedding are reported from scattered sections of the Mississippi River. West of that river with the exception of Louisiana, the crop is in good state of cultivation, and complaints of rust and shedding are less numerous than a week ago.

A member of the Steel rail pool said, Monday: "No notice for a meeting has been issued, but the members of the pool understand that a conference will be held in New York the latter part of September, by at Alabama City, where the situa ion will be canvassed and the price schedule for 1905 announced. It is expected that a downward price reduction, and I hardly think the matter of a change in prices is scarcely any doubt about the feeling of members on this point. We are all agreed upon $28 00 per ton."

Dornbusch's of July 25 says: Our correspondent at Novorossisk (Russia), writing under date 15th, reports the active cutting of Wheat, Barley, etc., in favorable weather, and should there be no interruption from storms and hot winds harvest should be finished in about a fortnight "The total result is expected to equal that of last year, which was satisfactory, but may be a little less. Rye, Oats, and perhaps Barley, but Azima Wheat will show an increase. Prices are firm and inclined to advance."

The London *Times* of July 25 says: "Potatoes have suffered greatly from the drouth and the present is likely to be another season of small yields. Swedes are becoming badly mildewed, a fair amount of Winter Oats and Rye are cut and Wheat cutting will begin in several places this week The cutting of Barley will be deferred until the Grain is dead ripe. Pastures continue to deteriorate, and for the moment, prospects of green keep are not encouraging, and a decline in prices at the early autumn sheep sales is the inevitable result."

A prominent Cleveland Steel manufacturer is quoted as follows: "Many mills which have been idle for several months have now started up. Orders for immediate delivery are larger than they have been It is doubtful if there will be any pronounced activity during the next month or two, but I believe that we shall have excellent business in November and December. I do not believe the political outlook to be a menace to the situation The prices of pig and finished iron are decidedly better, and heavy orders for Coke are being received. The worst was over last year. We shall not run from a period of depression into a boom, but I am confident the conditions are daily improving."

In response to a request for a candid opinion of the Northwestern Wheat crop from Henry Litle of the Pillsbury Washburn mills of Minneapolis, a Chicago commission man, Tuesday, received the following. "If frost holds off, think chances are will raise as much Wheat in Northwest as did last year; absolutely no other business now of like over $100 a barrel for export. Home trade is not talking hold." "I consider Mr. Little absolutely reliable," said the commission man. "He is one of the best authorities on conditions in the Northwest. It is admitted that there will be some shortage in the crop, and that the price of Wheat will be higher, but it will be a matter of fact that the shortage in crops abroad will compel the foreigners to buy all the surplus we will have to spare."

The Rock Island Railroad has ordered a temporary lay-off of about 10 per cent of its shop employes. Last April about 12 per cent of the shop men were discharged. During the past three months the company put all its idle equipment through the shops for repairs and now all cars are in excellent condition. "We ordered a temporary reduction of our shop forces simply because we had not enough work to keep all the men busy," said a Rock Island official. "We hope and believe that all the men will be back at work within thirty days. We have heard that the Kansas crops have begun to turn out, and the crops will keep our equipment busy, and give work to our full force of employes. The reduction just ordered in shop employes would not amount to more than 10 per cent."

The *Mark Lane Express* of July 25 says: "The ordinary Wheat fields, those sown before the present year was with us, are beginning to assume a yellowish tinge, and the Grains are ripening very well in the ears. The spring-sown Wheat has come on very well, and is thicker in the ground than the ordinary crop. The straw is shorter. Some record crops of Oats are likely to be fully reported; where this plant has enjoyed sufficient moisture it has found 1904 an ideal season. Barley is the least satisfactory of the cereals, and in a bad year must be numbered with the failures. It came a little fierce. Had it started better in the spring it would have done better under the summer's fortune. Fruit and root crops in many districts are now very abundant, and reduce the national bread bill."

For the first full year of operating the completed line the net earnings of the Chicago, Elgin and Chicago Railway Company were $187,359 This is sufficient, nominally, to provide for the $180,000 interest on the $3,000,0 0 3 per cent first mortgage bonds, and to show a surplus of more than 4½ per cent cumulative preferred stock. The company has outstanding $5.0.000 second mortgage 5 per cent bonds. It is understood, however, that these bonds have never been sold, but are held and used as collateral by the company, so that no interest is needed on them. There is some floating debt on which interest must be paid, and maintenance charges since the road was first opened.

It seems unlikely that the income account of the company for the fiscal year, when completed, will show much of anything earned on the preferred stock.

Howard P. Frothingham of New York, who is said to have better facilities than almost any other man for forecasting the future of the money market, on the eve of his departure for Europe, ventured the following predictions: "The i per cent call money market will continue until after the election. Following the election there will be a slight raly, and rates may go as high as 3 per cent, to 3½ per cent occasionally. After Jan. 1 money will again be easier throughout the winter. After March 4 there will be no change in the President-elect there will be a general revival of business and greater demands for money. The liquidation of undigested securities has been a great comfort during the past few months and since Jan. 1 the trust companies of New York City have decreased their loans by $109 00 0,0 0, and have increased their investments in Stocks and bonds by $45,300,000. The holdings of the syndicate of which houses in Wall Street at present are the smallest in many years, showing that Stocks are held in strong hands."

The existing tie-up in the building industry of New York may, it is said in some quarters, afford the directors of the United States Steel Corporation the desired opportunity to refuse to act for passing altogether, the next dividend on the preferred stock. The Steel trust will be affected principally, it is pointed out, through its subsidiary corporation, the American Bridge Company, always so far a good profit earner, and one which just now is largely dependent upon the building trade for its business. The building industry in Greater New York exceeds by many millions in amount under contract at this time last year, is effectively paralyzed while the lockout lasts, and if the structural steel trade temporarily languishes Of the expanding business in structural Steel, the Steel corporation was getting its share, the larger percentage of the total but for a time at least this is cut off. It is estimated that nearly 80,000 tons, building contracts, many calling for considerable quantities of structural Steel, is tied up by the strike.

The following is a condensation of foreign crop conditions published Tuesday in Broomhall's Liverpool *Corn Trade News*. "United Kingdom—The Wheat harvest is progressing favorably. The first lots of Wheat are coming in fully ripe and are in fine condition. France—In the northern or important Wheat territory reports are variable, but on the whole they are encouraging. Belgium—In districts where threshing returns are disappointing and the yield is short in quantity, but the quality is good Drouth is endangering the fodder and Potato crops Germany—Harvesting progressing generally throughout the country. Russia—Reports regarding Spring Wheat in the east are favorable, and in the southeast the yield is an important territory. Roumania—The recent rains have checked plowing to commence. Hungary—Is buying Roumanian Wheat freely. Our Buda Pesth agent writes that the general expectation that the export duty is not confirmed. Italy—An official report of July 31 states that the drouth continues; also to damage Wheat. Spring returns are unsatisfactory. Australia—Crop reports are favorable."

When American Car and Foundry had so much business that it had to run its plants day and night, and when the company was making money, a director of the company made the following remark: "I shall be satisfied if our company earns the full 7 per cent on the preferred stock during a series of years." But little attention was paid to this remark at the time, because the company was not only earning the full 7 per cent on the $30,000,000 preferred stock, but upward of 15 per cent on the $30,000,0 0 common. The developments the past six months, however, have demonstrated that the company is now having as much as it can do to earn the 7 per cent on the preferred stock. It is doubtful if the current quarter will even show the earnings sufficient for the dividend recently declared on the preferred shares. This does not mean that the preferred dividend will not be paid uninterruptedly. There is the best of authority for saying that it will be paid right along, but it may be necessary to draw upon surplus if the present business continues in the car business. The company has accumulated a large working capital, so that it is amply prepared for the dull times that set in several months ago

It is stated that in the year ended June 30 surplus earnings of the Erie Railroad were equal to 4.84 per cent on the $110,000,000 preferred stock, on the second preferred and approximately 1 per cent on the common. This means that after payment of the full first preferred dividend for the year the company has approximately $1,500,000 of surplus earnings for betterments and additions. Last year $800,0 0 was appropriated for similar purposes, and in view of this it would nearly have been fair treatment of the first preferred stockholders to have discontinued or reduced their dividends after they had been led to believe that the 4 per cent would be established once and for all, or they naturally inferred when the full rate was adopted six months ago, with the result of terminating the voting trust. It will be remembered that after the voting trust was created the rate was reduced to the payment of 4 per cent on the first preferred stock in a year, the consent of stockholders was asked to a renewal of the trust but was not secured. It is therefore clearly evident that in placing the stock squarely on a 4 per cent basis the directors were impelled by no other motive than conviction that the 4 per cent would justify a continuance of that rate, and that stockholders were entitled to such rate, even though its payment meant the termination of the voting trust, which clearly was not an object desired.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the corresponding time last year.

ARTICLES.	RECEIPTS. 1904.	RECEIPTS. 1903.	SHIPMENTS. 1904.	SHIPMENTS. 1903.

GOVERNMENT CROP REPORT.

According to the report of the Department of Agriculture for August, the prospective crop yields are indicated as follows: Wheat, 591,000,000 bu; Corn, 2,426,000,000 bu; Oats, 790,000,000 bu; Rye, 27,000,000 bu, and Barley, 130,000,000 bu. Reduction in the yield of Wheat in the Northwest about 16,000,000 bu, of which 10,000,000 bu is credited to South Dakota.

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $25,995,155.

No export sales of Grain at the seaboard to-day.

Gold engagements to-day at New York for export were $2,000,000.

The minimum rate of discount of Bank of England is unchanged at 3 per cent.

There was $1,770 000 in Gold shipped from Sydney, N. S. W., to San Francisco Aug. 8.

The North Dakota crop bulletin shows damage to Wheat from rust in twenty counties.

Everyone in the Northwest admits crop damage to Wheat, but they do not all agree as to the extent.

Cotton in New York averaged lower, with fair general trading. Closing sales were at losses of 4@8 points.

Full details of the leading crops by States will appear in to-morrow's issue of the DAILY TRADE BULLETIN.

Ten packers purchased 23,200 Hogs to-day; shippers, 5,000; left over, 13,000. Market closed weak and 20@30c lower.

Stocks of Hog Products at Chicago estimated at 49,000 brls Mess Pork, 143,000 tcs Lard, and 22,250,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat 82 cars; Corn, 177 cars, Oats, 294 cars, Rye, 7 cars; Barley, 3 cars; Hogs, 18 000.

Local Securities were moderately handled, and averaged higher. The important gains were in Carbon preferred and Street's.

Average cost price of Hogs at Chicago, Wednesday, was $5 38, against $5 41 Tuesday, $5 35 a week ago, $5 40 a month ago, and $5 30 a year ago.

The American Railways Company has declared the regular quarterly dividend of 1½ per cent, payable September 15 to stockholders of record August 26.

Statistician Brown of the New York Produce Exchange, estimates the Spring Wheat crop at 272,539,000 bu, and Winter Wheat at 333,400,000 bu, or a total of 605,939,000 bu. Corn, 2,564,847,000 bu.

Weekly statement of Bank of England shows an increase in Bullion of $4,227,630. The proportion of the Bank of England's reserve to liability, which last week was 48.62 per cent is now 51.29 per cent.

Farmers' stocks of Oats Aug. 1 were 42,341,000 bu, or 30,750,000 bu less than last year. With a crop only 6,000,000 bu more than last year, this makes practically 30,000,000 bu less for supplies than a year ago.

The Illinois Central Railroad statement shows evidence of increasing control by railroads over operating expenditures. The decrease in gross earnings of $53,000 for June was not carried into the net which showed $134,000 increase, or a practical decrease in operating expenses of $200,000 for the month.

An elevator firm at Minneapolis has issued an estimate of the yield of Wheat in the Northwest, as follows: Minnesota, 15.7 bu; last year, 11.3 bu; South Dakota, 9.6 bu, last year, 13.8 bu; North Dakota, 16.4 bu; last year, 12.7 bu. These figures applied to the Government estimate of acreage indicate an aggregate yield of 186 000,000 bu.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Dry weather occasioning less confident view of Corn crop. Most sections still in fairly good position. Situation favors a large crop. Winter Wheat indications not improved. Spring Wheat evidently considerably injured. Total crop possibilities about 600,000,000 bu."

The Cincinnati *Price Current* reports the packing of the West for the week at 300,000 Hogs, compared with 280,000 for the week previous and 350,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 9,065,000 Hogs, compared with 9,220,000 for the corresponding time last year—a decrease of 155,000 Hogs.

Wall Street traders figured that the loss in the Wheat crop would be more than made up by good prospects for Corn and other Grains. They bought Western Railway shares and prices advanced ¾ to 2⅛, but lost a good part. Tractions were again a feature, and made substantial gains, although failing to hold the extremes. Coalers were up, and Steel, after a gain, reacted and closed lower. Money ⅝@1 per cent.

Crop damage reports are exaggerated declared a message from Fargo, N D. It says: "Traveled, Tuesday, with fifty members of the Fargo Commercial club, Fargo to Lamour and then to Jamestown. Found rust everywhere, but old farmers say damage not so serious as being reported. Cutting Wheat from Lisbon to Lamour and north to Jamestown. Will be general south of Union Pacific road next week. Would make yield, Fargo to Lisbon, 12 bu. Lisbon to Lamour and north to Jamestown, 10 bu. Probably not better than No. 2 Northern. Macaroni not infected."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand only moderate, buyers refusing to take hold at current prices.

WINTER WHEAT—Demand was good, chiefly speculative, and prices ½@1c higher, but car lots were relatively not so strong as futures. Millers and shippers holding off on account of the advance. No. 2 Red round lots in store quotably $1 01½@1 01¾ and car lots fresh arrivals sold at $1 02¾, but closed higher. No. 3 Red fresh receipts sold at 96@97c for ordinary to 99½c@$1 02¾ for good to choice, and billed through sold at 97c. No. 4 Red sold at 85c@$1 00. No. 2 Hard fresh receipts sold at $1 01½@1 02½, and No. 3 Hard 98½c@$1 01¾.

SPRING WHEAT—Was quotably higher. However, so little coming that prices were entirely nominal. No. 1 Northern fresh arrivals nominally about $1 14@1 15, and No. 2 Northern about $1 07@1 08. No. 3 Spring quotably 95c@$1 05. No. 4 Spring quotable at 75@95c.

REGULAR WHEAT—Was nervous and unsettled with a heavy trade, final figures showed new September 2⅞c higher, while December gained 2⅞@3c, and May 3¼c. The market started out easy on general selling due to the cables and better weather, the *Price Current* estimate of 600,000,000 bu also being a factor. The Northwest was credited with selling quite freely at the start, and locals with profits also liquidated. At the decline the demand became most urgent, while the offerings were smaller, and the sharp rally followed. Private advices from the Northwest came in "bullish" and the Southwest bought with considerable freedom. Many of the early sellers also covered. Government report indicated a crop of 329,990,000 bu Winter Wheat and 261,378,000 bu Spring, a total of 591,348 000 bu, compared with 637,821,000 bu in 1903, and 670,063,000 bu in 1902. A special report from Minneapolis on the Northwest crops indicated a yield in Minnesota of 15.7 bu, against 11.3 bu last year. South Dakota 9 6 bu, against 13.8 bu, and North Dakota 15.4 bu, against 12.7 bu in 1903. These figures indicate 186,000,000 bu. Another message said: "Drove from Jamestown to Carrington, 50 miles. Red rust in almost every field; little black rust as yet. Average two weeks to harvest. Early showing this week promised a crop of 18 bu per acre, now 13 bu with no more damage. Mellville district bad. Bad smut in fields here which farmers have not yet discovered." The signal service claimed showers were probable for Minnesota and the Dakotas. Northwest cars were 50 larger than a year ago, and primary receipts were 450,000 bu heavier than in 1903. Kansas City and St. Louis received 507,000 bu, against 230,000 bu a year ago. Exports were again small and no boat loads accepted at the seaboard. Flour output this week 388,000 brls, against 456,000 brls one year ago. Liverpool quoted spot unchanged and futures ⅛@¼d lower. London ⅛@¼d lower. Paris off ¼@½c, and Antwerp ⅜c. Berlin lost ⅝c and Buda Pesth declined 2½c. Kansas City *Star* estimated the Winter Wheat crop at 300,000,000 bu. The statistician of the New York Produce Exchange estimated the Wheat crop at 605,939,000 bu. Minneapolis Wheat stocks were reported decreased 440,000 bu so far this week. Receipts at Duluth 23 cars and at Minneapolis 123 cars, a total of 146 cars, against 115 cars yesterday, 150 cars a week ago, and 96 cars last year. Local receipts included 102 cars Winter, none of Spring, no mixed, a total of 102 cars, against 89 cars last year. Included in the above were 3 cars contract grade. There were 5 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 82 cars. Withdrawals to-day were 34,800 bu. Receipts at Western points were 934,937 bu, against 504,511 last year. At Eastern points 67,024 bu, against 265,721 bu last year. Shipments from Western points were 546,085 bu, against 292,912 last year, and from Eastern points 17,756 bu, against 241 267 last year. Shipments of Flour were 2,255 brls. Exports of Wheat in Flour were equal to 27,903 bu.

Future Deliveries of Regular Wheat—Active, excited and higher.

SEPTEMBER—Old Style—Sold at $1 01⅝@1 05¾. Opened at $1 01⅝, sold to $1 02½, to $1 03, to $1 03⅛, to $1 02⅞, to $1 05¾, to $1 05, to $1 05½, to $1 05⅜, and closed at $1 05⅜.

SEPTEMBER—New Style Sold at 99¾c@$1 04½. Opened with sales at $1 00⅛ to 99¾c, sold to $1 00½, to $1 00, to $1 01⅜, to $1 00¾, to $1 02, to $1 01⅜, to $1 03, to $1 02¾, to $1 03⅜, to $1 03⅛, to $1 04½, to $1 03⅝, to $1 04⅛, to $1 04, to $1 01⅝, to $1 01⅞, to $1 04¼, to $1 03⅝, to $1 03⅞, and closed at $1 03⅞ sellers.

DECEMBER—Sold at 98¾c@$1 03⅜. Opened with sales at 98¾c to 99¼c; sold to 99⅜c, to 99½c, to $1 00, to 99¾c, to $1 00¼, to 99⅞c, to $1 01, to $1 00⅞, to $1 00¼, to $1 03⅜, to $1 02⅞, to $1 03, to $1 02⅝, to $1 03⅛, to $1 02¾, and closed at $1 02¾ bid.

MAY—Sold at $1 00 and at $1 04½@1 04⅝. Opened at $1 00 to $1 00⅜; sold to $1 00⅝, to $1 00⅜, to $1 01½, to $1 00¾, to $1 00¼, to $1 02¼, to $1 01¾, to $1 03¼, to $1 03⅛, to $1 04½@1 04⅝, to $1 01, to $1 04½, to $1 01¼, to $1 04½, to $1 04¼, and closed at $1 04¼.

CORN—A good trade with the feeling unsettled. Lower prices ruled early, but later on, the market developed considerable strength. Closing prices showed gains of ⅞c and 1⅜@1½c. Easy start was on general selling due to Government report and cables and bulge later on the foreign news. Locals and commission houses sold at the start, but market had excellent support at the decline, professionals and the Southwest buying. Crop reports from Missouri and Kansas were less favorable and *Broomhall* cabled that Austria-Hungary had prohibited the export of all feeding stuffs. Last year Austria-Hungary raised 128,000,000 bu Corn and 115,000,000 bu Barley. The *Price Current* claimed the dry weather was occasioning a less confident view of the crop, but most sections are still in a fairly good position and the situation favored a large crop. Illinois advices "bullish." Government report made condition 87 3, against 86.4 last month and a ten-year average of 83 5, indicating a crop of 2,426,262,000 bu, against 2,244,176,000 bu in 1903. Fair weather was predicted for Kansas, Missouri, Illinois and Indiana, and showers in Iowa. Liverpool quoted spot steady and futures ⅜d lower. Receipts 148 cars, last year 110 cars and 177 cars estimated for to-morrow. Country acceptances were reported liberal from Nebraska, but not as large in Illinois. Western receipts 318 000 bu; last year 251,000 bu. Shipments 682,000 bu and 229,000 bu respectively. Local shipments heavy heavy, 615 000 bu, against receipts of 120,000 bu. Exports 129 000 bu and 312,000 bu taken from store here. Shipping demand quiet and sales small. Car lots were firm and ½c higher. Demand good. No 2 closed at 51⅞c. No. 2 Yellow so. 1 at 56c and closed at 58¼c. No. 3 sold at 53⅞@54½c and closed at 51½c. No. 3 Yellow sold at 55½@56c and closed at 56c. No. 4 sold at 53½@55c.

Corn by sample: Was steady to ½c higher. Offerings moderate and the demand good. Sales on track and free on board. No Grade sold at 52c. No. 4 at 51@55½c. No. 3 at 54¼@54½c. No 3 Yellow at 55¾@56c. No. 2 at 54½c. No. 3 White at 54¼@54¾c. No 2 White at 54½c. Billed through: No Grade at 49c. No. 4 at 52½@54¼c. No 3 at 53@54¼c. No 3 Yellow at 54¾@55c. No. 3 White at 53¼c.

Future Deliveries of No. 2 Corn—Active and excited, ruling weak early and strong later, closing ⅞c to 1⅜@1½c higher.

AUGUST—Inactive and nominal close 53⅝c.

SEPTEMBER—Sold at 53@54⅝c. Opened at 53⅛c to 53c and sold at 53¾c, to 51c, to 53⅜c, to 54½c, to 54⅜c, to 54¾c, and closed at 54⅜c bid.

DECEMBER—Sold at 49⅝@51⅝c. Opened at 49⅞c to 49⅝c and sold at 50⅜@50¾c, to 50½c, to 50⅝c, to 50¾c, to 50⅞c, to 50½c, to 51⅜c, to 51⅝c, to 51½c, and closed at 51½c.

MAY—Sold at 49@51⅛c. Opened at 49⅛c to 49c, and sold at 50½c, to 49¾c, to 49⅞c, to 49¾c, to 50¼c, to 49⅞c, to 50¾c, to 50½c, to 51⅛c, to 50¾@50⅞c, to 50⅞c, and closed at 50⅞c.

OATS—Were actively traded in and closed ⅝c higher. The advance from the low point was 1⅛@1¼c. The feature was the advance in Wheat, renewed covering by a large local "short" and the Government report. The latter made the condition 86 6, against 89.8 a month ago and 79 5 last year. It indicates a crop of 790,000,000 bu, or 6,000,000 bu more than last year. Stocks in farmers' hands August 1 were 42,341,000 bu, against 73,100,000 bu last year. Prospects of a good export demand were also a factor, as feedstuffs abroad are scarce. Arrivals 227 cars, with 294 cars estimated for to-morrow. Seaboard clearances 19 000 bu. Cash lots ½@1c higher. No. 3 White sold at 35@35¼c. Standard at 35¼@35½c. No. 2 White at 36@36¼c. Standard in store closed about 34⅝@34¾c.

Oats by sample were in good demand and ½c higher. Offerings were liberal. The advance in futures was also a factor in shaping prices. Sales on track and free on board: No Grade new at 30@31c. No. 4 White new 31@34½c; old at 27@36c. No. 3 new at 30½@33½c. No. 3 White new at 31½@36c: old at 34½@37c. Standard new at 35@36c. No. 2 new at 32@33½c; old at 36c. No. 2 White new at 35⅜@35c. Billed through: No. 4 White new at 34¼c; old at 33c. No. 3 new at 32c. No. 3 White new 31@36c. Standard new at 35@35½c; old at 36c. No. 2 new at 31½@34c. No. 2 White new at 35@36½c. At the river: No. 4 White new at 33c, old at 33@34½c. No. 3 White new at 33¼@34c. Standard new at 34@34¼c. No. 2 new at 31c. No. 2 White new at 34¼c.

Future Deliveries of Contract Oats—Were active and higher.

AUGUST—Closed at 34⅝c.

SEPTEMBER—Freely traded in. Sold at 33¾@35c. Opened at 33¾c, sold to 35c, to 34⅛c at close.

DECEMBER—Sold at 31⅝@35⅝c. Opened at 34⅜c; sold to 34¾c, to 35⅝c at close.

MAY—Increased trading. Sold at 36⅜@37½c. Opened at 36⅜c to 36½c, sold to 37½c, to 37⅜c at close.

RYE—The market was steady. Car lots of fresh receipts met with good sale to go to elevator, but there was little desire to trade in futures. Receipts seven cars and 1,000 bu withdrawn from public elevators. No. 2 fresh receipts sold at 70½@71½c.

Future Deliveries of No. 2 Rye—Quiet. September 70c bid and 71c asked. No trade.

BARLEY—There were evidences of a firmer feeling. Screenings and low grade Barley for mixing in some demand. There was a scarcity of both. Prices were obtained rather better than could be realized recently. There was some demand for good Barley for pearling and maltsters evinced a little more interest. Trade small as yet. Little old Barley coming and it is too early for new Barley to move freely. Only 7 cars inspected in. A little common to good new Barley sold at 40@47c, choice bright heavy was nominally about 50c, fancy possibly a shade over. Old Screenings, 30@35c for poor to choice; some sales made at 37@38c. Feed Barley, common to good 33@40c and a sale made at 40c. Malting, low grade, was quotable 38@40; fair to good, 42@45c.

SEEDS—Trading confined to new crop Timothy; the market closed slightly easier. Nothing done in Flax though there was a further nominal advance. All other lines entirely neglected.

Timothy—There was a little more animation. New crop Seed attracted more attention. September opened steady with sales at $3 05, went up for a moment to $3 07½ and receded to $3 02½. The market closed at $3 02½ bid. Nothing was done in cash Seed. None on sale. Some samples shown and quality very nice. Some bids have been put out on to arrive lots and the country was said to have so far been slow in accepting offers made. It could not be learned that prices had changed. Contract old quoted $3 00. Cash country lots quotable at $2 00@3 00 for low grade to fancy, choice about $2 80@2 90, fair to good Seed $2 65@2 75 and rough at $2 45@2 55. Good quality new said to be about $2 75@2 80, choice possibly above.

Flax—Another advance of 1c was recorded. It again occurred without trading. There was no Flax whatever on sale. Buoyancy of Grain markets possibly had some influence. In the Northwest prices were higher again. Weather in that section a little warmer or more favorable. No local movement to-day. No receipts at Minneapolis and 13 cars received at Duluth. No. 1 Northwestern or No. 1 from the Northwest were salable at $1 20½. No. 1 salable at $1 19. Rejected nominal at $1 14@1 18, depending on quality. September, $1 19 bid.

Clover—Was nominally steady. The market was without speculative orders, and there also was an absence of cash Seed on sale. New crop, October delivery, contract grade, nominal at $12 25. Contract spot Seed was quoted at $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00, poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 75@10 75.

Other Seeds—Mustard nominally 75c@$1 10 for common to choice. No quotations for other lines.

HOG PRODUCTS—A fairly good speculative trade was transacted in Hog Products, and the feeling was somewhat unsettled. Outside orders were moderate, and local trading was fair. Hogs in large supply and prices decidedly lower, and this feature encouraged rather free selling early in the day, while the demand was only moderate. Prices materially lower on all the leading articles. At the decline, the demand improved, and a steadier feeling prevailed in sympathy with the strength in the Grain markets, and prices rallied moderately, and the market closed steady at medium figures. Trading chiefly in September and October contracts. Receipts of Hogs at the leading Western packing points were estimated at 91,100 compared with 73,000 same time one year ago. Packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 50,000 Hogs. Foreign markets were quiet. Liverpool quotations were 6d lower on Backs and 6d higher on Cumberland Sides. Domestic markets steady. Receipts of Products were fair—of Lard and Meats about 15 cars. Shipments were moderate—of Lard and Meats about 91 cars. Demand on shipping account was fair, and offerings were not very large, and firmly held. Prices were well maintained.

Mess Pork—Trade was rather active in the market for Mess Pork, and the feeling was unsettled. Offerings were moderately free, especially early in the day, and the demand was only fair. Market opened rather weak at 15@20c decline, but rallied again 7½@10c on moderate buying. Later, a weaker feeling was developed, and prices receded 10@12½c. Toward the close, rallied again 7½@10c, but settled back 5@7½c, and the market closed comparatively steady. Shipping demand was moderate and offerings were not very large. Cash lots were quotable at $12 00@12 12½.

AUGUST—Demand light and offerings were fair. Sales were made at $11 77½@11 85, and closed at $11 85.

SEPTEMBER—Offerings rather free, and the demand was fair. Sales were made at $11 92½@12 05. Opened at $11 95 to $12 00, sold to $11 97½, to $12 02½@12 05, to $11 92½, to $12 02½, to $11 95, and closed steady.

OCTOBER—In fair request and offerings were rather free. Sales were made at $12 00@12 10. Opened at $12 07½, sold to $12 00, to $12 02½, to $12 00 to $12 10, to $12 05, to $12 07½, to $12 05, to $12 07½, to $12 05, and closed steady.

DECEMBER—Sold sparingly at $11 95.

JANUARY—Called for moderately and sales were made at $12 85@12 90, and closed rather steady at $12 87½.

Lard—Trade was fair in the Lard market, and the feeling was somewhat unsettled. Supply gradually increasing. Offerings were fair, and the demand was moderately active. Foreign advices were unchanged. Market opened rather easy, and prices ruled 2½@5c lower, which was followed by a further reduction of 2½c. Later, a stronger feeling was developed, and prices rallied 7½@10c again, and the market closed rather steady. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 60@6 62½. Loose lots in fair request with limited offerings. Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 25. Neutral in only limited demand, with fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1, and $7 12½@7 25 for No. 2.

SEPTEMBER—In fair request, and offerings were not very large. Sales were made at $6 60@6 70. Opened at $6 62½, sold to $6 60, to $6 70, and closed steady.

OCTOBER—Offerings were fair, and the inquiry was moderate. Sales were made at $6 70@6 80. Opened at $6 75, sold to $6 70, to $6 80, to $6 77½, to $6 80, to $6 77½, to $6 80, and closed steady.

DECEMBER—Quiet, with small sales at $6 62½.

JANUARY—In moderate demand and offerings were fair. Sales were made at $6 75@6 82½, and closed steady at $6 82½.

Short Rib Sides—Rather a good trade was reported in Short Rib Sides, and the feeling was somewhat unsettled. Offerings were fair, and the demand moderately active. Supply reported to be decreasing. Market opened rather easy, and prices were 7½@10c lower. Later, more steadiness was manifested, and prices rallied 2½@5c, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were fair. Cash lots quotable at $7 45@7 55 according to weight.

SEPTEMBER—In fair request and offerings were moderately free. Sales were made at $7 50@7 55. Opened at $7 50, sold to $7 52½, to $7 50, to $7 55, to $7 52½, and closed steady.

OCTOBER—Offerings were fair and the demand was moderate. Sales were made at $7 47½@7 55. Opened at $7 47½, sold to $7 50, to $7 47½, to $7 50, to $7 47½, to $7 55, to $7 52½, and closed steady.

JANUARY—Quiet with small sales at $8 70.

Other Meats—Trade was fairly active, and mainly on domestic account. Exporters bought only sparingly. Offerings fair, and the inquiry rather good. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in good request, with only moderate offerings, and prices favored sellers. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs, 9¾@9⅞c, 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9⅝c, 18@20 lbs, 9¾@9⅞c. Skinned Hams, 11¼@11½c. Shoulders, 6⅞@7c. Picnic Hams, 7¼@7½c; Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9¾@9⅞c, 14@16 lbs, 9¾@9⅞c cash, 9¾@10c August, 18@20 lbs, 10@10¼c; Skinned Hams, 11½@11¾c cash, 11⅝@11¾c August, Shoulders, 7⅝@7¾c; Picnic Hams, 7⅞@8, Bellies, 10@11c. DRY SALTED—*loose*—Shoulders 7⅜@7½c. Short Fat Backs, 6¼@7¾c. Short Clear Backs, 8½@9c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾. Extra Short Rib Sides, 7⅜@7½c. South Carolina	93	91	78	82	85
South Dakota	86	87	89	98	81
Indian Territory	93	96	89	..	.
Oklahoma	89	95	71	90	67
Wisconsin	84	83	73	88	86
Pennsylvania	90	85	80	92	89
Minnesota	80	71	76	88	88
Louisiana	90	90	96	63	86
Michigan	75	72	77	87	84

Preliminary returns indicate a Winter Wheat crop of about 323,100 000 bu or an average of 12.3 bu per acre as compared with 12 4 bu per acre last year, as finally estimated

Rust in the Wheat has made its appearance in a number of counties in the Northwest, but except as to South Dakota it is chiefly in late or supplemental reports that reference is made to it, and such reports being conflicting in character it is evidently too early to estimate definitely the extent of the damage resulting from it.

The proportion of the Oat crop of last year still in the hands of farmers is estimated at 5.4 per cent as compared with 7.4 per cent of the crop of 1902 in farmers' hands one year ago, 4.2 per cent of the crop of 1901 in farmers' hands two years ago, and a nine year average of 7.4 per cent.

Preliminary returns indicate an increase of 0.2 per cent in the Hay acreage.

Reports as to the production of Clover indicate that nearly a fully crop will be harvested. In point of quality the crop of Clover is well up to high medium grade

SPRING WHEAT OUTLOOK.

[From the Northwestern Miller.]

Judging from the rust damage reports rife here the past week and from the course of the Wheat market, it might be inferred that the Wheat crop in Minnesota and the Dakotas this year would be a failure. While there has undoubtedly been damage done by rust, particularly in South Dakota, yet this is to some extent offset by the fine crop in Southern Minnesota There is no question but that Southern Minnesota will harvest a much larger and better crop than last year. Where there is some foundation for damage reports it would be strange if operators on the "bull" side did not take advantage of this state of things to "strike while the iron is hot" and play these reports for all there is in them, and a good bit more The crop is admittedly late this year, say a week or ten days, and this increases the risk of damage from frost, but of late years no great damage has been done by frost If frost occasions no widespread damage this season, according to the best of our information, Minnesota and the Dakotas will harvest a larger crop than last year.

THE FLOUR PRODUCTION.

MINNEAPOLIS Aug. 10 —The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons as follows:

	Aug. 6, 1904. Brls.	July 30, 1904. Brls.	Aug 8, 1903. Brls	Aug. 9, 1902. Brls.
Minneapolis	215,015	204,245	242 200	362,570
Duluth-Superior	14,700	17 005	18 675	44,045
Milwaukee	30 510	30,000	50,510	28,800
Total	260 045	248 150	311,385	435 415
*40 outside mills	108,435	... ...	125 010	......
Aggregate Spring	368 480	......	456,395	....
St. Louis	29 800	19,000	23,500	32,000
†St Louis	24,000	21 100	29,000	73,000
Indianapolis	11,460	10 400	13,430	17,545
Detroit	11,700	11 700	11,400	7,500
Chicago	13,500	16,500	12,400	29,250
Kansas City	30,350	22,250	37,.00	35,075
Toledo	8,000	8,000	44,000	35,000

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth

†Flour made by mills outside of St. Louis, but controlled in that city

There was an increase of 15,0 0 brls in the Flour output last week To-day eleven mills were in operation and the output for the week may run to 20.,000 brls. For the same week last year it was 290,493 brls.

The increased Flour production does not represent a better business. While some mills report sales about equal to the week before, others say that business was even worse than the preceding week One large miller commenting on the situation said "With an advance in Wheat of 4c, such as we have just had the last two days, our sales would ordinarily run up to 100 0 0 brls, instead of the beggarly 5,000 brls that we actually sold." Eastern customers seem to be watching the situation here with some interest, but without showing the least disposition to buy. With the advancing Wheat markets Flour quotations have been more or less nominal and can hardly be said to represent either the cost of making Flour or the prices that buyers will pay, but rather the prices at which millers or brokers are willing to sell, such price being in many cases below present cost of production.

A feature of the export prices is the wide disparity between patent and first clear While 5s or 6s is an ordinary difference these grades are now from 9s to 12s apart. Relatively, first clear is the cheapest Flour on the market to-day. The continued firmness in Bran is of course, a help to the mills, and with some scattering Flour orders from the domestic trade for various grades and some foreign orders for clears they have managed to keep the wheels moving, though sales did not begin to equal output last week. As for the foreign trade some mills report bids that are more nearly in line than they have been on patent, though still too low to permit of business in that grade Some business has, however, been done in clears. Minneapolis and outside mills are quoting patent at $5 30@5 65 per 196 lbs in wood f. o. b Minneapolis.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Aug. 4]

Wheat—The local situation remains without radical changes since our last review. Some new Wheat is coming in It will be a month or six weeks before we can expect the same to come to tidewater in train loads. Harvesting operations in the various localities are in full blast, and farmers busy at threshing or hauling to local warehouses. Returns of field work generally show increased yields varying from 10 to 30 per cent above last year's results Reports from the Willamette Valley are meager; very little threshing has yet been done. Early sown Spring Wheat and Oats were greatly improved by the rains of last week and they promise fair returns. Trading can hardly be said to have commenced, excepting a few trades made in the interior, and appearances indicate there will be a slow selling movement during the present month at least. Reports from the interior indicate the farmers have advanced ideas as to Wheat values and seem to look at the statistical position of Wheat from the results of crop returns in other portions of the country, and appear to labor under the impression there is more or less of a shortage in the United States, that they ought to get stiff prices. It is hardly necessary to state that their ideas are opposite of the real situation The United States not only has a large carry over, but will harvest much above an average crop All importing countries have larger stocks than usual, and the crop prospects in the United Kingdom, France and Russia are quite fair Based upon present freight rates, selling prices in Europe, exchange and other necessary items of shipments, club Wheat on deck here is not worth more than 68c for export. bluestem 7?c per bushel; valley very scarce and will not be used for export. Millers' quotations for the same range from 76c to 78c per bu. These are present quotations which, however, are largely nominal, and while later on, should shippers' wants become urgent, higher prices might be realized.

Flour—The market is in a peculiar shape for export to the Orient. The demand for Flour is good, but millers are very uncertain whether they should fill the same owing to heavy war risks and the uncertainty of the cargoes arriving at the destination shipped. The war of Russia and Japan has caused Breadstuffs to run down to a low ebb in Russian ports, and the Vladivostok squadron have captured a number of neutral vessels and taken the same to Siberia Millers do not care to run the risk of losing their shipments, are uncertain whether to accept orders cabled; as the demand for shipments for the next three months is unexceptionally good, no doubt the orders will be filled. From Central America a good demand comes, and some heavy shipments in the near future will be dispatched Nothing new from South American ports has been received. From the United Kingdom probably a few weeks will be sent before the turn of the year. San Francisco advices confirm the good demand there, as reported in our previous issues, and shipments to that city and state are unexceptionally good. A great many of the mills that have been closed down the past four months have started up on part time. Quotations for export brands are firmer on account of the higher prices prevailing for Wheat, and millers are obtaining from $3 15 to $3 25 per barrel. Local straights $3 85 and patents $4 15 per barrel.

FINE BARLEY CROP.

[From the Milwaukee Commercial Letter]

A prominent commission house in Milwaukee issued the following report of the Barley crop, made up from 350 replies from points in the Barley producing sections of the States named, to a recent letter of inquiry in respect to the outturn:

Wisconsin Reports indicate same production as last year and somewhat less than two years ago. The quality averages good, a large percentage being choice, and the berry medium to plump. There are no reports of damage sufficient to cause unsoundness, the larger number advising that it is plump In this respect the crop is better than last year. The color is uneven, depending upon harvest conditions but the larger part is more or less discolored by unfavorable weather. Acreage estimates indicate a small increase. Yield per acre 18 to 60 bu, and average 32 bu, or the same as last crop and 5 bu per acre less than 1902.

Minnesota—The reports indicate a more even crop and an increased product on as compared with last year. The quality averages low malting to choice, but the larger portion may be classed under the latter head. Acreage no change of importance Yield per acre estimates range from 20 to 40 bu and average about 32 bu, or 5 bu per acre more than last crop, and the same as the crop of 1902

Iowa — From this State the reports show a marked improvement as compared with those a year ago and indicate a much larger production than last crop due to larger yield per acre and better quality. The larger percentage of reports advise the berry plump and only a few light weight. Acreage a small increase. Yield per acre estimates range from 20 to 50 bu and average about 36 bu, or 8 bu more than last crop and 4 bu more than the crop of 1902

South Dakota—Advices indicate a smaller production, due to reduced yield per acre. The quality is not as good as last crop, there being a larger percentage that is medium and light weight. Acreage is about 5 per cent gain. Yield per acre 20 to 50 bu and average 30 bu, or 3 bu per acre less than last crop and 2 bu less than 19.2

Nebraska -- Advices indicate considerable increase in production as compared with previous crops, due to increased acreage and larger yield. The quality ranges from feed to a fair malting. Acreage gain 25 per cent. Yield per acre 18 to 45 bu, and average 32 bu.

THE WEATHER CONDITIONS.

Generally fair except in Canadian Northwest, where it is cloudy, with rains in northwest portion. Temperatures warmer Northwest rising West and Southwest, 96 rain at Louisville

FLAX SEED INSPECTION RULES.

Adopted by the Board of Trade of the City of Chicago, February 14, 1899, and to go into effect July 1 1899:

SECTION 1. The weight per measured bushel designated for each grade shall be that of commercially pure Seed.

No. 1 Northwestern Flax Seed—Flax Seed to grade No. 1 Northwestern shall be mature, sound, dry and sweet It shall be Northern grown, or have the usual characteristics thereof. The maximum quantity of field, stack, storage or other damaged Seed intermixed shall not exceed twelve and one-half per cent. The minimum weight shall be fifty-one (51) pounds to the measured bushel.

No. 1 Flax Seed—No 1 Flax Seed shall be sound, dry and free from mustiness and carrying intermixed not more than twenty-five per cent of immature or field, stack, storage or other damaged Flax Seed, and weighing not less than fifty (50) pounds to the measured bushel.

Rejected Flax Seed All damp and musty Flax Seed and that carrying intermixed immature or field, stack, storage or other damaged Flax Seed in excess of twenty per cent, and weighing not less than forty six and one half (46½) pounds, shall be graded "Rejected"

No Grade Flax Seed—Flax Seed that is wet, mouldy, warm or in a heating condition or is in anywise unfit for temporary storage, or weighs less than forty six and one half (46½) pounds, shall be graded "No Grade."

Flax Seed that is smoky, burnt, or intermixed with burnt Seed, shall not be known by any grade, but shall be inspected in usual way to determine percentage of impurities, and shall be posted as "Burnt or Smoky Flax."

SEC. 2 In sampling and inspecting Flax Seed received in cars, in bulk, by railroad, a geared screw sampler shall be passed down through the Seed, at not less than seven points equally distributed At each point an equal quantity of Seed shall be taken, aggregating three pounds, which shall be deemed an average sample of car-load. When car is inspected, cards in duplicate shall be written stating the result—the one tacked to Grain door of car, the other attached to sample. Provided, always, should the car be so unevenly loaded, either as to quality or impurity, as to leave a doubt in the mind of the inspector as to correctness of sample, he will not card the car, but note the fact and report to consignee.

SEC. 3. When inspector receives notice to inspect Flax Seed to or from bags, he shall proceed as follows: As the bags are filled or emptied, he shall take from each bag the same quantity. The sample so taken shall be intermixed, and three pounds taken therefrom, which shall be deemed an average sample of lot.

SEC. 4. The inspection of Flax Seed from elevator or warehouse, to lake transportation, shall be made by passing a Grain trier of suitable length through each draught after the Seed has been elevated to shipping scale hopper to be weighed, and drawing therefrom at each filling of hopper an equal quantity. From every ten samples so drawn, an average sample of three pounds shall be taken. On completion of shipment from any elevator or warehouse, an equal quantity of Flax Seed, taken from the accumulated three pound samples, aggregating six pounds, shall be considered an average sample of shipment from that elevator or warehouse.

SEC. 5. The inspection of Flax Seed from elevator or warehouse to railroad transportation shall be made by drawing with Grain trier, samples from eight points equally distributed in car, and taking from each an equal amount, aggregating three pounds, which shall be considered a legal sample.

SEC. 6 To test Flax Seed one pound of average impurity and quality shall be taken from the sample to be tested, and the impurity or foreign matter therein shall be removed as near as practicable, by the use of two sieves, one with meshes three by sixteen, the other with meshes sixteen by sixteen. The per cent of impurity and weight per measured bushel of the commercially pure Seed, shall be determined by the use of proper testing scales. The impurity shall be returned to the Flax Seed, which shall be enveloped and tagged with the result of test, and numbered to correspond with records, and kept on deposit sixty days.

SEC. 7. The inspector, at the date of inspection, shall issue a certificate of inspection, setting forth grade (if Rejected or No Grade the reason why), per cent of impurity, weight per measured bushel, and fees. Also, the name of railroad or vessel by which either received or shipped, the number and initial of car and the number of gross bushels shipped from named elevator or warehouse.

SEC. 8. The inspector shall put on 'Change at the first session of each day, week and month, a tabulated statement showing in detail and totality as follows: The daily All inspections of Flax Seed since last report. The weekly—The amount of Flax Seed in store. The monthly—The inspected receipts and shipments during the month last past.

SEC. 9. On notice from any elevator firm that they are about to receive from a certain railroad, Flax Seed for storage, the inspector shall daily, in detail, report to said firm all Flax Seed inspected on said road. The inspection of all Flax Seed shipped from elevator shall also be reported in full to elevator office.

SEC. 10. The inspector shall lay before the Board of Directors not later than the second Monday after the second day of January each year, a tabular statement of the entire inspected receipts and shipments of Flax Seed the preceding year ending Dec. 31, with such information as may be of interest to the Board. Also, a financial report showing the receipts and disbursements of the office.

SEC 11. Any member of the Board of Trade interested shall have the right of appeal from the decision of the Inspector to the Committee on Flax Seed Inspection, by giving notice in writing and paying to the Secretary of the Board five dollars for each and every case appealed. If the inspection is sustained the five dollars shall be paid to the committee, but if not sustained, to be returned. If practicable the committee shall examine the Seed upon which appeal has been taken. If not practicable, the Inspector shall furnish sample taken by him.

SEC 12. The Board of Trade in establishing the regulations for the inspection of Flax Seed, and appointing an Inspector thereof, assumes no liability or responsibility for errors in judgment or otherwise on the part of the Inspector.

SEC. 13. The fees for inspecting and certifying Flax Seed shall be as follows: For each car or part of car, 75c: for each lot in car divided by bulkhead, 50c, for each 1,000 bushels from elevator or warehouse to lake transportation, 75c; for each two-bushel bag, ½c; for each four-bushel bag, 1c; for each wagon load, 16⅔c Provided, however, that in no case shall the charge for the inspection of Flax Seed be less than 50c.

RULES REGULATING SALES.

All sales of Flax Seed, unless otherwise agreed, are made upon the basis of pure Seed, that is: Seed tendered or delivered on contracts may carry impurity or foreign matter, but must contain the sale quantity of pure Seed, and for such pure Seed only shall payment be required.

In the delivery of Flax Seed from elevator or warehouse, the quantity of gross Seed covered by the warehouse receipt shall be delivered, and any excess or deficiency between the quantity of net or pure Seed so delivered and the quantity of net and pure Seed covered by the warehouse receipt, shall be paid for to or by (as the case may be) the Elevator or Warehouse proprietor or manager, at the average market price of the day of delivery.

ITEMS OF GENERAL INTEREST.

Chesapeake and Ohio earnings are at the rate of about 3 per cent on the common stock.

There has been significant curtailment in the output of Anthracite since July 31 and it is expected to be reflected in the August earnings of the railroads.

The repair shops of the American Refrigerating Transit Company, St. Louis, including sixty-five refrigerator cars, were totally destroyed by fire, Tuesday, entailing a loss estimated at $300,000, fully covered by insurance.

All the surplus Corn States made gains in condition last month They ranged from 1 to 2 points; Kansas and Missouri are exceptions. The former lost 5 and the latter 4 points. The South has remarkably high conditions.

The Chicago *Inter Ocean* says: "The question has been raised recently as to whether, in view of the reported damage to the Wheat crop in the Northwest the same dividend would be paid on "Soo" common stock this fall as was paid a year ago. There is excellent authority for the statement that there will be no change in the dividend this year."

Application has been made to the London Stock Exchange for a special settlement and quotation by the following companies: Central Pacific Railway Company, further issue of $5,740,000 first refunding mortgage 4 per cent guaranteed coupon bonds of 1949; Chesapeake and Ohio Railway Company, $?00,000 additional general mortgage 4½ per cent Gold bonds of 1992, and Chicago, Burlington and Quincy Railway Company, $10,750,000 Illinois Division mortgage 3½ per cent coupon bonds of 1949

The present demoralized condition of the Cattle market, says the Chicago *Drover's Journal*, calls for a halt in the liberal volume of marketing and a more even distribution of receipts throughout the week. The big slump in prices Wednesday was due entirely to the overloading the market received in the run of 23 000, which, in view of the greatly reduced Eastern demand and only partial operating of local plants, was far above buyers' requirements In an interview the president of the National Live Stock Exchange said: "The market in its present condition cannot possibly care for the burdensome arrivals landed here of late, and I would suggest to those having Cattle ready for shipment that they spread their contributions out as much as possible by dividing the same and making two or more shipments instead of one, thus equalizing receipts, avoiding congestion, and saving the heavy decline in values of stock occasioned by excessive arrivals on one or two days each week."

The Union and International Construction companies have been organized by President Stillwell to build parts of the Kansas City, Mexico and Orient Railroad The Union Company, which has a capital of $3,000,000, will build 420 miles of road from Kansas City to Lone Wolf, Ok. The International Company, with a capital of $10,000,000, will build 1,200 miles of road, from the south line of Oklahoma to Topolobampo, Mexico It will receive for each mile of road built $15 000 bonds, $15,000 preferred stock, and $12,500 common stock of the railway company, and $2,500,000 bonds in addition for the heavy work in the Sierre Madre Mountains. The construction companies estimate that, outside of the mountain district, it will cost them about $13,500 per mile to build the railroad. Some railway authorities criticise President Stillwell for giving excessive securities to the construction companies and predict that the Orient line will encounter the same financial difficulties as did the Kansas City, Pittsburg and Gulf Railroad.

DAILY MOVEMENT OF GRAIN AND PRODUCE

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year:

ARTICLES.	RECEIPTS. 1904.	RECEIPTS. 1903.	SHIPMENTS. 1904.	SHIPMENTS. 1903.

EXPORTS—Flour 1,898 brls and 500 sacks, Corn, 1,318 bu, Oats, 160 bu; Corn Meal, 51 brls

E H. Harriman is quoted as saying: "The country is recovering from a speculative debauch. It is recovering slowly, but steadily. We shall harvest a fair Wheat crop, a bumper Corn crop and a bumper Cotton crop. Business men are conservative, but the crisis has passed. The great improvements which have been made on Union Pacific and Southern Pacific are just beginning to be reflected in net earnings."

The receipts of Wheat at Liverpool during the past three days were 216,000 bu, of which 144,000 bu were American. Receipts of Corn, 32,000 bu, of which none were American

Cotton in New York was unsettled Southern weather improved. The South sent buying orders and holders took profits. The latter caused a moderate decline. Closing sales were at 3@7 points lower.

Argentine Wheat visible is 3,680,000 bu, against 3,896,000 bu the previous week, and 2,576,000 bu last year. The Argentine Corn visible is 3,584,000 bu, against 3,112,000 bu the previous week and 4,020,000 bu last year.

Shipments of Wheat from Argentina this week were 1,744 000 bu, against 1,184,000 bu the previous week, and 661,000 bu for corresponding week last year. Shipments since Jan 1 reported at 74,648,000 bu, against 54,620,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 2,562,000 bu, against 2,550,000 bu the previous week and 3,017,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 39,881,000 bu, against 33,120,000 bu for same time last year.

The shipments of Flax Seed from Argentina this week were reported at 401,000 bu, compared with 535,000 bu last week, and 152,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 33,950 000 bu, compared with 20,421,000 bu for the corresponding time last year.

In Local Securities the feature was the strength and advance of 2¼ on Carbon preferred and 1 point on common, but the latter reacted. There is little preferred offered. Chicago Edison gained 2 points. Metropolitan Elevated common gained ¼ Can preferred furnished a good part of the trading and lost ⅛.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 695,-000 bu, against 273,000 bu for the previous week and 707,000 bu for the corresponding week last year. Exports since July 1 were 3,283,000 bu, compared with 6,948,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,232,000 bu, against 1,379,000 bu for the previous week, and 3,416,000 bu for the corresponding week last year. Exports since July 1 were 7,846,000 bu, compared with 18,461,000 bu for the corresponding time last year.

Stocks in New York were strong and higher on spirited buying, "shorts" being active in getting in. A large borrowing demand indicated an oversold condition Railway shares gained ⅛@1⅛. "Soo" advanced 2 points. Tractions were up sharply, but reacted and closed lower. Steel preferred gained ⅜. Money ⅞@1 per cent higher.

The *Modern Miller* says. "The movement of Winter Wheat to market continues quite heavy, although there is a disposition on the part of farmers in some sections of the country to hold for higher prices. The scarcity of choice soft Winter Wheat at the larger markets and at country points is becoming more apparent, as a large percentage of the crop is light weight. The quality of hard Winter Wheat is comparatively much better than the soft "

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is little new to note in this market. More inquiry is reported, both on domestic and foreign account, but buyers refuse to pay the prices ruling.

WINTER WHEAT—Good trade at irregular and declining prices. The early market was steady and some sales made at slightly higher prices than recorded yesterday, which was due to the sharp advance late yesterday in the speculative market after most of the cash business was over The break in the speculative market caused a like decline in cash, and prices receded about 2c from top prices reached. Demand largely speculative. No. 2 Red in store was quotably $1 02½@1 05¼, and fresh arrivals car lots free on board sold at $1 03 @1 05½ No 3 Red fresh receipts, car lots, sold at 96½c@$1 03½, and a poor car sold at 97c. No. 4 Red sold at 94c@$1 01. No. 2 Hard fresh receipts sold at $1 02½@1 04, and No. 3 Hard $1 00½@1 03. No. 3 White sold at $1 02, and No 4 White at 93@98c.

SPRING WHEAT—So little coming that prices were entirely nominal. No. 1 Northern fresh arrivals nominally about $1 10@1 15, and No 2 Northern about $1 05@1 08 No. 3 Spring quotably 95c@$1 05. No 4 Spring quotable at 75@95c.

REGULAR WHEAT—The trade was of more moderate volume, but market at same time was unsettled Feeling, all things considered, was weaker and close 2½c to 2¾@2⅞c lower than yesterday. The start was stronger on the cables, but the advance found large quantities for sale and prices sold off sharply The large Argentine shipments and better weather in the Northwest were "bear" influences. At the decline many of yesterday's sellers reinstated their lines and situation again became steadier. Liverpool quoted spot steady to 1d higher, and futures ⅝@1d better Receipts there the past three days but 216 000 bu London came ¾@1½d higher. Paris was up 1¾@2½c and Antwerp advanced 1⅞c Berlin was up ¼c and Buda Pesth ⅜c better. Cargoes on ocean passage were held 3d higher Argentine shipments were 1,744,000 bu, and total since Jan. 1 aggregated 74,648,000 bu, against 54,6.6 000 bu same period in 1903 The visible there is now reported 3,680,000 bu, against 3,896,000 bu last week, and 2,576,000 bu one year ago. Argentine markets were firm, influenced by the good export demand. Minneapolis wired the impression was growing there that while the rust damage was undoubtedly severe, the damage with reference to yield on the whole has been overestimated. Harvey N. D., wired: "Drove 30 miles. Rust on blades, but no damage. Smut very bad. Prospect 18 bu with two weeks good weather; need rain to fill" Primary receipts were 282,000 bu larger than a year ago and from June 27 to August 8 aggregate 17,-466,000 bu, against 17,637,000 bu in 1903 and 33,325,000 bu in 1902 Exports smaller this week, 1,282,000 bu, and total July 1 to date 7,486,000 bu, against 18,461,-000 bu same period in 1903. Kansas City and St Louis received 494,000 bu, against 212,000 bu one year ago. Minneapolis stocks are expected to decrease 550 000 bu and Duluth decrease 100 0 0 bu. Fair and warmer weather was predicted Northwest outside South Dakota, where showers are probable. *Modern Miller* was construed as moderately "bullish" St Louis wired "Our stock increasing steadily, now 1,400,000 bu Most buyers here past few days are elevators, as millers appear to have slipped out No acceptances on coast Receipts at Duluth 23 cars and at Minneapolis 89 cars, a total of 112 cars, against 146 cars yesterday, 129 cars a week ago, and 114 cars last year Local receipts included 80 cars Winter, none of Spring, no mixed, a total of 80 cars, against 110 cars last year. Included in the above were 2 cars contract grade There were 19 cars and 91,5?0 bu from unlicensed elevators The estimated receipts for to-morrow are 124 cars. Withdrawals to-day were 23,300 bu. Receipts at Western points were 780,309 bu, against 498,019 last year. At Eastern points 68,085 bu, against 213,194 bu last year Shipments from Western points were 524,099 bu, against 311,-919 last year, and from Eastern points 8,850 bu, against 515,145 last year. Shipments of Flour were 17,393 brls. Exports of Wheat in Flour were equal to 86,623 bu

Future Deliveries of Regular Wheat—Active and closed lower.

SEPTEMBER Old Style—Sold at $1 02¾@1 05¾. Opened with sales at $1 05¾ to $1 05½; sold to $1 05, to $1 0 ¼, to $1 04⅞, to $1 04⅛, to $1 03½, to $1 04½, to $1 03¼, to $1 02¾, and closed nominally $1 02¾

SEPTEMBER—New Style—Sold at $1 01@1 01⅛, and at $1 01⅛. Opened with sales at $1 01¼ to $1 03⅞; sold to $1 04, to $1 01⅛, to $1 03¼, to $1 03⅝, to $1 02¾, to $1 03, to $1 01⅞, to $1 02¾, to $1 02⅜, to $1 03½, to $1 02⅝, to $1 03¼, to $1 02¼, to $1 02½, to $1 01¾, to $1 02¼, to $1 01½, to $1 01⅜, to $1 01@1 01⅛, and closed at $1 01⅛ bid

DECEMBER—Sold at $1 00@1 03½. Opened with sales at $1 0?¼ to 1 03½; sold to $1 02¼, to $1 02⅝, to $1 01⅞, to $1 02, to $1 01⅝, to $1 02, to $1 00⅞, to $1 01¼, to $1 00¾, to $1 02, to $1 01, to $1 01¼, to $1 00¾, to $1 01, to $1 00⅝, to $1 0 ¾, to $1 00, and closed at $1 00@1 00⅛

MAY—Sold at $1 01½@1 04½. Opened with sales at $1 01¼ to $1 04½; sold to $1 03¾, to $1 04⅛, to $1 03¾, to $1 04, to $1 03¼ to $1 03½, to $1 02½, to $1 03, to $1 02⅞, to $1 03¼, to $1 03, to $1 03⅝, to $1 02⅜, to $1 02⅞, to $1 02⅞, to $1 02½, to $1 01½, to $1 01¾, and closed at $1 01¾ sellers

CORN—A good trade and rather unsettled market, sentiment being very divided, the close, however, showing ⅝@¾c to ⅞c decline. The start was very irregular and market soon afterward broke badly, cash and commission houses, as well as locals, selling freely. Wheat was weaker, Argentine shipments large, and the map fairly favorable At the decline professionals and "shorts" purchased, the Southwest also being a considerable buyer of May, and the market displayed more strength, but the advance was not maintained. Private crop advices were again rather more "bullish." St. Louis wired that stockmen were sending in very bad reports on Corn. Terre Haute, Ind, wired that Corn needed rain badly and Kansas City wired a good many complaints of Corn not doing well. New York wired: "Just got a cable from a prominent Liverpool house saying Austria-Hungary was bidding for Corn in Argentina." The above message had a tendency to improve the demand for the deferred deliveries. Argentine shipments were 2,562,000 bu and total since Jan. 1 39,881,000 bu, against 33,120,000 bu for the same period in 1903. The visible there is now 3,584,000 bu, against 3,112,000 bu one week ago and 4,020,000 bu one year ago. Foreign demand there reported to be falling off and markets easy. Arrivals from interior liberal. Receipts were 149 cars; last year 147 cars, and 128 cars estimated to-morrow. Southwestern markets were firm. Western receipts 325,000 bu; last year 258,000 bu. Shipments 95,000 bu and 376,000 bu respectively. Local arrivals 235,000 bu and shipments but 13,000 bu. Clearings for the week 695 000 bu and since July 1 3,283 000 bu, against 6,948,000 bu one year ago. Local shipping operations restricted owing to the recent sharp advance. Car lots in good demand: prices steady. No. 2 closed at 54c. No 2 Yellow closed at 55¼c. No. 2 White sold at 54⅝c. No. 3 closed at 53¾c No. 3 Yellow sold at 55¼@56c and closed at 55¼c. No. 4 sold at 53½@55¼c.

Corn by sample—Demand was fair, and offerings rather moderate. Feeling steady and prices without special change. Sales on track and free on board. No Grade sold at 47½c. No 4 at 49@55½c. No. 3 at 54¼c. No 3 Yellow at 55½@56c. No. 2 Yellow at 56¼@56½c. No. 3 White at 55c. Billed through. No. 4 at 52@54½c. No. 3 at 53¼c. No. 3 Yellow at 54¾@55c No. 2 Yellow at 54¾@55c. No. 3 White at 53½c No. 2 White at 53¾c.

Future Deliveries of No. 2 Corn—Active and firm early, but weakened and closed ⅝@¾c and ⅞c lower.

AUGUST—Inactive and closed at 53c

SEPTEMBER—Sold at 53⅝@54⅝c. Opened at 54⅝c to 54⅜c and sold at 54c, to 54⅜c, to 53⅝c, to 54c, to 53⅞c to 54c, to 53½@53⅝c, to 53⅞c, to 53½c, to 53⅜c to 53⅝@53¾c, and closed at 53⅝@53¾c.

DECEMBER—Sold at 50½@51¾c Opened at 51¾c to 51¼c, and sold at 51⅝c, to 51c, to 51⅝c, to 50¾c, to 51¼c, to 50⅞c, to 51c, to 50¾c, to 50½c, to 50¾c, to 50⅝@50¾c, and closed at 50⅝@50¾c

MAY—Sold at 49¾@51c Opened at 51c to 50⅝c, and sold at 50¼@50⅜c, to 50⅜c, to 50¼c, to 50½c, to 50⅝c, to 50⅛@50¼c, to 50½@50⅝c, off to 49¾c, to 50c, and closed at 50c.

OATS—Were active. The selling was better than the buying. Prices advanced ¼c, but broke ⅞@1c, and closed ⅝@¾c lower There was good buying of September and selling of December. The break in other Grains was a factor. A good deal of "long" stuff came out and some "shorts" covered around the top Arrivals were 325 cars with 317 cars expected to-morrow. Seaboard clearances were small Cash sales 50,000 bu Car lots to go to store were steady to ¼c lower. No 3 White sold at 34½@35¼c. Standard at 35¼@35½c. Standard in store closed at 33⅞@34c.

Oats by sample were in fair demand and firm. Prices steady to ¼c lower. Sales on track and free on board: No Grade new at 31c No. 4 White new 34¼c old at 33c, No 3 new at 33c, old at 32½c. No. 3 White new at 34½@35½c, old at 36@37c. Standard new at 34¾@35¼c No 2 new at 32@33c No 2 White new at 35¼@36c. Billed through—all new—No. 4 at 31c. No. 4 White at 34@34½c. No. 3 White at 34½@35c Standard at 34¼@35¼c. No. 2 at 31½@32c. No. 2 White at 35@35½c. At the river all new. No Grade at 32½c No 4 White at 33¼c. No. 3 White new at 33¼@34c Standard at 34@34½c. No 2 White at 34½c

Future Deliveries of Contract Oats Stronger at the start and lower at the close

AUGUST—Closed at 33⅞c

SEPTEMBER—Active. Sold at 33¾@33⅞c and at 34⅞c Opened at 34⅝c to 34⅞c, sold to 33¾@33⅞c, to 33⅞c at close

DECEMBER - Active Sold at 34⅛@35⅞c. Opened at 35⅝c to 35⅞c, sold to 34¾c, to 34⅞c at close

MAY Heavily traded in. Sold at 36⅝@37⅜c. Opened at 37½c to 37⅝c, sold to 36⅝c, to 36¾c, at close.

RYE—The market was steady There was light trading in cash on speculative and milling account. Trading in futures restricted to a small business in December Receipts seven cars and taken from private warehouse one car. No. 2 fresh receipts to go to store sold at 71c and free on board at 71c. No. 4 sold at 67c and not graded at 69c.

Future Deliveries of No. 2 Rye—Quiet and steady. September 7?c bid and 70½c asked December sold at 72c.

BARLEY—Of new Barley the offerings showed some increase: of old a decrease. Nothing very good in way of old now coming, it runs to Screenings or feed Barley. New was usually good, but varying somewhat in weight and color; there was a little thin light weight Maltsters not much interested yet, though they would buy. There was a very fair demand for pearling, and this helped to clean up the market A steady to firm feeling prevailed. All grades were salable, and would bring up to full late quotations Three cars inspected in, but more than this offered, about 10 cars of new having been sold Old Barley prices quotable as follows. Screenings, 30@38c for poor to choice; some sold at 38c Feed Barley, common to good, 33@40c and a sale made at 40c. Malting, low grade, was quotable 39@40c; fair to good, 42@45c New Barley, thin, sold down to 41c Fair to good malting, depending on weight and color 45@49c, and choice to fancy quotable at 50@52c

SEEDS—Were dull and quiet, in fact, there was really no business. Timothy ruled dull and heavy and Flax prices receded somewhat from late advance Nothing developed in Clover or other lines

Timothy—The market was dull with next to nothing done September delivery sold early at $3 05 and at the close it was resold to the party from whom it had been purchased. It closed at $3 05 asked and $3 02½ bid. There was no essential change. October was offered at $3 10 and $2 90 was bid. Contract spot Seed offered at $3 00 with no regular bids. It was a dull heavy market. No cash Seed offered and no special demand for it Outside order demand said to be very slow Some to arrive lots offered and no one seems to care to bid on them. Cash country lots quotable at $2 00 @2 90 for low grade to fancy; choice about $2 80@2 85 fair to good Seed $2 65@2 75 and rough at $2 45@2 55 Good quality new about $2 75@2 80, choice possibly above.

Flax—Prices were quoted 1c lower, based on decline in the Northwest, not on tractions. No business doing. The market was devoid of offerings One car or 900 bu received and none taken out At Minneapolis there were no receipts, at Duluth 8 cars were received. No. 1 Northwestern or No. 1 from the Northwest nominally $1 25½ bid. No. 1 salable at $1 18. Rejected nominal at $1 13@1 17, depending on quality September, $1 18 bid

Clover—Entirely neglected, lifeless and nominally unchanged New October delivery, contract grade, nominal at $12 25. Contract spot Seed was quoted at $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75

HOG PRODUCTS Quite an active speculative business was transacted in Hog Products, and the feeling was unsettled. Hogs were in good supply and lower, and "longs" in September and October contracts were disposed to liquidate. As the market lacked general support, the feeling was weak during the greater portion of the session Prices ruled lower on all the leading articles Toward the close a little more steadiness was manifested, and prices rallied considerably, but declined quite sharply again, and the market closed comparatively easy Receipts of Hogs at the leading Western packing points were estimated at 59,500, compared with 49,500 one year ago. Foreign markets were steadier, and Liverpool quotations were advanced 6d on Hams and Backs. Domestic markets steady. Receipts of Products were fair—of Lard and Meats about 11 cars. Shipments were moderate—of Lard and Meats about 85 cars. Shipping demand was fair, and offerings were moderate. Sales were fair at about former prices.

Mess Pork—Rather an active business was transacted in Mess Pork, and the market was unsettled. Offerings were free from miscellaneous sources, while the demand was only fair. "Longs" sold liberally. Market opened at 10c decline, and a further reduction of 32½@35c was irregularly submitted to Later, a steadier feeling was manifested, with moderate buying, and prices rallied 10@12½c, but declined again 12½@15c, and the market closed comparatively easy Demand on shipping account was fair, and offerings were moderate. Cash lots quotable at $11 50@11 62½.

AUGUST—Demand light and offerings were moderate. Sales were made at $11 35@11 55, and closed at $11 35

SEPTEMBER—Offerings were liberal and the demand was fair. Sales were made at $11 50@11 85. Opened at $11 85, sold to $11 80, to $11 85, to $11 72½, to $11 75, to $11 67½, to $11 75, to $11 55, to $11 62½, to $11 60, to $11 67½, to $11 65, to $11 67½, to $11 50, and closed easy.

OCTOBER—In fair request and offerings were rather free. Sales were made at $11 60@11 95. Opened at $11 90 to $11 95, sold to $11 82½ to $11 85, to $11 80, to $11 82½, to $11 67½, to $11 72½, to $11 70 to $11 77½, to $11 75, to $11 77½, to $11 60, and closed easy.

DECEMBER—Quiet, with small sales at $11 50@11 60.

JANUARY—Called for moderately and offerings were not very large. A few trades were made at $12 77½@12 95, and closed steady at $12 70

Lard—A little more interest was manifested in the market for Lard and the feeling was unsettled. Foreign advices were unchanged. Offerings were fair, and the demand was moderately active. A little pressure to sell caused a weak feeling early, and prices receded 5@7½c Later, there was considerable strength manifested, with fair miscellaneous buying, and prices were advanced 12½@15c, and the market closed rather steady at nearly outside figures. Demand on shipping account was reported fair with no particular pressure to sell Cash lots quotable at $6 72½@6 72½ Loose lots in fair request with limited offerings. Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 25 Neutral in only limited demand, with fair offerings. Prices quotably steady at $7 50@7 62½ for No 1, and $7 12½@7 25 for No. 2.

SEPTEMBER—Demand was fairly active, and offerings were moderate Sales were made at $6 65 @6 80 Opened at $6 70, sold to $6 72½, to $6 65 to $6 80, to $6 75, to $6 80, to $6 75, and closed steady.

OCTOBER Offerings were moderately free, and the demand was fair. Sales were made at $6 72½@6 90 Opened at $6 77½ to $6 82½, sold to $6 80, to 6 82½ to $6 72½@6 75, to $6 90, to $6 82½, and closed steady.

JANUARY—In fair request and offerings were moderate. Sales were made at $6 80@6 97½, and closed steady at $6 90.

Short Rib Sides Trade was fair in the market for Short Rib Sides, and the feeling was unsettled. Offerings were moderately active, and the demand was fair, and chiefly on local account At the opening, there was a little pressure to sell and prices were about 2½c lower, but the offerings were larger than the requirements, and prices declined 10@12½c Toward the close, the feeling was stronger, and prices rallied 7½@10c, but receded again 2½@5c, and the market closed steady Demand on shipping account was moderate, and offerings were only fair Cash lots were quotable at $7 37½@7 50 according to weight

SEPTEMBER—Demand was fair and offerings were moderately free. Sales were made at $7 40 @7 50 Opened at $7 50, sold to $7 40, to $7 50 to $7 45, and closed steady.

OCTOBER—Offerings were moderately free and the demand was fairly active. Sales were made at $7 40@7 52½. Opened at $7 47½, sold to $7 50@7 52½, to $7 40, to $7 50, to $7 45, and closed steady

JANUARY—Demand light and offerings were moderate Sales were made at $6 65@5 72½, and closed steady at $6 65

Other Meats—Trade was only fair, and mainly on domestic account. Exporters bought only sparingly. Offerings moderate, and the inquiry only fair Green Meats in limited supply with a light inquiry and prices steady Pickled Meats in fair request, with only moderate offerings, and prices were unchanged. Dry Salted Meats were in fair demand with moderate offerings, and prices were easier Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows

GREEN—Hams, av 10@12 lbs, 9¾@9⅞c; 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9¾c; 18@20 lbs, 9¾@9⅞c; Skinned Hams, 11½@11¾c; Shoulders, 6⅞@7c; Picnic Hams, 7¼@7½c Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9¾@9⅞c; 14@16 lbs, 9¾@9⅞c cash, 9¾@10c August; 18@20 lbs, 10@10¼c; Skinned Hams, 11½@11⅝c cash, 11⅝@11¾c August, Shoulders, 7⅝@7¾c: Picnic Hams, 7⅞@8c; Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7⅝@7¾c. Short Fat Backs, 6¼@7¾c, Short Clear Backs, 8½@9c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c, Extra Short Rib Sides, 7¼@7¾c Extra Short Clear Sides 7¼@7⅝c; Rough Sides 7¼@7⅜c; Plates, 5¾@5⅞c; Jowl Butts, 5@5⅜c EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10½c Cumberland Sides 9@9¼c; Long Clear Sides 9@9¼c; Extra Long Clear Sides, 8@8¼c; Short Clear Sides, 8@8¼c SMOKED—*loose*—Hams 11¼@11¾c, Skinned Hams, 12¼@12¾c Shoulders, 8⅞@9c Picnic Hams, 9@9¼c, Short Rib Sides, 7⅞@8c, Rough Sides, 7⅞@8c, Short Clear Sides, 8⅛@8¼c, Extra Short Clear Sides 7⅝@7¾c; Breakfast Bacon, 11½@12c

AVAILABLE SUPPLY OF BREADSTUFFS.

EUROPE AND AMERICA.

Compiled by Broomhall's Corn Trade News, Chicago Daily Trade Bulletin, and Minneapolis Market Record.

Foreign Supplies of Breadstuffs.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool—correspondent of the Chicago Board of Trade, and regarded as the leading commercial authority in Europe—to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat - in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on August 1, 1904, exhibited a decrease equal 10,712,000 bu during July, compared with a decrease of 8,324,500 bu during June, and a decrease of 10,980,000 bu during July, 1903. The aggregate quantity of Breadstuffs afloat for Europe on August 1, 1904, exhibited a decrease of 6,470,000 bu during July, compared with a decrease of 7,300,000 bu during June, and a decrease of 7,080,000 bu during July, 1903. Supplies enroute to the United Kingdom were reduced 3,150,000 bu, those for the Continent decreased 3,600,000 bu, and those "for orders" reduced 720,000 bu. The aggregate supplies afloat for Europe August 1, 1904, were 13,160,000 bu larger than reported one year previous, and 15,380,000 bu larger than reported two years previous. During July, 1904, the aggregate supplies in store in the principal countries of Europe were reduced 4,680,000 bu, compared with an increase of 590,000 bu during June and a decrease of 3,850,000 bu during July, 1903. Stocks in the United Kingdom were reduced 1,020,000 bu, those in France were reduced 610,000 bu, those in Germany, Belgium and Holland reduced 1,210,000 bu, those in Russia reduced 1,550,000 bu, and those in other portions of Europe reduced 300,000 bu. Stocks in Russia were reduced 1,160,000 bu during June, and decreased 2,190,000 bu during July, 1903. Supplies in store in Russia are about 1,700,000 bu more than those reported one year ago, and 2,160,000 bu more than reported two years ago. The aggregate stocks in store in Europe on August 1, 1904, were 7,910,000 bu more than reported one year previous, and 12,242,000 bu more than reported two years previous. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on August 1, 1904, were 2,570,000 bu more, those for the Continent 6,900,000 bu more, and those "for orders" 11,600,000 bu more. The aggregate supplies of Breadstuffs credited to Europe in all positions on Aug. 1, 1904, were 20,070,000 bu more than reported on August 1, 1903, and 27,980,000 bu more than on Aug. 1, 1902. Farmers in Europe appear to be selling fair quantities of Wheat, and the exports are rather liberal. Weather for harvesting has been quite good. In the United Kingdom the yield will be smaller, owing to decreased area. Threshing in France is progressing favorably, with some reports of shriveled Grain, and the quantity will be somewhat less than in 1903. Drouth in Germany is interferring with the crop in that quarter. Advices from Russia indicate a little more encouraging prospects for Spring Wheat. In Roumania, Austria and Hungary, the crop will be considerably less than reported last year. In Italy, the threshing returns are disappointing Little change to note in the other European countries. Crops in Argentina and Australia are reported in good condition, and these countries, with India, are shipping Wheat freely.

Domestic Supplies of Breadstuffs.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States and Canada, on August 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record*, exhibited a decrease during July equal to 1,463,000 bu, compared with a decrease of 11,155,000 bu during June and an increase of 25,000 bu during July, 1903. Through the Eastern States, in the Northwest, on the Pacific Coast, and in Canada supplies were generally reduced. Through the Central West, the South and Southwest supplies were somewhat enlarged, mainly due to the marketing of the new Winter Wheat crop. Supplies of Flour in the United States and Canada at the larger shipping and manufacturing points on August 1, 1904, exhibited a decrease of 111,000 brls during July, compared with a reduction of 306,000 brls during June and a decrease of 64,000 brls during July, 1903. Stocks were reduced considerably at the Atlantic seaboard markets and slightly in most sections of the West—except in Ohio and Michigan—and in the Northwest and Canada. Supplies on the Pacific Coast were enlarged moderately. Manufacture was not very large, as millers were cautious, owing to the high prices prevailing for Wheat and the dullness of the export trade. The following table exhibits the stocks of Flour in the principal markets of the United States on the dates named:

Cities—	Aug. 1, 1904. Brls.	July 1, 1904. Brls.	Aug. 1, 1903. Brls.
Philadelphia	160,000	170,000	75,000
New York	72 800	96,500	50,000
Chicago	30,750	39,500	50,000
St. Louis	30,300	46,100	45,700
Toledo	4.000	5,000	4,000
Baltimore	36,000	40,000	37,000
Detroit	7,000	8,000	6,000
Boston	67,979	77,850	61,309
Milwaukee	56,100	51,350	65,000
Duluth	248,000	273,000	215,000
Total	712,829	807,300	609,009

Stocks of Flour at these points were reduced 94,471 brls during July, compared with a decrease of 245,799 brls during June, and a decrease of 76,918 brls during July, 1903. The aggregate supplies of Flour at these markets on August 1, 1904, were 103,329 brls more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on August 1, 1904, were 336,779 brls, compared with 384,350 brls on July 1, and 231,609 brls on August 1, 1903. The aggregate supplies of Flour in all positions on August 1, 1904, were 122,000 brls more than reported one year previous, and 34,000 brls less than reported two years previous.

During the month of July the supplies of Wheat in the United States and Canada were reduced 963,000 bu, compared with a reduction of 9,778,000 bu during June, and a increase of 314,000 bu during July, 1903. Supplies were reduced at the Atlantic seaboard markets, on the Pacific Coast and in Canada, and enlarged considerably in the South and Southwest. Supplies in the Northwest were reduced 2,707,000 bu, compared with a decrease of 4,893,000 bu in June, and a reduction of 4,285,000 bu in July, 1903. Supplies in the interior elevators of the Northwest were decreased 902,000 bu, compared with a decrease of 63,000 bu during June, and a decrease of 648,000 bu during July, 1903. Stocks were reported at 336,000 bu, compared with 1,268,000 bu on July 1, and 315,000 bu on August 1, 1903. The aggregate supplies of Wheat in the United States and Canada on August 1, 1904, were 3,216,000 bu less than reported one year previous, and 14,745 000 bu less than reported two years previous.

Supplies at Home and Abroad.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in second hands in the United States and Canada on August 1, 1904—including a larger number of points than in any other compilation—were equal to 111,152,000 bu, against 123,327,000 bu on July 1 and 93,266,000 bu on August 1, 1903. The decrease during July was equal to 12,175,000 bu, compared with a decrease of 10,265,000 bu during July, 1903. The aggregate supplies in all positions in America, Europe and Argentina on August 1, 1904, were 17,886,000 bu more than reported one year ago and 16,179,000 bu more than reported two years ago.

Flour Trade During July.

According to the reports received by the DAILY TRADE BULLETIN there was a fairly good trade in Flour during July. Supplies in retailers' hands were somewhat reduced and they were disposed to replenish their stocks to some extent. Considerable conservatism was manifested, and the bulk of purchases were only of sufficient quantities to meet temporary requirements. Millers were not inclined to manufacture Flour very freely, owing to the uncertainty of the Wheat crop and the apparent high prices demanded for Wheat, and aggregate supplies on hand were reduced. As a rule they were not disposed to contract Flour ahead unless they could replenish their Wheat stocks at satisfactory figures. The export demand for Flour was light—the smallest in many months—and this was a discouraging feature, especially to some of the larger manufacturers, who in a general way depend on a diversified trade. Some mills were closed in the Spring Wheat sections in the way of the annual overhauling and cleaning up preparatory to grinding the new crop. In the manufacturing districts, where the smaller mills are located, the production was fair, as it could be disposed of quite readily. Trade, as a rule, was on rather close margins, as millers were a little anxious to keep their trade active in a moderate way. In New England, the Flour trade was slow and confined to moderate quantities for home requirements. In New York, the general trade was rather good for domestic wants, and the domestic inquiry was small. Millers in Pennsylvania enjoyed a fairly good trade, especially in the larger manufacturing towns, but very few export orders were accepted. In Maryland, the demand for Flour was fairly good, and almost exclusively for home wants. In Virginia and West Virginia, there was a fairly good trade in moderate quantities for home requirements. In Kentucky, there was a fairly good general demand, and the production was readily disposed of. Millers in Tennessee reported a fairly good trade, almost exclusively for domestic requirements, and supplies were reduced materially, especially at the larger cities. In Ohio, the production of Flour was rather liberal, and the general demand was only fair. Stocks show a material enlargement, especially at some of the larger manufacturing points. Export orders light. In Michigan, only a fair business was transacted, and mainly to meet home wants. Reports from Indiana indicated a little improvement in the general trade, but very few export orders accepted, and supplies slightly reduced. In Illinois, there was a fairly good demand for small lots to meet current wants, and a few export orders were provided for. Stocks exhibited a fair reduction. Advices from Missouri indicated that the production of Flour was moderate and the demand fairly active, especially for home wants Stocks were reduced considerably. In Kansas, the demand was fairly good and chiefly for home wants. Millers in Oklahoma reported a fairly good trade, and the advices from Texas indicated considerable activity in that quarter. In Iowa and Nebraska, only a conservative business was transacted—a little more than the general production—and exclusively for domestic wants. In Wisconsin, there was a fair general miscellaneous trade in moderate quantities to supply current wants. In the Northwest, the Flour trade was somewhat dull and dragging, especially at the larger manufacturing centers Export bids were below the views of millers and the home demand was moderate. Production was considerably reduced. Stocks continue fairly large. In the Rocky Mountains district trade in general was on a limited scale. On the Pacific Coast there was a fair trade in Flour, with a fair proportion for export. Millers in Canada reported only a fair trade with only a limited proportion for export.

Wheat Movement During July.

The movement of Wheat from the farms of the United States during July was only fairly liberal—about 39,000,000 bu, compared with 46,000,000 bu in July, 1903. Unfavorable weather early in the month checked threshing operations, and the movement in general was on a moderate scale. During the latter part of the month the offerings of Wheat were materially enlarged, especially in the Central West, South and Southwest, while the movement in the Northwest was well maintained—much larger than anticipated. Farmers have disposed of a good share of the old Wheat they held. Millers accepted fair quantities of the new crop, especially in the South and Southwest, though they were slow to meet the views of buyers, who are rather independent about selling, as the crop is not turning out as favorably as anticipated. Inspection returns indicate that the quality is not quite as good as expected though there is a liberal proportion of good milling Wheat, especially in sections, outside of the flooded districts of the Southwest. In New England, the receipts from the West were fair, and the exports were moderate. In New York, the offerings in the interior were small, with fair arrivals at the seaboard. In Pennsylvania, farmers were rather independent in their views, and offerings were moderate. In Maryland, the movement was fair, with a moderate increase in supplies. In Virginia and West Virginia, the offerings were fairly large of the new crop, and millers accepted moderate quantities. Advices from Kentucky indicated rather a good movement, and in Tennessee the offerings were fairly liberal. Returns from these two states favor a larger yield than generally anticipated. In Ohio the movement was only fair, as farmers were slow to sell, and there was little change in supplies. In Michigan the offerings were limited—not sufficient to meet current requirements. In Indiana the offerings were only moderate, but supplies were enlarged somewhat, especially in sections where the yield was fairly good. In Illinois the movement was rather good, particularly in the southern portion of the state, and supplies were enlarged. In Missouri the offerings were light early in the month, but rather free toward the close, and the stocks exhibit a material increase. About the same condition of affairs prevailed in Kansas, excepting that a greater proportion of the offerings were forwarded to markets outside the state. Millers bought moderately of the better grades. In Oklahoma the movement was rather free in most sections, and reports from Texas indicated quite liberal offerings in that quarter. In Iowa and Nebraska, there was little Wheat offered, owing to the bad weather, and supplies were reduced. Advices from Wisconsin indicated a comparatively light movement in all sections. In the Northwest, the movement was rather free for the season of the year—somewhat in excess of that of one year ago. Supplies were reduced somewhat, partially due to shipments by lake. Interior warehouse supplies reduced materially. In the Rocky Mountains district the offerings were comparatively light. The movement on the Pacific Coast was small, particularly in California, and supplies were reduced. In Canada, the offerings were on a moderate scale, and the stocks in all quarters show a material decrease.

Wheat Crop Returns.

The returns of the Winter Wheat crop as received by the DAILY TRADE BULLETIN do not vary much from those issued by the Department of Agriculture, excepting in Kentucky, Tennessee, Missouri, Kansas, and California. In the first four named States our returns indicate yields ranging from 1 to 4½ bu more, and in the aggregate 10,000,000 to 12,000,000 bu more. This is particularly the case in Missouri, where the outlook favored a very good crop. In California, general indications point to an excess by the Department of Agriculture of 6,000,000 to 7,000,000 bu, owing to the large area cut to Hay.

The outlook for the Spring Wheat crop is very uncertain. The Department of Agriculture has taken some notice of the damage to rust in South Dakota, as the condition was reduced 12 points, while in North Dakota there was a decrease of 5 points, and in Minnesota of 2 points. After the July report was issued the outlook was further improved, and private estimates reached as high as 230,000,000 to 240,000,000 bu for the three Northwestern States. The damage since that time has been considerable, and it cannot be stated with definiteness for at least two weeks yet. The Department of Agriculture may revise its acreage in North Dakota, as most parties claim that it is about 10 per cent too small. Final return will probably show a slight increase in the yields of Oregon, Washington and Idaho.

WORLD'S AVAILABLE SUPPLY—MONTHLY STATEMENT.

STOCKS IN EUROPE AND ARGENTINA.

The following table exhibits the approximate available supply of Breadstuffs in second hands in the principal countries of Europe and in Argentina, with the quantities afloat for the United Kingdom and Continent on the dates named:

	Aug. 1, 1904. Bushels.	July 1, 1904. Bushels.	Aug. 1, 1903. Bushels.
Afloat for United Kingdom	10,590,000	12,740,000	12,260,000
Afloat for Continent	11,220,000	14,820,000	7,990,000

ACREAGE AND PRODUCTION OF WHEAT

The following table exhibits the estimated acreage and production of Wheat in the United States for 1904, according to the DAILY TRADE BULLETIN estimate on the August report of the Department of Agriculture, compared with the production reported in 1903:

STATES. WINTER.	1904. Acreage.	1904. Yield, bu.	1903. Yield, bu.
Ohio	1,486,000	16,159,000	24,538,000
Michigan	703,000	6,880,000	10,534,000
Indiana	1,361,000	12,511,000	23,994,000
Illinois	1,561,000	21,542,000	29,120,000
Missouri	2,948,000	27,413,000	22,194,000
Kansas	5,230,000	52,254,000	87,589,000
Oklahoma	2,814,000	33,304,000	47,150,000
Kentucky	645,000	7,353,000	7,727,000
Tennessee	808,000	9,342,000	7,693,000
New York	675,000	5,398,000	9,081,000
New Jersey	104,000	1,383,000	1,584,000

Total	173,147,000	185,?97 000	191,076,000	84,835,000

Wheat Yield and Distribution—Consumption per Capita.

The DAILY TRADE BULLETIN presents the following figures of the population of the United States, the aggregate supplies of Wheat in all positions, and the distribution of the same, for the past ten harvest years, compiled from official sources, excepting the supplies reported in second hands:

DISTRIBUTION OF WHEAT CROP FOR TEN YEARS.

Harvest Year.	Population, United States, Dec. 31.	Crop Harvested. Bushels.	Total Supplies: Supply on hand at opening of harvest year: In Farmers' Hands. Bushels.	In Second Hands. Bushels.	Total Supply. Bushels.	Total Distribution: Seeding. Bushels.	On hand at close of harvest year: In Farmers' Hands. Bushels.	In Second Hands. Bushels.	Exports for Year. Bushels.	Remaining for Consumption. Bushels.	Consumption, Per Capita.
1894-5	68,355,000	460,000,000	40,000,000	82,000,000	582,000,000	52,000,000	31,000,000	78,000,000	145,000,000	278,000,000	4.07
1895-6	69,770,000	467,000,000	31,000,000	76,000,000	574,000,000	51,000,000	34,000,000	79,000,000	126,000,000	284,000,000	4.07
1896-7	71,185,000	428,000,000	34,000,000	79,000,000	541,000,000	52,000,000	30,000,000	39,000,000	145,000,000	275,000,000	3.86
1897-8	72,590,000	530,000,000	30,000,000	39,000,000	599,000,000	59,000,000	18,000,000	26,000,000	217,000,000	281,000,000	3.87
1898-9	74,012,000	675,000,000	16,000,000	26,000,000	717,000,000	68,000,000	65,000,000	68,000,000	223,000,000	295,000,000	3.98
1899-1900	75,432,000	547,000,000	65,000,000	68,000,000	680,000,000	66,000,000	51,000,000	85,000,000	186,000,000	292,000,000	3.88
1900-1	76,935,000	522,000,000	51,000,000	85,000,000	658,000,000	64,000,000	31,000,000	60,000,000	216,000,000	287,000,000	3.75
1901-2	78,500,000	748,000,000	31,000,000	60,000,000	839,000,000	70,000,000	52,000,000	46,000,000	235,000,000	136,000,000	5.55
1902-3	80,070,000	670,000,000	52,000,000	46,000,000	768,000,000	75,000,000	43,000,000	35,000,000	213,000,000	412,000,000	5.14
1903-4	81,863,000	638,000,000	43,000,000	35,000,000	716,000,000	76,000,000	37,000,000	35,000,000	121,000,000	418,000,000	5.49

As might be supposed, the changes presented in the consumption per capita will attract some attention, but the figures are mainly from official sources. It is well known that the public generally, and the commercial press particularly, regarded the crops eight to ten years ago as materially under-estimated. The reports of the Department of Agriculture at that time were not collected and compiled on any systematic basis, and they were issued in what might be termed a "speculative atmosphere." The reports were no doubt privately given out in advance, and in some cases somewhat biased. This was so apparent in a general way, creating considerable comment and dissatisfaction, that the subject was brought to the attention of the National Board of Trade, and a committee appointed by that body to confer with the Secretary of Agriculture to suggest some system by which more accurate estimates of the crops could be made. While some of the recommendations of the committee were accepted, it was evident thereafter that the Statistican at that time did not appreciate or adopt them, and left a faulty basis and doubtful reports of the crops as a legacy to his successor, who could do very little in the way of reform until his forces were re-organized and a more reliable system agreed upon.

The crop returns of the census of 1900 presented such a marked contrast with those issued by the Department of Agriculture, that public attention was again drawn to the matter, and again the National Board of Trade appointed a committee to investigate the systems of both departments, and endeavor, if possible, to reconcile the differences presented. This investigation proved that the census system was faulty inasmuch as the acreage was over-estimated, and the crop yields consequently too large, and the Department of Agriculture was not in perfect working order, inasmuch as its Statistical section was a Division and not a Bureau—to a great extent a training school for a degree of clerical proficiency required in a Bureau at more liberal compensation.

The report of this investigation committee created considerable comment, and at first was regarded by officials as unwarranted by the testimony taken. However, the same parties who at first censured the report of the committee, are now willing to commend it, and it is safe to state that the census officials will endeavor to avoid the errors pointed out to them in their future compilations. The suggestion of the committee that the Statistical section of the Department of Agriculture be raised from a Division to a Bureau was endorsed by the Secretary of Agriculture to Congress and passed both Houses, and is now a law.

The National Board of Trade may not have accomplished as much as it members desired, but the above result shows that Government officials are now willing to accept suggestions from outside parties, when properly presented to them, and to readily improve any work under their care—avoiding all errors, and presenting their work creditably to the public, and, as much as possible, outside the pale of comment.

All crop reports are estimates, whether private or official, but the compilers thereof should compile them carefully and present them as correctly as possible to the public. The crops previous to the census report of 1900, were generally regarded as underestimated, and the commercial press adopted the following as representing fair yields of Wheat for the years named: 1894—515,000 000 bu; 1895—500,000 000 bu; 1896—450,000,000 bu; 1897—575,000,000 bu; 1898—710 000,000 bu; 1899—600 000,000 bu, and 1900 560,000,000 bu. If these estimates of the crops should be accepted, the consumption per capita would be about as follows: 1894-5—4 87 bu; 1895-6—4.56 bu; 1896 7—4 03 bu; 1897-8—4 49 bu; 1898-9—4.46 bu; 1899-1900 4 57 bu; 1900 1—4.22 bu. It is evident that even with these estimates, the crops were stated too low. Within the past five years the consumption of "breakfast foods," produced largely of Wheat, by corporations capitalized at large sums—and profitably, too—has been greatly enlarged. While the consumption of Wheat per capita has been materially increased within recent years, it probably is not quite as large as demonstrated by the supply and distribution of the past year, as there was undoubtedly a small proportion of the crop unmerchantable, owing to weather damage, and was used to advantage on the farms.

As an instance of the unreliability of the Department of Agriculture figures at that time, it may be stated that the returns received on March 1, 1895, indicated that 125,000,000 bu of Wheat remained on the farms on that date. This was regarded too high, and the quantity was reduced to 75,000 000 bu—the smallest in years—on the presumption that more Wheat than usual had been fed to Live Stock. At that time there were in store in second hands about 130,000,000 bu, making a total supply of 205 000,000 bu. The distribution from March 1 to July 1 was about as follows: Seeding, 18,000,000 bu; exports, 55,000,000 bu, consumption, 91,000,000 bu; in farmers' hands July 1, 31,000,000 bu; in second hands July 1, 76,000,000 bu; making a grand total of 269,000,000 bu. Deficiency in supplies 64 000,000 bu, or indicating that the supplies in farmers' hands on March 1 were about 139 000,000 bu.

CORN YIELD IN SURPLUS STATES

The following table exhibits the estimated yield of Corn for 1904, as indicated by the August report of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

	1904, bu.	1903, bu.	1902, bu.
Ohio	102,000,000	88,000,000	122,000,000
Indiana	156,000,000	143,000,000	171,000 000
Illinois	319,000,000	264,000,000	372,000,000
Missouri	158,000,000	203,000,000	264,000,000
Kansas	182,000,000	172,000,000	223,000,000
Iowa	292,000,000	229,000,000	298,000,000
Nebraska	273,000,000	172,000,000	253,000,000
Total	1,482,000,000	1,271,000,000	1,703,000,000

WHEAT FOR MAY DELIVERY.

The following table shows the monthly range of prices at which Contract Wheat for May delivery sold, from the first sale to expiration of the delivery for the seasons mentioned:

SCALE OF WHEAT PRICES

[From the Modern Miller.]

The following figures made by David Anderson of the Noblesville (Ind) Milling Co., show the result of his work, and form a basis upon which millers can handle the new Wheat. In the scale of Wheat prices, Mr. Anderson's results are based on 90c for 59 lb Wheat, and 50c per 100 lbs for Screenings. They are as follows:

60 pound Wheat	91c	54½-pound Wheat	77c
59 " "	90c	54 " "	75c
58½ " "	88c	53½ " "	74c
58 " "	87c	53 " "	73c
57½ " "	86c	52½ " "	71c
57 " "	84c	52 " "	69c
56½ " "	83c	51½ " "	67c
56 " "	82c	51 " "	65c
55½ " "	80c	50½ " "	62c
55 " "	78c	50 " "	60c

The next table shows the actual cost of recleaned Wheat as compared with 59-lb uncleaned Wheat at 90c per bu:

60 pound Wheat, cleans to	60½, cost	93.4
59¼ "	60¾ "	93 6
59⅛ "	60¼ "	93.4
59 "	60¼ "	93.2
59 "	61 "	96.5
59 "	60¾ "	94.1
59 "	60¼ "	94.2
59 "	59 "	95.4
59 "	60 "	95.6
59 car	60 "	91.4
58¾-lb.	50 "	91 2
58¼ "	60½ "	92 2

ACREAGE AND PRODUCTION OF CORN.

The following table exhibits the estimated acreage and production of Corn in the United States for 1904, according to the August report of the Department of Agriculture of acreage and condition, compared with reported production in 1903:

States and Territories.	Acreage, 1904.	Bushels 1904.	Bushels, 1903.
Maine	13,000	441,000	441,705
New Hampshire	28,000	943,000	610,029
Vermont	59,000	2,085,000	1,401,632
Massachusetts	45,000	1,530,000	1,075,272
Rhode Island	10,000	[illegible]000	301,361
Connecticut	54,000	1,717,000	1,233,254
New York	625,000	17,312,000	15,485,125
New Jersey	275,000	9,432,000	6,534,624
Pennsylvania	1,428,000	45,696,000	45,447,636
Delaware	187,000	4,161,000	5,094,732
Maryland	635 000	17,145,000	17,871,260
Virginia	1,841,000	35,716,000	39,740,702
North Carolina	2,678,000	36,563,000	38,594,585
South Carolina	1,789,000	21,468,000	18,618,064
Georgia	3,969,000	50,009,000	46,078,391

Nebraska	7 954,000	274,822,000	172,379,532
South Dakota	1,560,000	45,552,000	41,613,067
North Dakota	90,000	2,286,000	2,167,462
Montana	4,000	80,000	91,291
Wyoming	2,000	46,000	45,784
Colorado	117,000	2,972,000	2,222,075
New Mexico	34,000	510,000	956,688
Arizona	6,000	90,000	194,925
Utah	12,000	300,000	238,268
Idaho	5,000	116,000	175,649
Washington	10,000	244,000	229,013
Oregon	18,000	427,000	448,559
California	64,000	1,591,000	1,777,162
Oklahoma	1,731,000	46,218,000	34,748,199
Indian Ter	1,686,000	47,039,000	42,072,976
Total	91,894,000	2,426,268,000	2,244,176,925

The Corn crop of the United States for the past sixteen years, as officially reported, was as follows:

1903	2,244,176,925	1895	2,151,138,580
1902	2,523,648,312	1894	1,212,770,052
1901	1,522,519,891	1893	1,619,496,431
1900	2,105,102,516	1892	1,628,464,000
1899	2,078,143,933	1891	2,060,154,000
1898	1,924,184,660	1890	1,489,970,000
1897	1,902,967,933	1889	2,112,892,000
1896	2,283,875,165	1888	1,987,790,000

STOCKS FLOUR AND GRAIN IN LIVERPOOL.

The following table exhibits the stock of Flour and Grain in Liverpool on the dates named:

	Aug. 1, 1904.	July 1, 1904.	June 1, 1904.	Aug. 1, 1903.
Flour, brls	74,000	87,000	88,000	48,000
Wheat, bu	2,752,000	3,176,000	3,000,000	2,696,000
Corn, bu	1,032,000	1,260,000	1,316,000	1,335,000

ACREAGE AND PRODUCTION OF OATS.

The following table exhibits the estimated acreage and yield of Oats in the United States for 1904, according to the DAILY TRADE BULLETIN estimate on the August report of the Department of Agriculture, compared with the production of 1903:

States and Territories.	Acres. 1904.	Bushels 1904.	Yield, bu. 1903.
Maine	114,000	3,830,000	4,738,222
New Hampshire	12,000	880,000	374,848
Vermont	80,000	2,720,000	3,030,635
Massachusetts	6,800	233,000	216 891
Rhode Island	1,600	50,000	47,433
Connecticut	10,000	320,000	320,830
New York	1,246,000	35,885,000	44,584,512
New Jersey	64,000	1,282,000	1,620,037
Pennsylvania	1,173,000	34,134,000	34,582 863
Delaware	4,600	108,000	107,071
Maryland	36 000	1,048,000	789,804
Virginia	183 000	3,056,000	2,850,100
North Carolina	206,000	2,905,000	2,470,494
South Carolina	171,000	2,565,000	2,849,686
Georgia	235,000	3,343,000	3,482,865

Kansas	867,000	16,560,000	26,611,758
Nebraska	1,886,000	51,299,000	59,426,658
South Dakota	713 000	22,816,000	27,267,194
North Dakota	829,000	25,699,000	21,815,006
Montana	167,000	5,010,000	7,532,437
Wyoming	42,000	1,638,000	1,116,847
Colorado	137,000	4,932,000	4,593,469
New Mexico	10,000	270,000	345,147
Arizona	1,000	27,000	64,468
Utah	45,000	1,575,000	1,653,288
Nevada	6,000	198,000	177,463
Idaho	102,000	3,366,000	3,666,940
Washington	165,000	6,366,000	7,598,185
Oregon	282,000	5,922,000	9,720,677
California	168,000	4,687,000	5,750,964
Oklahoma	283,000	4,076,000	8,124 230
Indian Territory	217,000	5,859,000	6,439,050
Total	27,636,900	790,447,000	784 094,199

The following table shows the Oats crop of the United States for the past sixteen years:

	Bushels.		Bushels.
1903	784,094,199	1895	824 443,527
1902	987,842,712	1894	662,086,928
1901	736,808,724	1893	638,854,850
1900	809,125,989	1892	661,035,000
1899	796,177,713	1891	738,394,000
1898	730,906,643	1890	523,621,000
1897	698,767,809	1889	751,515,000
1896	707,346,404	1888	701,735,000

Preserve this issue for reference.

Cincinnati reports say: "Corn in Southern Ohio and Indiana is bad. No rain since July 12."

The Butterick Company has declared the regular quarterly dividend of 1 per cent, payable Sept. 1. Books close Aug. 20 and reopen Sept. 2.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Aug 11.]

There is not much change in the situation of current supplies of Hogs. Total Western packing 300,000 Hogs, compared with 290,000 the preceding week and 250 000 two weeks ago. For corresponding time last year the number was 350,000, and two years ago 290,000. From March 1 the total is 9,065,000, against 9,220,000 a year ago, a decrease of 155,000. The quality is somewhat variable, and in most instances fair to good. Prices have recovered the decline of last week, the average of prominent markets indicating about $5 40 per 100 lbs, compared with $5 35 a week ago, $5 40 two weeks ago, $5 50 a year ago $6 95 two years ago, $5 80 three years ago. Indications in regard to supplies of Hogs for the future are that while the old or mature stock is not especially plentiful, there is an enlarged number of young animals, for the prospective abundant crop of Corn

The speculative Provision market was fairly active the past week, but an easy tone prevailed, and at the close prices for leading articles at Chicago are lower than a week ago. At times the strength in the Grain markets had a supporting tendency, but this influence was not sufficient to sustain prices, and at the advances the offerings were free enough to cause values to recede. The market is still in an unsettled state owing to the strike conditions. Stocks on hand as reported for the first of August were fairly liberal for the season, and reasonable expectation of liberal movement of Hogs to market as soon as the strike conditions are fully adjusted are the elements which hold in check any advancing tendency. Foreign markets ruled firm, but exporters took only small quantities. The export clearances of Product were light, but show a slight increase as compared with the preceding week, but there is a decrease as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	258,000	3 0,000
Bacon, pounds	9,080,000	9,951,000
Total, Meats	9,338,000	10,301,000
Lard, pounds	4,907,000	8,512,000
Total, Product	14,245,000	18,813,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

March 1 to Aug	1904.	1903.
Chicago	2,215,000	2,685,000
Kansas City	1,115,000	885,000
Omaha	1,025,000	1,110,000
St. Louis	740,000	680,000
St. Joseph, Mo	615,000	787,000
Indianapolis	519,000	460,000
Milwaukee, Wis	101,000	62,000
Cudahy Wis	198,000	221,000
Cincinnati	236,000	229,000
Ottumwa, Iowa	253,000	200,000
Cedar Rapids	194,000	192,000
Sioux City, Iowa	182,000	213,000
St. Paul, Minn	340,000	310,000
Cleveland, Ohio	260,000	225,000
Louisville, Ky	149,000	144,000
Detroit, Mich	120,000	120,000
Wichita, Kan	108,000	93,000
Bloomington, Ill	32,100	32,000
Above and all other	9,065,000	9,220,000

WHEAT AT PRIMARY MARKETS.

[From the Cincinnati Price Current, Aug. 11.]

The following table shows the receipts of Wheat at Winter and Spring Grain markets for six weeks, from June 27 to Aug. 8 with comparisons, as compiled by the Cincinnati *Price Current:*

	1904. Bushels.	1903. Bushels.
St. Louis	3,334,000	3,992,000
Toledo	573,000	1,529,000
Detroit	162,000	101,000
Kansas City	4,253,000	3,512,000
Winter Wheat	8,322,000	9,134,000
Chicago	1,995,000	3,219,000
Milwaukee	387,000	517,000
Minneapolis	5,088,000	5,015,000
Duluth	1,674,000	752,000
Spring Wheat	9,144,000	8,503,000
Aggregate, 6 weeks	17,466,000	17,637,000
Winter, past week	3,233,000	2,283,000
Spring, past week	1,930,000	1,606,000
Total week	5,163,000	3,889,000
Previous week	4,514,000	3,726,000

The receipts of Wheat the past week at primary markets, compared with the preceding week and corresponding week last year:

	Past week.	Preceding week.	Last year.
St. Louis	1,151,000	1,077,000	869,000
Toledo	310,000	210,000	369,000
Detroit	20,000	79,000	14,000
Kansas City	1,752,000	1,400,000	1,031,000
Chicago	989,000	618,000	775,000
Milwaukee	72,000	43,000	47,000
Minneapolis	572,000	555,000	683,000
Duluth	347,000	539,000	101,000
Total	5,163,000	4,514,000	3,889,000

The total receipts of Winter and Spring Wheat at primary markets from June 27 to Aug. 8, with comparisons:

	Winter	Spring.	Total.
1904	8,322,000	9,144,000	17,466,000
1903	9,134,000	8,503,000	17,637,000
1902	17 828,000	14,497,000	32,325,000
1901	15,977,000	17,504,000	33,481,000
1900	16,066 000	11,480,000	27,546,000
1899	11,756,000	16,301,000	28,057,000
1898	9,476,000	4,826,000	14,302,000
1897	11,374,000	11,277,000	22,651,000
1896	7,231,000	15,241,000	22,472,000
1895	6,624,000	5,617,000	12,273,000

THE HOP SITUATION.

[New York Producers' Price Current, Aug. 6]

The Hop market has not been very active the past week, owing to smallness of remaining stocks and firm views of holders Brewers are buying some, which is not to be wondered at, as the Government report for June just issued shows an increase in the output of beer of 700,000 brls over June, 1903, which is regarded as remarkable The crop in New York State is doing as well as heretofore and everything looks favorable. In all three Coast States reports are satisfactory as to growing crops Dealers are still endeavoring to contract on the Coast but meet with little success as growers are not inclined to sell From England reports show no improvement and it appears as if the washing and spraying had both been unsuccessful in stemming the ravages of vermin and mold. From Germany reports indicate that owing to rains there has been an improvement in the situation there and speak well of the coming crop.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Aug. 11.]

The continued lack of general rains in the Central States has to some extent given a less confident view to the Corn crop, but there is no widespread condition of damage to the crop as yet. In some districts in the southern portion of Ohio the crop has reached a condition of actual injury, and westward along the Ohio Valley region there is urgent need of relief by rains to avert curtailment of the crop In most of the other sections Corn is maintaining a fairly good position, and the general situation is one which favors a large crop under fairly good weather conditions hereafter.

The later indications in regard to the Oats crop are suggestive of the previous expectations of the yield being fully maintained or exceeded, and the information points to good quality of Grain to a large extent.

The Winter Wheat threshings have not improved the indications as to general average yield, the results being variable, with such an extent of disappointment in quality and yield as to balance any betterment in other instances.

From the Northwest there has come much of talk in regard to rust damage to the Wheat crop, and the speculative interests have manifestly used the information in such manner as to give it an extreme condition of significance. There is margin for inference that the actual injury to the crop will prove to be far less serious than is suggested by the current sensational statements. That there is considerable injury is quite evident.

The Canadian Northwest maintains a good promise for the Wheat crop, and if it goes to maturity without injury from frost will be decidedly in excess of last year's production in that region.

The prolongation of dry weather in the Central West is having an unfavorable effect on Pasture. Abundant rains would soon change conditions. It is fortunate that a large Hay crop has been secured, and mostly in excellent condition.

EXPORTS OF HOG PRODUCTS.

The following table exhibits the exports of Hog Products during the twelve months ending June 30, 1904, as compared with the exports during the previous twelve months, and the countries to which exported:

	1903-1904. Pounds.	1902-1903. Pounds.

THE FRENCH WHEAT CROP.

[From Beerbohm, July 29.]

In France the weather has been of a broken character during the past week, severe thunderstorms being experienced in various parts of the country, doing rather serious local damage. The official crop report for July 1 has been published, and it shows a decided deterioration in the prospects since the previous official report of May 15. Compared with the July report of the two previous years the report is as follows:

District –	1904.	1903.	1902.
Northwest	77.2	70.0	77.2
North	75.0	67.8	82.5
Northeast	71 2	65.0	79.3
West	69.4	80.6	77 2
Centre	73.3	73.7	81 1
East	74.8	80.7	69.0
Southwest	68 3	77.7	72.7
South	67.4	75.1	70.5
Southeast	58.0	71.1	68.5
Average	70.5	74.1	75 3

It may be explained that 80 represents a good crop and 60 a fair one in these returns. The indicated crop, according to the *Bulletin des Halles*, is about 320,000,000 bu, and according to the *Marche Francais* about 368,000,000 bu. The statement shows that in the Northwest, North and Northeast, which are the most important Wheat growing sections of France, the condition is highest, contrary to what was the case last year; in these districts the harvest has only just commenced, and it is, therefore, difficult to form a reliable opinion of the probable total crop. What is, however, tolerably certain is that there has been a serious falling off in the general condition of the crop since July 1: so much, in fact, is this believed to be the case, that some commercial authorities affirm that the yield will be 40 per cent less than last year, which, according to the official report issued last October, was 365,160,000 bu. It therefore seems probable that the crop will not exceed, if it reach 320,000,000 bu, but so far as the harvest has progressed the quality is decidedly superior to last year's. A comparison of the crops and net imports into France in the past six years shows the following result:

	Crops. Qrs.	Net imports. Qrs.
1903-4	45,600,000	1,500,000
1902-3	40,900,000	2,450,000
1901-2	38,750,000	1,050,000
1900-1	40,625,000	775,000
1899-1900	45 750,000	525,000
1898-9	45,500,000	815,000
Average	42,850,000	1,185,000

This indicates an average of home production and imports of 352,280,000 bu per annum, whereas the average home consumption probably does not exceed 348,000,000 bu If the new crop reach 320,000,000 bu, it is probable that the reserves of old Wheat will be sufficient to render France as independent of foreign Wheat as she has been since 1898.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Aug. 10.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth together with that of 40 "outside mills" with a daily capacity of 90,900 brls, from Sept. 1, 1903, to Aug. 6, 1904:

	1903-04 Flour, brls.	Wheat, bu.	1902-03 Flour, brls.	Wheat, bu.
Minneapolis	18,280,145	59,761,000	15,426,685	69,420,000
Duluth	885,260	3,084,000	1,418,555	6,384,000
40 outside mills	6,325,620	28,465,000	6,278,370	28,253,000
Totals	20,491,025	92,210,000	23,123,610	104,057,000

These figures represent the approximate consumption of 11,847,000 bu less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,679,740 brls less Flour, equal to 12,059,000 bu of Wheat, than last year In contrast, the outside mills have increased their output to the extent of 47,250 brls, equal to 212,000 bu of Wheat.

THE WEATHER CONDITIONS.

Fine conditions through the West. Slightly warmer. Cloudy, with light scattered showers. Partly cloudy in Nebraska and portions of the Northwest. Generally clear elsewhere and warming up. Generally cloudy, with light scattered showers in Canadian Northwest.

Indications are for partly cloudy weather with showers over the northern portion of the district; mostly fair over southern portion, and followed by slightly cooler in the Dakotas.

ITEMS OF GENERAL INTEREST.

A crop report from a merchant at Candō, N. D., says: "Prospects are for a bumper Wheat crop here if frost holds off."

In France the harvesting of Rye is almost finished; the Grain is described as small, but plump and heavier than last year, but the bulk is disappointing.

All of the property of the Oshkosh (Wis.) Electric Light and Power Company, which has been for the last eighteen months in the hands of a receiver, was sold, Thursday, at public auction for $215,000 to a Boston party.

Fire in the Grain elevator of the Sheets Bros. Company, Cleveland, Ohio, Thursday, caused damage to the extent of from $75,000 to $100,000. The elevator contained almost 100,000 bu of Grain. The loss is covered by insurance

The United Button Company, a Delaware corporation, with a capital of $3,000,000, was declared an involuntary bankrupt in the United States Court at Wilmington, Del., Wednesday. The company has factories in various sections of New England. Last year it did a business of over $900,000.

In announcing the usual dividends an officer of the Quaker Oats Company said the management is well satisfied with the business of the year thus far and the outlook. "We do not see any occasion for undue enthusiasm, however," he said. "There is no prospect of dividends on the common stock just now."

A Chicago commission man cabled from Carlsbad, Germany, Thursday: "The dry weather has been almost universal through Europe for the last month, and, although it has been broken by showers, it seems to have started right in again for another hot, dry spell. The fall crops of Vegetables and tubers will be cut away short."

The Federal Sugar Refining Company's new refinery on the Hudson River has begun operations and is producing about 1,500 barrels of Sugar per day. Its total capacity will presently be 4,000 barrels. The company has authorized $30,000,000 of common and $20,000,000 of 6 per cent cumulative preferred stock; amount outstanding not disclosed.

Corn Trade News of Aug. 3 says: "Our Hamburg correspondent reports that the harvest in Western Germany is making rapid progress, and in a trip to the Rhine he saw many bare fields. The weather continues very hot; there has been some rain, but much more is needed. The prohibition of exports of Corn from Roumania interferes greatly with the trade of South Germany."

Directors of the National Biscuit Company, Wednesday, declared the regular quarterly dividends of 1¾ per cent on the preferred stock and 1 per cent on the common. The preferred dividend is payable Aug. 31 and the stock transfer books will be closed from Aug. 18 to 31, both inclusive. The common dividend is payable Oct. 15, and the transfer books will be closed from Sept. 29 to Oct. 15, both inclusive

Austria-Hungary has prohibited exports of Corn, Barley and all foodstuffs. *Broomhall* cabled that Barley is the Grain most exported, about 15,000,000 bu being shipped annually. In view of the crop failure the Hungarian Government has already bought 1,600,000 bu of foreign Wheat. The importance of the shutting off of exports is seen in the size of their Corn crop last year, 128,000,000 bu, and of Barley 115,000,000 bu. Exports of Corn from the Danubian countries last year were 42,000,000 bu Corn.

The president of the American Sugar Refining Company says: "Demand for refined Sugar is good, has been good for a considerable time, and I expect that it will continue good all through the summer. The outlook favors a large Fruit crop, which, of course, will mean heavy consumption of Sugar for canning purposes. The strengthening in prices of Beet Sugars appears to have given rise to expectations of an advance in Sugar refined from Cane, as there is good demand for all kinds."

The officials of the Westinghouse Electric and Manufacturing Company have recently had occasion to compile some figures showing the make of the various machines used in the generating of electricity in Greater New York, and were much gratified to learn that over 90 per cent of the generators in the power houses in New York and Brooklyn were of their make. No figures have as yet been made up to show the percentage of Westinghouse motors. Westinghouse officials feel certain, however, that a majority is of their manufacture.

"Oklahoma farmers have marketed 7 to 10 per cent of their Wheat," said a Chicago commission man who has made an extended business trip through the Southwest. "Farmers throughout the Southwest have money and expect to get $1 00 for their Wheat. Much Wheat has gone into stack and will not be threshed for some time. Corn prospects in Kansas are good, even in the eastern part of the State; where the fields looked very poor and thin two weeks ago they show a marked improvement "

The Chicago *Inter Ocean* says: "Grain traders see little inconsistency in the advance in Western Railway Stocks in Wall Street in the past few days, in view of the poor crop prospects, as viewed from their position. The railroad officials and Wall Street do not entertain the same calamitous ideas of the crops that are afloat in the Grain trade. They work from different motives. The railroad interests are optimistic and depend upon the size of the crops for tonnage, not only of Grain, but of merchandise and all kinds of material that goes toward making up the business of the railroads and furnish earnings. The Grain speculative houses mainly try to create crop disasters as a market making scheme, as they get more trade on an advancing than on a declining market."

At a meeting of the Box Board manufacturers of the country, held in Buffalo last week, it was virtually decided, according to the reports which have reached Chicago, to adopt the "leasing down" plan, by which it is proposed to curtail the production of Box Board throughout the country and thereby sustain the market so that mills can run at a profit It is believed that the decision foreshadows the abandonment of the present selling agency for the mills of the country, known as the Paper Products Company, and the formation of some other central body to take charge of the regulation of prices and the operation of the leasing down plan. In this connection it is pretty generally believed among the people connected with the Chicago office of the Paper Products Company that the local office will be abandoned shortly in any event. Intimations apparently have been received by those connected with the office that it is about to be abolished.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year:

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling firm at 484½

Chicago Bank Clearings to-day, $25,984,086.

No export business at the seaboard to-day.

Cotton in New York was weak and closed 1@5 points lower.

The packing of Chicago since March 1 shows a decrease of 569,000 Hogs.

About 205,000 pcs of Sides were shipped South during the past week.

October delivery Timothy Seed sold to-day at $2 95, being the first trade.

Shippers purchased about 21½ per cent of the Hogs received the past week.

The shipments of Hams from Chicago for the past week were equal to 9,600 tcs.

About equal to 8,700 tcs of Lard were shipped from Chicago during the past week.

Aggregate receipts of Live Stock at Chicago for the past week were about 270,000 head.

Australian Wheat shipments for the week 296,000 bu, compared with 696,000 bu last week.

About 575 car loads of Hog Products were forwarded from Chicago during the past week.

Nine packers purchased 7,200 Hogs to-day; shippers, 1,600; left over, 7,000. Market closed quiet.

Local Securities were sparingly traded in and prices were but little changed. Diamond Match advanced ½

Chicago Bank Clearings for the week were $162,505,666, against $156,707,939 for the corresponding week in 1903.

Private cables from Germany and Russia from well informed people say those countries will have average crops.

Estimated receipts of Hogs at Chicago for next week 125,000. Receipts for the corresponding week last year were 128,873

Estimated receipts for Monday: Wheat 117 cars; Corn, 98 cars; Oats, 377 cars; Rye, 8 cars; Barley, 6 cars; Hogs 25,000.

Exports of Flour and Wheat from the United States during July were equal only 3,192,000 bu, compared with 9,633,000 bu in July, 1903.

A Minneapolis telegram, Friday, said: "Reports more favorable. Many infected districts report the Wheat making more progress than the rust."

The receipts of Wheat at Minneapolis and Duluth for the past week were 922 cars, compared with 941 cars one week ago, and 806 cars one year ago.

Broomhall estimates the world's shipments of Breadstuffs this week at 8,800,000 bu, and predicts there will be an increase in the quantity on ocean passage.

The stock of Flax Seed at Minneapolis on Aug. 13 was reported at 67,000 bu, against 81,000 bu for the week previous—a decrease of 14,000 bu. Stock last year, 735,000 bu.

Arrivals of Breadstuffs in the United Kingdom for the week were about 3,600,000 bu, compared with 4,000,000 bu last week, and 4,600,000 bu for the corresponding week in 1903.

Secretary Hester's weekly Cotton statement makes total visible 1,332,831 bales, against 1,459,438 bales last year. Total amount 555,831 bales, compared with 672,438 bales in 1903

English visible supply of Wheat decreased 1,034,000 bu, compared with a decrease of 615,000 bu last week, and an increase of 582,000 bu the corresponding week last year.

The receipts of Hogs at the leading Western markets during the past week were about 366,000, against 284,000 the previous week, and 360,000 for the corresponding time in 1903.

Stocks in New York were higher, with good trading. Western Railway shares gained ½ to 1⅛. Steel preferred, although sold freely, gained 1⅜. Tractions gained 1 to 1¼. Sales 313,600 shares.

A party who runs a line of elevators through South Dakota and Minnesota estimates the Wheat crop of the three Northwestern States at 160,000,000 bu. His early estimates were 180,000,000 to 200,000,000 bu.

Average cost price of Hogs at Chicago, Friday, was $5 06, the lowest day since June 16, being 15c lower than Thursday, 32c lower than Wednesday, 38c lower than last Tuesday, 23c lower than a week ago, and 34c lower than the corresponding Friday a year ago.

A Chicago commission man received the following dispatch from a North Dakota farmer: "Magnificent Grain and no rust north and west of Larimore. Harvesting in ten days. From Larimore east and south Grain poor and rust increasing southward."

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	2,301,000	1901	2,965,000
1903	2,810,000	1900	2,895,000
1902	2,853,000	1899	3,032,000

Included in the shipments of Meats from Chicago for the past week were about 182,000 pcs of Hams, 48,000 pcs of Shoulders and 258,000 pcs of Sides. For the corresponding time last year the shipments were about 239,000 pcs of Hams, 50,000 pcs of Shoulders and 209,000 pcs of Sides.

The receipts of Flour and Grain at Chicago for the past week were equal to 5,942,000 bu and the shipments were equal to 4,117,000 bu. For the corresponding week in 1903 the receipts were equal to 4,563,000 bu, and the shipments to 3,340,000 bu. These figures are supposed to include the through shipments of Flour

The weekly statement of the New York banks shows the following changes. Increases—Reserves on all deposits, $1,432,625; Reserves, less United States deposits, $1,423,650; Loans, $1,014,500; Specie, $3,686,700; Deposits, $2,919,000 Decreases—Legal Tenders, $1,531,300; Circulation, $348,000 Banks hold $57,731,475 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 107,000 brls of Flour and 300,000 bu Wheat, against 56,000 brls of Flour and 135,000 bu of Wheat the preceding week, an increase of 51,000 brls of Flour and an increase of 165,000 bu of Wheat. For the corresponding week last year the exports were 139,000 brls of Flour and 2,017,000 bu of Wheat.

The Chicago *Drovers Journal* says: "Late arrivals of Hogs have included a much larger proportion of Nebraska and Missouri Hogs than are usually sent here at this season of the year Chicago prices have recently ruled considerably higher than at Western markets, and heavy contributions from territories adjacent to other points have swelled receipts here beyond requirements of the trade. There seems to be no question, however, but what the supply of fat Hogs in Illinois and Iowa is smaller than usual for this time of the year."

Rugby, N. D., wired as follows: "Minot, little trace of rust; crop 15 bu lighter. West to Portal cutting next week, east on main line of Great Northern big crop. Pierce county average 18 to 20 bu. Jones' farm, 5,000 acres, go 25 bu. First cutting Monday, general end of week. Rust shows on stalk last three days. Damage not likely serious, acreage heavy increase Assessors return Pierce county 118,000 acres against 62,000 last year. Adams of Richland county contracted yesterday 10,000 bu Seed Wheat in growing fields after personal inspection. Best fields Rugby promise 35 bu."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is firm, but quiet. Inquiry fair, but buyers backward and awaiting more settled conditions in Wheat

WINTER WHEAT—Was reported rather steady for choice Wheat of the different grades, but weak and several cents lower for the poor Wheat Demand mostly speculative and choice Wheat selling, but poor Wheat not wanted. No. 2 Red in store quotable at $1 01½@1 03 and fresh arrivals free on board sold at $1 02@1 03½ No 3 Red fresh receipts free on board sold at $1 00@1 03 No 4 Red fresh receipts sold free on board at 94@98c and billed through at 99c No. 2 Hard fresh receipts free on board sold at $1 01⅝@1 03. No. 3 Hard fresh receipts sold at 98c@$1 02 and No 4 Hard at 94c

SPRING WHEAT—So little coming that prices were entirely nominal. No 1 Northern fresh arrivals nominally about $1 10@1 15, and No. 2 Northern about $1 05@1 08. No. 3 Spring quotably 95c@$1 05. No 4 Spring quotable at 75@95c.

REGULAR WHEAT—A fair trade, but volume smaller than of late, with closing prices ⅜@½c lower for new September, while December lost ⅛@¼c and May up 1-16c. The situation at the start was weaker and lower prices ruled on local selling, influenced by the lower cables and improved weather conditions. At the decline "shorts" came in and fresh investment buying occurred, while the offerings became lighter and market advanced. Part of the buying was credited to the Northwest and market acted as though oversold Liverpool quoted spot steady to ½d lower and futures ⅝@¾d lower. London ½@1¼d lower and Antwerp 1¼c Map was favorable and generally fair weather was predicted for the Northwest. Receipts in the Northwest for the week were 922 cars, against 941 cars last week and 866 cars one year ago Local weekly receipts were 895,000 bu and shipments 520,000 bu Primary receipts for the week 5,573,000 bu, previous week 5,230,000 bu and 3,300,000 bu one year ago *Broomhall* estimated the world's shipments 8,800,000 bu, and predicted an increase in the amount on ocean passage. Australian shipments 296,000 bu. Arrivals in the United Kingdom were 3,600,000 bu, against 4,000,000 bu last week, and 4,600,000 bu one year ago. Kansas City and St. Louis received 585,000 bu, against 263,000 bu a year ago, and 800 cars are looked for at Kansas City on Monday. Rugby, North Dakota, wired: "These cool nights and warm days furnish a perfect condition for filling and ripening this crop making rapid progress." Winnipeg wired "Weather continues brilliant, could not be better for Wheat crop; cutting started yesterday at five or six different points. Lateness of crop being gradually overcome by perfect weather; feel confident now of 70,000,000 bu" English farmers' deliveries were 136,000 bu at 85¾c, against 176,000 bu last week at 85½c, and 144,000 bu one year at 90½c Beneficial rains were reported in Germany Exports were larger, but no boat loads accepted at the seaboard. The English visible decreased 1,034,000 bu, compared with an increase of 582,000 bu same week one year ago Receipts at Duluth 45 cars and at Minneapolis 133 cars, a total of 178 cars, against 112 cars yesterday, 175 cars a week ago, and 201 cars last year. Local receipts included 119 cars Winter, none of Spring, no mixed, a total of 119 cars, against 84 cars last year. Included in the above were 12 cars contract grade. There were 13 cars and no bu from unlicensed elevators The estimated receipts for Monday are 117 cars. Withdrawals to-day were 10,500 bu. Receipts at Western points were 892,701 bu, against 521,422 last year. At Eastern points 91,209 bu, against 156,582 bu last year Shipments from Western points were 420,525 bu, against 353,240 last year, and from Eastern points 135,850 bu, against 82,400 last year. Shipments of Flour were 53,410 brls. Exports of Wheat in Flour were equal to 376,150 bu

Future Deliveries of Regular Wheat—Good trade and market unsettled

SEPTEMBER—Old Style—Sold at $1 01⅞@1 03½. Opened with sales at $1 02; sold to $1 01⅞, to $1 02⅛, to $1 02 to $1 03½, to $1 02⅛, and closed at $1 02⅛.

SEPTEMBER New Style—Sold at $1 00@1 02¼. Opened with sales at $1 00⅜ to $1 00, sold to $1 00⅝, to $1 00⅝, to $1 01¼, to $1 01⅛, to $1 02⅛@1 02¼, to $1 01¼, to $1 02 to $1 01⅜, to $1 02¼ to $1 01¼, to $1 01⅝, to $1 00⅜@1 00½, to $1 00⅝ and closed at $1 00⅝ bid

DECEMBER Sold at 99c@1 01¼. Opened with sales at 99⅝c to 99c, sold to 99¼c, to 99¼c, to 99⅝c, to 99½c to 99¾c, to 99½c, to $1 01, to $1 00⅝, to $1 01, to $1 00⅜, to $1 01¼, to 99½c, to $1 00, to 99⅞c, and closed at 99⅞c.

MAY—Sold at $1 00¾@1 03⅛. Opened with sales at $1 00¾ to $1 01¼, sold to $1 01⅛, to $1 01⅜, to $1 01¾, to $1 01½, to $1 02¼, to $1 02, to $1 03, to $1 02⅝, to $1 03, to $1 02⅜, to $1 03⅛, to $1 01⅝, to $1 02, to $1 01¾, and closed at $1 01¾@1 01⅞.

CORN—A fair trade with the close ½@⅝c lower for September while December gained ⅛c and the May ⅜@½c Market started easier with Wheat, better weather and lower cables. Local "longs" sold and prices ruled lower. At the decline the demand for the distant futures improved, the buying being led by the Southwest, and many of the early sellers covered Crop advices were varied, but those from Central Illinois and Nebraska were favorable and fodder and Potato crops in Germany were reported benefited by recent rains. Liverpool quoted spot ¼@½d higher, while futures were ¼d lower Local arrivals 132 cars, against 177 cars last year, and 98 cars estimated Monday. Southwestern markets were all higher, presumably on the crop outlook Local weekly receipts 1,428,000 bu and shipments 2,090,000 bu Primary receipts this week were 2,105,000 bu, against 2,452,000 bu last week and 1,857,000 bu one year ago. There was loaded out of private elevators 270,000 bu and 14,000 from public. Exports 207,000 bu Shipping demand better and sales 200,000. Local shipments 503,000 bu, against receipts of 178,000 bu. Country acceptances were reported liberal, and part of the early selling was by elevator interests against interior purchases Lincoln, Neb., wired, "Estimate present outlook for Corn 250,000,000 bu, 80 per cent is beyond danger from frost" Car lots were in good demand and prices were easier. No. 2 closed about 53¼c and No. 2 Yellow at 54¾c. No. 3 closed about 53c and No 3 Yellow at 54½c. No 3 White sold at 54½c. Charters for 300,000 bu mostly on old business.

Corn by sample—Good demand, and offerings small Feeling easier and prices unchanged to ½c lower Sales on track and free on board. No. 4 sold at 51½@55c. No. 3 at 53¾@55c No 3 Yellow at 54¼@55¾c. No. 2 Yellow at 56¼c Billed through: No. 4 at 52@54¼c. No. 3 at 52¾@54¼c. No. 3 Yellow at 54¾c. No 2 Yellow at 54¾@55c. No. 3 White at 53½@53¾c.

Future Deliveries of No. 2 Corn—Active and unsettled and closed ½@⅝c lower to ½c higher.

AUGUST—Inactive Quotable ¾c under September, and closed at 52⅞c

SEPTEMBER—Sold at 53@53¾c. Opened at 53¼c to 53c, and sold at 53⅜c, to 53¼c, to 53⅝c, to 53⅛c, to 53¾c, to 53c, to 53¼c, to 53⅛c, and closed at 53⅛c.

DECEMBER—Sold at 50½@51½c. Opened at 50½c to 50⅛c and sold at 51⅛c, to 51c, to 51½c, to 51⅛c, to 51¼c, to 51⅛@51¼c, and closed at 51⅛@51¼c asked.

MAY—Sold at 49½@50⅞c Opened at 49¾c to 49½c, and sold at 50c to 49¾c, to 50⅜c, to 50¼c, to 50⅞c, to 50⅜c, to 50⅝c, to 50⅜@50½c, and closed at 50⅜@50½c

OATS—Were easy at the start but advanced ⅜@½c, only to react and closed ⅛c lower except for May, which was ⅛c higher. Trading was moderate, and prices were influenced mainly by the action of other Grains. There was good commission house selling on the rallies. Arrivals were 353 cars, with 331 cars expected Monday Seaboard clearances 49,100 bu Cash sales were light. Car lots to go to store closed ½@1c lower. No 3 White new sold at 34⅝@35c Standard at 35c No 2 White at 34¾@35c. Standard in store closed at 33¾@34c

Oats by sample were in fair demand and prices were steady early, but receded and closed ½@1c lower Sales on track and free on board. No Grade new at 33¼@33¾c No. 4 White new at 33@34¼c. No. 3 new at 31½@34½c. No. 3 White new at 34½@35c Standard new at 35@35½c No 2 new at 32c. No 2 White new at 35¼@35½c. Billed through—all new—No Grade at 29@33c. No 4 White at 33½@34¼c, old at 35c No. 3 at 31½c. No. 3 White at 31@34¾c Standard at 31¼@35c. No. 2 at 31½@33½c. No 2 White at 34¾@35½c. At the river—all new No. 4 White at 32@33¼c No. 3 White at 33@33¾c Standard at 34c

Future Deliveries of Contract Oats—Were unsettled and closed steady to ⅛c lower.

AUGUST—Inactive, closed at 33¾c.

SEPTEMBER—Fair trading Sold at 33⅝@34⅛c. Opened at 33¾c to 33⅞c Sold at 33⅝c to 34⅛c, to 33¾c at close

DECEMBER—Moderately traded in Sold at 34⅛c and 35⅛@35¼c. Opened at 34⅝c to 34⅞c, sold to 35¼@35¼c, to 34¾c at close

MAY Active. Sold at 36⅝@37⅛c. Opened at 36⅝c to 36¾c, sold to 37⅛c, to 36¾@36⅞c at close

RYE—Was easy, with a light trade Eight cars were received, and there were no withdrawals nor exports. No 2 fresh receipts sold at 70@71c, and billed through at 69c. No 3 sold at 70c to go to store

Future Deliveries of No. 2 Rye—Easier. September sold at 70c and December sold at 72c

BARLEY—There were moderate offerings of new Barley. To these buyers responded readily. Sales were quite readily affected and prices realized reflected firmness for good quality Sales were at 45c for off color and at 48@52c for good to choice, depending on weight and color Very fancy new, it was said, had a nominal value a shade over 52c. Besides a malting demand, Barley was also taken for pearling. Some to-arrive Barley was taken to-day a 10,000-bu lot, September shipment, at 52c Old Barley has become scarce. Low grades for mixing in some demand and firm. Screenings quoted at 3@40c, outside for choice; feed or mixing over the same range, and malting nominally 40@46c for low grade to good; choice over, but not offered. Seven cars inspected in, all new.

SEEDS—An easy feeling prevailed in the case of Timothy and Flax Seed prices were lowered as noted below These were the changes. Other lines nominal, with nothing new.

Timothy—Was weak. Contract old sold at $2 95, being 5c easier A larger number of samples of new were shown. Some offered to arrive No demand really for to-arrive Seed New, good quality, spot, had a quotable value of $2 70@2 80, choice to fine bright, clean, unhulled, $2 90@3 00; considerably hulled or not clean about $2 60. Quality of new samples run very good. The yield is said to be turning out larger than had been expected Order trade remains slow. September delivery was nominally steady with $3 02½ bid and $3 07½ asked October delivery sold to-day at $2 95 and it was the initial trade.

Flax—There was a nominal decline of 1c in prices, due to downturn in the Northwestern markets. Nothing was done aside from a small bag lot being sold, there was nothing else on sale No. 1 Northwestern or No 1 from the Northwest nominally $1 24½ bid. No. 1 at $1 17 Rejected quotable at $1 13@1 17, depending on quality, a bag lot of Northwestern delivered sold at $1 17. September, $1 17 bid. Local receipts 2 cars or 1,300 bu, none taken out. Minneapolis got none, Duluth 11 cars.

Clover—Nothing was done Market nominally steady to firm, with no change noted. New October delivery, contract grade, nominal at $12 25. Contract spot Seed was quoted at $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75

Other Seeds—Mustard nominally 75c@$1 10 for common to choice.

HOG PRODUCTS—Speculative trading was fair, and the undertone to the market was stronger in sympathy with Hogs and Grain. Outside orders were small, and the local trading was fair Offerings were not very large, and the demand was only fair. Prices ruled higher on all the leading articles, but extreme figures were not fully supported to the close Less liquidation than during the previous days of the week More inquiry for January delivery and prices higher Hogs in moderate supply and higher Fair supply estimated for the coming week Receipts at the leading Western packing points were estimated at 28,000, compared with 29,000 one year ago Foreign markets were quiet Backs were quoted 6d lower, and Cumberland Sides 6d and Lard 3d higher Domestic markets were quiet Receipts of Products were liberal—of Lard and Meats about 31 cars. Shipments were fair—of Lard and Meats about 103 cars Inquiry on shipping account was moderate and offerings were fair Sales were not very large, and prices well maintained

Mess Pork—Trade was fair, and the market was stronger Offerings were moderate, and a fair inquiry prevailed. Trading chiefly local Market opened at 7½@10c advance, and further improved 2½@5c Later, was not quite so strong, and prices settled back 2½@5c, and the market closed steady Shipping demand was light, and offerings were only fair Cash lots quotable at $11 60@11 65.

SEPTEMBER—In rather good demand, with moderate offerings Sales were made at $11 57½@11 65 Opened at $11 57½ to $11 60, sold to $11 62½ to $11 57½, to $11 65, to $11 60, to $11 65, to $11 60, and closed steady

OCTOBER—Offerings were not very good, and the demand was fair. Sales were made at $11 65@11 75 Opened at $11 65 sold to $11 70, to $11 67½, to $11 75, to $11 67½, to $11 72½, to $11 70, and closed steady

JANUARY—Called for moderately and offerings small A few trades made at $12 75@12 92½, and closed at $12 90

Lard—Rather a light business was reported in the Lard market, and the feeling was steadier. Offerings were not very large, and the demand was fair. Prices ruled 2½@5c higher and the market closed steady around medium figures. Foreign advices more favorable to holders. Demand on shipping account was reported fair with no particular pressure to sell. Cash lots quotable at $6 70@6 72½ Loose lots in fair request with limited offerings Prices steady at about 45c discount on September figures. Leaf Lard was in light demand with moderate offerings Quotably steady at about $6 25 Neutral in only limited demand, with fair offerings Prices quotably steady at $7 50@7 62½ for No 1, and $7 12½@7 25 for No. 2

SEPTEMBER—In moderate demand and offerings were small A few trades were made at $6 77½@6 80 and closed quiet at $6 77½

OCTOBER Offerings were fair, and the demand was moderate Sales were made at $6 85@6 90. Opened at $6 85 to $6 87½, sold to $6 90, to $6 87½, and closed steady

DECEMBER Quiet, with small sales at $6 80.

JANUARY Called for moderately, and offerings were not very large Sales were made at $6 90@6 92½, and closed steady at the range

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was steadier. Offerings were fair, and the demand was moderate Prices were about 2½c higher, and the market closed steady Trading chiefly local Shipping demand was light, and offerings were small Cash lots quotable at $7 37½@7 50 according to weight

SEPTEMBER—In fair request and offerings were not very large. Sales were made at $7 42½@7 47½ Opened at $7 45, sold to $7 45@7 47½, to $7 42½@$7 45, to $7 45 and closed comparatively steady.

OCTOBER—Demand was moderate and offerings rather light. Sales were made at $7 42½@7 45, and closed steady at $7 45

JANUARY Offerings were moderate and the demand was fair Sales were made at $6 70@6 75, and closed steady at $6 70@6 72½

Other Meats—Trade was only fair, and mainly on domestic account Exporters bought only sparingly. Offerings moderate, and the inquiry only fair. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in fair request, with only moderate offerings, and prices were unchanged. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately, and prices well supported Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs 9¾@9⅞c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9⅝c, 18@20 lbs, 9¾@9⅞c; Skinned Hams 11⅛@11¼c; Shoulders, 6⅞@7c; Picnic Hams, 7¼@7½c, Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9¾@10c 12@14 lbs 9¾@9⅞c, 14@16 lbs 9¾@9⅞c cash 9¾@10c August; 18@20 lbs, 10@10¼c, Skinned Hams, 11½@11¾c cash, 11⅝@11¾c August. Shoulders, 7⅝@7¾c. Picnic Hams, 7⅞@8c, Bellies, 10@11c DRY SALTED—*loose*—Shoulders 7⅛@7¼c Short Fat Backs, 6¼@7¾c; Short Clear Backs, 8¼@9c, Clear Bellies, 8⅞@9c, Rib Bellies, 7¾@8¾c. Extra Short Rib Sides—Sales 50,000 lbs av 35@40 lbs on p. t.

Cooperage—Demand light and offerings not very large Market rather quiet. Ash Pork Barrels quotably steady at 95@97½c Oak Pork Barrels were quiet at $1 05@1 07½ Lard Tierces in fair demand and prices steady at $1 25@1 27½. No sales reported

High Proof Spirits—Steady at $1 28 for finished goods

Hay—Receipts, 720 tons; shipments, 67 tons. Demand light and market dull Offerings larger. Choice Timothy quotable at $14 00@15 00. No. 1 Timothy at $12 50@13 50 No 2 Timothy at $11 00@12 00. No 3 Timothy at $8 00@10 00. Choice Prairie at $11 00@11 50 No 1 Prairie at $9 50@11 00. No 2 Prairie at $8 00@9 00. No 3 Prairie at $7 00@7 50. No. 4 Prairie at $5 00@5 50 Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay.

Sales were, ON TRACK—Not Graded Timothy—1 car at $9 00, 1 car at $10 50, 3 cars at $11 00, 1 car at $11 50, 3 cars at $12 00, 1 car at $12 50, 5 cars at $13 50, 1 car fancy at $16 00 Not Graded Prairie—1 car State at $5 75, 1 car at $6 50, 1 car Iowa at $10 50, 1 car Kansas at $10 00, 1 car at $10 50

FREE ON BOARD AND SWITCHED—Not Graded Timothy 1 car at $11 50, 1 car at $13 00 Not Graded Prairie—1 car Kansas at $10 50

Straw—Rye Straw quotable at $6 50@7 50 Wheat Straw at $5 50@6 00 and Oat Straw at $6 00@6 50

Sales were ON TRACK—Tangled Rye—1 car at $7 00, 1 car at $7 50 Oat—1 car at $6 00

FREE ON BOARD AND SWITCHED Tangled Rye—1 car at $7 00.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, August 12, 1904.

The money market is without change at any of the important centers. Rates remain at 4½ to 5 per cent for call. There is some money being out as low as 4 per cent, but there is very little of it. Mercantile and manufacturing interests are absorbing considerable money, and the speculative and grain interests is using increased amounts owing to the enlarged movement of the small grains, and the increased speculative business which is causing advanced prices. In New York money was easy at ¾ to 1¼ per cent on the Stock Exchange and 2½ to 4 per cent on time. New York people think that call money will continue around 1 per cent until after election, and is likely to advance to 3 to 3½ per cent later. The liquidation of undigested securities is about completed after being on for a year and a half. Since Jan. 1 the Trust Companies in New York have decreased their loans $109,000,000 and enlarged their investments in stocks and bonds $15,200,000. Commission house holdings in Wall Street are said to be the smallest in many years.

New York exchange was 20 to 30c premium and closed at 30c premium.

Foreign exchange was firm at 484¼ to 484½ for shippers 60-day documentary sterling bills in London.

Local Securities were slow with only professional trading. Price changes were limited almost to fractions, and a good part of the week transactions were in many shares were hardly enough to establish prices. Carbon shares made a good advance as there is very little stock in the market, it having been absorbed by investors. The bond issue by the South Side Elevated railway has been confirmed by the stockholders, although the consent was unanimous. There were no new developments in Traction shares. The Bond market shows increased activity and strength, easy money being favorable to an enlarged trading.

In the New York Stock market the feature was the large dealings and advances in tractions, especially in Interborough Rapid Transit and Metropolitan securities. There were various rumors afloat about a merger being under way, but no official announcement was made. Trading in these shares did much to enliven the market and gains were most marked. Part of the time the market was affected by unfavorable crop news from the Northwest, but this wore off to a certain extent, and all Western railway shares were advanced from the low point of the week. St. Paul and Union Pacific were the most active of the railway list. Part of the Western group of operators who are in the market were aggressive sellers. They were mainly responsible for the recent rise and are taking profits, and some were credited with putting out short lines. There is not the unanimity on the future prospects for Western Railway earnings that has existed of late, but conditions are not so bad as many try to make out. Reports from the large number of railways of their June earnings make a better showing than expected when compared with those of the same time in 1903 and the general position of the transportation business of the country is fairly encouraging. Steel preferred was active and strong interests were on the selling side most of the week, but it met with equally good buying. Low interest rates is having a good effect on the bond market and is shows increased activity and an advancing tendency. Talk of liberal gold engagements were heard in the street, but there were no large engagements. Closing sales of shares were at small net gains for the week. Total sales on the New York Exchange for the week were 2,601,000 shares, against 1,447,000 shares for the previous week, and 4,566,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Am. Sug. Ref. Co.	71,300	Missouri Pacific..	47,000
Alton com	6,500	Peoples' Gas Co..	18,700

The mercantile trade showed an improvement. Buyers from the interior were here in large numbers and made about the usual seasonable purchases of dry goods, clothing and shoes. Reports from the Northwest say there have been some cancellation of orders owing to the crop failure. Prices on Cotton goods remain steady. A decided improvement has taken place in the pig Iron market. Large sales have been made to the heaviest consumers the past two weeks and higher prices are asked, ranging from 25c to $1 a ton, depending on the delivery, the latter for the second quarter in 1905. There is agitation over the reported cut of $2 a ton in billets by one large manufacturing interest. The buying of structural material has been heavy of late and a good many Steel and Iron bars have been taken. Calls for shop supplies are increasing, showing a reduction in the hands of consumers. The light hardware trade is improving. There is a better movement of Lumber and a steadier market, all grades being taken by local and interior consumers and retailers throughout the country are beginning to stock up. Yellow pine is 25 to 50c higher than a month ago, owing to curtailment in production. The Coal business runs irregular. The West is buying moderately, but consumption of fine steam Coals by the packers is below the normal and prices are at a lower level. Other grades are moving fairly and at good prices. Groceries and other lines of merchandise were moved in fair volume without any material change in values, except Sugars and Coffees, which were advanced.

Cotton in New York fluctuated within a good range. Claims of a 12,000 000 bale crop, if realized, will make the largest yield on record. Texas shows an improved condition and it raises a quarter to a third of the crop. In other sections there has been some deterioration owing to heavy rains. Consumption has been reduced by the closing of the Fall River mills, but the "bull" interests were aggressive and bought on all breaks. At the finish last sales were at losses of 3 points on the active futures.

COMMERCIAL.

An excellent business was reported in commercial circles on the Chicago Board of Trade the past week. Transactions in all departments were large, and the speculative branch the best in many weeks. Outside speculative orders were more numerous, and for larger quantities, and receiving interests experienced a marked increase in country offerings of cash property, both on spot and to arrive. Speculative values were influenced almost exclusive y by the domestic crop news, and should the damage claims received from the Northwest this week be confirmed later on, there is little doubt but that still greater activity will be experienced. Outside parties, with capital to invest, should not overlook the fact at the present time that the Chicago Board of Trade is the largest Grain market in the world and the one which forms a basis of values in other speculative centers. Speculators should keep their trades well margined during periods of activity, such as was witnessed the past week, as violent changes are likely to take place most any time when least expected

Crop news from abroad was rather more favorable this week, though rain is needed in many important sections of the continent. The Wheat harvest in the United Kingdom is progressing favorably, and the new crop is said to be of fine quality. Reports from France were variable. A portion of the Wheat crop is reported shriveled, and the yield short in quantity, but quality good. The drought continues in Germany and Italy, while Russian Spring Wheat advices were favorable in the east and fair in the southeast. The rains in Roumania have enabled plowing to commence. Hungary was reported as buying Roumanian Wheat freely. Crop reports from Australia and Argentine were favorable.

Weather conditions the past week in the United States and Canada were rather unreasonable. Temperatures were generally below normal and against rapid development for the crops yet to be gathered. Rust was reported in the Northwest, also in portions of Iowa and Nebraska. Considerable damage was reported to Spring Wheat in South Dakota, and some injury occurred in North Dakota, but in Minnesota only a portion of the crop was affected, and a good yield is promised. Harvesting is in progress in South Dakota and Southern Minnesota, but has not begun in North Dakota, where the crop is ripening slowly. Very high temperatures on the North Pacific Coast hastened the maturity of Spring Wheat, and caused premature ripening and shriveling of the Grain in portions of Washington. The Winter Wheat harvest is practically completed under rather favorable conditions. Corn needs rain in the Ohio and Mississippi Valleys, but over the Central and Western portions of the Corn belt the crop has advanced favorably and continues in a promising condition. In the Atlantic Coast districts the crop has made vigorous growth and generally is in excellent condition. The Government report made the yield of Winter Wheat 12.3 bu, indicating a crop of 329,990,000 bu. Condition of Spring Wheat was reported 87.5 per cent, or 261,358,000 bu, and combined yield 591,318,000 bu, against 637,821,000 bu in 1903. Condition of Corn 87.3 per cent, and crop 2,426,262,000 bu, against 2,244,176,000 bu in 1903. Oats 86.6 per cent, and crop 790,447,000 bu, against 784,094,000 bu last year. Spring Rye 91.8 per cent, and crop 27,000,000 bu, against 29,400,000 bu one year ago. Barley 88.1 per cent, and crop 130,000,000 bu. Flax Seed 78.2 per cent, compared with 80.3 per cent August 1, 1903.

The movement of Grain from the farms and interior elevators was very fair the past week. In the Northwest receipts were very moderate, but somewhat in excess of last year, while in the Southwest Wheat was marketed freely and the arrivals at accumulating centers much heavier than at this time in 1903. Through the West and Central West there was a noticeable increase in the marketings of Oats, and the Corn movement was fair and heavier than one year ago. Through the South and Southeast marketings of Grain were fair, and moderate on the Pacific Coast. The movement Eastward was only fair, though coarse Grains were forwarded in larger quantities. Exports of Flour and Wheat continue meagre, and light of Corn and Oats. Acceptances from abroad were limited According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was a decrease in Wheat, Oats, Rye and Barley and an increase in Corn. *Bradstreet's* reported a fair addition to the Wheat available. A slight reduction was reported in Corn and a fair decrease in Oats. According to the monthly statement of the DAILY TRADE BULLETIN the world's supply of Breadstuffs decreased equal to 12,175,000 bu during July, compared with a decrease of 19,379,000 bu in June and 10,265,000 bu decrease in July, 1903. The total August 1 was reported 111,152,000 bu, compared with 93,266,000 bu on the corresponding date in 1903.

Another active week was experienced in the speculative markets on 'Change, the volume of business steadily enlarging Commission merchants were favored with a larger amount of outside business, and trading for local account was of immense volume. Fluctuations were within wider limits, and all the leading markets broad and decidedly nervous and sensitive. Sentiment leaned to the "bull" or buying side most of the week, and higher prices were established in all the Grain markets, Wheat getting on new ground. "Short" lines were covered, and investment buying was on a large scale. As the improvement in prices "longs" liquidated their holdings, and values receded, but considering the large amounts marketed prices held fairly well. Wheat was the leader in the speculative list, and the rust talk from the Northwest the chief "bull" incentive, Corn and Oats acted in sympathy. The trade was fairly active in Hog Products, and the feeling was considerably weaker. Outside orders were rather more numerous, and local trading somewhat enlarged. Rather a weak tone was prevalent. Packers were credited with fair sales, the situation at the Yards gradually improving Hogs were in larger supply and prices lower. Receipts at Western packing points more in line with those of a year ago. Trading chiefly in September and October contracts. Packing of the West for the week 50,000 Hogs short of last year; season, 9,065,000, against 9,220,000 in 1903.

A good trade was reported in cash Grain the past week and higher prices ruled for most descriptions. Offerings were fair of Wheat and Oats and moderate of Corn. Demand was good and receipts sold readily. Wheat was taken by millers and speculators and shippers and elevator interests purchased Corn freely. Elevator interests bought Oats, taking most of the large offerings. Quality good. Rye was firm and in light supply. Very little doing in Seeds. Timothy was easy and Flax steady. Hay was quiet and rather dull. Offerings fair and demand light. Hog Products were in fair request and offerings were moderate. Sales somewhat larger and mainly on domestic account. Prices inclined to favor buyers. Hogs were in larger supply and prices weaker, while Cattle were weak and decidedly lower owing to the heavier arrivals. Sheep, too, ruled easier under increased receipts.

FREIGHTS—Traffic conditions are slightly better East and West and give evidence of improving. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston...........	19½	13½	22½	16
New York........	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News...	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are to be advanced ½c Aug. 15 and ½c Sept. 1. Present rates are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are firm with an increased demand, owing to prospects of better exports of feed stuffs. Rates on Grain are ¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 5.65c per bu and Corn 5.65c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are firmer with a good demand for boats, at 1¼c on Wheat and 1⅛c on Corn to Buffalo.

FLOUR—This market attracted rather more general attention the past week, that is inquiries were more numerous. Buyers, however, in most instances slow to take hold at the prices asked, and business in consequence was curtailed. Stocks, however, are low as dealers for some time past have purchased sparingly and are still purchasing on the hand to mouth order. Domestic call was better from the East and New England, but dealers did not take hold as though they had confidence in present values. Millers were quite independent in their ideas. Values were marked up 20@30c more this week, with best Hard Spring Patents held 40c above the quotations of one week ago. Offerings of new Flour were moderate from the Southwest and not a great deal on the market from the Northwest. The foreign call was perhaps a little but bids still prohibitive and under sellers views. Should the damage claims to the Spring Wheat crops be verified later on there is little doubt but that the Flour market will experience a marked change for the better, but as yet dealers in Flour and the large consumers are skeptical regarding the extent of the injury from rust. The situation in the Northwest is anything but favorable and many mills at Minneapolis were reported closed down owing to the high prices of cash Wheat and indifferent demand. Output at the principal Spring Wheat points the past week was reported 368,000 brls, compared with 456,000 brls for the same period in 1903. The week closed steady at the following prices:

WINTER WHEAT FLOUR.

Patents—Southern, export sacks........	$4 70@4 90
Straights, " export sacks........	4 50@4 60
Clear, " export sacks........	3 90@4 30

White, in sacks, pure.......................	3 35@3 45
Dark, in barrels, pure.......................	3 50@3 60
Dark, in sacks, pure	3 25@3 30

MILLSTUFFS—The demand has been fair for Millstuffs during the past week, and the offerings have been light. Market steady. Bran sold at $16 00 per ton in bulk and at $17 00 in sacks, sacks included.

WINTER WHEAT—Prices were advanced 3@5c during the past week, but eased off 1@2c and then advanced 2@3c but closed rather easier. Trade has been quite active, and there has been ready sale for the fresh arrivals. Millers at times bought freely, and have been good buyers all week, with speculators also liberal buyers. Considerable competition existed among the buyers. No round lots were sold for shipment, but some shipping inquiry existed in addition to the regular home buying, and moderate quantities were withdrawn. The crop news received reporting considerable damage to Spring Wheat by rust was the principal cause for the advance. The receipts were fairly large, and considering the prices ruling in this market ought to increase. The quality of the Wheat was very good. The stock of No. 2 Red in store was 427,000 bu, against 483,000 bu the previous week. For the week the receipts were 786 cars, against 722 cars the previous week. There were withdrawn from public elevators 49,210, and from private warehouses there were withdrawn 106 cars and 132,760 bu. No. 2 Red round lots in store were quotably about the same as old September, to ¼@½c under; fresh receipts free on board sold at 98½@99c, up to $1 02¾@1 04, and back to $1 01@1 02, up to $1 03@1 05½. No. 3 Red fresh receipts sold at 95@98½c, up to 98c@$1 02¾, and back to 97c @$1 01, sold up to 99c@$1 03½, with sales billed through at 97c@$1 00. No. 4 Red fresh receipts free on board sold at 85@97c, to 95c@$1 01, and billed through at 92½@97½c. No Grade Red sold at 90c@$1 00. No. 2 Hard fresh receipts free on board sold at 96½@98c, up to $1 02@1 04, and billed through to 96c@$1 00½. No. 3 hard fresh receipts free on board sold at 96@98¾c, up to $1 01@1 03, billed through at 97½c@$1 00, and at the river at 96@98c. No. 4 Hard sold at 91@98c. No. 3 White sold at $1 02 and No. 4 White at 93@98c.

SPRING WHEAT—Nothing to speak of has been done in Wheat during the past week. Only an occasional car was received, and the Wheat in store has been practically off the market, being either held or owned by millers or held for shipment. Prices have ruled higher in sympathy with the speculative market, but have been about nominal. Only 3 cars were received. There were withdrawn from public elevators 307,628 bu and from private warehouses 17 cars. No. 1 Northern fresh receipts entirely nominal at $1 08@1 10, to $1 10@1 13. No. 2 Northern nominally $1 04@1 05, to $1 07@1 08. No. 3 Spring was quotable at 94c@@$1 02, and later at 94c@$1 05—a car sold at 94c. No. 4 Spring nominal at 75@95c, with sale of a fancy car at $1 05.

REGULAR WHEAT—There was an enormous trade and excited, broad market this week, prices getting on new ground, old September selling up to $1 05¾, new at $1 04½, December to $1 03⅝ and May to $1 04⅝. Extreme figures, however, were not maintained, as a sharp reaction followed the bulge on realizing and profit taking by "longs," December reacting to $1 00 and May to $1 01½. The close showed old September 3⅞c higher and new 3⅜@3½c better. December gained 3⅝@3½c and the May 3⅜c. The buying was on an enormous scale the first of the week, "shorts" covering freely on the advance. Damage by rust to the Spring Wheat crop of the Northwest was again the important and almost the only consideration the opening days. Those who had been sending bad reports sent worse, and Northwestern Grain men who had been belittling the damage admitted it was serious. The flood of messages from that section indicating the blight was spreading, the reports of its appearance in Manitoba at last, all had a very "bullish" effect on prices. The following reports were a fair sample of those at hand on Monday and were responsible for the sharp bulge. Minneapolis wired: "Our traveling men who have been driving over the Soo line in Minnesota and North Dakota are sending damage reports that are bad indeed, black rust on nearly all the Wheat, and crop is certain to be small." A letter from a farmer operating 1,500 acres at Ashley, Minn., said: "If the average field goes 25 per cent of the promised crop I am much mistaken. A great deal of the Grain is absolutely worthless and will not pay to cut. It is no further advanced than ten days ago and is not even in the milk. The heads are as dry as paper. I figure it close to a total failure." Alexandria, Minn., wired that crop there was almost a failure. Fergus Falls, Minn , claimed that they did not expect over 25 per cent of what the crop promised two weeks ago. Larimore County, N. D., wrote: "Prospect two weeks ago was for manificent crop and is now complete failure." Crookston, Minn., wired: "First report of rust damage in this vicinity within three days. Damaged area widening; total yield seriously affected." The Government weekly crop bulletin claimed that reports of rust in the Spring Wheat continue general in the Dakotas, and in portions of Iowa and Minnesota, and indicate that the crop has been greatly damaged, except in Minnesota, where only a portion of the Spring Wheat area has been seriously affected, a good crop being promised in other portions of that State. Harvesting is in progress in South Dakota and Southern Minnesota, but has not begun in North Dakota, where the crop is ripening slowly. Very high temperatures on the North Pacific Coast have hastened the maturity of Spring Wheat, and caused premature ripening and shriveling of the Grain in portions of Washington Fine weather for threshing prevailed over most of the Winter Wheat belt, harvesting of the crop having been completed in the more northerly districts, except on North Pacific Coast, where it is nearly completed. The decrease of 580,000 bu in the visible supply of Wheat, in view of the large primary receipts last week and the small exports, was a surprise to the trade and was also a "bullish" factor. Kansas City, which received 1,792,000 bu for the week and shipped only 900,000 bu, increased its stock but 197,000 bu, the rest presumably gone into private elevators. St. Louis increased but 225,000 bu and Toledo increased 150,000 bu, these three the only points showing any gains of consequence. For same week one year ago there was a decrease of 315,000 bu. Total is now 12,513,000 bu, against 13,099,000 bu in 1903 and 21,733,000 bu in 1902. Local public stocks decreased 381,000 bu to 998,000 bu, compared with 1,610,000 bu the corresponding date in 1903. Stocks here in all positions 2,330,000 bu; decreased 66,000 bu last week. Stocks one year ago 4,260,000 bu. Contract stocks decreased 255,968 bu and are now 539,232 bu, against 1,282,361 bu one year ago. *Bradstreet's* increased 1,307,000 bu, against 2,948,000 bu decrease same week in 1903. World's shipments were larger than looked for at 9,112,000 bu, against 8,536,000 bu previous week and 7,256,000 bu one year ago. Quantity on ocean passage increased 928,000 bu and is now 39,640,000 bu, against 24,528,000 bu one year ago. The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named:

	Aug. 1,'04. Bu.	July 1,'04. Bu.	Aug. 1, '03. Bu.
Afloat for Europe...	38,710,000	45,180,000	25,550,000
In store in Europe..	31,950,000	36,640,000	24,040,000
In store–Argentina..	3,352,000	2,904,000	3,320,000
In store–America....	37,140,000	38,603,000	40,356,000
Total..............	111,152,000	123,327,000	93,266,000

The decrease during July equalled 12,175,000 bu, compared with a decrease of 19,379,000 bu during June, and a decrease of 10,265,000 bu during July, 1903. "The international Wheat market at present time," says the Liverpool *Corn Trade News* of July 26, "appears to be at a critical stage, and we venture to predict that when the last doubt is dissipated as to the actual results of the North American and Russian harvests, and should they then be recognized as only mediocre crops, the confidence in the maintenance of the present enhanced value of Wheat the world over will become stronger than ever; for with only moderate sized crops in the two great producing countries and deficient yields in Roumania and Hungary, there can be no possibility of a plethora of supplies in commercial channels occurring, as was the case last spring and in many former seasons of recent years." Around $1 03⅜ for December and $1 04½ for May "long" property came out and influential interests shifted from the "long" to the "short" side of the market. Weather conditions in the Northwest improved, the Flour situation was looked upon as "bearish," many of the Minneapolis mills closing down, receipts at Winter Wheat markets continued free and the foreign demand slack, all of which tended to check the "bull" enthusiasm. December settled back to $1 00 and May to $1 01½. The Government report did not vary much from general expectations, showing a yield of 591,318,000 bu, against 637,821,000 bu in 1903 and 670,063,000 bu in 1902. The *Price Current* estimated the crop at 600 000,000 bu, and the statistician of the New York Produce Exchange interpreted the Government report to mean 606,000,000 bu. The yield in the three Northwestern States, according to the Government data, was 191,000,000 bu, and a very complete statement compiled at Minneapolis on reports as late as August 1 indicated a crop of 186,000,000 bu. Around $1 00 for December and $1 01½ for May investment buying set in and "shorts" covered. Primary receipts were again heavy this week, but the movement does not show up in the visible supply as a good share of the arrivals at the larger terminal points go into private elevators. Receipts June 27 to August 8 aggregate 17,466,000 bu, against 17,637,000 bu in 1903 and 32,325,000 bu in 1902. Exports at Atlantic and Gulf ports continue small and bookings for shipment ahead were light. Clearances this week were reported at 1,282,000 bu, making 7,486,000 bu since July 1, as compared with 18,461,000 bu for the same period in 1903. Argentine shipments were heavy at 1,744,000 bu, bringing the total since the first of the year up to 74,648,000 bu, against 54,626,000 bu for the corresponding time in 1903. The visible there is now reported at 3,680,000 bu, against 3,896,000 bu the week previous and 2,576,000 bu for the same week last year.

CORN—Another active week was witnessed under this head, the market being broad, with fluctuations wide and frequent within the established range of 3½@3⅝c. Sentiment was decidedly "bullish" the opening days and under an urgent miscellaneous demand and moderate offerings September sold to 55c, while December touched 51¼c and the May 50½c. Realizing and profit taking followed, "long" Corn coming out in large blocks and September settled back to 5.⅞c, while December reacted to 49¼c and the May 48⅝c. A rally equal to 1¼@2⅜c occurred later on and closing prices showed gains ranging from 1⅛c to 1⅞@2c. The chief "bull" incentive at the start was the sharp rise in Wheat, the cool weather and lack of rain in important growing sections of the West. "Shorts" covered freely and investment buying was of good character and situation for a time was decidedly onesided. Foreign markets were strong, and crop news from the other side favorable to the "long" interest. *Beerbohm* of July 29 said: "The principal producers of Corn last year were Hungary, 164,000,000 bu, Italy, 86,000,000 bu, and Roumania, 78,000,000 bu. From these three countries the latest reports say that the crop is likely to be very seriously deficient, so that it is very doubtful whether the European crop will reach 400,000,600 bu. Yet Argentina, on the other hand, is evidently, for the second year, blessed with abundance, the shipments since May 1 reaching 21,040,000 bu, against 24,140,000 bu last year in the corresponding period. Big shipments in the next two months from this source are practically certain, and these may keep prices in check but Corn this season appears destined to finally rule at a higher price than a month or two ago seemed at all likely." Private crop advices from the Ohio and Mississippi Valleys was not of the best and likewise added to the "bullish" feeling. Southern Illinois sent the following on Monday: "Nights are too cold for Corn, 55 degrees at daylight last Wednesday and 57 this morning at 5. Corn is not now gaining. I think it is actually losing time compared with an average year. In two of my choicest fields, comprising fifty acres, not one half of the stalks are in full silk yet, this 7th day of August. We must get warmer weather or we will come out as bad or worse than last year." September "shorts," fearing congestion in that delivery, hastened to provide for outstanding contracts, and in the rush to cover the price touched 55c, when the "long" interest endeavored to unload and the price reacted quickly. The forward deliveries, December and May, too, were liquidated freely, and the market assumed an easier under tone. Receipts were moderate, but shipping operations at and same time were limited and tended to offset in a measure that influence. Arrivals this week were 1,258 cars, against 1,216 cars last week and 883 cars one year ago. The outward movement was moderately free, chiefly on old business, and a large share of the shipments were taken from private elevators. The statistics as presented the first of the week received but casual consideration. World's shipments were somewhat larger at 4,476,000 bu, against 3,944,000 bu previous week and 4,765,000 bu one year ago. Quantity on ocean passage decreased 952,000 bu to 15,892,000 bu, compared with 15,583,000 bu same date in 1903 The visible supply increased 126,000 bu, compared with 165,000 bu decrease same week in 1903. Total is now 5,975,000 bu, compared with 6,827,000 bu in 1903 and 6,156,000 bu in 1902. Local public stocks decreased 384,000 bu to 2,586,000 bu, against 3,472,000 bu one year ago. Stocks here in all positions 4,868,000 bu, decreased 515,000 bu last week. Stock one year ago 6,169,000 bu. Contract stocks decreased 381,434 bu, and now include 2,581,472 bu, against 3,296,908 bu year ago *Bradstreet's* decreased 213,000 bu, against 602,000 bu decrease same week in 1903. The Government report did not vary much from expectations. The condition was reported 87.3, against 86.4 last month and a ten-year average of 83.., indicating a crop of 2,426,262,000 bu, against 2,254 176,000 bu in 1903. The yield in the surplus States was reported as follows:

	1904, bu.	1903, bu.	1902, bu.
Ohio............	102,000,000	88,000,000	122,000,000
Indiana.......	156,000,000	143,000,000	171,000,000
Illinois........	319,000,000	264,000,000	372,000,000
Missouri......	158,000,000	208,000,000	264,000,000
Kansas........	182,000,000	172,000,000	223,000,000
Iowa..........	292,000,000	229,000,000	298,000,000
Nebraska.....	273,000,000	172,000,000	253,000,000
Total........	1,482,000,000	1,271,000,000	1,703,000,000

The effect of the Government report was practically offset by the action of Austria-Hungary in prohibiting exports of all feeding stuffs As this country raised 128,000,000 bu Corn and 115,000,000 bu Barley last year and exported 42,000,000 bu Corn the situation abroad was construed as quite "bullish." Private reports, too, from Illinois, Kansas and Missouri were quite "bullish," and all tended to impart strength to the market. September rallied to 54⅝c, December to 51¾c and the May to 51⅛c. The Government weekly crop bulletin claimed that Corn in the Ohio Valley, especially the late planted, was suffering more or less seriously from drouth, and rain needed in portions of the Central Mississippi and Lower Missouri Valleys Over the central and western portions of the Corn belt, however, the crop has advanced favorably and continues promising. In the upper lake districts lack of warmth and the absence of rain have checked growth greatly, the crop being generally backward. In the Atlantic Coast Districts, Corn has made vigorous growth and generally is in excellent condition. Exports the past week were moderate at 695,000 bu and the total since July 1 aggregates 3,283,000 bu, as compared with 6,948,000 bu for the same period in 1903. Bookings at the seaboard were light, the advance in prices no doubt checking the foreign demand. Argentine shipments were liberal this week at 2,562,000 bu, making 39,881,000 bu since Jan. 1, against 33,129,000 bu in 1903. The visible there is reported 3,584,000 bu, compared with 3,112,000 bu last week and 4,020,000 bu one year ago Car lots were in good request most of the week, the current receipts selling readily at higher prices. No 2 to go to store was quotable ¼c over September and No 2 Yellow 1¾c over. No. 3 sold at September price and No 3 Yellow at 1½c premium.

OATS—The market for Oats was active, with a moderate range, and closed at reaction from best prices. The advance, however, was small compared with that in Wheat and Corn. The last sales showed gains of ½@⅞c. September finished easy at 33⅞c, December at 34⅞c, and May at 36⅝c. Receiving houses and elevator interests were liberal sellers the greater part of the week against cash purchases in the country and on local market, and supplied the trade liberally The best buying of September and December was by the largest local "shorts," who covered owing to the advance in other Grains. The Government report showed a condition of 86 6, against 89.8 in July and 79.5 in August last year. It suggests a crop of 790,000,000 bu, or 28,000,000 bu less than a month ago and only 6,000,000 bu more than the final yield

Stocks in farmers' hands August 1 were 71 per cent of the crop of 1903, compared with 7.4 per cent a year ago. This makes the stock 42,341,000 bu, against 73,000,000 bu a year ago, showing a heavy consumption, and on the present basis of the crop indicates a smaller yield than has been generally expected. Receipts for the week were 15,-941,211 cars, against 1,071 cars the previous week and 1,347 cars last year. The sample market was weaker and lower early, but advanced the re-ce to sympathy with futures. Export clearances were 10,000 bu, against 134,000 bu the previous week and 191,000 bu last year. Contract stocks decreased 10,000 bu last week and are 314,000 bu. Total stocks in all positions increased 1,000,000 bu to 1,001,000 bu. The visible supply decreased 2,000 bu and is 2,109,000 bu, against 6,305,000 bu last year.

CORN—Only a moderate business was transacted in the market during the past week. A stronger feeling existed for cash from the beginning of the week and prices were advanced 3@4c, while September reported with a decline and then advanced 3c. The upturn in the market was attributed to the "bullish" tendency of the other Grains. The demand has been fair and the offerings not heavy. The week's business was 2,000,000 bu, against 29,400,000 bu last year. The buying of cash has been principally speculative and for the purpose of placing in store, although occasional sales were taken by buyers. Quality of the Rye coming to averages good, grading mostly No. 2 and there was a car which graded No. 1. The receipts for the week aggregated 61 cars, against 41 cars the previous week. There were withdrawn from public elevators 1,000 bu and from private warehouses none. The visible supply decreased 92,000 bu, and was reported at 6,000,000 bu, against 307,000 bu a year ago. Local stock in store was 837,000 bu, and a year ago was 344,000 bu. No. 2 in store, old Rye, sold at 73@c, and new fresh arrivals sold free on track at 69c for No. 2 and No. 1 at 70c. No. 3 sold at 67c. No. 4, good Rye, mixed with Corn, sold at 67c, and No Grade at 65c. For future deliveries No. 2 a fair demand existed. September opened 1c higher and 66c bid, sold at 66c, up to 71c, back to 67c and closed about 70c. December sold at 72c

BARLEY—A quiet market was experienced during the past week. There were offerings of both old and new Barley, but at times the supply was limited. Old Barley apparently is well cleaned up. New crop Barley has not started to arrive freely as yet. It is deemed expedient to allow it to become thoroughly cured as that in bulk now it may not become heated. The weather has been very favorable for harvesting, and indications are that the new Barley will be dry, sound and of good color. During the week there were arrivals of new Barley which were good malting and occasionally samples of very choice were shown. The market was steady on daily firm. The demand for all times was moderate. A fair portion of the new was taken for pearling. Receipts as posted were 34 cars; the previous week 52 cars and two weeks ago 83 cars. The visible supply decreased 246,000 bu in the week New York reported exports of 30,000 bu, the week before none and two weeks ago 11,000 bu. The visible supply decreased 172,000 bu, and was given at 887,000 bu, against 4,000,000 bu a year ago. Local stock was reported as 69,313 bu, and this was a small increase over last week. During the week some cars of new heating had to be sold down to 42c. There were cars of this but good color sold at 42@45c, and other cars plump but dirty or not so good color at the same range. Good to choice, depending on weight and color ranged at 46@50c, and although no sales over 50c were learned of something of particularly choice style possibly would have been salable for a shade more. Old Barley was quotable over a range as follows: Screenings, 30@33c for poor to choice Feed Barley, common to good 32@40c. Malting, low grade, was quotable 38@40c; fair to good, 42@45c, and new good condition, good to choice as above.

SEEDS—The fact that the season for new Seed of some kinds is at hand has not accelerated trade much It did, however, cause more interest to be shown in Timothy and a lower range of prices to be entertained. There were conditions, however, affecting Flax Seed which caused this line to improve some in value, though there was little increase to the business done. Clover was quoted a shade higher on advances elsewhere, but none offered and nothing was done. The other lines were nominal.

Timothy—The first Seed out of the new crop came to market the past week. It was Illinois Seed of nice quality and brought $3 60. A number of samples were shown. It was mostly Northern Missouri and Southern Iowa Seed. Quality usually good, being good color, rather free from foul Seed with a few exceptions, but usually it was more or less hulled. It was said that there were country offerings to arrive. Bids were put out, but were not readily accepted. Late in the week there were fair September delivery offerings, they can have been in part against to-arrive purchases, at least to some extent. More speculative interest was manifest. Tone of the market for new crop Seed was weaker. September delivery started 20 sacks at $3 17 bid. The first trading was at $3 19½, afterward it broke to $3 00, reacted to $3 07½, and then fell back to $3 02½, and closed at $3 02½ bid. December delivery the early was finally quoted at $2 75@2 80, choice running a shade over. The market for old Seed presented no special change, except that one lot of old contract sold at $2 90, and other lots were reported at that. There were no country lots of old Seed. Market for this inactive and no change from former prices was indicated. Country lots quotable at $2 60@2 90 for new grade to fancy, and fancy about $2 80@2 85, fair to good Seed $2 60@2 75 and rough at $2 45@3 55.

Movement the past week with comparisons was as follows:

Receipts the past week, lbs	12,450
A week ago	118,560
Two weeks ago	177,000
Corresponding week last year	365,405
Shipments the past week, lbs	440,820
A week ago	440,820
Two weeks ago	117,520
Corresponding week last year	273,000

Flax—This market surely was a dead one. With the new crop ready in the Southwest and progressing toward maturity under changing conditions in the Northwest, it is evident that there should be some interest shown. Speculative business should be waking up, but it does not—it is still asleep, or so evidenced as Seed was concerned, that is all the business that can be credited to the market. Prices remained in statu quo until the close of the week when there was a raise of 2c in Cincinnati quotations. It was said some advance in the Northwest where low temperatures caused a little uneasiness. At the close the marked weakness with increase. A cargo of Flax came in and some sold at $1 06, but other business was not reflected in open market business. Only 4 cars came in, besides 9,930 bu by lake; the previous week receipts were 10 cars and two weeks ago 2 cars. Output was 32,330 bu, compared with 8,130 a week and 8,024 bu two weeks ago. Local stock made no change, but remained at 18,811 bu, Last ago it was 67,391 bu. Duluth with 15,858 bu increase had 8,889,483 bu. Minneapolis stock fell off 84,000 bu and 81,000 bu were reported there. The Chicago Flax to reach here arrived Saturday, Aug. 8. It was from Kansas, of good quality and graded No. 1; it did not come on sale. No. 1 cash was nominally $1 17 early to $1 19 later and closed at $1 18. No. 1 Northwestern or No. 1 from the Northwest improved from $1 21½ to $1 24½ and closed at $1 23½ bid. Rejected was nominally $1 13@1 17, depending on quality. Nothing was done in future delivery. For May $1 17 was bid early and later $1 19 bid, with a final closing at $1 18 bid.

Clover—There was only a nominal market the past week. There was no cash Clover on sale There also was an absence of speculative orders. So far as could be learned advices of finance and feeling here was firm. There was no crop news particularly. The country has not been offering any new crop Seed. After a few slight changes values closed as follows: Prime cash, 10c delivery, contract grade, nominal at $12 25. Contract spot Seed was quoted at $11 50. Country lots, common to choice, $8 00@11 00; fancy above; mixed with buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good, 90 75@10 75.

Other Seeds—There was an entirely nominal market. There was some movement, more shipped out than was received, but on the regular markets no offerings whatever were seen. No quotations were obtainable. Prices are not likely to be established until Seeds of the new crop begin to come in, and consignments are not looked for until some time next month.

Receipts the past week, lbs. 19,480
A week ago 317,960
Two weeks ago 18,181
Same time last year 32,487
Shipments the past week, lbs 422,014
A week ago 694,734
Two weeks ago 523,800
Same time last year 313,318

HAY—The receipts for the week were 3,641 tons, against 2,979 tons for the previous week. Shipments for the week were 185 tons, against 193 tons for the previous week. Choice grades of Timothy Hay met with a good demand during the past week. The arrivals were light and prices ruled firm. Medium and low grades of Timothy and Prairie Hay were quiet and dull. The offerings were only moderate, but the demand was restricted. Feeling easier but prices show no particular change. Quotations at the close ranged as follows: Choice Timothy, $14 00@15 00; No. 1 Timothy, $12 50@13 50; No. 2 Timothy, $11 00@12 00; No. 3 Timothy, $8 00@10 00. Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@11 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie, $7 00@7 50. Clover, $8 00@8 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@15 50 for poor to fancy Timothy, $5 00@8 00 for State and $6 00@15 00 for Kansas and Nebraska Prairie Hay. Rye Straw sold at $7 00@8 00, and Wheat Straw at $5 00@6 00.

COOPERAGE—There was a little more doing in the Cooperage market the past week. Factors were still a little backward about taking hold and outside orders were not very numerous. Offerings were moderate and sellers still rather firm in their views. Prices on the basis since exhibited very little change. Ash Pork Barrels quiet and quotable at 95@97½. Oak Pork Barrels were inactive and prices nominally unchanged at $1 05@1 07½. Lard Tierces were in moderate request and prices were steady at $1 25@1 27½. Iron bound Lard Tierces quiet and quotable at $1 10@1 12½ for six hoop, and $1 15@1 17½ for eight hoop. Oleo Tierces were quiet and prices quotable at $1 17½@1 20.

HOGS—There was a somewhat larger supply of Hogs marketed the past week, the receipts showing some increase notwithstanding the labor troubles. Market was more active on packing account, and shippers purchased fair numbers for the Eastern markets. During the early part of the week rather more steadiness was manifested and prices were about 10c higher. Later, an easier feeling was developed and values receded 20 cents, but the close was comparatively steady. Sales during the week were made at $4 95@5 70 for light, $4 85@5 10 for rough packing, $4 90@5 70 for mixed, and $4 90@5 65 for heavy packing and shipping lots, with the bulk of the sales at $5 00@5 50 for fair to good averages. At the close about 9,000 Hogs remained in the pens unsold. Pigs were in fair supply, with a good inquiry, and sales were made at $4 00@5 65 according to size and weight. Receipts of Hogs at the other large Western packing points were fair and the quality rather good.

PACKING—There was a further increase in the business at the packing houses during the past week, but the aggregate was only moderate owing to the continuance of the labor troubles. Supply of Hogs was somewhat more liberal and packers were enabled to handle them with greater rapidity. The bulk of the productions were simply the work of the regular packing trade. Pork of all descriptions made sparingly, while Lard was produced moderately and chiefly placed in tierces. Hams of all kinds were made in only moderate quantities, as were Bellies and Shoulders were likewise made sparingly. Picnic Hams met with a little more favor. Long Clear Sides, Extra Long Clear Sides, Short Clear Sides and Extra Short Clear Sides are still neglected. Short Rib Sides, Extra Short Rib Sides, Extra Short Clear Sides, Rough Sides, Back and Bellies made in meager quantities. Trade turned out mostly to supply current needs.

PROVISIONS—Quite a good speculative business was transacted in Hog Products during the week just closed, and while the volume was not large, and local packers traded with a little more freedom. An unsettled feeling prevailed during the greater portion of the time, and fluctuations were somewhat irregular, principally owing to deals in September contracts, and this feature led to a little depression generally, especially in the near deliveries. The strength displayed in the Grain markets had a tendency to check the decline in prices. Hogs were in rather good supply, and prices were irregular, advancing slightly early in the week, and then receding to a lower scale toward the close, owing to the increased supply. Larger receipts were reported at the other large packing points of the West than for some weeks, due to returns of a favorable character. For the week, compared with the returns for the corresponding week in 1903, exhibited a decrease of 50,000 Hogs. Foreign markets were quiet, with prices holding in favor of buyers. Domestic markets were steadier, and a little more active. Receipts of Products from the interior were moderately large, and the shipments were fair, and only distributed to a limited extent compared to the manufacturing districtricts. Early in the week, there was some pressure to sell, while the demand was comparatively quiet, and prices prevailed. Later, a little more steadiness was manifested with moderate miscellaneous buying, and prices rallied moderately all around. The strength in the Grain markets had some influence in giving the market a stronger tone. During the later part of the week, there was considerable liquidation in the near deliveries, and a weak feeling was developed. Prices declined more or less on all the leading articles. Toward the close a little more steadiness was manifested, with a moderate rally in prices, but receded suddenly again, and closed steady. A little more doing on January contracts, based on about 34 61@34 75 for Lard Loose. In the shipping branch of the trade there was a fairly good business transacted, and the undertone was rather firm. Offerings were rather free, and the demand was moderately active for the requirements of domestic account. Prices were generally well supported, and in some instances slight advances were gained.

Pork—Trade was a fair trade in Mess Pork the past week, and the feeling was weaker. Offerings were freer, while the demand was only moderate. Stocks on hand are reported quite liberal for this season of the year Trading is still confined to contracts in September and October, the latter continuing to rule at a slight premium. Packers sold with moderate freedom, and there was considerable liquidation by "longs" on the decline. There was pressure from the start, and prices gradually declined 77½@85c. At the reduction timers was a miscellaneous demand, and offerings became light and prices rallied 100@150c, but declined to inside figures at the close, and the close was easy. Inquiry on shipping account was meager and the offerings moderate. At the close cash Pork were quotable at $11 50@11 62½. Other cuts of Pork were called for sparingly, and prices declined moderately on the principal cuts. Stocks on hand moderate.

Lard—A fairly good speculative business was transacted in the Lard market, and the feeling was considerably unsettled. There was no particular change in the situation abroad, and the foreign markets were rather dull. Supplies on hand gradually enlarging, notwithstanding the moderate manufacture. Trading early in September and October were contracts, with scattering transactions in December and January. Early in the week, the feeling was rather easy, with fair offerings, and prices declined 17½@20c on the whole range. At the reduction, the demand improved, and a stronger feeling was manifested, and prices rallied 12½@15c. Toward the close, the market again weakened and prices declined 30@32½c, but rallied again 12½@15c, and the market closed comparatively steady. The inquiry on shipping account was reported to be larger the past week, but no sales were made public. Offerings small. A few small grades were made at 5@7½c discount on September figures—closing at $6 70@6 72½. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in moderate request, and offerings were small. Quotable a little discount on September figures. Leaf Lard was in fair demand and in moderate supply and sold sparingly at 8@9c. Neutral was in better request and offerings were light. Prices rather firm and prices quotably higher at $7 50@7 62½ for No. 1, and 6¾@7 2½ for No. 2.

Short Rib Sides—Rather more interest was manifested in the market for Short Ribs, and the trading was somewhat larger. Feeling was somewhat unsettled and prices were irregular. Trading chiefly in September and October contracts. Supply proved to be liberal for the demand and manufacture only moderate. Outside orders were rather light. Early in the week, there was some pressure to sell and the feeling was easy. Prices declined 7½@10c on the whole range. At the decline, there was a more general inquiry, and prices rallied 20@22½c. At the advance, the offerings were somewhat enlarged, while the buyers were backward, and prices irregularly declined 25@27½c. Toward the close, there was a little more steadiness manifested, and prices rallied 2½@5c, and the market closed rather steady. A fair inquiry prevailed on shipping account, and offerings were fair. Prices were irregular, and at the close were quotable at $7 37½@7 40, according to weight.

Dry Salted Shoulders—Rather a light business was transacted in the market for Dry Salted Shoulders, and prices were easy. Offerings were light, and the demand was rather active, but mainly to supply the wants of the domestic trade. Foreign advices were not quite so favorable to holders, but there were few changes to note in prices. Supplies of all kinds are fair. Interior packers sold moderately Domestic demand mainly from the Southern trade Foreign rate of Hams were quiet and prices nominally unchanged. Shoulders were called for moderately, and prices were steady, and prices favored sellers. Long Clear Sides and Extra Long Clear Sides were in fair request and were nominal. Short Clear Sides were quiet and prices without material change. Extra Short Clear Sides were called for in moderate quantities, and prices were well maintained—closing at 7¾@8c. Extra Short Rib Sides were in fair request and prices ruled steady—closing at 7¾@7¾c. Rough Sides were in rather good demand with fair offerings, and sales were moderately free. Prices were well maintained, and closed comparatively steady at 7¼@7½c, according to weight. Bellies were in fair request and prices ruled steady. Butts were called for moderately, and prices were unchanged. Backs were in fair request and prices were comparatively steady. Bellies were in rather good demand and sales were larger at full former prices. Foreign fancy and special cuts of Meats were quiet and prices were nominally unchanged.

Smoked Meats—A fairly good business was transacted in the market for Smoked Meats during the past week, and the feeling was steadier Demand for car lots was quite good, and the jobbing trade was active Fair orders from the Southern markets. Supplies of all kinds are fairly large. Market in a general way was rather firm and price inclined in favor of sellers. Hams were in fair demand at about former prices. Skinned Hams were in moderate request and prices were well maintained. Shoulders were in

THE WEATHER CONDITIONS.

Generally cooler Northwest. Much warmer West, Southwest and in Ohio Valley. Generally fair in all directions. Little rainfall anywhere. Heaviest is at Dubuque—only .20 of an inch.

Indications are for generally fair and cooler weather over the Mississippi and Missouri Valleys to-night and to-morrow.

ITEMS OF GENERAL INTEREST.

The plant of the Fauber Manufacturing Company, Elgin, Ill., was destroyed by fire, Thursday. Loss, $325,000; insurance, $121,000.

The acting Mayor of New York City has signed resolutions authorizing the issue of corporate stock and bonds aggregating over $6,000,000.

Business failures in the United States and Canada for the past week were 255, against 248 the previous week, and 196 for the corresponding week last year

The average weight of Hogs at Kansas City last week was 211 lbs the heaviest since the week ending May 21, but 3 lbs lighter than the same week of last year.

The Barney & Smith Car Company has declared the regular quarterly dividend of 2 per cent on preferred stock payable Sept 1 Books close Aug 18, and reopen Sept 2.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,674,993,657, a decrease of 15.9 per cent compared with the corresponding week last year.

The Buffalo and Susquehanna has declared the regular quarterly dividends of 1 per cent on its preferred stock and 1¼ per cent on its common stock. The former is payable Sept. 1 and the latter Oct. 1

The Allegheny Heating Company has declared the regular quarterly dividend of 4 per cent and an extra dividend of 1 per cent payable Aug. 24. The company is controlled by the Philadelphia Company

A dispatch from Wilkesbarre, Pa., says: "Reports are current of agitation in the anthracite region for a general suspension of hard Coal production for a large part of this month and also in September to avoid accumulation."

The Otis Elevator Company last June anticipated the payment of $150,000 of its notes maturing Jan. 1, 1905, and last Wednesday purchased and canceled $200,000 of its $400,000 notes maturing Jan. 1, 1906 Jan. 1 1907, $400,000 notes mature, and with the payment of these the company will have no outstanding obligations.

A Minneapolis dispatch, Friday, said: "All stations along the 'Soo' line in the North Dakota division send in samples of Wheat and reports as to Wheat condition, the whole making a summary much better than was expected. The impression is growing here that while the rust damage is undoubtedly severe, the damage with reference to yield on the whole has been overestimated."

President Lowry says that the Twin City Rapid Transit Company will pay 1¼ per cent on Aug. 15, as provided for at the directors' meeting held in June. Further, he hopes that eventually a 6 per cent basis will be established. This has been discussed and is warranted by conditions, but no definite move has yet been made. The matter will be discussed at the next directors' meeting at a date not yet set.

Mail advices from Buenos Ayres, dated July 8, state that "copious rains experienced during the last two weeks enabled sowing operations to be resumed and it is now certain that the area under Wheat will be considerably increased at the expense of the Flax Seed acreage. The Flax Seed crops have derived great benefit from the rains, but the area under cultivation shows a large decrease from last year."

Broomhall says: "Argentine Wheat markets even in better condition than a week ago. Tone now being strong under influence of continued export demand. Arrivals from interior still fair and quality satisfactory. Conditions surrounding Corn market less favorable, as foreign demands have fallen off, being now small, with easy tone Arrivals liberal. Condition satisfactory."

An Omaha dispatch, Thursday, said: "Prospect for a Corn crop with seasonable weather is still very promising, but weather conditions just at present time are not favorable for rapid development It is altogether too cold. We need some dry, warm weather. The nights the past few days have been suggestive of frost. Barring early frosts, present promise is for a bountiful crop."

Corn Trade News of August 3 says: "Paris reports say that threshing returns nearly everywhere show that the deficit is greater than expected. Growers in central districts complain bitterly, and it is the same in the southwest and west, but the weight of the Grain exceeds the average. Northern reports are contradictory, but some say that the yield will be inferior to last year's."

The Duluth *Commercial Record* says: "These rust stories that are so common nowadays remind us of a letter received by a Duluth Grain man several years ago from a young niece living in North Dakota, who was just beginning to compose letters. The concluding paragraph of this letter was: 'Crops are looking fine, but papa says in writing to a Grain man I must mention the drouth, rust, blight, frost, and other things like that, so I guess the appearance is deceitful.'"

The stockholders of the South Side Elevated Railroad Company, Chicago, held their special meeting, Tuesday, for the purpose of authorizing the proposed issue of $8,000,000 4½ per cent bonds. Two resolutions were passed. The first authorized a mortgage of $8,000,000 on the property. The second rescinded the action of the last special meeting, when a $7,000,000 increase in the capital stock of the railroad was authorized. Both resolutions were passed by a vote of 78,700 shares against 2,900. The required majority was 68,000 shares. A little over 60 per cent of the outstanding stock was voted in favor of the propositions.

The Committee on Securities of the New York Stock Exchange has ruled that all transactions in West Chicago Street Railroad Company stock made on and after August 5, 1904, until the rate of dividend to be paid is announced are "dividend on." Certificates of stock of the company delivered after August 5, 1904, must be accompanied by a due bill for such dividend as may be declared payable to holders of record of August 5, 1904. The stock will be quoted "ex-dividend" on the New York Exchange when the rate has been declared. No dividend is expected in Chicago on the stock this quarter.

Justice White of the Supreme Court, Brooklyn, N. Y., Tuesday, declared the eight hour labor law unconstitutional and granted writs of mandamus to compel the city to pay $13,000 to the Brooklyn Alcatrax Company and $10,000 to the Uvalde Asphalt Company, payment of which had been withheld on the ground that both companies had, in the performance of contracts for city work, required their employes to work more than eight hours a day. In granting the writs the Justice said in part: "The companies are entitled to be paid on the ground that the violation of the law by them has been waived by the city and on the broad proposition of the unconstitutionality of the statute."

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

Months.	1904.	1903.	1902.	1901.
January	12,172,647	15,509,713	16,193,519	19,297,778

ITEMS OF GENERAL INTEREST.

New York Exchange 20c premium.

Chicago Bank Clearings to-day, $27,925,211.

Documentary Sterling easier at $4.84⅛@484½

Reported that no Wheat and 16,000 bu Corn were taken at the seaboard to day for export.

The word 'new' will be dropped in the inspection of Oats of the crop of 1904 after to-day

Ten packers purchased 15,000 Hogs to-day; shippers 4,500; left over. 5,000. Market closed weak.

The suspension of Hablo Bros. 6 Wall street, was announced at the New York Stock Exchange to-day.

H. M. Hughes, a member of the Philadelphia Stock Exchange has announced his inability to meet his engagements.

Estimated receipts for to-morrow Wheat 261 cars; Corn, 191 cars; Oats, 511 cars; Rye, 5 cars Barley, 13 cars; Hogs, 19,000

The quantity of Flour and Wheat on passage to Europe during the past week increased 496,000 bu, and the quantity of Corn increased 404,000 bu

Broomhall cabled. "Rostoff on Don cables that Spring Wheat in Southern Russia will be a medium-sized crop and in Volga reg on abundant "

Reports from Grand Forks, N D., say "Hot days are hard on the late Wheat in the valleys nights heavy dews, and rust spreading rapidly "

Exports of Flax Seed from India the past week were 180,000 bu, compared with 501,000 bu for the week previous, and 620,000 bu for the correspond ing week in 1903.

The stock of Flax Seed at Duluth on Aug 13 was 5,632,500 bu, compared with 5,835,483 bu the previous week—a decrease of 202,983 bu. Stock last year, 1,710,585 bu.

The September report on Cotton of the Department of Agriculture will be issued on Friday, Sept 2, at 1 15 p m. owing to the holidays on Saturday and Monday.

The death of MICHAEL CROWE Esq., for many years a member of the Chicago Board of Trade, and connected with the Hay and Potato interests, was announced to-day.

Local Securities were more active, stronger and higher. The features were the advance in Car preferred Carb n and Swifts and the decline of 1½ in North Chicago Railway.

Cotton in New York was weakened by more favorable weather conditions and by reports of an expanding movement Selling orders were numerous. Closing prices were at losses of 3@5 points.

The average weight of the Hogs received at Chicago last week was 237 lbs, the heaviest of the year, against 235 lbs the previous week, 248 lbs the corresponding week in 1903 and 244 lbs in 1902.

Stocks of Wheat in public warehouses in Liverpool reported at 2,840,000 bu, against 3,112,000 bu one week ago and 3,176,000 bu one year ago. Stocks of Corn reported at 412,000 bu, against 496,000 bu one week ago and 952,000 bu last year

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 45,000 bu Wheat, 270,000 bu Oats, and 32,000 bu Rye, and decreases of 879,000 bu Corn and 62,000 bu Barley.

East bound shipments of the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov. tons.
Past week	59,978	1,193,000	21,373
Previous week	59,596	959,000	16,526
Last year	49,164	776,000	28,000

Average cost price of Hogs at Chicago, Saturday was $5 11, against $5 06 Friday, $5 21 Thursday, $5 44 last Tuesday, $5 33 a week ago, and $5 44 a year ago. Average cost for the week, $5 32, against $5 33 the previous week, $5 41 a year ago, $6 81 two years ago, $5 87 three years ago, $5 20 four years ago, and $4 55 five years ago.

Stocks in New York were active and strong. Railway shares were bought heavily and advanced ⅞@2½ points, but lost a part Crop news from the West was less favorable. Eastern Railways were taken freely and gained ¾@1⅛. Industrials were irregular, with small changes. Tractions advanced 1⅜@2½. Money, ⅞@1 per cent.

WORLD'S EXPORTS OF BREADSTUFFS.

The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1904, to August 13, 1904, compared with the corresponding period in 1903:

Countries—	1904, bu.	1903, bu.
America	9,720,000	20,120,000
Russia	10,912,000	11,552,000
Danubian	4,656,000	5,048,000
India	11,216,000	6,616,000
Argentina	7,944,000	7,328,000
Australasia	2,232,000	....
Austria-Hungary	8,000	610,000
Chili, North Africa	1,256,000	1,080,000
Totals	47,964,000	52,354,000

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand is only moderate, and sales show little if any increase. Prices steady.

WINTER WHEAT—The market was just about steady for cash at about the same prices current Saturday. Demand good and largely speculative Most of the cash business was transacted before the late sharp bulge occurred in the speculative market. No 2 Red fresh receipts sold at $1 02¾@1 03½ and round lots in store ranged nominally $1 02@1 04 No 3 Red fresh receipts free on board sold at $1 01@1 03 and billed through at $1 01 No 4 Red sold at 95@99½c No 2 Hard fresh receipts sold at $1 01@1 02 and No 3 Hard at 97c@$1 02 No. 3 White sold at $1 00@1 01 and No 4 White at 87c to 96c@$1 00

SPRING WHEAT—So little doing that prices were entirely nominal. No 1 Northern fresh arrivals nominally about $1 10@1 15, and No. 2 Northern about $1 05@1 08. No. 3 Spring quotably 95c@$1 05, with sale of a car lot at $1 02 No 4 Spring quotable at 75@95c.

REGULAR WHEAT—A very good trade more active than Saturday, with the tone quite firm. Closing prices showed new September 2c higher, while December gained 2½@2⅝c, and May 2⅜@2½c. Sentiment was very much mixed but market was stronger at the start owing to the fact that cables refused to follow Saturday's decline on this side. Crop news, too from the Northwest was in the main unfavorable and Corn strong, all of which tended to impart strength to the situation Saturday's sellers were among the best buyers, and the Southwest was credited with purchases. Liverpool quoted spot steady to ½d higher and futures ¼@½d higher. Stocks were 2,840,000 bu, decreased 272,000 bu last week. London was steady to ¼d lower. Cargoes on ocean passage steady. Berlin was ⅛c lower. Grand Forks, North Dakota wired, "Hot days are hard on this late Wheat in the Valleys, nights bring heavy dews and rust spreading rapidly." Map was generally clear in the Northwest, with temperatures a little higher, and fair weather predicted for Northwest *Broomhall* cabled that his agent at Rostoff-on-Don cabled that the Spring Wheat crop in Southern Russia would be medium in size and in the Volga region abundant. World's shipments were 8,064,000 bu—those from India being the largest, 2,16 000 bu—against 9,112,000 bu previous week and 9,0 2,000 bu one year ago. Quantity on ocean passage increased 496,000 bu and is now 30,136,000 bu, or 3,712,000 bu larger than a year ago. The visible supply increased 45,000 bu, compared with 561,000 bu decrease same week last year. Total is now 12,558,000 bu, against 12,538,000 bu in 1903 and 20,264,000 bu in 1902. Local public stocks decreased 82,000 bu and are now 918,000 bu, against 1,591,000 bu in 1903 Primary receipts were 640,000 bu larger than a year ago. Kansas City and St. Louis received 618,000 bu, against 418,000 bu same day in 1903. Northwest cars 46 larger. London *Times* was reported out with a "bearish" view of the world's Wheat position Minneapolis reported stocks decreased 120,000 bu the past two days Cash values at Duluth reported very weak. Exports were more limited and no boat loads accepted at the seaboard. A late message from a crop expert Northwest read. "Larimore Casselton Wahpeton to Morris, prospects very bad and quality very poor. Cutting general both ripe and unripe" Receipts at Duluth 41 cars and at Minneapolis 177 cars, a total of 218 cars, against 178 cars Saturday, 186 cars a week ago, and 170 cars last year Local receipts included 116 cars Winter, 2 cars Spring, no mixed, a total of 118 cars, against 99 cars last year. Included in the above were 18 cars contract grade There were 17 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 261 cars Withdrawals to-day were 33,300 bu Receipts at Western points were 1,346,478 bu, against 687,332 last year At Eastern points 103,830 bu, against 283,745 bu last year. Shipments from Western points were 431,192 bu against 307,387 last year and from Eastern points 12,840 bu. against 382,242 last year Shipments of Flour were 971 brls. Exports of Wheat in Flour were equal to 17,200 bu

Future Deliveries of Regular Wheat Good trade and prices higher

SEPTEMBER—Old Style Sold at $1 02@1 04½ Opened with sales at $1 02¾ to 1 02½; sold to $1 03¼ to $1 02, to $1 02¾ to $1 02⅝ to $1 04½ to $1 01⅞ and closed nominally $1 01⅞.

SEPTEMBER New Style—Sold at $1 00⅛@1 03 —sold only sparingly at the inside price quoted Opened with sales at $1 00⅛ to $1 01¼, sold to $1 01½, to $1 00⅞, to $1 01 to $1 00¾ to $1 01½ to $1 01, to $1 01½, to $1 00⅞, to $1 01¼, to $1 01¾, to $1 02¼, to $1 01⅞, to $1 03 to $1 02½, to $1 02¾ and closed at $1 02¾ sellers

DECEMBER—Sold at 99⅝c@$1 02½ Opened with sales at 99¾c to $1 00¼ sold to $1 00⅜ to 99⅞c, to $1 00½, to $1 00 to $1 00⅝, to 99⅝c to $1 00½, to 99⅞c to $1 00⅝ to $1 00½ to $1 01¼, to $1 01, to $1 02½, to $1 02⅜@1 02½, and closed at $1 02⅜@1 02½.

MAY—Sold at $1 01½@1 04½ Opened with sales at $1 01½ to $1 02 sold to $1 02¼ to $1 01⅞ to $1 02¼ to $1 02½, to $1 01⅝ to $1 02⅜, to $1 02 to $1 01¾, to $1 03⅛, to $1 02¾, to $1 02⅞ to $1 04½, to $1 04¼ closed at $1 04¼ sellers.

CORN—Was active, with a large general trade close showing gains of 1⅜c for September, while December gained 2¼@2⅜c and May 1⅝@1¾c Cables were up and the crop news in the main favorable to the "long" side of the market Commission houses and floor traders were prominent on the buying side early in the session the offerings being absorbed readily The Southwest bought at the start, but sold later. Provision interests also sold on the advance but closing prices were around the top of the day Liverpool quoted spot steady to ½d lower, while futures were ⅜@1d better Stocks there 412,000 bu, decreased 84,000 bu last week St Joseph, Mo wired that very damaging reports were coming in from country stations of injury to Corn. Advices from Western Kansas were likewise bullish and reports from Southern Indiana and Ohio were also unfavorable Scattered showers were predicted for Kansas, Illinois and Indiana World's shipments were 3,916,000 bu, against 3,668,000 bu previous week and 4,351,000 bu one year ago Quantity on ocean passage increased 404,000 bu, and is now 16,296,000 bu or 3,514,000 bu less than a year ago. The visible decreased 879,000 bu, against 168,000 bu decrease one year ago. Total is now 5,096,000 bu, against 6,679,000 bu in 1903, and 5,438,000 bu in 1902 Local public stocks decreased 528,000 bu and are now 2,058,000 bu, compared with 3,351,000 bu same date in 1903. Kansas City up 3c and St. Louis 1⅛@2c. Western receipts were 203,000 bu; last year 294,000 bu. Shipments 158,000 bu and 381,000 bu respectively Outinspection 151,200 bu and exports 145,000 bu. Cash demands moderate and sales 50,000 bu. Local arrivals 138,000 bu; shipments 387,000 bu Receipts 94 cars; last year 193 cars, and 191 cars estimated for to-morrow Car lots in good demand and prices ¼@½c higher. No. 2 closed about 54¾c No. 2 Yellow closed at 56¼c. No. 3 sold at 54c and closed at 54½c. No. 3 Yellow sold at 55½c and closed at 56c No. 4 at 53½@55c outside prices for yellow.

Corn by sample—Was firm, with prices unchanged to ½c higher. Offerings moderate and demand good. Sales on track and free on board No. 4 sold at 47½@55c. No. 3 at 54@56c. No. 3 Yellow at 55½@56c. No. 2 at 55½c. No 3 White at 54@55c. Billed through. No Grade at 48c. No. 4 at 52½@54½c. No 3 at 5_@55c. No. 3 Yellow at 54¾@55c No. 2 Yellow at 55c No. 3 White at 5_@53½c

Future Deliveries of No. 2 Corn—Active and strong, closing 1⅜c and 2¼@2⅜c higher.

AUGUST—Inactive Quotable 1c under September and closed nominally 53½c

SEPTEMBER Sold at 53@54½c Opened at 53c to 53⅜c, and sold at 53¼@53⅜c, to 53½c, to 53⅝c, to 54c, to 53¾c, up to 54¼c, to 54⅜c, to 54½c, and closed at 54½c asked

DECEMBER—Sold at 51⅜@53¾c Opened at 51⅜c to 51¾c, and sold at 51⅝c, to 51¾c, to 51⅜@51½c, to 51⅝c, to 51½c, to 52⅜c, to 52c, to 52⅜c, to 52⅝c, to 53¼c, to 53c, to 53¾c, to 53⅝c, to 53½c and closed at 53½c bid.

MAY—Sold at 50½@52⅞c Opened at 50½c to 51c and sold at 50⅝@51c, to 51c, to 50¾@50⅞c, to 50¾c, to 51½c, to 51⅜c, to 51⅝@51¾c, to 51⅛c, to 51⅝c, to 51⅜c, to 51½@51⅝c, to 51⅜c to 51⅝@52½c, to 52c, to 52⅞c, to 52⅜@52½c, to 52⅝c, and closed at 52⅝c asked

OATS—Were more actively traded in and closed at the top, at gains of ⅜c to ⅝c The advance was on more general buying in sympathy with Wheat and Corn There was heavy selling of December and May by some of the largest holders early, and buying by them at higher prices later Statistics were of both kinds. The visible supply increased 270,000 bu, and is 2,379,000 bu. Local stocks increased 66,000 bu, and are 382,000 bu. Arrivals were 322 cars, with 511 cars expected to-morrow. Withdrawals were 1,400 bu, and the exports were fair. Cash sales were small. Car lots to go to store were ¼c lower early, but regained the loss No. 4 White sold at 33c. No. 2 White at 34½@35c Standard at 34¾@35¼c. No. 2 at 31½@33½c. Standard in store closed at 34⅛@34½c

Oats by sample were steady to ¼c lower for the bulk of the sales, but the close was strong in sympathy with futures. The "old" has been dropped by the inspection department. Sales on track and free on board: No Grade at 30@33½c No. 4 White at 31@35c. No. 3 new at 31⅛@33½c No. 3 White at 31½@34½c. Standard at 31¾@35½c. No. 2 at 31½@32c. No. 2 White at 35@35½c. Billed through No 4 White at 34@34¼c No. 3 at 31¼c. No. 3 White at 31½@35c. Standard at 34¼@35c. No. 2 at 31½@32½c. No. 2 White at 34½@35c. At the river No. 4 White at 32¾@33c. No 3 White at 33½@33¾c Standard at 33¾@34c.

Future Deliveries of Contract Oats—Were higher with good trading.

AUGUST—Closed at 34⅛c.

SEPTEMBER—Active. Sold at 33⅝@34½c. Opened at 33¾c; sold to 34½c, to 34⅜c at close.

DECEMBER—Active. Sold at 31¾@35⅜c. Opened at 31¾c to 34⅞c, sold to 35⅜c and closed there.

MAY—Increased trading. Sold at 36¾@38⅜c and at 37½c Opened at 36¾@36⅞c to 36⅞c sold to 37½c at close.

RYE—Was quiet and steady Demand not at all urgent and offerings light There were ten cars received. There were no withdrawals from store here and no export clearances from the seaboard No 1 sold at 71c No 2 also sold at 71c and No 3 at 68c, all fresh arrivals

Future Deliveries of No. 2 Rye—Quiet September 70c bid and December 72c bid

BARLEY—According to the posting there were 8 cars of Barley in 5 cars new, at the same time about 20 cars spot new Barley were sold They will probably show in to-morrow's inspection New Barley is arriving in good condition better than in other years. It was mainly of good quality, yet varying in weight and color. The test demand was for pearling, main purchases were for that purpose There did, however, exist a moderate malting demand. Consignments were easily disposed of. A steady to firm feeling prevailed Prices were quoted from unchanged to 1c better. No fancy cars offered Very little low grade old Barley offered, latter would be salable for mixing Car lot to arrive offerings not cared for particularly Whether round lots would be wanted there were none offered to determine Visible supply decreased some and local stock unchanged Screenings quotable at 3@35c, outside for choice; feed or mixing over the same range, and malting 40@46c for low grade to good; choice over, but not offered New about 4@43c for thin or stained 45@45c for fair good color, depending on weight 48@50c for choice and nominally above if fancy

SEEDS—There was a small trade in Timothy and while prices were not changed, the tone of the market was noticeably heavy Flax in a nominal way was lower and Clover a little heavy

Timothy—There was a suggestion of dullness about the market There was not at the same time any material change September delivery sold at $3 05, but only a few cars could be placed. It was offered at that and $3 02½ was bid. For October $2 90 was old with no offers heard Contract spot was nominally $2 90. There was some good old cash Seed sold at $2 65 and for some new $2 85 was bid and not accepted Not much demand for cash Seed on the regular market and business on orders reported as continuing light New, good quality, spot had a quotable value of $2 75@2 85 choice to fine bright, clean, unhulled, $2 90@3 00, considerably hulled or not clean about $2 60@2 65, if poor lower

Flax—There was a drop in prices from last week's closing of 1@1½c The decline occurred without any business being done It was due to a slump in prices in Northwestern markets Movement all around was small Local receipts 3 cars or 2,700 bu and taken out 25,000 bu by lake Minneapolis received 7 cars and Duluth 2 cars Local stock last week decreased 3,484 bu No 1 Northwestern or No 1 from the Northwest nominally $1 23½ bid No 1 at $1 15½ Rejected quotable at $1 12@1 15, depending on quality. September nominally $1 15½

Clover—While nothing was offered it was said the tone of the market was not strong at all, and in fast nominal October delivery quotations were let down a shade A cable from Hamburg estimated Clover Seed crop of Russia and France smaller than last year Great Britain and Italy good Chili excellent, double last year's Austria and Silesia small but larger than expected This was not deemed as a "bullish" influence under ordinary circumstances, and especially not since prices for Clover are already high New October delivery, contract grade nominal at $12 00 Contract spot Seed was quoted at $11 50@11 75. Country lots, common to choice, $8 00@11 60; fancy above; mixed with Buckhorn or other weed Seeds $7 00@8 00, poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75

Other Seeds—Mustard nominally 75c@$1 10 for common to choice

HOG PRODUCTS A fairly good trade was reported in Hog Products, and the feeling was somewhat unsettled Offerings were fair, and the demand was moderately active Feeling firmer in sympathy with the strength in Hogs and Corn and prices ruled higher on all the leading articles and the advance was fully supported to the close. January contracts were in good request generally, but offerings were moderate, and prices ruled rather firm. Outside orders were moderate and local trading was fair Receipts of Hogs were smaller than generally anticipated, and prices higher. Receipts at the leading Western packing points were estimated at 38,500, compared with 68,200 one year ago Foreign markets were quiet and steady for Meats, while Lard was steadier and 3d higher Domestic markets steady Receipts of Products were good—of Lard and Meats about 21 cars. Shipments were moderate of Lard and Meats about 89 cars Demand on shipping account was moderate and the offerings were fair Export inquiry a trifle larger. Sales were moderate, and prices without material change Exports for the week compared with the corresponding week in 1903, exhibited decreases of 1,040 brls Pork and 3,105,000 lbs Lard, and an increase of 2,413 boxes Meats.

Mess Pork—A fairly good business was reported in the market for Mess Pork, and the feeling was unsettled. Offerings were fair, and the demand was moderately active Market opened stronger, with fair miscellaneous buying, and prices were 10@12½c higher, but a little realizing caused a weaker feeling and the advance was lost Toward the close, a little more steadiness prevailed, and prices rallied 7½@10c, and closed rather steady Shipping demand was light and offerings were moderate Cash lots quotable at $11 75@11 75

SEPTEMBER—In rather good demand and offerings were fair Sales were made at $11 60@11 72½ Opened at $11 70 to $11 72½ sold to $11 60 to $11 65 to $11 62½ to $11 65, to $11 60, to $11 70, to $11 67½, and closed steady.

OCTOBER Offerings were fair, and the inquiry was moderate. Sales were made at $11 70@11 82½ Opened at $11 82½, sold to $11 70, to $11 75, to $11 72½, to $11 75, to $11 70, to $11 72½, to $11 70, to $11 80, to $11 77½, and closed steady.

DECEMBER—Quiet, with small sales at $11 70@11 75

JANUARY—In fair request and offerings were rather light. Sales were made at $12 92½@13 15. Opened at $12 92½ to $12 95, sold to $12 92½, to $13 05 to $13 00 to $13 12½, to $13 10, to $13 15 and closed steady

Lard—Trade was fair in the Lard market, and the feeling was steadier Offerings were not very large and the demand was fair Foreign advices were more favorable to holders. Prices were advanced 5@7½c, and the market closed steady at about outside figures Stocks gradually enlarging Demand on shipping account was reported fair with no particular pressure to sell Cash lots quotable at $6 75@6 77½ Loose lots in fair request with limited offerings. Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings Quotably steady at about $6 25 Neutral in only limited demand with fair offerings Prices quotably steady at $7 50@7 62½ for No. 1, and $7 12½@7 25 for No 2

SEPTEMBER In fair request, and offerings were moderate Sold at $6 80@6 85 Opened at $6 82½ sold to $6 80, to $6 82½@6 85, to $6 82½, and closed steady

OCTOBER Offerings were not very large, and the demand was only fair. Sales were made at $6 87½@6 92½ Opened at $6 90 to $6 92½, sold to $6 87½@6 90, to $6 92½, and closed steady.

DECEMBER Quiet, with small sales at $6 95.

JANUARY—Called for moderately, and offerings were not very large. Sales were made at $6 95@7 00. Opened at $6 97½, sold to $6 95, to $6 97½@7 00, and closed firm

Short Rib Sides—A fairly good business was reported in the market for Short Rib Sides, and the market was steadier. Offerings were not very large, and the demand was fair. Prices were 2½@5c higher and the advance was well supported to the close Shipping demand was moderate, and offerings were not very large. Cash lots quotable at $7 37½@7 50 according to weight

SEPTEMBER—Offerings were fair and the demand was moderate Sales were made at $7 42½@7 47½ Opened at $7 47½, sold to $7 42½, to $7 45 to $7 42½ to $7 47½, and closed steady.

OCTOBER In moderate request and offerings were fair Sales were made at $7 42½@7 47½ Opened at $7 45, sold to $7 42½, to $7 47½, and closed steady

JANUARY Demand was fair, and offerings were only moderate Sales were made at $6 72½@6 87½ Opened at $6 72½ sold to $6 87½, and closed steady

Other Meats Trade was only fair, and mainly on domestic account Exporters bought moderately Offerings not very large and inquiry only fair. Green Meats in limited supply with a light inquiry and prices steady Pickled Meats in fair request with only moderate offerings, and prices were unchanged Dry Salted Meats were in fair demand with moderate offerings, and prices were steady Smoked Meats called for moderately, and prices well supported Closing prices ranged as follows

GREEN—Hams av 10@12 lbs, 9¾@9⅞c; 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9⅝c; 18@20 lbs, 9¾@9⅞c, Skinned Hams 11¼@11¾c, Shoulders, 6⅞@7c Picnic Hams, 7¼@7½c, Bellies 9@11c. Sales were ON TRACK—Tangled Rye—1 car at $7 00 Wheat—2 cars at $6 00. Barley—1 car at $6 25.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Aug 2.]

United Kingdom—The Wheat harvest in the south of England has now fairly started. Recent weather has been generally favorable for bringing the crop to maturity under favorable conditions, for in only a very few districts was the rain, which fell almost generally last week, heavy enough to cause lodging. The fall of rain mentioned was well distributed, but in some districts it did not amount to more than gentle showers, and to ensure satisfactory crops of roots and late fodder more moisture is needed, but if such come, it is very likely to cause damage to the cereal harvest. There has been a moderate increase in the offerings of our native Wheat and the average price has advanced to 28s.

Russia—We have to-day a cable advice from Eupatoria saying that rains in some parts of the South have damaged the quality of the Wheat. There is no change to note as regards the situation in the Southwest and Azoff districts; the crops are varied and in some districts are very bad, but some of our recent advices from Azoff districts mention Wheat of splendid quality. In the Southeast and East indications for Spring Wheat are generally fair. Shipments are now running smaller and port stocks are very light.

Roumania—Continued drouth and heat have such a bad effect on the Corn crop that the Government has prohibited Corn exports for the present. Some rains fell last week and more was expected, and it is hoped that even this late fall may do some good. The land is baked so hard that plowing is almost impossible, and there is besides a scarcity of Cattle for the work. The interior movement and exports of Grain show moderate quantities, but Wheat has not been figuring very prominently. However, shippers are likely to give more attention to the article now that the export of Corn is prohibited. Even for Corn, Messrs Watson Youell & Co work out an apparent surplus for 1904-5 of 20,000,000 bu. but it is well known that a crop can never be exported to the last bushel, and besides of what surplus there may be to spare Hungary will want a good share.

Bulgaria Our Bourgas correspondent again writes in very favorable terms of the Wheat crop, but Corn in the Bourgas district is completely lost owing to severe drouth. Bourgas is in Lower Bulgaria, and if the Corn crop is bad there, it is certain to be very poor also in Northern Bulgaria, which adjoins the drouthy districts of Roumania.

Austria-Hungary—Some rains have fallen in different parts, but the quantity has been quite insufficient to produce any effect on the parched soil. Austrian crops have apparently suffered as much from the drouth as those of Hungary. It may be mentioned, however, that the quality of the Hungarian Wheat is very fine.

Argentina—Our latest cable advices say that weather conditions continue favorable and the Wheat crop growing well. Mail advices confirm the increase in the area under Wheat, some say the increase is partly at the expense of Flax Seed, but our own agent does not hold this view, but still he thinks there has been no increase for the latter crop. Shipments last week were smaller, but there was a trifling increase in the stocks.

Australasia Further beneficial rains have been reported by cable.

India—Rain is now wanted for the country generally, but there is plenty of time yet for Wheat seeding. Shipments from Kurrachee are likely to continue large all through August

France—We have had further complaints regarding the important crop of the Northern region, but the only statement in any way definite is that of our Nantes correspondent, who reckons the yield 20 per cent less than the abundant crop of last year. The Nantes region, however, is more western-central than northern The recent rains and storms benefited Oats, but caused damage to some other crops.

Germany—The heat and drouth have not been relieved to any appreciable extent and complaints continue to be heard. These complaints, however, refer chiefly to Oats and fodder, little being heard in dispraise of Wheat. The dry weather and consequent low water in rivers and canals have practically stopped interior navigation.

Spain—Our Barcelona correspondent now reports that the Wheat yield is short, much to the disappointment of growers

Belgium and Holland—The former country has had good rains, but in the latter only a small quantity has fallen and more is badly wanted.

BROOM CORN SITUATION.

Sales continue in a moderate way on orders. Stock of old Corn is comparatively light Holders, at the same time are willing to sell The feeling is disposed to be easy rather than strong. No new Corn has come to market yet. Small samples have been received from Oklahoma. Some shows a good quality and some curly at the tips. The outcome there will depend on the weather. Facilities for drying Corn are not good in that section. Corn should be shed-cured, should be scraped and be well baled The utmost care should be exercised in order to insure best prices. The Illinois crop is still an uncertainty The acreage is in some cases claimed to be 15 to 20 per cent larger than last year The weather from now on will be the determining factor and no one knows what that will be Nothing definite is known as to acreage in Kansas and Nebraska. It is supposed to have increased on account of encouraging prices having been realized on the last crop It is in Oklahoma where the acreage has been increased the most but from there some reports say the yield per acre is rather light. No arrivals to speak of are expected until, perhaps, a couple of weeks later.

THE WEATHER CONDITIONS.

Cool and generally clear in the Northwest. Warmer and partly cloudy in the West. Scattered showers and warmer in the Ohio Valley and the Southwest.

Indications are for more or less cloudiness over the whole forecast district, with showers in lake region. Normal summer temperatures.

ITEMS OF GENERAL INTEREST.

A fire at Minneapolis, Friday caused a loss of $80,0 0.

The Pere Marquette Railroad Company has declared the usual semi-annual dividend of 2 per cent on its preferred stock, payable Aug. 25. Books close Aug. 22, and reopen Aug. 26.

A Hamburg dispatch to C. A. King & Co. says: "Prospects for Clover Seed in Russia and France are for a smaller crop than last year. Great Britain and Italy good. Chili has an excellent crop—double that of last year. Austria and Silesia have small crops, but larger than expected."

The president of the Northern Traction Company, Friday, filed, at South Bend, Ind., a mortgage of $3,500 000 to the Knickerbocker Trust Company of New York and Benjamin L Allen, New York, co-trustee. The mortgage covers a proposed electric car line to extend from South Bend to Chicago through New Carlisle, Laporte, Valparaiso and Hammond, Ind.

Some of the Chicago banks have been notified by certain of their New York correspondents that the rate of interest on balances with the New York institutions would be reduced after Aug. 15 if sums over a fixed amount named were on deposit. For all sums up to the maximum named the rate of interest will remain 2 per cent, as formerly, but on sums over this amount the rate will be 1 per cent in the future.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 48 hours as compared with the same time last year:

ARTICLES.	RECEIPTS. 1904.	RECEIPTS. 1903.	SHIPMENTS. 1904.	SHIPMENTS. 1903.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Chicago Bank Clearings to-day, $28,173,556.

Documentary Sterling easier at 484⅝@484½.

No exports of Grain at the seaboard to-day.

Two Board of Trade memberships sold at $3,450 net to buyer.

October delivery Clover Seed sold to-day at $12 00 per 100 lbs, being the first trade.

Ten packers purchased 8,400 Hogs to-day; shippers, 4,000; left over, 4,500. The market closed 10c lower.

Estimated receipts for to-morrow: Wheat 77 cars; Corn, 95 cars; Oats, 216 cars; Rye, 7 cars; Barley, 8 cars. Hogs, 23,000.

The receipts of Wheat at Liverpool during the past three days were 264,000 bu, of which 64,000 bu were American. Receipts of Corn, 40,000 bu, of which 24,000 bu were American.

A Winnipeg dispatch, Monday, said: "Some rusted Wheat is seen in Manitoba every year, and some this year also, but so far do not regard it as important. It has never been seriously damaging in previous years"

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 493,000	Dec. 273,000
Europe and afloat	Inc. 900,000	Inc. 2,700,000
Total	Inc. 1,393,000	Inc. 2,427,000
Corn	Dec. 1,178,000	Dec. 314,000
Oats	Dec. 233,000	Inc. 376,000

Grand Forks, N. D. wired: "Drove 30 miles through best Wheat lands in Polk County Minn., Rust in every field. One-third already destroyed is a conversative estimate and spreading like prairie fire. Grain from a week to 10 days harvest; saw thousands of acres that will hardly make seed. Fields that owners tell me were clean last Friday, are black and dying to-day. Only the latest fields are clean now and the blade is red. Any estimate of yield to-day would have to be discounted to-morrow."

The Winnipeg *Commercial* of Aug. 13 says: "The movement of old Wheat is about over for the season and the trade is now looking forward to and making preparations to handle the new crop. At the present writing the prospect is very encouraging for a large and good crop over Manitoba and the Canadian Northwest, but as it is a week to two weeks yet before the bulk of it will be ready to cut, we cannot say it is yet assured as to quality, but every day that passes now without frost damage is making assurance of quality, and we consider the prospect at writing is good for 70,000,000 bu of Wheat, or say 15,000,000 bu more than last year."

Bloomhall's weekly foreign crop summary says: "United Kingdom—Quality of new Wheat crop good, but quantity is short. France—In Northern sections crop results uncertain as reports are contradictory. Estimates on total French Wheat crop vary from 280,000,000 to 320,000,000 bushels. Quality is mostly excellent. Germany A prominent Manheim firm estimates total grain crops at 25 per cent less than 1903. Russia—Weather in South very fine, receipts increasing. Roumania—Weather still too dry. Corn crop will be only about 25 to 30 per cent of an average Government may prohibit exports of Barley and Oats, of which about 14,000,000 bu of the former and 8,000,000 bu of the latter are shipped annually. (Exports of Corn have already been prohibited.) Bulgaria—A semi official estimate places the Wheat crop at 56,000,000 bu, or about same as in 1903. Quality of crop better than last year. However, Corn crop below average. Hungary—Corn crop is very poor."

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—Weather has been favorable for Spring Wheat harvest, which is far advanced in the southern part of the Spring Wheat belt.

Corn—Rain would prove beneficial generally in the Corn belt, over a large part of which, more particularly the southern and eastern portions, the crop is suffering more or less seriously from drouth. In the Central Missouri Valley Corn has made good growth and is in promising condition, but in the Ohio Valley and Tennessee there has been a marked deterioration in the condition of the crop, some in Indiana having been injured beyond recovery. In Iowa it has made satisfactory progress and a normal yield is promised. In the Southern States early Corn is being gathered. Cutting is in progress as far north as Southern Kansas.

Oats—An excellent crop is practically assured in the Middle Atlantic states. The crop in the Lake region and the Dakotas is backward and growing slowly. Harvest is now finished except in ex- northern districts where the work progressed under favorable conditions. A good crop is generally indicated.

Cotton—A more or less decided deterioration in Cotton is indicated over much of the greater part of the belt, except Oklahoma. Complaints of shedding from every State, and rotting of the lower bolls is reported from portions of the Central and Western districts. Reports of too rank growth, however, are much less numerous than in preceding week. Boll-weevils causing much damage in Western, Central, and Eastern coast districts of Texas, and are proving destructive up to the northern tier of counties. In that State, however, the plant and fields are in good condition. In Oklahoma, Missouri, Indian Territory and portions of Arkansas, Cotton is doing well.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Buyers are not taking hold only when obliged to, and the market is unsatisfactory.

WINTER WHEAT—Active for all choice Wheat and prices 1@2c higher, but poor Wheat, for which there was little sale, ruled dull and sold lower, some poor lots to-day showing 2@3c decline from yesterday's low point. Demand chiefly speculative and choice Wheat was wanted, being bought mainly for the purpose of going into store. The poor Wheat could not be used to advantage and hence was not wanted No. 2 Red in store was quotably $1 04⅛@1 06 and fresh arrivals sold at $1 05@1 06 No. 3 Red fresh receipts sold free on board at $1 01@1 05 and billed through at $1 03. No. 4 Red fresh receipts sold at 92c@$1 02. No Grade Red sold at $1 02. No. 2 Hard fresh arrivals sold at $1 04@1 05½ and billed through at $1 03 No. 3 Hard fresh receipts covered 10c range and sold free on board at 94@95c for poor, to 98c@$1 01 for fair to good and at $1 04 for choice with sales at the river at 93½@94c. No. 4 Hard sold at 90@95c. No. 4 White sold at $1 01.

REGULAR WHEAT—Higher, and the market for the day was replete with quick changes and exciting scenes Close showed gains of 2⅛@2⅝c Another day of activity and nervousness, with price changes quick and continuous The markets of the Northwest cut a wide swath in price-making Minneapolis was not only up sensationally, but the number of buying orders sent from there were larger than for several weeks past Crop news from some of the experts who are now going over that country were worse than ever before and the manner in which the buying orders came in showed that many sections will likely prove heavy losers. There was more or less talk of damage in Manitoba by rust, but from that section the reports were conflicting. A special from Winnipeg called attention to the fact that Wheat is being cut there in many localities under best conditions and that the damage reports are unwarranted. As the favorable report from Winnipeg was sent out by one of the best and most conservative houses in the Canadian city, it was well received by the trade. The popular movement in Wheat was to buy the May and sell the September, leaders in the market adopting this course Southwestern receipts were again liberal at 173,000 bu at St. Louis and 320,000 bu at Kansas City, a total of 493,000 bu, compared with 500,000 bu a week ago. Contract stocks of Wheat in Chicago decreased 100 275 bu for the week and are now 439 007 bu, compared with 539,282 bu a week ago and 1,153,584 bu a year ago. The world's available supply increased 1,393,000 bu for the week, compared with an increase of 2,427,000 bu a year ago. Total stocks of Wheat in all positions at Chicago 2,488,000 bu compared with 4,940,000 bu a year ago Foreign markets, while better, were unresponsive. Liverpool was up ⅜d on futures and London ¼@½d better Spot at Liverpool was unchanged to ½d higher. Antwerp was unchanged and there was a holiday at Paris The weekly foreign crop summary as cabled by *Broomhall* was on the whole rather "bullish" in character. The weekly weather crop bulletin was not as "bullish" on Wheat as generally looked for and caused some Wheat to be sold. Primary receipts, while smaller than a week ago, were considerably in excess of a year ago. Receipts at Duluth 105 cars and at Minneapolis 113 cars, a total of 218 cars, against 218 cars yesterday, 185 cars a week ago, and 155 cars last year. Local receipts included 248 cars Winter, 7 cars Spring, 2 mixed, a total of 257 cars, against 221 cars last year Included in the above were 17 cars contract grade There were 5 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 77 cars. Withdrawals to-day were 21,606 bu Receipts at Western points were 923,125 bu, against 657,722 last year At Eastern points 191,983 bu, against 293,083 bu last year Shipments from Western points were 387,859 bu against 301,387 last year and from Eastern points 36,040 bu against 178 447 last year Shipments of Flour were 15,077 brls. Exports of Wheat in Flour were equal to 103,136 bu

SPRING WHEAT A few cars of Spring Wheat were received and met with a fair demand. No 1 Northern remains nominal at about $1 15@1 16. No. 2 Northern nominally $1 10 No. 3 Spring sold at $1 05, and ranged down to 98c for ordinary No 4 Spring sold at 86@93c for fair, up to $1 02 for choice.

Future Deliveries of Regular Wheat—Active trade and prices higher.

SEPTEMBER Old Style—Sold at $1 04⅝@1 06½. Opened with sales at $1 04⅝ to $1 04¾; sold to $1 05½, to $1 05⅜, to $1 06, to $1 05⅝, to $1 06. to $1 05⅝, to $1 06½, and closed at $1 06½

SEPTEMBER—New Style—Sold at $1 03@1 05¼. Opened with sales at $1 03½ to $1 03⅛; sold to $1 03⅝, to $1 03, to $1 03⅞, to $1 03½, to $1 04½, to $1 03⅞ to $1 04, to $1 03½, to $1 04¾, to $1 03⅞, to $1 04½, to $1 04, to $1 05, to $1 04¾, to $1 05¼, to $1 06 @1 05⅛, and closed at $1 05@1 05⅛

DECEMBER—Sold at $1 02⅝@1 05⅛. Opened with sales at $1 03⅛ to $1 02¾; sold to $1 03¼, to $1 02⅝, to $1 03⅝, to $1 03¼ to $1 04⅛, to $1 03½, to $1 04½ to $1 04¼, to $1 04⅝, to $1 04, to $1 04⅝, to $1 03⅝, to $1 04⅜, to $1 04, to $1 05⅛, to $1 04⅞ and closed at $1 05

MAY Sold at $1 04⅛@1 07. Opened with sales at $1 04½ to $1 04⅞; sold to $1 04⅝, to $1 04½, to $1 04¾, to $1 04⅛, to $1 05, to $1 04¾, to $1 06 to $1 05¼ to $1 06¼, to $1 05¾, to $1 06¼, to $1 05⅝, to $1 06, to $1 05⅝, to $1 07, to $1 06¾, and closed at $1 06⅞ bid.

CORN—The close was ¼@⅝c lower and the feeling one of nervousness up to the last There was profit-taking on the hard spots, checking the advances and causing the setback. Cash sales small. Market irregular and unsettled, with price changes wider. The local crowd sold Corn freely early on the scattered rains in Kansas, but were buyers later on advices from Illinois, Missouri and Kansas that Corn is 'firing." The weather crop bulletin showed more or less damage in sections of the Corn belt The buying of the day was particularly strong, with some of it in the way of adding to "long" lines. There were some in the trade who sold on the bulges in order to get the profits. Liverpool reported "shorts" as buyers there on bad crop reports from America. There was a decrease in contract stocks of 532,000 bu for the week, leaving the total at 2,050,000 bu, against 3,164,000 bu a year ago. Total stocks of Corn in all positions at Chicago 4,175,000 bu, against 5,812,000 bu a year ago *Bradstreet's* world's available showed a decrease of 1,178,000 bu for the week, against 314,000 bu decrease a year ago. Local receipts were 550 cars. Primary receipts 208,000 bu, against 338,000 bu a year ago Car lots were in good demand and firm. No 2 closed at 54½c. No. 2 Yellow closed at 56c. No. 3 sold at 54¼c and closed 54¼c. No 3 Yellow sold at 55⅝c and closed 55¾c No. 3 White sold at 54⅝c No 4 sold at 54c.

Corn by sample—Was unchanged to ¼c higher Demand good and not much on the market Sales on track and free on board: No Grade sold at 52c. No 4 at 51½@56c No. 3 at 54¾@55¼c No 3 Yellow at 56@56¼c. No. 2 at 56c. No 3 White at 54¾@55c. Billed through: No. 4 at 51¼@54c. No. 3 at 53¼@53½c No 3 Yellow at 55@55¼c. No. 2 Yellow at 55¼c No. 3 White at 53¾c.

Future Deliveries of No. 2 Corn—Active, with prices off ¼@⅝c for the day.

AUGUST—Closed at 58½c nominal.

SEPTEMBER Sold at 53⅝@54½c. Opened at 54¼c to 54c, sold to 54½c, to 53¾c to 54¼c, to 53⅝c, to 54c, closing at 54¼c

DECEMBER—Sold at 52⅝@53½c. Opened at 53⅛c to 52⅞c, sold to 53c, to 53½c, to 53⅛c, to 53⅜c, to 52⅞c to 53c, to 52⅝c, to 53c, closing at 53¼@53⅜c.

MAY Sold at 51½@52⅝c Opened at 52⅝c to 52⅛c, sold to 52⅜c, to 52¼c, to 52½c, to 52c, to 52½c, to 51⅞c, to 52⅛c, to 51½c, to 51⅞c, to 51½c, to 51⅞c, closing at 51⅞@52c

OATS—Were active and unsettled Prices advanced ¼@½c but reacted and closed ⅛c lower to ⅛c higher The feature was the increased trading in May, which were bought extensively by commission houses. They advanced to the best prices of the season. This met heavy selling for profits and prices receded ½c On the break early sellers bought and the advance in Wheat gave them a small rally. The Northwest covered "shorts" Crop news was "bearish" but Oats were bought on the theory that they should advance in sympathy with other Grains Private elevator stocks increased 1,413,000 bu last week and stocks in all positions are 2,480,000 bu Contract stocks are 366,140 bu, an increase of 51,300 bu last week *Bradstreet's* increased 2,420,000 bu against 376,000 bu last year. Arrivals 580 cars, with 216 cars estimated to-morrow. Withdrawals 1,000 bu. Seaboard clearances 2,000 bu. Car lots to go to store were ¼@½c higher. Sales, 10,000 bu. No. 4 White sold at 34¼@35c No. 3 White at 35@35½c Standard at 35¼@35½c No. 2 at 32@34c. No. 2 White at 35¾c Standard in store closed at 34⅝c

Oats by sample were in good demand from elevator interests mainly Offerings were reduced and prices advanced ¼@½c. Sales on track and free on board: No 4 White at 34¼@35c No. 3 at 31½@32c. No. 3 White at 34¾@36c. Standard at 35@35¾c No. 2 at 32@32¼c No. 2 White at 35½@35¾c Billed through. No 4 White at 34¼@35c. No. 3 at 31½c. No. 3 White at 34¾@35c Standard at 35@35¾c. No 2 at 31¾@33½c. No 2 White at 35@36c. At the river No. 4 White at 30@33c. No 3 White at 33½@34¼c Standard at 34¼c.

Future Deliveries of Contract Oats Were unsettled and averaged higher but reacted

AUGUST—Closed at 34¼@34⅜c

SEPTEMBER Active Sold at 34⅛@34¾c Opened at 34¼c to 34½c, sold at 34⅛c, to 34⅝c to 34¼c, to 34¼@34⅜c at close

DECEMBER—Sold at 35⅛@35¾c and at 35⅝c. Opened at 35⅜c to 35½c sold to 35⅛c to 35⅝c, to 35¼c, to 35⅜@35½c at close

MAY—Increased trading. Sold at 37⅜@38c. Opened at 37½c to 37⅝c, sold to 37⅞c, to 38c, to 37½c, to 37⅝c at close.

RYE Quiet and firmer about 1c higher Demand moderate and offerings light There were seven cars received No withdrawals from store here and exports from New York. No 2 to go to store sold at 72c and free on board at 72@72½c. No. 3 sold at 70½c

Future Deliveries of No. 2 Rye—Quiet and firm. September nominally 71c December 72c bid and 72¼c asked

BARLEY—Offerings were smaller than yesterday There was a corresponding decrease in sales Demand fair and market steady. New Barley on sale was fair to good in quality, but nothing of a high grade noticed. The buying was mainly for pearling account Some maltsters were present, but they were not anxious and did not care to enter into competition. Some demand for old goods for mixing. Old Barley has about disappeared; a few cars of Screenings are still coming on sale To-day there were 14 cars posted inspected in, among them 1 car of No 2. Screenings remain quotable at 35@38c, outside for choice and a few cars were sold at 32@34c: old feed or mixing Barley over the same range and malting 40@46c for low grade to good; choice over, but not offered New about 41@44c for thin or stained 45@48c for fair good color depending on weight 49@50c for choice and nominally above if fancy.

SEEDS—There were no changes especially. Little was done. In the Timothy market there was a weak feeling The rest so far as noticeable were about steady

Timothy There was a very easy tone to this market There was developed but little disposition to purchase. Some cash new Seed again offered Order trade was said to remain very small, and the usual buyers were indifferent All reports indicate a large crop Speculative market dull and weak September delivery sold sparingly early at $3 05 and was offered later at $3 02½. For October $2 85 was bid A couple of cars of cash new, fair to good quality sold at $2 75@2 85; choice nominally above, and dark or rough Seed perhaps about $2 60@2 60 One lot of new on sale was held over Contract spot old nominally about $2 90

Flax—There was no essential change in the market There was an entire absence of business. The local market was without sellers Feeling about steady, for in most cases former prices were bid No Flax received here according to inspection postings, and 7 cars or 7,784 bu were taken up Minneapolis got 1 car and Duluth 31 cars No 1 Northern or No 1 from the Northwest nominally $1 23 bid No 1 was $1 15½ bid. Rejected quotable at $1 12@1 15, depending on quality September nominally $1 15½ bid.

Clover Part of a car new for October delivery sold at $12 00, the first new crop sale, and it was at the price given yesterday as a nominal quotation. No cash Seed offered Contract spot Seed was quotably about $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00, poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75

Other Seeds—Only Mustard quotable at present and that was nominally 75c@$1 10 for common to choice

HOG PRODUCTS—A fair trade was reported in Hog Products and the feeling developed was somewhat unsettled. Offerings were fair, and the demand moderately active and more general early in the day, but later there was more pressure to sell. Feeling was stronger early in sympathy with the advance in Hogs and the action in Grain, and prices ruled higher on all the leading articles. At the advances established, "long" property came out and market became weaker. More call for January Product at the start chiefly from the outside. Receipts of Hogs were smaller than anticipated and prices higher Receipts at the leading Western packing points were estimated at 48,600, compared with 44,000 one year ago. Foreign markets were firm. Liverpool quoted Bacon unchanged, Hams is higher and Lard up 3d. Domestic markets steady. Receipts of Product were small of Lard and Meats about 9 cars. Shipments were fair—of Lard and Meats about 121 cars. Demand on shipping account reported fair and offerings about the same as of late. Export inquiry improving. Sales were moderate and prices without important change.

Mess Pork—A fair business was transacted in the market for Mess Pork, and the feeling manifested was unsettled. Offerings were fair and the demand rather better early in the day. Market started stronger under fair miscellaneous buying and prices were advanced 7½c. Realizing and selling by packers caused a reaction of 27½@30c, followed by a 10c rally. Toward the close there was a little more desire to sell and prices receded slightly, but the close was steady. Shipping demand light and offerings moderate. Cash lots quotable at $11 50@11 55.

SEPTEMBER—In fair demand with offerings liberal Sales were made at $11 45@11 75. Opened at $11 75, sold to $11 70, to $11 75, to $11 67½ to $11 77½, to $11 45, to $11 55, to $11 50, and closed steady.

OCTOBER—Offerings rather liberal and demand fair. Sales were made at $11 57½@11 85. Opened at $11 85, sold to $11 75, to $11 80, to $11 57½, to $11 65, to $11 57½ to $11 60, and closed steady.

JANUARY—Called for more generally and offerings rather free. Sales were made at $12 97½@13 27½. Opened at $13 20 sold to $13 12½, to $13 27½, to $12 97½ to $13 00, to $12 97½, and closed steady.

Lard Just a fair trade was witnessed in the market for Lard. The feeling developed was mixed, offerings being moderate early while the demand was somewhat more general Foreign advices were again more favorable to holders and moderate purchases for foreign account were reported Prices were advanced 10c, followed by a 10c reaction later on, the close being steady Demand on shipping account was said to be fair with no particular pressure to sell. Cash lots quotable at $6 77½@6 80 Loose lots in fair request with limited offerings. Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings Quotably steady at about $6 37½ Neutral in only limited demand with fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1, and $7 12½@7 25 for No. 2

SEPTEMBER Demand fair and offerings moderate Sales were made at $6 82½@6 92½. Opened at $6 85, sold to $6 90, to $6 87½, to $6 92½, to $6 82½ to $6 85, and closed steady.

OCTOBER In good request, and offerings fair Sales were made at $6 92½@7 02½. Opened at $6 95, sold to $7 00, to $6 97½, to $7 02½, to $6 90, to $6 95, to $6 92½, and closed steady.

DECEMBER—Sold at $6 87½@6 92½, and closed steady at $6 87½.

JANUARY—Demand fair and offerings moderate Sales were made at $6 97½@7 05 Opened at $7 02½, sold to $7 05, to $6 97½, and closed steady.

Short Rib Sides—Rather a good trade was reported in the market for Short Rib Sides, and the feeling was somewhat unsettled Market advanced 5c early on miscellaneous buying, the offerings being very moderate. Later, however, there was more pressure to sell, and prices reacted 20@25c Toward the close the market recovered 5c and the close was fairly steady Shipping demand was moderate, and offerings were not very large. Cash lots quotable at $7 22½@7 35 according to weight

SEPTEMBER—Offerings liberal and demand fair. Sales were made at $7 27½@7 52½ Opened at $7 50, sold to $7 52½, to $7 47½@7 50, to $7 50, to $7 30, to $7 32½ to $7 27½, to $7 35, to $7 32½, to $7 32½@7 35, and closed steady.

OCTOBER In moderate request, and offerings were fair Sales were made at $7 32½@7 52½. Opened at $7 50 sold to $7 52½, to $7 32½ to $7 40, to $7 37½, and closed steady

JANUARY Offerings were rather liberal and demand fair. Sales were made at $6 75@6 92½ Opened at $6 87½ sold to $6 92½, to $6 77½, to $6 80, to $6 75 to $6 77½ and closed steady

Other Meats—Trade was only fair, and mainly on domestic account Exporters bought moderately Offerings not very large, and inquiry only fair. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in fair request with only moderate offerings, and prices were unchanged Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows

GREEN—Hams, av. 10@12 lbs, 9¾@9⅞c 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9¾c; 18@20 lbs 9¾@9⅞c; Skinned Hams, 11⅛@11¼c: Shoulders, 6⅞@7c; Picnic Hams, 7¼@7½c; Bellies, 9@11c PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9¾@9⅞c; 14@16 lbs, 9⅝@9⅞c cash, 9¾@10c August, 18@20 lbs, 10@10¼c; Skinned Hams, 11½@11¾c cash, 11⅝@11¾c August; Shoulders, 7⅜@7¾c; Picnic Hams, 7⅝@8c, Bellies, 10@11c DRY SALTED—*loose*—Shoulders, 7⅜@7½c Short Fat Backs, 6¼@7⅛c, Short Clear Backs 8¼@8¾c, Clear Bellies, 8@9c; Rib Bellies, 7¾@8¾c Extra Short Rib Sides, 7¼@7⅜c Extra Short Clear Sides 7¼@7⅜c; Rough Sides 7¼@7⅜c Plates 5¾@5⅞c, Jowl Butts, 5@5⅛c EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10½c, Cumberland Sides 9@9¼c: Long Clear Sides, 9@9¼c, Extra Long Clear Sides 8@8¼c; Short Clear Sides 8@8¼c SMOKED—*loose*—Hams 11⅛@11¾c, Skinned Hams, 12¼@12¾c: Shoulders, 8⅜@9c Picnic Hams, 9@9⅛c. Short Rib Sides, 7⅞@8c Rough Sides, 7⅞@8c; Short Clear Sides, 8⅛@8¼c Extra Short Clear Sides, 7⅞@7⅜c, Breakfast Bacon 11½@12c

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $18 50@19 00; Extra Mess Beef $8 50@8 75 Plate Beef, $8 50@9 00: Extra Plate Beef, $9 00@10 00. IMPORTS OF FLOUR AND WHEAT.

[From the Liverpool Corn Trade News.]

The following table exhibits the imports of Flour and Wheat into and on passage to the following countries from August 1, 1903, to July 31, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
United Kingdom	226,256,000	214,106,000
France	18,781,000	27,144,000
Belgium	66,766,000	51,381,000
Holland	34,764,000	34,624,000
Germany	23,412,000	30,286,000
Italy	33,840,000	33,840,000
Spain	6,056,000	9,952,000
Portugal	1,432,000	2,856,000
Greece	3,872,000	6,440,000
Scandinavia	13,320,000	11,392,000
Austria-Hungary	144,000	784,000
North Africa, etc	11,520,000	1,984,000
Other countries	60,352,000	70,147,000
Totals	519,418,000	530,136,000

EXPORTS OF BREADSTUFFS.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Breadstuffs from the following countries from August 1, 1903, to July 30, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
America	142,101,000	237,472,000
Russia	138,160,000	134,176,000
Danubian	56,983,000	57,958,000
India	56,968,000	27,192,000
Argentina	61,840,000	61,840,000
Australasia	29,280,000	
Austria Hungary	4,936,000	11,392,000
Chili, North Africa	16,536,000	9,656,000
Totals	519,018,000	530,136,000

EXPORTS OF CORN.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Corn from the following countries from November 1, 1903, to Jan. 30, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bushels.	1902-3, bushels.
Russia	82,380,000	73,472,000
America	2,428,000	8,168,000
Sweden	54,000	54,000
Roumania and Turkey	22,872,000	11,178,000
Algeria and Tunis	4,640,000	3,240,000
Total	87,846,000	92,073,000

EXPORTS OF RYE.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Rye from the following countries from August 1, 1903, to July 30, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bushels.	1902-3, bushels.
Russia and Danube	59,296,000	62,328,000
America	7,536,000	5,616,000
Germany	6,564,000	5,032,000
Total	46,853,000	72,976,000

ROUMANIAN CORN CROP.

[Special Cor. Corn Trade News, Aug. 5.]

BERLIN, Aug. 5.—We confirm our telegram of this morning advising you that the Roumanian Government has prohibited the export of Corn. This news has put everything into confusion and great excitement has prevailed on our market since last night.

The royal decree is dated the 16-29th July and is to the effect that all exports of Corn are prohibited from the 18-31st inst., i.e. to-day.

Loading operations which have been commenced before the 18-31st inst. will be allowed to be completed and shippers who can prove that the goods made sales abroad before the promulgation of the decree will be allowed to fulfill such engagements, but they have to deposit their sale contracts by, latest, the 24th inst.

The news seems to have been known abroad on Saturday, the 30th ult., as several people received telegrams from Management, Berlin, etc., making inquiries about the prohibition.

The chief of the customs here, up to this morning, had received no orders from the Minister of Finance to stop loading, and consequently trains were continued without interruption, but this afternoon he has received the necessary orders and all loading of Corn has been stopped.

There is a question now whether other Corn actually in lighters and on which the export tax has been paid will be allowed to be exported. The opinion is that such exportation will be allowed, but nothing is certain, as no telegram from the Merchants' Association here is leaving Bucharest to-morrow evening (to-morrow being a holiday) to interview the Ministers and find out exactly how this decree is going to be applied. It is uncertain yet how long it will last, but the reasons for the prohibition is, of course, owing to the short crop Corn and to government having to provide for the impecunious peasants. As Hungary has also a short crop large quantities of Corn were going out of the country and this it is supposed was the greatest drain on the stocks and the chief reason for the prohibition.

Since last week we've further rains have fallen in different districts and are reported to have done some good to the Corn and when the government have provided for the peasants' requirements as cheaply as possible it is to be hoped that the prohibition will be abolished.

THE WEATHER CONDITIONS.

Weather map shows heaviest rain in the Corn belt at Kansas City. Rest is light, as at Dodge, 30 at Keokuk. There are light rainfalls, but pretty well scattered through Kansas, Missouri, Nebraska, Iowa and Illinois. Temperatures are seasonable. Minnesota has light rains east and cloudy west.

The indications are for cloudy weather over this forecast district, with showers in southern and extreme eastern portions.

ITEMS OF GENERAL INTEREST.

The output of the St. Louis Flour mills for the past year was 14,900 brls, against 13,903 brls for the previous week.

The packing at Milwaukee since March 1 is estimated at 253,256 Hogs, against 432,703 for the corresponding time in 1903.

The Standard Oil Company of New Jersey has declared a quarterly dividend of $5 00 per share This is the same rate that was paid at this time last year.

The United States production of Iron Ore in 1903, according to a report to the geological survey, was 35,019,306 long tons, valued at $66,328,415. This is a decrease of 831,837 tons from 1902, but the total is greater than the combined production for Germany, Luxemburg and the British Empire.

Judge Buffington in the United States Circuit Court for the Western District of Pennsylvania has granted a preliminary injunction restraining the Cleveland Pneumatic Tool Company from making and selling pneumatic hammers declared to be an infringement on the Boyer patents of the Chicago Pneumatic Tool Company. The Cleveland Company has given a bond and will fight the case.

For some time there have been persistent rumors that negotiations were pending looking to the consolidation of the Illinois Central and the "granite trust," and his bond was placed at $30,000 by Judge Jenkins, presiding in the United States District Court at Milwaukee. Wis." This action would bring to a head a fight for control of half of the bondholders of the company against the Western Consolidated Granite Company and the American Trust and Savings Bank of Illinois as trustee to obtain title to the property of the trust in Wisconsin. The plaintiffs are owners and holders of $7,000 worth of bonds issued in February, 1902. On Feb. 1, 1903, the Western Consolidated Granite Company organized under the laws of the State of Illinois and issued bonds for $250,000, each bond being of the value of $500. The company has $35,000 worth of property. The bonds are to secure interest on the bonds is the cause of the action.

Official announcement has been made that on Oct. 1 the stockholders of the Illinois and Indiana Railroad will vote on a proposition to purchase from the Illinois Central Railroad Company the railway property, corporate rights, and franchises formerly belonging to the Illinois and Indiana Company." For many years a majority of the stock of the Illinois and Indiana Railroad was owned by the Illinois Central, and about a year ago the Illinois Central absorbed a number of branch lines, including the Illinois and Indiana. The road runs from Effingham, Ill., to Swiss City, Ind. About ninety miles, and had a very large Coal Tonnage. The matter was brought to a head in order to maintain the corporate organization of the Illinois and Indiana Road than to merge it into the system," said Vice President Welling of the Illinois Central. It has been suspected that the object in taking the Illinois and Indiana Road out of the Illinois Central system is in order to make a sale of the branch line to some other company.

General Manager Shields of the Lake Superior Corporation, in making his first statement since his appointment to the reorganized company, says: "I consider that everything has now reached a point where the opportunity will be given of really seeing how the properties can be worked, and my opinion is that as a whole they can be worked on that account as well as being run entirely from a basis of conservatism and will be watched very carefully. We have assembled all the material for the operation of the Steel rail mill, and on our return to the country our intention to push preparations forward so that the mill will be in operation in twenty days. I believe that with the bounty granted by the Dominion Government we will have all the protection required to enable us to secure a good portion of the Canadian market, and it is understood that the Ontario Government has agreed that the company should have a contract for 7 miles for the Temiskaming Railway, which it owns. I believe that our working capital is sufficient to enable us to handle all operations."

There has been great fear in certain quarters of late that a large block of the preferred and common stocks of the American Ship Building Company, held by the defunct Federal Trust Company of Cleveland, would be thrown on the open market. This fear has been instrumental in unduly depressing the prices for the stock in all markets where the shares are listed; not so much so here in Chicago, however, as in the Stock Exchanges of Cleveland, where the bid price for the common stock rules as low as 15. There are, however, no offerings of the shares under 20, the figure originally paid in at the time the company was organized. It may be stated on the highest authority that no arrangements have yet been made for the disposition of the Federal Trust holdings. It has been suggested that the ship Building stock be kept off the market, and at a later date distributed instead of a cash dividend among the bank's creditors. The plan has not been formally discussed, but a majority of the strongest interests concerned are known to favor it, and when the matter is reached in its regular turn in liquidating the bank's affairs, it is believed the plan will be adopted.

The New York superintendent of the insurance department reports that he has had a force of twenty-five examiners engaged for seven months in the examination of the affairs of the Equitable Life Insurance Company. The company has no investments in stocks of any kind its investments, it is declared, are confined to State, Government, municipal, railroad and other bonds, and bonds and mortgages on improved real estate. The company's annual statement is verified as correct in every particular by the examiners. It is from the last annual report of the superintendent, has the largest number of policy holders, 812,711; the largest amount of new business, $326,000,000; the largest insurance in force, $1,703,000,000, and the largest premium income, $73,000,000, and total income, $88,250,000, of any regular life insurance company reporting to the State insurance department. It was announced August 30, 1904, that the New York Life had received its concession to transact business everywhere in the Canadian Empire. The New York Life is the only one of the great American life companies now authorized to do business in Germany.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

Cotton in New York was affected by weak cables and realizing sales The support was poor Closing sales were at losses of 6@10 points lower.

The stock of Wheat in London on Aug 1, according to *Beerbohm's* returns, was about 1,040,000 bu, against 1,168 000 bu on July 1, and 800,000 bu on Aug 1 last year.

A cable from Berlin says "For weeks not a drop of rain has fallen in northern part of Germany, and in many places it is almost impossible to get drinking water"

Sixty-seven railroads reporting gross earnings for July show a total of $54,602,603, a decrease of $1,004,682 as compared with the gross of the same roads in July last year.

Local Securities were moderately traded in. Biscuit and Carbon preferred are at record prices. Can, Title and Trust and Diamond Match declined and South Side Elevated advanced.

From Russia and the Danube the exports of Flax Seed from Aug. 1, 1903, to July 31, 1904, have amounted to 4,824,000 bu, against 5,056,000 bu in the previous year, and 2,436,000 bu in 1901-2

A Winnipeg dispatch says. "Some complaints of rust in eastern portions of Manitoba. Our opinion is damage very small. Present prospect promises largest Wheat crop in history of country unless future damage by weather."

The shipments of Flax Seed from India from April 1 to date amounted to 10,608,000 bu (Calcutta 6,496,000 and Bombay 4,032,000 bu) against 10,576,000 bu last season (Calcutta 6,712,000 bu and Bombay 3,864,000 bu), and 8,776,000 bu in 1902 (Calcutta 5,720,-000 bu and Bombay 3,056,000 bu).

A Northwestern elevator man, Tuesday, said: "Last year the Spring Wheat of the Northwest was so wet that it became necessary for millers to buy hard Winter Wheat in the Southwest for mixing purposes. This year the harvest is dry and they will not need Wheat to mix. My information is that they will not use as much Winter Wheat as last year."

The Carnegie Steel Company at Sharon, Pa., has served notice on all clerks in the South Sharon office that after Sept. 1 their services would not be required. The blast furnaces construction is completed and no other department of the big works will be operated. This will mean the closing of Open Hearth Steel Department, which employs about 2,500 men running full time.

Stocks in New York developed increased irregularity. There was heavy selling of Steel, Sugar and a few other Stocks, and they weakened slightly, only to turn and make fair advances. London prices were higher and trading professional. Ontario and Western advanced 2⅜, and Smelter 2⅜ to 3 points. Western Railways gained ¼ to 1⅜ despite the reports of crop damage. Money 1 per cent.

There is still little prospect of any plan for the distribution of surplus earnings of the Northern Securities Company The stockholders of that corporation appear likely to wait until there has been a final judgment on the legal merits of the Harriman litigation before they receive any revenue from their investment in the stock. In the meantime there are no complaints. From present indications it would appear that the stock holders of Northern Securities are largely of a class not dependent directly for their living on the income from this stock. In a measure this is undoubtedly true. The stock never became a widely distributed security in the same sense that Western Union for instance, is widely distributed Nothing of great interest is likely to transpire in the near future. The legal question is being attended to, but is not likely to come before the courts until well on in the fall, at which time it will in due course be taken up and carried to a decision. There is no probability of a compromise.

The following sensational messages were received from the Northwest and it was mainly due to such claim which are possibly exaggerated that the Wheat market advanced. Fargo this morning: "Just enough rain here last night to dampen and give rust spores a new footing where it had ceased spurting during the past few dry days." Another from Fargo read. "You can't tell a thing about this crop from car window. Looks good and appearance fools even farmers driving by. When you get into it, find the long heads are empty or hold only shrivelled berries. As soon as threshing and cutting is under way, you will hear a wail that will make present talk sound conservative." Around Hillsboro, North Dakota, plenty of fields will not be cut. Preston will put in mowing machines, burn the straw, in order to clean the land for immediate plowing Killing frost to night in North Dakota, would catch probably one-half of the crop is still possible Much is still in the bloom."

At a joint meeting of the Eastern and Western traffic men, Tuesday, the Board of Trade's Transportation Committee made a protest regarding alleged inequality of Grain rates from the West through St. Louis, as compared with the rates from the same points through Chicago. It was contended that the railroads discriminate against the Chicago market, inasmuch as the rate from Kansas City through St Louis by way of Toledo to the seaboard is 28½c, as against 29½c by way of Chicago Railroad men insisted that the differential did not amount to anything, as practically no Grain moved over the route in question. Another case of discrimination was charged against the Eastern lines, which, according to Western traffic men, are militating against the Chicago market by refusing to abide by the joint rate committee agreement, which provides that the same rates shall apply from Western territory through the Mississippi River crossings as apply through St. Louis It also frequently happens that the rates from Western points through Chicago direct to the East are higher than the sums of the locals from the same points to St. Paul and from St. Paul to the East by the way of Chicago. This fact, it is said, diverts much traffic to the Twin Cities which otherwise would come through Chicago direct.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Foreigners are reported as buyers of Flour in the Southwest Market here is still dull and demand wholly domestic.

WINTER WHEAT—Choice Wheat in active speculative demand and prices 2@3c higher, occasional cars even showed a greater advance Poor Wheat dragged and no one particularly cared to purchase. No 2 Red in store ranged at $1 07⅛@1 09¾ and fresh arrivals free on board sold at $1 07¾@1 10 and billed through at $1 08 No. 3 Red fresh receipts sold at $1 02@1 07½ and billed through at $1 07 No. 4 Red fresh arrivals sold at 94@95c for ordinary to $1 02@1 07 for good to choice No 2 Hard fresh arrivals free on board sold at $1 07@1 07½ and billed through at $1 05¼. No 3 Hard fresh arrivals free on board sold at $1 0.@1 07¼ and billed through at $1 02@1 04 No. 4 Hard sold at 96c@$1 01 and No. 4 White at $1 04

SPRING WHEAT—A few cars of Spring Wheat were received and met with a fair demand. No 1 Northern remains nominal at about $1 15@1 18 No 2 Northern nominally $1 10. No 3 Spring ranged at $1 00@1 08 No 4 Spring sold at 90@96c for fair to good, up to $1 05 for choice. A few cars of new Wheat were received. They had been sold to arrive and no prices given.

REGULAR WHEAT Prices closed 3¾@4¼c higher Had not millions and millions of bushels of "long" Wheat been realized upon during the day the runaway market, on public buying, would have scored a much higher advance. The highest prices were reduced some as the day wore away. May showing the most strength Primary and Northwestern receipts were considerably smaller than a year ago, and the clearances at the seaboard ports were exceptionally light It was reported late that foreigners had accepted offers on Flour at Kansas City and St. Lou   Cash trade was small, owing to the firm views of the buyers. Another day of marked excitement, which was accompanied with sensational changes and upturns The public wrested the market completely from the hands of the everyday speculative talent and sent it up very rapidly. Reports from the crop in the Northwest were more "bullish" than at any time on the present "bull" campaign and as a top sheaf to the speculative shock the weather man promised light frosts for North Dakota for to-night A special from a leading Winnipeg house said: "Rust reports unimportant in Canada. Leading elevator concerns say advices favorable. Only fear is of frost next week." A conservative concern at Minneapolis wired "Three States will not raise to exceed 120,000,000 bu or two-thirds of the amount raised last year." Had not there been heavy and continued profit taking by "longs" the market would have ascended to a much higher altitude than that shown There were foreign buying orders here to help the "bulls" along Liverpool reported Indian Wheat as higher, and "shorts" covering in that market. The close there showed advances of 2¼d London was up 1½@1¾d and Antwerp gained ⅝c. Paris closed 2@2½c better. Minneapolis stocks decreased 225,000 bu for four days Cash sales here small Receipts at Duluth 22 cars and at Minneapolis 56 cars, a total of 78 cars, against 218 cars yesterday, 83 cars a week ago, and 76 cars last year. Local receipts included 68 cars Winter, 1 car Spring, no cars mixed, a total of 69 cars, against 76 cars last year. Included in the above were 4 cars contract grade. There were 14 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 85 cars Withdrawals to-day were 10,106 bu. Receipts at Western points were 1,101,047 bu, against 1,209,524 last year. At Eastern points 109,173 bu, against 279,495 bu last year. Shipments from Western points were 541,373 bu, against 315,-357 last year, and from Eastern points 19,558 bu, against 117,193 last year. Shipments of Flour were 10,570 brls. Exports of Wheat in Flour were equal to 67,163 bu.

Future Deliveries of Regular Wheat—Active trade and excited.

SEPTEMBER—Old Style—Sold at $1 07⅝@1 10¼. Opened at $1 08; sold to $1 08¾, to $1 07⅝, to $1 08⅝, to $1 08½, to $1 10¼, to $1 09⅝, and closed about $1 09¾.

SEPTEMBER—New Style—Sold at $1 05⅞@1 09⅝ Opened with sales at $1 06¼ to $1 06¾; sold to $1 06½, to $1 05⅞, to $1 07⅜, to $1 06⅞, to $1 07½, to $1 07⅛, to $1 09 to $1 08¼, to $1 09⅝, to $1 08¾, to $1 09¼, to $1 08⅝, to $1 08½, and closed at $1 08½

DECEMBER—Sold at $1 06@1 10 Opened with sales at $1 06¼ to $1 07; sold to $1 06⅜, to $1 06, to $1 06⅞, to $1 06¾, to $1 07¾, to $1 07⅜, to $1 08, to $1 07½, to $1 08⅜, to $1 08, to $1 09¾, to $1 09, to $1 10, to $1 08⅞, to $1 09¾, to $1 09, and closed at $1 09@1 09⅛

MAY—Sold at $1 08@1 12⅜ Opened with sales at $1 08 to $1 09, sold to $1 08¾, to $1 08 to $1 10, to $1 09⅞ to $1 10, to $1 09½ to $1 11, to $1 10⅛, to $1 11¼, to $1 10¾, to $1 12⅜ to $1 11⅞, to $1 12¼, to $1 11½, to $1 12, to $1 11, and closed at $1 11⅛

CORN—Final figures showed advances of 1½@2c for the day and prices pretty well up around the best. "Shorts" continued to buy late and there was considerable Corn taken on investment account. The nervousness displayed in Wheat was shown in Corn, but the market changes were small as compared with that in Wheat. There were reports here of the crop "firing" in sections of Indiana, Ohio and Illinois, while many sections reported the outlook as good. The strength in Wheat was a big help to Corn and partially offset the rains in sections of the Corn belt last night Notwithstanding the rains there were many reports of lack of moisture The larger commission houses led the buying. Liverpool was ¼@⅜d lower. Local receipts were only 95 cars, with 3 contract. There were 219,000 bu switched from private houses and 19 300 bu from store No 2 closed at 55¼c and No. 2 Yellow at 56¾c No. 3 closed at 55c and No. 3 Yellow closed at 56½c. No 4 sold at 55½c.

Corn by sample—Was quiet Very little on sale Demand moderate Feeling firm and prices ¼@½c higher. Sales on track and free on board: No 4 sold at 54½@56c No. 3 at 55c No 3 Yellow at 56@57c. No. 2 at 55¼@55½c. No. Yellow at 57¼c Billed through. No Grade at 53½c. No 4 at 52½@54¼c. No. 3 at 54c. No 3 Yellow at 55@55½c No 2 Yellow at 56c. No. 3 White at 54c No. 2 White at 54¼c

Future Deliveries of No. 2 Corn—Active, with prices irregularly higher, the close showing advances of 1½@2c for the day

AUGUST—Closed at 54¼c nominal

SEPTEMBER—Sold at 54⅛@55¼c and and 55¼c. Opened at 54½c to 55c, sold to 54⅜c to 54¾c, to 54⅛@54¼c, to 55¼c, to 54¾c to 55¼c to 55⅛c. closing at latter.

DECEMBER—Sold at 53½@55c. Opened at 53¾c to 54⅛c, sold to 53⅞c, to 53½c, to 54⅜c, to 51c, to 55c, to 54¼c to 54⅞c, to 54⅛c, to 54¾c, closing at 54¾@54⅞c.

MAY—Sold at 52¼@54¼c Opened at 52¼c to 52¾c sold to 52½c, to 53⅜c, to 53c, to 53⅜c to 53⅛c, to 54¼c to 53⅜c, to 54c to 53¾c, to 53⅞c, closing at 53⅞@54c.

OATS—Were active and advanced ¾@1¼c and closed ½@1c higher, the advance was with other Grains, and on general buying. May was the favorite and led the advance Cash houses and "longs" were heavy sellers of September and bought December. Country purchases were liberal Cash sales small 10,000 bu. Arrivals were 205 cars, with 268 cars estimated for to-morrow. Seaboard clearances 16,5000 bu Car lots were ½@¾c higher No Grade at 35c No. 4 White at 35¼@35½c No 3 White at 35½@36c Standard at 36@38¼c. Standard in store closed at 34¾@3 c

Oats by sample were in active demand from cash interests and prices advanced ½@¾c Supplies were fair. Sales on track and free on board: No. 4 White at 35@35½c. No 3 White at 31½@37c Standard at 36@36¼c No. 2 at 32¼@32½c No 2 White at 36@36¾c. Billed through: No. 4 White at 35¼c. No. 3 White at 35@36c. Standard at 35@36½c No 2 at 32@33½c. No 2 White at 35½@36c. At the river. No Grade at 32c No. 4 White at 32¾@34c. No 3 White at 33¾@35c Standard at 34½@3.c.

Future Deliveries of Contract Oats—Were active and higher.

AUGUST Closed at 34¾c.

SEPTEMBER—Active. Sold at 34⅛@35c. Opened at 34½c to 34⅝c, sold to 34¼c to 35c, to 34⅞c at close

DECEMBER—Active Sales at 35½@36½c. Opened at 35½c to 35⅝c, sold to 36½c, to 36¼c to close

MAY—Increased trading. Sold at 37¾@39c. Opened at 37⅞c to 38c sold to 39c, to 38⅝@38½c, to 38⅝c at close.

RYE—Ruled decidedly firmer, with more doing in both cash and futures—cash advanced 2c. September about 3c and December about 4c. due mainly to the "bulge" in other Grains. The receipts were 10 cars. No. 2 fresh receipts to go to store sold at 74c, and free on board at 73½@74¼c Sales billed through at 75½c and at river at 71⅞c

Future Deliveries of No. 2 Rye—More doing and prices higher. August about ½c under September September sold at 72@74¼c and closed about 74¼c December sold at 73c to 76¼c and closed at about 76¼c May 80c bid and 82c asked

BARLEY The general tone of firmness exhibited to day extended also over the Barley market No price changes particularly however, were quotable The volume of business done was small because little Barley was offered Car lot demand tame yet enough to absorb the offerings Car lots to arrive not cared for especially No round lots offered Old Barley now offered on sale very sparingly Only 7 cars were inspected in Old Screenings nominally 32@38c for common to choice Feed and mixing Barley, old, about 36@38c Low grade malting 36@40c and fair to good 42@46c New thin Oaty sold at 40c Stained quotable at 43@44c Good color depending on weight, 45@49c, and choice to fine about 50@52c

SEEDS—There was an absence of trade A dull, weak Timothy market was experienced. Flax was nominally 1c higher, and Clover said to remain steady

Timothy—Was dull and heavy. Bids for new crop future delivery Seed slightly reduced, there were no offerings especially and nothing was done A car which had been here a day or so was all the cash Seed offered. It did not sell; no one seemed to care to purchase Market generally was dull and weak in tone. Contract spot offered at $2 90 For new September $3 00 bid and for October $2 80 bid Country lots of new—old Seed about stopped coming—quotable at $2 25@2 90 for poor to very choice Fair to good about $2 70@2 85

Flax—There was 1c advance in quotations. Prices were nominal for there was nothing to trade in Advanced prices in the Northwest were quoted It was this which brought improvement; the general strong tone of all markets also may have had some influence. Local receipts only 2 cars or 1,800 bu. Output 6 cars or 7,235 bu by rail and 26,500 bu by lake, total 33,735 bu. Very little moved in the Northwest. Minneapolis got only 670 bu, Duluth none. No. 1 Northwestern or No. 1 from the Northwest nominally $1 24 bid No. 1 was $1 16½ bid. Rejected quotable at $1 12½@1 16, depending on quality. September nominally $1 16½ bid

Clover—Inactive to-day. The market was quoted as steady at unchanged prices. October delivery nominally $12 00. Contract spot Seed was quotably about $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00, poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75.

Other Seeds—Only Mustard quotable at present and that was nominally 75c@$1 10 for common to choice.

HOG PRODUCTS—A fair trade was witnessed in the market for Hog Products, and the feeling manifested was rather unsettled. The early tone was easy, offerings being rather free, while the demand was only moderate. There was scattered liquidation on outside account, and lower prices ruled influenced chiefly by the decline in Hogs at the Yards. At the declines established "shorts" accepted fair quantities and Grain ruling higher, the market displayed a stronger undertone in sympathy Market, however, had rather indifferent support but the close was steady Receipts of Hogs at the leading Western packing points were estimated at 59,600, compared with 61,900 one year ago. Foreign markets were easier and Liverpool quoted Bacon and Hams 6d lower, while Lard was unchanged. Receipts of Product were fair—of Lard and Meats about 28 cars. Shipments were fair of Lard and Meats about 112 cars. Demand on shipping account was fair and offerings moderate. Sales were not very large and prices without essential change

Mess Pork—Just a fair trade was transacted in the market for Mess Pork, and the feeling developed was unsettled. Offerings were fair while the demand was only moderate Market started 2½@5c lower and declined and sold off 7½@10c under miscellaneous selling, part of which was credited to outside liquidation. At the decline the demand improved and prices recovered 20@22½c, and close was firm Shipping demand continues light and offerings moderate Cash lots quotable at $11 57½@11 62½

SEPTEMBER—Offerings fair and demand moderate Sales were made at $11 40@11 67½. Opened at $11 40, sold to $11 42½, to $11 40, to $11 45 to $11 42½@11 45, to $11 57½, and closed steady.

OCTOBER—Offerings somewhat larger and demand fair Sales were made at $11 47½ and $11 67½ @11 70 Opened at $11 57½, sold to $11 47½ to $11 6 , to $11 62½, to $11 67½@11 70, to $11 65, and closed steady

DECEMBER—Sold at $11 50 and $11 55.

JANUARY—Demand better, and offerings fair. Sales were made at $12 90@13 10. Opened at $12 97½, sold to $12 90, to $13 10, to $13 05 and closed steady

Lard—There was a fair business reported in the market for Lard and the feeling manifested was somewhat mixed. The start was fairly steady, but prices soon declined 7½@10c on scattered selling At the decline "shorts" accepted fair quantities and market recovered 12½@15c, and the close exhibited slight gains compared with yesterday's final figures Demand on shipping account was said to be fair with no particular pressure to sell. Cash lots quotable at $6 80@6 82½ Loose lots in fair request with limited offerings. Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings Quotably steady at about $6 37½ Neutral in only limited demand, with fair offerings. Prices quotably steady at $7 50@7 62½ for No. 1, and $7 12½ @7 25 for No 2.

SEPTEMBER—Offerings fair and demand moderate. Sales were made at $6 77½@6 87½. Opened at $6 87½, sold to $6 77½, to $6 87½, and closed steady.

OCTOBER Demand fair and offerings moderate Sales were made at $6 85@6 97½. Opened at $6 92½, sold to $6 95, to $6 85, to $6 97½, and closed steady

NOVEMBER—Sold at $6 95 and $6 97½, and closed at $6 95

JANUARY—Demand moderate and offerings fair Sales were made at $6 90@7 05. Opened at $6 95, sold to $6 90, to $6 97½, to $6 95, to $7 05 to $7 02½@7 05, and closed steady.

Short Rib Sides There was a fair trade in the market for Short Rib Sides, and the tone prevalent was comparatively steady Initial trades were at 2½@5c advance, but values soon receded 12½c on miscellaneous selling Strength in Grain checked the break "shorts" and packers accepting moderate quantities and prices recovered 12½@15c. There was a little less pressure to sell late, and the close was steady Shipping demand was moderate, and offerings were not very large Cash lots quotable at $7 25@7 37½ according to weight

SEPTEMBER Offerings rather freer and demand fair. Sales were made at $7 25@7 37½ Opened at $7 37½ sold to $7 25, to $7 27½, to $7 25, to $7 30@7 32½, to $7 27½, to $7 37½, to $7 32½ to $7 35, and closed steady

OCTOBER Demand moderate, and offerings fair Sales were made at $7 30@7 45. Opened at $7 42½, sold to $7 30, to $7 35, to $7 32½@7 35, to $7 45, to $7 40 to $7 42½ to $7 40, to $7 42½, and closed steady

JANUARY—Offerings fair and demand moderate. Sales were made at $6 70@6 77½ Opened at $6 75, sold to $6 70, to $6 72½, to $6 70, to $6 77½, and closed steady

Other Meats—Trade was only fair, and mainly on domestic account. Exporters bought moderately Offerings not very large, and inquiry only fair. Green Meats in limited supply with a light inquiry and prices steady Pickled Meats in fair request, with only moderate offerings, and prices were unchanged Dry Salted Meats were in fair demand, with moderate offerings, and prices were easier. Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows.

GREEN—Hams, av. 10@12 lbs, 9¾@9⅞c, 12@14 lbs, 9½@9⅝c 14@16 lbs, 9½@9⅝c, 18@20 lbs 9¾@9⅞c; Skinned Hams, 11⅛@11¼c Shoulders, 6⅞@7c; Picnic Hams, 7¼@7½c, Bellies 9@11c PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c 12@14 lbs 9¾@9⅞c; 14@16 lbs, 9¾@9⅞c cash 9¾@10c August; 18@20 lbs, 10@10¼c; Skinned Hams 11½@11¾c cash, 11⅝@11¾c August, Shoulders 7⅝@7¾, Picnic Hams 7⅝@8c Bellies, 10@11c DRY SALTED—*loose*—Shoulders 7⅜@7½c; Short Fat Backs, 6¼@7¾c, Short Clear Backs, 8¼@8¾c, Clear Bellies, 8@9c; Rib Bellies 7¾@8¾c; Extra Short Rib Sides, 7⅛@7¼c Extra Short Clear Sides 7⅛@7¼c, Rough Sides 7⅛@7¼c Plates, 5¾@5⅞c; Jowl Butts 5@5⅛c EXPORT CUTS—*boxed*—Long Cut Hams 10¼@10½c Cumberland Sides 9@9¼c, Long Clear Sides 9@9¼c, Extra Long Clear Sides 8⅞@8¾c; Short Clear Sides 8¾@8⅞c SMOKED—*loose*—Hams 11¼@11¾c Skinned Hams 12¼@12¾c Shoulders, 8⅜@8c, Picnic Hams, 9@9¼c, Short Rib Sides, 7⅞@8c, Rough Sides 7¾@7⅞c, Short Clear Sides, 8@8¼c Extra Short Clear Sides 7⅝@7¾c, Breakfast Bacon, 11½@12c

BEEF PRODUCTS—Quiet and steady Prices quotable as follows Beef Hams $18 50@19 00, Extra Mess Beef, $8 50@8 75 Plate Beef, $8 50@9 00; Extra Plate Beef, $9 00@10 00 Tallow steady at 5¼@5½c for edible, 5@5¼c for prime packers; 4⅜@4⅝c for No 1 do and 3¾@4c for No 2 do, 4¼@4½c for city renderers; 4⅜@5c for prime country and 3¾@3⅞c for No 2 do. Oleo-Stearine in fair supply and quotably steady at 7c.

GREASE Quiet and rather steady at 3¼@3⅝c for brown, 3⅜@3½c for yellow 3½c for house, 4@4¼c for B white and 4½@4⅝c for A white.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Aug. 11.]

Wheat—The Wheat crop of the Inland Empire is beyond danger. the harvest will be very large and prices look as if they will be good. Grain has done well so far this season, and in many places throughout the interior, yields will be enormous. Whitman County will reach at least with the largest acreage sown in its history, with yields very large. The outlook is for a crop of 9,500,000 bu and over; then comes Adams County with 6,000,000 bu and over, 6,000,000 bu, Umatilla County, Oregon, with 5,000,000 bu and possibly over; Walla Walla with 4,000,000 bu, the Nez Perces County in Idaho will harvest 3,500,000 bu, and other counties ranging from 1,000,000 to 3,000,000 bu. The cut ook at the present writing indicates a crop larger than ever heretofore in the history of the Wheat fields of the Pacific Northwest. The yields are larger than at first thought of, and with good prices farmers out here will have another year of prosperity. During the past week some preliminary threshing has been done to this office, and a great many returns show that fields have been running from 40 to 50 bu per acre. Some few sales have been made on the basis of 55c per cental, but for the most part farmers are paying more attention to farm work than hauling Wheat to warehouses, and have not yet made up their minds to dispose of their season's crop. Prices are higher at present than at first the trade anticipated would be paid, but exporters are not buying for export as the prices quoted are out of proportion to do any export business, considering that shipowners have made a fixed price for vessels to the United Kingdom way out of proportion than what could reasonably be paid to enable the exporter to make a fair business on the market. The crop of Wheat in the Willamette Valley will hardly be one-half of a year ago, and a great many fields have been cut for Hay the cause of this is enhanced acreage and lack of rain in June and July. At one time the Valley cut an important figure in the Wheat raising of the Northwest, when she produced from 8,000,000 to 10,000,000 bu, but now millers are compelled to buy from Eastern Oregon to keep their mills in operation. Quotations for Valley Wheat for miller's use range from 52c to 56c per bu.

Flour—The demand for Flour for shipment to Orient ports continues very good. Millers are accepting orders for Japan shipment, as we predicted they would in our last review. The steamship companies operating in Portland and San Francisco have modified their views and will entertain freight to the war zone only. They will continue to ship to China as heretofore. Space will be secured by millers from Puget Sound steamers if the company shall continue to keep their schedule for Japan ports, and will be placed freely and prices will go higher owing to the increased cost of securing Wheat The outlook for a good trade is very good with Orient ports for the next few months and shipments will be quite large; whether the same will equal that of 1903 time will tell. From Central and South America no new orders are coming in, and the shipment of Flour to these points has ceased. California demand is good and heavy stocks of choice grades of Flour are going down from here and Puget Sound. From the latter place heavy shipments are going down by each steamer. Local trade is quiet, jobbers are purchasing sparingly, and only brands that are in demand are sought. Stocks are quite heavy at all tidewater points. We quote export brands from $3 10 to $3 25 per bbl. Straights and Patents range from $3 75 to $4 50 per bbl.

CAPITAL CROP PROGRESS.

[From the Winnipeg Commercial, Aug. 13.]

Another week of satisfactory crop progress has passed. Conditions, according to the Canadian Pacific, have been favorable for the past week. The weather has been generally satisfactory, and harvesting is expected to be in full swing in Manitoba in less than two weeks. Some Barley has already been cut. Along the main line from here to Brandon the Grain is reported to be filling well, and in some places starting to color. One place expects a yield averaging 35 bu per acre. From Brandon to Moose Jaw reports are generally favorable, though along the Moose Jaw section the harvest is expected to be somewhat later than in Manitoba. Alexander looks for a yield of 32 bu. Light rains were general along the main line.

In Southeastern Assiniboia it has been dryer; prospects are favorable, and cutting expected to begin about the 17th to 20th of this month. In Southern Manitoba crops are in excellent condition although development has been slightly retarded by cool weather and light frosts. Reports at Winkler point to an average yield of 25 bu. In Northwestern Manitoba and the adjacent parts of Assiniboia the crop is in good shape and prospects very favorable.

In view of reports recently published in a Chicago paper, it is worth noting that only one or two places reports are at all affected, and that merely red rust on the leaves, which is of comparatively slight, if any, injury to the Grain. The reports referred to in the Chicago paper stated there was black rust in portions of Manitoba and Alberta Territories. This is not the case. It would have been noted in reports, and, moreover, the fullest enquiry among Winnipeg Grain men, who keep in constant touch with the situation through their agents throughout the country, fails to discover a single instance of black rust. The worst that can be said is that there is a small amount of rust even in limited areas, as generally occurs in any crop. The statement that there is black rust in the Wheat fields of the Canadian West is false and calculated to do harm.

EX-EUROPEAN REQUIREMENTS.

[From the Corn Trade News, Aug. 3.]

An esteemed correspondent requests us to show in detail the countries which supply the requirements of the Ex European importing countries, such as China, Japan, Brazil, Cuba, West Indies, the South American Republics, Mexico, South Africa, Germany in Asia, Egypt and the Colonies of Great Britain, France and Holland. He asks for instance the season just concluded, we have the following quantities supplied by the countries named:—

	Wheat and Flour, bu.
United States	33,500,000
Argentina	11,520,000
Australasia	7,200,000
France	8,800,000
United Kingdom to Colonies	2,080,000
Germany and Holland to Colonies	800,000
Austria Hunkary to Brazil	1,200,000
Grand total	82,980,000

The above total, which it will be seen is larger than our total by 2,608,000 bu, includes America's exports to Mexico across the frontier, which are excluded from our return, as they are not readily obtainable. With this revision the figures are in very close approximation.

Contrary to expectations in some quarters, America has shipped to Ex European destinations less this season than last, owing to Australia and South Africa taking less Wheat by 12,000,000 bu. The Flour exports to Ex European destinations this season exceed those of last by 200 000 sacks. The total shipments by the United States of Wheat and Flour last season amounted to 120,000,000 bu, viz., 86,400,000 bu to Europe and 33,600,000 bu to Ex-European destinations.

WEATHER AND CROPS IN ROUMANIA.

[Bratla Cor. to Dornbusch, July 29.]

We have had another week of dry scorching weather, which has wrought havoc with the Corn, and the general opinion is that the crop is almost a failure. Yesterday afternoon we had a thunderstorm accompanied by half-an-hour's heavy rain, and a further heavy shower during the evening. This afternoon we had an hour's rain and it looks as if more were coming. Unfortunately it appears to be a case of "la moutarde apres le-diner;" however, we are inclined to the opinion that the rain may set in for a spell of the old twelfth hour and do some small extent, beneficial. At the same time there is no doubt but that we are going to have a very short crop. Peasants, whose crops are a failure, and who are better placed financially than their neighbors, continue to buy Corn for their own consumption, and those who have not the means look to the government for help. We have had that cause were starting a measure of Wheat for a measure of Corn. Harvesting of Wheat and Barley is all finished in Wallachia and Lower Moldavia, and threshing is proceeding actively Owing to the long drouth and scorching suns, the land has become baked like a brick, so that plowing is most difficult and almost impossible. A large percentage of the Grain sowings on the surface and it will need continuous and drenching rains to put it into an arable condition; however, the recent rain has done some good in this respect, and plowing has commenced. It is feared that there will be a scarcity of Cattle in the country for plowing purposes, many having been sold and exported owing to want of herbage.

CROPS IN SCOTLAND.

[From the North British Agriculturist, July 27.]

During the past week the weather has been for the most part dry, with occasional heavy local showers in some Midland and Southwestern districts of Scotland. In the Northeastern counties of Scotland the drouth of the last three or four weeks has had no serious effect on the crops. In most districts of these counties the Grain crops are now to be very short in the straw, the pastures have got very bare, and the Turnip crop has been completely killed in the drouth. In fact, the appearance presented by the Turnip crop is a very variable one, some of the crops being very promising, while others are complete failures. Potatoes also have suffered greatly from the drouth, but they are now beginning to freshen up wherever they have got rain, and the same may be said of the pastures. Since the beginning of the bright sunshine the crops have been making rapid progress in ripening but it will be some weeks yet before the reaper can be set to work in Scotland. The Hay crop is of course a full one in most parts of Scotland, but, except on the richer class of soils, the crop is by no means a full one.

ILLINOIS CROP BULLETIN.

SPRINGFIELD Aug 13.—The weekly crop bulletin for the week ended Aug. 15 says:

Very favorable weather prevailed for threshing operations, and considerable fall plowing has been done. Corn is at the stage of development where a good crop is assured with seasonable weather, but the crop is beginning to suffer for rain, and unless showers come soon injury will ensue.

The threshing of Oats has proceeded, and is nearing completion. In the northern section the yield is good, but in the central and southern districts the output is below the average. The quality of the Grain is good.

Wheat threshing is nearly over, with yield below average. The quality from fair to good. Rye and Barley are giving good results. Buckwheat continues promising. A fair Hay crop of excellent quality has been secured. The outlook for Timothy Seed is favorable. The crop of Broom Corn is indicated. Tomatoes are well developed and are ripening fast. Grapes and Plums will be abundant. Pears are fairly promising. In some places Apples are better than expected, but the general condition is very disappointing.

THE WEATHER CONDITIONS.

The map shows temperatures in Manitoba very low, 38 to 54 generally. Minimum in St. Mendosa last night, 36; weather foggy. Generally cloudy; light rain Northwest, rain West, and scattered showers and now raining in most of Southwest. Clear in the Old Country.

The indications are for more or less cloudy weather with showers in most of this forecast area, favorable in Upper Mississippi Valley and Lake Region

ITEMS OF GENERAL INTEREST.

The Howland Bag and Paper Company, recently organized, has secured a site in North Tonawanda, N. Y., and will begin at once the erection of a factory.

Directors of the National Candy Company have declared the regular semi-annual dividends of 3½ per cent on both first and second preferred stocks, payable Sept. 7.

The Homestake Mining Company has declared its regular monthly dividend of 25c per share for July, payable at the transfer agency in New York on Aug. 25. Books close Aug. 20

Hop prospects in California have steadily improved and the outlook is now for a large crop of fine quality Prices remain unchanged. The crop in Washington will be below expectations; 22c has been offered for 1901 stock. In Oregon 20,000 bales is now looked for.

Steel trade interests state that the United States Steel Corporation had contracted with the Great Northern Railway for the entire rail and fastening required for the extension of the road to the Pacific Coast. It is understood the contract was made at material concessions from schedule price.

Damage to the Northwestern Wheat crop, as estimated by railroad officials, is 15 per cent on the St. Paul, 15 to 20 per cent on the Northwestern and 20 per cent on the Burlington. The quality has deteriorated, but they estimate that the quantity will furnish about as much tonnage as last year.

Announcement is made that the Shawmut Fish Company is being formed to take over the city business of A. Booth & Co. There is some Buffalo capital in the enterprise. The Shawmut Company is practically a subsidiary organization of Booth & Co. to look after the city trade. It will not be concerned with the Booth fisheries or its packing plants

An Omaha party says: "No change in situation; the Wheat crop is safe. Iowa has a good crop of Wheat stacked this year, and it will probably be next month before any of this is threshed. Weather fine for growing crop. Some of our agents say Corn will be out of the way of frost by Sept. 10 and some by the 15th. I think twenty days and nights like past four will insure a bumper crop."

The statement of the Elgin, Aurora and Southern Traction Company for June and the fiscal year ended June 30 is regarded as satisfactory, considering the present depression in business in the Fox River Valley. The statement for the year shows $70,626 surplus, which is 3¼ per cent on the $2,000,000 stock outstanding. For the year there was an increase in the earnings of about $21,000, and an increase in operating expenses of about $14,000, leaving a decrease in net earnings of about $8,000.

The *Times of Argentina*, July 4, says: "Wheat and Flax Seed are slightly firmer on the week. The stock of the latter is now sensibly diminishing while holders of Grain are also holding back in the hope of a rise which unless they can obtain slight advantages. Both are, naturally, ruled by prices in consuming markets, but as the stock decreases holders are less dependent on outside markets and hold out for better opportunities. Business, therefore, is not easy. Transactions in Corn are gradually becoming more active, with consequent increasing shipments."

A New York firm have issued a special letter on Atchison, showing its progress since the organization of the present company. It is shown that present earnings on the common stock are between 9 per cent and 10 per cent, while in 1895-7 the company failed to earn the interest on the adjustment bonds by $87,934. The amount expended on betterments since Aug. 1, 1896, to June 30, 1903, was $26,310,324 The present bonded debt amounts to $28,340 per mile, compared with $25,329 in 1895, and stock capitalization amounts to $30,000 per mile, compared with $32,300 in 1895. It is stated that if the Corn and Cotton crops prove as favorable as now appears probable, there is excellent reason to believe that a dividend on Preferred will be placed upon a 5 per cent basis next year.

Dornbusch's Buda Pesth correspondent, writing under date of July 30, says of Flour: "The continuous rise in the price of Flour on the Pesth stocks has had the effect of provoking an inrush of foreign Wheat, with the result that the upward movement in Flour has received a check and business has become very reserved; everybody wants to realize profits. Covering transactions this week were on a fair scale and stocks have, if anything, decreased. Millers are not yet working full time, although their position is a satisfactory one. Factory, but it will need a longer spell of activity at full prices for them to be able to make up the losses of the first half year. Mill feeding stuffs continue very firm at high prices."

The latest reports indicate that railway managers in all parts of the country are solving the problem of maintaining relative results in net and gross earnings. Since July 1 eight roads which have shown monthly big increases in gross earnings, but a great decrease in net earnings, because of increased operating expenses. The unusually severe winter caused this increase, and also in the operating expenses of the railways, particularly between Chicago and New York. This year there was a decrease in gross earnings because of the commercial, labor and industrial depression. Now railway traffic is practically up to the phenominal figures of last year. The movement of crops shows a big increase in the earnings of all the railroads.

The London *Standard* correspondent writes under date of July 29 says: "According to statistics, for sixty-five years there never has been a dryness in Austria between May 1 and the end of July as this year. From all parts of the Monarchy reports come in of enormous damage done to fields, meadows, gardens and vineyards by the prolonged drouth. In some districts for six weeks no rain has fallen, and not only brooks, but small rivers, are completely dry. How great the loss in this year's crop is may be gathered from the last official report of the Hungarian Ministry of Agriculture, according to which the yield of Wheat is 34,800,0 0 metrical centners, against 44,000,000 last year, while the yield of Rye, Barley and Oats has decreased by 10, 25 and 30 per cent respectively."

Representatives of milling interests in Minneapolis, Minneapolis, conferred at Chicago with a committee of freight officials of Western railroads. The millers want the railroads to make equal rates on Flour and Wheat from Minneapolis and St. Paul to the Atlantic seaboard, either by raising the rates on Grain or lowering Flour rates. To-day the Western Freight Association will meet to consider the question of equalizing Flour and Wheat rates. The millers recently made similar request to the traffic official of railroads east of Chicago. The Inter-State Commerce Commission has ruled that the railroads must maintain the same rates on Flour than on Grain, that the manufactured article should not pay a less rate than the raw product. The ruling of the commission did not prohibit the railroads from equalizing Grain and Flour rates.

Chicago and Northwestern's statement for the thirteen months ended June 30, 1901, shows that the profit and loss surplus at the end of the period had again passed the $10,000,000 mark, and amounted to $10,997,223. The noteworthy feature in regard to this surplus is that it has been built up after heavy charging off for construction, and that it consists mainly of quick assets. Years ago the Northwestern had accumulated a surplus of $10,000,000, and there were consultations with a "melon:" but as this surplus had been spent upon the property the management ruled that it was no surplus at all, and wrote it off. Now the company has again built up a $10,000,000 surplus, and time after charging $22,400,000 spent for betterments and construction to net earnings, besides having paid for improved equipment and terminals. This time the surplus is in quick assets, and is a real surplus.

Elevator people in the Northwest say that they expect to handle about as many bushels of Grain in the coming year as they did, last year. They estimate the damage from the early prospects of a bumper crop which was materially in excess of last year's yield. An elevator man who was in Chicago said: "Millers will take the light grade Wheat on a proportionate basis and there will be a great deal of good milling Wheat will be ground for feed. The Oats crop in the Northwest is enormous. It is much heavier than last year in quantity and quality." Last year the great part of the Oats crop averaged 34 lbs to the bushel. Oats are practically all cut, and we have had many cars that run 34 lbs, and from the present outlook they will continue to run heavy. One farmer raised 65 bushels to the acre last year and sold to the measured bushel. The government's estimate on the Oats crop is as much too low this year as it was too high last year."

Steel interests in New York see in the contract closed by the Republic Iron and Steel Company with the Pittsburg Steel Company for the conversion of 110,000 tons of pig iron into billets at a price which amounts to a cut of $4 00 per ton below the pool figures for the price of billets the hand of John W. Gates, who is now largely interested in Republic Iron and Steel Company. Mr. Gates' proclivities for the cutting of prices at critical times, as in the case of the American Steel and Wire Company a few years ago, are still fresh in the memory of the street. It is questioned, however, if the United States Steel Corporation is not strong enough to prevent the disruption of the pools, which are maintaining prices of Steel products, other than sheet Steel, about $7 00 per ton above the lowest prices of 1893. The action of the Republic Iron and Steel Company in making the above contract with the Pittsburg Steel Company is unfortunate for all but the Republic Company in many ways, more especially as the Steel interests had succeeded in maintaining prices all through a time when they could not control many ores just beginning to buy in the belief that there was no hope for lower prices. This buying has now again been checked.

Interests controlling the International Salt Company have organized in New York a new company known as the Independent Salt Company, with a nominal capital of $5,0 0,000. The company is a combination of the F. J. & W. Bursch Company and Hoag, Werner & Co. It is acting as a selling agency for the Eastern division of the International Salt Company, and is practically a subsidiary company. It is reported by people in the Salt business in the East that the establishment of the Independent Salt Company was the first move on the part of the Standard Oil Company to consolidate its position in the East preparatory to an effort to bring about a consolidation of the Salt interests of the country. The incorporators of the Independent Salt Company followed closely on the taking over the contracts of the defunct National Salt Company by the International Salt Company as the outcome of the recent suit under foreclosure. While the acquirement of the National Company's business strengthened the position of the International Company, it is said that there still exists some important competitors, and that it is the aim of the Independent Salt Company to be in the purpose of the International Company to begin a vigorous fight and free its opponents into some sort of a consolidation or trade agreement.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year

ARTICLES.	RECEIPTS.		SHIPMENTS.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c discount

Documentary Sterling steady at 484¼.

Chicago Bank Clearings to-day, $29,919,723.

The minimum rate of discount of Bank of England is unchanged at 3 per cent.

Reported that no Wheat and 40,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 14,800 Hogs to-day; shippers, 5,000; left over, 4,000. The market closed 5c higher

There are eleven counties in North Dakota where the Wheat area is reported to be 50 per cent larger than in 1903.

Stocks of Hog Products at Chicago estimated at 48,250 brls Mess Pork, 144,500 tcs Lard, and 21,250,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat 210 cars; Corn, 172 cars; Oats, 357 cars; Rye, 10 cars; Barley 8 cars; Hogs, 14,000.

The Burlington Road has issued a new proportional tariff on Grain originating beyond St Louis. The rate will be 6c per 100 lbs to Chicago after Aug. 20

An advance of 20c a barrel has been made in the price of Flour mainly on Winter Wheats and unbranded Spring Patents. The price on Standard Patents remains at $6 00

Local Securities were stronger and averaged higher. Can preferred advanced ¾. Biscuit preferred sold exdividend of 1¾, but regained ⅝. Carbon common gained ½

Cotton in New York advanced on a "bullish" private crop report. "Shorts" led the buying. There was also fair speculative support. Closing sales were at gains of 5@11 points

Stocks in New York were advanced early on covering by Western traders who sold recently on reports of damage to the crops. Later they reacted and closed mostly lower. Steel closed ½ lower. Sugar lost 1½. Tractions were 1⅛ to 2¼ higher at the last. Money ½ to 1 per cent.

The Cincinnati *Price Current* reports the packing of the West for the week at 375,000 Hogs, compared with 300,000 for the week previous and 315,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 9,440,000 Hogs, compared with 9,595,000 for the corresponding time last year a decrease of 155,000 Hogs.

The president of the Chicago Great Western makes the following statement regarding crops and crop prospects in the territory of that Railroad: "Iowa Grain is cut and half stacked. It is a good crop, but does not seem to me as large as in Southern Minnesota, where Oats and Barley are so heavy that they will pay the farmers $10 00 per acre net profit above cost of production."

The Cincinnati *Price Current's* weekly crop summary says: "Drouth conditions in Corn regions unbroken. Limited areas relieved by rains. General rains soon would arrest unfavorable tendency, but not restore earlier basis. Crop may yet be above average of recent years. Wheat crop outlook reduced to about 575,000,000 bu. Oats indicate considerable increase over last year."

A message from Winnipeg, Wednesday, said: "No frost over our country last night. Lowest temperature reported, 35 degrees, and most points above 40. Cool to-day; 70 in the shade. Part cloudy, part bright. Looks like shaping for warmer to-night. If we get over to-night without frost damage the crop is assured. Rust damage don't amount to anything. People more scared than hurt."

A summary of the Minnesota crop bulletin shows that rust is very bad in only three of the nineteen counties reported. A week ago it was bad in two counties. The North Dakota crop bulletin shows rust in twenty-one counties out of twenty-nine reported, and in fifteen it is bad. The previous week's report showed rust in twenty out of twenty-eight counties, and six were bad, indicating a spread of the damage.

Chicago and Oak Park Elevated Railway Company, prefered, authorized capital stock $3,200,000, par value of shares $100; capital stock issued $3,200,000, non-assessable; no bonds issued; and also Chicago and Oak Park Elevated Railway, common, authorized capital $6,000,000, par value of shares $100; capital stock issued $6,000,000; non-assessable; no bonds issued; has been listed on the Chicago Stock Exchange.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Buyers still holding back and market rather quiet but firm.

WINTER WHEAT—Was in good demand, with the exception of poor Wheat, which was dull and without any special sale. The feeling was unsettled, and, while occasional cars showed a slight advance over the late figures of yesterday, the general market was easier in sympathy with the break in futures, and prices declined about 1c. No. 2 Red fresh receipts sold at $1 09. No 3 Red fresh receipts free on board sold at $1 05@1 08. No 4 Red sold at 91@97c for ordinary and at $1 00@1 06 for fair to choice, with a sale billed through at $1 01½. No. 2 Hard fresh receipts sold free on board at $1 06@1 08. No. 3 Hard fresh receipts sold free on board at $1 01½@1 07½ and at the river at $1 02¾. No. 4 Hard sold at 90c@$1 00 for poor to choice. No Grade Hard sold at 98c

SPRING WHEAT—Was quiet to-day. Very little offered and market steady. No 1 Northern nominally $1 15@1 18. No 2 Northern nominally about $1 05@1 10. No. 3 Spring nominally $1 00@1 08. No 4 Spring quotably 80c@$1 02 for poor to good, with a sale at 90c.

REGULAR WHEAT—An immense speculative trade was witnessed, the market ruling exceedingly active and decidedly nervous, with final figures 2c lower for new September, while December lost 1½@1⅝c and May 1½@1⅝c. There was a rush of selling at the start, the failure of the frost predicted for North Dakota to materialize, and 2c break on the Minneapolis curb, causing a "bearish" feeling to prevail. Stop-loss selling was a feature, the demand being small in comparison to the offerings. At the decline, however, there was reinstating of lines liquidated at the start, the damage reports from North Dakota as well as parts of Manitoba being responsible for the change in sentiment. Mail advices on European crop conditions were "bullish" and helped check the decline. The Wheat yield in Germany was reported below expectations, and previous estimates in France said to be reduced. Russian reports were contradictory. Austria Hungary, serious deficiency. Roumania, not half an average at best. Italy, seriously unfavorable. Quality of crop in Europe generally good to excellent. Map showed no frost in Manitoba or the Northwest but showery conditions indicated. Liverpool quoted spot steady to 1d higher, and futures ⅝@⅞d better. English country markets were 6d to 1s higher and cargoes off coast and on passage 6d better. London came ¾@1⅜d higher. Buda Pesth was up 1c and Berlin 1⅝c. Antwerp gained ⅝c, while Paris was unchanged to ⅛c lower. The *Price Current* claimed the Wheat crop outlook was reduced to about 575,000,000 bu. Jamestown, N. D., wired: "West, north and east of Carrington harvesting has commenced; prospects splendid; 18@20 bu, good quality; no sign of frost." Advices from Fargo were quite the reverse, estimating no fields over 12 bu and average about 8 bu, with little plump Grain. Winnipeg, wired: "Weather conditions ideal. Wind Southwest. Thermometer 60. Wheat cutting almost general already and grand weather for maturing backward crops. First Wheat threshing took place yesterday, yield 20 bu per acre, quality No. 1 Hard. No frost and weather getting warm again. No fear of frost now. Prospect of big yield more assured than ever." Minneapolis wired: "Impossible to estimate yield; have seen several fields go 15@20 bu, many others 10@12 bu, this from Minot to Portal; some rust in much of it; cutting all along the line, threshing machine only way to get at results; looks if there would be considerable of good quality—weather fine." Primary receipts were 131,000 bu ahead of last year. Kansas City and St. Louis received 462,000 bu, against 297,000 bu in 1903. Minneapolis reported stocks reduced 337,000 bu past five days. Flour output in the Northwest past week 324,000 brls, against 432,000 brls one year ago. Argentine shipments this week were estimated about 1,200,000 bu. Receipts at Duluth 38 cars and at Minneapolis 102 cars, a total of 140 cars, against 78 cars yesterday, 148 cars a week ago, and 196 cars last year. Local receipts included 101 cars Winter, 2 cars Spring, no cars mixed, a total of 103 cars, against 114 cars last year. Included in the above were 17 cars contract grade. There were 14 cars and 8,200 bu from unlicensed elevators. The estimated receipts for to-morrow are 210 cars. Withdrawals to-day were 6,036 bu. Receipts at Western points were 783,002 bu, against 651,875 last year. At Eastern points 104,2?3 bu, against 284,625 bu last year. Shipments from Western points were 490,633 bu against 435,122 last year, and from Eastern points 48,541 bu, against none last year. Shipments of Flour were 37,461 brls. Exports of Wheat in Flour were equal to 217,120 bu

Future Deliveries of Regular Wheat—Active and lower

SEPTEMBER—Old Style—Sold at $1 07⅝@1 10. Opened with sales at $1 07⅝ to $1 08, sold to $1 10, to $1 08½, to $1 08½, to $1 07⅞, to $1 09 to $1 08 and closed nominally about $1 08

SEPTEMBER—New Style—Sold at $1 06¼@1 09. Opened with sales at $1 07½ to $1 06¼; sold to $1 09, to $1 07¾, to $1 08, to $1 06⅝, to $1 06⅜, to $1 06½, and closed at $1 06½ bid.

DECEMBER—Sold at $1 06½@1 09¾. Opened with sales at $1 08 to $1 06½, sold to $1 07⅝ to $1 06¾, to $1 09¾, to $1 09, to $1 09½, to $1 07¼, to $1 08¼, to $1 07, to $1 09, to $1 07⅝, and closed at $1 07⅛@1 07½ bid.

MAY—Sold at $1 08¼@1 12. Opened with sales at $1 10, to $1 08¼; sold to $1 08⅝, to $1 11¾, to $1 11¼, to $1 12, to $1 10⅝, to $1 11⅛, to $1 09¼, to $1 10¼, to $1 09¼, to $1 11, to $1 09½, to $1 09¾, to $1 09½, and closed at $1 09½@1 09⅝.

CORN—Was active with a large general trade, the close showing September ¾c lower, while the December lost 1⅛c and the May 1½c. Rains West and Southwest, the break in Wheat, and small advance at Liverpool, compared with the rise on this side yesterday, were the chief "bear" influences. "Long" property came out in large quantities and the situation for a time was quite weak. At the decline a better commission house demand developed and prices rallied, but again settled back. Provision interests were heavy sellers of May, while the Southwest bought. Buying September and selling December was a feature. Liverpool, while quoting spot ½@¾d higher, came ⅛d lower to ⅛d higher on futures. Map showed rains general, but mainly medium to light in the West and Southwest and Ohio Valley, and showery conditions were quite generally predicted. The *Price Current* claimed the drouth conditions in the Corn belt were unbroken and only a limited area relieved by rains, general rains would soon relieve unfavorable tendency, but not restore earlier basis. Southwestern markets were all weaker. Western receipts 243,000 bu; last year 816,000 bu. Shipments 475,000 bu and 598,000 bu respectively. Local arrivals 92,000 bu, and shipments 588,000 bu. Withdrawals from private elevators 326,100 bu. Exports were 4,000 bu. Argentine shipments this week estimated at 3,200,000 bu. Local shipping demand better and sales 250,000 bu. Car lots in good demand and offerings somewhat larger. Prices about ½c lower. No. 2 closed at 54⅝c. No. 2 Yellow closed at 56¼c. No 3 closed at 54½c. No. 3 Yellow closed at 56c. No. 3 White sold at 55½c. No 4 at 54½@56½c.

Corn by sample—Was in very fair demand and offerings moderate. Feeling easier and prices unchanged to ½c lower. Sales on track and free on board. No. 4 sold at 53½@56¾c. No. 3 at 55¼@55½c. No. 3 Yellow at 56½@57c. No. 3 White at 55¼@55½c. Billed through: No. 4 at 52¾@55c. No. 3 at 53½@54⅜c. No 3 Yellow at 55½c. No. 2 Yellow at 55¾c. No. 3 White at 53½@54c. No. 2 White at 53¾@54c

Future Deliveries of No. 2 Corn—Active and weaker, closing ¾@1½c lower

AUGUST—Little more doing. Sold at 54½@54⅝c. Opened at 54½c, and sold at 54⅝c to 54⅛c, and closed at 54⅛c asked.

SEPTEMBER—Sold at 53⅞@55¼c. Opened at 54⅝c, to 53⅞c and and sold at 55¼c, to 54½c, to 54⅝c, to 54¼, to 54⅞c, to 54¼c to 54⅜c, closed at 54⅜c bid.

OCTOBER—Sold at 55⅛c.

DECEMBER—Sold at 53⅛@54⅜c. Opened at 54¼c to 53¾c, and sold at 54⅜c, to 53⅝c, to 54⅜c, to 54c, to 53⅝c, to 54c, to 53¼c, to 53¾c, to 53¼c, to 53¾c, to 53¼@53⅜c and closed at 53¼@53⅜c

JANUARY—Sold at 53⅜c

MAY—Sold at 52¼@53⅝c and 53⅝c. Opened at 53⅜c to 53c, and sold at 53¼c, to 52⅞c, to 53⅝c, to 52¼@52⅜c, to 53⅛c, to 52¼@52⅜c, to 52⅝c, to 52⅜c, to 53c to 52⅝c, to 52⅜@52½c and closed at 52⅝@52½c

OATS—Were weak and closed at about the bottom at losses of ¾@1⅛c, May leading. The market felt the effects of heavy selling for profits yesterday and to-day, also the break in other Grains. Crop reports were favorable. Receipts overran the estimates and were 287 cars, with 131 contract. Estimated to-morrow, 357 cars. Seaboard clearances, 10,000 bu. Car lots to go to store were ½@1c lower. No Grade at 35¼c. No 4 White at 35¼c. No. 3 White at 35⅛@35¾c. Standard at 35½@36c. No. 2 White at 36c. Standard in store closed about 34⅛c

Oats by sample were in good supply and sold fairly, elevator interests taking the bulk of the offerings. On good lots prices were ½c lower and on poor ¾@1c lower. The latter were in fair supply. Sales on track and free on board: No Grade at 34@34¼c. No 4 White at 31@35c. No. 3 White at 31@36¼c. Standard at 35¼@36¼c. No. 2 at 31¾@33c. No. 2 White at 36¼c. Billed through. No 4 White at 31½@31½c. No 3 at 31½c. No. 3 White at 31½@35¾c. Standard at 34¾@35¾c. No 2 at 31¾@31¾c. No 2 White at 35¼@35⅝c. At the river. No Grade at 32@33½c. No. 4 White at 31@33¼c. No. 3 White at 33¼@34½c. Standard at 34@34½c

Future Deliveries of Contract Oats—Were weak and lower.

AUGUST—Closed at 34@34⅛c.

SEPTEMBER—Offered freely. Sold at 34@34⅝c. Opened at 34⅝c, sold to 34⅝c, to 34c, to 34¼c, to 34@34⅛c at close.

DECEMBER—Active. Sales at 35¼@36c. Opened at 35⅝c to 35⅞c; sold to 36c to 35¼c, to 35⅜c, to 35¼c at close

MAY—Increased trading. Sold at 37¼@38⅛c. Opened unsettled at 37¾c to 38⅛c. sold to 37¼c, to 37⅝c, to 37⅜c at close

RYE—Ruled weaker and prices declined 1¾@2¼c in sympathy with the decline in other Grains. There was more disposition to sell. Ten cars were received. No. 2 fresh receipts sold at 74c and No 3 at 72½@73c.

Future Deliveries of No. 2 Rye—Weaker. August ½c under September. September sold at 72½c, which was 1¾c lower than yesterday's closing. December sold at 75½c to 71c—or 2½c lower than yesterday's closing. May sold at 79c and closed at 79c asked

BARLEY—There was a quiet, steady market. Nothing new developed. As yet the offerings of new Barley remain small and the market has become bare of old. There continues a fair demand for new for pearling, a little was taken for feed, to grind, and malsters were on the market but hardly enough as yet on sale to get them much interested. New is coming to market in good condition. Cars arriving do not all show in the inspection, only 4 cars inspected while more than this, several times that number, came on sale. Old Barley was nominally 32@38c for common to choice Screenings, and 36@40c for feed or mixing, some new for feed sold at 44c. New rather common thin or stained quotably 41@43c, ordinary to good malting and Barley taken for pearling at the same range, 45@48c. Choice to fancy quotably 50@53c, a sale was made at 53c

SEEDS—There was no business done aside from the sale of some to arrive Timothy on a former bid. General market dull and neglected, with the details given below

Timothy—A couple of cars to arrive were sold and that constituted all of the business there was done. No interest seemed to be centered in the market. Speculative orders were practically absent and no spot Seed on sale. From all indications there also was an utter indifference about buying cash Seed. Contract old Seed remains at nominally $2 90, probably sellers. For September new $3 00 bid, and October nominally $2 90, with $2 80 bid. Cash new quotably about $2 70@2 80 for fair to good, choice to fancy $2 90 to possibly a shade over and dark or dirty about $2 50@2 65 depending on quality

Flax—Was inactive and nominally unchanged. Last quoted prices were obtainable. There were no sellers hence there could be no business. Movement unimportant. Locally 6 cars or 5,400 bu received and none taken out. Minneapolis got none and Duluth received 14 cars. No. 1 Northwestern or No. 1 from the Northwest nominally $1 24 bid. No 1 was $1 16½ bid. Rejected quotable at $1 12½@1 16, depending on quality. September nominally $1 16½ bid

Clover—Inactive. There has been no old Seed received for some time. The new crop is just in bloom. What it will yield no one can tell. In Northern Ohio and Southern Michigan a good deal was winter-killed. October delivery nominally $12 00. Contract spot Seed was quotably about $11 50@11 75. Country lots common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00, poor, cleaned out of Timothy, very foul lower. Fair to good $9 75@10 75.

Other Seeds—Only Mustard quotable at present and that was nominally 75c@$1 10 for common to choice.

HOG PRODUCTS—Speculative trading was quite active in the market for Hog Products, but the feeling was somewhat unsettled and prices were irregular. Offerings were not very large, and the demand was quite active at times. Outside orders were somewhat larger and local trading was moderately active. A good share of the business was in transferring contracts from September to October at 5@7½c difference on Mess Pork, 7½@10c on Lard, and 5@7½c on Short Rib Sides. January contracts were in fair request and offerings were moderate. Hogs were in fair supply and prices higher. Receipts at the larger Western packing points were estimated at 53,400, compared with 42,300 one year ago. Packing of the West for the week reported the same as last year. Foreign markets were quiet, but firmer, and prices were advanced 6d on Lard Hams, and Cumberland Sides. Domestic markets were steadier. Receipts of Products were liberal—of Lard and Meats about 29 cars. Shipments were rather light—of Lard and Meats about 74 cars. Speculative market opened rather firm and prices ruled considerably higher, with fair miscellaneous buying. Later, there was a little realizing, and prices receded moderately. Toward the close, a steadier feeling was again manifested, and prices rallied considerably, and the market closed comparatively steady. Inquiry on shipping account was moderate, with no particular pressure to sell. Sales were not very large, and there were only slight changes in prices.

Mess Pork—Quite a good business was transacted in Mess Pork, and the feeling was considerably unsettled. Offerings were fair and the demand was moderately active. Market opened rather firm at 10@12½c advance, and further improved 2½@5c. Later, the offerings were slightly enlarged, and prices settled back 5c. Toward the close, the feeling was stronger, and prices were advanced 15@17½c, but receded again 2½@10c, and the market closed steady. Shipping demand moderate, and offerings were fair. Cash lots quotable at $11 80@11 85

SEPTEMBER—In fair request and offerings were moderately free. Sales were made at $11 67½@11 87½. Opened at $11 70, sold to $11 67½, to $11 75 to $11 70 to $11 75, to $11 70, to $11 87½, to $11 77½ and closed steady.

OCTOBER—Offerings were moderately free, and the demand was fair. Sales were made at $11 65@11 90. Opened at $11 65, sold to $11 80, to $11 77½, to $11 82½, to $11 77½, to $11 82½, to $11 77½, to $11 82½, to $11 80, to $11 85, to $11 80, to $11 90, to $11 82½ to $11 90, to $11 82½, and closed steady.

JANUARY—In rather good demand, with moderate offerings. Sales were made at $13 05@13 27½. Opened at $13 05, sold to $13 25, to $13 15, to $13 27½ to $13 22½ and closed steady

Lard—More interest was manifested in the market for Lard, and the feeling was stronger in a general way. Offerings were not very large, and the demand was fair. Foreign advices more favorable to holders. Market opened rather steady, but a stronger feeling was developed, and prices advanced 5c. Later, there was a little liquidation and prices receded 2½@5c. Toward the close, the feeling was stronger, and prices rallied 7½@10c, and the market closed steady. Stock enlarging. Demand on shipping account was reported moderate, with no particular pressure to sell. Cash lots quotable at $6 90@6 92½. Loose lots in fair request with limited offerings. Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $8 50. Neutral in fair demand, with moderate offerings. Prices quotably higher at $7 75@7 87½ for No. 1, and $7 37½@7 50 for No. 2.

SEPTEMBER—In moderate request and offerings were fair. Sales were made at $6 87½@6 97½. Opened at $6 87½, sold to $6 92½, to $6 87½, to $6 95 to $6 92½@6 95, to $6 97½, to $6 95, and closed steady

OCTOBER—Offerings were fair and the demand was moderately active. Sales were made at $6 97½@7 05. Opened at $6 97½, sold to $7 02½, to $6 97½, to $7 05, to $7 02½, and closed steady

JANUARY—Demand was fair and offerings were only moderate. Sales were made at $7 05@7 12½. Opened at $7 05, sold to $7 07½ to $7 05 to $7 10@7 12½, to $7 07½ and closed steady

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was stronger. Offerings were fairly liberal, and the demand was moderately active. Market opened rather steady at the closing figures of Wednesday, but there was considerable miscellaneous buying, and prices rallied 7½@10c. The advance brought a little more property on the market, and a weaker feeling was developed and prices receded 5@7½c. Toward the close, the feeling was steadier, and prices rallied 7½@10c, and the market closed steady. Shipping demand was moderate, and offerings were fair. Cash lots were quotable at $7 37½@7 50 according to weight

SEPTEMBER—Demand was moderate, and offerings were fair. Sales were made at $7 35@7 47½. Opened at $7 35, sold to $7 45, to $7 35@7 37½, to $7 47½, to $7 45, to $7 45@7 47½, and closed steady

OCTOBER—Offerings were fair, and the inquiry was moderately active. Sales were made at $7 40@7 55. Opened at $7 40 to $7 42½, sold to $7 40, to $7 50, to $7 42½, to $7 52½@7 55, to $7 50 and closed steady.

JANUARY—In fair demand and offerings were moderate. Sales were made at $6 80@6 90. Opened at $6 80 to $6 82½, sold to $6 90, to $6 85 to $6 90, to $6 87½@6 90, and closed steady

Other Meats—Trade was only fair and mainly on domestic account. Exporters bought moderately. Offerings not very large, and inquiry only fair. Green Meats in limited supply with a light inquiry and prices favored buyers. Pickled Meats in fair request, with only moderate offerings, and prices favored buyers. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows:

GREEN—Hams, av. 10@12 lbs, 9⅜@9¾c. 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9⅝c; 16@20 lbs, 9¾@10c. Skinned Hams, 10⅜@10¾c; Shoulders, 6⅜@7c; Picnic Hams, 7¼@7⅜c; Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9¾@9⅞c; 14@16 lbs, 9⅜@9¾c cash 9⅝@9¾c August; 18@20 lbs, 10@10¼c; Skinned Hams, 11¼@11⅜c cash, 11¼@11⅜c August; Shoulders, 7½@7⅝c. Picnic Hams, 7⅝@7¾c. Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7⅜@7½c. Short Fat Backs, 6¼@7⅜c; Short Clear Backs, 8¼@8¾c, Clear Bellies, 8@9c; Rib Bellies 7¾@8¾c. Extra Short Rib Sides, 7¼@7⅝c. Extra Short Clear Sides 7¼@7¾c; Rough Sides, 7¼@7½c. Plates, 5¾@5⅞c. Jowl Butts, 5@5⅛c. EXPORT CUTS—*boxed*—Long Cut Hams 10¼@10½c, Cumberland Sides, 9@9¼c. Long Clear Sides, 9@9¼c, Extra Long Clear Sides, 8@8¼c; Short Clear Sides, 8@8¼c. SMOKED—*loose*—Hams 11¼@11¾c, Skinned Hams 12¼@12¾c. Shoulders, 8⅝@9c; Picnic Hams, 9@9½c. Short Rib Sides, 7⅞@8c; Rough Sides, 7¾@7⅞c; Short Clear Sides, 8@8¼c, Extra Short Clear Sides, 7⅝@7¾c. Breakfast Bacon, 11½@12c.

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $18 50@19 00; Extra Mess Beef, $8 50@8 75; Plate Beef $8 50@9 00. Extra Plate Beef, $9 50@10 00. Tallow steady at 5¼@5½c for edible; 5@5¼c for prime packers; 4⅝@4⅞c for No. 1 do. and 3¾@4c for No. 2 do.; 4¼@4½c for city renderers, 4¾@5c for prime country and 3¾@3⅞c for No 2 do. Oleo-Stearine in fair supply and quotably steady at 7c

GREASE—Quiet and rather steady at 3¼@3⅜c for brown, 3⅜@3½c for yellow, 3½c for house, 4@4⅛c for B white, and 4½@4⅝c for A white

Sales were ON TRACK—Wheat—1 car at $6 00.

AGRICULTURAL FUTURE OF ARGENTINA.

The Washington Department of Agriculture has had a special agent to make personal investigation of agricultural resources and conditions in Argentina. His report has been issued by the Department in the form of a pamphlet of 90 pages.

The Grain-growing possibilities of that region are admittedly immense. The present area devoted to Wheat alone is about 10,000,000 acres, from this the country is able to raise enough Wheat enough to supply all home demands and export some 80,000,000 bu. the exports so far this cereal year, beginning Jan. 1, having been over 67,000,000 bu. The area at present devoted to Wheat in the United States is about 45,000,000 acres. But against the 10,000,000 acres now under cultivation in Argentina stands a vast area of land, 300,000,000 for this use Senor Ronaldo Tidbum, an Argentine authority in agricultural matters, says it is absolutely impossible to calculate the extension of the cultivated area, "but there are more than 80,000,000 acres in the Republic that could be immediately devoted to successful Wheat farming if we had the farmers to do it." And outside this immediately available land is a vast area stretching southward into the territory of what used to be called Patagonia, and offering incalculable possibilities for the future in the way of settlement. Mr Bicknell's conclusion on this point is thus stated:

"Finally, it is quite impossible to estimate close of the present or future Wheat area of Argentina. We must wait several years to do that. All we can safely say now is that the acreage of the crop of 1903 will probably be 12,000,000 acres or more, that it is rapidly increasing and getting into a region of very great extent and of an adaptability superior to that of the region in which it was situated that the present rate of increase in proportion to the population and the extension of railways and river navigation. If we see settlers—farmers—going to Argentina in large numbers and staying there, if the Government offers sufficient inducements to get the right sort of men to come and to stay, then we may look for a tremendous production of Wheat. The railway services will be provided as soon as there is a demand for it. The Southern Railway, which dominates the Province of Buenos Ayres and all the Southern part of the country, is outgrowing, has practically unlimited resources, and will extend its lines to secure new territory years before it will pay any dividends. It has repeatedly done this. The same may be said of the Great Western Pacific Railways, which are developing the country to the West, only not to the same extent. Most of the Argentine railways are owned by the same group of high capitalists and they work quite harmoniously together."

There is no lack of land, but there is a decided lack of land tillers of the sort that have overrun the United States in the past few years and brought its great areas under extraordinary cultivation. Argentina has to depend largely on the races of southern Europe for its immigrants. It is a temperate region, but the northern races seem to be averse even to approaching the equator long enough to jump over it in gaining a climate in the other hemisphere that is much like that of the northern homes. And this Southern European is not a good farmer—at least, not a progressive one. He is forever thinking of the home he came from and of going back some time. Hence the immigration and emigration figures of Argentina for a few years back:

	Immigrants.	Emigrants.	Net Immigration
1902	96,089	79,417	16,672
1901	125,951	80,251	45,700
1900	105,902	55,417	50,485
1899	111,683	62,211	48,842
1898	95,190	54,558	41,654

THE FLOUR PRODUCTION.

MINNEAPOLIS, Aug. 17.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

	Aug. 13. Aug. 6.	1904.	Aug. 15. 1903.	Aug. 16. 1902.
	Bris.	Bris.	Bris.	Bris.
Minneapolis	185,730	215,935	200,495	275,815
Duluth-Superior	8,500	14,500	4,000	28,125
Milwaukee	34,100	30,510	36,000	28,850
Total	231,635	260,045	256,595	343,405

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

Flour made by mills outside of St. Louis, but controlled in that city

There was a decrease of 28,300 brls in the Flour output last week. Today nine mills were in operation, and the output for the week is likely to be about the same as last week, though there is talk of starting up a 4,000-brl mill now idle, which may run the production up slightly over that of last week.

The Flour trade is as bad as it possibly can be. Millers report that they had simply reached the limit of poor business some weeks ago, but since a receding week has been worse than its predecessors and last week was no exception. When a mill compares its sale Flour in a whole week with that ordinarily makes in one day, it is a sign of most abnormal conditions. What trade there is comes largely in the form of mixed orders for Flour and feed. The peculiar conditions of the past month or last week still continue, prices, especially for export trade, being merely nominal. The singular thing about the export trade is that many offers that have been sent out from here at considerably below the cost of production and also below the generally selling price, have not met with acceptances nor even with counter bids. Foreigners seem to be expecting considerably lower prices. On the other hand, millers here generally expect a higher range of prices for Flour than last crop, though perhaps not so high as would be necessary at present Wheat prices.

When the new Wheat begins to come into market, say about Sept. 1, is likely to be a big rush. Flour buyers will come in. They have been holding off till the last moment in view of the difference between the March and September Wheat, which even now represents a difference of 40c per barrel in favor of September Wheat. The high prices for cash Wheat will naturally stimulate shipments from the country, and it is probable that by Sept 1, Minneapolis will be getting pretty fair Wheat receipts if the present favorable harvesting weather continues. There is not much likelihood of an improved Flour business before till the outturn of the present crop is pretty definitely ascertained. Just now the miller is between the upper and the nether millstone. As a Flour buyer, clamorous for lower prices and evidently expecting them representing the upper stone and the Wheat seller with his inflated notions of values representing the nether millstone. Between the two the poor miller is having a decidedly hard time of it. The Flour trade may be summed up by saying that domestic trade is of the most restricted nature for immediate wants, and foreign trade has gone to sleep, though there is a little more inquiry for clears. Minneapolis and outside mills are quoting patents at $5.00@5.85 per 196 lbs in wood f. o. b. Minneapolis.

SPRING WHEAT CROP.

[From the Northwestern Miller.]

The weather in the Northwest has been all that could be desired for several weeks past, and harvesting is now in progress as far north as Devils Lake, N. D. In Southern Minnesota Wheat has been cut and is now in the shock or the stack. Threshing returns as far as they have come in from this section, are good. Speaking generally of the three States, Minnesota and the Dakotas, Wheat that is not already cut in the shock will be cut in the shock in some extent out of harm's way from rust. The experience of farmers has been that where Wheat had reached the dough stage before being attacked by rust, which would be in the early part of July, it was not destroyed. Where the rust attacked Wheat in the milk, more serious damage ensued. In a few places in North Dakota Wheat is three weeks late and will not be ready to cut till the middle of September. There seems to be an unusual difference in the advancement of Wheat in the same districts this year, due apparently to the character of the land and methods of cultivation, with corresponding differences in the yields. Thus in certain districts the early Wheat is expected to yield 25 to 35 bu per acre, but the late Wheat only 12 to 15 bu. Reports still continue most conflicting. While in some sections the results of cutting have been better than anticipated, on the other hand just has appeared in districts where it was previously reported. As explained, however, it is thought that the Wheat is now generally too far along to be much injured by rust. It is a matter of small consequence in the situation that farmers in Southern Minnesota and South Dakota are stacking their Wheat instead of threshing it out and rushing it to market, as is the case in Northern Minnesota and the Red River Valley, with a combination of present favorable conditions.

THE HOP SITUATION.

[New York *Producers' Price Current*, Aug 13.]

The New York crop continues very reserved not buying much as they are awaiting the advent of the new crop Stocks of 1903 here, however, are so small that prices are holding firm. Reports from England are to the effect that the crop, conditions, and some authorities now claim that 380,000 cwts may be the outside figure. On the Continent, however, conditions are much better, especially in Austria and Belgium, and it is now estimated that the Continent will have between 150,000 and 200,000 cwts more than last year. Picking of the early varieties has already commenced on the Continent, in New York State conditions continues as well as before and picking of seedlings will begin about the 15th inst. In the Sacramento Valley, California, picking is now in full blast, and some new Hops have already been shipped east from there. The rest of California continues doing well. Reports from Oregon and Washington State state conditions unchanged. Dealers are now offering up to 22½c for contracts on the Coast for 1904 Hops, but growers show some unwillingness to do business. It would appear that picking will be earlier on the Coast this year than last.

CANADIAN WHEAT STOCKS.

Stocks of Wheat in Canada at principal points of accumulation are reported as follows: Bu.

Montreal	237,000
Toronto	26,000
Kingston	70,000
Coteau	76,000
Depot Harbor, Ont	150,000
Manitoba elevators	883,000
Fort William, Port Arthur and Keewatin	1,953,000
Total, July 30	3,238,000
Total, previous week	3,442,000
Total, a year ago	2,477,000
Total, two years ago	2,272,000

THE WEATHER CONDITIONS.

The weather map shows no frost Manitoba or Northwest; rising temperatures. Slightly lower temperatures this side of International line. Rains general, but mainly medium to light in West, Southwest and South.

The indications are for warmer in Northwest, scattered showers in Mississippi Valley and West and cloudy weather over entire forecast district.

ITEMS OF GENERAL INTEREST.

Toledo, St. Louis and Western gross earnings in July were $260,770, an increase of $15,680.

Gross earnings of the American Railways Company for July were $131,307, an increase of $6,812.

A fire, Wednesday, in the business district of Gulfport, Miss., destroyed property to the extent of $75,000.

The chemical plant of the Cleveland Cliffs Iron Company, Gladstone, Michigan, was destroyed by fire, Monday. The loss is $150,000 with no insurance.

The St. Louis Exposition Company, Monday, forwarded to the United States Treasury a check for $500,000, making $1,908,119 of the Government loan of $1,600,000 refunded.

Land sales by the Canadian Pacific in the past fiscal year were 1,041,913 acres for $3,913,197, or $3.75 an acre, as compared with sales of 2,907,176 acres for $10,714,364, or $3.65 per acre, in the preceding year.

The New York, Ontario and Western reports for the quarter ending June 30 a surplus after charges of $330,681; decrease, $15,214 For the year ended June 30 there was a surplus after fixed charges of $668,767; increase, $23,569.

It is reported from Pittsburg that the Pittsburg Steel Company will make up most of the billets converted by the Republic Iron and Steel Company into steel for sale in the open market and that the United States Steel will not rates further, if necessary, to hold its business.

From the twelve months' statement of gross and net earnings of the United States Treasury, the seven months' statement recently made public, it is figured that the net surplus after charges and preferred dividends is about $1,350,000, or 5 per cent on the $7,000,00 of common stock outstanding.

A Chicago commission firm had a report from Monticello, Ind., where Corn was said to be in good condition Sunday, which said: "Another windy weather; Corn being badly Conservative estimate of damage already 40 per cent, and will increase to 80 or 90 per cent if no rain comes this week."

The receipts of Flax Seed at Bombay for the week ended July 14 amounted to 4,000 tons, against 3,746 tons in the previous week and 1,800 tons in the same week last year The total receipts at Bombay from Jan 1 to July 14 amounted to 162,581 tons, against 127,529 tons in the same period last year.

The Buenos Ayres *Standard* of July 4 says: "Very good news reaches us from the principal Wheat districts, a telegram confirming the very recent statement to the effect that there would be a considerable advance in the area under crops this year. Every farmer, who has the land and the means, is plowing up new ground and extending his crops, dropping the old system of growing Flax crop and Grain and splitting up his property for the purposes of adopting the modern practice of rotation."

Iowa State Crop Bulletin says: "The Corn crop on the average is in a promising condition, being more heavily eared than usual, showing dark green color from tassels to roots. With a normal warm and frostless September the crop will be a full average More than the usual amount of Oats and Barley will be cut for hay. Harvesting returns of these cereals indicate fair yield and quality. Spring Wheat is very poor in the greater part of the sections where the acreage is largest.",

The Adams Trust Company of Boston, as trustee, at the request of the bondholders, has advertised the property of the Fore River Ship and Engine Company for sale. The sale is advertised to take place on Sept. 7, and will be to the highest bidder. It is expected that no bids will be made for account in the interest of the organization. It is understood that sufficient securities of the Fore River Ship and Engine Company have been assented to the plan of reorganization to insure its success, and the providing for the necessary amount of money has been underwritten.

The Chicago *Inter-Ocean* says: "The reduction of 5c in the cash official prices of tin plate by the American Sheet and Tin Plate Company is said to have resulted in less rather than more business being placed. It is said that the cut may have been made entirely to the advantage of the company in on the inside. The close connection of John A. Topping, the new president of the Tin Plate Company, with Fire Spring, who for the past two years has been president of the American Can Company, is well understood and regarded as of the greatest significance in its connection."

A number of the leading State producing firms in Manchester, Vt., and in the Empire State have entered a combination in an effort to improve the business, which at present is said to be very dull. It embraces ten of the leading and a number of the smaller concerns. They agree to limit production to 200,000 squares of roofing slate annually for a period of five years. This involves an aggregate business of about $1,350,000. The ten Companies called into the American Fire Slate Company, and is chartered under the laws of New York.

A preliminary report to the chief of the Bureau of Statistics of the Department of Agriculture will show the total acreage of Rice in the United States this season to be about 613,400 acres, distributed as follows: North Carolina, 4,800 acres; South Carolina, 33,300; Georgia, 30,000; Florida, 3,000; Louisiana, 154,200 acres. The Rice acreage of the country has increased 83 per cent within the last five years, and is now four times as large as it was fifteen years ago. In 1888 Louisiana and Texas contained about 60 per cent of the total Rice acreage of the country. Now these States contain 63 per cent of the greatly increased total."

A compromise settlement in the suit of the receiver of the Bay State Gas Company of Delaware to enjoin the sale of the various gas companies operating in Boston under a merger plan has been reached out of court that is understood that there will be no further litigation on this phase of the case, which has been before the Massachusetts Supreme Court for many months. Suits growing out of this action, brought by H. H. Rogers, Thomas W. Lawson and J. Edward Addicks still hold. but the Massachusetts Gas Company is taken out of the field and is given absolute possession and title to all the other Boston gas companies

The Pennsylvania Railroad has decided to make further reductions in the working forces in its shops. The new order will greatly affect the shop at Altoona, Pa., it being estimated that 400 men employed there will be dropped within the next week. This action was taken at a meeting of the general manager and officers of the maintenance of way department, and it is said that the reduction to the shop men particularly, and the trainmen will be affected within the next month. The motive power department has practically suspended operations for August and September, and all the locomotives turned out are being placed in the yards for future use. The company placed no orders for locomotives within the last three months, and no repair work will be done until the regular winter work begins.

Reports from 550 different points in the Corn belt have been received by a Chicago commission man. Ohio has half of the crop, Illinois 40 per cent of a crop and the other half a full crop. Two-thirds of Indiana have 50 per cent of a crop and the balance a big crop, the loss being due entirely to drought and poor tassels. The northern part of the State has suffered from drouth, while the balance has a full crop. Iowa has more than an average crop, only 40 points reporting prospects poor, and they are where Corn is late. Nebraska has a bumper crop Missouri has 75 per cent of an average crop. In Kansas the eastern part of the State has the poorest crop, western part has a big crop, and the State will have about 75 per cent of an average crop Reports from Wisconsin, Minnesota, and South Dakota are favorable for a big crop, with a big yield.

Representatives of the Republic Iron and Steel Company claim that the contract calling for the conversion of 10,000 tons of pig iron into billets involves no violation of the Pittsburg Association rules and regulations. They say that the Republic has simply made a trade agreement with the Pittsburg Steel Company. In other words, there will be no sale of billets by the Pittsburg Company, simply pays the Republic Iron and Steel Company so much for converting a certain amount of pig iron into billets. A person in close touch with the affairs of the Republic Iron and Steel Company said: "The Republic Iron and Steel Company officials are thorough business men and you can rest assured that they carefully read and thoroughly before they closed the contract with the Pittsburg Steel Company. The regular meeting of the Billet Association will not be held for two months. If any special meeting had been called I have not heard of it However, it is possible that a meeting of the association will be held within the next two weeks or so." The Republic Iron and Steel Company does not fear expulsion from the Billet Association. In the matter of billets no "pool" exists in the sense that the word implies. It is simply a gentlemen's agreement to maintain prices.

A committee, consisting of George F. Crane, Stuyvesant Fish, George F. Victor, John E. Borne, Silas Bent Fowler, and Nan Kanton, with P. S. Babcock as secretary, and the Colonial Trust Company of New York as depositary, has issued a circular to the creditors of the Pacific Packing and Navigation Company, stating that in the report made by the receivers under date of April 20, 1904, the receivers recommended the organization of a company to take over the properties and terminate the receivership. A proposition has been made by parties interested in the company on the Pacific Coast for the organization of a new company, which is to acquire all the assets of the Pacific Packing and Navigation Company and the Pacific Alaska Navigation Company at receivers' sale, substantially upon the following lines: Capital stock, $2,000,000 consisting of $500,000 of 8 per cent cumulative preferred, both as to dividends and assets, and $1,500,000 common; $1,400,000 of common stock to be accepted by the creditors, note and debenture holders, in full settlement of their claims, or 70 per cent, the 30 per cent admitted claims against the company consisting of debenture bonds and promissory notes amounting to about $3,400,000. Preferred stock to mature at the end of five years and be redeemable pro rata at any time within five years at the discretion of the directors by payment of 10 per cent premium. All moneys arising from the sale of the preferred stock are to be paid in full, without commissions, into the treasury of the company, and to represent a working capital in addition to the other liquid assets of the company. The committee states that it has no plan of its own to suggest, and submits this proposition to the parties with the intimation of recommending the plan and subscribing to $300,000 of the preferred stock or of having the property sold at auction in the late fall or early winter.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

ITEMS OF GENERAL INTEREST.

New York Exchange 15c discount.

Documentary Sterling steady at 484¼.

Chicago Bank Clearings to-day, $26,135,062.

Wheat crop in Argentina in good condition and growing well.

The Wakondo, S. D., *Mail* says threshing returns of rusty Wheat are better than expected.

Reported that no Wheat and 8,000 bu Corn were taken at the seaboard to-day for export.

The Governing Committee has decided to abandon the 1:30 o'clock "call" on the Chicago Stock Exchange.

Ten packers purchased 10,000 Hogs to-day; shippers, 3,500; left over, 2,000. The market closed 15c to 20c higher than yesterday morning.

Local Securities were slow, with an advance of 1 point in Diamond Match, and a loss of 2 points in Oak Park Elevated

Estimated receipts for to-morrow: Wheat 137 cars; Corn 165 cars; Oats, 354 cars; Rye, 12 cars; Barley, 5 cars; Hogs, 10,000.

The receipts of Hogs at Chicago for the week will be about 88,000, compared with 123,873 for the corresponding week last year.

Recent charters of Corn at Argentine ports have been with the privilege of discharging cargoes at Fiume, an Austrian port on the Adriatic

Cotton in New York was given good support and made moderate advances. Trading was fair "Shorts" were good buyers. Closing sales were at 1@5 points advance.

Crop experts in the Northwest are telling that the Wheat yield in the three States will go 8 to 12 bu. Last year the average was 13.2 bu, in 1902 was 14 bu and 1901 was 13 bu.

The receipts of Wheat at Liverpool during the past three days were 544,000 bu, of which 136,000 bu were American. Receipts of Corn, 136,000 bu, of which 40,000 bu were American.

Argentine Wheat visible is 2,904,000 bu, against 3,680,000 bu the previous week, and 2,352,000 bu last year. The Argentine Corn visible is 4,063,000 bu, against 3,584,000 bu the previous week and 3,112,000 bu last year.

Stocks in New York were weak and averaged lower, but losses were small on the Western Railway shares. Eastern Railways showed small gains and losses, and Industrials suffered good declines. Money 1 per cent.

Shipments of Wheat from Argentina this week were 1,064,000 bu, against 1,744,000 bu the previous week, and 976,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 75,712,000 bu, against 55,602,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 3,784,000 bu, against 2,561,000 bu the previous week and 2,357,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 43,665,000 bu, against 35,486,000 bu for same time last year.

The shipments of Flax Seed from Argentina this week were reported at 368,000 bu, compared with 401,000 bu last week, and 216,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 34,312,000 bu, compared with 20,647,000 bu for the corresponding time last year

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 520,000 bu, against 695,000 bu for the previous week and 510,000 bu for the corresponding week last year. Exports since July 1 were 3,773,000 bu, compared with 7,458,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,703,000 bu, against 1,282,000 bu for the previous week, and 3,373,000 bu for the corresponding week last year. Exports since July 1 were 9,549,000 bu, compared with 21,834,000 bu for the corresponding time last year.

The Paris *Petit Journal* says that the Wheat crop is proving deceptive, and although not likely to be so deficient as some authorities affirm, will be largely short of last year's abundance: the excellent quality and the stocks of old Wheat on hand, however, will probably render France again practically independent of foreign Wheat.

The *Modern Miller* says: "In localities where there has been sufficient moisture, and rains have been quite general, farmers are preparing the soil for Winter Wheat seeding. Indications are that a full average acreage will be sown Farmers in the Eastern Winter Wheat section, and especially in the States where the yield was shortest, are holding their Wheat. Decrease in the receipts at the leading markets is probable."

A crop expert wired, Thursday: "There are some ten counties in Southern Minnesota that have a full average crop of good milling Wheat. Farmers threshing and delivering at stations. There are stretches of fair Wheat all through the three States. Every field that was in dough before rust struck it will be fair milling Wheat The badly rusted, of which there may be 25 per cent, will only make from nothing to rejected."

Formal announcement was made in New York, Wednesday, of the settlement of the differences between the Cincinnati, Hamilton and Dayton Railway Company and certain of its preferred stockholders over the recent issue of securities in order to obtain control of the Pere Marquette Railroad Company. Under the terms of the settlement all of the 5 per cent preferred stock of the Cincinnati, Hamilton and Dayton Railway Company will be taken up at $110 per share between Aug. 30 and Sept. 30. No stock will be taken after Sept. 30, 1904.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market inactive and sales only for moderate quantities. Foreign inquiry improving but bids still out of line.

WINTER WHEAT—Active demand for choice and prices 2@3c higher, while poor Wheat sympathized but slightly. No 2 Red in store quotably $1 09⅛@1 11⅛, and fresh arrivals sold at $1 10@1 11¾. No. 3 Red fresh receipts sold free on board at $1 05@1 11, and billed through at $1 09 No. 4 Red fresh receipts sold free on board at 95c for ordinary, to $1 01@1 04 for good, and $1 06@1 08½ for choice. No. 2 Hard fresh receipts sold at $1 09½@1 10¾ No. 3 Hard fresh receipts sold to go to store at $1 10@1 11, free on board at 99c@$1 10¾ for poor to choice, billed through at $1 09, and at the river at $1 00¼@1 08. No. 4 Hard sold at 98c@$1 01. No 3 White billed through sold at $1 05, and No 4 White at 99c@$1 00.

SPRING WHEAT—Was quiet to-day. Very little offered and market steady. No. 1 Northern nominally $1 15@1 18. No 2 Northern nominally about $1 10@1 12. No 3 Spring nominally $1 00@1 04. No 4 Spring quotably 80c@$1 02 for poor to good, with a sale at 85c A car not graded sold to-arrive at 78c

REGULAR WHEAT—Another exciting day was witnessed under this head, the market being broad and decidedly stronger New September touched $1 10½, December $1 12½ and May $1 14⅞ Most of the gain was maintained and the close was anywhere from 3c to 4⅜@4½c higher than yesterday. The strong cables and renewed claims of serious damage in the Northwest extending into Manitoba were the main "bullish" influences. There was also some uneasiness over the political situation in far East The outside demand was general and for large quantities, and the offerings while liberal were not sufficient to satisfy the same and prices advanced rapidly. The rains in the Northwest were also a factor. The selling was largely in the way of profit taking and liquidation was heavy on the advance Liverpool quoted spot steady to 1d higher and futures 1⅞@2d higher. English country markets were up 6d and London came 1@1½d higher. Buda Pesth gained 1⅝c and Berlin was ⅜c higher. Antwerp unchanged and Paris ¼@½c lower. The sharp advance at Minneapolis was one of the chief factors during the first half of the session. The map showed rains in Manitoba ranging from .12 to .42 inches, with temperatures 46 to 58 Heavy rains were also reported through North Dakota. Manitoba advices were reported worse this morning, and the private claims from North Dakota were again of the most sensational order, and many, no doubt exaggerated Argentine shipments were 1,064,000 bu, and since the first of the year 75,712,000 bu, against 55,602,000 bu same period in 1903 The visible supply there is at present reported 2,904,000 bu, against 3,680,000 bu last week and 2,352,000 bu one year ago Exports from the United States this week 1,703,000 bu and total since July 1 9,549,000 bu, against 21,834,000 bu one year ago. Exports to day were a little larger, due to the Flour clearances from Philadelphia. Argentine markets reported strong, with good export demand. Primary receipts were 310,000 bu larger than a year ago and from June 27 to Aug. 15 aggregate 23,631,000 bu, against 21,236,000 bu in 1903 and 39,016,000 bu in 1902 Kansas City and St. Louis received 439,000 bu, against 147,000 bu one year ago Minneapolis reported stocks had decreased 427,000 bu this week *Broomhall* cabled. "A private telegram received in Liverpool from France states that threshing returns in the North are disappointing, and estimates the crop in that section (the most important in the whole country) at 25 per cent less than one year ago Receipts at Duluth 36 cars and at Minneapolis 18 cars, a total of 54 cars, against 140 cars yesterday, 112 cars a week ago, and 160 cars last year. Local receipts included 72 cars Winter, no Spring and no cars mixed, a total of 72 cars, against 101 cars last year. Included in the above was 1 car of contract grade There were 7 cars and 10,000 bu from unlicensed elevators The estimated receipts for to-morrow are 131 cars. Withdrawals to-day were 8,956 bu. Receipts at Western points were 780,769 bu, against 470,757 last year. At Eastern points 70,749 bu, against 124,864 bu last year. Shipments from Western points were 518,123 bu, against 234,971 last year, and from Eastern points 22,550 bu, against 751,554 last year. Shipments of Flour were 76,601 brls. Exports of Wheat in Flour were equal to 367,254 bu

Future Deliveries of Regular Wheat—Active and higher.

SEPTEMBER—Old Style—Sold at $1 09⅜@1 11⅞. Opened with sales at $1 09⅜ to $1 09⅞; sold to $1 11⅞, to $1 10½, to $1 11⅛, to $1 10⅝, to $1 10⅞ and closed at $1 10⅞

SEPTEMBER—New Style—Sold at $1 07⅝@1 10½. Opened with sales at $1 08 to $1 09 sold to $1 08¼, to $1 08, to $1 08½, to $1 07⅝, to $1 09⅛, to $1 08½, to $1 09½, to $1 09, to $1 10½, to $1 09, to $1 09¾ to $1 08⅝, to $1 10, to $1 09¾, to $1 10, to $1 09⅝, to $1 09⅝, and closed at $1 09⅝.

DECEMBER—Sold at $1 08½@1 12½ Opened with sales at $1 08¾ to $1 09¾, sold to $1 09, to $1 09¼, to $1 09⅝, to $1 08½, to $1 10¼, to $1 09½, to $1 10⅞, to $1 10, to $1 11⅛, to $1 10⅝, to $1 12½, to $1 10½, to $1 12, to $1 11¼, to $1 11½, and closed at $1 11⅜@1 11½.

MAY—Sold at $1 10¾@1 14⅞. Opened excited with sales at $1 11 to $1 12¼; sold to $1 11⅞, to $1 11⅜, to $1 12, to $1 10¾, to $1 12⅛, to $1 11¾, to $1 13¼, to $1 13, to $1 13⅜, to $1 13¼, to $1 14¼, to $1 14, to $1 14⅞, to $1 13½, to $1 14, to $1 12¾, to $1 14½, to $1 14, to $1 14⅛, and closed at $1 14 bid

CORN—A large trade and unsettled but weaker market, the close showing the September off 1c, while December lost ⅞@1c and May ¾@⅞c There was heavy and general selling at the start, influenced by the increased country acceptances and beneficial rains through the Corn belt. Receiving and elevator interests were prominent on the selling side and "long" property came out freely on the break. It was estimated the acceptances from Iowa, Illinois, Kansas and Nebraska aggregated about 2,000,000 bu. on top of the 1,500,000 bu of yesterday. The map showed rains heavy and general all over the West and also through the Ohio Valley. Rain was also predicted for Missouri and Iowa and showers for Nebraska and Kansas At the decline "shorts" accepted liberal quantities, and, Wheat rallying sharply, the price recovered about all of the early loss, but the advance failed to hold Receipts were 183 cars, against 182 cars last year, and 165 cars are estimated for to-morrow. The large Argentine shipments were also an indirect "bear" influence They were reported at 3,784,000 bu, and total since Jan. 1 43,665,000 bu, against 35,486,000 bu one year ago The visible supply there is now 4,062,000 bu, compared with 3,584,000 bu one week ago and 3,112,000 bu one year ago Exports from the United States this week 520,000 bu, and total since July 1 3,773,000 bu against 7,458,000 bu in 1903. Liverpool quoted spot ¼d lower to ⅛d higher and futures unchanged to ¼d lower. Receipts there the past three days 136,000 bu, of which 40,000 bu came from America Western receipts 271,000 bu; last year, 38,000 bu. Shipments 141,000 bu; last year, 857,000 bu. Local arrivals, 142,000 bu; shipments, 86,000 bu. There was 129,000 bu taken from store Shipping demand fair and sales 175,000 bu. Southwestern markets were all lower Car lots were in fair demand and moderate supply Prices were ½@1c lower Sales entirely by sample No. 2 closed at 53¾c and No. 2 Yellow at 55¼c No. 3 closed at 53½c and No. 3 Yellow at 55¼c.

Corn by sample—Was in fair demand with the offerings moderate. Feeling easier and prices were ¼@¾c lower. Sales on track and free on board: No Grade sold at 52½@53½c No 4 at 52½@55½c. No 3 at 54½@55½c No 3 Yellow at 56@56¼c No. 2 at 56c No 3 White at 55c Billed through: No. 4 at 53@54⅝c. No 3 at 53½@54¾c No. 3 Yellow at 55@55¼c No. 2 at 54¾@55c No 2 Yellow at 55¼c. No. 3 White at 53½c. No. 2 White at 53½c.

Future Deliveries of No. 2 Corn—Active and weaker, closing ¾@⅞c to 1c lower.

AUGUST—Inactive; closed about 53c.

SEPTEMBER—Sold at 53¼@54½c. Opened at 54½c to 54c, and sold at 53½c, to 53¾c, to 53½c, to 54c, to 53¼c to 53½c to 53⅜c, and closed at 53⅜c

DECEMBER—Sold at 52¼@53¼c. Opened at 53c to 52¾c, and sold at 52⅞c, to 53c to 52⅝c, to 52⅜c, to 52½c, to 52⅞c to 52¾c, to 53¼c, to 52⅝c, to 53c, to 52¼c, to 52½c, to 52⅜c, and closed at 52⅜c

MAY Sold at 51⅜@52½c. Opened at 52¼c to 51¾c and sold at 52⅛@52¼c, to 51½c, to 51⅝c, to 51½c, to 52⅜@52½c, to 51⅞c, to 52½c sparingly, to 51⅝c, to 52c, to 51½c, and closed at 51⅝c bid

OATS—Were prevented from breaking badly by the advance in Wheat. Prices moved within ⅞c range, and closed ⅛c lower to ⅛c higher. Country acceptances were fair. Cash houses and "longs" were heavy sellers The buying was scattered. Arrivals were 359 cars, with 354 cars expected to-morrow. Seaboard clearances 24,000 bu Car lots to go to store were steady to ¼c higher No 3 White sold at 35¼@35½c Standard at 35½@36c. No. 2 at 32@32½c No 2 White at 35¾c. Standard in store closed at 34@34½c

Oats by sample were in fair request and prices steady to ¼c higher. Sales on track and free on board No Grade at 34½c. No. 4 White at 32½@34½c No 3 at 32c. No 3 White at 34½@35c. Standard at 35¾@36c. No. 2 at 32c No 2 White at 35½@36¼c. Billed through. No. 4 White at 34½@35c No. 3 White at 35@35⅝c Standard at 35@35¾c. No 2 at 32@35c. No. 2 White at 35½@36¼c. At the river No. 4 White at 33½c. No. 3 White at 33½@34½c. Standard at 34c

Future Deliveries of Contract Oats—Were active and closed irregular.

AUGUST—Closed at 34c

SEPTEMBER—Active Sold at 33⅞@34⅝c Opened at 34⅛c to 34¼c, sold to 34⅝c to 33⅞c, to 34⅛c, to 34c at close

DECEMBER—Active Sold at 35@35½c. Opened at 35½c to 35⅜c, sold at 35½c, to 35c, to 35¼c at close.

MAY Active. Sold at 37⅛@37¼c and at 37⅞c. Opened at 37½c to 37⅝c, sold to 37⅞c, to 37¼@37⅜c, to 37⅜@37½c at close

RYE—Was firmer in sympathy with other Grains and recovered the decline of yesterday, prices closing about 2c higher Demand fair and offerings light The receipts were eight cars No withdrawals from store here and no export clearances from New York. No. 2 sold to go to store at 75c and free on board at 74@75c.

Future Deliveries of No. 2 Rye—Firmer August about ½c under September September sold at 74c and December 76c and these about the closing figures.

BARLEY—Was very firm Low grades of old salable for mixing and better prices obtainable. Bids for choice Screenings were 3c above what the same kind of goods sold at a few days ago No old malting Barley coming on sale, and only a few cars of new. Maltsters showed more interest. Some of them apparently want Barley Car lots being scarce they were ready to buy round lots. Spot new Barley quotably 1@2c higher than of late. Round lots also at a premium over car lots. A round lot of choice Wisconsin, August and September shipment, was sold, the price was not made known, but rumor put it around 55c Only 7 cars inspected in Old Screenings quotably 35@41c for common to choice. New Barley, if stained or else better color, but thin or dirty quotable at 42@45c Good color, depending on weight, salable at 47@50c and choice to fancy bright quotably 51@53c, with round lots up to 55c

SEEDS—Were dull and quiet, in fact almost entirely devoid of trade. Values generally not much better than usual and no changes noted.

Timothy—Was inactive. It was a nominally dull heavy market. No cash Seed to speak of on sale As yet buyers manifest no desire to purchase Samples shown and some submitted for bids, but no one cared to bid. Speculative side of market without orders and to-day futures scarcely mentioned Contract old Seed still nominally $2 90, probably sellers September new $3 02½ bid, and $3 05 asked October nominally $2 90 Cash new quotably about $2 75@2 85 for fair to good, choice to fancy $2 90 to possibly a shade over, and dark or dirty about $2 50@2 65 depending on quality

Flax—There was no trading and there was nothing in the least new The market being entirely devoid of sellers, no one made any effort to purchase. Only 2 cars or 1,300 bu were received, and none taken out Northwestern movement very small, Minneapolis getting only 1 car and Duluth 2 cars. Nominal prices were as follows: No 1 Northwestern or No. 1 from the Northwest about $1 24. No. 1 was $1 16½ bid. Rejected quotable at $1 12½@1 16, depending on quality. September nominally $1 16½.

Clover—A very little faded old Seed was all there was on sale. The market remained in its late inactive state, with nothing new or changed October delivery nominally $12 00 Contract spot Seed was quotably about $11 50@11 75. Country lots, common to choice, $8 00@11 00; fancy above, mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75

Other Seeds—Only Mustard quotable at present and that was nominally 75c@$1 10 for common to choice

HOG PRODUCTS—Rather a good speculative trade was reported in Hog Products Feeling unsettled and prices irregular Local operators and packers sold fair quantities Hogs were in moderate supply and prices ruled higher Receipts at the leading Western packing points were estimated at 42,100, compared with 35,500 one year ago Foreign markets were steadier, and Liverpool quotations were advanced 6d on Cumberland Sides and 3d on Lard. Domestic markets were steady Receipts of Product were good—of Lard and Meats about 22 cars Shipments were moderate of Lard and Meats about 90 cars Outside speculative orders were fair, and local trading was moderately active. Market was rather firm at the opening, in sympathy with the advance in prices of Hogs, and prices were slightly higher Later there was fair selling in a general way, and a weak feeling prevailed with a fair decline in prices, and the market closed steady around inside figures. Rather more inclination to sell Products for January. Shipping demand was fair, and chiefly on domestic account, with moderate offerings. Prices without material change, with moderate sales

Mess Pork—Trade was fairly active in the market for Mess Pork, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was fair Market opened rather firm, and prices were about 10@12½c higher, which was followed by a further advance of 5@7½c. Later, there was some pressure to sell, while the demand was moderate and prices declined 22½@25c, and the market closed rather steady Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 75@11 80.

SEPTEMBER—Demand was moderate, and the offerings were fair. Sales were made at $11 70@11 95 Opened at $11 87½, sold to $11 95, to $11 80, to $11 87½, to $11 70, to $11 75, to $11 72½@11 75, and closed steady

OCTOBER—Offerings were fair, and the demand was moderately active. Sales were made at $11 77½@12 00 Opened at $11 95, sold to $12 00, to $11 90, to $11 92½, to $11 77½, to $11 80, and closed steady

JANUARY—In rather good demand, with moderate offerings Sales were made at $13 05@13 35. Opened at $13 27½ to $13 30, sold to $13 35, to $13 17½, to $13 25 to $13 17½, to $13 20, to $13 05 and closed steady

Lard—Only a moderate business was transacted in Lard, and the market was comparatively easy. Offerings were not very large, and the inquiry was only fair. Foreign advices were more favorable to holders. Prices were about 2½@5c higher early, but receded 7½@10c, and closed comparatively steady. Demand on shipping account was reported moderate, with no particular pressure to sell Cash lots quotable at $6 85@6 87½ Loose lots in fair request with limited offerings Prices steady at about 45c discount on September figures. Leaf Lard was in light demand, with moderate offerings Quotably steady at about $6 37½@6 50. Neutral in fair demand with moderate offerings Prices quotably steady at $7 75@7 87½ for No 1, and $7 37½@7 50 for No. 2.

SEPTEMBER—Demand rather light and offerings were fair. Sales were made at $6 87½@6 97½. Opened at $6 97½, sold to $6 87½, to $6 87½@6 90 and closed steady

OCTOBER Offerings were moderate and the demand was only fair. Sales were made at $6 97½@7 07½. Opened at $7 07½, sold to $6 97½, and closed steady

JANUARY—Called for moderately and offerings were fair Sales were made at $7 02½@7 15 Opened at $7 15 sold to $7 07½, to $7 10, to $7 02½, to $7 02½@7 05, and closed steady

Short Rib Sides—A fair business was transacted in Short Rib Sides and the feeling was rather easy. Offerings were fair and the demand was moderately active Prices were 2½c higher early, but a weaker feeling prevailed later, and prices receded 7½@10c, and the market closed rather steady Shipping demand was light, and offerings were moderate Cash lots were qotable at $7 35@7 45 according to weight.

SEPTEMBER—In moderate request, and offerings were not very large. Sales were made at $7 42½@7 50 Opened at $7 50, sold to $7 42½ and closed steady

OCTOBER Offerings were only fair, and the demand was moderate Sales were made at $7 47½@7 57½. Opened at $7 55 sold to $7 57½, to $7 52½, to $7 55, to $7 47½, to $7 50 and closed steady

JANUARY In only fair request, and offerings were moderate. Sales were made at $6 82½@6 95 Opened at $6 95, sold to $6 85, to $6 87½, to $6 82½, to $6 82½@6 85, and closed steady

Other Meats—Trade was fairly active, and mainly on domestic account. Exporters bought moderately. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices were unchanged. Pickled Meats in fair request, with only moderate offerings, and prices ruled steady. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately, and prices well supported. Closing prices ranged as follows

GREEN—Hams, av 10@12 lbs, 9⅜@9¾c; 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9¾c; 18@20 lbs, 9¾@10c, Skinned Hams, 10⅜@10¾c; Shoulders, 6⅞@7c; Picnic Hams, 7¼@7⅜c. Bellies, 9@11c. FAVORS AN OFFICIAL CROP REPORT.

[From the Northwestern Miller.]

The lesson of the last few weeks in the course of the Wheat market, exposes a weakness in the present system of crop reporting which should be promptly remedied by those who have in charge the maintenance of commercial standards, and who are interested in conserving the best interests of the legitimate Wheat and Flour trade rather than those of the rank outsider and the gambler who find their profit in manipulating prices regardless of the disastrous effect upon others whose capital is have to in legitimate business under takings. At this particular time the situation is a gross and palpable example of what can be done by shrewd market speculators, the responsibility lies obviously with the Minneapolis Chamber of Commerce to which has it is hoped to put an end at once and forever to the trickery by which these ends have been successfully accomplished.

Irregardless of crop reporting systems because no public, recognized and impartial medium is in existence whereby truthful and impartial reports may be obtained and properly disseminated. It is within the province of the Minneapolis Chamber of Commerce to provide such a medium for the Spring Wheat crop. The question of doing so depends for an answer on whether the interests of traders and speculators are stronger in its councils and of greater influence in its organization than the millers, elevator owners and legitimate traders who may and do call upon it for aid.

There are doubtless honest and conscientious crop reporters and the *Northwestern Miller* does not mean to reflect in the slightest degree upon the integrity of any of those whose reports made by sports thus far, upon the condition of the Spring Wheat crop, whatever may be its opinion of their judgment. It does maintain, however, that no crop estimate, however sincere and straightforward he may be, is one be without bias in the making up of his estimate who is employed by, interested in or otherwise influenced by any trader or corporation which is engaged in options trading either for itself or its customers. In themselves, reports coming from such sources are open to doubt and question that certainly can not be deemed absolutely impartial.

So important has the making of these preliminary estimates and reports become, so great is their immediate effect, not only upon the Wheat market, but upon the whole economy of business in the district affected that the work of preparing such estimates and making such reports should be taken out of the hands of private individuals and firms having large interests at stake and placed in charge of some impartial body whose use of them will be with the single purpose that such a body would be the Minneapolis Chamber of Commerce, since the government report lacks the exactness and frequency necessary for the trade. The Minneapolis Chamber of Commerce would be in position to devise a plan of crop estimating and reporting which will be adequate, reliable and above the suspicion of duplicity. Such a report would be worth almost millions of dollars annually to the trading public and it could be secured at a fraction of the expense which the members of the Exchange are now making in their attempts to obtain the facts and correct the many misstatements which are put into circulation every year by interested parties who use them as means for market jiggery. For the last two weeks or more, not only have the recognized crop reporters and estimators been giving their individual opinions on the condition of the Spring Wheat crop, but a horde of representatives of the Board of Trade bucket shop preparers and firms with predictions for bucket shop methods, have been keeping the wires hot with their prophecies of ruin and disaster to the Northwestern Wheat crop.

In the end it appears that the jugglers have rounded up their operations by making large sums of the temporary and fictitious values. The case of such facts it is idle and childish to claim any merit whatever for the irresponsible and untrustworthy method of crop reporting which now obtains and it is equally idle to contend that while it is not of sufficient importance to warrant some responsible and impartial body in taking this business out of the hands of irresponsible parties of public opinion and placing it where it ought to be—beyond the reach of doubt. While these mere speculators have been making their hugh profits out of a situation which never existed, the legitimate business men of the north west have suffered most materially and every dollar gained by the gamblers represents that much and infinitely more diverted from legitimate channels.

Direct sufferers by the iniquitous system have been the millers who have had their trade in flour tied, and consequently the output of their plants artificially stimulated by false reports, have been unable to operate their mills. This has brought hardship and distress upon mill operatives as well as mill owners. Beyond this, however, jobbers, inland and lake carriers and banks throughout the Northwest have suffered untold damage by the practical suspension of business, pending the settlement of the all important Wheat question. Wholesale houses have reported collections slow and difficult and their travelling men have found it impossible to sell goods as the uncertainty of storekeepers have become frightened at the newspaper reports of crop failure and have found it desirable to reduce their credits and suspend their orders for goods.

Immense y valuable time has been lost and the entire Northwest has found itself in a condition of extreme inactivity bordering upon panic. Had the situation been less sound, a genuine and genuine trade collapse might well have resulted. As it is, the credit of the Northwest has been greatly impaired in the East and all this for months on the effect is entirely overcome. Golden opportunities have passed, and much of the trade lost during the days of crop-mare will never be recovered. All this that a group of rank outsiders might make a golden harvest of the truth of the crop was accurately ascertained.

The same upper hand game and will occur again unless means are taken to put an end to this iniquitous practice. The only way to stop it is to institute a truth fiction, fact for mere rumor. The Minneapolis Chamber of Commerce may do this if it will and its position before the world certainly carries such a responsibility with it. *Northwestern Miller* earnestly hopes that its members will do what can be done to overcome this evil in the future and place the serious work of crop estimating in impartial hands it would seem also, a committee of the Chamber composed of reputable members whose duty it would be to devise a thorough system of obtaining and publishing impartial and reliable crop reports for the Spring Wheat States.

With a competent executive officer in charge, the work of this committee could be conducted in such a way as to insure a thorough and complete knowledge of crop conditions, beginning with the acreage and following with frequent reports on the progress of the crop to harvest. It might go still further and complete absolutely reliable statistics of yield and consumption of Wheat in the Northwest. This work could be well done by an expenditure as moderate as to be inconsiderable, compared with the large sums which are now expended annual y by individual members in order to ascertain the facts. The Minneapolis Chamber of Commerce owes this much to the public, and it should see to it that the history of the last few weeks is not repeated on another crop.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Aug. 18.]

The drouthy conditions in the Central West have not been broken by general rains the past week, although important relief has been had in several districts by showers of the past few days. There is such an extent of the dry weather conditions now affecting the Corn that it is difficult to reach satisfactory conclusions as to what should be expected as to the outcome. The best prospect of the past can not be restored by anything that can occur now or later. But rains at once or soon would arrest the tendency to damages as wide spread, and if such conditions were general where the drouth now is prevalent a good crop could be looked for, probably above the average of a series of years, but short of the higher records of the past.

The most serious impairment of the situation of the Corn crop from lack of moisture is in the region of the Ohio Valley. Other sections are in some extent overtaken with similar drawbacks. The situation on Aug. 1 represented a basis for a crop of about 2,450,000,000 bus or quite sufficient to meet all needs to follow This can not now be counted on, with prompt relief from existing and threatening drawbacks, but to what extent there may be curtailment can only be a matter of conjecture at this time.

The Wheat situation in the Northwest is such that a satisfactory or intelligent conclusion can not be reached as to what may be found or expected as to harvest results. There has been a great extent of serious injury to the crop. There is, however, a large part of the crop not injured or not to a degree of serious consequence whose weeks ago was one of high promise; in fact, pointing to a crop decidedly above the usual proportions. The comparisons now made with last year's Wheat high promise rather than the average or usual position So that the extravagant statements from some sources as to percentage losses may be regarded as of little value in reaching conclusions as to the comparative situation than the casual observer may give them credit for.

The August report of the Department of Agriculture reflected a situation justifying a basis for a crop of about 660,000,000 bu of Wheat—say 635,-000 000 bu of winter Wheat, and 25,000,000 bu of spring Grain. In reference to winter Grain nothing has since occurred to essentially change the indications Quite likely this portion of the crop may be found to reach 650,000,000 bu If the average decline in the condition of winter Wheat should equal 15 per cent, which now seems an ample margin for such allowance, the result would be about 525,000,000 bu. It is probably a fair approximation to regard the indications for the entire Wheat crop as reduced to about 575,000,000 bu, with possibilities somewhat above this, but not above a 600,000,000 bu point. There is indicated an unusual proportion of the Wheat below milling grade.

Late returns in regard to Oats maintain the high expectations in Ohio and generally elsewhere, and the final yield will likely make a very considerable increase over last year in the size of the crop, and the average quality will be better.

The Wheat movement is to be the subject of active speculative operations and decided changes in range of quotations during the past week, culminating in a somewhat sensational upward movement at the close, considered to be largely attributed to reports of frost from the Northwest—frosts and damage in anticipation, not yet overtaken—and consequently an excessive call for Wheat options to cover shorts' interests.

Recognizing the late disclosures in regard to the Spring Wheat situation in this country, and the modified views in regard to the crop situation in some of the Winter districts, it would be well not yet to justify the view that the world's crop will fall below the average of the past five years, while in fact the chances favor a decided crop and such average. It will be quite reasonable to look for decidedly higher average values than have prevailed in recent years. The curtailment in the Continental Crops will have a strengthening influence on the Wheat markets.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Aug. 18.]

In the aggregate movement of Hogs the past week there has been a falling off in the receipts in comparison with the recent past. Total Western packing 345,000 Hogs, compared with 390,000 the preceding week and 240,000 the corresponding week last year. For corresponding time last year the number was 375,000, and for years ago 3.5,000 From March 1 the total is 2,940,-000, against 5,685,000 a year ago, a decrease of 165,-000. Reports as to condition of Hogs and prospects ings are variable and include some rather unfavorable, while the majority of instances reflects satisfactory quality. Prices have been reduced, prominent markets at the close averaging about 50 to 50 per 100 lbs, compared with $5 40 a week ago, $5.25 two weeks ago, $5 45 a year ago, $6 85 two years ago, and $6 10 three years ago.

The speculative Provision market was fairly active the past week, and the course of prices was irregular. At the close Lard is higher than a week ago, while Ribs and Clear and Mess Pork are lower The strength in Lard was mainly based on firm holding, small offerings, and higher prices abroad General export demand is enlarging. The unfavorable crop conditions and the strength in the Grain markets is having an influence to a moderate extent on Provision prices. The export clearances of Product were larger than for the preceding week, and the month to date compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding week last year:

	Past week.	Last year.
Pork, pounds	380 000	488,000
Bacon, pounds	12,780,000	10,79 ,000
Total, Meats	12,561,400	11,353,000
Lard, pounds	6,720,000	9,833,000
Total, Provisions	19,281,400	21,186,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

	March 1 to Aug. 17—	1891.	1893.
Chicago		2,915,000	2,815,000
Kansas City		1,170,000	915,000
Omaha		1,045,000	1,150,000
St. Louis		650,000	680,000
St. Joseph, Mo		635,000	518,000
Indianapolis		515,000	477,000
Milwaukee, Wis		109,000	66,000
Cudahy, Wis		242,000	238,000
Cincinnati		247,000	236,000
Ottumwa, Iowa		271,000	212,000
Cedar Rapids		194,000	199,000
Sioux City, Iowa		186,000	217,000
St. Paul, Minn		345,000	315,000
Cleveland, Ohio		250,000	250,000
Louisville, Ky		155,000	147,000
Detroit, Mich		125,000	125,000
Wichita, Kans		110,000	95,000
Bloomington, Ill		33,300	33,300
Above and all other		9,440,000	9,599,000

The Baltimore and Southern Railroad, better known as the Old Drum Point line, has just been sold at auction by order of the courts. It was bought for $55,000 by the party who holds a mortgage for $85.000 on the property. The charter expires this fall.

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for seven weeks, from June 27 to Aug. 15, with comparisons, as compiled by the Cincinnati *Price Current*:

	1893.	1892.
	Bushels.	Bushels.
St. Louis	4,458,000	4,715,000
Toledo	954,000	1,183,000
Detroit	225,000	125,000
Kansas City	6,300,000	4,951,000
Winter Wheat	12,938,000	11,181,000
Chicago	2,900,000	3,09 ,000
Milwaukee	440,000	960,000
Minneapolis	5,700,000	5,990,000
Duluth	1,911,000	791,000
Spring Wheat	10,993,000	10,082,000
Aggregate, 7 weeks	23,931,000	21,235,000
Winter, past week	2,210,000	1,690,000
Spring, past week	1,849,000	1,549,000
Total week	5,565,000	3,509,000
Previous week	5,163,000	3,986,000

The receipts of Wheat the past week at primary markets, compared with the preceding week and corresponding week last year:

	Past week.	Preceding week.	Last year.
St. Louis	1,13,000	1,151,000	722,000
Toledo	381,000	310,000	283,000
Detroit	30,000	24,000	24,000
Kansas City	2,147,000	1,752,000	1,020,000
Chicago	595,000	989,000	874,000
Milwaukee	22,000	72,000	51,000
Minneapolis	620,000	521,000	585,000
Duluth	841,000	847,000	39,000
Total	5,565,000	6,163,000	3,866,000

The total receipts of Winter and Spring Wheat at primary markets from June 27 to Aug. 15, with comparisons:

	Winter.	Spring.	Total.
1894	12,938,000	10,993,000	23,931,000
1893	11,181,000	10,050,000	21,235,000
1892	21,863,000	17,148,000	39,016,000
1891	11,181,000	14,176,000	25,357,000
1890	19,440,000	14,625,000	34,065,000
1889	13,520,000	17,859,000	31,379,000
1888	14,400,000	14,856,000	29,256,000
1887	14,581,000	13,702,000	28,283,000
1886	8,617,000	18,240,000	26,857,000
1885	7,839,000	7,348,000	15,187,000

ILLINOIS CROPS.

SPRINGFIELD, Aug. 18.—The Illinois Department of Agriculture has compiled the following data in regard to the Wheat and Oat crops and the condition of Corn, from the reports of correspondents dated Aug. 1:

The area seeded to Wheat this year (Spring and Winter) was 1,856,000 acres, of which 8 per cent was winter killed or destroyed by floods, leaving 1,425,000 acres for harvest The average yield per acre was 14 bu, a little more than the ten-year average, which gave a total yield of 20,170,0 0 bu, an increase of 4,0C0,0 0 bu over the 1893 crop. The smallest Oat area reported for a number of years is reported this year, but 67,000 acres. This was caused by the late, wet spring, which prevented sowing. The average yield per acre was 32 bu, giving a total yield of 101,720,000 bu.

The data in reports show a deficiency of 2 per cent in the area devoted to Corn this season as compared with 1893, there being 7,817,000 acres reported.

THE WEATHER CONDITIONS.

Rains heavy and general all over the entire West, even Manitoba getting a drenching Rains lighter in Ohio Valley than elsewhere, but general, and it is raining in several localities here. Rainfall, 2.10 inches; Keokuk, Iowa, .98; Kansas City, 2.38; Springfield, Mo., .88; Springfield, Ill., .48. Rains Manitoba range from .12 to .42.

The indications are for continued showers over greater portion of entire interior. Warmer in lake region and Ohio Valley Cooler over Eastern Rocky Mountain slope. Depression covers Mississippi Valley and West.

ITEMS OF GENERAL INTEREST.

The Missouri Pacific reports for June $3,232,653 gross earnings, an increase of $28,327, and $692,963 net earnings, a decrease of $7,980.

In the Rogers Locomotive Works in Paterson, N J, a reduction of 10 per cent in wages, effective Sept. 1, was announced, Wednesday Twelve hundred men are affected.

The salmon pack on the Fraser River this year is practically a failure The total of the season to date is 68,94 cases, less than half that for the same period last year, while the run is not yet complete. One salmon run is believed to be almost over.

A message from Argyle, Minn., to a Chicago commission man, Thursday, said: "The blades are appearing on your farm and a few rods to turn into the shock, one you need not be ashamed of. The rust cry through the Chicago papers is not near as bad as they make out."

Peterson, Lindall & Co identified the American Steel Foundries Company have secured a controlling interest in the Commonwealth Steel Company, a competitor, which operates a Steel casting plant at Granite City, Ill. This company has been doing considerable business away from the Steel Foundries Company.

The drouth has been so severe in Germany that not only have several canals been almost entirely destroyed, but the Potato crop, which amounts to 50,000,0 0 tons annually, is seriously threatened Water is low in rivers and canals that interior transportation, which is largely by these channels, is almost at a standstill.

The following statement was made at the New York offices of the American Steel and Wire Company, on Wednesday: "The new wire rod prices products went into effect, Tuesday. The reductions in the various grades average about $5 00 a ton. We have sent special circulars to our agents notifying them of the reduction."

It is understood that the necessary legal papers in connection with the deal whereby a syndicate, headed by the Illinois Trust Co., agrees to furnish $8,0 0,000 for the purchase of preferred stock of the Cincinnati, Hamilton and Dayton Railroad Company have been signed. It is understood, also, that the preferred stock will be retired in due time and another preferred stock issued in its place

There have been listed on the New York Stock Exchange $1,0 0,0 0 Cleveland, Cincinnati, Chicago and St. Louis general mortgage 4 per cent bonds of 1993. $1,250,000 Southern Railway first consolidated mortgage 5 per cent bonds of 1994, and Chicago, Burlington and Quincy Railroad Company, Illinois division, 4 per cent registered bonds, into which coupon bonds of this issue heretofore listed may be exchanged.

A Chicago commission man who was down in Southern Indiana over Sunday, said: "They have a big Corn crop there. The ears are about a foot and a half long and they keep very deep all down over. The roads are dusty, but as you get into the country the Corn is much larger than appears from the railroad, and the crop is not suffering for rain, although it would be beneficial. The farmers there entertain no fear of frost."

It is stated officially that, despite the dull times in shipbuilding, the William Cramp & Sons Ship and Engine Building Company has been able up to date to carry out the plan mapped out under the recent reorganization for gradually liquidating the liabilities of the company, and that there is every indication that the management will continue to make substantial funds disposed from time to time In view of this provision, however, and of the discouraging state of business, the management says stockholders must not look forward to any distribution of profits for some time to come.

The Winnipeg correspondent of the *Northwestern Miller*, writing under date of Aug 15, says: "Wheat cutting has begun in this country. A number of fields are already down at various points in Manitoba and a few points in Assiniboia report fields ready. Of course, these are isolated cases and the general estimate that cutting will not be in full sense of the phrase. Cutting will not be general until the latter end of next week, if then. The weather will have to be exceptionally favorable to bring on the harvest by Aug. 25. At the present time it is exceptionally favorable. The ripening process is going on rapidly and each day increases the assurance that the harvest will be a splendid one. Correspondents are very beginning to predict that the average will be at least 20 bu to the acre for the whole Wheat area, and some place the amount much higher than this. There are reports of red rust in the early-sown fields, but these reports are limited to a small number of districts and are not of a character to cause any alarm. The total serious damage will be done. There was damage by hail in one or two districts last week."

DAILY MOVEMENT OF GRAIN AND PRODUCE

The following were the Receipts and Shipments of Flour, Grain and Produce for the day 24 hours as compared with the same time last year

Articles.	Receipts.		Shipments.

ITEMS OF GENERAL INTEREST.

New York Exchange 15c discount.

Documentary Sterling steady at 484¼.

Chicago Bank Clearings to-day, $22,709,169.

Continental Wheat stocks on the fourth page.

About 165,000 pcs of Sides were shipped South during the past week.

The packing of Chicago since March 1 shows a decrease of 540,000 Hogs.

Shippers purchased about 23½ per cent of the Hogs received the past week.

The shipments of Hams from Chicago for the past week were equal to 9,600 tcs.

About equal to 11,600 tcs of Lard were shipped from Chicago during the past week.

Aggregate receipts of Live Stock at Chicago for the past week were about 230,000 head.

Australian Wheat shipments for the week 704,000 bu, compared with 296,000 bu last week.

About 585 car loads of Hog Products were forwarded from Chicago during the past week.

Ten packers purchased 7,200 Hogs to-day; shippers 1,000; left over, 2,001. Market closed weak.

Minneapolis millers estimate the Wheat crop of the three Northwestern States at 100,000,000 to 125,000,000 bu

Chicago Bank Clearings for the week were $162,682,395, against $157 840,269 for the corresponding week in 1903.

The shipments of Flour from Philadelphia yesterday were reported at 50,000 brls—should have been 25,000 brls.

Reported that 16,000 bu Wheat, 32,000 bu Corn and 25,000 bu Oats were taken at the seaboard today for export.

Estimated receipts of Hogs at Chicago for next week 105,000. Receipts for the corresponding week last year were 118,333.

Estimated receipts for Monday: Wheat 130 cars; Corn, 157 cars; Oats, 372 cars; Rye, 7 cars; Barley, 13 cars; Hogs, 27,000.

Local Securities were slow and irregular. Quaker Oats preferred and Oak Park Elevated advanced ½, and Oak Park common lost ½.

A Winnipeg dispatch, Friday, said: "Some rust reports; extent and ultimate effect problematical. Am inclined to think somewhat serious."

The receipts of Wheat at Minneapolis and Duluth for the past week were 834 cars, compared with 922 cars one week ago, and 1,126 cars one year ago.

Cotton in New York was excited and closed 26 points higher on August, and 8@12 points up on other months. Trading was active, with "shorts" buying.

Stocks in New York were weaker and closed ⅛ to ⅞ lower on Railway shares, 1⅜ to 2½ off on Tractions, and ¼ to ¾ lower on Industrials. Sales 262,800 shares.

The stock of Flax Seed at Minneapolis on Aug. 20 was reported at 62,000 bu, against 67,000 bu for the week previous—a decrease of 5,000 bu. Stock last year, 733,722 bu.

Broomhall estimates the world's shipments of Breadstuffs this week at 8,000,000 bu, and predicts there will be but a moderate change in the quantity on ocean passage.

English visible supply of Wheat decreased 323,000 bu, compared with a decrease of 1034,000 bu last week, and an increase of 375,000 bu the corresponding week last year.

Arrivals of Breadstuffs in the United Kingdom for the week were about 4,000,000 bu, compared with 3,800,000 bu last week, and 4,368,000 bu for the corresponding week in 1903.

The receipts of Hogs at the leading Western markets during the past week were about 275,000, against 368,000 the previous week, and 293,000 for the corresponding time in 1903.

Included in the shipments of Meats from Chicago for the past week were about 183,000 pcs of Hams, 84,000 pcs of Shoulders and 214,000 pcs of Sides. For the corresponding time last year the shipments were about 279,000 pcs of Hams, 72,000 pcs of Shoulders and 215,000 pcs of Sides.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	2,372,000	1901	3,097,000
1903	2,912 000	1900	2,996,000
1902	2,952 000	1899	3,137,000

The receipts of Flour and Grain at Chicago for the past week were equal to 5,915,000 bu and the shipments were equal to 3,821,000 bu. For the corresponding week in 1903 the receipts were equal to 4,901,000 bu, and the shipments to 4 690,000 bu. These figures are supposed to include the through shipments of Flour

The weekly statement of the New York banks shows the following changes: Increases—Reserves on all deposits, $981,600; Reserves, less United States deposits, $582,775; Loans, $2,683,000; Specie, $2,321,800; Deposits, $2,438,000. Decreases—Legal Tenders, $833,700; Circulation, 678,600. Banks hold $56,614,250 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 126,000 brls of Flour and 179,000 bu Wheat, against 107,000 brls of Flour and 300,000 bu of Wheat the preceding week, an increase of 19,000 brls of Flour and a decrease of 121,000 bu of Wheat. For the corresponding week last year the exports were 230,000 brls of Flour and 1,657,000 bu of Wheat.

The Duluth *Commercial Record* says: "There are ten counties in Southern Minnesota—Blue Earth, Brown, Cottonwood, Fairbault, Jackson, Martin, Meeker, Renville, Wright and Sibley—each with a Wheat area in excess of 100,000 acres and a Wheat yield of 15 to 40 bu. In fact, the Wheat area of these ten counties is close to 1,300,000 acres and the average yield should be 16 to 18 bu. In some parts of that country they never had a crop equal to the present one. If this is not enough, put in Stearns with nearly 200,000 acres at 15 to 20 bu, and Rice, LeSueur, Nicolett, Goodhue, Watauwan, McLeod, Waseau and Scott, each with 60,000 to 90,000 acres and equally good yields. Then Lac Qui Parle, Yellow Medicine, Swift, Lyon and Lincoln, with fair yields, and none less than 100,000 acres each."

The Chicago *Inter Ocean* says: "A little history on the Wheat crop of the Northwest is not out of place at the present, owing to the calamitous reports coming from there. The Northwestern people in some instances have the crop down to 100,000,000 bu. The milling capacity of the Northwest is about 150,000,000 bu. In 1894, just ten years ago, the three States only raised 86,000,000 bu. The average yield per acre of the three Northwestern States ranged from 12 to 15 bu. The talk of small yields this year is no worse than the threshing returns last year. Then thirteen counties in North Dakota had yields under 10 bu to the acre. The lowest was 4 bu, two averaged 5 bu, one averaged 6, three averaged 7, four went 9, two produced 9, and 8 showed 10 bu."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market unsettled owing to the late nervousness in Wheat. Prices are firm; best Patents held at $6 50. Foreigners bidding is advance at a time, but not keeping pace with rise on this side

WINTER WHEAT—Choice Wheat was in good demand, buyers perhaps not quite so anxious to purchase, and prices show advances of about 1c but was reported relatively not so strong as the futures. Poor Wheat of the different grades was slow and dragging. No. 2 Red in store was quotably $1 10@1 12¼, and fresh arrivals free on board sold at $1 10@1 13 depending some on the quality. No 3 Red fresh receipts free on board sold at $1 09@1 12. No. 4 Red fresh receipts free on board sold at 93c for ordinary, to $1 00@1 03 for good, and $1 05@1 08 for choice. No Grade Red sold at $1 00. No 2 Hard fresh receipts sold at $1 00@1 12½. No. 3 Hard sold at $1 05@1 10, and No. 4 Hard at $1 00.

SPRING WHEAT—Was quiet to-day. Very little arriving and market steady. No. 1 Northern nominally $1 15@1 18. No. 2 Northern nominally about $1 10@1 12. No. 3 Spring nominally $1 00@1 05. No 4 Spring quotably 80c@$1 02 for poor to good

REGULAR WHEAT—An excited, choppy market with a heavy trade, still higher prices being established, new September selling to $1 11½, December $1 13⅝, and May $1 16¼. Realizing and profit taking followed the rise, but the close showed gains of 1c to 1¾c. The early bulge at Minneapolis, rains in the Northwest and strong cables started renewed buying by "bull" interests, large lines liquidated yesterday being reinstated. Messages from the Northwest were numerous and many contradictory, but the majority claimed considerable damage. Crop expert at Carberry, Manitoba, wired "Important sections rusting badly, commenced cutting; heads large but chaffy; yield will be smaller than general expectations." New York, however, wired that Montreal, Toronto and Winnipeg all denied the damage claims in the Canadian Northwest. Map showed temperatures in Manitoba 34@54 degrees, with rains in Western sections; cloudy, with stationary temperatures in Northwest. Showers were predicted for the Dakotas; fair Sunday. The Northwest was the most conspicuous seller on the advance and Minneapolis at one time broke equal to 6½c and was mainly responsible for the reaction here. Liverpool quoted spot ½@1½d higher and futures ½d higher. Cargoes on passage and off coast held 3d higher. London advanced 2@2¼c. Paris was up ¾@1¼c and Berlin ½c higher. There was more talk of a smaller movement in Kansas but primary receipts this week were 5,812,000 bu, against 5,573,000 bu last week and 4,179,000 bu one year ago. Local weekly receipts were 1,238,000 bu and shipments 356,000 bu. Receipts in the Northwest this week 834 cars, against 922 cars one week ago and 1,126 cars in 1903. *Broomhall* estimated the world's shipments at 8,000,000 bu and predicted a moderate change in the quantity afloat. Arrivals in the United Kingdom this week were 4,000,000 bu, against 3,800,000 bu last week and 4,368,000 bu one year ago. Australian shipments this week were larger at 704,000 bu. English farmers' deliveries were 152,000 bu and price 1c higher than a week ago. Kansas City and St. Louis received 402,000 bu, against 282,000 bu one year ago. Exports were small. The English visible supply decreased 323 000 bu, against 375,000 bu increase same week in 1903. Receipts at Duluth 43 cars and at Minneapolis 135 cars, a total of 178 cars, against 54 cars yesterday, 178 cars a week ago, and 226 cars last year. Local receipts included 108 cars Winter, 3 Spring and 1 car mixed, a total of 112 cars, against 89 cars last year. Included in the above were 5 cars of contract grade. There was none taken from unlicensed elevators. The estimated receipts for Monday are 139 cars. Withdrawals to-day were 3,600 bu. Receipts at Western points were 797,111 bu, against 618,819 last year. At Eastern points 62,616 bu, against 186,395 bu last year. Shipments from Western points were 467,282 bu, against 337,692 last year, and from Eastern points 31,949 bu, against 322 145 last year. Shipments of Flour were 10,577 brls. Exports of Wheat in Flour were equal to 19,545 bu

Future Deliveries of Regular Wheat—Active and higher.

SEPTEMBER—Old Style—Sold at $1 10½@1 12¾. Opened with sales at $1 12, sold to $1 12¾, to $1 11¾, to $1 12, to $1 10½, to $1 12¼, and closed nominally $1 12¼

SEPTEMBER—New Style—Sold at $1 08¾@1 11½. Opened with sales at $1 11 to $1 10½, sold to $1 10, to $1 11, to $1 10⅝, to $1 11½, to $1 10⅝, to $1 11¼, to $1 08¾, to $1 10½, to $1 10⅛, to $1 10⅝, and closed at $1 10⅝

DECEMBER—Sold at $1 10⅞@1 13⅝. Opened at $1 13 to $1 12¼, sold to $1 12½, to $1 13, to $1 12, to $1 13, to $1 12⅞, to $1 13¼, to $1 12½, to $1 13⅝, to $1 12½, to $1 13, to $1 10⅞, to $1 12½, to $1 11¼, to $1 12¾, to $1 12, to $1 12⅝ and closed at $1 12⅝

MAY—Sold at $1 14@1 16¼. Opened with sales at $1 14¾ to $1 16, sold to $1 16¼, to $1 15, to $1 15⅝, to $1 15, to $1 16¼, to $1 15, to $1 16, to $1 15, to $1 15¾, to $1 14, to $1 15⅝, to $1 14⅞, to $1 15⅝, to $1 15, to $1 15¾, and closed at $1 15¾

CORN—Was active, with heavy trade the first hour, the feeling being stronger and the close ⅝c to 1@1⅛c higher than yesterday. Commission houses and pit "shorts" were active on the buying side at the start, while the offerings were moderate. There was frost talk, Wheat was up sharply and foreign advices were favorable to holders. May was especially wild at the opening, trades varying 1c at the same time. Professionals were prominent on the "long" side, while the selling was widely scattered. Map showed heavy rains in Illinois, Iowa, Missouri and Ohio Valleys and showers in Nebraska and unsettled, showery weather was predicted for the Corn belt, but the improved outlook failed to weaken the market. *Broomhall* cabled there was great strength in spot Corn with an advance of 1s in American mixed and a good speculative demand for futures which were up ¼@½d in face of decline here yesterday. *Broomhall* cabled that Roumania had prohibited the export of all fodder crops, which includes Barley and Rye. Southwestern markets were stronger. Country acceptances while more moderate were estimated at 500,000 bu. Receipts 160 cars, last year 278 cars, and 157 cars estimated for Monday. Local weekly receipts 985,000 bu, and shipments 1,567,000 bu. Primary receipts this week 1,767,000 bu, against 2,106,000 bu last week and 2,278,000 bu one year ago. Shipping demand moderate and sales 100,600 bu. Exports 23,200 bu. Car lots in fair demand and moderate supply. Prices firm. No. 2 closed at 54¼c and No. 2 Yellow at 55¼c. No. 3 closed at 54c. No. 3 Yellow sold at 55¼@56½c and closed at 53½c. No. 4 sold at 54@55¼c.

Corn by sample—There was a fair demand and not a great deal on sale. Feeling, however, was easier and prices unchanged to ½c lower. Sales on track and free on board: No. 4 sold at 53@56½c. No. 3 at 54½@56c. No. 3 Yellow at 56@56½c. No. 2 at 51⅝@55½c. No. 2 Yellow at 57c. No. 3 White at 55c. Billed through: No. 4 at 53@55c. No. 3 at 53½@54¾c. No. 3 Yellow at 55@55½c. No. 2 at 53¾c. No. 2 Yellow at 55¼@55½c. No. 3 White at 53½@53¾c. No. 2 White at 53½@53¾c

Future Deliveries of No. 2 Corn—Active and stronger and closed ⅝c to 1@1⅛c higher.

AUGUST—Inactive. Sold at 53½c and closed nominally at 53⅝c.

SEPTEMBER—Sold at 53⅝@54⅛c. Opened at 53⅞c to 54⅛c, and sold at 53⅞c, to 54c, to 53¾c, to 54¼c, to 53⅝c, to 54⅛c, to 53⅞c, to 54c; closed 54c sellers.

DECEMBER—Sold at 52⅞@53¾c. Opened at 52⅞c to 53¾c, being irregular, and sold at 53½c, to 53⅝c, to 53¼c, to 53½c, to 53⅛c, to 53⅝c, to 53⅛c, to 53½c, to 53⅛c, to 53⅜@53½c, to 53⅝c, closed 53⅝c sellers.

MAY—Sold at 52@53c. Opened at 52c to 53c, and sold 52¾c, to 53c, to 52½, to 52¾c, to 52⅜c, to 52⅞c, to 52⅜c, to 52¼@52⅞c, to 52½c, to 52⅝@52¾c, and closed at 52⅝@52¾c

OATS—Had ½c range and closed steady at the same prices as yesterday to ⅛c higher, the latter on May. There was moderate trading and the market is on a healthy basis. The buying was scattered and the strength came mainly from Wheat. The selling against cash stuff. Arrivals 398 cars with 118 cars of Standard. Estimates for Monday 372 cars. Withdrawals 25,156 bu and seaboard clearances 26,759 bu. Cash sales 25,000 bu. Car lots to go to store were ⅛c lower. No. 3 White sold at 34¼@35½c. Standard at 35½@35¾c. No. 2 White at 35¼c. Standard in store closed at 34@34⅛c

Oats by sample were steady to ½c lower. Supplies were liberal and taken by local buyers. Sales on track and free on board: No. 4 White sold at 34@35c. No. 3 White at 31½@35½c. Standard at 35@36c. No. 2 at 32@32¼c. No. 2 White at 35½@35¾c. Billed through: No. 3 White at 34½@35½c. Standard at 34½@35¼c. No. 2 at 32c. No. 2 White at 35@35½c. At the river: No. 4 White at 32½@33½c. No. 3 White at 33½@34¼c. Standard at 34@34½c. No. 2 White at at 31c.

Future Deliveries of Contract Oats—Were higher early and lost the advance.

AUGUST—Closed at 34c

SEPTEMBER—Fair trading. Sold at 34@34⅛c. Opened at 34¼c to 34⅜c, sold to 34c and closed there

DECEMBER—Sold at 35⅛@35⅝c. Opened at 35¼c to 35⅝c, sold to 35⅜c, to 35¼c, to 35¼c at close.

MAY—Active. Sold at 37⅜@37⅞c. Opened at 37½@37⅝c, sold to 37⅞c, to 37⅜c, to 37½c at close.

RYE—Was firm and 1c higher. Demand fair and influenced by higher prices for Wheat operators were compelled to bid up for Rye. There were 13 cars received. No withdrawals from store here and stocks being steadily added to. No export clearances from New York. No. 2 sold to go to store at 76c, free on board at 76c and billed through at 75c. No Grade sold at 72c.

Future Deliveries of No. 2 Rye—Firmer and 1c higher. August nominally 74½c. September sold at 75c. December sold 76¾c and closed 76¾c asked. May 80c asked.

BARLEY—The market again presented firmness. All grades were salable. Car lot offerings small, and some Barley was again sold to arrive but not so much as yesterday. Late advanced prices obtainable all around. Five cars inspected in; arrivals remain small. It is said Barley has been very generally stacked. This is perfectly proper; it will insure a better quality, though it may make the early movement a little slow. Choice Old Screenings sold at 42c or 1c above what was bid yesterday. Barley, old musty sold at 40c, and some new feed at 42c. New, fair to good malting, depending on color and weight quotable at 45@50c; choice 51@52c, and very fine up to 55c.

SEEDS—There was some trading in cash Timothy, new and old, but nothing else was noted in way of trade. Timothy weak with some evidences of easier prices. Flax advanced, nominally, and the rest were steady.

Timothy—Was dull and weak. Old contract sold at $2 80 or at 10c below recent quotation. There was some desire to realize. Some old cash also came out and part sold at $2 50@2 62½. There were a couple of cars of new Seed offered. New Seed without quotable change from late prices, but demand small and market dull. Nothing was done in futures. September delivery was $3 05 sellers and $3 00 bid. October nominally about $2 90. Country lots of new Seed quotably $2 70@2 85 for fair to good, choice to fancy $2 90 to possibly a shade over and dark or dirty about $2 50@2 65 depending on quality.

Flax—There was a nominal advance of ½@1c. The market remains without business. So far as could be observed it remains without offerings. Advance purely due to higher quotations from the Northwest. No local movement reported. Minneapolis got 1 car and Duluth 10 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 24½. No 1 was $1 17½ bid. Rejected quotable at $1 13@1 17, depending on quality. September nominally $1 17½.

Clover—Nothing was learned about the market. It was neglected, and could not be quoted otherwise than unchanged. October delivery nominally $12 00. Contract spot Seed was quotably about $11 60@11 75. Country lots, common to choice, $8 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00, poor, cleaned out of Timothy, very foul, lower. Fair to good $9 75@10 75

HOG PRODUCTS—Trade in Hog Products was on a moderate scale, and the feeling was unsettled. Outside orders were light, and local trading was moderate. Offerings were fair, and the demand was only moderate. Hogs were in fair supply, and prices a trifle higher. Only a moderate supply estimated for the coming week. Receipts at the leading Western packing points estimated at 33,300 compared with 28,000 one year ago. Foreign markets were quiet, and Lard was quoted 3d lower. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 28 cars. Shipments were moderate—of Lard and Meats about 96 cars. Speculative trading was mainly in transferring contracts from September to October at 5@7½c difference on Mess Pork, 7½@10c on Lard and 5@7½c on Short Rib Sides. Prices ruled irregular following the changes in Wheat to some extent—and the market closed steady at nearly outside figures. Shipping demand was fair, and offerings were not very large. Sales were fair, and prices well maintained

Mess Pork—A fair trade was reported in Mess Pork, and the feeling was somewhat unsettled. Demand was moderate, and offerings were fair. Prices ruled irregular. Sold slowly early at 2½@5c advance, but a little pressure to sell caused a reduction of 12½@15c. Toward the close the feeling was stronger, and prices rallied 10@12½c and closed steady. Trading mainly local. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $11 80@11 85

SEPTEMBER—Called for moderately, and offerings were fair. Sales were made at $11 67½@11 82½. Opened at $11 77½, sold to $11 82½, to $11 67½ to $11 80 and closed steady

OCTOBER—In fair request, and offerings were moderately large. Sales were made at $11 75@11 90. Opened at $11 80, sold to $11 90, to $11 87½ to $11 90, to $11 75, to $11 87½, and closed steady

JANUARY—Demand rather light and offerings were moderate. Sales were made at $13 00@13 17½. Opened at $13 17½, sold to $13 00, to $13 12½, and closed steady.

Lard—Trade was moderate in the Lard market and the feeling was steadier. Offerings were not very large, and the demand was only fair. Prices were about 2½@5c higher, and the market closed steady at medium figures. Foreign advices less favorable to holders. Demand on shipping account was reported moderate with no particular pressure to sell. Cash lots quotable at $6 85@6 87½. Loose lots in fair request with limited offerings. Prices steady at about 50c discount on October figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 37½@6 50. Neutral in fair demand, with moderate offerings. Prices quotably higher at $7 87½@8 00 for No. 1, and $7 37½@7 50 for No 2

SEPTEMBER—In moderate request and offerings were not very large. Sales were made at $6 87½@6 92½. Opened at $6 87½, sold to $6 92½, to $6 87½, to $6 90 and closed steady

OCTOBER—Offerings were fair and the demand was moderate. Sales were made at $6 97½@7 02½. Opened at $6 97½, sold to $7 02½, to $6 97½, to $6 97½@7 00 and closed steady

DECEMBER—Quiet and steady, with small sales at $6 92½

JANUARY—In fair demand and offerings were moderate. Sales were made at $7 05@7 10. Opened at $7 05, sold to $7 10 and closed steady

Short Rib Sides—A moderate trade was reported in Short Rib Sides and the feeling was unsettled. Offerings were rather free, and the demand was fair. Prices ruled 2½@5c higher early, then receded 7½@10c, and rallied again 2½@5c, and the market closed steady. Trading mainly local. Shipping demand was light, and offerings were somewhat limited. Cash lots quotable at $7 37½@7 50 according to weight

SEPTEMBER—In rather good request, and offerings were fair. Sales were made at $7 40@7 50. Opened at $7 45, sold to $7 47½@7 50, to $7 40, to $7 45, and closed steady

OCTOBER—Offerings were fair, and the demand was moderately active. Sales ranged at $7 47½@7 55. Opened at $7 52½, sold to $7 55 to $7 47½@7 50 to $7 52½ and closed steady

JANUARY—Demand rather light and offerings were moderate. Sales were made at $6 82½@6 87½. Opened at $6 87½, sold to $6 82½, to $6 87½ and closed steady.

Other Meats—Trade was fairly active, and mainly on domestic account. Exporters bought sparingly. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices were unchanged. Pickled Meats in fair request, with only moderate offerings, and prices ruled steady. Dry Salted Meats were in good demand, with moderate offerings, and prices well supported. Smoked Meats called for moderately, and prices well supported.

GREEN—Hams, av 10@12 lbs, 9⅝@9¾c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9¾c; 18@20 lbs, 9¾@10c; Skinned Hams, 10⅜@10¾c, Shoulders, 6⅞@7c; Picnic Hams, 7¼@7½c, Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c; 12@14 lbs, 9¾@9⅞c, 14@16 lbs, 9⅝@9¾c cash; 9⅝@9¾c August, 18@20 lbs, 10@10¼c, Skinned Hams 11¼@11⅜c cash, 11¼@11⅜c August, Shoulders 7½@7¾c Picnic Hams 7⅝@7¾c Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7⅜@7½c. Short Fat Backs, 6¼@7⅜c; Short Clear Backs, 8¼@8¾c, Clear Bellies, 8@9c. Rib Bellies, 7¾@8¾c. Extra Short Rib Sides, 7¼@7⅜c. Extra Short Clear Sides 7¼@7⅜c. Rough Sides, 7⅜@7½c. Plates 5¾@5⅞c. Jowl Butts, 5@5⅛c. EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10½c; Cumberland Sides, 9@9¼c; Long Clear Sides, 9@9¼c; Extra Long Clear Sides, 8@8¼c; Short Clear Sides, 8@8¼c. SMOKED—*loose*—Hams 11¼@11¾c, Skinned Hams, 12¼@12¾c; Shoulders, 8⅜@9c, Picnic Hams, 9@9⅛c. Short Rib Sides, 7¾@7⅞c, Rough Sides, 7¾@7⅞c; Short Clear Sides, 8@8¼c; Extra Short Clear Sides 7½@7⅝c; Breakfast Bacon, 11½@12c

Sales were: ON TRACK—Wheat—1 car at $6 00. Oat—1 car at $5 50.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, August 19, 1904

The money market is easy everywhere, with the demand beginning to pick up slightly, about the same as heretofore, most of the loans being at 4@5 per cent on call, with some down to 4 per cent. Time money brings from 4½ to 5 per cent. Commercial paper brokers say there is no change in the general situation as there are increased offerings of paper, and business interests are moving cautiously, there being enough demand for all the paper supply in New York; rates were easy at 5½ to 6 per cent on the Stock Exchange. Time money was plentiful and easy at 2½ per cent, the latter for 4 months' time, and 3 to 4 running up to 7 and 8 months. Sixty per cent was secured. Mercantile paper brought 4 per cent.

New York exchange was unsettled at 25c premium to the discount. The close was at 15c discount.

Foreign exchange was easier, with supply of bankers' bills. The Sabasin-Rothschild report showed but a certain amount, and bankers who can manage to hold off are doing so. Indications point to increased offerings of commercial bills in the near future. The high rates for gold seem to have attracted a fair amount of bankers to put out fresh lines. Shippers' 60-day documentary sterling bills on London ranged at 483¼ to 483½ and closed at the latter.

Within a New York averaged higher. The Government crop report was "bullish." The market has been overbought on an alarming scale, and a reaction of moderate extent is being difficult to do without causing an advance. On the rallies, fresh offers to accept profits. In the general list a moderate advance was made, and in some specialties 1 point to 1 to 2 points for the week.

Local Securities were stronger a good part of the week. The feature was the advance in Big Six preferred and Canada Southern, the former to higher prices on record. Very few of these stocks are on the market and they are being bought by investors and put away. Earnings of both companies are satisfactory and their future prospects are regarded as good. Business in the other industrials is moderate within a fair range. South Side issues suffered a fair decline. Gas stocks were actively traded in and the market shows prominent strength.

Stocks in New York were strong and averaged higher, despite an active realizing movement. Advance in the Grain markets on unfavorable crop news and prospects of a price war between the leading steel interests were "bearish" influences and made the "bear" interest in stocks increase, and it had several innings. Prices of Wire products were cut $3 to $11 00 per ton by the American Steel and Wire Company, and the reduction will result in other lines of Steel and Iron were likely. This was based on the refusal of the Lackawanna Steel Company to enter the Beam pool, giving as a reason that there was too much underselling. Crop news from the West was not such as to encourage operators in the West deemed favorable to railroad interests and they took the selling side, resulting on Monday in a decline of 1 to 2½ short lines. There was heavy selling of Steel shares, but all things considered they held well. Southwestern railway shares were bought freely and showed fair strength. The coal stocks are doing a good business and have excellent prospects, owing to the large Cotton crop, which will furnish a heavy tonnage. Many orders for winter commission houses are well supplied with funds at 4½ to 5 per cent. At the close prices on most of the list were slightly higher than the previous week. Total sales on the New York Stock Exchange for the week were 3,538,100 shares, against 2,601,000 shares the previous week, and 4,308,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Am. Sug. Ref. Co.	176,100	Lehigh Valley	29,600
Alton com	2,300	Peoples' Gas Co	7,800

The mercantile trade is developing more animation. Buyers were here from the East and Southwest, but there were not many in from the Northwest. Uncertainty over the Wheat crop situation in the latter section as well as in regard to Corn in the West, is curtailing purchases of interior distributors, and they are taking small lots, preferring to enlarge their supplies later in the season should conditions warrant it. Early goods jobbers and manufacturers have to contend with the prospects of an immense Cotton crop, which makes buyers timid about loading up too heavily, they fear that lower prices might come in Cotton goods. In the Pig Iron market production has decreased and stocks increased. The buying so active two weeks ago has been satisfied, and sales show a material reduction, buyers refusing to follow the advance. Finished material is having a fair sale. Specifications are coming in more freely, and jobbers report a fair business. Consumers of Pig Steel and wire products are 8s to $11 per ton lower. Sales of light Hardware are picking up, not only lists summer goods, but fall supplies are being taken. Reports from various sections throughout the West is moderate. Prices on general run of steam coals are easy, and small grades of anthracite are being shaded, due to increased production. Coal producing interests are discussing the advisability of curtailing production to prevent a further accumulation of stocks. The movement of lumber is increasing, owing to consumers and the interior distributors, and a firm feeling exists. In other lines, such as groceries, drugs, chemicals, paints and oils, a moderate distribution was reported, with no material alteration in values. Collections generally are fair.

COMMERCIAL.

Business in Commercial circles on the Chicago Board of Trade was active, the leading markets being broad and excited most of the week. The various speculative commodities were nervous and sensitive and fluctuated at times in prices of violent order. Receiving interests experienced a good demand for the various consignments, and shippers were favored with an increased number of orders. Crop news was the principal shaping influence in the Grain markets, and private information as to existing conditions in important growing sections of the country most sensational. The Government crop report was the feature, and the latest deliveries partici arly. Business will undoubtedly continue active during the balance of the summer months, and many opportunities will present themselves for profitable operations, however, in times like the present should keep their trades well margined.

Foreign crop news was to the main rather unfavorable this week. Reports from France indicated the Wheat yield was uncertain in the Northern districts, and the total crop variously estimated somewhat smaller than the 1903 production. The total Grain crops of Germany were estimated at 25 per cent short of last year, and in Roumania the Corn crop was placed at only 25@30 bushels per acre. Under the circumstances the Government will likely prohibit the exports of Oats and Barley as it has already done of Corn. A semi-official report placed the Wheat yield in Bulgaria at 50 per cent short of last year's large crop. The Corn crop, however, is below an average, and the outlook in Hungary very poor. Reports from Russia claimed the weather in the Southern districts was favorable and Wheat movement increasing.

Weather conditions in the United States and Canada continued favorable for crops. The private crop reports from the Spring Wheat belt decidedly unfavorable. The spread of the rust in North Dakota was the important consideration in the Wheat market, and harvesting was under full headway until threshing commenced. The Government weekly crop bulletin failed to confirm the claims of crop experts covering that section of the Northwest, and the total crop variously estimated on the statements forwarded to this market were for specific purposes. Corn is said to be making slow progress in many important sections, but the rather late week in October will be favorable, and no doubt been very beneficial. In the Central Missouri Valley Corn made good growth and is in promising condition. In Illinois, Indiana and Tennessee there was a marked deterioration in the condition of the crop, some in Indiana having been injured beyond recovery. In Iowa it has made satisfactory progress and in the Dakotas and portions of Western Southern States early Corn is being gathered. Cutting is in progress as far north as Southern Kansas. An excellent Oat crop is now assured, but harvesting was interfered with in the extreme Northern districts, where a good yield is indicated. In the Dakotas the crop is said to be backward and growing slowly.

The receipts were light from the farms and interior elevators was rather liberal the past week. Wheat and Oats were marketed freely and Corn moderately so. Shipping movements of Wheat were fair for the season. Through the Gulf and Southwest the arrivals of Wheat at terminal points were heavy, those at Kansas City and St. Louis being unusually large for the season of the year this time. Oats, too, were sold freely and weather conditions were most favorable for handling and hauling to market. The Corn movement was heavy and closely sold up. Shipping was fair to the West, the uncertain position of the new crop in important growing sections possibly tending to check the movement. Wheat is moving more freely on the Pacific Coast, and is being shipped to the northerly sections, where the yields were heavy. The movement of Grain Eastward was fair, but the export trade was confined to small lots sold. Bookings at the Atlantic coast from abroad were likewise small, the steady rise in values on this side no doubt interfering with business. Accordingly stocks of Grain in public elevators, as per the Secretary of the Chicago Board of Trade there was an increase in Wheat, Corn and Oats, and decrease in Rye and Barley. *Bradstreet's* reported a fair addition to the World's supply of Wheat, a reduction was reported in Corn and a moderate decrease in Oats.

There was a continuation of the activity lately noted in all the leading speculative markets on change this week. Wheat was easily the leader and the trade was of immense volume in all the deliveries. Higher prices were established and free buying was the dominating factor in both Wheat and Corn, and Oats sympathized with the upward trend of these cereals. Wheat got on new ground and the opening days witnessed unusual activity, the market being especially strong. Realizing and profit taking followed the rise, but the offerings were readily absorbed the liberal offerings fairly well. Corn receded on better crop conditions West. Crop advices were regarded as favorable, and the more important futures were bought on the theory they would advance with other Grains. Supplies are enlarging in all directions. Rye was quiet but firm, and the trade in Seller 1904 was the feature. Barley fairly active with more interest in the deferred deliveries. Prices were irregular and feeling rather unsettled, but values on the whole were firm. Packers were inclined to sell on the rallies, while the buying for outside account was of better character than of late, evidently on the theory that the Corn crop was likely to suffer from frosts. Provisions were in larger supply and prices easy. Foreign advices generally favorable for holders. Trading largely in September and October, with much better business in January contracts. Packing of the West for the week the same as last year; season, 2,140,000, against 2,995,000 in 1903.

A good trade was reported in cash Grain this week and prices were higher for most description. Demand was good and the offerings fair. Wheat was active and stronger under an urgent demand and prices advanced sharply. Millers and elevator interests were active competitors for the offerings. Corn, too, sold well, the receipts being smaller. Oats were in liberal supply and good request. Rye quiet and firmer. Seeds were quiet and little changed. Hay was steady. Demand moderate and offerings fair. Hog Products were in fair request, with the offerings not very large. Sales largely on account, but more to the line of inquiry from abroad. Prices were steady. Hogs were in larger supply and prices lower. Cattle and Sheep were steady.

FREIGHTS—Rates were is picking-up and rates sold steady. The tariff is as follows:

To	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	14½	23½	16	
New York	13½	13½	16½	16
Philadelphia	13½	13½	15½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

FLOUR—Flour rates are to be 17½c domestic and 16c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at sail east of Buffalo to New York are to be advanced Aug. 15 and be Sept. 1. Present rates are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are firm with a better demand, owing to prospects of better exports of feed stuffs. Rates on Grain are 4½d per bu from New York and 4d from Boston. Through rate on Wheat from Chicago to Liverpool is 26c per bu and Corn 5.65c. Flour 19c per 100 lbs and Provisions 35s per 100 lbs.

Local rates are easier with a slow demand for boats, at 1¾c on Wheat and ½c on Corn to Buffalo.

FLOUR—The Flour market was naturally very unsettled with Wheat making rapid strides it did the past week. Cloverleaf millers were quick to meet at the sharp advance in prices and pursued some hesitating tactics as of late, only taking such amounts as actual necessities required. The domestic inquiry, however, was better and buyers in the East were somewhat larger. Foreigners, too, are making more extensive inquiries, but the sharp advance in prices prevents sales being made on a wider scale for the present basis. Stocks of Flour locally are much smaller than customary at this season of the year, and this is pretty much the case in the country. Most of the Spring millers are large consumers of Flour ignored the crop damage claims as forwarded from the Northwest last week and kept out of the market, and now that the allotment of cars are the worst handicap received and prices still higher they are simply astonished. Millers in some instances are offering Flour with a little more freedom, but in most cases are asking prices which denote considerable orbitant. The Southwest reported large sales to go forward, part of which was for export and freight room was said to be engaged for large quantities for fall and winter. Foreign markets were strong and higher. The week closed strong at the following prices:

SPRING WHEAT FLOUR.

Dark, in barrels, pure	3 60@3 70
Dark, in sacks, pure	3 30@3 40

MILLSTUFFS—A good demand existed during the past week. The receipts have been larger, but demand enough to take up the offerings and a steady feeling prevails. Sales ranged from some $@$ on the good to choice Wheat, while the poor Wheat of the different grades, noticeably No. 3 Hard and No. 4 Hard, was not affected much if any by the advance in the better grades, and the former prices in some instances had to be accepted to sell. The advance was due to the sharp upturn in the speculative markets, due to bad crop reports coming in from the Northwest. The demand was quite active and chiefly speculative, the Wheat being bought to place in store and sold against the sales made to arrive. Bran was in fair demand and was mostly for choice lots. Wheat which could be easily cleaned into contract Wheat. Millers made moderate purchases; they acted rather reservedly in their operations, the crop reports being a cause for any increase, but the present prices are likely to start a freer movement. The quality of the Wheat was very good. The stock of No. 2 Red in store at Chicago was 100,000 bu, against 539,282 bu a week ago. For the week the receipts were 7.3 cars, against 726 cars the previous week. There were shipments from public elevators 3,276 bu, and from private warehouses 2,000 bu. Withdrawals were 2,000 and 97,700 bu. No. 2 Red in store ranged at $1 01¾ @1 03 up to $1 09¾@1 11⅝; fresh receipts free on board sold at $1 00¾@1 03, up to $1 08@1 11, and billed through sold at $1 01¾@1 07. No. 4 Red sold from on board $1 00@1 03, up to $1 08@1 11, and side for choice, and billed through at 99c. No. Grade Red sold at $1 02. No. 2 Hard fresh receipts free on board sold at $1 02@1 03, up to $1 09@1 10¾, and billed through at $1 02@1 05¾. No. 3 Hard fresh on board sold at 99@99½c, up to 99c@$1 11 outside price for very choice, with sales billed through and to arrive at 99c@$1 00. No. 4 Hard sold at 90@91c. No. 3 White sold at $1 00@1 05. No. 4 White sold at 85@96c, with choice at $1 01@1 04

SPRING WHEAT—Only a small business was transacted in the Spring Wheat market this week due to the very slight offerings. However, a few cars of new Wheat were received, these being the first of this year's crop and the movement likely to increase a great deal as the season advances. Present prices will certainly start the Wheat moving. The new Wheat graded No. 1 Northern, No. 2 Northern and No. 3. Receipts were 1,000 bu, and prices quotably 62@6c higher. The receipts for the week were 14 cars, against three cars last week. There were withdrawals from public elevators 13,000 bu, and from private warehouses 52 cars. No. 1 Northern was quotably $1 10@1 18, and No. 2 Northern ranged at $1 06@1 12. No. 3 Spring sold from on lake at 99@$1 05, to 99@$1 05 with a sale at $1 02. No. 4 Spring sold at 86@93c for fair to good up to $1 02@1 05 for choice.

REGULAR WHEAT—New high records were established in this market the past week, new September selling to $1 00¾, while December touched $1 12½ and May $1 14⅜. Extreme figures were well maintained though realizing and profit taking caused frequent breaks. The top figures reached, and the close showed gains anywhere from 8½c to 12½c. As was the case last week the chief "bull" motive was the reports from the Northwest on the crop outlook. Interests which liquidated their holdings the closing days of the week previous reinstated their lines upon the opening Monday, and as the week advanced the buying reached enormous proportions. Little attention was paid to current statistics, the movement and foreign demand being of secondary consideration in the rush to buy, the market being on the runaway order. Crop news from North Dakota was in much the same strain as that received from South Dakota last week, the spread of the rust being the all important topic. While there is little doubt but that many of the reports were exaggerated, traders apparently came to the conclusion that the damage had been quite extensive and "shorts" were run in on the advance. The following advices were a fair sample of the reports received and started the market on its upward career: Minneapolis—Special wire: "Condition in Red River Valley deplorable. Bulk of crop ten days to two weeks from harvest and much just in bloom. Didn't promise to be over ten bushels to acre run since rain. Forty per cent of the acreage of the State is in this Valley, and it is late, thin, short and rotten with rust; may make 10 bu or may go 5 bushels less. Only hope is in frost. Fields that look ripe are simply dead, with heads empty or half filled. Rust severe enough to cut crop at present in three-fourths of the State." Other reports were to the effect that the crop in Manitoba by rust, but from that on it was in good condition. A report from Winnipeg called attention to the fact that Wheat is being cut there in many localities under best conditions and that the damage reported was exaggerated. As the harvest reports from Winnipeg was sent out by one of the best and most conservative houses in the Canadian city, it was well received by the trade. The Northwest receipts were light and daily. "The movement of old Wheat is about over for the season, and the trade is now looking forward to and making preparations to handle the new crop. At the present writing the prospects are very encouraging for a large and good crop over Manitoba and the Canadian Northwest, but as it is a week to two weeks yet before the bulk of it will be ready to cut, we cannot say that it is entirely safe. Consider the prospect at writing good for 200,000,000 to 250,000,000 bu, and 50,000,000 more than last year." Foreign crop news received this week was more "bullish" than otherwise and also imparted strength to the market. Most of the news from the crop in the United Kingdom was reported good, but in the Northern sections of France reports were said so be uncertain, the crop being estimated at 25 per cent short of last year. The Corn Trade News of August 4 said: "The weather in France is again very warm, and harvest work is being pushed on actively under favorable conditions. Large areas have been cut, but little change in the situation, but on the whole reports indicate that the outturn of the Wheat crop will be even smaller than expected, although, as comparatively little has been threshed out as yet, it is hardly safe to form any definite opinion; in the south a deficit of 30 or 40 per cent is mentioned. Reports as to the quality of the new Wheat are not so uniformly favorable as to the progress and yield, there certainly many good samples, some even turning the scale at over 65 lbs to the bushel, but on the other hand, much Wheat from light lands is thin and shrivelled, and weighs very quickly." A prominent Grain firm in Germany estimated the total crops 25 per cent less than last year. The Belgian crop is estimated at 16,000,000 bu, or about the same as last year. The trade had three estimates on the world's Wheat crop, Broomhall estimating the shortage at 41,000,000 bu, Beerbohm 56,000,000 bu and Bartholomew 66,000,000 bu. These are preliminary estimates and are subject to revision after harvest. Comparative figures in bushels for this year and last are as follows:

	1904.	1903.
Broomhall	3,096,000,000	3,097,600,000
Beerbohm	2,917,000,000	3,097,600,000
Bartholomew	2,917,000,000	3,097,600,000

World's shipments last week were 8,804,000 bu —those from India being the largest, 2,080,000 bu—against 9,112,000 bu previous week and 8,552,000 bu one year ago. For the season to date they increased 496,000 bu and is now 40,136,000 bu, or 13,712,000 bu larger than a year ago. The visible supply increased 65,000 bu, compared with 561,000 bu decrease a week ago, 1,000,000 bu increase two weeks ago, against 12,538,000 bu in 1903 and 30,261,000 bu in 1902. Local public stocks decreased 92,000 bu and are now 916,000 bu, against 1,801,000 bu in 1903. Primary receipts were 1,000,000 bu, against 1,504,000 bu a year ago. Total stocks of Wheat in all positions at Chicago 2,188,000 bu, compared with 4,940,000 bu a year ago. Contract stocks of Wheat in Chicago decreased 100,276 bu, and now stand at 1,272,276 bu, compared with 539,282 bu a week ago and 1,153,884 bu a year ago. The world's available supply of Wheat is now 70,000,000 bu, compared with an increase of 2,427,000 bu a year ago. Around $1 12½ for December and $1 14⅜ for May there was quite general realizing and profit-taking, causing a fair former decline, but the close was firm at $1 12¾.

The Government weekly crop bulletin did not confirm the sensational claims noted above and was partially responsible for the change in sentiment which followed. The weather has been favorable for the Spring Wheat harvest, which was far advanced in the southern part of the Spring Wheat belt. The movement to primary markets is light on a liberal scale, and the export portions continued light and the foreign demand limited, all of which had an indirect "bearish" influence and had a tendency to restrict trade. On August 15 aggregate 23,631,000 bu, against 21,236,000 bu in 1903 and 32,016,000 bu in 1902. Exports were larger at 1,700,000 bu this week and total since July 1 are 3,300,000 bu, against 2,300,000 bu in 1903. Corn for the same time last year. Bookings at the Atlantic seaboard were practically nothing. Argentine shipments were fair at 1,064,000 bu and this total since July 1 is 2,712,000 bu, as against 55,502,000 bu one year ago. The visible there at present reported 2,004,000 bu, against 2,352,000 bu a week ago.

CORN—The Corn market was active and excited the past week, the trade being of immense volume. Feeling at times was greatly unsettled, but underneath the same there was a firm tone. It shows the September 4@8c lower, while December gained 2¾@2¾c and the May 1¾c. The situation the opening days was decidedly "bullish," and under an active buying movement prices were advanced rapidly. "Shorts" covered on the rise, and buying for outside accounts was a conspicuous feature. Local "long" interests added to their lines, and the advance was not checked until September touched 55¼c, December 55c, and the May 54½c. There were enough reports of damage to Corn to make the market sensitive, but the bulk of Nebraska, Illinois, and Indiana to suggest the danger of a liberal during crop movement. The

prospects of 2,400,000,000 bu of Aug. 1 as indicated by the Government report. There were numerous such messages, and they brought many buying orders with them. A party who had returned from a trip through Illinois, Missouri, and Kansas on the Santa Fe did not think there would be over half a crop along that line. Kansas City wired: "Dry weather in Kansas and Nebraska, causing alarming critical. Crop into and needing rain badly. Another Kansas City message said: "Some scattered reports of crop needing rain. Nothing general as yet. Monday's crop reports will no doubt think with continuation of this weather crop plaints will be numerous later on. The crop is in poor condition and deteriorating rapidly daily weather." Kansas City a so wired: "Drought reports coming from western Kansas on Corn which the crop has been best." A Cincinnati message said: "Corn crop very backward in southern Indiana. Corn in Indiana, Ohio, and Kentucky in miserable shape. Worse off than in the drouth year of 1901. No rain since July 5 here or eastern Indiana. Crop would be cut down one-half by coming messages, coupled with the strength in Wheat and adverse crop advices from the other side of the pond" influences Both the Liverpool and London markets were strong and higher, the latter closing at the highest prices of the season. Cash sales were strong, 1,000,000 bu changing hands. Receipts were 3,916,000 bu, against 4,605,000 bu the previous week, and 4,341,000 bu one year ago. Quantity in sight decreased 1,000,000 bu during the week and is now 296,000 bu or 3,544,000 bu less than a year ago. Visible showed a good-sized decrease. Stocks in store against 468,000 bu decrease one year ago. Primary receipts were 1,504,000 bu, against 5,429,000 bu in 1902. Local public stocks decreased 628,000 bu and are now 2,058,000 bu, compared with 3,364,000 bu same date in 1903. There was also a decrease in the total stocks of 1,000,000 bu, leaving the total at 2,070,000 bu, against 3,364,000 bu a year ago. Total stocks of Corn in all positions at Chicago 4,170,000 bu, against 5,342,000 bu a year ago. *Bradstreet's* world's available shows a decrease of 1,472,000 bu for the week, against a similar decrease a year ago. Another "bull" influence was the moderate local movement, receipts for the week being only 728 cars, against 1,209 cars last week and 1,221 cars one year ago. At 55c for December and 54¾c for the May there was quite general realizing and profit-taking, but after the former reacted to 54¾c and the latter to 54⅜c. The rains through the Corn belt were responsible for the change in sentiment, and shorts covered freely, the buying being in large quantities. The indifferent shipping demand and meagre call from abroad, considering the conditions existing there, was lended to have a depressing influence, but in some quarters the early country acceptances, 3,500,000 bu on Thursday and Friday, were also a "bear" factor. The Government weekly crop bulletin 100. was to a great extent disregarded, and the trade had in some instances to part with their holdings. The report stated that rains would prove bet. de generally in the Corn belt, over a large part of which, however, pastures and gardens were in excellent condition, the crop was suffering more or less seriously from drouth In the Central Missouri Valley the crop made good growth and is in promising condition, but in the Ohio and Tennessee there has been a marked deterioration in the condition of the crop, some in Indiana having been injured beyond recovery. In Iowa it has made satisfactory progress and a favorable outturn is promised. In the Southern States early Corn is being gathered. Cutting is in progress as far north as Southern Kansas. A fair crop assured. After the close the week being but 620,000 bu and since July 1, 3,773,000 bu, against 7,488,000 bu for the same period in 1903. Bookings on the coast were light, but from Argentine 1,064,000 bu. The contrary, were large, 2,184,000 bu, making 42,000 bu since January 1, as against 3,486,000 bu for the same period in 1903. The visible there is at present reported 2,004,000 bu, against 2,352,000 bu one week ago and 3,112,000 bu one year ago. There was quite a brisk call for car lots the past week, and little more doing in the way of cargoes Prices were higher on No. 2 Yellow and No. 3 quoted 3c and over September, while No. 2 was quotable at September prices No 2 Yellow commanded 1¾c premium, and No. 3 Yellow about 1¼c.

OATS—The Oat market during the past week was active and the highest prices of the season were recorded The advance was in sympathy with other Grains and on increased general activity in the speculative dealing, the trade being strong by "shorts." Interests centered large in May, it being the most popular delivery. The trade has been only a fair advance in July, which is now 3c over 35c The quality of the present crop is about the best ever raised. In all sections the yield per acre is heavy except around Northern Illinois, where it is somewhat below an average as 68 bu, and the crop is expected to weigh about lbs to the measured bu Oats everywhere are heavier this year, and this the bulls claim should be a big addition to forage which will have to feed supplies from America before the season is over. Roumania is discussing the prohibition of exports of Oats and Barley It is evident that the Russian delivery will be practically. The top prices were 35c for September 3½c for December, and 32c for May. The close was 35c and 32c September, 33¾@34c for December and 29¾@33½c for May. The gains for the week were 4@2¾c Most of the arrivals were taken by elevator interests, shipping demand being light. Receipts were 1,209 cars, as against 1,247 cars, compared with 2,234 cars the previous week and 1,183 cars last year. Export clearances were 141,000 bu, compared with 113,000 bu the previous week and 100,000 bu last year. Visible supply decreased 84,000 bu and are 960,000 bu. Private elevator stocks increased 413,000 bu and in all public stocks increased 1,479,000 bu, being 2,181,000 bu. Total stocks increased 2,732,000 bu and is 3,339,000 bu, against 6,002,000 bu last year.

RYE—A fair business was transacted and a slightly stronger feeling developed, prices advancing 4@4¾c. The market was quiet, influenced principally by the other Grain markets The offerings have been only moderate, operators being content to purchase in small lots as wanted, while the demand was better than it has been of late. The buying of cash has been principally speculative and for the purpose of placing in outside elevators, although some has been for milling. Quality of the Rye coming averages good, grading mostly No. 2, and there was a car which graded No. 1. The receipts for the week aggregated 2 cars, against 51 cars the previous week. There were withdrawn from public elevators none and from private warehouses none. The visible supply decreased 45,000 bu, and is now 1,000 bu, against 498,000 bu a year ago. Local stocks in store was 537,000 bu, and a year ago was 2,000 bu. No. 1 Rye sold at 71c. No. 2 fresh arrivals sold to go to store and free on board at 70¾@71c, to 74@75c, billed through at 69@73½c, and at river at 71@c. No. 3 fresh receipts sold at 64@67c, to arrive at 68c, and billed through existed. August nominally 4c under September, September sold at 72c, to 74¼c, back to 72½c, to 76c

...s sold at 72c. to 76½c., back to 74c. to 76c., closed at 80c bid and 82c asked, and later sold ...

...RLEY.—Of new Barley the arrivals increased ...ast week, were not large. Of old Barley, less ...ere on hand this got to be actually scarce. ...the only demand for old Barley was for ...ding purposes. Low grades for this purpose ...table and advanced. New Barley as a rule ...n and condition. It was better in this ...than first receipts for some years. It ...in most cases weight. It was mainly fine ...malting, now and then a car of choice, but ...fair. There also were occasional cars of ...ordinary. Of the receipts one car graded ...choice, but none of this grade for some ...there was very little of it in the last crop. ...ers were not much interested early, but later ...showed more concern. A good demand ap...for malting, a very steady to firm feeling ...ailed and the market cleaned up daily in good ...Small lots offered to arrive attracted no ...tion in particular. There were a few round ...ads offered, one lot of 10,000 bu choice for Sep...delivery sold at 52c. and finally 50,000 bu ...st and September sold at 55c. Most of the ...ers of early sold at 56c. for fair to good, ...ained but little at 42@44c. and choice at ...@52c. with very few above. Old Barley ...@43c. for Screening early, to salable at ...t the use. Low grades of feed Barley sold ...@46c., some now feed sold at 42@43c. ...weather was favorable for curing Barley, ...s during the week 43 cars, compared with ...e week before and 82 cars two weeks ago. ...ipts reported. No exports against 20,000 bu ...ame ago. Visible supply decreased 62,000 bu., ...as given as 829,000, against 891,000 bu a year ...Local stock was given as 60,313 bu, or like ...as the week before; a year ago there was ...

...EED.—It was quiet and dull in all line of Seed ...ly beginning to come in. No new Seed of ...kinds has got started. Clover was quotably ...g. Timothy and Flax both showed an easier ...ency. Late sowing Seeds have remained ...ve in demand.

Timothy—Dullness prevailed. There was only ...l business the past week. There also was ...ery feeling. Prices tended downward, and ...@3.50 bu. Offerings were not large enough to ...ing about any important change. Prices are ...considered high and this tended to check of...ings. Some seed was held back in expectation of ...which prevented its sale. Some good cars of ...h Seed were sold at $2.75@2.85, and there were ...e to arrive sales where prices were not made ...ble. The season for new Seed is opening slow. ...rkets of old are said to exist and indications ...e that there is a good crop of new. Outside ...ers as yet are ordering sparingly. Contract ...e was quoted early at $2.85 and a fancy lot at ...0 September after selling at $3.05 was $3.00 ...4, and October which sold early at $2.95 was af...ward about $2.85@2.90, with $2.80 bid. New Seed ...ld had a quotable range of $2.70@2.80 for fair to ...od with choice perhaps $2.85@2.90, and fancy ...ably a shade over. Of color, badly hulled or ...ty about $2.60@2.65, poor nominally below. ...remained the past week with comparisons was ...s follows:

Receipts the past week, lbs	332,850
Same week ago	15,450
Two weeks ago	118,600
Corresponding week last year	556,050
Shipments the past week, lbs	238,350
A week ago	224,700
Two weeks ago	410,250
Corresponding week last year	1,040,925

Flax—Very little was done. The market remained neglected. It is difficult to recall a year seen on the eve of a new crop so little interested as now shown. A few cars came in, but they did not come on sale. More Flax was taken out, but it was not secured on the open market. Prices went lower down, according to cash values of the week. The tendency was lower. At one time 1½c decline was apparent. At the close the market showed no net decline. The prices usually quoted for cash on spot were as follows: No. 1 Northwest rated at $1.17, to $1.15½, to $1.15¾, and closed at ...; No. 1 Northwestern ranged at $1.14½ to ..., and closed at $1.21. Rejected was quoted as ...ominally $1.10@1.12 bu. Some Flax was reported ...ght at $1.17 bid; later, bids were reduced ...@1.15c. and afterward raised again to $1.16½. ...ceipts were 9 cars, compared with 4 cars and 20 cars two weeks ago and 32 cars two years ago. Output was 66,519 bu; the week before it was ...0 bu and two weeks ago 5,130 bu. Local stocks ...st week decreased 3,491 bu, leaving 14,890 bu. ...ased 162,824 bu the same week last year. Duluth ...reased 262,983 bu and had 5,632,500 bu left. Minneapolis stock decreased 14,090 bu, getting down ...,967,00 bu.

Clover—New crop Clover weakened a little. October delivery early was quoted at $12.25, and later price was made at $12.00. During the week a cable to Hamburg was received which said the entire Clover Seed crop of Russia and France smaller than last year. Great Britain and Italy good. ...ith excellent, double last year's. Austria and ...ia small but better than expected. This was ...ed seemed as a "bullish" influence under ordi...y circumstances, and especially notsince prices ...Clover are high. It had no influence. For old ...er there remained a very tardy jobbing demand ...l market. There was practically an absence of ...ts and output little better. No offerings ap...ed. A nominal range of prices from day to ...y was about as follows: Common to fair, nominally about $11.50@11.75. Country lots, common to choice, $8.00@10.01; fancy brown; mixed with Buckhorn or other light seeds, $10.25@10.50; common quality of Timothy, very foul, lower, ...ly to good $7.75@10.75.

Movement for the week, with comparisons, was ...s follows:

Receipts—The past week, lbs	1,200
A week ago	25,830
Two weeks ago	40,000
Corresponding week last year	37,200
Shipments—The past week, lbs	2,940
A week ago	1,200
Two weeks ago	35,930
Corresponding week last year	17,730

Other Seeds—Trade continued light in Millet, Hungarian and small receipts, according to daily railroad reports. On the regular market no offerings were reported. There was no business reported, and no sales to mention, so that not more nominal quotations could be obtained.

Receipts the past week, lbs	40,800
A week ago	217,900
Two weeks ago	40,000
Corresponding week last year	37,200
Shipments—The past week, lbs	2,940
A week ago	1,200
Two weeks ago	35,930
Corresponding week last year	17,730

Hay—The receipts for the week were 4,248 tons, against 3,144 tons for the previous week. Shipments for the week were 183 tons, against 183 tons for the previous week. The arrivals of choice timothy Hay were small during the past week, and the demand was good. A firm feeling prevailed but prices show no particular change. Low and medium grades were in only fair supply and the demand was also restricted. Prices unchanged. The offerings of Prairie Hay were liberal and there was a moderate demand existed. Prices declined $1.00 per ton. Quotations at the close ranged as follows: Choice Timothy, $14.00@15.00; No. 1 Timothy, $12.50@13.50; No. 2 Timothy, $11.00@12.00; No. 3 Timothy, $8.00@10.00. Choice Prairie, $9.50@10.00; No. 1 Prairie, $9.00@9.50; No. 2 Prairie, $8.00@8.50; No. 3 Prairie, $7.00@7.50; No. 4 Prairie, $5.00@5.50. Inside prices on Prairie Hay for states and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $9.00@15.00 for fair to fancy Timothy, $5.00@7.50 for State, $8.00@11.00 for Kansas Nebraska and Iowa Prairie Hay. Rye Straw sold at $7.00@7.50. Wheat Straw at $5.75@6.00. Oat Straw at $5.50@6.00, and Barley Straw at $5.25

COOPERAGE—Trade was moderate in the market for Cooperage during the past week. There was a little more inquiry in a general way, but packers have fair supplies on hand and were slow to meet the views of sellers in the matter of prices. Outside packers purchased moderately. Little change to note in prices. Ash Pork Barrels were in small request and prices steady at 99c@$1.02 One Pork Barrels were in light demand and steady at $1.05@1.07½. Lard Tierces were in fair request and prices ruled steady at $1.25@1.27½, from bound Lard Tierces called for moderately, and quotably steady at $1.01 @1.12½. One close lots and $1.15@1.17½ for eight-hoop. Oleo Tierces were quiet and quotable at $1.17½@1.20.

HOGS—Only a fair supply of Hogs was marketed during the past week and the quality was quite good. Market was rather active in a general way. Packers purchased a good proportion of the arrivals, and shippers secured for moderate orders from the Eastern markets. During the early part of the week, the feeling was quite firm, and prices were advanced 10@15c. About the middle of the week the market was not so firm, and prices settled back 10@15c, but rallied again 10@15c, and the market closed comparatively steady. Sales during the week were made at $5.90@6.80 for light, at $5.90@6.00 for rough packing, $5.90@6.05 for mixed, and $5.95@6.10 for heavy packing and shipping lots, with the bulk of the trading within the range of $5.90@6.05 for fair to good averages. The close about $6.00 Hogs remained in the pens unsold. Pigs were in moderate supply, with a good demand, and sales were made at $5.00@5.85, according to size and weight. Receipts of Hogs at the other large Western packing points were fair, and the quality rather good.

PACKING—Only a moderate business was transacted at the packing houses during the past week. Hogs were in light supply, and packers were slow to purchase, as they have not resumed normal working conditions. Bulk of the manufacture was to provide cuts most required for the Dressed Meat trade or general consumption. Pork of all kinds neglected to a great extent. Lard produced in fair quantities, and average field quite good. Bulk placed in tierces. Hams of all kinds made moderately, and the bulk cured by manufacturers. Shoulders made in limited quantities. Picnic Hams made moderately. Long Clear Sides, Short Clear Sides, Short Rib Sides, and all fancy and special cuts were made sparingly. Short Rib Sides, Extra Short Rib Sides, Extra Short Clear Sides, and Roun Sides were made in moderate quantities. Backs and Bellies made in limited quantities. Loins made in fair quantities to supply current requirements.

PROVISIONS—Rather an active speculative business was transacted in Hog Products during the past week. An unsettled feeling prevailed during the greater portion of the time, and prices ruled irregular. Considerable liquidation in the near deliveries in a general way, and there was quiet a good business in transferring contracts from September to October at the current differences. January delivery was also favored and sales were larger, and prices ruled higher, due in a measure to the strength manifested in Corn. Hogs were in only fair supply, and prices ruled irregular. Reports of the packing of the West for the week showed returns equal those of the corresponding week in 1903. Foreign markets were stronger in a general way, and prices were advanced on all the leading articles. Domestic markets were steadier. Receipts of Products from the interior were rather liberal, as packers were delivering rather freely on contracts. Shipments were only fair, but were understood. Exports at present are falling considerably below those of one year ago. Early in the week, the feeling was rather firm, and the market ruled quiet. Later in the week there was a moderate reaction from the depression noted at the close of last week. Prices were advanced moderately on all the leading articles. At the advance, there some was liquidation, and the market closed unsettled and reduced 5c bbl. Buyers were backward, and the market lacked support. Prices declined suddenly to inside figures all around. This decline brought buyers to the front again in a moderate way. There was less pressure to sell, and a stronger feeling was developed. Prices rallied to outside figures, but receded again rather sharply on all the articles, and the market closed steady. In the shipping branch of the trade there was fair activity. Exporters accepted a few lots, and the demand from the domestic trade was quite good. Members of the manufacturing interests were disposed to enlarge their supplies, and the orders from the Southern markets were fair. Sales were moderately free, and there were no particular changes to note in prices.

Pork—Quite a good speculative business was transacted in Mess Pork during the past week. An unsettled feeling prevailed during the greater portion of the time, and prices ruled irregular. Trading was largely in contracts for September and October deliveries, with transfers at 50@75c difference—closing at 50c. Cash sales were fairly active, with professional operators, but the offerings were moderate. Packers sold fair quantities of the near deliveries. Supply on hand decreasing slowly. Early in the week the market opened with a general demand, mainly from "shorts," and prices were advanced 20@22½c. At the improvement, there was considerable pressure to sell, and the opening advance caused some free offerings, and prices declined 30@35c. This decline brought buyers into the market again and a stronger feeling was developed. Prices irregularly advanced 10@15c, but toward the close the market weakened, and the market closed steady. Demand on shipping account was moderate and offerings were fair. Prices ruled irregular—at about September 50c under October. Cash Pork sold at $13.05@13.07½. Other cuts of Pork were in moderate request, with fair offerings, and prices favored buyers. Stock on hand fairly liberal.

Lard—A little more speculative business existed in the Lard market during the past week, and the feeling was somewhat unsettled and prices irregular. Foreign markets were strong and prices abroad higher. Domestic markets were quiet and lagging. Manufacture fairly good. Receipts from the interior were fair, and the shipments were on a moderate scale. Trading chiefly in September and October contracts, and transfers were made at 7½@10c difference. Rather more doing in January delivery, especially by local speculators. Cash Lard was in only limited request, and the bulk with fair miscellaneous buying, and prices were advanced 15@17½c on the whole range. At this advance, the offerings were increased, and a weaker feeling was developed, and prices settled back 15½@15c. Toward the close, the feeling was stronger again, with a good general demand, and prices rallied 20@22½c, but suddenly declined again 7½@10c on the whole trance, and the market closed comparatively steady. Demand on shipping account was fair, but sales were light. Understood that fair quantities of Lard for future delivery sold cheap were disposed of. Prices ranged at 2½@5c discount on September figures—closing at $5.85 bid Sept. Refined Lard was in moderate request by exporters, and prices were entirely nominal. Loose lots were called for moderately, and offerings were rather light. Prices quotably steady at 5c discount on September figures. Leaf Lard was in fair demand, with moderate offerings. Prices were quotable at $5.25@5.50—closing at 5¢ 37½. Neutral was in fairly good demand, with fair offerings. Closing was stronger. Sales were liberal abroad. Prices were advanced, and closed steady at $7.75@7.87½ for No. 1, and $7.37½@7.50 for No. 2.

Short Rib Sides—Quite a good business was reported in the market for Short Rib Sides during the past week. Feeling was considerably unsettled; and fluctuations in prices were frequent. Stocks on hand reported to be slowly decreasing. Manufacture moderate. Considerable business in the way of transfering contracts from September to October at 5@7½c difference. January delivery was better request by local operators. Early in the week the market exhibited considerable strength, and prices were advanced 7½@10c, with fair miscellaneous buying. Later, there was rather free liquidation in a general way, and a weak feeling was developed. Prices irregularly receded 12½@15c on the whole range. This reduction, buyers again took hold, while the offerings were moderate. Prices were advanced 20@22½c, but toward the close again receded 7½@10c, and the market closed comparatively steady. Demand on shipping account was fair, and the offerings were not very large. At the close cash lots quotable at $7.35@7.45, according to weights.

Green Meats—Trade in Green Meats during the past week was on a limited scale, and the undertone to the market was not quite so strong. Offerings were moderate, and the demand was comparatively light. Local curers slow to purchase, and outside orders were small. Hams were quiet and prices without material change. Skinned Hams were in light request and prices ruled steady. Shoulders were quiet and prices unchanged. Picnic Hams were called for moderately and prices well maintained. Bellies were in small demand and prices ruled steady.

Dry Salted Meats—A fairly good trade was reported in the market for Dry Salted Meats during the past week, and the feeling was easier in a general way. Offerings were fair and the demand was moderately active, and quotably the week's business was about as follows: Foreign markets were rather firm early in the week, but somewhat easier toward the close. Domestic markets were comparatively steady. Supplies of all kinds fairly liberal. Jobbing packers sold fair quantities. Foreign Cuts of Hams were neglected and prices nominally unchanged. Shoulders were called for moderately, and prices well maintained. Long Clear Sides were inactive and prices altogether nominal. Short Clear Sides were inclined to quietness, and prices unchanged. Extra Short Clear Sides were in moderate request and prices inclined in favor of buyers—closing at 7¼@7½c. Extra Short Rib Sides were in fair demand and, prices were slightly lower—closing at 7¼@7½c. Backs were in rather good demand for the Southern markets, and prices receded slightly—closing at 7¼@7½c, according to weight. Plates were in fair demand and prices ruled steady. Butts were quiet and steady. Backs were called for moderately and prices ruled steady. Bellies were in fairly good demand and prices were unchanged. Picnics and special cuts of Meats were called for moderately, and prices ruled steady.

Smoked Meats—Quite a good mid-summer trade was reported in Smoked Meats during the past week, and there were few changes to note. Demand for our lists was good, and the jobbing trade was rather active. Orders from the Southern markets were fairly liberal. Supplies of all kinds are moderately large. Feeling rather firm, and prices without material change. Hams were in fairly good request and prices ruled steady. Skinned Hams were in moderate demand and prices ruled steady. Shoulders were called for moderately and prices unchanged. Picnic Hams were in fair request and prices ruled steady. Breakfast Bacon in good demand and prices well maintained.

Beef Products—Only a moderate trade was reported in Beef Products and the feeling was comparatively steady. Offerings were moderate, and the inquiry was fair. Foreign markets were steady, and the domestic markets were without material change. Cut c were in fair supply and prices ruled comparatively steady. Manufacture on a moderate scale. Shipments of Dressed Beef were fairly liberal. Beef Hams were in moderate request and firmly held. Prices were advanced 50c@$1.00 bbl. Mess Beef in light demand as former figures. Plate Beef called for moderately, and prices unchanged. Extra Plate Beef in light request and rather dull at 50c@$1.00 bbl. Canned Beef was quiet and prices steady. Oleo-Stearine in moderate request and prices steady—closing at 7c.

Greases—Trade in greases was only moderate, and there were no particular changes to note. Offerings were only fair, and the demand was comparatively small. Prices were steady and unchanged.

CLOSING QUOTATIONS.

The following table exhibits the closing prices of Live Hogs and Provisions as compared with the current quotations one year ago:

	Aug. 19, 1903.	Aug. 20, 1903.
	Live Hogs, per 100 lbs	
Light	$5.85@6.05	$4.85@5.00
Heavy	4.75@5.80	4.60@4.75
	Mess Pork, per bbl.	
Clear Pork	13.25@13.75	14.80@15.00
Mess Pork	11.75@11.80	13.00@13.25
Family Back Pork	14.07@15.00	16.75@16.25

Odessa	560,000	1,200,000	400,000
Nicolaieff	80,000	1,360,000	8,000
Berdianski	240,000	160,000	40,000
Marianople	424,000	80,000	80,000
Theodosia, Eupatoria & Kertch	160,000	280,000	56,000
Rostoff-on-Don	160,000	240,000	......
Taganrog	160,000	160,000	160,000
Novorossisk	592,000	616,000	72,000
Sulina	400,000	424,000	480,000
Galatz	328,000	344,000	......
Braila	160,000	320,000	......
Dedeagatch	24,000	104,000	......
Total	12,800,000	16,920,000	8,530,000

In addition to the stocks returned at French ports, there are some quantities held in bond at millers' warehouses, but these quantities cannot be ascertained promptly.

THE WEATHER CONDITIONS.

The weather map shows temperatures are very much lower -2 to 12 points. Range 34 to 64 in Manitoba, but cloudy East and raining West. Light scattered rains Northwest, heavy West, and in Illinois, Missouri and Ohio Valley.

ITEMS OF GENERAL INTEREST.

All workmen in the Pennsylvania Railroad shops at Sunbury, except the carpenters, have been cut in time to eight hours a day.

Business failures in the United States and Canada for the past week were 250, against 255 the previous week, and 246 for the corresponding week last year.

The National Lead Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable Sept. 15. Books close Aug. 26 and reopen Sept. 18.

The United States Steel Corporation has taken an order of 1,800 tons of trolley rails for a traction system in Indiana. The rails will be turned out by the Illinois Steel Company

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,875,332,771, a decrease of 2.0 per cent, compared with the corresponding week last year.

An Italian official bulletin for the last ten days of July says that forage and Pulse crops have been damaged by the drouth, and Corn will suffer likewise if rain does not fall soon. Wheat threshings have given unsatisfactory results.

A wire from Fargo, Thursday, said: "Lots of green Wheat has little piles of rust deposited inside the chaff, and even on the forming berry This does no particular harm, but shows the enormous quantity of rust spores that is floating over the fields and lodging all over the plant."

Dornbusch of Aug. 9 says: "Advices from Budapest report a continuation of the heat and drouth during the week, which is causing great damage to the Corn crop and pastures. Threshing operations are being pushed forward. The waterways are drying up and in some places navigation is suspended."

The Liverpool *Corn Trade News* of Aug. 10 says: "Harvest work in France is now in full swing in the North, with favorable weather. The *Gaulois* claims to have obtained information from the Ministry of Agriculture which indicates a total Wheat crop of 320,000,000 bu, but this is not taken seriously. Reports as to the yields in the Centre and South do not improve."

Rapid progress is being made in the preparations for the new Prairie National Bank, Chicago. The Prairie State Bank has declared and paid the dividend of 30 per cent on its stock, announced some time ago, and the subscribers to the stock of the new bank have paid in the first 50 per cent of their subscriptions The remaining 50 per cent has been called for payment before Sept 1. The bank will go into business on Sept. 1.

Counsel for the stockholders' protective committee of the New York, Ontario and Western Railway Company will file suit at once to annul the voting trust. This action was decided upon at a meeting of the stockholders' committee held Monday, at which all members were present. The committee also issued a circular to stockholders asking proxies for the annual meeting to be held Sept. 22, when it is proposed to vote against the trust

The listing of the common and preferred stocks of the Chicago and Oak Park Elevated Railroad Company, the holding company which owns the majority of the securities of the former Lake Street Elevated Railroad Company, was at the instance of some of the Chicago brokers, and was done without the knowledge of the management of the company It was the intention of the company to have its securities put on the regular list of the Exchange in due time, but apparently the management was not yet ready to make application. The stocks are now on the unlisted list, which permits trading in them with practically the same freedom as if they were on the regular list.

The $5.00 dividend recently declared by the Standard Oil Company calls for $5,000,000 to be disbursed to stockholders. Within six years the company has declared $101,000,000 in dividends, an amount more than four times as great as the company's capital stock, $100,000,000. The company's dividend record for a number of years follows:

	Per cent.		Per cent.
1903	41	1899	33
1902	45	1898	30
1901	48	1897	33
1900	45	1896	31

Up to 1895 12 per cent dividends were paid annually.

The Comptroller of the Currency has declared dividends in favor of creditors of insolvent National Banks as follows: Second dividend, 20 per cent, in favor of creditors of the Citizens' National Bank of McGregor, Texas, making in all 70 per cent on claims proved, amounting to $61,087. Third dividend, 10 per cent, in favor of creditors of the Navesink National Bank, Red Bank, N J., making in all 60 per cent on claims proved, amounting to $229,962. Final dividend, 32 per cent, in favor of the creditors of the Equitable National Bank of the City of New York, making in all 100 per cent of principal and interest in full to Aug. 7, 1904, on claims proved, amounting to $169,347.

At last the quiet in the ship building industry on the great lakes appears to have been broken. The American Ship Building Company has closed its first contract for new construction in months. It is for a new steamer for a Duluth party, and the cost will be about $360,000. Delivery will be made next year. An officer of the company was quoted, Thursday, as saying: "Our directors meet about the middle of next month to act on dividends on the preferred stock. It may be said that it is the policy of the company to pay the usual rate of 1¾ per cent quarterly until the industry shows a revival of activity again. There is surplus enough to do this, even should lake ship building remain dormant two or three years."

A St. Paul dispatch says: "Reports made tonight from points covering wide territory in Minnesota, North Dakota, and Manitoba show that rust has practically destroyed one-half the Wheat crop. Seventy experts, telling of conditions at as many points, are agreed that the injury will exceed 40 per cent of the estimated crop The universality of this opinion makes it alarming. Fields in Red River Valley, which have been estimated at 16 to 18 bu, will in few cases yield more than 8 or 10. Area affected by the rust is in the heart of the Wheat country, extending from Fergus Falls, Minn., to Winnipeg, Manitoba, and from the eastern Wheat limit in Minnesota to Western North Dakota. Crops in Minnesota and North and South Dakota, which were estimated at about 215,000,0000 bu, are greatly reduced by these reports."

A Berlin dispatch says: "A giant industrial combination, second only to that of the Krupps in Germany, will result from a meeting at Hanover of the directorates of the Gelsenkirchen Coal Company, the Schalker Coal and Iron Company, and the Aachen Smelting Company, at which it was decided to pool the interests, the Gelsenkirchen Company increasing its capital to $31,375,000 and exchanging its shares for shares of the other companies. The tentative agreement published on Aug. 13 provided only for the consolidation of the Gelsenkirchen and the Schalker companies, but the inclusion of the Aachen Company, which is capitalized at $2,875,000, greatly increases the importance of the combination. The Aachen Company owns large foundries, Steel works, and rolling mills at Roteerde and mines at Lothringen and Luxemburg The agreement, which is subject to the ratification of the shareholders, assigns $6,375,000 to the Schalker stockholders and $7,750,000 to the Aachen owners."

The billet conversion order of the Republic Iron and Steel Company has caused a large number of consumers to hesitate before adding to their stocks of Iron and Steel. They believe that the cut will be followed by a general reduction and in anticipation of this are in no hurry to add to their stocks. A sales agent who returned to Chicago from a Western trip last week said: "The billet contract has certainly brought about a falling off in the demand for certain classes of Steel products. Small consumers argue that they should pay no more for their billets than the Pittsburg Steel Company When I started on my Western trip I expected to place a large tonnage in billets, but as the result of the Republic-Pittsburg Steel contract I did not book a single ton. Not until consumers are convinced that there will be no general reduction from the association's price of $ 3 will they enter the market as purchasers They talk about the billet association losing between $400,000 and $600,000 on the billet contract. When everything is taken into consideration the loss will reach into seven instead of six figures."

INSPECTION OF GRAIN AND FLAX SEED.

The following table exhibits the inspection of Grain and Flax Seed at Chicago for the past 24 hours.

ITEMS OF GENERAL INTEREST.

New York Exchange 30c discount

Documentary Sterling steady at 484¼

Chicago Bank Clearings to-day, $27,424,720.

Ten packers purchased 23,800 Hogs to-day; shippers 8,000; left over, 6,000. Market closed strong.

Reported that 40,000 bu Wheat, 184,000 bu Corn, and 20,000 bu Oats were taken at the seaboard to-day for export

Cotton in New York was advanced by better cables and general buying Closing prices were at gains of 14@20 points.

Estimated receipts for to-morrow: Wheat 177 cars; Corn, 467 cars, Oats, 520 cars; Rye, 19 cars: Barley, 31 cars: Hogs, 22 000.

At the leading distributing markets of the United States the receipts of Wheat last week were 3 800,000 bu in excess of the shipments

The quantity of Flour and Wheat on passage to Europe during the past week increased 1:6 000 bu, and the quantity of Corn increased 900,000 bu

Average cost price of Hogs at Chicago last week was $5 26, against $5 32 the previous week, $5 41 a month ago, $5 25 a year ago, and $7 05 two years ago

Exports of Flax Seed from India the past week were 466,000 bu, compared with 180 000 bu for the week previous, and 320 000 bu for the corresponding week in 1903

The Winnipeg correspondent of the *Modern Miller* says that the reports sent from there regarding the damage to the Wheat crop have been grossly exaggerated.

Sixty-five agents of the Ogilvie Milling Company, Montreal, report some damage to the Manitoba Wheat crop, but estimate the aggregate crop larger than last year

Stocks in New York were strong and advanced ½ to 1¼ on the Grangers, ⅝ to 1⅝ on Industrials, and ½@1½ on the Coalers The buying was largely by "shorts" and London

Local Securities were mostly lower Trading was fair. Biscuit, Swift's and Carbon preferred, and Metropolitan Elevated sold off, and Can preferred and Diamond Match advanced.

The Oregon Railway and Navigation Company, of Portland, says the Wheat crop of the Pacific Northwest will be between 45,000,000 and 50 000,000 bu, as compared with 35,000,000 bu last year.

The average weight of the Hogs received at Chicago last week was 240 lbs, the heaviest of the year, against 237 lbs the previous week, 251 lbs the corresponding week in 1903 and 246 lbs in 1902.

Wheat threshing in Manitoba started Wednesday afternoon in Napsika The yield averaged 22 bu per acre, and graded hard Crops are in excellent condition and free from rust and frost.

The Government report of the condition of the crops in Prussia on Aug. 15—using 1 as very good, 2 as good, 3 as middling, and 4 as bad—is. Winter Wheat, 2.7; Summer Wheat, 2 9; Winter Rye, 2.6; Summer Rye, 3.3.

Stocks of Wheat in public warehouses in Liverpool reported at 2,816 000 bu, against 2,840,000 bu one week ago and 3,176,000 bu one year ago. Stocks of Corn reported at 360,000 bu, against 412,000 bu one week ago and 883 000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 235,000 bu Wheat, 450,000 bu Corn and 41,000 bu Barley, and increases of 1,711,000 bu Oats and 26,000 bu Rye.

East bound shipments of the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov. tons.
Past week	60,430	1,470,000	21,657
Previous week	59 978	1,395,000	21,373
Last year	57,976	714,000	29,007

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Inquiry more general, but the recent sharp advance checks sales Foreign bids still out of line

WINTER WHEAT—Was weaker in sympathy with the speculative market and prices quotably 1c lower. Demand good and chiefly speculative. No. 2 Red in store nominally $1 09½@1 11⅝, and fresh arrivals free on board sold at $1 11½@1 12. No. 3 Red fresh arrivals free on board sold at $1 08 @1 10, with a few choice cars at $1 12 No 4 Red sold at $1 05@1 08 No 2 Hard fresh receipts free on board sold at $1 04@1 11 No 3 Hard fresh receipts sold free on board at $1 04@1 09½, and at the river at $1 01@1 05 No 4 Hard fresh receipts free on board sold at $1 03@1 06½, and billed through at 97½c@$1 00 No. 4 White sold at $1 01@1 06

SPRING WHEAT Was quiet to-day Very little arriving and market steady. No 1 Northern nominally $1 15@1 18 No. 2 Northern nominally about $1 10@1 12 No. 3 Spring nominally $1 00@1 05, with sales of a few cars choice hard variety at $1 12 and good at $1 04 No 4 Spring quotably 80c@$1 02 for poor to good

REGULAR WHEAT—Just a fair trade, the volume being smaller than of late and sentiment more divided Closing prices showed new September off ⅝c, while December lost 1⅜c and the May 2⅛c The start was strong and higher, influenced chiefly by the low temperatures in Western South Dakota, where light frosts were reported, and rains in Minnesota. Offerings soon became freer and more general locals favoring the selling side, and prices receded sharply Outside buying was less conspicuous and a good share of the selling was credited to the Northwest Liverpool quoted spot steady to ⅛d higher and futures ⅛@⅜d higher. Stocks there 2,816 000 bu, decreased 24,000 bu last week English country markets were up 1s and cargoes on passage 6d higher London was ½@1½d higher. Paris ¼@¾c lower. Antwerp up 1¼c Buda Pesth 4c higher than Friday. World's shipments were 8,376 000 bu against 8,604,000 bu the previous week and 9 678,000 bu one year ago Quantity on ocean passage increased 256 000 bu to 40 392 000 bu, against 27,336,000 bu in 1903. London *Statist* estimated the world's Wheat crop at 2,893,600 000 bu, against 3,087 800,000 bu in 1903 and 3 031,800,000 bu in 1902. The visible decreased 235,000 bu, against 172,000 bu increase last year Total now 12,323 000 bu against 12,710,000 bu in 1903 and 20 680,000 bu in 1902 Local public stocks decreased 46,000 bu and are now 870 000 bu, compared with 1,841,000 bu one year ago Fair weather was predicted for South Dakota: fair to day and showers Tuesday for North Dakota. Official Prussian report of Aug 15 made condition of Winter Wheat 76 per cent, against 74 a year ago. Rye 78@80 and Potatoes 8@76 Gainsboro, Northwest Territory, wired: "From Winnipeg south to Rosenfield, thence to Deloraines crop badly rusted—backward—won't yield 30 per cent of recent promise. From Deloraine west much better, cutting well commenced but stopped by rain. Most farmers do not know what rust is." Winnipeg wired "This rust is a terror week ago would not believe it, now at least one third Manitoba crop gone and we cannot estimate how much will go yet At least half the crop very late weather very bad, two days' heavy rain, but fine this morning." Minneapolis reported the receipt of several cars of new Wheat and 50 per cent grading No. 1 Northern. Sixty-five agents of the largest milling concern in Canada reported the prospect in Manitoba for a larger crop than last year, notwithstanding some damage by the rust Another Northwest message read "Jamestown to Carrington very little Wheat cut: fields green, Grain in milk or soft dough made no progress ripening past ten days. Rust developed rapidly, average not above 8 or 9 bu and shrunken." *Broomhall's* agent in Northern France cabled yields were 10@15 below an average Primary receipts were 404 000 bu larger than a year ago Kansas City and St. Louis received 868,000 bu, against 344,000 bu Part of the late selling of May was credited to local elevator interests. Exports were moderate Receipts at Duluth 37 cars and at Minneapolis 178 cars, a total of 215 cars, against 178 cars Saturday, 216 cars a week ago, and 458 cars last year. Local receipts included 154 cars Winter, 2 Spring and 2 car mixed, a total of 158 cars, against 114 cars last year. Included in the above were 10 cars of contract grade There were 11 cars taken from unlicensed elevators The estimated receipts for to-morrow are 177 cars. Withdrawals to-day were 85,400 bu. Receipts at Western points were 1,328 590 bu, against 921,838 last year. At Eastern points 183,869 bu, against 426 893 bu last year Shipments from Western points were 536,879 bu, against 214,723 last year, and from Eastern points 60,297 bu, against 63,373 last year. Shipments of Flour were 22 378 brls. Exports of Wheat in Flour were equal to 160 998 bu

Future Deliveries of Regular Wheat—Active trade and prices lower

SEPTEMBER—Old Style—Sold at $1 10@1 12⅛ Opened with sales at $1 12 to $1 11¾, sold to $1 12⅛, to $1 11 to $1 11¼ to $1 10½, to $1 10⅞ to $1 10 to $1 11⅜, and closed at $1 11⅛

SEPTEMBER—New Style Sold at $1 08¼@1 12—only sparingly at the outside price Opened with sales at $1 10½ to $1 12 sold to $1 10¼ to $1 09¾, to $1 10⅝, to $1 09¾, to $1 10⅛ to $1 09 to $1 09⅞, to $1 08⅞ to $1 10½, to $1 09¼, to $1 10, to $1 09, to $1 09⅞ and closed at $1 09⅞

DECEMBER Sold at $1 09¾@1 14—only sparingly at $1 14 Opened with sales at $1 11 to $1 12; sold to $1 12½, to $1 11¾, to $1 12½ to $1 11½ to $1 11¾, to $1 10¾, to $1 11¼ to $1 09¾, to $1 10¼ to $1 09¾, to $1 11, to $1 10½, to $1 11¼, to $1 11, and closed at $1 11

MAY—Sold at $1 12¼@1 17—only sparingly at the top figure Opened with sales varying from $1 15½ to $1 17 sold to $1 16 to $1 15½, to $1 15⅝ to $1 14⅞, to $1 15⅝, to $1 14⅞ to $1 15¼, to $1 14, to $1 14½ to $1 13⅝, to $1 14, to $1 13½, to $1 14, to $1 12¼ to $1 13¾ to $1 13¼, to $1 13¾, to $1 13⅝ and closed at $1 13⅝

CORN—A good trade but market not as broad or active as of late, the close showing declines of ⅛c to ⅜c for December and May while September gained ⅛c. Sentiment at the start was moderately "bullish" owing to the cool weather and strong cables, but the demand was soon satisfied and as the session advanced the selling pressure became greater and prices gradually yielded to the same The prediction of rising temperatures and fair weather for Kansas, Nebraska and Iowa, together with the decline in Wheat acted as "bear" factors, and floor traders were inclined to favor the "bear" side. Receipts were large, 441 cars, due to Sunday inspection, against 200 cars last year and 467 cars were estimated for to-morrow Liverpool quoted spot ⅛d higher and futures up ⅜d *Mark Lane* quoted Danubian 3@6d higher and cargoes on passage were held 3d higher. A private Liverpool cable claimed there was an active demand for River Plate Corn and stated prices were not likely to decline on the cash article no matter what may happen to futures in America. Liverpool stocks decreased 52 000 bu last week to 360,000 bu Map showed heavy rains in Mississippi Valley: Springfield, Mo., 2.18 inches, Kansas City 2.30, Springfield, Ill, 1 44 and Keokuk .80. Laurel, Neb., reported light frosts last night and Corn in no condition to stand it Local shipments were 631,009 bu, against receipts of 183,000 bu. Loaded out of store here, 570,000 bu. World's shipments were larger at 4,962,000 bu, against 3,918 000 bu last week and 4,288,000 bu one year ago. Quantity on ocean passage increased 900,000 bu to 17,196,000 bu, against 19,509,000 bu one year ago The visible decreased 450,000 bu. Total now 4,646,000 bu, compared with 6,447,000 bu in 1903 and 3,423,000 bu in 1902. Local public stocks were reduced 284 000 bu and are 1,771,000 bu, against 2,863,000 bu one year ago Primary receipts, 378,000 bu last year, 527,000 bu. Shipments, 694,000 bu and 630,000 bu respectively. Exports were 185,000 bu, largely via New York. Country acceptances were moderate possibly 200,000 bu, and shipping inquiry fair—sales, 100,000 bu St Louis steady and Kansas City easier. Charters, 100 000 bu at 1c New York reported 23 loads accepted for export. Car lots were in fair demand and larger supply Prices steady. No 2 closed about 54½c and No 2 Yellow at 56c No 3 closed at 54c No. 3 Yellow sold at 55¾c, and closed at 55⅝c. No. 4 sold at 54@55¼c, outside for yellow

Corn by sample—Offerings were a little larger, but demand better Feeling was steady and prices about unchanged. Sales on track and free on board No Grade sold at 52@53c No. 4 at 52@55½c No. 3 at 5½@56½c No. 3 Yellow at 55¾@56½c. No. 2 at 56½c No 3 White at 55@55¾c No 2 White at 56c. Billed through: No Grade at 51½c No 4 at 52½@53¾c No 3 at 53½@54¾c. No. 3 Yellow at 55@55½c No 2 Yellow at 55c. No. 3 White at 53¾@53½c No 2 White at 53½c.

Future Deliveries of No. 2 Corn—Active and unsettled, closing ⅛c higher to ⅜c lower

AUGUST In active Quoted ¼c under September Sold at 54¼c, and closed nominally at 53⅞c

SEPTEMBER Sold at 53¾@54⅛c Opened at 54c to 54⅛c and sold at 54⅛c to 54⅛c to 51¾c, to 54¼c, to 54c, to 53⅞c, back to 54⅛c, to 54⅛c closed 54⅛c

OCTOBER—Sold at 51⅜c and 54⅛c Same as September

DECEMBER—Sold at 52¾@54c. Opened at 53⅜c to 54c, and sold at 53¾c, to 54c, to 53½c, to 53⅜c, to 53⅛c, to 53⅜c, to 52¾c, to 53⅛@53½c to 53⅛c, and closed at 53⅛c

MAY—Sold at 51⅞c and 53⅛@53¼c Opened at 52¾c to 53⅛c and sold at 52⅞@53c, to 53⅛@53¼c, to 52½c to 52⅝@52¾c, to 52¼c, to 52⅜c to 51⅞c to 52⅜@52½c, to 52c, to 52@52⅛c, and closed at 52@52⅛c bid

OATS—Were weaker and closed ⅛@⅜c lower There was good selling by cash interests and commission houses and scattered buying Trading was good A weakening factor was the big receipts—414 cars—and predictions of 529 cars to-morrow There were 254 cars of contract in the arrivals The visible supply increased 1,711,600 bu and local stocks gained 144 000 bu, being 527,000 bu in public houses The Prussian crop report gave the condition at 86, against 78 last year Seaboard clearances were moderate. Cash sales were 20 000 bu here and 20,0 0 bu at the seaboard Car lots to go to store were steady to ⅛c lower. No Grade sold at 31½c. No. 3 White at 31½@35c Standard at 35c No. 2 White at 35c

Oats by sample were in fair demand and steady to ⅛c lower. Sales on track and free on board. No 4 White sold at 34c. No 3 White at 34@35¼c Standard at 34¼@35¼c No 2 at 32@32½c No. 2 White at 35@35⅛c. Billed through. No 1 at 30¼c. No 4 White 34@34½c No. 3 31½c. No 3 White at 34@34¾c Standard at 34½@35c. No 2 at 31¾@32c No. 2 White at 34½@35¼c. At the river No Grade at 32c No 4 at 30c. No 4 White at 3.3½@33½c. No 3 White at 33@34c Standard at 31½@31c No 2 at 30¾c. No 2 White at 34c

Future Deliveries of Contract Oats — Were weaker and lower.

AUGUST—Weak. Closed at 33⅞c.

SEPTEMBER—Fair trading. Sold at 33⅝@34⅜c. Opened at 34¼c to 34⅜c sold to 33⅝c, to 33⅞c at close

DECEMBER—Active. Sold at 34⅞@34⅞c and at 35½c. Opened at 34¼c to 34⅜c. sold to 34⅞@34⅞c, closed at 34⅞c.

MAY—Active. Sold at 37@37⅜c Opened at 37⅝c to 37¾c, sold to 37c, to 37@37⅛c at close

RYE—Was weaker and 1c lower. Buyers held off on account of the decline in Wheat and nothing was done in futures, while cash met with a fair demand on speculative account at the decline Receipts 10 cars No withdrawals from store here and no export clearances from the seaboard The visible supply increased 26,000 bu No. 2 to go to store sold at 75@74c and on track and free on board at 75@75½c No 3 sold at 73@74¼c.

Future Deliveries of No. 2 Rye—Nothing doing August nominally 73½c. September nominally 74c. December nominally 75c and May nominally 78c.

BARLEY—There was more doing Sales of spot cars aggregated over 30 cars. That was an evidence of increased movement. Most of the Barley offered was new About the only old was a few cars of common Some of the cars were musty and slow on that account Salable and steady if sweet for mixing. All grades of new Barley good sale. Late quoted prices fully maintained. Fifteen cars inspected in, but more than that in, for there were more cars offered. Local stock did not change the past week. Visible decreased some, yet it remains larger than a year ago There were a few cars of low grade old Barley sold at 37½@40c—some a little better at 43c New common, thin or considerably stained feed Barley sold at 42½@43c. Malting, low grade new, about 42@44c. Fair to good depending on weight and color, quotable at 45@50c; main sales at 46@48c Choice cars sold at 52@53c One sale of fancy, it graded No. 2, was made at 56c

SEEDS Little was done. Fair offerings of cash Timothy, but no sales made Clover was nominally higher to-day There was a small gain in Flax.

Timothy—Several lots of cash Seed, beside some to arrive lots were offered. No sales were learned of. As a rule the views of sellers, they often were limited by shippers, were above what buyers cared to pay There was not much inclination to purchase Country lots of new Seed quotably $2 70 @2 85 for fair to good, choice to fancy $2 90 to possibly a shade over and dark or dirty about $2 70@2 85 depending on quality Contract old Seed was nominally $3 00 The speculative market for new Seed ruled duller at the same time it was steady September sold at $3 05, the figure asked Saturday, afterward it was offered at $3 02½, and then $3 02½ was bid October was $2 92½ bid and $3 00 asked

Flax—Was slightly better, ½c higher. A small quantity of cash Seed offered on sale There was nothing of real importance. Only 2 cars or 1,800 bu were inspected in and 5 cars or 8,048 bu taken out At Minneapolis the receipts were 3 cars and and at Duluth 10 cars. Local stock did not change last week It was given as 14,840 bu, compared with 129,821 bu the same time last year. No 1 Northwestern or No 1 from the Northwest quotable at $1 25 No. 1 was $1 18 Rejected quotable at $1 14@1 18, depending on quality September nominally $1 18

Clover—Advanced prices were quoted. There were firmer reports from outside Trade in Clover Seed also was said to exhibit some improvement October delivery nominally $12 00 Contract spot Seed was quotably about $11 60@12 25 Country lots, common to choice, $9 00@12 00, fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 00; poor, cleaned out of Timothy, very foul, lower. Fair to good $10 50@11 50.

Other Seeds—Only Mustard quotable at present and that was nominally 75c@$1 10 for common to choice

HOG PRODUCTS—A fairly good trade was reported in Hog Products and the feeling was unsettled, and prices irregular Offerings were rather free, and the demand was fair The receipts of Hogs were liberal and prices lower and the Grain markets were easy and these features encouraged fair miscellaneous selling Outside orders were moderate, as speculators are attracted to other articles, and local trading was fair The market was rather steady at the opening, but after the early orders were provided for a weak feeling set in, and there was considerable liquidation in a general way. Prices declined materially on all the leading articles. Toward the close a little more steadiness was manifested, but the changes in prices were slight. Market closed steady. Carrying charges were widened somewhat, and contracts from September to October were transferred at 7½c on Mess Pork and Short Rib Sides and 10c on Lard. Receipts of Hogs at the leading Western packing points were estimated at 64 100 compared with 18 500 one year ago. Foreign markets were steadier and quotations were advanced 1s on Cumberland Sides and 3d on Lard Domestic markets steady Receipts of Products were moderate—of Lard and Meats about 15 cars. Shipments were rather light of Lard and Meats about 85 cars. Shipping demand was moderate and offerings were not very large Sales were only fair, and prices without material change

Mess Pork—Trade was fair in Mess Pork, and the feeling was somewhat unsettled Offerings were moderately free, and the demand fair. Prices ruled irregular Market opened rather steady with a few trades at 2½@5c advance Later, there was considerable pressure to sell, while the demand was limited and prices receded 20@22½c Toward the close the market was a trifle steadier and prices rallied 2½@5c, and closed steady Little more inclination to sell January contracts Demand on shipping account was moderate, and offerings were rather light Cash lots quotable at $11 70@11 75

SEPTEMBER—Offerings were fairly liberal and the demand moderate Sales were made at $11 65 @11 82½ Opened at $11 77½@11 80 sold to $11 82½ to $11 65 to $11 67½, and closed steady

OCTOBER In fair request and offerings were rather free Sales were made at $11 70@11 92½ Opened at $11 90 to $11 92½ sold to $11 85 to $11 60 to $11 70 to $11 72½, and closed steady

JANUARY—Demand was moderate, and offerings were fair. Sales were made at $13 00@13 20 Opened at $13 17½, sold to $13 20, to $13 00, to $13 05, and closed steady.

Lard—Only a moderate business was transacted in the Lard market, and the feeling was easier Offerings were fair, and the demand was only moderate. Prices declined 7½@10c but rallied 2½@5c and the market closed steady at nearly inside figures Foreign markets were more favorable to holders Demand on shipping account was reported moderate, with no particular pressure to sell Cash lots quotable at $6 82½@6 85 Sales withheld Loose lots in moderate request with limited offerings Prices steady at about 50c discount on October figures Leaf Lard was in light demand with moderate offerings Quotably steady at about $6 37½@6 50. Neutral in fair demand, with moderate offerings Prices quotably steady at $7 87½@8 00 for No 1, and $7 37½@7 50 for No 2

SEPTEMBER In moderate request and offerings were fair Sales were made at $6 85@6 87½ Opened at $6 87½, sold to $6 85@6 87½, to $6 87½, to $6 85, to $6 85@6 87½, and closed steady

OCTOBER Offerings were not very large and the demand was fair Sales were made at $6 92½@6 97½ Opened at $6 97½, sold to $6 92½, to $6 95, to $6 92½@6 95, to $6 95, and closed steady.

JANUARY—In fair demand and offerings were moderate Sales were made at $7 00@7 10 Opened at $7 05, sold to $7 10, to $7 00, to $7 05, to $7 02½@7 05, to $7 05 and closed steady.

Short Rib Sides—Quite a good business was transacted in Short Rib Sides, and the feeling was easier Offerings were rather free, and the demand was fair Prices declined 10@12½c on the whole range but near the close rallied 2½@5c, and the market closed steady Demand on shipping account was moderate, and the offerings were fair Cash lots were quotable at $7 25@7 37½ according to weight

SEPTEMBER — Offerings were rather free, and the demand was fair Sales were made at $7 32½ @7 45. Opened at $7 45, sold to $7 40 to $7 40@7 42½, to $7 32½, to $7 37@7 37½, and closed steady

OCTOBER In fair request and offerings were moderately free Sales were made at $7 40@7 50 Opened at $7 50, sold to $7 40 to $7 45 and closed steady

JANUARY—Offerings were moderately free and and demand was only fair Sales were made at $6 80@6 90 Opened at $6 87½ to $6 90 sold to $6 85@6 87½ to $6 87½, to $6 80, to $6 82½, to $6 80 to $6 80@6 82½, to $6 80, and closed steady

Other Meats—Trade was only fair and mainly on domestic account Exporters bought sparingly. Offerings not very large, and inquiry was fair Green Meats in limited supply with a light inquiry and prices were unchanged Pickled Meats in fair request, with only moderate offerings, and prices ruled steady Dry Salted Meats were in good demand, with moderate offerings, and prices favored buyers. Smoked Meats called for moderately, and prices well supported Closing prices were as follows

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Aug 9.]

United Kingdom—During the past week, there have been further showers and storms in various parts of the country, but the rain has probably done more good than harm, although it has not always been welcomed by holiday-makers and harvesters. Cutting has made good progress in the south of England and the work is rapidly extending northward. In the earliest districts new stacks are to be seen, samples of new crop have been shown at market, and at least one milling firm at Boston would have ground their first lot of new Wheat last week, had not the mill been closed down for repairs. They describe the lot as a fair sample and in very good condition. The splendid weather we have had for ripening the crop, and for starting harvest, has naturally caused much hopefulness with regard to the quality of the new Wheat, but there is no change to note in the general opinion that the acreage is very short and the yield likely to be light. There was a further advance of 3d per quarter in the average price of the small sales reported in last week's official returns.

Russia—Drouth conditions prevailed in the early autumn, but rains fell in time in most parts; the Southwest was an exception, however, for there the drouth lasted so long that only a comparatively small area could be put under winter crops. Mild open weather in the first part of the winter helped the crops generally, and in December the condition was considered about normal, except in the Southwest. Fairly abundant falls of snow occurred towards the end of December, but an official bulletin issued about that time described the condition of the winter crops as barely satisfactory, the worst districts being those of the Southwest. As the winter advanced reports as to the autumn seedings continued generally pessimistic and hopes became centered in the spring crops. Mild weather set in early, but on the whole the spring was not particularly favorable, conditions varying a good deal in different parts; however, all the crops were eventually seeded without any important delay. Throughout the southern Grain belt the weather of late spring was too dry, and in July it became very hot. These conditions did not suit spring-sown cereals, of which Barley has turned out a much smaller crop than last year's big one, and Oats (in the South) have been a complete failure, while Spring Wheat also suffered loss of quantity, but appears to be of satisfactory quality. The quality of Winter also is much praised, but the quantity is bound to be short, particularly in the Southwest, where there are districts which report a total failure of this and all other crops. The Southeast sent unfavorable reports of Spring Wheat at one time, but latest news is fairly good, and the large Spring Wheat crop of the middle and upper regions of the Volga is reported to be very satisfactory. To-day we hear by cable from Eupatoria that shipments of new Grain (probably of Barley) have commenced, and the movement outwards generally is fair, although our latest advices have all mentioned small supplies.

Roumania—Dry weather in September and the earlier part of October greatly hindered the seeding of fall Wheat. By about the middle of October sufficient rains had fallen and as the early part of the winter was mild, the young crops had a fair start. Rather severe frosts with little snow occurred in January, but appeared to do no harm to the crops, and later when severe frost occurred in March the crops had good cover. The spring was not far advanced, however, before complaints of drouth began to be heard, and although some rain fell from time to time, the quantity was generally insufficient, and as a result Spring crops were greatly damaged and the Wheat yield reduced by about one-third, but the quality is reported to be excellent. Corn and fodder crops have likewise been severely damaged, but rains have now fallen, which have relieved the situation to some extent and permitted growers to start plowing.

Bulgaria—The winter crops were seeded in good time and wintered without harm, although the snow cover was rather scanty. The weather continued favorable during the spring and although there were some complaints of drouth the winter crops appeared to take no harm from the dry weather. Rains fell towards the end of May, but were not sufficient to prevent damage to spring crops, and Corn is very poor indeed in some parts.

Austria-Hungary—Drouth caused some delay to seeding in Hungary and in some parts the seed did not germinate satisfactorily. Conditions during the winter and early spring were generally favorable, but in May the weather turned hot and dry and very soon there were reports of much crop damage, both winter and spring sowings being affected. Dry weather has mostly continued to prevail since, and although this permitted the gathering of the short Wheat crop in fine condition, it has caused serious damge to Corn and fodder crops. The latest official indication for Wheat is 127,200,000 bu, against 157,600,000 bu last year. The scarcity of fodder has induced the officials to lower freight rates for these articles on the State railways, and this would seem to have started a rumor that the import duty on Corn was to be suspended, of which, however, there is no confirmation. The Austrian crops likewise suffered damage from heat and drouth.

France—The weather was not at all favorable for plowing and seeding in the autumn of 1903, wet weather causing more or less delay in most parts, while in the South there were some complaints of drouth. The bulk of the work was finished by about the middle of November, the only lands which then remained to be seeded being the Northern fields, which had carried a crop of Beet Root. It was found, however, when the official return was issued in February that there was a decrease in the area of roundly 300,000 acres, but extra spring sowings more than made good this loss. The condition of the new plant gave rise to some complaints in the early part of the winter, but later seasonable weather and moderate frosts brought it into more satisfactory shape. However as the winter continued mild and generally snowless, complaints of forward growth and of fields infested with weeds and vermin became frequent, but they gradually ceased to be heard as spring brought favorable weather, until when April and May arrived the condition was considered so good that it could hardly be bettered, the only discordant note being from the drouthy South. June commenced with stormy weather, and it was not long before reporters began to say that the ear was light and the plant thin, and from then onward reports have become less and less favorable as regards actual and prospective yields, but except as regards prematurely ripened Wheat grown on light lands, quite favorable as regards the quality. The latest news we have is to the effect that threshing returns are even smaller than expected, and there is more mention of light, shrivelled Grain. There is little reason to suppose that France will have to import Wheat for home consumption in the coming season, but she certainly has not reaped the big crop which was at one time expected.

Germany—After a harvest of mostly unsettled weather a welcome change came in time to allow the winter crops to be seeded under favorable conditions. The official estimate for November gave the Wheat condition as equal to 80 per cent, and by the time frost set in the plant was judged strong enough to withstand any ordinary wintry weather. The winter was not very seasonable, and some fears were expressed from time to time, but any damage done was trifling, and the crop came through the winter with a condition that was estimated at 80 per cent in the April official report. The weather during the spring was uniformly favorable for the crops, the condition of which improved, Wheat gaining 2 per cent, but later this gain was lost owing to drouth and heat. Some rains have relieved the drouth a little, but latest reports for fodder crops, Oats, and Potatoes are distinctly unfavorable. The dry weather, however, has given a splendid time for harvest.

Italy—Drouth in September and October delayed sowings, and when the rain came at the end of the latter month, such large quantities fell that floods resulted and these caused further delay and some damage in some northern districts. By the end of November the crops were all sown and agricultural conditions were officially returned as good. The winter was mostly mild and wet, the effects of which were seen later in rank growth and weedy fields. In June there were complaints of drouth, especially from the south, and later it was announced that the drouth had caused rather serious damage in southern districts and Sicily. Official bulletins have since announced that the crop has given yields below expectations.

Spain—The autumn of 1903 was drouthy and there was no effective relief until the end of December, and then the fall was so heavy that it caused further delay to seeding. In the early spring the outlook was quite favorable, but the heat and drouth in May and June lowered the condition considerably. The harvest turned out below expectations, and even where the promise had been considered good, estimates have been reduced.

Argentina—Weather conditions continue favorable for the new crops, which are making excellent progress. It has been officially stated that the frost did no harm and that recent rains have done much good. The export movement last week was fair and stocks increased moderately.

Australasia—Mail advices from Australia to hand this day are of a very optimistic character. At date of report the Victorian crop was covering the ground and showing a good strong growth. The effect of recent charterings is now seen in increased shipments, nearly 800,000 bu being put afloat last week, which is certainly phenomenal for this advanced period of the season.

Belgium and Holland—The weather continues very hot and rain is also wanted here.

Sweden—Dry, hot weather is thought to have greatly lowered the condition of the crops.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

WEATHER BUREAU REPORT.

Spring Wheat—Harvest is generally finished except in North Dakota and Northern Minnesota, where rust is continuing to cause great injury. Rains in North Dakota in latter part of week interrupted harvesting. Harvesting is also nearly finished on North Pacific Coast.

Principal Corn States experienced a week of favorable conditions: abundant rains having fallen throughout the belt, except in portions of Ohio and Nebraska. Corn made satisfactory progress in the States of the Missouri Valley and is generally improved in Central Mississippi and Ohio Valleys, although considerable part of the crop in Ohio Valley is injured beyond recovery. In middle Atlantic States and lower Missouri Valley's early Corn is now practically matured.

ITEMS OF GENERAL INTEREST.

New York Exchange 30c discount.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $25,569,256.

First sale of Lard for May delivery made to-day at $7 25.

Reported that 80,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 13,200 Hogs to-day; shippers, 2,500; left over, 4,000. Market closed weak.

Bradstreet's report on the world's available supply of Wheat will not be given out until to-morrow (Wednesday).

Estimated receipts for to-morrow: Wheat, 77 cars; Corn, 98 cars; Oats, 210 cars; Rye, 7 cars; Barley, 9 cars; Hogs, 24,000.

Local Securities were active and mostly higher. The best advances were in Can preferred, Diamond Match and Carbon preferred. Biscuit was easier.

Reported that *Northwestern Miller* has issued a special report, saying that the Northwest will raise 170,000,000 bu Wheat, and there is little rust in Manitoba.

The stock of Flax Seed at Duluth on Aug. 20 was 5,207,255 bu. compared with 5,632,500 bu the previous week—a decrease of 425,245 bu. Stock last year, 1,384,781 bu.

Cotton in New York is receiving more attention. "Shorts" were good buyers. Crop reports were favorable, but prices were irregular, and closed higher on distant futures.

The receipts of Wheat at Liverpool during the past three days were 288,000 bu, of which 104,000 bu were American. Receipts of Corn, 96,000 bu, of which 16,000 bu were American.

Stocks in New York were active and made good advances early, but sold off on realizing sales. The gains were all lost and fair net declines established on many shares. London was a good buyer. Money ⅞ to 1 per cent.

The Winnipeg *Commercial* says: "Grain men may talk wisely about rust and discount the crop possibilities to the fullest extent, but when hundreds of merchants from the country arrive on the scene with practically the same tale of splendid crop prospects, no rust to speak of, the business men relegate grain market theories and rumors to their proper, subordinate position."

Broomhall's weekly foreign crop summary says: "United Kingdom—Reports regarding Wheat are a shade better, but on Oats less favorable. France—Crop reports are "bullish" in most cases. Germany—There are fair supplies of new Wheat, quality of which is good. Outlook for fodder crops improving. Russia—At some ports arrivals of new Wheat are fair to good, with quality excellent, but at Odessa receipts very small and Grain of poor quality. Roumania—Rains needed to admit of plowing. Hungary Is buying cargoes of Argentine Corn. Sweden—Heavy rains have stopped harvesting. India—Crop situation satisfactory."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is quiet, buyers holding back awaiting the effect of the reaction in Wheat values on the market.

WINTER WHEAT—Ruled weaker and prices 1@1½c lower. Demand good at the decline and a large business was transacted in car lots of fresh arrivals. No. 2 Red in store nominally $1 09@1 09⅞, and fresh arrivals free on board sold at $1 10½@1 11. No. 3 Red fresh arrivals sold free on board at $1 06@1 10¼ and at the river at $1 07@1 08¼. No. 4 Red fresh receipts free on board sold at $1 01@1 08¼ and at the river at 99¼c@$1 00. No Grade Red sold at 96c. No. 2 Hard fresh arrivals free on board sold at $1 08⅝@1 09½, and at the river at $1 08¼. No. 3 Hard fresh receipts sold free on board at $1 04@1 09 and at the river at $1 03@1 06. No. 4 Hard sold free on board at 99¼c@$1 02 and at the river at 97½@98c. No. 3 White sold at $1 05½c and No. 4 White at $1 07.

SPRING WHEAT—Was again quiet. Very little arriving and market steady. No. 1 Northern nominally $1 15@1 18. No. 2 Northern nominally about $1 10@1 12. No. 3 Spring nominally $1 00@1 05. No. 4 Spring quotably 80c@$1 02 for poor to good.

REGULAR WHEAT—Just a fair trade, the bulk of which occurred the first half of the session. Feeling developed was weaker, and the close showed the new September off 1⅜c, while December lost 1⅝@1¾c and May 2⅜c. Liquidation of "long" property was quite general from the start, and a good share of the May offerings were credited to the Northwest. Support at the time was of the indifferent kind, though at the decline "shorts" accepted fair quantities. Manitoba advices were less sensational, the weather more favorable, receipts liberal and cables easier. Liverpool quoted spot steady to ½d higher and futures ⅝@⅞d lower. Receipts there the past three days 288,000 bu, of which 104,000 bu came from America. London ½@1d lower and Paris steady to ¼c lower. Antwerp was unchanged. The map showed clear weather and slowly rising temperatures over Manitoba, the Northwest, West and Southwest. Showers were predicted for Minnesota, the Dakotas and Nebraska. Minneapolis, late in the session, wired that the *Northwestern Miller* was out with a report that the three States would raise 170,000,000 bu, and claimed no rust in Manitoba. Souris, N. D., wired: "Slightly damaged by rust; harvesting commenced; prospect average crop; weather all that could be desired." Rugby, N. D., wired: "Harvesting commenced; Wheat fine; weather all that could be desired." Winnipeg wired: "Three-quarters Manitoba Wheat badly damaged by rust; crop in Territories green and late; great danger from frost. Damage by frost reported from Regina, Lumsden and Moosomin." Winnipeg wired: "Weather ideal again, nothing definitely new about rust damage, but estimate crop cut down one-third, principal elevator companies and exporters who know best about the situation bought our October Wheat freely yesterday; they had not touched it before, and country dealers who had previously sold "short" covered their sales." Calgary, N. W. T., wired: "Frost nipped Wheat Saturday night and still cold." The Government weekly weather bulletin was construed as rather "bullish." Primary receipts were 16,000 bu smaller than last year. Kansas City and St. Louis received 309,000 bu, against 419,000 bu. Smaller receipts were predicted in the Southwest. Stocks here in all positions were reported 2,687,000 bu, an increase of 195,000 bu, against a stock of 5,328,000 bu one year ago. Contract stocks increased 15,363 bu last week and now include 454,370 bu, against 1,540,276 bu one year ago. Receipts at Duluth 59 cars and at Minneapolis 145 cars, a total of 204 cars, against 215 cars yesterday, 212 cars a week ago, and 174 cars last year. Local receipts included 101 cars Winter, 3 Spring and 2 car mixed, a total of 106 cars, against 168 cars last year. Included in the above were 7 cars of contract grade. There were 19 cars taken from unlicensed elevators. The estimated receipts for to-morrow are 77 cars. Withdrawals to-day were 10,000 bu. Receipts at Western points were 796,696 bu, against 812,892 last year. At Eastern points 182,685 bu, against 399,264 bu last year. Shipments from Western points were 515,113 bu, against 260,651 last year, and from Eastern points 23,600 bu, against 209,600 last year. Shipments of Flour were 19,282 brls. Exports of Wheat in Flour were equal to 120,369 bu.

Future Deliveries of Regular Wheat—Trade fair at lower prices.

SEPTEMBER—Old Style—Sold at $1 09½@1 10⅝. Opened with sales at $1 09⅝; sold to $1 09½, to $1 10, to $1 09¾, to $1 10⅜ to $1 10 and closed at $1 10.

SEPTEMBER—New Style—Sold at $1 07¾@1 09¼. Opened with sales at $1 09¼ to $1 09, sold to $1 08½, to $1 08¼, to $1 07¾, to $1 08, to $1 07¾, to $1 08¾, to $1 08¼, to $1 08½, to $1 08⅜, to $1 08⅝, and closed at $1 08½.

DECEMBER—Sold at $1 08⅝@1 10½. Opened with sales at $1 10½ to $1 09½; sold to $1 10, to $1 09¾, to $1 10⅛, to $1 08¾, to $1 09, to $1 09⅝, to $1 09, to $1 10¼, to $1 09⅝, to $1 09⅞, to $1 09, to $1 09⅜, and closed at $1 09¼@1 09⅜.

MAY—Sold at $1 10@1 13. Opened with sales at $1 13 to $1 12; sold to $1 12¼, to $1 12, to $1 12⅝, to $1 11, to $1 12, to $1 11½, to $1 12⅝, to $1 11⅝, to $1 11⅞, to $1 11¼, to $1 11⅛, to $1 11¼, and closed at $1 11¼@1 11⅜.

CORN—A good trade and firmer tone, the close showing September up 1¼c, while December gained 1⅛c and the May 1@1⅛c. While the map showed some improvement, the impression prevailed that the weather was too cool for the growing crop, and Southwestern advices were in the main favorable to the "long" side of the market. Part of the early buying was credited to the East, and was reported due to European crop conditions. Cables, too, were strong and proved quite a "bull" help, as also the general improvement in the call for the cash article, which is said to be very firmly held. Receipts 267 cars were much smaller than estimated and but 98 cars are looked for to-morrow. Professionals and commission houses were good buyers from the start, a feature being the decreased speculative offerings. "Long" lines liquidated yesterday were in many instances reinstated. Stocks here in all positions were reported 3,256,000 bu a decrease during the past week of 919,000 bu. Stock a year ago 4,713,000 bu. Contract stocks were reduced 281,149 bu to 1,768,823 bu, compared with 2,710,337 bu same date in 1903. Liverpool spot 1@1¼d higher; futures steady. Receipts there the past three days 96,000 bu. *Broomhall* reported sales of La Plata cargoes to go to Austria-Hungary, and cash at Liverpool was reported 1¾@2½c higher than the previous market day. Kansas City wired the present weather was not likely to do the crop any good, being very chilly there. Cloudy to-day and showers Wednesday predicted for Illinois, Indiana, Missouri, Iowa and Kansas. Western receipts 481,000 bu; last year 710,000 bu. Shipments 284,000 bu and 411,000 bu respectively. Local arrivals 354,000 bu and shipments 176,000 bu. Withdrawals here 115,000 bu and exports 119,000 bu. Seaboard reported 10 boat loads accepted. Government weekly weather bulletin reported crop making fair progress. Southwestern markets were all higher. Cash sales here 40,000 bu. Car lots in good demand and prices 1c higher. No. 2 closed about 55¾c and No. 2 Yellow at 57c. No. 3 closed at 55½c. No. 3 Yellow sold at 56¾c, and closed at 56½c. No. 4 sold at 55c.

Corn by sample—Was in good demand, with the offerings light. Feeling strong, and prices anywhere from ¼c to 1c higher. Sales on track and free on board: No. 4 sold at 54½@56½c. No. 3 Yellow at 56¾c. No. 2 at 56c. No. 3 White at 56c. Billed through: No. 4 at 53¼@55¼c. No. 3 at 54¼@55c. No. 3 Yellow at 55½@56c. No. 2 at 56c. No. 2 Yellow at 55½c. No. 3 White at 54¼@54½c. No. 2 White at 54½c.

Future Deliveries of No. 2 Corn—Active and very unsettled, closing 1@1⅛c to 1¼c higher.

AUGUST—Inactive. Quoted ⅛c under September. Sold at 55c and closed nominally 55¼c.

SEPTEMBER—Sold at 54@56⅛c. Opened at 54c to 54⅛c and sold at 54⅝c to 54¼c, to 54¾c, to 54⅝c, to 55⅛c, to 54⅞c, up to 56⅛c, to 55¾c, to 56c, to 55⅛c, to 55¾c, to 55⅝c and closed at 55¾c.

DECEMBER—Sold at 53@54¾c. Opened at 53c to 53¼c and sold at 53⅛c, to 53⅞c, to 53¾c, to 54⅛c, to 53⅞c, to 54¾c, to 53¾c, to 54⅝c, to 54⅛c, and closed at 54⅛c bid.

MAY—Sold at 52@53⅝c. Opened at 52⅛c to 52¼c and sold at 52c, to 52⅛@52¼c, to 52c, to 52¾c, to 53⅛c, to 52⅞c, to 52¾c, to 53⅝c, to 53⅛c, to 53⅜c, to 52¾c, to 53⅜c, to 53⅛c, to 53⅜@53⅛c, to 53⅛c, and closed at 53⅛c.

OATS—Were generally traded in and closed ⅛c lower to ⅛c higher. The range was ⅜c. There was good selling by the local element early and buying by them later. Cash interests were good sellers. On the decline commission houses bought. Stocks in all positions have increased 2,498,000 bu the past two weeks and are 3,759,000 bu. Contract stocks gained 63,000 bu last week and are 429,000 bu. Seaboard clearances were 34,000 bu. Arrivals 501 cars with 210 cars expected to-morrow. Cash sales 25,000 bu. Car lots to go to store were steady. No. 4 White sold at 34c. No. 3 White at 34@35c. No. 2 at 32½c. Standard at 34¾@35c and in store closed at 33½@3¾c.

Oats by sample were in good demand and steady with offerings reduced. Sales on track and free on board: No. 4 White sold at 31@34½c. No. 3 at 31¾c. No. 3 White at 33¾@35¼c. Standard at 34¾@35¼c. No. 2 at 32@32½c. No. 2 White at 35@36c. Billed through: No Grade at 31c. No. 4 31¾@34c. No. 4 White 33@34c. No. 3 33¼@34c. No. 3 White at 34¼@36c. Standard at 31¼@35c. No. 2 at 32c. No. 2 White at 34¾@35c. At the river: No Grade at 32c. No. 4 White at 32½@33c. No. 3 at 33½c. No. 3 White at 33@33¾c. Standard at 33½@34c.

Future Deliveries of Contract Oats—Were lower early and recovered.

AUGUST—Closed at 33½c.

SEPTEMBER—Active. Sold at 33½@34c. Opened at 33⅝c to 33¾c, sold to 33½c, to 34c, to 33¾c at close.

DECEMBER—Sold at 34½@35⅛c and at 35⅛c. Opened at 34⅝c to 34⅞c, sold to 34½@34⅝c, to 35⅛c, to 35c sellers at close.

MAY—Active. Sold at 36¾@37½c. Opened at 37c to 37⅛c, sold to 36¾c, to 37¼c, to 37⅛c bid at close.

RYE—Was 1c lower. There was a fair trade in cash under larger offerings, while futures were dull. There were 21 cars received. There were no withdrawals from store here and export clearances from the seaboard. No. 2 fresh receipts sold to go to store at 74c and on track and free on board at 74@75c. No. 3 fresh receipts sold to go to store at 72¾@73c, No. 4 at 72c and No Grade at 70c.

Future Deliveries of No. 2 Rye—Dull. August nominally 72½c; September nominally 73c; December nominally 75c; May nominally 77c.

BARLEY—There was less doing to-day. This was due to smaller offerings. Buyers representing different interests were present. Consignments were taken and the market was soon relieved of the offerings. A steady to firm feeling prevailed. A little new Barley arrived hot and had to be sold low. Postings showed 39 cars inspected in; there were no such receipts, and a good part of this number consisted of cars on the market yesterday. Old Screenings were quotable at 33@42c for poor to choice. Low-grade old Barley musty sold at 37c and better cars for mixing at 40c. New hot sold at 35c. Sound, but common, thin or considerably stained feed Barley sold at 40@43c. Malting, low grade new, about 42@44c. Fair to good, depending on weight and color, quotable at 45@50c. Choice cars salable at 52@53c, fancy above, up to 55c.

SEEDS—More spot Timothy offered and a slow, easy market experienced; in a speculative way the market was neglected. Nominally higher prices quoted for Clover, and Flax was a shade better. The rest inactive and nominal.

Timothy—New Seed is coming forward more freely. Several cars were to-day offered. Some were sold and some remained unsold. Quality was rather irregular; some was badly hulled, rather ordinary. Some demand existed and yet it was tame, with competition absent. Tone of the market rather easy unless possibly on very fine quality. Country lots of new Seed quotably $2 65@2 75 for fair to good, choice to fancy $2 80@2 90 to possibly a shade over, and dark or dirty about $2 50@2 60 depending on quality. Contract old was nominally about $3 80. New crop Seed inactive. Little or no speculative interest was shown. September delivery was finally quoted at $3 02½ bid. October was $2 90 bid and offered at $3 00.

Flax—Tendency of prices was shown in an advance of ½c in the quotations. It was a nominal advance for the market was inactive and nominal in the absence of offerings. Firmness was based on Northwestern markets being higher. Low temperature in that quarter was cited as the cause for the strength displayed. Only 2 cars or 1,800 bu received here and 1 car or 537 bu taken out. At Minneapolis there were receipts of 2 cars, at Duluth of 22 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 25½ bid. No. 1 was salable at $1 18½. Rejected quotable at $1 14@1 18, depending on quality. September $1 18½ bid.

Clover—A further advance in prices quoted. As before the advance was unattended by sales. Market entirely devoid of offerings. Firmness seems to be based on the indications of a short crop. October delivery nominally $13 00. Contract spot Seed was quotably about $12 75. Country lots, common to choice, $9 00@12 50; fancy above. Fair to good $10 50@12 00.

HOG PRODUCTS—Trade was fairly active in the market for Hog Products. Outside orders were not very large, and local trading was fair. Market was a little stronger early, in sympathy with the advance in prices of Hogs, and a few trades were made at slightly improved prices. After the early orders were provided for there was a little pressure to sell, and prices settled back slightly. Toward the close rallied again but the advance was not sustained, and the market closed comparatively easy. A fair business transacted in transferring contracts from September to October at the current differences—about 7½c on Mess Pork and Short Rib Sides and 1c on Lard. Hogs were in fair supply and prices higher. Receipts at the leading Western packing points were estimated at 62,200, compared with 47,000 one year ago. Foreign markets were stronger, and Hams were quoted 6d higher. Domestic markets were steady. Receipts of Product were quite liberal—of Lard and Meats about 42 cars. Shipments were larger than for some time past—of Lard and Meats about 132 cars. Demand on shipping account was rather active, and mainly for domestic wants. Export demand was moderate. Offerings were fair. Sales were moderately free, and prices were fairly well supported.

Mess Pork—A fair trade was reported in Mess Pork, and the feeling was a little unsettled. Offerings were fair and the demand was moderate. Trading largely local. Market opened rather firm and a few sales were made at 2½@5c advance. Later, there was a little pressure to sell, and a weaker feeling prevailed, accompanied with a decline of 5@7½c. Toward the close, more steadiness was manifested, and prices rallied 2½@5c but receded again to medium figures, and the market closed steady. January delivery in fair request. Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $11 75@11 80.

SEPTEMBER—In moderate request and offerings fair. Sales were made at $11 70@11 75. Opened at $11 72½, sold to $11 75, to $11 70, to $11 75, to $11 72½, and closed steady.

OCTOBER—Offerings were not very large and the inquiry was fair. Sales were made at $11 77½@11 85. Opened at $11 77½, sold to $11 85, to $11 80 to $11 82½ to $11 77½@11 80, to $11 80, and closed steady.

JANUARY—Demand was fair, and offerings were not very large. Sales were made at $13 00@13 07½. Opened at $13 02½, sold to $13 05@13 07½, to $13 00, to $13 05, to $13 00, to $13 02½, and closed quiet.

Lard—Trade was fair in the Lard market, and the feeling was steadier. Offerings were not very large, and the demand was fairly active. Foreign markets were unchanged. Market opened firm, and prices were advanced 2½c, but soon receded again. Toward the close, the feeling was stronger, and prices rallied 2½@5c, and the market closed steady. Demand on shipping account was reported moderate, with no particular pressure to sell. Cash lots quotable at $6 85@6 87½. Sales withheld. Loose lots in moderate request with limited offerings. Prices steady at about 50c discount on October figures. Leaf Lard was in light demand, with moderate offerings. Quotably higher at about $6 62½@6 75. Neutral in fair demand, with moderate offerings. Prices quotably higher at $8 00@8 12½ for No. 1, and $7 50@7 62½ for No. 2.

SEPTEMBER—Demand light and offerings were moderate. Sales were made at $6 87½@6 90. Opened at $6 90, sold to $6 87½, to $6 87½@6 90 and closed quiet.

OCTOBER—In rather good demand, with fair offerings. Sales were made at $6 95@7 00. Opened at $6 97½, sold to $6 95 to $6 97½, to $6 95, to $7 00, to $6 97½, and closed steady.

DECEMBER—Quiet, with small sales at $7 00.

JANUARY—In fair request and offerings were moderate. Sales were made at $7 05@7 12½. Opened at $7 05, sold to $7 07½, to $7 05, to $7 12½, to $7 07½, and closed steady.

MAY—Sold sparingly at $7 25.

Short Rib Sides—Rather a good business was reported in Short Rib Sides, and the feeling was unsettled in a general way. Offerings were fair, and the demand was moderately active. Market opened rather steady and in a few instances prices ruled 2½c higher. Later the feeling was easy, and the advance was lost. Toward the close, the feeling was stronger, and prices rallied 2½@5c but receded again rather suddenly, and the market closed rather steady. Shipping demand was fair, and offerings were moderate. Cash lots were quotable at $7 37½@7 50 according to weight.

SEPTEMBER—In fair request and offerings were moderate. Sales were made at $7 32½@7 37½. Opened at $7 37½, sold to $7 35, to $7 37½, to $7 32½, to $7 32½@7 35, and closed steady.

OCTOBER—Offerings were moderately free and the demand was fair. Sales were made at $7 42½@7 47½. Opened at $7 45, sold to $7 47½, to $7 42½, to $7 47½, to $7 42½, to $7 42½@7 45, and closed steady.

JANUARY—Demand was moderate and the offerings were fair. Sales were made at $6 80@6 85. Opened at $6 82½, sold to $6 85, to $6 80 to $6 80@6 82½, to $6 80, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings not very large and inquiry was fair. Green Meats in limited supply with a light inquiry and prices were unchanged. Pickled Meats in fair request, with only moderate offerings and prices ruled steady. Dry Salted Meats were in active demand, with liberal offerings, and prices favored sellers. Smoked Meats called for moderately, and prices well supported. Closing prices were as follows:

GREEN—Hams, av 10@12 lbs, 9⅝@9¾c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9⅝c; 18@20 lbs, 9¼@10c. Skinned Hams, 10⅝@10¾c. Shoulders, 6⅞@7c. Picnic Hams, 7¼@7⅜c; Bellies, 9@11c. PICKLED—*loose*—Hams 10@12 lbs, 9⅞@10c; 12@14 lbs, 9¾@9⅞c; 14@16 lbs, 9⅝@9¾c cash, 9¾@9⅞c August; 18@20 lbs, 10@10¼c; Skinned Hams, 11¼@11⅜c cash, 11¼@11⅜c August. Shoulders 7½@7⅝c. Picnic Hams, 7⅝@7¾c; Bellies 10@11c. DRY SALTED—*loose*—Shoulders 7⅝@7¾c. Short Fat Backs, 6@7½c. Short Clear Backs, 8@8½c. Clear Bellies, 7⅞@8⅜c; Rib Bellies, 7¾@8⅜c. Extra Short Rib Sides 7¼@7⅜c. Extra Short Clear Sides 7¼@7⅜c. Rough Sides, 7¼@7½c. Plates, 5⅝@5¾c. Jowl Butts 4⅞@5c. EXPORT CUTS—*boxed*—Long Cut Hams 10¼@10½c. Rib Bellies—Sales 25,000 lbs av. 18@20 lbs on p. t., 10,000 lbs av. 20 lbs on p. t.

Smoked Meats—Sales 25,000 lbs Rough Sides av. 35@38 lbs at $8 10, 25,000 lbs Short Rib Sides av. 35@38 lbs at $8 12½.

Cooperage—Demand light and offerings not very large. Market rather quiet. Ash Pork Barrels quotably steady at 95@97½c. Oak Pork Barrels were quiet at $1 05@1 07½. Lard Tierces in fair demand and prices steady at $1 25@1 27½. Sales were 250 Lard Tierces at $1 25.

High Proof Spirits—Steady at $1 28 for finished goods.

Hay—Receipts, 515 tons; shipments, 5 tons. Market quiet all round. Supply liberal and demand only fair. Choice Timothy quotable at $14 00@15 00. No. 1 Timothy at $12 50@13 50. No. 2 Timothy at $11 00@12 00. No. 3 Timothy at $8 00@10 00. Choice Prairie at $9 50@10 00. No. 1 Prairie at $9 00@9 50. No. 2 Prairie at $8 00@8 50. No. 3 Prairie at $7 00@7 50. No. 4 Prairie at $5 00@6 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay.

Sales were: ON TRACK—Not Graded Timothy—1 car at $10 00, 1 car at $11 00, 1 car at $11 50, 7 cars at $12 00, 1 car at $12 25, 1 car at $12 50, 3 cars at $13 00. Not Graded Prairie—1 car State at $6 25, 1 car Iowa at $9 00, 1 car Kansas at $8 50, 1 car at $9 00, 1 car at $9 50.

FREE ON BOARD AND SWITCHED—Not Graded Prairie—1 car Indiana at $7 00, 1 car Kansas at $10 50.

Straw—Rye Straw quotable at $6 50@7 50, Wheat Straw at $5 50@6 50, and Oat Straw at $5 50@6 00. Sales were: ON TRACK—Oat—1 car at $5 50.

IMPORTS OF FLOUR AND WHEAT.

[From the Liverpool Corn Trade News.]

The following table exhibits the Imports of Flour and Wheat into and on passage to the following countries from August 1, 1904, to August 6 1904, compared with the corresponding time in 1903:

Countries—	1904, bbls.	1903, bbls.
United Kingdom	6,408,000	5,997,000
France	396,000	440,000
Belgium	1,000,000	544,000
Holland	888,000	528,000
Germany	431,000	218,000
Italy	561,000	424,000
Spain	.....	.....
Portugal	.....	.....
Greece	56,000	48,000
Scandinavia	104,000	56,000
Austria-Hungary	8,000	.....
North Africa, etc	.....	.....
Other countries	1,256,000	916,000
Totals	9,112,000	7,236,000

EXPORTS OF BREADSTUFFS.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Breadstuffs from the following countries from August 1, 1904, to August 6, 1904, compared with the corresponding time in 1903:

Countries—	1904, bbls.	1903, bbls.
America	1,776,000	84,000
Russia	74,000	1,176,000
America	.....	40,000
Sweden	.....	.....
Roumania and Turkey	191,000	.....
Algeria and Tunis	120,000	80,000
Total	728,000	1,296,000

EXPORTS OF RYE.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Rye from the following countries from August 1, 1904, to August 6, 1904, compared with the corresponding time in 1903:

Countries—	1904, bushels.	1903, bushels.
Russia and Danube	1,368,000	264,000
America	.....	40,000
Germany	96,000	80,000
Total	1,464,000	384,000

EXPORTS OF CORN.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Corn from the following countries from November 1, 1903, to August 6, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bushels.	1902-3, bushels.
America	81,360,000	64,814,000
Russia	12,961,000	11,993,000
Danube and neighborhood	30,342,000	23,752,000
Argentina	7,300,000	14,416,000
Other Countries	472,000	2,160,000
Total	126,372,000	141,124,000

WORLD'S EXPORTS OF BREADSTUFFS.

The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1904, to August 20, 1904, compared with the corresponding period in 1903:

Countries—	1904, bu.	1903, bu.
America	11,381,000	24,184,000
Russia	12,104,000	13,530,000
Danubian	6,296,000	6,536,000
India	7,300,000	7,300,000
Argentina	9,864,000	8,304,000
Australasia	2,936,000	.....
Austria-Hungary	696,000	696,000
Chili, North Africa	1,528,000	1,368,000
Totals	56,350,000	61,961,000

THE WEATHER CONDITIONS.

The weather map shows clear weather and slowly rising temperatures over Northwest, West and Southwest and Manitoba.

The indications are for cloudy and threatening weather extending into Mississippi Valley and lake region to-night, with rising temperature except in Northwest, where they will remain unchanged.

ITEMS OF GENERAL INTEREST.

Switzerland is reported to have good crops this year, especially Grass and Potatoes.

The output of the St. Louis Flour mills for the past week was 78,400 brls, against 74,900 brls for the previous week.

The plant of the Nubian Paint and Varnish Company, Chicago, was destroyed by fire, Sunday. Loss, $75,000.

The package at Milwaukee since March 1 is estimated at 376,232 Hogs, against 455,505 for the corresponding time in 1903.

Directors of the Chicago Great Western Railroad have decided to pass the semi-annual dividend on the preferred "A" stock.

Average price of good Beef Steers at Chicago for the week ending Aug. 22, was $5 25, against $5 00 the previous week, and $4 40 one year ago.

The National Enamelling and Stamping Company reports for the fiscal year ended June 30: Net profits, $1,040,561; decrease, $776,219.

A telegram from Burlington, Iowa, says: "A furious rainstorm prevailed all over Southeastern Iowa, Sunday, doing considerable damage to standing crops."

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Aug. 6 have amounted to 28,000 bu, against 96,000 bu in the previous year, and 12,000 bu in 1902

The Federal Chemical Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Oct. 1. Books close Sept. 30 and reopen Oct. 2.

A New York exporter wired Friday: "There is a little demand for Corn every day, but it is small, three loads to-day to ports like Glasgow. Germany is buying Corn in Argentina."

The operation of the pooling agreement between the United States and Europe from 4c to 2c will, it is expected, be put through early next year. According to Postmaster General Payne arrangements are being made for at least six days' mail each week both ways with Europe.

The shipments of Flax Seed from India from April 1 to date amounted to 14,688,000 bu (Calcutta 6,784,000 bu and Bombay 4,328,000 bu), against 11,128,000 bu last season (Calcutta 7,160,000 bu and Bombay 3,976,000 bu), and 9,600,000 bu in 1902 (Calcutta 5,896,000 bu and Bombay 3,704,000 bu).

The *Handels Zeitung*, of Buenos Ayres, on July 15 reckoned that Argentina had then still some 16,000,000 bu Wheat for export, and as 6,000,000 bu have been put afloat since, there should now remain fully 9,000,000 bu to be shipped. The calculations of the same journal indicate that of Flax Seed 4,000,000 bu still remain for shipment.

Washington advices say that it can be stated positively that Secretary Shaw will not make a call upon the Treasury deposits in national banks unless unforeseen and unlooked for events should arise, until after the crop-moving season. In fact, he is disposed to use all the means at his command to relieve the financial stringency by their circulation should the situation call for a further increase in supply.

Practically all the members of the Eastern Barb Iron Association have been represented at a meeting in New York during which it was resolved to reaffirm prices. Members of the Nut and Bolt Associations also have reaffirmed the prevailing schedule. Unusual interest was centered in the outcome of these meetings, on account of the fact that they followed so closely the announcement of the cut in the price of wire products.

The People's National Bank at Swanton, Vt., was closed, Friday, by order of the comptroller of the currency. National Bank Examiner Frank L. Fish has been appointed receiver. The cause of the suspension is the inability of the bank officials to collect on a number of notes which were due and held as collateral by the institution. Business men are of the opinion that the creditors will be able to fill and that possibly the bank may be reopened.

Bombay advices of Aug. 11 state: "In the districts of Kathiawar, Gujarat, Khandeish and Deccan, rain has fallen during the past week and improved crop accounts have therefore been received from those provinces. There is, however, more rain needed throughout the Punjab, but elsewhere crops are looking very promising. Total imports and exports for last season are taken the quantity works out at 70,733,000 bu. Only a small part of the difference can be accounted for by the increase of cotton house stocks, which advanced from 3,216,000 bu to 3,312,000 bu.

The *Corn Trade News* of Aug. 11 says: "Favorable harvest weather continues to be reported from the north of France, but there as elsewhere the crop disappoints growers, who are of opinion that the yield will be smaller than last year's, but the quality excellent. In the centre threshing is being done on a large scale, and results are on the whole than had been expected and estimates indicate one-third less than last year's. Growers are slow to offer the new Wheat on provincial markets."

The London *Corn Trade News* of Aug. 8 says: "Fine-ness, which, in its incipient stages, appeared to have been entirely checked by the many weeks of dry, hot weather, has made its reappearance. At least, we have specific information as to its presence at one or more localities in Cornwall, Devon, Dorset, Gloucester, Hants and Sussex, all of which, it will be seen, are southern counties. In many parts of the country the Mangel crop is also reported with spots, which is a most unusual occurrence."

The London *Agricultural Gazette* of Aug. 8 says: "Harvest work, with only slight interruptions, has gone on rapidly in the early districts, and has now become general throughout the greater part of England. As a rule Grain ripens very evenly for the reaping machine, and, as there is no great weight of straw, the work of cutting goes on with exceptional celerity. Carting has made fair progress in the eastern counties, and much Barley and Wheat are to be seen. The bulk of straw is generally small compared with what is grown in most seasons."

Bonabaux's Buda Pesth correspondent, writing under date of Aug. 8, says of Flour: "The firm tendency on this market was further strengthened by the news of the prohibition of Roumanian Corn, which gives rise to apprehensions as to food home consumers, and the total sales this week amounted to about double or treble the production. The prospects for the second half-year are favorable. Mill feeds are also sold more freely, and demand exceeds supply. Almost any price asked was paid and a considerable business is reported for future delivery."

In passing upon the strike of the Coal miners of the Barnum colliery in the anthracite region, Friday, because the scales on which their cars are weighed were said to be short by pounds short, the board of conciliation ordered the strikers back to work, with instructions that if the tronnels was not adjusted amicably to submit it to that body. The board then left for Scranton where a conference, which difficulty it has been feared would result in a strike in the Coal regions, and after a long discussion it was agreed to submit the entire question to Judge Gray of Wilmington, Delaware, Judge Gray was chairman of the anthracite Coal strike commission.

Mail advices dated July 2 from New South Wales, state that during the week previous rain fell covered practically the whole of the Wheat-growing districts in that State, and was heaviest but where it was most needed. The fall of the past two weeks have materially improved the agricultural outlook, while they are also very valuable from a pastoral point of view. The further rain fall has also induced good germination. Wheat a little more freely, with the result that shippers could be tempted to take up some selling tonnage at 2s 8d to 2s 6d, according to size, age, and bag. The new crop is therefore being important from an insurance point of view.

The South Side Elevated Railroad Company has given notice to the holders of its first mortgage bonds that they have been called for payment on Nov. 15 at the office of the Illinois Trust and Savings Bank at 102 and interest. The call for the bonds is based on the terms of the mortgage under which the bonds were issued, providing for a putting out $3,000,000 new bonds to provide funds for the extensions and improvements now under way. The mortgage provides for the redemption by $1,500,000, in called for payment, but only half of it, $750,000, is outstanding. The remainder is in the treasury of the company. It will all be retired, and the new bonds will be issued to provide the mortgage issue on the entire road and extensions.

A New York dispatch says: "Telegrams from the West continue to flood the financial district, but not one has been delivered or understood that they effect hardly warrants the telegraph tolls paid for sending them. They allege, among other things, that the Wheat crop is irreparably damaged; that Corn is suffering, and that the Steel trade is in a bad way. It is understood that complaints have been made, or will be made, to the officers of the telegraph companies sending them out, and that a rigid investigation will be demanded. Among the telegrams were many sent by individuals who were not known to the receivers, and it was considered manifest from their contents that they were intended to depress Stocks and Grain and cash the public."

The management of the steel hoop department of the Carnegie Steel Company has issued orders that the men in the eight-inch department of the plant must report for duty next Monday, otherwise the mill would be declared open and other men employed in their places. A meeting of the conference committee of the Amalgamated Association has been called for Monday to discuss the situation The ultimatum issued by the Steel Trust is a direct blow against the re-unionizing of all its mills in the Manoning and Shenango Valley. As yet the mills at Youngstown and Pittsburg have taken no action, but await the decision of the conference committee.

The chief difference between the present monetary situation and those of the last time in the last five years is that the "outlook for money" has reference now mainly to prospective opportunities for bankers to loan their funds to advantage. While in previous years borrowers were interested especially in the outlook for money as indicating the probabilities of securing the loans which are needed. This distinction is not unimportant now. There was a very similar one in the first six months of 1898. But the surplus in 1898 began to diminish after July 1, and declined from $65,000,000 on July 23 to $41,000,000 on Aug. 13 and to $4,240,000 on Sept. 17. This year the surplus increased from $38,453,675 on June 25, to $57,781,475 on Aug. 13. There are important reasons for this difference. One is that in 1898 the importation of Gold from the Klondike were just beginning; another is that no Gold was received from Japan in 1898.

The report that the Lackawanna Steel Company had cut pool prices on beams and plates and structural plate $5 00 a ton is denied positively by officers of that company. They say that the company is not even making structural plate at present, and its structural mill will not be operating until September, and its plate mill not before October. The present buying of structural material is entirely on the part of those who have immediate delivery, and it is not likely that the Lackawanna could find a market for material which could not be delivered for months to come. Nor only has the Lackawanna made no cut in prices on any of its output, say the company's officers, but it has not been offering material in the Pittsburg market, as some reports allege, and has no intention of doing so under present conditions. Nevertheless, it is known in New York that the company is now making its own prices on all classes of Steel products, with the exception of Steel rails.

The *Chicago Inter Ocean* says: "Reports were current in New York, Friday, that the Warner Sugar Refining Company's plant at Waukegan, Ills., which has just been refitted and enlarged since the disastrous fire and explosion there, would not open for business on Monday as announced. The reason given was that the high price of Corn had reduced the margin of profit in Glucose as the present prices to which any amount that there was no inducement for the new company to begin operations. The correspondent of the *Inter Ocean* saw Mr. Warner in Waukegan yesterday. He denied the rumor, and said that the plant would begin operations again on Monday, as announced, and that a large amount of orders were on hand. He was sure he would get a fair margin of profit. While it is possible that the new Warner plant will be able to make money on the orders which it has on hand, it is also true that the Corn Products Company can reduce the price of Glucose at a point where there is little inducement for anyone to embark in the manufacture of Glucose. This is the dull season, and with Corn bought at the present high prices and falling prices, the Corn Products Company may easily have sought to discourage the opening of the Warner plant by putting the price of Glucose at a point where there is no profit in starting to manufacture it now."

George Rice's suit against the Standard Oil Company for damages estimated by the plaintiff at $2,000,000 was filed in Chicago, Ill., Friday, in the United States Circuit Court, under the provisions of the inter-state law. The personal defendants named in the suit are John D. Rockefeller, William Rockefeller, H. H. Rogers, Henry Rogers, and the other stockholders and officers and directors of the Standard Oil Company. Rice, in his complaint, says that he is a resident of Marietta, Ohio, and for a number of years was engaged in the business of refining Petroleum. He asserts that his business was destroyed and he financially ruined by a conspiracy on the part of the constituent companies of the Standard Oil Company. He says the Standard forced the railroads to charge him freight rates from 10 to 33 per cent higher on his refined product than, while the roads, still under the influence of the Standard, gave it rebates and commissions on rates not obtainable by Rice. Rice also charges that his business was destroyed and appropriated by the Standard Oil Company; that when they refused to discontinue doing business with Rice they were forced to and that opposition stores were established by the Standard Oil Company at which oil, groceries, etc., were sold below cost, and that his agents were bribed to betray him in the business. Rice began his suit originally at Trenton. It is in the Court of Chancery, and says that the Standard Oil Company's charter in that State be revoked and the company be dissolved as illegal.

INSPECTION OF GRAIN AND FLAX SEED.

ITEMS OF GENERAL INTEREST.

New York Exchange 35c discount

Documentary Sterling steady at 484¾.

Chicago Bank Clearings to-day, $26,142,315.

Winnipeg had a car of new Wheat Friday.

Board of Trade memberships are firm at $3,500 bid net to the buyer.

Fire this morning caused a loss of $100,000 at Armour's Glue factory.

Directors of the Chicago Board of Trade have made the Calumet Elevator "B" regular.

Ten packers purchased 17,500 Hogs to-day; shippers, 5,000; left over, 5,000. Market closed steady.

Reported that 24,000 bu Wheat and 112,000 bu Corn were taken at the seaboard to-day for export.

The weather map shows higher temperatures everywhere, and no precipitation except in far Canadian Northwest.

Estimated receipts for to-morrow: Wheat 120 cars; Corn 165 cars; Oats, 193 cars, Rye 7 cars; Barley, 23 cars. Hogs 23,000.

The London *Statist* estimated the world's Wheat crop at 2,893,000,000 bu, against 3,087,600,000 bu in 1903 and 3,031,800,000 bu in 1902.

A telegram from Rugby, N. D., Tuesday, said "Harvesting has commenced. Oats crop looking fine. Wheat crop looking fine. Weather good."

Page & Company of New Orleans, members of the New Orleans and New York Cotton Exchange are reported to have failed. They were caught "short" of Cotton.

Local Securities were fairly traded in and prices moved irregularly. Advances were made in Biscuit, Quaker Oats and Oak Park Elevated, and declines in Can preferred, Street's and Title and Trust Company.

Cotton in New York was extremely active and advanced 30 to 51 points. A feature was the covering for a leading "short" who failed. Liverpool was not as strong as expected, and there was heavy selling on the advance. Closing sales were at gains of 26@51 points.

Chicago banks are now beginning to feel a stronger demand for money. This condition is especially true among the commercial institutions which supply the bulk of currency for crop movements. The movement as yet is very moderate. Rates are firm at 4½@5 per cent.

The members of the New York Stock Exchange are preparing a petition to the governors to have the Exchange closed Sept. 3, the Saturday before Labor Day. The Cotton and the Coffee Exchanges will be closed on that day. It is highly probable that the New York Exchange will close, according to custom, and the Chicago Exchange will follow suit.

Stocks in New York were active and higher. London was a good seller. Home buying took all offerings, orders being well distributed. Advances were substantial in many shares and with few exceptions held well. Union Pacific gained 1½. Industrials, with the exception of Steel, gained ¾ to 2½, and Steel after ½ advance, lost it. Money ⅞ to 1 per cent.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.		1903, bu.	
Wheat east of Rockies	Dec.	330,000	Dec.	7,000
Europe and afloat	Inc.	200,000	Inc	600,000
Total	Dec.	130,000	Inc.	572,000
Corn	Dec.	1,011,000	Dec.	874,000
Oats	Inc	4,022,000	Inc.	866,000

A special to the Chicago *Inter Ocean* says: "Atchison millers says this year's Wheat crop is the worst in twenty years. Much grades No. 4 and 'rejected,' and has not the usual vitality. It weighs only 50 to 54 lbs to the bushel, much of it is bleached, and most of the other troubles to which Wheat is heir seem to have appeared. The millers say the Wheat crop is certain to affect unfavorably the quality of much of the Flour."

"It strikes me it is now a question of frost in the Northwest," said a Chicago commission man, Tuesday, who was there last week. "If it holds off for ten days or two weeks, I think they will have a fairly good crop of Wheat, taking into consideration the increased area in that section. We returned over the Soo line and found that, while a little of the crop is green, a good portion of it is fine color and good stand, with quite a number of fields already cut, while others are about to start, and this week should see them well advanced cutting and threshing."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The reaction in Wheat has caused buyers to withdraw from the market and situation is very dull.

WINTER WHEAT—Was lower in sympathy with the break in the speculative market. Sales show losses of fully 3c as compared with yesterday's prices, and the closing would show even greater losses than that as the futures suffered further decline after the cash lots were nearly all closed out. Demand speculative millers doing but little. No. 2 Red in store nominally $1 04½@1 09½, and fresh receipts free on board sold at $1 08, but closed nominally around $1 06. No 3 Red fresh receipts free on board sold early to go to store at $1 09, and later free on board at $1 06@1 07½. No. 4 Red fresh receipts free on board sold at 98c@$1 04. No. 2 Hard fresh receipts free on board sold at $1 06½. No. 3 Hard fresh receipts free on board sold at $1 04@1 06½, and at the river at 99c@$1 03½. No. 4 Hard fresh receipts free on board sold at 92c@$1 01 and billed through at the river at 96@99c. No. 3 White sold at $1 05@1 06.

SPRING WHEAT—Entirely nominal. Very little arriving and scarcely anything doing. No 1 Northern nominally $1 20. No. 2 Northern nominally about $1 15. No. 3 Spring nominally $1 00@1 08. No. 4 Spring quotably 85c@$1 05 for poor to good, with a sale of choice at $1 08.

REGULAR WHEAT—A large trade, with a continuation of the weakness developed yesterday still lower prices being established. New September declined to $1 03¼, December to $1 01½ and May to $1 06⅝. Closing prices showed declines of 4½c to 4⅞c. Better weather, more favorable crop news and lower cables started renewed liquidation by "longs," and many stop-loss limits were uncovered which added to the early depression. At the decline a better general demand developed, and market for a time displayed a better undertone but reacted and closed near the bottom. Liverpool quoted spot steady to ½d lower and futures 1⅛@1⅜d lower. London came 1½d lower and Paris declined 1½c. Antwerp was 1¼c and Buda Pesth lost ⅛c. Berlin declined 1⅛c. English country markets quiet, with little bidding. French easy and 6d lower on the week. Cargoes on ocean passage dull. Map showed general showers in the Canadian Northwest and partly cloudy Northwest with rising temperatures. The frosts indicated for Manitoba did not materialize. Showers indicated for Minnesota and North Dakota. Minneapolis wired: "Over half receipts here today of Spring Wheat and new Wheat from southern part of State; is of fair quality, grading No. 1 and No 2 Northern." A crop expert wired from Souris, Manitoba: "Territories prospects fair to good. Western Manitoba will run 5@10 bu, commenced cutting, quality poor to fair." Primary receipts were 72,000 bu ahead of last year. Kansas City and St. Louis received 344,000 bu, against 150,000 bu one year ago. Receipts in the Northwest about half of those of one year ago. *Bradstreet's* available decreased 130,000 bu, against 593,000 bu increase for the same period in 1903. Minneapolis stocks decreased 250,000 bu past four days. A railroad official of the Canadian Pacific Railroad at Montreal claimed the crop in Western Canada would equal 65,000,000 bu. Secretary Kansas Grain Dealers' Association estimated yield of that State at 53,000,000 bu. Reports from Grand Forks, N. D., claimed crop was making no progress in ripening and that frost within ten days would cause much injury. Fergus Falls, Minn., reported first threshings showing yield 6 bu and weight 35 lbs. Duluth sold 3 loads direct export. Receipts at Duluth 23 cars and at Minneapolis 138 cars, a total of 161 cars, against 204 cars yesterday, 78 cars a week ago, and 315 cars last year. Local receipts included 50 cars. Winter, no Spring and 1 car mixed, a total of 51 cars, against 111 cars last year. Included in the above were 3 cars of contract grade. There were 20 cars taken from unlicensed elevators. The estimated receipts for to-morrow are 120 cars. Withdrawals to-day were 26,000 bu. Receipts at Western points were 823,867 bu, against 751,876 last year. At Eastern points 68,782 bu, against 382,054 bu last year. Shipments from Western points were 187,727 bu, against 285,290 last year, and from Eastern points 10,100 bu, against 141,850 last year. Shipments of Flour were 9,207 brls. Exports of Wheat in Flour were equal to 51,631 bu.

Future Deliveries of Regular Wheat—Decidedly lower.

SEPTEMBER—Old Style—Sold at $1 05@1 10. Opened with sales at $1 10; sold to $1 07 to $1 07⅞ to $1 05 and closed nominally at $1 05⅛.

SEPTEMBER—New Style—Sold at $1 03¼@1 08¾. Opened at $1 08¾, sold to $1 08, to $1 05¼, to $1 07⅛, to $1 07⅝, to $1 06⅜, to $1 06⅝, to $1 05⅞, to $1 06, to $1 05½, to $1 06½, to $1 05½, to $1 06⅛, to $1 05, to $1 05⅜, to $1 04⅛, to $1 03¼ to $1 03⅞, to $1 03⅝, and closed at $1 03⅝.

DECEMBER—Sold at $1 01½@1 09⅛. Opened with sales at $1 08¾ to $1 09⅛: sold to $1 08¾, to $1 09, to $1 08⅛, to $1 08½, to $1 07⅞, to $1 07¼c, to $1 03¾, to $1 07, to $1 06⅛, to $1 07, to $1 06, to $1 06⅝ to $1 04¼, to $1 06, to $1 01½ to $1 04⅜ and closed at $1 01⅜.

MAY—Sold at $1 06⅝@1 10⅞. Opened with sales at $1 10⅞ to $1 10¼; sold to $1 10⅝, to $1 10⅞, to $1 10, to $1 10½, to $1 09, to $1 09⅛, to $1 08⅛, to $1 09¼, to $1 07⅜, to $1 08¼, to $1 06⅝, and closed at $1 06¾.

CORN—A good trade and market early, all things considered, displayed a comparatively steady tone, but finally yielded the last half-hour, selling off quickly with the severe break in Wheat prices. Closing prices showed September 1⅞c lower, while the December lost 1⅜c and May 1⅜c. Wheat was decidedly weak and the weather and crop news more favorable. There was quite general selling led by professionals, also by warehouse and Provision interests, and the situation for a time was weak. At the decline the demand improved and the market displayed a much better tone, but reacted and closed as above noted. The receipts were small, only 105 cars, against 298 cars last year, and but 169 cars looked for to-morrow. Country offerings very moderate. Liverpool quoted spot ½@1d higher and futures ⅜d higher. Cargoes on ocean passage were held 3d higher. Liverpool cabled market there was influenced by an active spot demand and continued buying of Argentine cargoes by Austria-Hungary. The Iowa weekly crop bulletin was interpreted as quite "bearish," claiming Corn was making rapid growth, a large part of the area showing heavy stalks and good progress in earing. Illinois bulletin claimed the general outlook in the region of heaviest production continued assuring. The map showed clear weather over the West and Southwest, with higher temperatures. Hastings, Neb., reported weather clear and hot south winds. Fair weather predicted for Nebraska and Kansas, and showers for Iowa, Missouri, Illinois and Indiana. *Bradstreet's* available decreased 1,041,000 bu, compared with 874,000 bu decrease same week in 1903. Western receipts, 361,000 bu; last year, 600,000 bu. Shipments, 527,000 bu and 864,000 bu respectively. Local arrivals 249,000 bu and shipments 424,000 bu. Withdrawals here 154,000 bu and exports only 9,000 bu. Shipping demand moderate and sales 150,000 bu. St. Louis was easy and Kansas City weak. Car lots were in good demand and offerings moderate. Prices were ½@1c lower. Sales almost exclusively by sample. No. 2 closed about 54c. No 2 Yellow closed at 55¼c. No 3 closed at 53¾c. No 3 Yellow sold at 56¼c and closed at 54¾c. No. 4 sold at 56c. New York reported 14 boat loads accepted for export.

Corn by sample—Demand fair, and offerings moderate. Feeling weak and prices were ¼@1¼c lower. Sales on track and free on board No. 4 sold at 53½@53¾c. No. 3 55¼@56¼c. No. 3 Yellow at 56@56¼c. No. 3 White at 55½c. Billed through: No Grade at 53c. No 4 at 53¼@55¼c. No 3 at 54¼@55¼c. No 3 Yellow at 55½@56c. No 2 at 54½c. No 3 White at 54c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled, closing weak and 1⅜@1¾c lower.

AUGUST—Closed nominally 53¼c.

SEPTEMBER—Sold at 53¾@55¾c. Opened at 55⅜c to 55½c and sold at 55⅜c to 55½c, to 55⅜c, to 55¾c, to 55½c to 55⅜c, to 55¼c, to 55½c, to 54¾c, to 55c off to 53¾c and closed at 53¾c.

DECEMBER—Sold at 52⅞@54⅝c. Opened at 54⅛c to 54⅝c and sold at 54⅛@54¼c, to 54¼c, to 54c, to 54⅝c, to 53⅞c, to 54⅛c, to 53⅞c, to 53⅝c, off to 52⅞c, and closed at 52⅞c bid.

MAY—Sold at 51¾@53¼c. Opened at 53¼c to 52¾c, and sold at 53c, to 52⅞c, to 53¼c, to 52½@52⅝c, to 52¾@52⅞c, to 52⅝c to 52⅞c, to 52¼c, to 52⅜c, off to 51¾c, and closed at 51¾c bid.

OATS—Were weak and closed at the bottom at a loss of ⅝@1c. There was heavy selling by cash interests and by "longs" and scattered commission house buying. The break in Wheat and Corn was a factor. Receipts were smaller than expected at 183 cars, and 193 cars estimated for to-morrow. The movement is said to be letting up in some sections as Oats are being stored. Seaboard clearances were 10,400 bu. Cash sales 25,000 bu. *Bradstreet's* increased 4,022,000 bu. Charters 100,000 bu. Car lots to go to store ¼c lower. No. 3 White at 34@34⅛c. Standard at 34½@35c. Standard in store closed at 32¾@32⅞c.

Oats by sample were in fair supply and steady for good, but slow and ½c lower for poor. Some of the Iowa Oats are badly stained, yellow and light weight. These were the most difficult to move. Sales on track and free on board: No. 4 at 32¼c. No. 4 White at 31½@34¼c. No. 3 at 31½@31¾c. No. 3 White at 34½@35c. Standard at 34¾@35¼c. No. 2 at 31¾@32c. No 2 White at 34¼@35¼c. Billed through: No Grade at 33c. No 4 White at 31c. No 3 White at 31@34½c. Standard at 31@34¾c. No 2 at 31¾c. No 2 White at 34½@34¾c. At the river: No Grade at 32@32¼c. No. 4 White at 32½@32¾c. No 3 at 33c. No 3 White at 32½@33½c. Standard at 33½c.

Future Deliveries of Contract Oats—Were weak and lower.

AUGUST—Closed at 32¾c.

SEPTEMBER—Fair trading. Sold at 33⅛@33¾c. Opened at 33¾c, sold to 33⅜c, to 33½c, to 33⅛c at close.

DECEMBER—Sold at 34¼@34⅞c. Opened at 34¾c to 34⅞c, sold to 34¼c at close.

MAY—Active. Sold at 36⅝@37⅜c. Opened at 37c to 37¼c, sold to 37⅜c, to 36⅝c at close.

RYE—Was weaker and prices 1@3c lower for September, with early sales of cash at about same prices as yesterday, but closed lower. The break in Wheat affected the market for Rye. Offerings larger and buyers holding off. There were seven cars received and 10,500 bu taken from private warehouses. No export clearances from New York. No. 2 in store closed nominally about 70c with early sales of fresh arrivals free on board at 74@74½c, and billed through at the river at 72½c. No 3 at the river sold at 71c.

Future Deliveries of No. 2 Rye—Dull and 3c lower. August closed nominally about 70c. September sold early at 72c and closed at 70c. December nominally about 72c; May nominally about 78c.

BARLEY—For stained new Barley, for all below good to choice, there was quoted a weaker feeling. Buyers rather indifferent. They were disposed to ask for concessions. Some said they had for a le less than had previously been obtained. Good to choice at the same time remained steady and firm. Buyers seemed to be favorably disposed toward the better grades. General offerings were only moderate of spot goods and no to arrive lots on sale. Inspected in to-day 11 cars. Choice old Screenings sold at 42c, market quotable at 33@42c for poor to choice. Low-grade old Barley about 38@40c poor, musty, lower. New, common, stained or thin about 44@46c, and good, depending on color and weight, 46@50c. Main sales to-day at 48@50c. Choice was about 51@52c; fancy nominally up to 54@55c.

SEEDS—Very little was done. More Timothy on the market but only a little of it was sold. This line was weak, while all the others remained steady and unchanged.

Timothy—Seven or eight cars of cash Seed were offered. Most of them remained unsold. There was little inclination on the part of the usual buyers to take hold; they were hardly disposed to consider some lots at the prices asked. The market seems not yet to have found a trading level. More general interest was shown though little was done. Futures inactive and heavy. September bids were reduced 2½c. Country lots of new Seed quotably $2 65@2 75 for fair to good, choice to fancy $2 80@2 90 to possibly a shade over, and dark or dirty about $2 50@2 60 depending on quality. Contract old was nominally about $2 80. For September at the close $3 10 was bid. October was $2 85 bid.

Flax—Absence of offerings left the market with nothing to trade in. It was entirely lifeless. Prices the same as yesterday quoted were bid, so there was no particular change in this respect. Little Flax now moving. Locally only 3 cars were received and 1,000 bu taken out. Minneapolis got 1 car and Duluth 4 cars. No 1 Northwestern or No 1 from the Northwest remained salable at $1 25½. No. 1 was salable at $1 18½. Rejected quotable at $1 14@1 18, depending on quality. September $1 18½ bid.

Clover—Was quoted nominally unchanged and quiet, with yesterday's advanced quotations repeated. October delivery nominally $13 00. Contract spot Seed was quotably about $12 75. Country lots, common to choice, $9 00@12 50, fancy above. Fair to good $10 50@12 00.

Other Seeds—Only Mustard quotable at present and that was nominally 75c@$1 10 for common to choice.

HOG PRODUCTS—Trade was rather light early in the day, and the feeling was easy, but a little more interest was manifested later, and a stronger feeling was developed. Hogs in fair supply and prices lower, and Wheat was easier, but these features had little effect in a general way. Outside orders were moderate, and local trading was fair. Offerings were not very free, and the demand was moderately active. Transfers of contracts from September to October were quotable at 7½c on Mess Pork, 7½@10c on Lard, and 10c on Short Rib Sides. Prices were slightly lower at the opening, but advanced moderately later in the day. Toward the close, prices gradually receded again, and closed rather steady. Fair trading in January contracts. Receipts of Hogs at the leading Western packing points were estimated at 58,960, compared with 82,300 one year ago. Foreign markets were steadier, and quotations were advanced 6d on Cumberland Sides and reduced 6d on Hams. Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 21 cars. Shipments were moderate—of Lard and Meats about 88 cars. A fair demand on shipping account prevailed and offerings were not very large. Demand mainly for home wants. Sales were fair and prices moderately well supported.

Mess Pork—Only a fair trade was reported in Mess Pork, and the market was rather easy. Offerings were fair and there was no particular demand from any source. Trading somewhat scattered. Market opened rather easy, and prices about 2½ lower, which was followed by a further reduction of 2½c. Later, a stronger feeling was developed, and prices rallied 5@7½c. Toward the close the feeling was not so firm and prices receded 5@7½c, and the market closed comparatively steady. Shipping demand was moderate and offerings were only fair. Cash lots quotable at $11 75@11 80.

SEPTEMBER—In moderate request and offerings were rather light. Sales were made at $11 67½@11 75. Opened at $11 70, sold to $11 67½, to $11 75, to $11 67½@11 70, to $11 70, to $11 67½@11 70, and closed steady.

OCTOBER—Offerings were somewhat limited, and the demand was moderate. Sales were made at $11 77½@11 87½. Opened at $11 87½, sold to $11 77½@11 80, to $11 80, to $11 77½, and closed quiet.

JANUARY—Demand was fair, and offerings were not very large. Sales were made at $12 97½@13 10. Opened at $13 00, sold to $13 10, to $12 97½, to $13 00, and closed steady.

Lard—A fair trade was reported in the Lard market, and the feeling was stronger. Offerings were not very large, and the demand was fairly active. Foreign advices were unchanged. Market was rather steady early at about the closing figures of Tuesday, but demand was somewhat the larger than the offerings, and a stronger feeling was developed. Prices were advanced 5@7½c, and the appreciation was fairly well supported to the close. Stock gradually enlarging. Demand on shipping account was reported moderate, with no particular pressure to sell. Cash lots quotable at $6 90@6 92½. Sales not fully reported. Loose lots in moderate request with limited offerings. Prices steady at about 50c discount on October figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 62½@6 75. Neutral in fair demand, with moderate offerings. Prices quotably steady at $8 00@8 12½ for No. 1, and $7 50@7 62½ for No. 2.

SEPTEMBER—In moderate request and offerings were somewhat limited. Sales were made at $6 90@6 95. Opened at $6 90, sold to $6 95, and closed quiet.

OCTOBER—Offerings were moderate and the demand was fair. Sales were made at $6 97½@7 05. Opened at $6 97½ to $7 00, sold to $6 97½, to $7 05, to $7 02½, to $7 05, to $7 02½@7 05, and closed steady.

DECEMBER—Quiet, with small sales at $6 97½.

JANUARY—In rather good request and offerings were fair. Sales were made at $7 07½@7 12½. Opened at $7 10, sold to $7 07½, to $7 12½, to $7 10, and closed steady.

Short Rib Sides—A fairly good trade was transacted in Short Rib Sides, and the undertone to the market was stronger. Offerings were fair and the inquiry was rather active. At the opening, the feeling was not very strong, and a few trades were made at 2½c decline. Later, the feeling was stronger, with fair miscellaneous buying and prices were advanced 5@7½c, and the market closed comparatively steady. Shipping demand was moderate, and offerings were fair. Cash lots quotable at $7 37½@7 50, according to weight.

SEPTEMBER—In fair demand and offerings were only moderate. Sales were made at $7 32½@7 40. Opened at $7 32½, sold to $7 35, to $7 32½, to $7 40 to $7 37½, to $7 37½@7 40, and closed steady.

OCTOBER—Offerings were fair and the demand was fairly active. Sales were made at $7 42½@7 47½. Opened at $7 42½ to $7 45, sold to $7 42½ to $7 47½, and closed steady.

JANUARY—In rather good demand and offerings were fair. Sales were made to $6 80@6 85. Opened at $6 80, sold to $6 82½@6 85, to $6 80 to $6 82½@6 85, to $6 80, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices were unchanged. Pickled Meats in fair request with only moderate offerings and prices ruled steady. Dry Salted Meats were in active demand, with liberal offerings, and prices well maintained. Smoked Meats called for moderately, and prices well supported. Closing prices were as follows:

GREEN—Hams av. 10@12 lbs, 9⅝@9¾c, 12@14 lbs 9½@9⅝c, 14@16 lbs, 9½@9⅝c; 18@20 lbs 9¾@10c, Skinned Hams, 10⅝@10¾c; Shoulders 6⅞@7c. Picnic Hams, 7¼@7⅜c; Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅞@10c, 12@14 lbs, 9¾@9⅞c, 14@16 lbs, 9⅝@9¾c cash, 9⅝@9¾c August, 18@20 lbs, 10@10¼c; Skinned Hams, 11¼@11⅜c cash, 11¼@11⅜c August; Shoulders, 7½@7⅜c. Picnic Hams, 7⅝@7¾c, Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7⅜@7½c. Short Fat Backs, 6@7½c; Short Clear Backs 8@8½c, Clear Bellies, 7⅞@8⅞c; Rib Bellies 7¾@8¾c. Extra Short Rib Sides, 7¼@7⅜c. Extra Short Clear Sides, 7¼@7⅜c; Rough Sides, 7¼@7⅜c. Plates, 5⅝@5¾c; Jowl Butts, 4⅞@5c. EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10½c, Cumberland Sides 8@9¼c, Long Clear Sides, 8@8¼c. Extra Long Clear Sides, 8@8¼c. Short Clear Sides, 8@8¼c. SMOKED—*loose*—Hams 11¼@11¾c. Skinned Hams, 12¼@12¾c. Shoulders, 8⅝@9c. Picnic Hams, 9@9⅛c. Short Rib Sides, 8@9¼c. Rough Sides, 8@8⅛c; Short Clear Sides, 8½@9¼c. Extra Short Clear Sides, 7⅝@7¾c; Breakfast Bacon 11@12c.

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $19 00@19 50. Extra Mess Beef $8 50@8 75. Plate Beef, $8 50@9 00; Extra Plate Beef, $9 25@9 50. Tallow steady at 5¼@5½c for edible; 5@5¼c for prime packers; 4⅜@4⅝c for No 1 do and 3¾@4c for No. 2 do; 4¼@4½c for city renderers. 4¼@5c for prime country and 3¾@3⅞c for No 2 do. Oleo-Stearine in fair supply and quotably steady at 7c.

GREASE—Quiet and rather steady at 3¼@3⅜c for brown, 3⅜@3½c for yellow, 3⅝c for house. 4@4¼c for B white and 4½@4¾c for A white.

CASH PRODUCE TRANSACTIONS.

Lake Freights—Charters were for 100,000 bu Oats to Georgian Bay on p. t. The rate to Buffalo was 1c for Corn.

Flour—No sales reported.

Bran—In good demand and firm. Offerings small. Sales were: ON TRACK—1 car to arrive at $17 50.

Middlings—No sales reported.

Winter Wheat—IN STORE AND TO GO TO STORE—No. 3 Red—1 car to go to store at $1 09. No 3 White—1 car to go to store at $1 05.

ON TRACK—No. 2 Red—1 car at $1 08.

FREE ON BOARD, SWITCHED AND DELIVERED—No. 4 Red—1 car at 98c, 1 car at $1 00, 1 car at $1 01, 2 cars at $1 02½, 1 car at $1 03, 1 car at $1 03½, 1 car at $1 04. No 3 Red—2 cars at $1 06, 1 car at $1 06½, 1 car at $1 07, 1 car at $1 07½. No. 4 Hard—1 car at 92c, 4 cars at 97c, 1 car at $1 01. No 3 Hard—1 car at $1 04, 1 car at $1 04½, 2 cars at $1 06½. No. 2 Hard—1 car at $1 06½. No 3 White—1 car at $1 06.

BILLED THROUGH—No 4 Hard—1 car at the river at 96c, 1 car at 98c, 2 cars at 99c. No 3 Hard—1 car at the river at 99c, 6 cars at $1 00, 3 cars at $1 01, 1 car at $1 03½.

Spring Wheat—IN STORE AND TO GO TO STORE—No sales reported.

FREE ON BOARD, SWITCHED AND DELIVERED—No. 4—1 car at $1 04.

Corn—IN STORE AND TO GO TO STORE—No. 3—100,000 bu for shipment on p. t. No. 3 Yellow—2 cars spot and 20,000 bu to arrive at 56½c, 50,000 bu for shipment on p. t. No. 4—2 cars yellow at 56c.

ON TRACK—No. 4—2 cars at 54¾c. No. 3—2 cars at 55¼c. No. 3 White—2 cars at 55½c.

FREE ON BOARD AND SWITCHED—No. 4—1 car at 53½c, 2 cars at 54c, 3 cars at 54¾c, 5 cars part yellow at 55c, 7 cars at 55¼c, 11 cars all yellow at 55½c, 2 cars at 55¾c. No. 3—6 cars at 55½c, 3 cars at 56c, 3 cars at 56¼c. No. 3 Yellow—2,500 bu at 56c, 8 cars at 56¼c.

BILLED THROUGH—No Grade—1 car at the river at 53c. No. 4—12 cars at 53¼c, 2 cars at 53½c, 1 car at 53¾c, 4 cars at 54c, 1 car yellow at 54½c, 14 cars at 55c, 1 car at 55¼c. No. 3—3 cars at 54¼c, 1 car at 54½c, 1 car at 55¼c, 1 car at 55½c. No 3 Yellow—11 cars at 55⅝c, 1 car at 56c. No. 2—1 car at 54½c. No. 3 White—1 car at 54c.

Oats—IN STORE AND TO GO TO STORE—No 3 White—4 cars at 31c, 1 car at 34⅛c, 4 cars at 34½c, 1 car at 34⅛c. Standard—2 cars at 34½c, 1 car at 34¾c, 3 cars at 35c. White Clipped—25,000 bu on p. t.

ON TRACK—No 4 White—1 car at 33½c, 1 car at 34c. No. 3 White—8 cars at 34¾c, 2 cars at 35c. Standard—1 car at 34¾c, 2 cars at 35c, 1 cars at 35¼c. No. 2—1 car at 32c. No. 2 White—1 car at 35½c.

FREE ON BOARD AND SWITCHED—No. 4—1 car white at 32¼c. No. 4 White—1 car at 31½c, 1 car at 33½c, 1 car at 34¼c. No. 3—1 car at 31½c, 1 car at 31¾c. No. 2 White—1 car at 34¼c, 7 cars at 34½c, 1 car at 34¾c, 1 car at 35c. Standard—1 car at 34½c, 3 cars at 34¾c, 1 car at 35c. No. 2—1 car at 31¾c, 1 car light mixed at 32¼c. No 2 White—1 car at 34¾c, 2 cars at 35c, 1 car at 35¼c.

BILLED THROUGH—No Grade—1 car white at 33c, 3 cars white at the river at 32c, 1 car at 32¼c. No. 4 White—1 car at 34c, 4 cars at the river at 32½c, 3 cars at 32¾c. No. 3—1 car white at the river at 33c. No. 3 White—1 car at 34c, 3 cars at 34¼c, 1 car at 34½c, 3 cars at the river at 32½c, 13 cars at 33c, 11 cars at 33¼c, 6 cars at 33½. Standard—1 car light weight at 34c, 19 cars at 34½c, 1 car at 34⅝c, 4 cars at 34¾c, 6 cars at the river at 33½c. No. 2—3 cars at 31¾c. No. 2 White—4 cars at 34½c, 4 cars at 34¾c.

Rye—IN STORE AND TO GO TO STORE—No sales reported.

ON TRACK—No. 2—2 cars at 74c.

FREE ON BOARD—No. 2—1 car 74c, 3 cars 74½c.

BILLED THROUGH—No. 2—1 car at the river at 72½c. No. 3—1 car do at 71c.

Barley—IN STORE OR TO GO TO STORE—No sales.

ON TRACK—by sample—1 car at 38c.

FREE ON BOARD OR SWITCHED—by sample—Old—Screenings—3 cars at 42c. Barley—1 car at 38c, new 1 car at 43c, 1 car at 44c, 1 car at 45c, 1 car at 46½c, 2 cars at 47c, 6 cars at 48c, 5 cars at 49c, 4 cars at 50c, 1 car at 51c, 4 cars at 52c.

BILLED THROUGH—by sample—1 car at 43c, 1 car at 44c.

Timothy Seed—Sales—per 100 lbs—½ car at $2 65, ½ car at $2 70.

Flax Seed—No sales.

Clover Seed—No sales.

Mess Pork—Sales 155 brls on p. t.

Lard—Sales 1,500 tcs regular on p. t.

Sweet Pickled Skinned Hams—Sales 28,000 lbs av. 24@26 lbs on p. t.

Sweet Pickled Picnic Hams—Sales 50 boxes av. 5@6 lbs on p. t., 15,000 lbs do on p. t., 50 boxes av. 6@8 lbs on p. t., 43,000 lbs do on p. t.

Short Rib Sides—Sales 40,000 lbs av. 36 lbs on p. t., 100,000 lbs av. 45@50 lbs on p. t.

Rough Sides—Sales 100,000 lbs av. 35@40 lbs on p. t.

Long Clear Sides—Sales 50 boxes av. 30@35 lbs on p. t.

Short Clear Backs—Sales 50 boxes av. 16@20 lbs on p. t.

Rib Bellies—Sales 35,000 lbs av. 18@20 lbs on p. t.

Dry Salted Shoulders—Sales 50,000 lbs av. 10@12 lbs on p. t.

Smoked Meats—Sales 25,000 lbs Rough Sides av. 35 lbs on p. t., 25,000 lbs do av. 40 lbs on p. t., 26,000 lbs Short Rib Sides av. 40 lbs on p. t.

Cooperage—Demand light and offerings not very large. Market rather quiet. Ash Pork Barrels quotably steady at 95c@$1. Oak Pork Barrels were quiet at $1 05@1 07½. Lard Tierces in fair demand and prices steady at $1 25@1 27½. No sales reported.

High Proof Spirits—Steady at $1 28 for finished goods.

Hay—Receipts, 855 tons, shipments, 38 tons. Arrivals of Prairie Hay smaller and feeling steadier. Demand fair. Timothy Hay in fair supply and demand moderate. Choice Timothy quotable at $13 00@13 50. No 1 Timothy at $11 50@12 50. No. 2 Timothy at $10 00@11 00. No 3 Timothy at $8 00@9 00. Choice Prairie at $9 50@10 00. No. 1 Prairie at $8 00@9 50. No 2 Prairie at $8 00@8 50. No. 3 Prairie at $7 00@7 50. No 4 Prairie at $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay.

Sales were: ON TRACK—Not Graded Timothy—1 car at $10 00, 1 car at $11 50, 1 car at $11 50, 1 car at $12 00, 1 car at $13 00, 2 cars at $13 50. Threshed Timothy—2 cars at $8 50. Not Graded Prairie—1 car Kansas at $9 00, 4 cars at $9 50.

FREE ON BOARD AND SWITCHED—Not Graded Timothy—1 car at $10 00.

Straw—Rye Straw quotable at $6 50@7 50, Wheat Straw at $5 50@6 50, and Oat Straw at $5 50@6 00.

Sales were: ON TRACK—Tangled Rye—Part car at $6 75, 1 car at $7 75. Wheat—1 car at $6 00. Oat—Part car at $5 75.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Aug. 18.]

Wheat.—The past week has been quite an active one for farmers as well as buyers, and a number of large lots have been purchased. Millers were not the only ones in the market to secure Wheat, but exporters and dealers were looking for suitable parcels. A demand that has been expected developed. Orders from Eastern Flour mills were received for club and red Wheats. It is difficult to estimate how much Wheat we will have to supply Eastern milling centers to make up the shortage that exists there. California buyers are also in the market for choice Wheat, and are willing to pay a bluestem to say of the other qualities. Receipts at tidewater have not been heavy as yet. It will be fully a fortnight before any great movement of harvested grain, as farmers are giving their attention to finishing their crops at present before hauling to country warehouses. Large yields are becoming quite common on new lands, and reports from sections of the inland empire indicate average yields from 30 to 35 bu per acre. Anything below that is not heard of. On May 2 the *Review* predicted that this year would be remembered as one in the history of the trade, and, barring climatic conditions, we ought to harvest a crop in the neighborhood of 60,000,000 bu. As harvesting progresses we find that our estimates are rather being borne out, and we have no cause at the present writing to change our views. Exporters are unable at present to pay the prices that are being bid for Wheat for export. The same are entirely out of proportion to the value of cargoes abroad. Club Wheat is quoted 78@78c, bluestem 78@79c, and Valley 80c per bushel.

Flour—There is an unusually heavy call for Flour at the present time for both China and Japan. Steamers that will sail between now and Sept. 15 will have all their cargo room for export demand from Japan is due principally to the duty that will be placed on Flour on Oct. 1. The effect of Japan's increased duty on Flour will not interfere with the trade between that country and Pacific Coast ports. When the large stocks now on hand are worked off, importers over there will buy as liberally as they have in the past. Some millers fear the extra duty as a war measure—that buyers will go slow in expectation of the government's reducing the tax in any event, the increased duty will be borne by the consumers there and not by our millers on the coast. The increased duty, with the increased price of freight after October, will amount to about 81 per bbl. The demand from China is caused at the present time by the reductions in stocks, as the dealers in that country have been exporting quite freely of Flour since they purchased the large stocks from Japan buyers. There are no new developments from the United Kingdom as to Flour, but we would not be surprised to hear of a few cargoes at any time during disputes of the Irish Land Leagues and Central America the demand is fair, and a great amount of Flour going to San Francisco is being shipped to those countries, and San Francisco takes the credit of exporting the cargoes, when in fact it rightfully belongs to this port, owing to the fact that we have no direct steamship line to either country. Quotations are firm. Notwithstanding Wheat has declined and Flour advanced, millers have not as yet advanced their prices. We quote export brands $3 10 to $3 25 per barrel, according to quality; Straights range $3 75 to $3 85 per barrel, and Patents from $4 25 to $4 50 per barrel.

ARGENTINE CROP REPORT.

[From Review of the River Plate, July 15.]

The general rain has saved the situation for the present at any rate. The prolonged drouth, which in some districts had lasted from three to seven months, has been the cause of the loss of a good percentage of the Corn harvest. In the districts where the Wheat and Flax Seed have been sown early in the confidence of expected rains, there will be a necessity to reserve the crop, as warnings have given no result. Especially is this so in the provinces of Cordoba and Santa Fe where they always make an early start, and a goodly proportion of the anticipated yield of Wheat and Flax will be heavily discounted. The frosts have badly cut off numerous Flax areas that were promising well in the province of Santa Fe. In Buenos Ayres province the drouth delayed the sowing, but now the farmers will be able to complete the work, and do the sowing under most favorable conditions.

As to the probable areas to be sown this year in the Republic there is naturally much difference of opinion. Optimistic writers have put it down as an increase of 40 per cent on last year's area. The question of labor alone would seem to render such a thing impossible. There has been no rush of immigrants, or an exodus to the camp from the crowded cities of the Republic, and even should have the colonization syndicates been flooded with applicants during the past year to such an extent as to warrant the assumption of a 40 per cent increase on the sown areas. If such an increase were likely to be correct there would be a big outery for hands at next harvest time, and judging by the complaints made during the harvest just concluded as to the difficulty of obtaining laborers, the outlook would not be pleasant.

We have made a series of investigations among the agricultural implement and machinery firms in the Republic, and they all agree that there has been an increased demand for plowing and sowing machinery during the past year, but that the demand was somewhat checked by the continued drouth; that a growing tendency has been shown to use larger and better plows than formerly, the use of multiple plows are falling off, while those of riding plows, single and gang, are increasing; that there will undoubtedly be an increase in the area sown, as in districts where the Wheat crop was practical y entirely lost last season. Summarizing the information supplied and taking into consideration the reports to hand from various correspondents, we are estimating the increased area to be sown as 10 per cent in advance of last year. It will be time enough to talk of probable yields in a few months from now, when the condition of the growth and progress, together with the weather, locusts, etc., will be known

ARGENTINE CORN FOR ROUMANIA.

[From the Shipping Gazette, Aug. 10.]

For some weeks past shipowners have had the gratification of doing a fairly active business in the River Plate market. Recently, this industry the Eastern markets are the only directions in which anything like decent business has been offering. During the last few days, in particular, there has been quite a spurt in chartering from the River Plate, and it is significant that charterers are asking for options for the Mediterranean and Adriatic, which are such favorite markets. Now this is due to the fact that the Government of Roumania has, owing to the failure of this year's Corn crop, been obliged to prohibit the export of Corn from the country, while to counteract the effect of this prohibition the Hungarian Government is proposing to abolish temporarily the import duty on this food stuff. It will readily be seen in these circumstances that Argentina is called upon to make good the deficiency in Roumania, and that both that country and Hungary, as well as neighboring States, are now importers of Corn. Hence the activity in chartering from the Plate and the options which charterers find it necessary to ask. It is quite likely that business from the River Plate will, therefore, continue brisk for some time to come and that Atlantic Corn will find its way into countries to which it does not usually go. The ill wind which the failure of the Corn crop means to Roumania seems destined to blow some good to the British shipowner.

WEATHER AND CROPS IN ROUMANIA.

[From Special Correspondence of Dornbusch.]

BRAILA, Aug. 4.—Heavy showers, sometimes accompanied by thunder, and cloudy skies, have prevailed during the past week, and the precipitations have been fairly general all over the country. The temperature has fallen considerably, and the land being in better condition, plowing and the sowing of Rapeseed and Colza are being proceeded with. The Corn, where the plant has not withered, has benefited by the recent rainfall, but there is still great uncertainty as to what the yield is likely to be. The area between the districts of Ilfov in Wallachia and Tutova in Moldavia, has undoubtedly suffered very severely by the scorching sun and drouth, and the yield in this large and important area, which, by the way, is the same as classified "indifferent" with regard to the Wheat yield, will be very much reduced. On the other hand the districts to the west of Ilfov in Wallachia, and to the north of Tutova in Moldavia, being rather backward, appear more fortunate, and we hope even to have a good crop of Corn in these quarters. Some people estimate the total Corn crop this year at only 25 per cent of last year's yield, but we are of opinion that it will be more than this, and reported to be a fair to good crop. Harvesting of Wheat and Barley may be considered finished all over the country, and threshing is actively continued.

THE HOP SITUATION.

[New York Producers' Price Current, Aug. 20.]

The Hop market has developed a considerable increase of strength on part of dealers during the past few days, but there are as yet no transactions reported. The reports of the growing crop in Germany have grown considerably worse in the last ten days or so, owing to the continued unprecedented drouth prevailing in that country, and the estimates of the German crop have been lowered considerably. Report from England also are not very encouraging; growers there are not making much headway with picking, and should it, instead of yielding 400,000 cwts, the late estimate, it now looks as if 850,000 cwts would be nearer the figures. Belgium and Austria, however, report their crop in good condition, while France is in some complaining of a lack of rain. Reports from New York State continue exceedingly good; picking of seedlings has commenced and appear to be coming down heavy. The advices on the Coast in contracts has been quite brisk this week, and 32c has been paid. The crop in all three Coast States continues looking well. A speculator who has been buying a large deal of odds for some years has closed out his holdings this week.

ILLINOIS CROP BULLETIN.

SPRINGFIELD, Aug. 23.—The weekly crop bulletin for seven days ending Aug. 22 says: Threshing operations, nearing completion, were hindered some by rains, but the work is well advanced, field threshing being about finished.

A considerable portion of the Corn has been impaired by drouth and firing, some fields injured beyond recovery, but the general outlook in the region of heaviest production continues assuring. Considerable complaint has been made relative to the lateness of the crop and a statement of the average date of killing frost in the fall is opportune at this time. The average date for the northern district is Oct. 11, for the central district is Oct. 11, and for the southern district Oct. 18. A departure from the dates named in the past twenty-five years was of little consequence.

Threshing of Oats, Wheat, Barley and Rye has continued with some interruption during the week. Oats are yielding well and the quality is generally good. The acreage is about as last year.

Wheat in most instances is not giving compensating results.

Pasturage has deteriorated to a great extent.

BRITISH CROPS.

[From the London Times.]

The dry, hot weather which prevailed over the greater part of July exercised a deter.orating influence upon most of the farm crops of Great Britain, the ripening rains in the end of the month having failed too late to show any immediate effect. The chief points brought out as the result of our second special inquiry this season are the marked depreciation in the Bean crop and the still greater decline in the position of the Hop crop, both crops having fallen victims to an almost unprecedented attack of the blight. Conclusion of field crops of Great Britain on August 1, 1904, compared with July 1 and with the average August condition of the ten preceding years:

	Aug. 1, of 10 years Av.	July 1, 1904–1903.	1904.
Crop—			
Wheat	94	93.7	92
Barley	92	91.0	89
Oats	97	89.6	90
Beans	89.5	88.3	90.5
Peas	88	88	91
Potatoes	92	92	90
Roots	88	86.3	90
Grass	88	88.4	95
Hops	93	73.2	75

ITEMS OF GENERAL INTEREST.

National Biscuit Company has cut prices on cracker and decided to put 5c on.

The Standard Tin Plate Company, Cannonsburg, Pa., employing 3,000 men, resumed operations in full Tuesday.

The Laclede Gas Light Company, St. Louis, has declared the regular quarterly dividend, 1 per cent on its common stock, payable Sept. 15 to stockholders of record Sept. 10.

A crop expert writes from Mouris, N. D., Tuesday: "Wheat slightly damaged by rain. Harvesting has commenced. Prospect for average crop. Weather all that could be desired."

The National Self-Winding Clock Company, incorporated in New Jersey, has made a mortgage to the Chicago Title and Trust Company as trustee, to secure an issue of $500,000 of 5 per cent twenty year bonds.

W. H. Dewey, a New York attorney, is asking for proxies for the coming annual election of Colorado Fuel and Iron, his object being to wrest control of the company from the Rockefeller-Gould interests.

The Standard Oil Company announces that it will extend its pipe line system in the Central West about 800 miles at a cost of about $16,000,000. A line will be built from Kansas fields into Illinois, connecting with existing lines to Bayonne, N J.

The Pere Marquette Railroad Company has filed at Muskegon, Mich., a mortgage for $65,000,000 in favor of the New York Security and Trust Company, to cover an issue of bonds to take up an indebtedness of $46,774,000 and to provide for new equipment.

The Pittsburg Coal Company, Saturday, captured one of the largest coal contracts recorded this year. It amounts to 150,000 tons and was placed by the Chicago and Northwestern Railroad The storage centers will be Escanaba, Ashland and Sheboygan.

In the United States Circuit Court at New York, Monday, Judge Lacombe signed an order which puts an end to the litigation against the United States Realty Building Corporation. Judge Lacombe signed the order dismissing the case was reached through an agreement with counsel of the parties to the suit.

The case of the Cattle Raisers' Association against the Missouri, Kansas and Texas Railway, in which exorbitant rates are alleged for shipments of Cattle from Texas to Missouri River points, was opened for a hearing by the Inter-State Commerce Commission in Denver, Sept 13. Testimony has been taken in this case on two previous occasions.

An official of the Burlington Road says: "We have not sent any of our officials on a tour of our lines to size up the crops and reports to that effect are incorrect. We have received reports from our entire system, and they indicate an enormous crop of Corn; in fact, we have practically received no reports of damage. Business is fair with us and a big Corn crop means an active fall for business."

A report was current, Monday, to the effect that the People's Gas Company, Chicago, is preparing data for the purpose of defending dollar gas in the city council and the legislature at the next legislative field next winter. It is said that the gas company will be obliged to spend millions during the next ten years changing its system of supply and methods of manufacture to meet changing conditions, and that this cannot be accomplished if the price of gas is set at 75c per 1,000 feet.

In admitting that the order for 35,000 tons structural material has been placed with the American Bridge Company, officials of the South Side Elevated Railroad, Chicago, say the contract covers all requirements for the proposed extension alone, and the delivery will be only as the Steel is needed. The contract is said to have been made under the conditions that the Elevated Company will be given a very low price, a favorable slump in prices, pending delivery of the last lot of the material.

Traffic officials of both Eastern and Western railroads report a marked improvement during the past week in general business conditions. The high prices of Grain have stimulated sales of merchandise and lumber, and prospects are good for a very heavy freight movement this autumn. An official of the Pennsylvania Lines said Monday: "It looks as though we will soon have our hands full again, still we think we are in such good shape to move the crops that the rush of freight traffic even if there is a big increase in the volume of it."

The *Echo Agricole*, in the issue of the 11th inst., says that it is now certain that the Southern, Central, Eastern and Western provinces will show an important deficit in the crops, especially when compared with last year, but it is the general opinion that the Northern provinces will rather show results, although reports are still very contradictory. The heat and drouth have seriously affected the crops, and What is likely to suffer to the extent of about 25 to 30 per cent. The harvesting of the threshings show only 22 to 24 quintals per hectare, against 30 to 32 quintals last year.

A crop expert sent out by a Chicago commission firm reported from Swan Lake, Manitoba, Monday, as saying: "There are some fields affected by rust, but not enough to cut down the average materially. Many farmers at the last threshing are in many instances from the middle of the North west in the new country up north of Regina state that it has been dry and crop will be light. While there is some rust all over a large section of Manitoba, I do not think it will reduce more than 10 per cent on the whole, and without rust or frost the prospects are for a very large crop."

At a meeting of the Grain Committee of the Chicago Board of Trade and the chief officials of the In-pection Department, Monday, type samples for use in governing the inspection of No. 2 Red and No. 2 Hard Winter Wheat, and also of No. 2 Rye were decided on for this season. The samples of Wheat are right in line with those of last year. Of Oats and Rye the quality is so good that the line was raised slightly. In years when the crop is of excellent quality, as the Oats are this year, the full limit is applied in grading, but in poor years it is necessary to use more leniency.

In the application to the New York Stock Exchange for listing of the new issue of 20,585 shares of stock of the United Fruit Company the treasurer gives a list of the more important of the investment expense items for which the new stock was issued. They are as follows: Purchase of Banana lands and transportation privileges in the Republic of Panama; advances to the Northern Railway (Costa Rica) for construction; purchase of Banana lands in Costa Rica; advances on account of cost of construction of the Costa Rica Banana steamers; purchase of securities of English Company, Elders & Fyffes, Ltd.; purchase of wharf at Philadelphia, Pa.

The *Mark Lane Express*, Aug. 8, says: "Harvest has begun in the home counties. The Wheat is short in the straw in three-quarters of the land, North, South and East; only in the West will it be up to an average bulk. But the quality promises to be good, and there is no scarcity of old Straw; as to the Grain, this is too early to say much, but while there is little to complain of generally in projecting disappointment, there is a good deal to justify a hopeful view. Barley may have felt a greater strain, but we hear very encouraging reports from Ayrshire and the West, generally in Barley is of the first importance. Oats, where well grown, on land which can keep them supplied with sufficient moisture, will not surprise the farmer in a year like this even if they turn out ors. to the acre, and those, too, of excellent mean weight."

The United States Steel Corporation has authorized the American Steel and Wire Company to meet the new concession of $1 00 per ton on wire products made by the Pittsburg Steel Company. This applies in carload lots only. A representative of the Steel corporation says that the recent cut in tin plate products will probably be the last that will be made until near the close of the season. The American Sheet and Tin Plate Company, which made the cut, is in a better market position than most of the other subsidiary companies. A member of the Steel Plate pool denies the report from Pittsburg that the Steel Plate pool has dissolved. He says that a meeting would have to be called before a dissolution of the pool could be effected. He added that while the present market existed for plates there had been technical violations by certain of the members.

The Weather Bureau weekly report on Cotton says: "The general outlook is somewhat improved as compared with conditions reported in previous week, although shedding continues in every State and rust prevails in Central and Eastern Districts. The unfavorable effect of rust and shedding, however, are less pronounced than were reported last week in Texas. The weather conditions were favorable, but the crop continued to deteriorate as a result of rust and shedding and damage by the boll worm in the State. Injury by boll worms in that State is decreasing, but boll weevils continue very destructive in Southwestern, Central, Eastern and Coast Divisions, having caused entire absence of bloom in many localities. Picking is quite general in Texas, except in northern portion, and is in progress in southern portions of the Central and Eastern Districts of the belt."

The *North British Agriculturist*, of Aug. 10, says: "During the past week there have been thunderstorms in Scotland, but rain has fallen in some districts, however, on the Northeast of Scotland there is still a want of moisture. The storms have been followed by bright sunshine and extreme heat, and the crops are ripening to the advantage of the rain. The Grain crops are stretching out a bit, and in the earlier districts they are rapidly changing into their yellow tints, and in a few isolated cases reaping has commenced in Scotland, but a full fortnight will elapse yet before harvest is anything like general on this side of the border. The potatoes and Turnip crop of Hay have benefited greatly by the rains, and so have the green crops. Potatoes have improved greatly in appearance, and Turnips are also coming on fine during the week, but in many districts this latter crop is so much under an average this year."

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours, as compared with the same time last year

NEW CLOVER SEED.

A lot of 3 bags the first Clover of this year's crop, came on the market to-day. It was probably Southern Illinois, Seed, of very nice quality: and it sold at $11 50 per 100 lbs.

ITEMS OF GENERAL INTEREST.

New York Exchange 40c discount.

Documentary Sterling steady at 484¼

Chicago Bank Clearings to-day, $26,934,932.

The London Stock Exchange will be closed Saturday Sep. 3.

The minium rate of discount of Bank of England is unchanged 3 per cent.

Reported that 180,000 bu Corn were taken at the seaboard to day for export.

Shippers purchased about 33 000 Sheep in the local market the past two days

Stocks of Hog Products at Chicago estimated at 47,000 brls Mess Pork, 139,000 tcs Lard, and 22,300,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 112 cars; Corn, 272 cars; Oats, 232 cars; Rye 7 cars: Barley, 31 cars Hogs, 17 000.

Ten packers purchased 15,600 Hogs to-day; shippers, 3,500: left over, 5,000. Market closed steady.

Broomhall estimates the Argentine Wheat shipments this week at 1,600,000 bu, and Corn at 3,600,000 bu.

The Canadian Bankers' Association report the area of Wheat in the Canadian Northwest at 3,420,000 acres, and the yield at 21½ bu in Manitoba and 21 bu in the Northwest Territories

Cotton in New York made good advances, after a weak and lower start, but best prices were not held. "Longs" were good sellers, and Liverpool was also after profits. Closing prices were 10@17 points higher.

Local Securities were active and averaged higher. Can preferred was the feature, advancing 1 point. Swift advanced 1¾, and reacted 1 point. Carbon was scarce and common advanced 1 point. Oak Park Elevated preferred advanced 1 point.

Minnesota weekly crop bulletin says "In the southern part of the State Wheat is a fair crop, but in western counties north of Minnesota Valley serious injury and, in some places, almost total loss by rust. This condition extends northward to the boundary."

The Cincinnati *Price Current* reports the packing of the West for the week at 315,000 Hogs, compared with 375,000 for the week previous and 290,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 9,785,000 Hogs, compared with 9,885,000 for the corresponding time last year a decrease of 100,000 Hogs.

The *Northwestern Miller* says: "Telegrams received from 500 inquiries among millers thoroughly covering three States show far better condition than expected Average yield reported justifies estimate that the total crop exceeds 170,000,000 bu Spring Wheat. Reports from harvesting very encouraging. Our Canadian reports deny extensive rust and claim satisfactory crop"

A Washington dispatch to the Chicago *Record-Herald* says: "'When the Wheat harvest is measured, people will be startled by the results,' declared a prominent official of the Department of Agriculture, Wednesday. 'From all the information I have been able to gather and from personal inspection in the field, I can say that the reports of great damage by rust have not been exaggerated.'"

Stocks in New York were advanced on better commission house buying and a steady accumulation of "long" stocks by the strong interests. Some of the buying was for large lots and absorbed the offerings in a way that made substantial advances Western Railway shares gained ⅜ to ¾. Industrials were ¼ higher to ⅜ lower, Coalers up ⅛ to 1⅜, and Tractions gained ⅜ to 1⅛. Money 1 per cent.

The Cincinnati *Price Current* in its weekly crop summary says. "Important betterment of Corn situation. Large crop, probably 2,500,000,000 bu, is practically assured. Only contingency is serious early frost Northwest reports confirmatory of injury to Wheat, but not essentially enlarging it. Aggregate crop promise practically unchanged. Enlarged Wheat seeding indicated. Grain movement not consistent with supplies and price. Farmers speculatively holding."

Millers' Bureau Association letter to mills says Northwest situation much less alarming, and they claim now 140 000,000 to 150 000 000 bu for the three Northwest States, which they say is as much as or more than last year and of better milling quality Their figures for the Southwest are. Kansas, 60,000,000 to 70,000,000 bu; Nebraska, 28,000,000 to 30,000,000 bu; Oklahoma and Indian Territory, 17,000,000 bu; Illinois, 20,000,000 bu. Illinois they say, is 4,000,000 bu more than last year by State's bureau figures.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and sales for small quantities Millers still adhering to the late advance and best Patents held at $6 80

WINTER WHEAT—Was in good speculative request and some milling demand existed at the late decline, with sales of 25 000 bu No 2 Red reported, besides the car lots of the various grades. Sales show lower prices than yesterday, but there was a recovery and prices ran up above yesterday's top range, but eased off again No 2 Red in store sold at old September price, and fresh arrivals free on board at $1 07@1 08½ No 3 Red fresh arrivals free on board sold at $1 06@1 08 No 4 Red fresh receipts free on board sold at 97c@$1 06 and billed through at $1 04@1 05¾. No Grade Red sold at 92@95c No 2 Hard fresh receipts free on board sold at $1 05@1 07½ No 3 Hard fresh receipts sold free on board at $1 01@1 07, and billed through at $1 06. No 4 Hard fresh receipts free on board sold at 94c@$1 01, and at the river at 94½@97½c. No Grade Hard sold at 85c No. 4 White sold at 96c

SPRING WHEAT—Remains quiet. Very little arriving and scarcely anything doing. No. 1 Northern nominally $1 18. No 2 Northern sold free on board at $1 10 No 3 Spring nominally $1 06@1 08. No. 4 Spring quotably 85c@$1 05 for poor to good.

REGULAR WHEAT—A large trade and nervous, unsettled market, with closing prices ⅜c to 1⅛c higher than yesterday There was an urgent commission house demand at the start, and as local traders in most instances went home "short" yesterday, the buying was of immense volume, causing a sharp rally in all deliveries Toward the close situation turned weak and "long property came out freely, prices receded quickly. The Northwest was credited with liberal purchases and the chief "bull" incentive appeared to be the crop news from Manitoba Cables were all lower, and the map, while posting general rains through the eastern part of Manitoba, showed clear conditions this side the Canadian boundary Fair and decidedly colder weather, however, was predicted for the Dakotas and Minnesota A large exporter at Montreal wired that his Winnipeg office informed him that the Grain Dealers and Bankers, just back from a trip through the Wheat country, report an estimate of the Manitoba crop at 44,000,000 bu, as against 53,000 000 bu one year ago A crop expert wired from Morris, Manitoba: "Central Manitoba rusting badly, cutting general, yield will be smaller than general expectations, weather cold." Elm Creek, Manitoba, wired 'Grain dealers now guess northern crop not over 40,000,000 bu exportable surplus about 8,000 000 bu ' Park River, N. D., wired. 'Harvesting has commenced and will be in full blast this week no damage to amount to anything Weather too cold, not serious; prospect 20@22 bu and more " The *Northwestern Miller* was "bearish," claiming the crop in the three States was equal to last year's and rust damage in Manitoba and Territories minimized by latest reliable news. The *Price Current* stated the movement was not consistant with prices and supplies, and claimed farmers holding speculatively. The same authority estimated a large area would be seeded this fall Liverpool quoted spot unchanged to 2d lower and futures down 1⅞d. London came 2½@3½d lower and Paris was off 1⅛c Antwerp declined ⅝c and Berlin lost 1⅜c and Buda Pesth ⅛c Primary receipts were 23,000 bu larger than one year ago, though Northwestern arrivals were 162 cars smaller Kansas City and St. Louis received 351,000 bu, against 135,000 bu one year ago Flour output for the week was reported 324,000 brls, compared with 386,000 brls same week in 1903. Exports were small. Argentine shipments were estimated at 1 600,000 bu. Duluth advices "bullish," claiming a large part of the crop would not make Flour. Receipts at Duluth 7 cars and at Minneapolis 125 cars, a total of 132 cars, against 161 cars yesterday, 246 cars a week ago, and 234 cars last year Local receipts included 105 cars Winter, 2 Spring and 2 car mixed, a total of 109 cars, against 51 cars last year Included in the above were 1 car of contract grade There were 17 cars and 61,700 bu from unlicensed elevators The estimated receipts for to-morrow are 112 cars. Withdrawals to-day were 7,400 bu. Receipts at Western points were 700,932 bu, against 677,609 last year. At Eastern points 61,817 bu, against 221,270 bu last year. Shipments from Western points were 372,175 bu, against 195,045 last year, and from Eastern points 8,402 bu, against 602,114 last year. Shipments of Flour were 9,757 brls. Exports of Wheat in Flour were equal to 52,314 bu

Future Deliveries of Regular Wheat—Good trade at irregular prices, closing higher than yesterday

SEPTEMBER — Old Style — Sold at $1 04⅞@1 08. Opened with sales at $1 04⅞; sold to $1 07⅜, to $1 06¼, to $1 06½, to $1 06, to $1 08, to $1 06½, to $1 07, to $1 05⅝, and closed at $1 05⅝

SEPTEMBER—New Style—Sold at $1 03⅛@1 06¾ Opened with sales at $1 03⅛ to $1 03½; sold to $1 05½, to $1 04⅞, to $1 05⅛, to $1 04¼, to $1 06½, to $1 06 to $1 06¾, to $1 05, to $1 05¼, to $1 04⅛, to $1 04½, to $1 04, and closed at $1 04

DECEMBER—Sold at $1 04@1 07⅞. Opened with sales at $1 04⅝ to $1 04, sold to $1 05⅛, to $1 04¾, to $1 06⅛, to $1 05⅝ to $1 06, to $1 05½, to $1 06¾, to $1 06⅝, to $1 07⅝, to $1 07⅛, to $1 07⅞, to $1 06¾, to $1 07⅛, to $1 06½, to $1 06¼ to $1 05⅞ to $1 05¾, to $1 05⅛, to $1 05¼ and closed at $1 05¼

MAY—Sold at $1 06¼@1 10⅜ Opened with sales at $1 06¼ to $1 07; sold to $1 08½ to $1 07½, to $1 08⅜, to $1 08, to $1 10¼, to $1 09½, to $1 10⅜, to $1 09¼, to $1 10, to $1 09½ to $1 09⅝, to $1 07⅞, to $1 08⅜, to $1 07⅞, and closed at $1 07⅞

CORN—A good trade with the feeling greatly unsettled. Lower prices ruled early, followed by a substantial advance, none of which was maintained, the close showing losses of ⅝c to 1¼@1⅞c The *Price Current* stated there was important betterment in the Corn outlook and a large crop, possibly 2,500,000,000 bu practically assured, the only serious contingency being an early frost, and was the early "bear" factor There was free selling by elevator interests and professionals, but at the decline buying by "shorts" and commission houses caused a sharp recovery. Part of the buying was credited to Wall Street, while the late heavy selling was by the Southwest and local warehouse interests. Southwestern markets were weak, but Omaha wired the weather man intimated frost was likely to-night. Map showed clear and warmer conditions in the Corn belt, except for occasional very light and scattered showers, and fair and decidedly cooler weather predicted for Illinois, Indiana, Missouri, Iowa, Kansas and Nebraska. Receipts were 167 cars, against 211 cars last year and 272 cars estimated for to-morrow. Country acceptances were placed at 500,000 bu There were 390,000 bu taken from store and local shipments were 247,000 bu, against receipts of 177,600 bu Liverpool quoted spot steady to ⅛d higher and futures ⅛d higher to ⅜d lower. Western receipts, 404 000 bu; last year, 485,000 bu. Shipments, 336,000 bu and 610,000 bu, respectively Argentine shipments this week were estimated at 3,600,000 bu and was one of the late depressing influences Shipping demand fair and sales 50,000 bu Car lots were in good demand and prices ¼@½c higher, but the close was very weak and ¾@1c lower. No 2 closed about 53¼c and No 2 Yellow closed at 54½c No. 3 closed at 53c and No. 3 Yellow at 54c No 3 White sold at 55c No 4 at 55@56c outside for yellow New York reported 17 loads accepted for export

Corn by sample Was in good demand and prices unchanged to ½c higher. Spot offerings very moderate Sales on track and free on board: No Grade sold at 52c No. 4 at 52½@56½c. No 3 at 54½@56½c No 3 Yellow at 56½@57c. No. 2 at 56½c. No 2 Yellow at 57c No 3 White at 55¼@55½c Billed through. No. 4 at 53½@55¼c. No 3 at 54@54¾c. No 3 Yellow at 55¼@55¾c. No 2 Yellow at 55¾@56c No 3 White at 54¼@54½c. No 2 White at 54½c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled selling off sharply the last ten minutes, closing ¾c to 1¾@1⅞c lower.

AUGUST—Inactive and quotable at the close 53c.

SEPTEMBER—Sold at 52⅞@55c. Opened at 53⅞c to 53¾c, and sold at 55c, to 54¼c, to 54½c, to 54⅛c, to 54¾c, to 54½c, to 54¾c, off quickly to 52⅞c, to 53c and closed at 53c

DECEMBER—Sold at 51½@54⅛c Opened at 52¾@52⅞c and 52½c; sold to 53⅞c, to 53⅝c, to 53⅞c, to 53⅝c to 54⅛c off rapidly to 52½c, to 53⅝c to 51⅛c to 51⅞@52c, to 51¾@51⅞c and closed at 51¾@51⅞c

MAY Sold at 49¾@49⅞c and 52½c Opened at 52⅜c to 51⅜c and sold at 52½c to 51⅞c to 52¼c, to 51⅞c to 52⅜c to 51⅞@52¼c to 52⅜c off steadily and quickly to 49¾@49⅞c to 50c to 49⅞@50c and closed at 49⅞@50c.

OATS—Were strong and advanced ⅛@⅜c, but weakened and sold off ⅞@1c closing at the bottom Trading was liberal being influenced by the action of other Grains The buying was scattered and the selling heavy, being by the cash handlers and "longs At the last stop-order holdings came out and increased the break Receipts were 203 cars, with 61 cars Standard Estimated for to-morrow 232 cars Seaboard clearances 53,000 bu. Car lots to go to store were steady to ⅛c lower No. 4 White sold at 33½c. No 3 White at 33½@34½c Standard at 34@34¾c Standard in store closed about 32¼c.

Oats by sample were in fair demand and steady to ⅛c lower. Supply liberal Sales on track and free on board No 4 White 33@34c No 3 31½c No 3 White at 34@35c Standard 34@35c No. 2 31¾c. No 2 White at 34¼@35c Billed through No 4 at 31½c No 4 White at 33@34c No 3 White at 33½@34¼c Standard at 34@34½c No 3 at 31½c No 2 White at 34¼@34½c At the river No 4 White at 31½@32½c No 3 at 32½c No 3 White at 31½@33¼c. Standard at 33@33½c

Future Deliveries of Contract Oats — Were higher early, but closed weak at bottom

AUGUST—Neglected. Closed about 32¼c.

SEPTEMBER—Fair trading Sold at 32½@33⅜c Opened at 33⅛c, to 33⅜c, to 32½c at close

DECEMBER Sold at 33½c and at 34½@34⅝c Opened at 34¼c to 34½@34⅜c, sold to 34½@34⅝c, to 33½c, and closed there

MAY—Active Sold at 35⅞@36c and at 36⅞@37c Opened at 36⅜c to 36½c, sold to 36⅞@37c, to 35⅞@36c, and closed there

RYE—Firmer and prices recovered 1c from the inside figures reached yesterday Demand moderate, and market governed by action of Wheat There were 10 cars received and two cars withdrawn from private warehouse No export clearances from the seaboard No 2 fresh receipts free on board sold at 73½@74¼c, and part car No 4 sold at 68c

Future Deliveries of No. 2 Rye—Advanced 1c above low price yesterday. Demand moderate. August nominally 70½c. September sold at 71c and closed at 71c December sold at 73c and closed at 73c sellers May nominally 78c.

BARLEY—There were moderate offerings of new and the market was bare of old. The new ranged from ordinary to choice quality. Some thin offered, but the demand was only moderate A number of the usual buyers were out of the market There was at the same time about enough demand to take the offerings High grades were quotably steady and all others as rather heavy Twenty-eight cars were inspected in There was some thin new Barley offered Maltsters did not want it and holders did not care to accept such bids as mixers were disposed to make Some of these cars remained unsold New ordinary malting was about 44@46c, common, thin or better weight but stained, for feed or mixing, about 40@43c, but nominal Good malting sold at 47@50c, and choice at 51@53c fancy nominally up to 55c

SEEDS—More life about the Timothy market was shown, with the feeling extremely weak. Flax improved a trifle and a few cars were offered. The first new Clover came in and Clover was a shade easier

Timothy—Less cash Seed fresh arrivals offered Most of yesterday's cars sold in the regular session were disposed of later in the day There remains an appearance of easiness about the cash market but no change in prices quoted Country lots of new Seed remain quotably $2 65@2 75 for fair to good, choice to fancy $2 80@2 90 to possibly a shade over, and dark or dirty about $2 50@2 60 depending on quality. Contract old was nominally about $2 80 There was more doing in September delivery. Late in the session there came out fair offerings. They were buyers for a fair quantity, and at $3 00 9 cars were taken; it remained offered at this price, and buyers became filled up October was called nominally $2 90, for $2 85 was bid

Flax—Prices rose to ½c advance, due mainly to a higher market in the Northwest. A few cars of cash Flax were to-day offered, more than for some time past Three cars or 2,700 bu inspected in and one car or 1,000 bu taken out. At Minneapolis and Duluth 2 cars were received at each point No 1 Northwestern or No 1 from the Northwest sold at $1 26, and No. 1 at $1 19. Rejected quotable at $1 15@1 19, depending on quality. September $1 19 bid

Clover—Was nominally weaker, with a slight reaction from the late advance. Prices have gone up rapidly of late under a demand in some markets from "shorts," and this demand has to a considerable extent been filled up. Quoted as follows October delivery nominally $12 75 Contract spot Seed was quotably about $12 60. Country lots, common to choice, $9 00@12 25, fancy above Fair to good $10 50@12 00.

Other Seeds—Entirely nominal Market without offerings

HOG PRODUCTS—Rather a good trade was reported in Hog Products, and the feeling was unsettled in a general way. Hogs were in fair supply and steady, and the Grain markets were stronger early, and these features had some influence on the market for Products Outside orders were moderate, and local trading was fair Some trading in transfers of contracts from September to October at 7½@10c on the leading articles Market opened rather steady, with light trading, but a stronger feeling was developed, and prices were advanced all around. Toward the close there was considerable pressure to sell and a weak feeling was developed. Prices declined materially, and the market closed easy Trading in January contracts was only fair. Receipts of Hogs at the leading Western packing points were estimated at 51,500, compared with 55,000 one year ago Packing of the West for the week increased 55,000 Hogs compared with last year. Foreign markets were stronger and prices were advanced 6d on Backs and Cumberland Sides, and 3d on Lard Domestic markets steady Receipts of Products were small of Lard and Meats about 6 cars. Shipments were moderate—of Lard and Meats about 95 cars Shipping demand was fair, and offerings were moderate Sales were not very large, and prices were unchanged

Mess Pork—Trade was only fair in the market for Mess Pork, and the feeling was unsettled Offerings were rather free, and the demand was fair Stock decreasing slowly Market opened rather steady, with light trading Later the feeling was stronger, and prices rallied 5@7½c. Toward the close, there was considerable pressure to sell and a weak feeling prevailed Prices receded 15@20c and the market closed easy Shipping demand was moderate and offerings were limited Cash lots quotable at $11 65@11 70.

SEPTEMBER—In fair request and offerings were rather free. Sales were made at $11 60@11 75 Opened at $11 67½, sold to $11 75, to $11 60 and closed easy.

OCTOBER—Offerings were rather free and the demand was fair Sales were made at $11 67½@11 85 Opened at $11 77½, sold to $11 85 to $11 67½ and closed steady.

JANUARY—Demand moderate, and offerings were fair. Sales were made at $12 85@13 05. Opened at $13 00, sold to $13 05, to $12 90 to $12 92½, to $12 85, to $12 87½, and closed steady.

Lard—Only a fair trade was reported in the Lard market, and the feeling was unsettled in a general way. Offerings were fairly large, and the demand was moderate Foreign advices were favorable to holders Stocks reported smaller Prices ruled 2½@5c higher early, but toward the close receded again 5@7½c, and the market closed steady around inside figures Demand on shipping account was reported moderate, with no particular pressure to sell. Cash lots quotable at $6 90@6 92½ Sales not fully reported Loose lots in moderate request with limited offerings Prices steady at about 50c discount on October figures Leaf Lard was in light demand with moderate offerings Quotably steady at about $6 62½@6 75, Neutral in fair demand, with moderate offerings Prices quotably steady at $8 00@8 12½ for No 1, and $7 50@7 62½ for No. 2

SEPTEMBER In moderate request and offerings were somewhat limited Sales were made at $6 90@6 97½ Opened at $6 95 sold to $6 97½, to $6 90@6 92½, and closed quiet

OCTOBER Offerings were moderate and the demand was fair Sales were made at $7 02½@7 07½. Opened at $7 05 sold to $7 07½@7 05 to $7 07½ to $7 02½ and closed steady

JANUARY In moderate demand with no particular pressure to sell. Sales were made at $7 07½@7 12½ Opened at $7 10, sold to $7 12½, to $7 07½, and closed steady

MAY Quiet and sold at $7 25

Short Rib Sides—A fair business was transacted in Short Rib Sides, and the feeling was unsettled Offerings were moderately large, and the demand was fair Supply gradually enlarging—manufacture fair and receipts rather liberal Market opened rather steady and later prices were advanced 2½@5c, but toward the close settled back 5@7½c, and the market closed steady at about inside figures Shipping demand was fair, and offerings were moderate Cash lots quotable at $7 30@7 40 according to weight

SEPTEMBER Demand light and offerings were fair Sales were made at $7 35@7 42½ Opened at $7 37½, sold to $7 42½ to $7 35 and closed steady

OCTOBER—In rather good demand, with moderate offerings. Sales were made at $7 47½@7 52½ Opened at $7 47½ sold to $7 52½ to $7 47½ and closed quiet

JANUARY Inquiry moderate and offerings were fair Sales were made at $6 75@6 82½ Opened at $6 82½, sold to $6 75, and closed steady

Other Meats—Trade was only fair and mainly on domestic account Exporters bought sparingly. Offerings not very large and inquiry was fair Green Meats in limited supply with a light inquiry and prices favored buyers Pickled Meats in fair request with only moderate offerings and prices ruled steady. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled easier. Smoked Meats called for moderately, and prices well supported Closing prices were as follows

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for eight weeks, from June 27 to Aug. 22 with comparisons, as compiled by the Cincinnati *Price Current*:

	1904.	1904.
	Bushels.	Bushels.
St. Louis	6,416,000	5,221,000
Toledo	1,180,000	2,005,000
Detroit	367,000	278,000
Kansas City	8,740,000	3,810,000
Winter Wheat	15,853,000	13,578,000
Chicago	1,130,000	2,367,000
Milwaukee	82,000	660,000
Minneapolis	6,916,000	6,415,000
Duluth	1,894,000	850,000
Spring Wheat	10,022,000	10,292,000
Aggregate, 8 weeks	25,875,000	23,870,000
Winter, past week	3,681,000	2,394,000
Spring, past week	2,160,000	1,780,000
Total week	5,841,000	4,174,000
Previous week	5,855,000	3,596,000

The receipts of Wheat the past week at primary markets, compared with the preceding week and corresponding week last year:

	Past week.	Preceding week.	Last year.
St. Louis	1,207,000	1,149,000	1,221,000
Toledo	250,000	381,000	154,000
Detroit	95,000	83,000	151,000
Kansas City	1,400,000	1,340,000	2,147,000
Chicago	1,230,000	995,000	775,000
Milwaukee	167,000	32,000	91,000
Minneapolis	608,000	620,000	875,000
Duluth	211,000	541,000	39,000
Total	5,745,000	5,555,000	4,171,000

The total receipts of Winter and Spring Wheat at primary markets from June 27 to Aug. 22, with comparisons:

	Winter.	Spring.	Total.
1904	15,853,000	13,018,000	28,876,000
1903	13,578,000	11,532,000	25,110,000
1902	23,289,000	20,068,000	45,375,000
1901	20,695,000	25,442,000	46,137,000
1900	22,486,000	28,602,000	51,100,000
1899	15,365,000	19,568,000	34,918,000
1898	14,011,000	9,963,000	23,974,000
1897	18,006,000	14,184,000	32,222,000
1896	10,128,000	21,413,000	31,541,000
1895	8,932,000	10,830,000	19,352,000

THE FLOUR PRODUCTION.

MINNEAPOLIS, Aug. 24.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

	Aug. 20.	Aug. 13.	Aug. 21.	Aug. 23.
	1904.	1904.	1903.	1902.
	Barls.	Barls.	Barls.	Barls.
Minneapolis	178,390	188,785	246,050	276,850
Duluth-Superior	14,110	8,800	10,195	47,350
Milwaukee	39,950	34,100	32,100	34,450
Aggregate	232,450	231,685	288,345	358,180
*As outside mills	91,230	92,785	103,555	
Minneapolis	86,800	82,050	87,000	75,000
St. Louis	38,500	32,050	37,000	75,000
Indianapolis	11,500	11,945	13,250	17,500
Detroit	12,000	9,700	10,000	12,800
Chicago	19,500	18,000	12,500	25,000
Kansas City	33,400	33,400	36,400	34,300
Toledo	24,400	26,500	45,000	

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

There was a further decrease of 10,345 brls in the production last week.

To-day ten mills are in operation and with one mill and possibly two that may be started later in the week it is likely that the present decline in the output will be checked and that this week will show slight increase in output over last week.

In the meantime the Flour trade continues distinctly bad. The only miller reporting sales in excess of output is one whose mill was down all the week. Millers do not appear to take a very hopeful view of the situation. Some of the larger ones are holding off and only buying when they absolutely must, and then they take the smallest possible quantities. Millers fear that buyers will continue to pursue this policy, in view of the declining Wheat market as they have on the advancing market. On the other hand, it is contended that stocks in hands of buyers must be near to rock bottom, since purchases have been light for so long a time.

"The worst experience we have ever had," said one miller, "was three days during the latter part. There is so little business passing that quotations are more or less a matter of guess work and individual fancy. This is particularly true of foreign business where 'no sales' is the rule reported by millers and exporters. The most hopeful report from any Minneapolis miller this week was from one who said that while there was no material improvement in the Flour situation, inquiries and actions were more numerous though he added that they represented small quantities of Flour. While most of Wheat to be moved this crop is out, it is not yet arriving in any quantities, but receipts from this time on will probably show a steady increase. The most gratifying feature of the situation from the miller's standpoint is the high price of milfeed. Owing to the light running of the mills shippers of Bran and the low and medium grades of Flour in some cases are having difficulty in getting delivery of Flour and Milfeed on old purchases. Minneapolis and outside mills are quoting Patent at $5 55@5 70 per 196 lbs in wood, 5 @ 5 10 in cloth.

The tone of the *Northwestern Miller's* cables from foreign Flour markets plainly indicates the extent to which the big advance in American prices has precluded the possibility of business with the United Kingdom and Holland in the meantime, Australian and European Flours are being forced to the exclusion of American, at prices that are well below the quotations American millers are obliged to make. London and Liverpool say there is practically no U.S. business passing, as forward prices are prohibitive, though the market for spot stuff is steady and with a fair degree of activity. Amsterdam cables that on the spot there is no improvement while the advance of American mills' prices checks business.

EVIL MUST BE COUNTERACTED.

[From the Winnipeg Commercial, Aug. 20.]

It is no trifling matter that the reputation of the Canadian West as a Grain-growing country should be dragged in the dust to suit the exigencies of some "bull" operation in Wheat, such as where in the United States. How truthful reports of black rust in the Dakotas have been may be a matter of dispute, but there can be no dispute upon facts than are the reports of serious black rust in Manitoba and the Territories. Wheat prices are apt to take a tumble more spectacular than their recent advance. There are reports "going" upon the Winnipeg Exchange as well as in Chicago, but they have not been able to talk "black rust" and crop ruin up to this side of the border in order to boost prices. In fact, the reports current among their agents throughout the country failed to reveal anything worse than a very ordinary amount of red rust which would be practically no factor at all in the total yield. That this is the case is further borne out by correspondents of the Winnipeg papers, and the latest Canadian Pacific report is additional contradiction of statements that black rust is doing injury to our crop. Private advices and information from many other sources also agree in stamping the black rust reports as untrue. All this goes to show that the reports published in Chicago were irresponsible and untrue.

THE WEATHER CONDITIONS.

The weather map shows rains general through the eastern part of Manitoba. Weather clear this side of Canadian boundary. Clear and warmer in Dakotas, except for occasional very light and scattered showers.

The indications are for fair and decidedly cooler weather over Western States, extending to lake region and Eastern States and Provinces. An area of high pressure with clear and decidedly cooler weather is advancing from Northwest.

ITEMS OF GENERAL INTEREST.

A St Louis bank, Monday, was awarded the 20-year sewer and electric light bonds of St. Joseph, Mo., aggregating $325,000, at 102.118.

The Associated Merchant's Company has declared the regular quarterly dividend of 1¾ per cent on its common stock, payable Sept. 1.

The Warner Sugar Refining Company's plant at Waukegan, the largest competitor of the Corn Products Company, is now in operation again, after a shut down of several months.

Inquiry among Western Steel and Iron interests develops that the recent reduction in prices has thus far failed to develop much new business. Prospective buyers have said to be keen back by the belief that the Steel companies of the country are at war and that lower values are to come.

Muncie, Ind., Trust Company has been appointed receiver for the National Oil and Gas Company, the Gopher Oil Company and the Laroca Oil Company, having a combined capital stock of $1,250,000, on complaint of the Muncie Gas Engine and Supply Company, which alleged that the companies are insolvent and unable to pay their debts.

The Union Match Company, which is now operating under the temporary receivership trial of the Diamond Match Company, is said to be about to adopt a general plan of advertising, something after the style of the National Biscuit Company. It is said that the slogan selected for the campaign has been set aside for the purpose of giving publicity to the new goods during the rest of the year.

A Boston dispatch says: "The position of Wool in the Boston market is firm, although the demand is not heavy. The mills are well supplied with stock for the present, but dealers believe that the goods market will be favorable, and that the mill consumption will be large. Stock is scarce. Values are generally well maintained on all grades of Wool."

At the annual meeting of the New York and Canada Railway Company, Aug. 24, the stockholders will vote on a proposition to increase the capital stock from $4,000,000 to $9,000,000. The $5,000,000 increase is to be preferred stock, entitled preferentially to dividends at the rate of 5 per cent annually, noncumulatively, before any dividends on the common stock shall be paid

The vice president of the Northern Pacific, and the general passenger agent of the 4-year Northern Railway, say that the reports of damage to crops in the Northwest have been grossly exaggerated. They declare from personal observation that the Grain crop outlook of the territory is, on the large, if not larger, than last year in the Dakotas and Minnesota, and that in Montana, Idaho, and Washington the Grain tonnage will be increased 50 per cent.

The holders of $1,710,000 of the $4,068,000 outstanding debenture bonds of the Colorado Fuel and Iron Company have refused to join in the reorganization plan, as the bondholders' protective committee. The holders of $12,338,000 bonds have consented, and the committee, of which James A. Blair is chairman, has declared operative the funding plan and agreement of Dec. 11, 1903, and offers have been provided for, it is understood, and their debentures will be held alive. The committee has also given notice for the issuance of $45,000,000 of bonds and $6,500,000 new stock to carry out the plan.

The Chicago Heights Gas Company has recently filed a mortgage to the Central Trust Company of Chicago, as trustee, to secure $1,000,000 of 20-thirty-year bonds. The company began business about May 1, 1903, with $100,000 of authorized capital stock. An official statement says: "The company has a daily capacity of 100,000 feet, and turned on June 1, 1904, and therefore no dividends have as yet been paid. The company is capitalized at $250,000 common stock and has issued current thirty-year bonds, which are still in the treasury. The company is making money and doing better than we expected to do at the beginning."

There will soon be an offering to the public of issued by the Cincinnati, Hamilton and Dayton to secure a syndicate loan for the retirement of Cincinnati, Hamilton and Dayton preferred stock. The syndicate headed by Houle & Co. and the United States Mortgage and Trust Company has supplied about $7,500,000, in return for which one per cent commission is given to the syndicate managers. The notes are for one year, and the issue is secured at any time. The entire loan was taken by a few participants whose current funds were heavier than the syndicate's needs. The notes are to be offered at any time. The entire loan was taken by a few participants whose current funds were heavier than the syndicate's needs. The notes are to be offered at 6 per cent was welcomed as a profitable means of using surplus funds.

A four-track road from New York to Chicago will soon be a reality, if the Vanderbilt Central management, according to an official of that company. The Lake Shore directors have authorized some extraordinary improvements on the section of road between Buffalo and Cleveland, and large gangs of men have begun the reconstruction of the roadbed so as to admit of the laying of additional tracks when now there are only two and three tracks. A large quantity of steel rails, recently purchased by Vanderbilt representatives some time ago, are being distributed along the line east of Cleveland, and the impression is that the amount of the same kind of rails will be required before this work is completed.

It is stated that President Cole and the directors of the National Carbon Company will take no definite steps in regard to the proposed merger with the United Lead Company until Daniel Guggenheim, who is conducting the negotiations for the United Lead Company, returns from Europe some time in the middle of September. It is understood that President Cole hopes to obtain better terms from Mr. Guggenheim. The directors of the National Company have been considering the proposition made by Mr. Guggenheim before his departure for Europe. A committee of three was appointed to confer with the latter's committee. It is also stated, made a report at the directors' meeting of the National company, Thursday, with the result that the merger will be delayed in trying to get concessions from the United Lead Company.

Formal notice is given that the Colorado Fuel and Iron reorganization committee has determined that sufficient deposits have been made to warrant it in declaring the funding plan and agreement of Dec. 11, 1903 to be effective, and has declared the same to be effective accordingly. The company has exercised its option on the Sunrise Iron mining properties in Central Wyoming, involving over 1,000 acres, embracing seventy-one claims of about twenty acres each. The bondholders' protective committee and the board of directors, acting in harmony, have practically arranged for the company's rehabilitation and its operation on its present capacity during 1905. The company is now making rails and some light material, and next year will be in position to turn out a considerable production.

It is understood that the Pennsylvania Steel Company, which is controlled by interests identified with the Pennsylvania Railroad Company, is negotiating for the Cornwall ore mines and properties at Lebanon, Pa. The Cornwall property is now controlled by the Lackawanna Steel Company. The property not only includes the great ore banks near Cornwall, but the blast furnaces and the Cornwall and Lebanon Railroad. The blast furnaces are operated by lease at Lebanon, and in addition the company has a 99-product coke oven at West Lebanon. Now that the Lackawanna Steel Company has moved its plant to Buffalo, it is desirous of disposing of its Pennsylvania properties. It is said that if the Cornwall properties are acquired by the Pennsylvania Steel plant will be erected at Lebanon.

The Chicago *Inter Ocean* says: "While nothing definite can be learned, it is understood that the Deering Harvester Company has had under consideration for some time the making of a plan for reorganizing its finances, none of the plans presented, however, having been satisfactorily settled. It is generally supposed that the company will decide upon an issue of long-term bonds to provide additional working capital, the cost of contemplated improvements, and the retirement of $3,000,000 of 8 per cent collateral trust debentures dated Oct. 21, 1903, issued in two series of $2,500,000 each, maturing in three and five years, respectively, under a loan agreement with the Trust Company of Pittsburg. A committee has been formed by dissatisfied stockholders with the purpose of securing control of the board at the annual meeting in October."

An official of the American Smelting and Refining Company says that there is absolutely no truth in the report that the directors are considering the question of increasing the dividend on the common stock from 5 per cent to 6 per cent per annum, as reported. It is pointed out that when the directors placed the common stock on a 5 per cent basis last year they acted upon what was taken on belief that 5 per cent per annum was not only a conservative rate, but one that could be maintained indefinitely. There has been no occasion for changing the view in this respect. The indications are that the earnings in 1904-5 will show some improvement over 1903-4, but at this time it is premature to consider any change in this improvement. Officers of the company regard the future as very encouraging. At the present time the company is doing about $9,000,000 worth of business.

Many stockholders of the United States Steel Corporation seem to have forgotten the change in the by-laws regarding payment of dividends on the preferred stock, as the notices received from the company letters asking why the dividend checks have not been received on Aug. 15, the original date of such dividend payment. The change in the by-laws referred to was made some three months ago. It fixes the date for payment of such dividends quarterly on the 30th day of August and November, and on the last day of Feb. uary and the 31st day of May, or the next business day in case of these months, as formerly. This change was made for the purpose of facilitating the business of the company, as the time between the closing of the books and the date of payment under the former rule was too short to enable the clerical force to arrange and prepare the enormous number of checks required.

The 300,000 shares of Bethlehem Steel Company stock which are to be sold at public auction on Sept. 2 by the receiver will be bought in by Charles M. Schwab and his friends. The upset price to be paid is $7,500,000 It was denied to-day that a syndicate has been formed to bid for the big plant outside of the interests now in control. Any bids that will be made will be upon lines on which the present control are not now expected. The Bethlehem plant, under the plans of the reorganization committee will be the chief company of the Bethlehem Steel Company. Whether or not the other subsidiaries will be subordinated to and in connection with the work to be carried on at Bethlehem, is reported that the Bethlehem company, under the present plans, will absorb the other respective owners, will soon after reorganization take a more important place among the big armor plate makers of the country. The already negotiations of a tentative character have been going on, which if carried out will give the company some very important contracts for European powers.

In the application for the listing of the shares of the General Asphalt Company on the Philadelphia Stock Exchange details are given of the company's plans. The directors announce that they and trustees have agreed to suspend the right of conversion of the preferred stock held by them for the present, and stipulate that they will not permit conversion of such stock unless it be issued to the extent of 99,999 shares without application to the Exchange in writing It is specified that dividends on the preferred stock become cumulative beginning June 15, 1904. In the $18,321,000 preferred stock listed, $866,337 in par value is held by the Commercial Trust Company of Philadelphia as trustee under temporary agreements of the reorganization committee; and of the $9,789,000 common stock listed $140,000 remains in same trust company's hands for like purpose. The application gives details of the merger of the numerous companies into the following principal operative concerns, namely: The Barber Asphalt Paving Company of West Virginia, the New Trinidad Lake Asphalt Company, the Warren Brothers Company, the New York and Bermudez Company of New York, and the South American Asphalt Paving Company, all of which are controlled by the General Asphalt Company.

The *Times of India*, July 23, said: "With the exception of the Punjaub and the United Provinces very little rain has fallen elsewhere during the past fortnight. Crop reports are so far satisfactory, but rain is required generally, more especially in Khandesh, Gujarat and Rajputana. Reports of locusts are also received from several districts, but up till now little damage is reported. Gujarat —Cotton plants are in good condition, but rain is urgently wanted. Punjaub—Sowing impeded owing to want of rain. Ahmedabad—Sowing delayed by war.—More rain needed. Cotton sowing making good progress. Food Grains sowing is practically finished. Area probably smaller than last year. Rajputana—Cotton plants flourishing; sowing of food Grains progressing. More rain is wanted generally. Khandesh—Food Grains sowing making good progress. Sowing of gingelseed nearly finished. Cotton plants looking well, but rain is badly wanted for the young plants in general. Central Provinces—Crops looking generally well. More rain required in places. Punjab and United Provinces—All crops doing well. Weather favorable. Hyderabad Deccan—Crops doing well so far, but rain is urgently required. Mysore Southern Mahratta Districts—Rainfall generally satisfactory. More rain will have a favorable effect."

A Washington dispatch says: "The Treasury Department received news Tuesday of the beginning of the transfers of money from New York to the crop centers of the country, and has given its usual sanction to the payment in New Orleans and Chicago of money deposited in the sub-treasury in New York. The transfer of money is expected to be an almost daily occurrence from now until the end of the crop moving season. The almost universal belief among treasury officials is that money will remain plentiful throughout the fall and winter. For the first time in seven years the Treasury is not in a condition to extend any assistance to a stringent money market if one should arise. In past years the policy of Secretary Gage was to use the surplus in the treasury to buy United States bonds and thereby put Treasury government funds into the financial world and released millions of dollars of Treasury Shaw changed all this when he called millions of dollars of surplus money and placed it with national bank depositories. With the heavy increase of expenditures in the last fiscal year and the present one, Secretary Cortelyou is compelled to call upon the banks for $57,000,000 of the money he had placed with them. From about $170,000,000, the deposits of government money in national banks have dwindled to $113,000,000. The prospects are that Secretary Shaw will have to make up a considerable constantly increasing deficit in his department by again calling on depositaries for funds with them."

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours, as compared with the same time last year:

	Receipts.		Shipments.

ITEMS OF GENERAL INTEREST.

New York Exchange 40c discount.

Documentary Sterling steady at 484¼.

Chicago Bank Clearings to-day, $27,552,611.

There will be $1,600,000 Gold shipped from New York to Cuba, Saturday.

Reported that 64,000 bu Wheat and 32,000 bu Corn were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 103 cars; Corn, 389 cars; Oats, 278 cars; Rye, 5 cars; Barley, 24 cars; Hogs, 9,000.

The receipts of Hogs at Chicago for the week will be about 120,000, compared with 118,333 for the corresponding week last year.

Ten packers purchased 10,000 Hogs to-day; shippers, 3,500; left over, 4,000. Market closed weak and 5c lower than the opening.

The receipts of Wheat at Liverpool during the past three days were 648,000 bu, of which 80,000 bu were American. Receipts of Corn, 152,000 bu, of which 8,000 bu were American.

Argentine Wheat visible is 3,420,000 bu, against 2,904,000 bu the previous week, and 2,240,000 bu last year. The Argentine Corn visible is 3,944,000 bu, against 4,062,000 bu the previous week and 3,583,000 bu last year.

Local Securities were more generally traded in and a higher range was established. Can preferred was the feature and advanced ½. Carbon common was strong and jumped 3½. Gains on other shares were small.

Shipments of Wheat from Argentina this week were 1,512,000 bu, against 1,064,000 bu the previous week, and 696,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 77,224,000 bu, against 56,292,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 1,192,000 bu, against 3,784,000 bu the previous week and 4,011,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 47,857,000 bu, against 39,497,000 bu for same time last year.

St. Paul road's officials report Wheat all cut on Southern Minnesota division and yield is 9@10 bu per acre in South Dakota and 15@20 bu in Minnesota. Corn doing well and will make a fair crop. Oats all cut and have threshed 25@60 bu per acre.

Cotton in New York was active, but lower. Cables were strong, but selling by the largest "longs" offset all "bullish" influences, and made a sharp break. Receipts are increasing and they caused selling. Closing prices were 22@30 points lower.

Agents of the leading ocean lines say the demand for export room for Grain and Mill Stuffs is slow. Recently engagements were made for 100 loads of Corn, but there have been no new bookings. Rates are 1d per bu for Grain from New York and Boston to Liverpool.

A telegram from Winnipeg, Thursday, said: "Special party of Winnipeg Grain men have returned from five days' trip covering practically the entire Wheat country. They estimate the yield at 44,000,000 bu compared with 53,060,000 bu last year. Weather too cool."

The manager of the Minnesota Threshing Machine Company in Minneapolis says: "We have never had such a demand on our resources for machines as this season. We are shipping out 15 to 18 car loads of machines and supplies daily, and late orders are especially strong."

The shipments of Flax Seed from Argentina this week were reported at 296,000 bu, compared with 368,000 bu last week, and 256,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 34,614,000 bu, compared with 20,903,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 736,000 bu, against 520,000 bu for the previous week and 856,000 bu for the corresponding week last year. Exports since July 1 were 4,509,000 bu, compared with 8,314,000 bu for corresponding time last year.

Stocks in New York made fair gains in the morning, but sold off, and Western Railways closed slightly lower. Trading was larger and well distributed. A feature was the advance of 4 points on Lake Erie and Western, 3 on Northwestern, and 2½ on Hocking Valley. Tractions gained ¼ to 1 point. Money 1 per cent.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,840,000 bu, against 1,703,000 bu for the previous week, and 3,245,000 bu for the corresponding week last year. Exports since July 1 were 11,339,000 bu, compared with 25,097,000 bu for the corresponding time last year.

The *Modern Miller* says: "Winter Wheat seeding is progressing steadily under favorable conditions. Late rains has put the ground in fine condition for receiving and starting crop. Millers in the "short" crop sections of the Ohio Valley already drawing supplies from accumulative centers. Texas will increase its acreage."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is quiet, with no new features presented.

WINTER WHEAT—A steady feeling existed and there was a good trade, with the cash sales at yesterday's best prices. Demand chiefly speculative. No. 2 Red in store quotably $1 05@1 07½ and fresh arrivals free on board sold at $1 08½. No. 3 Red fresh arrivals free on board sold at $1 05@1 08, and billed through at $1 05. No 4 Red fresh arrivals free on board sold at $1 02½@1 03. No 2 Hard fresh arrivals free on board sold at $1 07@1 07½. No. 3 Hard fresh arrivals free on board sold at $1 02@1 07 and at the river at $1 01@1 03. No. 4 Hard sold at 97c and No Grade Hard at 90c. No. 3 White at $1 05.

SPRING WHEAT—Remains quiet. Very little arriving and scarcely anything doing. No. 1 Northern nominally $1 20. No. 2 Northern was quotably $1 12@1 15. No. 3 Spring nominally $1 02@1 10. No 4 Spring quotably 85c@$1 05 for poor to good, with sales at 95c@$1 05.

REGULAR WHEAT—A very good trade with the market nervous and erratic. Final figures showed gains of 1⅞c to 2@2⅛c. The situation at the start was weak, influenced to some extent by the break on the Minneapolis curb, the liberal Argentine and India shipments also being factors. The weather was favorable, the map showing temperatures generally lower than yesterday, but no frost anywhere. It was clear and cool in Manitoba, Northwest and West, and fair weather was predicted for the Northwest. Winnipeg wired: "Temperatures higher, no danger of frost." "Long" property came out in large quantities and December sold at $1 04 and May $1 06⅝. At the decline there was a quick recovery, buying by the Northwest being a feature and many of the early sellers covered. It was reported that the largest milling concern in Canada had reduced its recent estimate on the Manitoba crop considerably and had its effect on values here, as also private messages from the Northwest that threshing returns were reported as rather disappointing. December advanced to $1 07¼ and the May sold at $1 09⅞ and closed at the top of the day. The official Ontario crop was reported 9,827,000 bu against 17,248,000 bu last year, or the lightest on record, the damage being due to Hessian fly. Grafton, N. D., wired: "Park River to Grafton slightly damaged by rust; prospect for an average crop; east slightly under average; more damage by rust; harvesting has commenced and will be in full blast by Monday." Argentine shipped 1,512,000 bu, making 77,224,000 bu since Jan 1, against 56,292,000 bu in 1903. Visible there is now 3,240,000 bu, last week 2,904,000 bu, year ago 2,240,000 bu. London cabled Argentine crop advices were very satisfactory. India shipments were 1,432,000 bu. Liverpool quoted spot steady to 1d lower and futures ⅛d higher. Receipts there the past three days 648,000 bu, and only 80,000 bu from America. London was steady to ⅛d higher. Paris was ½c higher and Antwerp 1¼c higher. Berlin advanced ⅝c and Buda Pesth was 2c lower. Northwest cars were 142 smaller than a year ago, while primary receipts were 206,000 bu larger. Kansas City and St. Louis received 435,000 bu, against 230,000 bu a year ago. Exports small; total this week 1,840,000 bu, and since July 1, 11,339,000 bu, against 25,097,000 bu same period in 1903. Minneapolis stocks are expected to decrease 400,000 bu this week. Duluth reported three loads accepted for direct export. Receipts at Duluth 32 cars and at Minneapolis 165 cars, a total of 197 cars, against 132 cars yesterday, 72 cars a week ago, and 141 cars last year. Local receipts included 102 cars Winter, 2 Spring and no car mixed, a total of 104 cars, against 144 cars last year. Included in the above were 24 car of contract grade. There were 24 cars and 24,000 bu from unlicensed elevators. The estimated receipts for to-morrow are 103 cars. Withdrawals to-day were 13,400 bu. Receipts at Western points were 824,120 bu, against 618,061 last year. At Eastern points 79,977 bu, against 247,358 bu last year. Shipments from Western points were 403,913 bu, against 189,821 last year, and from Eastern points 28,279 bu, against 193,617 last year. Shipments of Flour were 11,985 brls. Exports of Wheat in Flour were equal to 82,206 bu.

Future Deliveries of Regular Wheat—Good trade and closing higher.

SEPTEMBER—Old Style—Sold at $1 05@1 07½. Opened at $1 05½, sold to $1 05, to $1 07, to $1 06⅝, to $1 07½, and closed at $1 07½.

SEPTEMBER—New Style—Sold at $1 02½@1 05⅞. Opened with sales at $1 03½ to $1 02½; sold to $1 03, to $1 03½, to $1 04, to $1 03, to $1 04⅞, to $1 04¼, to $1 05¼, to $1 04½, to $1 05½, to $1 04½, to $1 05⅞, and closed at $1 05⅞.

DECEMBER—Sold at $1 04@1 07¼. Opened with sales at $1 04 to $1 04¼; sold to $1 04¼ to $1 04½, to $1 04, to $1 05⅛, to $1 05, to $1 05⅜, to $1 04½, to $1 06¼, to $1 06, to $1 06¼, to $1 05½, to $1 06⅝, to $1 05¾, to $1 05⅞@1 07, to $1 06⅛, to $1 06⅝, to $1 05¾, to $1 06⅛, to $1 07, to $1 06½, to $1 07¼, and closed at $1 07¼.

MAY—Sold at $1 06⅝@1 09⅞. Opened with sales at $1 07½ to $1 06¾; sold to $1 06⅝, to $1 07⅛, to $1 06⅞, to $1 06, to $1 07¼, to $1 07⅝, to $1 07⅛, to $1 08⅞, to $1 08¼, to $1 09, to $1 08¾, to $1 09¼, to $1 08¾, to $1 09½, to $1 09⅛, to $1 09⅞, to $1 09¾, to $1 09⅞, and closed at $1 09⅞.

CORN—A large trade, the market again ruling quite unsettled. Lower prices were recorded early, followed by a fair recovery, the close showing the September ¼c higher, while December lost 1-16c and the May ⅛c. "Long" Corn came out in large quantities around the opening, the better weather, Argentine shipments and lower cables being the chief "bear" factors. The Southwest again sold freely, but at the decline commission houses and several of the larger professionals bought and "shorts" covered on the rally. Receipts were 304 cars, making 1,447 cars for the week, against 1,943 cars one year ago, and 369 cars looked for to-morrow. Liverpool quoted spot ½d lower to ½d higher and futures ¼@⅜d lower. Receipts there the past three days 152,000 bu and only 8,000 bu from America. Argentine shipments were heavy at 4,192,000 bu and total since January 1 47,857,000 bu, compared with 39,497,000 bu in 1903. Visible there is now 3,944,000 bu, against 4,062,000 bu last week and 3,583,000 bu same time last year. Map failed to show any frost. Rains fell in the Southwest and in Ohio Valley. Fair weather was predicted for Illinois, Indiana, Missouri, Iowa and Nebraska. Showers for Kansas. Southwestern markets were weaker. A feature was the widening of the December-May spread to about 2c. Western receipts 410,000 bu; last year 375,000 bu. Shipments 369,000 bu and 239,000 bu respectively. Local arrivals 281,000 bu and shipments 293,000 bu. Withdrawals here 239,000 bu. Exports 53,000 bu; week ago 736,000 bu, and since July 1—4,509,000 bu; year ago 8,314,000 bu. Car lots were in good demand and larger supply. Prices were lower. No. 2 closed about 53½c. No. 2 Yellow closed at 54¼c. No. 3 closed at 53¼c. No. 3 Yellow at 54¼@55¼c and closed at 54¼c. No. 4 sold at 51@54¾c, inside for poor quality.

Corn by sample—Sales showed 1@2c decline compared with those of yesterday. Offerings larger and demand fair. Sales on track and free on board: No. 4 sold at 52@54¾c. No 3 at 54@54½c. No 3 Yellow at 55@55½c. No. 2 Yellow at 55¼c. No. 3 White at 53½@54½c. Billed through: No. 4 at 52¼@54c. No 3 at 52½@53½c. No. 3 Yellow at 54@54½c. No. 2 Yellow at 54¾c. No. 3 White at 52½@53c. No. 2 White at 53c.

Future Deliveries of No. 2 Corn—Active and prices very irregular, closing ¼c higher to ⅛c lower.

AUGUST—Inactive and nominal close 53⅛c.

SEPTEMBER—Sold at 52@53⅜c. Opened at 53c to 52½c, and sold at 53⅛c, to 52⅝c, to 52⅞c, to 52¼c, to 52⅜c, to 52½c, to 52⅝c, to 52c, up to 53⅜c, to 52⅞c, to 53⅛c, to 53⅛c, to 53¼c, and closed at 53¼c.

DECEMBER—Sold at 50⅝@52½c. Opened at 51⅝c to 51¼c and sold at 51⅜c, to 51⅞c, to 50⅞c, to 51c, to 50⅜c, to 51c, to 50¾c, to 51¼c, to 51⅜c, to 52c, to 51⅝c, to 52½c, to 51¾c, and closed at 51¾c asked.

MAY—Sold at 49@50⅛c. Opened at 49⅞c to 49¼c, and sold at 49⅝c, to 49½c, to 49⅞c, to 49⅝@49¾c, to 49⅝c, to 49c, to 49¾c, to 49½c, to 50⅛c, to 49¾c, to 50⅛c, to 49¾@49⅞c, and closed at 49¾@49⅞c bid.

OATS—Were actively traded in and prices receded ⅛@½c, but reacted and closed ⅛c higher to ⅛@¼c lower, the latter on May. There was a good general business with commission houses. A good part of the selling of May was by hedgers. The rally was with other Grains. Arrivals were 234 cars, with 83 of contract. Estimates to-morrow 278 cars. Seaboard clearances were 28,500 bu. Cash sales were 40,000 bu. Car lots to go to store were ½@1c lower. No. 4 White sold at 31½@33¼c. No 3 White at 32½@33½c. Standard at 33½@33¾c. Standard in store closed about 32½c.

Oats by sample were in fair request and sold ½@1c lower than yesterday's sales. Local interests were the best buyers. Sales on track and free on board: No Grade sold at 31½c. No. 4 White at 32½@33½c. No 3 at 31¼c. No. 3 White at 33@34¼c. Standard at 33¼@34¼c. No. 2 at 31@31½c. No. 2 White at 34¼@35c. Billed through: No 3 White at 32¾@33½c. Standard at 32¾@33½c. No. 2 White at 33¼c. At the river: No Grade at 30½@31c. No. 4 at 30c. No. 4 White at 31@31½c. No. 3 at 31¼c. No. 3 White at 31½@32¼c. Standard at 32@32½c.

Future Deliveries of Contract Oats—Were lower, but reacted.

AUGUST—Closed about 32⅜c.

SEPTEMBER—Fair trading. Sold at 32@32⅝c. Opened at 32¼c to 32½c; sold to 32c, to 32⅜c at close.

DECEMBER—Sold at 33¼c and at 33¾@33⅞c. Opened at 33¼c to 33½c; sold to 33¾@33⅞c, to 33⅝c at close.

MAY—Active. Sold at 35½@36⅛c. Opened at 35½c to 35¾c, sold to 36⅛c, to 35⅞c, to 35¾c at close.

RYE—Ruled firm and for September prices were advanced ½c. There was a better demand and more doing on speculative account. The receipts were 10 cars. There were taken out of private elevators six cars. No exports from New York. No. 2 in store nominally about 71@71½c and fresh arrivals free on board sold 73½@74c and No. 3 at 72c.

Future Deliveries of No. 2 Rye—More doing and prices ½c higher. September sold at 71@71½c, and closed at 71½c bid and 72c asked. December nominally 73c. May nominally 77c.

BARLEY—An easy feeling prevailed. There was only a mild demand from maltsters. Some who were on the market yesterday, having secured something of a supply, were not present to-day. The wants of maltsters apparently are not urgent. They buy in such a manner as to suggest that they expect to do better. To-day concessions were asked for and 1c decline in prices was quoted. A little rather badly stained Barley on the market was without demand; maltsters did not want it and it was too dark to use with new Oats. Some trading in to-arrive lots, but prices were not made known. To-day's postings gave 23 cars inspected in Old Screenings quotably 33@42c for poor to choice, sales made at 38@39c. New Barley, ordinary malting was about 4@46c, common, thin or better weight but stained, for feed or mixing, about 40@42c, but nominal. Good malting sold at 47@49c, and choice to fancy at 50@52c.

SEEDS—Volume of business doing is not increasing, but quietness remains. There was a dull, easy market for Timothy, and Flax reacted to the extent of yesterday's small advance. There were no other features.

Timothy—The market quieted down in a marked degree in a speculative way. For futures no bids whatever were heard. There were sellers of September at the last trading price. General tone of market was dull and heavy. Cash offerings moderate; some offered was held-over Seed. Arrivals still moderate and demand slow. Contract old Seed was called nominally $2 85. September offered at $3 00, with no bids. October nominally $2 90. Country lots of new Seed quotably $2 65@2 75 for fair to good, choice to fancy $2 80@2 90 to possibly a shade over, and dark or dirty about $2 50@2 60 depending on quality. Very poor lower.

Flax—There was a reaction in prices from yesterday's advance, due to a weaker feeling in the Northwest. Not much to the market. The sale of a car of cash Seed was the extent of the business done. Five cars or 4,500 bu received and none taken out. Minneapolis receipts 5 cars and Duluth 9 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 25½, and No. 1 was $1 18½ bid. Rejected quotable at $1 15@1 18, depending on quality. September $1 18½ bid.

Clover—Was without change from yesterday's quotations. A small lot of cash new was sold, but the market remains without any business of consequence. Quoted as follows: October delivery nominally $12 75. Contract spot Seed was quotably about $12 50. Country lots, common to choice, $9 00@12 25, fancy above. Fair to good $10 50@12 00.

HOG PRODUCTS—Trade was quite active in Hog Products and the market was unsettled and easy during the greater portion of the day. Considerable liquidation in the near deliveries, especially by holders of moderate quantities. Outside orders were not very large, and local trading was fair. Hogs were in fair supply and higher. Receipts at the leading Western packing points were estimated at 46,200, compared with 38,500 one year ago. Foreign markets were stronger and prices were advanced 6d on Cumberland Sides. Domestic markets steady. Receipts of Products were moderate—of Lard and Meats about 12 cars. Shipments were light—of Lard and Meats about 73 cars. Speculative market was rather steady at the opening and prices ruled slightly higher. There was considerable pressure to sell, however, after the early orders were provided for, and a weak feeling was developed. Prices declined materially all around. At the reduction there was a little inquiry, and prices rallied slightly, and the market closed steady. Transfers of contracts from September to October were made at about 10c difference on all the speculative articles. Shipping demand was quite good, with fair offerings. Sales were larger, and prices for some descriptions inclined in favor of buyers.

Mess Pork—Trade was fairly active in Mess Pork, and the feeling in a general way was easy. Offerings were rather free, and the demand was only fair. A good share of the trading was on local account. Market opened rather steady, and prices ruled 2½@5c higher. Later, there was considerable pressure to sell, and prices declined 15@17½c. Toward the close, the feeling was steadier and prices were advanced 5@10c, and the market closed steady. Shipping demand was light and offerings were moderate. At the close cash lots were quotable at $11 60@11 65.

SEPTEMBER—Called for moderately and offerings were fair. Sales were made at $11 50@11 65. Opened at $11 65, sold to $11 50, to $11 52½, to $11 50, to $11 55@11 57½, and closed steady.

OCTOBER—Offerings were rather free, and the demand was only fair. Sales were made at $11 55@11 72½. Opened at $11 70, sold to $11 72½, to $11 62½, to $11 65, to $11 55, to $11 62½, to $11 57½, to $11 55, to $11 62½, to $11 62½@11 65, and closed steady.

JANUARY—Demand light and offerings were moderate. Sales were made at $12 67½@12 75, and closed quiet at $12 70.

Lard—Only a moderate trade was reported in the Lard market, and the feeling was easy. Offerings were moderately free, and the demand was only fair. Foreign advices were unchanged. Market opened rather steady, and an advance of 2½c was gained in a few instances. Later, a weaker feeling was developed, and prices receded 2½@5c, and the market closed comparatively steady. Demand on shipping account was reported moderate, with no particular pressure to sell. Cash lots quotable at $6 87½@6 90. Loose lots in moderate request with limited offerings. Prices steady at about 47½c discount on October figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 62½@6 75. Neutral in fair demand, with moderate offerings. Prices quotably steady at $8 00@8 12½ for No. 1, and $7 50@7 62½ for No. 2.

SEPTEMBER—Demand was only fair, and offerings were not very free. Sales were made at $6 87½@6 92½. Opened at $6 92½, sold to $6 87½, to $6 87½@6 90, and closed steady.

OCTOBER—Offerings were moderately free, and the demand was fair. Sales were made at $6 97½@7 02½. Opened at $7 02½, sold to $6 97½, to $7 00, to $6 97½, and closed steady.

JANUARY—In fair request and offerings were not very large. Sales were made at $7 00@7 07½. Opened at $7 07½, sold to $7 00, to $7 02½, and closed quiet.

MAY—Quiet, with small sales at $7 20.

Short Rib Sides—Quite a good business was reported in Short Rib Sides, and the feeling was easier. Offerings were rather free, and the demand was fairly active. A good share of the trading was credited to local operators. Market opened steadier, and prices ruled 2½@5c higher. Later, there was considerable pressure to sell, and a weaker feeling was developed. Prices declined 5@7½c, and the market closed steady at nearly inside figures. Fair trade in January. Shipping demand was moderate, and offerings were light. Cash lots quotable at $7 25@7 37½, according to weight.

SEPTEMBER—Demand moderate and offerings were only fair. Sales were made at $7 30@7 37½. Opened at $7 37½, sold to $7 30, to $7 32½, to $7 32½@7 35, to $7 32½, and closed steady.

OCTOBER—In fair request and offerings were moderately free. Sales were made at $7 40@7 47½. Opened at $7 47½, sold to $7 40, to $7 42½@7 45, to $7 42½, and closed steady.

JANUARY—Offerings were fair and the demand was moderate. Sales were made at $6 67½@6 77½. Opened at $6 75, sold to $6 77½, to $6 67½, to $6 70, to $6 67½@6 70, to $6 70, and closed steady.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought moderately. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices favored buyers. Pickled Meats in fair request with only moderate offerings, and prices ruled easier. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled lower. Smoked Meats called for moderately, and prices well supported. Closing prices were as follows:

GREEN—Hams, av. 10@12 lbs, 9⅝@9¾c; 12@14 lbs, 9½@9¾c; 14@16 lbs, 9½@9¾c; 18@20 lbs, 9¾@10c; Skinned Hams, 10¼@10¾c; Shoulders, 6⅞@7c; Picnic Hams, 7¼@7⅜c, Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs, 9⅝@9¾c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9⅝c cash, 9⅝@9¾c September, 18@20 lbs, 9⅞@10c; Skinned Hams, 11@11⅛c cash, 11⅛@11¼c September; Shoulders, 7⅛@7½c; Picnic Hams, 7½@7⅝c, Bellies, 10@11c. DRY SALTED—*loose*—Shoulders, 7½@7⅝c; Short Fat Backs, 6@7½c; Short Clear Backs, 8@8½c, Clear Bellies, 7⅞@8⅜c; Rib Bellies, 7¾@8¾c; Extra Short Rib Sides, 7⅜@7¼c; Extra Short Clear Sides, 7⅜@7¼c; Rough Sides, 7⅜@7⅝c; Plates, 5½@5¾c; Jowl Butts, 4¾@4⅞c. EXPORT CUTS—*boxed*—Long Cut Hams, 10¼@10¾c; Cumberland Sides, 9¼@9½c; Long Clear Sides, 9¼@9⅜c; Extra Long Clear Sides, 8¼@8½c; Short Clear Sides, 8¼@8½c. SMOKED—*loose*—Hams, 11¼@11⅝c, Skinned Hams, 12¼@12¾c; Shoulders, 8⅞@9c; Picnic Hams, 9@9½c; Short Rib Sides, 8@8½c; Extra Short Rib Sides, 7⅜@7¾c; Rough Sides, 8@8½c; Short Clear Sides, 8⅛@8¼c; Extra Short Clear Sides, 7⅜@7¾c; Breakfast Bacon, 12@12½c.

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $19 50@20 00; Extra Mess Beef, $8 50@8 75; Plate Beef, $8 75@9 00; Extra Plate Beef, $9 50@9 75. Tallow steady at 5¼@5½c for edible; 5@5¼c for prime packers; 4⅜@4⅝c for No. 1 do. and 3¾@4c for No. 2 do.; 4¼@4½c for city renderers; 4¾@5c for prime country and 3¾@3⅞c for No. 2 do. Oleo-Stearine in fair supply and quotably steady at 7¼@7¼c.

GREASE—Quiet and rather steady at 3¼@3⅜c for brown, 3⅜@3½c for yellow, 3½c for house, 4@4¼c for B white, and 4½@4¾c for A white.

CASH PRODUCE TRANSACTIONS.

Bran—No sales reported.

Middlings—No sales reported.

Lake Freights—Chartering was light. Boats were offered at 1c for Corn to Buffalo.

Flour—No sales reported.

Winter Wheat—IN STORE AND TO GO TO STORE—No. 3 Hard—1 car at $1 05.

ON TRACK—No. 3 Hard—1 car at $1 03½. No. 3 White—1 car at $1 05.

FREE ON BOARD, SWITCHED AND DELIVERED—No Grade Hard—1 car heating at 90c. No. 4 Red—1 car at $1 02½, 2 cars at $1 03. No. 3 Red—2 cars at $1 05, 3 cars at $1 06, 1 car at $1 06½, 3 cars at $1 07, 2 cars at $1 07½, 1 car at $1 08. No. 2 Red—1 car at $1 08½. No. 4 Hard—2 cars at 97c. No. 3 Hard—2 cars at $1 02, 1 car at $1 02½, 4 cars at $1 03½, 2 cars at $1 04, 1 car at $1 05, 1 car at $1 05½, 2 cars at $1 06, 3 cars at $1 07. No. 2 Hard—1 car at $1 07, 2 cars at $1 07½.

BILLED THROUGH—No. 3 Red—1 car at $1 05. No. 3 Hard—2 cars at the river at $1 00, 2 cars at $1 01, 1 car at $1 02, 1 car at $1 03.

Spring Wheat—IN STORE AND TO GO TO STORE—No sales reported.

ON TRACK—No. 4—1 car at $1 05.

FREE ON BOARD, SWITCHED AND DELIVERED—No. 4—1 car at 95c, 1 car at $1 05. Not Graded—15,000 bu at $1 16.

Corn—IN STORE AND TO GO TO STORE—No. 3—30,000 bu for shipment on p. t. No 3 Yellow—5 cars at 54¾c, 3 cars and 1 boat load at 55c, 2 cars at 55¼c, 120,000 bu part for deferred shipment on p. t. No 4—1 car poor at 51c, 12 cars yellow at 54½c, 1 car at 54¾c.

ON TRACK—No. 4—1 car poor at 52c, 2 cars at 53¾c, 1 car at 54c. No. 3 Yellow—3 cars at 55c, 1 car at 55¼c, 2 cars at 55½c. No. 2 Yellow—2 cars at 55¼c. No. 3 White—2 cars at 53½c, 4 cars at 54½c.

FREE ON BOARD AND SWITCHED—No. 4—5 cars at 53c, 21 cars at 53½c, 5 cars at 53¾c, 6 cars part yellow at 54c, 3 cars at 54½c, 8 cars at 54¾c. No. 3—25 cars at 54c, 2 cars at 54½c. No. 3 Yellow—4 cars at 55c, 13 cars at 55¼c. No. 2 Yellow—1 car at 55¼c. No. 3 White—2 cars at 54c, 2 cars at 54¼c, 3 cars at 54½c.

Standard—1 car yellow at 32¾c, 1 car at 33c, 13 cars at 33¼c, 3 cars at 33½c, 1 car at the river at 32c, 7 cars at 32¼c, 1 car at 32½c. No. 2 White—2 cars at 33¼c.

Rye—IN STORE AND TO GO TO STORE—No sales reported.

ON TRACK—No. 3—1 car at 72c.

FREE ON BOARD—No. 2—1 car at 73½c, 1 car at 74c.

Barley—IN STORE OR TO GO TO STORE—No sales.

FREE ON BOARD OR SWITCHED by sample—Screenings—1 car at 38c, 1 car at 39c. Barley—new—1 car at 42c, 3 cars at 45c, 5 cars at 46c, 2 cars at 47c, 8 cars at 48c, 1 car at 49c, 1 car at 49½c, 5 cars at 50c, 1 car at 52c.

TO ARRIVE—by sample—25,000 bu on p. t.

Timothy Seed—Sales per 100 lbs—3 bags at $1 50, 136 bags at $2 65, 149 and 11 bags at $2 70, 1 car bulk p. t. Future delivery—No sales.

Flax Seed—ON TRACK OR TO GO TO STORE—No. 1 Northwestern—1 car at $1 25½.

Clover Seed—Sales—per 100 lbs—3 bags at $10 25.

Lard—Sales 170,000 lbs loose at 47½c off October.

Sweet Pickled Hams—Sales 28,000 lbs av 10@12 lbs on p. t., 28,000 lbs av. 14@16 lbs on p. t., 28,000 lbs av. 16@18 lbs on p. t.

Sweet Pickled Bellies—Sales 28,000 lbs av 10@12 lbs on p. t.

Short Rib Sides—Sales 28,000 lbs av. 50 lbs on p. t.

Extra Short Rib Sides—Sales 75,000 lbs av 30@40 lbs on p. t.

Long Clear Sides—Sales 50 boxes av 30@35 lbs on p. t.

Rough Sides—Sales 28,000 lbs av. 40 lbs on p. t.

Short Clear Backs—Sales 50 boxes av 30@35 lbs on p. t., 50 boxes av. 16@20 lbs on p. t.

Short Fat Backs—Sales 75 boxes av. 16@20 lbs on p. t.

Rib Bellies—Sales 25,000 lbs av. 18@20 lbs on p. t.

Clear Bellies—Sales 50 boxes av 12@14 lbs on p. t., 25 boxes av 14@16 lbs on p. t., 25 boxes av 16@18 lbs on p. t.

Smoked Meats—Sales 28,000 lbs Rough Sides av. 35@40 lbs on p. t., 50,000 lbs Short Rib Sides av. 50 lbs on p. t.

Oleo-Stearine—Sales 50,000 lbs at 7¼c.

Cooperage—Demand light and offerings not very large. Market rather quiet. Ash Pork Barrels quotably steady at 95@97½c. Oak Pork Barrels were quiet at $1 05@1 07½. Lard Tierces in fair demand and prices steady at $1 25@1 27½. No sales reported.

Hay—Receipts, 748 tons; shipments, 57 tons. Supply liberal and demand light. Market dull. Choice Timothy quotable at $13 00@13 50. No. 1 Timothy at $11 50@12 50. No. 2 Timothy at $10 00@11 00. No. 3 Timothy at $8 00@9 00. Choice Prairie at $9 50@10 00. No. 1 Prairie at $9 00@9 50. No. 2 Prairie at $8 00@8 50. No. 3 Prairie at $7 00@7 50. No. 4 Prairie at $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay.

Sales were: ON TRACK—Not Graded Timothy—1 car at $9 00, 2 cars at $10 00, 1 car at $10 50, 2 cars at $11 00, 1 car at $11 50, 1 car at $12 00, 1 car at $13 00, 1 car at $13 25. Choice Prairie—2 cars Kansas at $10 00. Not Graded Prairie—2 cars Kansas at $9 00, 2 cars at $9 50.

FREE ON BOARD AND SWITCHED—Not Graded Prairie—1 car State at $6 50, 1 car Kansas at $8 50, 1 car Nebraska at $8 00, 2 cars at $8 50.

Straw—Rye Straw quotable at $6 50@7 50, Wheat Straw at $5 50@6 50, and Oat Straw at $5 50@6 00.

Sales were: ON TRACK—Tangled Rye—1 car at $7 50.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Aug. 25.]

The past week has brought important relief to the existing and threatened conditions of the Corn crop, and has made the situation one of much confidence as to general results. The rains have been general, and to a large extent copious. While considerable areas in Ohio and elsewhere could not be especially benefited, under the extremely deficient conditions of growth, the most of the Corn belt has been placed in such an assured position that only severe frosts before reaching a safe condition of maturity can disturb the present favorable promise. Whatever may be the possibilities as to curtailment of yield from early frost, the situation at this time does not call for nervousness over this feature of the case. A large proportion of the crop within a very few days will be at such stage of maturity as to be secure from frost injury. It seems practically certain that the crop will be of large proportions, most likely reaching 2,600,000,000 bu, with possibilities beyond this. Such a quantity of this Grain is especially desirable this season, with the shortage in the Wheat crop.

There has been little or no abatement in the prevalent talk of rust damage to the Northwestern Wheat crop, which has kept the trade in a frenzy of late, and so influencing market conditions as to occasion striking changes in the position of current speculative prices. It appears to be reasonable to assume that the late information of an unfavorable nature in regard to the Wheat yield in the Northwest has been mostly confirmatory of that which had been abundantly promulgated previously, and that comparatively little has been added to such indications by the more recent advices. The case is bad enough at best, but the thoughtful person knows how liable such unfavorableness in crop matters is to be exaggerated, rarely proving in the final reckoning to have been so extreme in adverse effect. The so-called expert observer who goes in search of crop damage naturally heads for the localities understood to be the subject of such misfortune. The fact that very many localities of the Northwest have a practical certainty of larger yields than last year attracts but little attention at such times as the present. As in the case of Corn, the frost liability need not be very seriously considered at this juncture. The Grain warehouses may be struck by lightning and the contents destroyed. But while this may be a liability it may be entertained as among the lesser chances. A feature in the Wheat situation which calls for recognition is the large proportion of Grain deficient in quality.

Not until threshing operations are much more advanced can really good estimates of the Wheat yield be practicable. In the meantime it is not needful to accept the extreme declarations as to shortages in the production. The suggestion submitted by the *Price Current* a week ago, of 575,000,000 bu as probably a fair approximation under existing indications, is practically as meritorious now as it was then.

The later information in regard to the Oats crop, based on the progress in threshing operations, seems to fully support the previous high promise as to general results of this crop, which will undoubtedly prove to be considerably in excess of last year, and the quality to a large extent will be good.

Giving recognition to the now apparent probabilities of the outcome of the cereal crops in the United States in aggregate bushels this season there is a quantity 7 per cent in excess of the total of such production last year; a quantity never previously equaled with the single exception of 1902; a quantity 10 per cent greater than the annual average of the past five years. With this is a large Hay crop, secured in unusually good condition, and more than average production of Potatoes. If there is any merit in these facts in their bearing on the question of supplies, taken in connection with the evidence of enlarged production in Canada, it must furnish assurance of abundance of food and feed material for the coming year, although an important lessening in the Wheat export quantity is inevitable—the only element which furnishes a basis for an extravagant advance in prices of Grain.

The recent rains have served an important purpose in reviving pasture conditions, and if there be more moisture to follow ere long there will be available good fall pasturage for Live Stock.

Another feature of the effect of the rains is the putting of the ground in favorable condition for plowing and preparation for autumn seeding. There are already intimations of contemplated extension of areas for Wheat, which finds encouragement under the higher position and expectation of prices.

The current movement of new crop Grain and Hay to market does not seem consistent with the situation of supplies and prices. The farmers are manifestly speculatively holding their products. The wise ones will not overlook the fact that as time progresses the marketing period is shortened, and those who wait to secure the high pitch of prices may land much below such position.

Present prices of Wheat are about 30 per cent higher than a year ago, and 40 per cent above the annual average for the past five years. Present prices of Corn are considerably higher than a year ago, when the crop was smaller, and are 20 per cent higher than the annual average for the past five years.

The information in regard to Seed production is not full enough to be in any way definite as to general results, but the indications appear to point to a shortage in production of Clover Seed and good yield of Timothy Seed.

BOYCOTT UNLAWFUL.

[From San Francisco Commercial News, Aug. 11.]

Judge Hunt of Department No. 5 of the Superior Court of San Francisco, has rendered a decision in the case of Pierce et. al. vs. Stablemen's Union No. 8760, which is far reaching; he has granted to the plaintiff a permanent injunction restraining members of the union from picketing, molesting, or intimidating any of his workmen or patrons. The granting of this injunction is, according to the decision of the court, the only remedy the plaintiff can obtain, since no civil suit for damages is possible, as the union or its members are financially irresponsible; furthermore, the union not being a corporate body, civil proceedings would involve a multiplicity of suits. The court further decided that the Statute of 1903 relating to boycotts is unconstitutional, whereas "It violates that provision of our State Constitution which states that all men have certain inalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing and protecting property."

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Aug. 25.]

There has been a moderately smaller marketing of Hogs than for the preceding week, in the aggregate, but considerable gain over corresponding period last year. Total Western packing 345,000 Hogs, compared with 375,000 the preceding week and 300,000 two weeks ago. For corresponding time last year the number was 290,000, and two years ago 295,000. From March 1 the total is 9,725,000, against 9,885,000 a year ago, a decrease of 100,000. Quality irregular, from poor to good. Prices are moderately higher, prominent markets at the close averaging about $5 25 per 100 lbs, compared with $5 20 a week ago, $5 40 two weeks ago, $5 45 a year ago, $6 85 two years ago, and $5 85 three years ago.

The speculative Provision market was active the past week, but the price changes were not important. At the close quotations for leading articles at Chicago are slightly higher than a week ago. Trading was fairly free, with offerings and demand well balanced. The declines in the Grain markets at the close of the week encouraged an easier tone, but there was no important decline in prices of Hog Product. Foreign markets were stronger, and the domestic demand from manufacturing centers was fairly good. The export clearances of Product were smaller than for the preceding week and show a decrease as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	372,000	370,000
Bacon, pounds	10,481,000	11,671,000
Total, Meats	10,853,000	12,041,000
Lard, pounds	6,702,000	6,854,000
Total, Product	17,555,000	18,895,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

March 1 to Aug. 24—	1904.	1903.
Chicago	2,400,000	2,900,000
Kansas City	1,220,000	940,000
Omaha	1,065,000	1,180,000
St. Louis	805,000	690,000
St. Joseph, Mo	655,000	843,000
Indianapolis	581,000	490,000
Milwaukee, Wis	115,000	70,000
Cudahy, Wis	226,000	249,000
Cincinnati	256,000	243,000
Ottumwa, Iowa	284,000	219,000
Cedar Rapids	204,000	201,000
Sioux City, Iowa	191,000	223,000
St. Paul, Minn	350,000	320,000
Cleveland, Ohio	280,000	245,000
Louisville, Ky	160,000	160,000
Detroit, Mich	130,000	130,000
Wichita, Kan	112,000	97,000
Nebraska City, Neb	116,000	95,000
Bloomington, Ill	34,100	34,000
Above and all other	9,785,000	9,885,000

THE WEATHER CONDITIONS.

The weather map shows clear and cool West and Northwest, but no frost anywhere. Scattered rains Southwest and in Ohio Valley. Temperatures generally cooler than yesterday.

ITEMS OF GENERAL INTEREST.

The American Agricultural Chemical Company reports for the fiscal year ended June 30, last, a total surplus of $1,777,927; increase, $428,790.

The New Century Zinc and Lead Company has declared the regular monthly dividend of 1 per cent, payable Sept. 1 at the New York office.

The leading raisin-seeding concerns on the Pacific Coast have formed the Consolidated Raisin Company, capital $1,000,000, a combine to control the output and market.

Weekly statement of the Bank of England shows an increase of $3,742,230 in Bullion. The proportion of reserve to liability is now 55.58 per cent, against 54.63 per cent last week.

The International Paper Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Oct. 1. Books close Sept. 15 and reopen Oct. 1.

The Railroad Steel Spring Company has declared the usual quarterly dividend of 1¾ per cent on its preferred stock, payable Sept. 20. Books close Sept. 9 and reopen Sept. 21.

President Felton of the Chicago and Alton Railroad, who is in Kansas, says that the Corn crop in the northern part of the State looks excellent and promises banner yield.

The United States Leather Company has declared the regular quarterly dividend of 1½ per cent on the preferred stock, payable Oct. 1 to stockholders of record Sept. 10.

The New York, Chicago and St. Louis Railway Company reports for the year ending Aug. 30 a deficit after charges and dividends of $'2,168, against a surplus last year of $44,500.

The Minneapolis, St. Paul and Sault Ste. Marie Railroad Company has declared the usual semi-annual dividends on its common stock of 2 per cent and on its preferred stock of 3½ per cent.

Federal Judge Lanning in Trenton, N. J., Monday, rendered an opinion in favor of the Guarantee Trust Company of New York against the Atlantic Coast Railway Company in a suit to foreclose a mortgage of $500,000 held by the trust company as trustee.

The Iowa crop bureau makes a good report on Corn and says: "The conditions have been especially favorable for the healthy development of the Corn crop, a considerable portion of which is now in the roasting ear stage, and quite heavy in stalk and ear."

Not a bid was received, Monday, for the $90,000 4 per cent one to eighteen years series school bonds of Atlantic City, N. J. Brokers claimed that the interest rate was too low. The bid of 106.434 was accepted for the $195,000 4½ per cent twenty year paving bonds.

On application of the cashier, the German-American Bank, the oldest financial institution in Sidney, Ohio, was placed in the hands of a receiver, Wednesday. The bank has a capital stock of $75,000. Its liabilities are estimated at $250,000 and assets at $200,000.

A New York dispatch, Wednesday, said that there was a report current on the Stock Exchange which seemed to be generally credited that a plan for the distribution of 2 per cent or a little more in cash to holders of Northern Securities stock had been perfected under the auspices of J. P. Morgan.

Officials of the Illinois Steel Company say the competition arising from the Lackawanna Steel Company opening a big plant in Cincinnati Jan. 1 will be met in the usual way. They do not anticipate a trade war, although the new comer will compete with them for business of the West and South.

A decision was rendered against the Mexican Central Railroad in the City of Mexico, Monday, in favor of claims growing out of the bankruptcy proceedings against the Mexican and Gulf Road. Mortgage bonds aggregating $9,727,000 Gold are recognized as legitimate and interest is allowed at 5 per cent from 1895.

A dispatch from Rochester, N. Y., says: "A receiver has been appointed for the Rogerson Fruit and Cold Storage Company of Leroy. Its liabilities are $95,000; assets, $40,000. The Rogersons were large buyers of Apples and other Fruits, and their embarrassment will result rather disastrously to Fruit dealers in this vicinity."

Shipments of Sheep from Chicago on Wednesday totaled 18,079 head, the heaviest on record for one day at Chicago. In the first four days this week a total of 56,000 have been sent out, against 37,521 a week ago. The heavy movement is accounted for in part by the big shipments of Stock to Eastern points that under normal conditions would be handled at Chicago, while the demand for feeding Stock is also very broad.

Directors of the American Can Company should meet during the next week or ten days to act on the semi-annual dividend on the preferred stock, payable Sept. 30. The best local information is that the usual amount of 2½ per cent will be declared, but there has been much talk that an increase will be made.

The reorganization committee of the American Cotton Company will issue $1,500,000 bonds to pay floating debts and provide working capital. The preferred stockholders may buy the bonds up to 20 per cent of their holdings and common stockholders up to 5 per cent, and right is given to convert bonds into a new 7 per cent preferred stock.

It is said that the American Can Company cannot hope to secure a large business in cans out of the Maryland Tomato crop this year. There is said to be a good-sized carry-over of old stock, and that while the growing crop is a good one, it is perhaps a third less than last year. About 24,000,000 cans were used in putting up the Tomato crop last year.

Officials of the Burlington have received a full report on the condition of Corn in Nebraska. The gist of the report is that unless damaged by frost the yield of the State will be at least 15 or 20 per cent larger than last year. Practically the only sections in danger of frost now are the northern ones, which do not represent more than one-fourth of the crop.

The court at Toronto, Can., Thursday, granted a winding-up order on the Rock Lake Mining Company of the Soo, the order not to take effect until Sept. 2. It was incorporated five years ago with a nominal capital of $3,000,000. The liabilities are $200,000, which is said to be above the value of assets, which consist chiefly of mines, near the Bruce mines, and the plant and machinery.

It is said that on Sept. 1 the New York Central will retire $1,507,000 of 5 per cent debentures of 1884 and $639,000 of the debentures of 1889. Both pay 5 per cent and fall due on that date. The company has sold 3½ per cent refunding bonds to raise the necessary cash. The company will sell annually a certain part of the $15,000,000 of the refunding bonds reserved under the mortgage for construction after 1904.

Official announcement has been made in the East of the closing of a contract for 60,000 tons of Steel rails at the pool price of $28 00 per ton. The order was from the Canadian Pacific Railroad Company and was closed last Monday. The beneficiaries are the United States Steel Corporation and the Pennsylvania Steel Company, and the order is the largest given in many weeks, if not the largest single order of the year.

It seems impossible for any two men to agree on crop conditions in the Northwest. An agent of a large elevator concern recently advised that it would be useless to open the house this season, as the Wheat crop was a failure. His opponent, at the same time, advised that Wheat would yield 15 bu to the acre. Both of these men are dependent on this year's business for their income. The thresher will tell the tale.

The Lake Shore and Michigan Southern balance sheet, as of June 30, shows that the company holds $67,350,000 of the stocks and bonds of other companies, an increase of $7,057,000 in a year. The funded debt was $91,324,000, an increase of $40,058,000, but the loans and bills payable were only $2,000,000, as compared with $31,950,000 the preceding year. The surplus decreased $1,028,429 during the year to $17,607,658.

The German syndicate that had under option all of the 4 per cent refunding bonds in the treasury of the St. Louis and San Francisco Railroad Company has exercised its option and has disposed of the bonds, thus finally closing the syndicate. The company has now no refunding bonds in its treasury, nor can it withdraw any bonds from the trustee for improvements and betterments until July 1, 1905, when $1,000,000 will become available for these purposes.

The directors of the Southern California Railway have decided to dispose of the stock of the company, amounting to $18,000,000, to the Atchison, Topeka and Santa Fe Railway Company. The transfer will be largely a matter of form, the latter company having had entire control of the property for several years. The property embraces all of the Santa Fe main and branch lines as far east as Barstow, Cal., covering a distance of about 500 miles. The sale will be consummated within a few days.

It is said that the Great Western Railroad was forced to abandon the idea of listing a block of several million dollars of its new stock because of the manner in which it was to be held. Officials of the road believe that earnings are now going to prove good because of good crops. Very large yields of Barley and Oats are reported, and it is believed that the total volume of tonnage from all crops will be in excess of last year. Estimates are made that Nebraska will raise 50,000,000 bu more Corn this year than last.

The Pennsylvania Railroad Company, Monday, made the most sweeping reduction in the time of the men employed that has taken place since the panic of 1893. Employes of the machine shops were notified that commencing with Wednesday they would be divided into shifts, each shift to work every other day, eight hours to constitute a day's work. One shift will work Mondays and Wednesdays and the other Tuesdays and Thursdays. The remainder of the week the shops will be closed down entirely. It is not known how long the order will continue in effect.

The Seaboard Air Line is to be operated independently of the other Southern railway systems, according to a statement made by Thomas F. Ryan, who, with Blair & Co. and T. Jefferson Coolidge, Jr., purchased 140,000 shares of Seaboard Air Line stock, held by Messrs. Williams and Middendorf. Mr. Ryan said: "The Seaboard Air Line will be operated independently of the other railway systems in the South. The suggestion that has been variously expressed that the Atlantic Coast Line, or the Southern, or any other railroad interest is directly or indirectly interested in the purchase of the Seaboard, or that the managers or owners of such properties will in any way influence the management of the Seaboard is without the slightest foundation."

The *Northwestern Miller* has an article headed "Crop Killing for Revenue Only." Its comments on the crop conditions and on the crop killer is interesting reading. Its crop report, compiled from advices from 500 millers, is different from any issued. It presents threshing returns in Southern Minnesota, which show mostly 15 to 18 bu to the acre; in Northern Minnesota and the Red River Valley, 5 to 10 bu; Central Minnesota, 6 to 12 bu, and Eastern, 15 to 20 bu. Southern Minnesota has the best crop of any section in the Northwest. It also has a big acreage. It was evidently too far advanced for the rust to do any damage. This is where the good Wheat will come from. South Dakota yields are 5 to 15 bu, mostly 6 to 9 bu. North Dakota, in the southern sections, 5 to 6 bu; in the west, 8 to 15 bu, and in the North, 6 to 24 bu.

The annual report of the National Enameling and Stamping Company reflects the unsatisfactory conditions prevailing in the Iron and Steel industry during the past year. Gross earnings fell off by about $715,000, which was also practically the decrease in new receipts, there being little change in operating expenses. The company drew on its surplus to the extent of $337,830 to meet charges and dividends. The decreased receipts apparently forced some retrenchment in allowances for depreciation. The amount carried for surplus to general reserve was $250,000, as compared with $500,000 in the previous year. The total of this reserve account now stands at $1,000,000. Bonds to the amount of $249,000 were redeemed during the year. Current liabilities increased by about $800,000. Altogether the report seems to constitute a criticism on the company's policy of maintaining the dividend on the common stock.

A report on crop conditions at Cando, in Northwest North Dakota, sent to the *Inter Ocean* by a Chicago Board of Trade man, says: "There is no doubt of the presence of black rust in this section, although it is scattered over a wide territory without very much being in one place. The presence of red rust is more noticeable, but so far seems to have done no damage. This red rust changes to black very rapidly, and it may catch a few of the belated fields. A few farms, especially those which are very low or have been manured recently, contain most of the rust in this section. The rust occurs mainly along the roads and extends back into the fields from five feet to a rod. Farther back the Grains seem as sound as ever. The rust along the roads is much worse because of the dust which has settled on the leaves and stems. If allowance is made for this the rust will not appear as bad. Cutting has begun and a great many fields will be cut this week. About all the Barley is cut."

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours as compared with the same time last year

ARTICLES.	RECEIPTS. 1904.	RECEIPTS. 1903.	SHIPMENTS. 1904.	SHIPMENTS. 1903.

ITEMS OF GENERAL INTEREST.

New York Exchange 40c discount.

Documentary Sterling steady at 484.

Chicago Bank Clearings to-day, $24,015,608.

Cotton in New York closed 7@12 points higher.

Chicago Board of Trade memberships are $3,500 net to the buyer.

About 173,000 pcs of Sides were shipped South during the past week

The packing of Chicago since March 1 shows a decrease of 537,000 Hogs.

Shippers purchased about 20½ per cent of the Hogs received the past week.

The shipments of Hams from Chicago for the past week were equal to 7,800 tcs.

About equal to 14,000 tcs of Lard were shipped from Chicago during the past week

Aggregate receipts of Live Stock at Chicago for the past week were about 208,000 head.

Australian Wheat shipments for the week 400,000 bu, compared with 704,000 bu last week

About 570 car loads of Hog Products were forwarded from Chicago during the past week.

Reported that 152,000 bu Corn and 30,000 bu Oats were taken at the seaboard to day for export.

Chicago Bank Clearings for the week were $157,630,532, against $146,584,303 for the corresponding week in 1903.

Estimated receipts of Hogs at Chicago for next week 135,000. Receipts for the corresponding week last year were 108 383.

Estimated receipts for Monday: Wheat, 132 cars; Corn, 610 cars; Oats, 293 cars; Rye, 15 cars; Barley 40 cars; Hogs, 33,000.

Ten packers purchased 8,100 Hogs to-day; shippers, 3,500; left over, 2,000. Market closed weak and 5c lower than the opening.

The receipts of Wheat at Minneapolis and Duluth for the past week were 1,083 cars, compared with 834 cars one week ago, and 1,955 cars one year ago.

Hester's weekly statement of the world's visible supply of Cotton figures in bales with comparison: Total visible 1,110,305 bales, against 1,180,144 bales last year.

Broomhall estimates the world's shipments of Breadstuffs this week at 8,000,000 bu, and predicts there will be a fair decrease in the quantity on ocean passage.

The stock of Flax Seed at Minneapolis on Aug. 27 was reported at 32,500 bu, against 63,000 bu for the week previous—a decrease of 30,500 bu. Stock last year, 712,694 bu.

Arrivals of Breadstuffs in the United Kingdom for the week were about 4,800,000 bu, compared with 4,000,000 bu last week, and 4,300,000 bu for the corresponding week in 1903.

English visible supply of Wheat increased 733,000 bu, compared with a decrease of 322,000 bu last week, and an increase of 402,000 bu the corresponding week last year.

The receipts of Hogs at the leading Western markets during the past week were about 317,000, against 275,000 the previous week, and 301,000 for the corresponding time in 1903.

The *Northwestern Miller* says of the Spring Wheat crop: "It ducked the bugs, sidestepped the bad weather, and blocked the worms, only to get it in the solar plexus from the black rust."

French millers are said to be inquiring for Wheat. They use mostly No. 2 Red. The import duty into France is 36c per bu, but the miller receives a rebate of the duty on selling the Flour to other countries.

Local Securities were active for Saturday and averaged higher. Union Traction common come in for more attention and advanced 1½, while preferred gained 3 points. Metropolitan Elevated preferred advanced 1 point.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	2,463,000	1901	3,192,000
1903	3,0 5 000	1900	3 124,000
1902	3,047 000	1899	3 234,000

Wheat acreage just harvested in Great Britain is officially estimated at 1,375,000 acres against 1,531,000 acres in 1903; Oats 3,253,0 0 acres against 3,140,000. Total number of animals is slightly less than in 1903, although Pigs and Cattle increased while Sheep decreased.

Included in the shipments of Meats from Chicago for the past week were about 146,000 pcs of Hams, 51,000 pcs of Shoulders and 206,000 pcs of Sides. For the corresponding time last year the shipments were about 2 4 000 pcs of Hams, 75,000 pcs of Shoulders and 224 000 pcs of Sides.

Stocks in New York were weak and ¼ to ½ lower early, but advanced and closed mostly higher, though gains, in the main, were small. St. Paul gained 2 points. Northwestern lost 2½. The bank statement was a surprise and helped rally the market at the last. Sales 222,000 shares

Official report states condition of chief crops in Germany, Aug. 15, was two to four per cent better than for Wheat of Prussia, but Oats were 12 per cent and Potatoes 18 per cent below condition of a year ago. The Prussian crop report gave condition of Wheat, Aug. 15, as 76 per cent and Rye 78 per cent.

The receipts of Flour and Grain at Chicago for the past week were equal to 6 134,000 bu and the shipments were equal to 3,712,000 bu For the corresponding week in 1903 the receipts were equal to 4,932,000 bu, and the shipments to 6,093,000 bu. These figures are supposed to include the through shipments of Flour

The weekly statement of the New York banks shows the following changes: Decreases—Reserves on all deposits, $1,237,765; Reserves, less United States deposits, $1,238,000; Loans, $117,200; Specie, $1,603,610; Legal Tenders, $203,8 0; Deposits, $2 267,730. Increase–Circulation, $109,500. Banks hold $57,377,575 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 76,000 brls of Flour and 189,000 bu Wheat, against 126,000 brls of Flour and 179,000 bu of Wheat the preceding week, a decrease of 5,000 brls of Flour and an increase of 10,000 bu of Wheat. For the corresponding week last year the exports were 268 000 brls of Flour and 1 885 000 bu of Wheat

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market somewhat unsettled. Millers adhering to recent advance as quoted on second page.

WINTER WHEAT—Demand was not urgent to-day and prices were steady. For choice Wheat there was more speculative demand and millers also taking small quantities, but poor Wheat, of which there were some cars offered very dull and not wanted. No special change in prices, although occasional sales show slightly higher prices. No 2 Red in store quotable at $1 06¾@1 07¼ and fresh arrivals free on board ranged at $1 08@1 09. No 3 Red fresh arrivals free on board sold at $1 06@1 08½. No 4 Red fresh receipts free on board sold at $1 03@1 04. No Grade Red sold at 89c@$1 03. No. 2 Hard fresh arrivals free on board sold at $1 05½@1 08. No 3 Hard sold at $1 01@1 07. No. 4 Hard sold free on board at 96½@98c and at the river at 96c. No 3 White sold at $1 04¼.

SPRING WHEAT—Very quiet. Offerings small and really not enough offered to establish a market. Poor Wheat very dull and not wanted. Choice Wheat would sell readily. No. 1 Northern entirely nominal at about $1 18. No. 2 Northern quotable $1 10@1 12. No. 3 Spring nominally $1 02@1 10. No 4 Spring sold at 90@95c, and ranged at 85c@$1 05 for poor to choice.

REGULAR WHEAT—Just a fair trade, the market ruling very nervous, but at the same time displayed an easy undertone. The close was ⅛c higher for September, while December gained ⅛c, and May 1-16c. The start was higher, influenced to some extent by the better cables, smaller Australian shipments—400 000 bu—and predictions of moderate world's shipments—8,000,000 bu, with a fair decrease on ocean passage. Offerings at the opening were moderate, but at the advance became free, yesterday's best buyers being the principal sellers, but rallied again and closed quite steady. The map was a favorable one, and fair weather was predicted. Threshing returns for South Dakota and Minnesota, as forwarded by a large Minneapolis house with an extensive elevator system, were better than expected, and had considerable effect on the market. The report showed the Wheat weighing 40@50 lbs in Minnesota and 35@58 lbs in South Dakota. Liverpool quoted spot steady to ½d lower, while futures were 1@1¼d higher. London was ¾@1½d higher and Paris came unchanged to ⅛c higher. Berlin was ¾c higher and Buda Pesth 1⅛c higher. Area of harvested in Great Britain reported at 1,375,000 acres, against 1,581,000 acres last year. Receipts in the Northwest this week were 1,083 cars, against 834 cars last week and 1,955 cars one year ago. Local weekly receipts were 1,178,000 bu and shipments 418,000 bu. Primary receipts this week were 5,272,000 bu, against 5 812 000 bu last week and 4 355,000 bu one year ago. Arrivals in the United Kingdom this week were 4,800 000 bu, against 4,000,000 bu last week and 4 300,000 bu in 1903. The English visible supply increased 733,000 bu, against 402,000 bu increase same week in 1903. English farmers' deliveries were 248,000 bu and the price—89c—was 2¼c higher than a week ago, but 1¾c lower than one year ago. Kansas City received 2,200 cars this week and expects 1,900 cars next week. Duluth reported six boat loads taken for export. Official German report up to August 15 showed the chief crops 2@4 per cent better than last statement, but indicated large shortage in Potatoes. Mail advices regarding crop conditions in Hungary were decidedly "bullish." A late Buda Pest cable stated Austria-Hungary was about to establish a bureau for purchase of foodstuffs, that the country will be obliged to import. Receipts at Duluth 24 cars and at Minneapolis 150 cars, a total of 174 cars against 197 cars yesterday, 178 cars a week ago, and 379 cars last year. Local receipts included 81 cars Winter, 4 cars Spring and 1 car mixed, a total of 86 cars, against 130 cars last year. Included in the above were 1 car of contract grade. There were 5 cars and 54,000 bu from unlicensed elevators. The estimated receipts for Monday are 132 cars. Withdrawals to-day were 2,000 bu. Receipts at Western points were 782 545 bu, against 691,921 last year. At Eastern points 157,560 bu, against 184,796 bu last year. Shipments from Western points were 401,547 bu, against 198,852 last year, and from Eastern points 48,756 bu, against 105 6 3 last year. Shipments of Flour were 3,403 brls. Exports of Wheat in Flour were equal to 64,000 bu.

Future Deliveries of Regular Wheat—Fair trade and closing steady.

SEPTEMBER—Old Style—Sold at $1 06¾@1 07¾. Opened with sales at $1 07¾; sold to $1 06¾, to $1 07¾, to $1 07, to $1 07½, to $1 07⅛, to $1 07⅝, and closed at $1 07⅝

SEPTEMBER—New Style—Sold at $1 04⅞@1 06⅜. Opened with sales at $1 06⅛ to $1 06; sold to $1 06⅜, to $1 04⅞, to $1 06¼, to $1 05⅛, to $1 06, to $1 05¾, to $1 06, and closed at $1 06 asked.

DECEMBER—Sold at $1 06¼@1 07¾. Opened with sales at $1 07¾ to $1 07⅞; sold to $1 07¼@1 07⅝, to $1 07¼, to $1 07½, to $1 07, to $1 07⅛, to $1 06⅝, to $1 07½, to $1 06½, to $1 07⅛, to $1 06¼ to $1 07⅛, to $1 07, to $1 07⅜, to $1 07⅛, to $1 07½, to $1 07⅜, and closed at $1 07⅜.

MAY—Sold at $1 08⅞@1 10½. Opened with sales at $1 10½ to $1 10, sold to $1 10¼, to $1 09⅞, to $1 10¼, to $1 09⅜, to $1 09⅝ to $1 08⅞, to $1 10, to $1 09¼, to $1 09½, to $1 08⅞, to $1 09⅞ to $1 09⅝, to $1 10 to $1 09⅞, and closed at $1 09⅞@1 10.

CORN—A fair trade with the tone prevalent easier, the close showing September down 1⅛c, while December lost ⅜c and the May 1c. The weather present and prospective was favorable, receipts were larger than expected and cables lower. Local professionals and Provision interests sold with considerable freedom also cash houses, while the demand was very moderate, the support being of the indifferent sort. Receipts were 16 car cars and 616 cars are looked for Monday. Liberal arrivals are anticipated next week. Liverpool quoted spot ⅛@1d lower, and futures ¼@⅝d lower. Local weekly receipts were 1,577,000 bu and shipments 1,798,000 bu. Primary receipts this week 2,495,000 bu, against 1,767,000 bu last week and 3 175 0 0 bu one year ago. Southwestern markets were all lower. Map showed no sign of frost it being clear and warmer, though it was cooler through Ohio Valley. Fair weather generally predicted. Shipping demand fair, but confined chiefly to August loading. Exports were 102,000 bu. New York reported 19 boat loads accepted at the seaboard. Withdrawals here 168 000 bu. Car lots were in moderate demand with offerings fair. Prices ½@1½c lower. No 2 closed about 52¼c. No. 2 Yellow sold at 54c, and closed at 53½c. No. 3 sold at 52½c, and closed at 52c. No 3 Yellow sold at 54c and closed at 53@53½c. No. 4 sold at 52@54c.

Corn by sample—Offerings were considerably larger and while the demand was fair the feeling was weak. Prices were 1@1½c lower. Sales on track and free on board: No Grade sold at 51c. No 4 at 52@54c. No. 3 at 52¾@51½c. No 3 Yellow at 53¾@54½c. No. 2 Yellow at 55c. No. 3 White at 53c. Billed through: No 4 at 51¼@53c. No 3 at 51¼@52c. No 3 Yellow at 53@53½c. No 2 Yellow at 51¼@53⅜c. No. 3 White at 51½@52c. No 2 White at 51½c.

Future Deliveries of No. 2 Corn—Fairly active but weaker, and closed ¾@1⅛c lower

AUGUST—Inactive and closed nominally at 52c.

SEPTEMBER—Sold at 52@53c. Opened at 53c, and sold at 52¾c to 52¾c, to 52¼c, to 52½c, to 52c, to 52¼c, to 52c, to 52⅛c and closed at 52⅛c

DECEMBER—Sold at 50¾@51⅜c. Opened at 51⅜c to 51⅛c and sold at 50¾c to 51⅜c to 50⅞c, to 51c, 50¾c, to 51c, to 50¾c, to 50⅞c, closed at 50⅞c asked.

MAY—Sold at 48¾@49⅞c. Opened at 49⅞c to 49⅝c, and sold at 48¾@48⅞c, to 49¼@49⅜c, to 48¾c, to 49⅛c, to 48¾c, to 48⅞c, to 48¾@48⅞c and closed at 48¾@4⅞c

OATS—Were ⅛@¼c higher early, but weakened in later trading and closed at about the bottom at net losses of ⅜@½c. From the top figures the decline was ⅝@⅞c. The break was on liberal selling against cash purchases and by "shorts." And sales were 298 cars with 105 of contract. Estimates for Monday 293 cars. Withdrawals were 66,700 bu Standard from private elevators. Seaboard clearances were 27,000 bu. New York sold 60,000 bu for export. Car lots in store and to go to store were ½@1c lower. No. 4 sold at 30c. No. 4 White at 31¾@32½c. No 3 White at 32@33c. Standard at 31c.

Oats by sample were bought indifferently by local interests and prices receded ½@1c. Offerings were liberal. Sales on track and free on board: No. 4 White at 32c. No 3 White at 32@33¾c. Standard at 33@33¾c. No. 2 at 31@31¾c. No 2 White at 33@34c. Billed through. No Grade at 32c for white. No 4 White at 31½@32¼c. No 3 at 31c. No. 3 White at 32¼@33c. Standard at 32½@32c. No. 2 at 32c. No 2 White at 32¾@33c. At the river No 4 White at 30½c. No 3 White at 31@31½c. Standard at 31¾c.

Future Deliveries of Contract Oats—Were weak and lower.

AUGUST—Closed about the same as September.

SEPTEMBER—Sold at 31⅞@32½c. Opened at 32½c, sold to 31⅞c, to 32c at close

☞ The closing prices of September yesterday should have been 32⅜c, instead of 32⅝c

DECEMBER—Active. Offered freely. Sold at 32⅞c and at 33⅜@33¾c. Opened at 33⅝c to 33¾c, sold to 32⅞c, to 33⅛c at close

MAY—Active. Sold at 35⅛@36c. Opened at 35⅞@36c sold to 35⅛c, to 35¼c at close

RYE—Was quiet and easier. Futures about ½c lower and to sell cash fully 1c lower prices had to be accepted. There were seven cars received and there were 5,000 bu taken out of public elevators. No export clearances. For car lots of No 2 fresh arrivals prices 1c lower, with sales free on board at 72½c, and No 3 at 71c, and No 4 at 69c

Future Deliveries of No. 2 Rye—Quiet and ½c lower. September nominally 71c. December sold at 73c and closed with 73½c asked. May nominally 77c

BARLEY—The market presented a little more life. Rather more disposition on the part of maltsters to take Barley was apparent. The offerings of spot cars were fair. Consignments were well cleaned up. At late little lower level of prices Barley moved very well and ruled about steady. There were 31 cars inspected in and 2,000 bu No 5 out. New Screenings sold at 38c and a little low grade old Barley at 38c. New Barley, ordinary malting quotable at 45@47c, common thin or better weight, but stained, for feed or mixing, or low grade malting, about 40@41c. Good malting sold at 47@49c, and choice to fancy at 52½c, extra fancy possibly might bring a shade more

SEEDS—More interest seemed to be centered in Timothy, and there was a somewhat unsettled feeling. In both Flax and Clover a shade easier prices were quoted.

Timothy—There was an unsettled feeling. September delivery declined 5c and October improved that much; they came together; some September on sale and the other wanted in exchange. January sold to day for the first time. Cash offerings were moderate not large. Demand tame. Some called cash Seed easier, and others without material change. To-arrive lots weak and at a discount from spot prices. September and October changed even—at $3 00. September in the regular way sold at $2 95 and was offered at that; October finally nominal at that. January was called $3 10; it brought that in exchange for September. Cash sales reported at $2 70. There were sales at other prices, but they were not quoted. Country lots of new Seed quotably $2 65@2 75 for fair to good, choice to fancy $2 80@2 90 to possibly a shade over, and dark or dirty about $2 50@2 60 depending on quality. Very poor lower.

Flax—The tone of the market was easy again. Tendency downward as indicated by a further decline of ½c. A few cars of cash Seed were offered and sold. Speculative market remains neglected. Movement all around was small. Local receipts 5 cars or 4 500 bu, no output. Minneapolis receipts 3 cars and Duluth got 6 cars. No 1 Northwestern or No. 1 from the Northwest sold at $1 15, and No. 1 was $1 18 bid. Rejected quotable at $1 15@1 18, depending on quality. September $1 18 bid

Clover—A weaker feeling was quoted. Prices in some instances were 25c lower. New Clover is now moving and in all markets an easier tone prevails. Quoted as follows: October delivery nominally $12 50. Contract spot Seed was quotably about $12 50. Country lots, common to choice, $9 00@12 00; fancy above. Fair to good $10 50@11 50.

HOG PRODUCTS—Speculative trading quite active, and market somewhat unsettled. Considerable liquidation in the near deliveries, especially early in the day. Receipts of Hogs were fair, and prices lower, with prospects of a larger supply next week. Receipts at the leading Western packing points were estimated at 33,800, compared with 29,300 one year ago. Foreign markets were firm at unchanged prices. Domestic markets steady. Receipts of Products were fair—of Lard and Meats about 10 cars. Shipments were only moderate—of Lard and Meats about 80 cars. Market opened rather easy with considerable pressure to sell, and prices were lower on all descriptions, and further sharp reductions followed. At the decline there was a little more inquiry, and a steadier feeling prevailed. Prices recovered slightly. Toward the close, the market weakened again, and prices receded to inside figures, and closed steady. Trading largely local. Shipping demand was fairly active, especially for the domestic trade. Offerings were fair. Sales were moderate, and prices without material change

Mess Pork—Rather a good business was transacted in Mess Pork, and the feeling was weak during the greater portion of the day. Offerings were rather free, and the demand was only fair. Market opened unsettled and prices were 5@7½c lower, and prices further receded 7½@10c. Later, a little more steadiness prevailed, and prices rallied 2½@5c, but near the close declined 5@12½c, and the market closed rather steady. Demand on shipping account was light and offerings were moderate. Cash lots quotable at $11 30@11 40.

SEPTEMBER—Offerings were rather free, and the demand was only fair. Sales were made at $11 25@11 50. Opened at $11 45 to $11 50, sold to $11 35, to $11 37½, to $11 25, to $11 27½@11 30, and closed steady.

OCTOBER—In moderate request and offerings were quite liberal. Sales were made at $11 35 to $11 60. Opened at $11 50 to $11 60, sold to $11 42½@11 45, to $11 47½, to $11 45, to $11 47½, to $11 42½, to $11 45, to $11 35, and closed easy

JANUARY—In moderate request, with fair offerings. Sales were made at $12 42½@12 70. Opened at $12 70, sold to $12 55, to $12 57½, to $12 42½, and closed steady.

Lard—A fair trade was reported in the Lard market and the feeling was easier. Offerings were fairly liberal and the demand was moderate. Foreign advices unchanged. Prices ruled 5@7½c lower, and the market closed steady at medium figures. Demand on shipping account was moderate, with no particular pressure to sell. Cash lots quotable at $6 80@6 82½. Loose lots in moderate request with limited offerings. Prices steady at about 47½c discount on October figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 62½@6 75. Neutral in fair demand, with moderate offerings. Prices quotably higher at $8 12½@8 25 for No. 1, and $7 62½@7 75 for No. 2

SEPTEMBER—Demand was light and offerings were limited. Sales were made at $6 80@6 85. Opened at $6 85, sold to $6 80, to $6 82½, and closed steady.

OCTOBER—Offerings were fair and the demand was moderate. Sales were made at $6 90@6 95. Opened at $6 95 sold to $6 92½, to $6 95, to $6 90, to $6 92½, to $6 90, to $6 92½, and closed steady

JANUARY—In fair request and offerings were moderately free. Sales were made at $6 95@7 02½. Opened at $7 02½, sold to $6 95, to $6 97½, to $6 95, and closed quiet.

MAY—Quiet, and sold sparingly at $7 12½

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides and the feeling was easier. Offerings were rather free and the demand was fair. Trading largely local. Market opened easy at 5@7½c decline, and prices further receded 2½@5c. Toward the close a little more steadiness was manifested, and prices rallied 2½c, but settled back again 2½@5c, and the market closed steady. Shipping demand was light and offerings were small. Cash lots quotable at $7 20@7 30 according to weight

SEPTEMBER—In moderate request and offerings were fair. Sales were made at $7 22½@7 30. Opened at $7 30, sold to $7 22½, to $7 25, and closed steady

OCTOBER—Offerings were rather free, and the demand was fair. Sales were made at $7 32½@7 40. Opened at $7 35 to $7 40, sold to $7 35, to $7 37½, to $7 32½, to $7 35, to $7 32½, and closed easy.

JANUARY—In moderate request, and offerings were fair. Sales were made at $6 55@6 65. Opened at $6 65, sold to $6 57½, to $6 60, to $6 55, and closed quiet

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices favored buyers. Pickled Meats in fair request, with only moderate offerings, and prices ruled steady. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled lower. Smoked Meats called for moderately, and prices well supported. Closing prices were as follows:

GREEN—Hams, av 10@12 lbs, 9⅝@9¾c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9¾c; 18@20 lbs, 9¼@10c; Skinned Hams, 10⅛@10¼c; Shoulders, 6⅞@7c; Picnic Hams, 7¼@7⅜c; Bellies, 9@11c. PICKLED *loose*—Hams, 10@12 lbs, 9⅝@9¾c, 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9⅝ cash, 9⅝@9¾c September; 18@20 lbs, 9⅞@10c; Skinned Hams, 11@11½c cash, 11⅜@11¾c September, Shoulders 7⅜@7½c Picnic Hams, 7½@7⅝c, Bellies 10@11c. DRY SALTED—*loose*—Shoulders, 7@7⅛c. Short Fat Backs 6@7½c, Short Clear Backs 8@8½c, Clear Bellies, 7⅞@8⅜c; Rib Bellies 7⅝@8⅛c. Extra Short Rib Sides, 7@7⅛. Extra Short Clear Sides 7@7⅛c. Rough Sides 7½@7⅝c; Plates, 5½@7¾c; Jowl Butts, 4¾@4⅞c. EXPORT CUTS *boxed* Long Cut Hams, 10¼@10½c. Cumberland Sides, 8¼@8½c. Long Clear Sides 8⅛@8¼c; Extra Long Clear Sides 8¼@8½c; Short Clear Sides, 8⅛@8½c. SMOKED—*loose* Hams 11¼@11¾c. Skinned Hams, 12¼@12¾c, Shoulders, 8⅛@8¼c, Picnic Hams, 9@9¼c. Short Rib Sides, 8@8¼c. Extra Short Rib Sides, 7¾@7¾c; Rough Sides, 8@8¼c; Short Clear Sides 8⅛@8¼c; Extra Short Clear Sides 7⅝@7¾c. Breakfast Bacon 12@22½c.

BEEF PRODUCTS—Quiet and steady. Prices quotable as follows: Beef Hams, $19 50@20 00, Extra Mess Beef, $8 50@8 75. Plate Beef, $8 75@9 00; Extra Plate Beef $9 00@9 25. Tallow steady at 5¼@5½c for edible; 5@5¼c for prime packers 4⅞@4⅝c for No. 1 do, and 3¾@4c for No. 2 do, 4@4⅛c for city renderers, 4¼@5c for prime country and 3¾@3⅞c for No. 2 do. Oleo-Stearine in fair supply and quotably steady at 7¼@7¾c

GREASE—Quiet and rather steady at 3¼@3⅝c for brown 3⅝@3½c for yellow, 3½c for house, 4@4¼c for B white, and 4½@4¾c for A white.

CASH PRODUCE TRANSACTIONS.

Lake Freights—Loads were scarce and rates steady at 1c for Corn to Buffalo

Flour—No sales reported

Bran—Market quiet and steady. Sales were: ON TRACK—1 car to arrive in 100 lb sacks at $19 00.

FREE ON BOARD—No 2—3 cars at 72½c. No 3—3 cars at 71c. No. 4—1 car at 69c.

Barley—IN STORE OR TO GO TO STORE—No sales.

FREE ON BOARD OR SWITCHED by sample—Screenings—1 car at 38c. Barley—old—1 car at 38c; new—1 car at 41c, 1 car at 41½c, 2 cars at 43c, 1 car at 44c, 9 cars at 45c, 2 cars at 45½c, 1 car at 46c, 1 car at 46½c, 1 car at 47c, 7 cars at 48c, 3 cars at 49c, 5 cars at 50c, 2 cars at 52c, 1 car at 52½c.

Timothy Seed—Sales—per 100 lbs—76 30, 12 121, 50 bags and 1 bag at $2 70. 1 car at p t. Future delivery—September—2 cars at $2 95. In Exchange—September to October—2 cars at an even price—at $3 00. September to January—1 car at 15c premium for January, or at $3 10 for latter.

Flax Seed—ON TRACK OR TO GO TO STORE—No. 1 Northwestern or No. 1 from the Northwest—3 cars at $1 15

Clover Seed—Sales—per 100 lbs—12 bags at $11 25.

Short Clear Sides—Sales 28 000 lbs av. 60@65 lbs on p. t.

Rough Sides—Sales 20 000 lbs av. 35@40 lbs on p. t.

Short Fat Backs—Sales 50 boxes av. 15@20 lbs on on p. t.

Rib Bellies—Sales 3 ,000 lbs av. 18@20 lbs on p. t., 28 000 lbs av. 25@30 lbs on p. t.

Smoked Meats—Sales 60,000 lbs Short Rib Sides av. 50 lbs on p. t.

Cooperage—Demand light and offerings not very large. Market rather quiet. Ash Pork Barrels quotably steady at 95@97½c. Oak Pork Barrels were quiet at $1 05@1 07½. Lard Tierces in fair demand and prices steady at $1 25@1 27½. No sales reported

High Proof Spirits—Steady at $1 29 for finished goods.

Hay—Receipts, 974 tons; shipments, 35 tons. Choice grades of both Timothy and Prairie Hay in fair request and steady. Low and medium grades in large supply and very dull. Demand light. Choice Timothy quotable at $13 00@13 50. No. 1 Timothy at $11 50@12 50. No. 2 Timothy at $10 00@11 00. No. 3 Timothy at $8 00@9 00. Choice Prairie at $9 50@10 00. No. 1 Prairie at $9 00@9 50. No. 2 Prairie at $8 00@8 50. No. 3 Prairie at $7 00@7 50. No. 4 Prairie at $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay

Sales were. ON TRACK—Not Graded Timothy—1 car at $9 00, 1 car at $10 00, 4 cars at $11 00, 3 cars at $12 00, 1 car at $12 50, 3 cars at $13 00. Choice Prairie—1 car Kansas at $10 00. Not Graded Prairie—1 car Kansas, warm, at $8 50. 2 cars at $9 00, 3 cars at $7 50.

Straw—Rye Straw quotable at $6 50@7 50, Wheat Straw at $5 50@6 50 and Oat Straw at $5 50@6 00.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, August 26, 1904.

There is an increasing demand for loans from the Grain interests, which is borrowing more money than any other. The movement of currency to the country is beginning and promises to be liberal. High prices for cash Wheat requires a greater quantity of money than in previous years. Rates are steady at 4½ per cent for most of the loans with some up to 5 per cent. The mercantile interest is not borrowing to any extent and commercial paper brings 4½ to 5 per cent. In New York rates were easy at ¾ to 1 per cent on the Stock Exchange, which is creating general comment. This plethora of money is expected to create increased speculation and buying of Stocks. The time money market was 2 to 3½ per cent. The demand for prime mercantile paper there is in excess of the supply and the choice brings 3¾ to 4 per cent.

The New York exchange was slow at 20c to 40c discount and closed at 40c. Money is being ordered shipped from New York.

Foreign exchange was steady with a small increase in the offerings. Shippers' 60-day documentary sterling bills on London ranged at 484¼ to 484½.

Cotton in New York was excited, with wide fluctuations and heavy trading, attended by a failure on the "short" side at New Orleans. Interest in the market is increasing and advances were decidedly sharp, followed by equally severe declines. Sentiment is less "bearish" from the recent position and the "short" interest has been materially decreased. The "bulls" were more aggressive and are enlarging their operations. Closing sales were at gains of 00 to 60 points as compared with the previous week.

Local Securities were traded in fairly and prices move irregularly, but changes for the greater part were small. Carbon preferred was offered sparingly and sold at a new record price, but even the advance failed to bring out liberal offerings. Its earnings are said to be increasing and the stock has been picked up by investors, who are holding it off the market. Biscuit shares were steady. The only new feature was the advance in Flour, which has cut into profits, and the company has reduced prices on loose soda Crackers 1c a lb. It is the policy of the company to raise and lower prices of its Products whenever it is necessary to meet competition. There was little doing in Elevated or Traction shares, Oak Park Elevated selling at a fair advance. Bonds were fairly traded in and firm, but the demand shows a falling off.

Stocks in New York averaged higher and closed with fair gains. A good class of buying was noticeable in many of the issues, especially Union Pacific, Southern Railway and many of the cheaper stocks, among the latter being Chesapeake and Ohio, Chicago Great Western and Colorado Southern and National Lead. There was manipulation in Amalgamated by a pool, but the buying of other shares was of investment order. Low rates for money and the belief that there is a good general business ahead for the railroad and industrial shares was the basis for a good deal of buying. Southern Railway was bought on the theory that it is now coming into its shares of the good results of the assistance it has been to the South in its development of late years. There is to be a large movement of Cotton, and with the activity in other lines throughout the South there is prospect of better earnings, but so far as the actual selling price is concerned there are those who say it is high enough to offset all the good things that can come to it. Union Pacific was bought fairly and it is said there is likely to be a big distribution of stock from the hands of insiders if the price gets to 125. It pays 4 per cent and there were rumors that it may be put on a 5 per cent basis, but this is not likely to be until earnings are much larger than at present. London was on the selling side part of the time, and on all the bulges there was an increase in the selling. Some of it was for the "bear" interest, but a good deal was for "longs," who were taking profits. In the bond market there was less activity and no material change in prices. Total sales on the New York Stock Exchange for the week were 2,780,000 shares, against 3,538,000 shares the previous week, and 1,552,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Am. Sug. Ref. Co.	34,500	Missouri Pacific	116,850
Alton com.	1,000	Peoples' Gas Co.	14,000
Atchison	9,600	N. Y. Central	9,100
Atchison, pfd	8,100	New York, O. & W	30,600
Amal. Copper	195,700	Union Pacific	162,200

Increased buying of merchandise was reported by a majority of the jobbers. They look upon crop prospects as more settled, and are anticipating future trade requirements and buying small lots of merchandise with more freedom, but sales are hardly up to last year's. Cotton goods show firmness in values, and there is no scarcity despite the recent closing of the mills. Prices for raw Cotton continue firm and higher, which strengthens values of goods. Sales of Pig Iron were moderate and mainly in small lots. Cutting of prices in Steel has not increased the buying, as buyers look upon the price war being waged between the big manufacturers as likely to result in still lower figures and large consumbers are holding off. The best contract for structural material was let last week—35,000 tons for the South Side Elevated Road's extension. There were good purchases of Steel rails, and the rail pool is the only one that has not shown decided weakness. A reduction in prices of wire nails has slightly increased purchases and will materially reduce the income of the United States Steel Corporation. Light hardware was bought more freely. The movement of Coal to the West is small. Lumber is being bought liberally and the sales and movement compare favorably with last year's. Prices are well maintained. In other lines business was moderate. Turpentine advanced 1c. Collections were fairly good.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was reported very good during the week just closed. Sentiment in many instances was quite the reverse of that lately noted and "bear" interests were more aggressive in their operations. Outside orders were quite numerous and local traders operated on a large scale, though the volume of the speculative trade, as a whole, did not equal that of the previous week. The labor troubles in packing circles at the Stock Yards are still far from being settled, but the output of Product is gradually enlarging and the speculative trade broadening. Unsettled, nervous markets may be expected until more definite official news regarding the crops is at hand. Reports from private sources have been very conflicting, and there is little doubt but that much of the news at hand has been greatly exaggerated. Weather conditions from now until the balance of the new crops are gathered will be the dominating influence in Grain and should be watched closely by outside speculators. Trades should be well margined, as violent and sudden changes are not uncommon at this season of the year, as the fluctuations of the past week bear witness.

Weather conditions in Europe were reported as unseasonable, and fall plowing on the Continent delayed, owing to drouth. Reports from United Kingdom were favorable regarding Wheat, but unsatisfactory as regards Oats. The Wheat yields in France are, as a rule below expectations, but quality good. Germany reported the outlook for the fodder crops was better condition than a week ago. The new Wheat is of fair quality. The arrivals of Wheat at Russian ports are fair to good and quality said to be excellent, but the arrivals at Odessa are as yet small, and quality generally poor. Rains are needed to advance plowing in Roumania, while heavy rains in Sweden stopped harvesting. Hungary was reported a buyer of La Plata Corn cargoes.

Weather conditions the past week, outside the rather low temperatures, were highly favorable in the United States and Canada. The rains through the Corn belt will no doubt prove beneficial, but higher temperatures are necessary to insure rapid development. Advices regarding the probable yield of Spring Wheat in the Northwest are still conflicting. There is little doubt but that recent damage claims from North Dakota and Manitoba have been exaggerated, but definite results will be difficult to determine until reports are at hand from the threshers. Private estimates for the three States range anywhere from 125,000,000 bu to 170,000,000 bu. Late-sown Wheat in Manitoba is said to be in danger from frost. Recent returns on Oats indicate large yields of good quality.

The movement of Grain from the farms and interior elevators was moderately free the past week. Wheat and Oats were marketed in a liberal manner in the principal producing districts and the arrivals at the larger terminal centers large. The movement of Wheat in the Northwest was moderate. The new crop has just started to move and about 50 per cent of the receipts are reported as grading No. 1 Northern. In the Southwest the movement from the farms was more moderate and indications are for somewhat smaller receipts. Oats, however, are moving freely. Corn was marketed with moderate freedom through the West and Central West, but the movement was lighter than a year ago at this time. There is, however, more disposition on the part of country holders to sell, and on any further advance in values receipts no doubt would enlarge. The movement of Grain Eastward was only fair. Corn is going forward with a little more freedom and indications are for larger shipments to the seaboard, owing to the better foreign demand and to the crop failure in Eastern Europe. Shipments of Wheat and Oats moderate. Exports of Flour and Wheat were moderate, as also Corn and Oats. Bookings on the Atlantic Coast light, though a little better foreign inquiry for Corn. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was an increase in Oats and Rye and a decrease in Wheat, Corn and Barley.

A good speculative business was witnessed in all the leading markets on 'Change this week, but the trade was hardly as broad as noted the preceding week. While the trade in Grain was large, the volume was somewhat smaller and markets less animated and unsettled. There was a more general desire on the part of "bull" interests to secure profits in Wheat. Influential interests were inclined to await more definite advices from Manitoba and the Dakotas before favoring the "long" side of the market at the prices ruling, and support was rather indifferent, under which prices naturally receded. Corn, however, in face of the weaker feeling in Wheat, displayed quite a strong undertone. The better foreign demand, cool weather, and "bullish" crop advices from abroad being the chief helps. Oats were rather easy. Cash interests sold freely, and local stocks are accumulating rapidly. Rye was dull and lower. Hog Products were fairly active. Outside orders, however, were not very large. Considerable business in the way of transferring contracts from September to October at the current differences. Prices on the whole were rather steady. Receipts of Hogs were rather liberal and prices favored buyers. Packing of the West for the week 55,000 short of last year; season, 9,785,000, against 9,885,000 in 1903.

A fair trade was reported in cash Grain and the receipts this week sold very readily. Wheat was in good demand, except the inferior grades, and prices were somewhat irregular, depending on quality. Demand was chiefly speculative, milling interests purchasing less freely. Corn however, was in more general demand and the offerings light. Prices were higher. Oats were in large supply, and the quality very good. Demand fair. Rye was quiet and easy. Seeds were in little larger supply, that is, Timothy and prices easy. Clover firm and Flax steady. Hay was quiet and steady. Receipts liberal and demand only moderate. Hog Products were in much better demand, and mainly to supply domestic wants. Offerings not very large. Prices rather well supported. Hogs were in larger supply and prices favored buyers. Cattle was marketed more freely and prices were lower. Sheep too, were forwarded in larger numbers, and prices somewhat easier.

FREIGHTS—Traffic in Grain East and West is of good volume. All railroads are in the best shape in years for handling traffic as they never had so much equipment in as good condition for the business that is ahead of them this fall and winter.

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	19½	13½	21½	16
New York	17½	13½	19½	16
Philadelphia	16½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 16c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are steady, with a fair demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6c per bu and Corn 5⅞c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are easier with a slow demand for boats, at 1⅛c on Wheat and 1c on Corn to Buffalo.

FLOUR—The trade in Flour the past week was very moderate, the sharp reaction in Wheat values causing buyers to act with renewed caution. There was a more general inquiry early in the week and indications were for an improvement in the situation as most dealers and large consumers were light in stocks. The sharp drop in Wheat however, equal to 10@10¼c caused most buyers to withdraw from the market and purchases were again on the hand to mouth order. New York was a buyer of fair sized amounts, but sales to points tributary to the local market were very moderate. Foreigners endeavored to keep pace with the rising values here last week, but with the first indication of a break in prices, bids were reduced and comparatively little Flour was taken to go abroad. Millers, at the same time, were not pressing their output on the market. Offerings from the Southwest were moderate and consignments continue small. This was also the case with the interior millers of the Northwest. The market the last of the week was in a very nervous unsettled condition and until values are adjusted to meet the decline in Wheat prices transactions in Flour will be curtailed. Millers marked prices down slightly the last of the week. The output in the Northwest was reported 321,000 brls, as against 335,000 brls for the same week last year.

MILLSTUFFS—Has been in sharp demand and ruled firm. The receipts have been small. Bran in bulk sold at $17 50 per ton and in 100 lb sacks, sacks included sold at $18 50@19 50 per ton.

WINTER WHEAT—Prices during the week reached a point 1@1½c higher than last week, but the course has been irregular, and fluctuations wide, prices declining some 5@7c later, with the closing stronger. The market acted in sympathy with the speculative market, which caused the irregular range of prices. The demand has been very good and chiefly of a speculative character, the Wheat being bought principally to place in store and sold against in the speculative market. Hence it was that the choice Wheat or good Wheat which could be cleaned into contract grade was the most desirable, and made poor Wheat relatively slow. Millers made moderate purchases and acted rather reservedly in their purchases, evidently having some apprehension about the stability of prices. The receipts did not show any increase, but the present prices are likely to start a freer movement. The quality of the Wheat was very good. The stock of No. 2 Red in store was 428,000 bu, against 401,000 bu the previous week. For the week the receipts were 710 cars, against 725 cars the previous week. There were withdrawn from public elevators 136,400, and from private warehouses there were withdrawn 145 cars and 135 700 bu. No 2 Red in store ranged at $1 10@1 12¼, down to $1 04½@1 09½; fresh arrivals free on board sold at $1 10@1 13, off to $1 07@1 03. No. 3 Red fresh receipts free on board sold at $1 08@1 12, down to $1 06@1 07½, with sales at the river at $1 07@1 08¼. No. 4 Red fresh arrivals free on board at 97@98c for ordinary, at $1 00@1 03 for good, and $1 05@1 08 for choice, with sales at the river at 99¼c@$1 05¾. No Grade Red sold at 92c@$1 00. No. 2 Hard fresh arrivals free on board sold at $1 10@1 12½, to $1 05⅝@1 07½, with sales at the river at $1 08¼. No. 3 Hard fresh receipts free on board sold at $1 05@1 10, to $1 01@1 06½, with sales at the river at 99c@$1 06. No. 4 Hard fresh receipts free on board sold at 92c@$1 06½, billed through at 97½c@$1 00, and at the river at 94@98c. No. 3 White sold at $1 04½@1 06, and No. 4 White sold at 96c@$1 07.

SPRING WHEAT—Ruled very quiet all the week and little better than nominal, owing to the very limited offerings. The receipts have been very small and this prevented trading. Choice Wheat sold very readily, this being in demand, but the poor was slow sale. Dealers anticipated larger receipts, but the movement of the new Wheat so far has been slow. The receipts for the week were 0 cars, against 14 cars last week. There were withdrawals from public elevators 8,800 bu, and none from private warehouses. No. 1 Northern was quotably $1 15@1 20, and No. 2 Northern ranged at $1 05@1 12, with sales of two car loads at $1 10. No. 3 Spring was quotable at $1 08@1 12, with a sale at $1 12. No. 4 Spring ranged at 85@$1 00 for fair to good up to $1 05@1 08 for choice.

REGULAR WHEAT—There was a large trade in Wheat this week, but market was less one-sided, sentiment being more divided. The close shows new September 3¼c lower, while December lost 4⅛@4¼c and the May 4⅜c. The situation at the start was "bullish," and a further rise in values established new September selling to $1 12, while December touched $1 14 and May $1 17. The early advance was attributable chiefly to the low temperatures in the Northwest, light frosts being reported in parts of the Dakotas, and there was a continuance of the outside buying noted last week. There was, however, heavy and general realizing by local and Northwestern "longs," and a good many stop loss limits were uncovered on the decline which followed. New September reacted to $1 02½, while December sold off to $1 04, and the May to $1 16¼. A rally of 3¼c followed the break, the market acting oversold and the close was quite firm. Advance was attributable to damage reports from Northwest. Crop news from Northwest was fully as contradictory as any heretofore received, the advices from Manitoba being the important consideration the first of the week. The statements were most conflicting, and traders in most instances were inclined to look upon the same as exaggerated and hastened to secure profits. Many "bull" leaders shifted from the "long" to the "short" side of the market, and prominent elevator interests sold the distant futures freely, resulting in general liquidation as prices tended downward. The following are a sample of the numerous reports as received the opening days: Gainsboro, Northwest Territory, wired Monday: "From Winnipeg south to Rosenfield, thence to Deloraine, crop badly rusted backward—won't yield 30 per cent of recent promise. From Deloraine west much better; cutting well commenced, but stopped by rain. Most farmers do not know what rust is." Winnipeg wired: "This rust is a terror; week ago would not believe it; now at least one-third Manitoba crop gone and we cannot estimate how much will yet go. At least half the crop very late; weather very bad, two days' heavy rain, but fine this morning." Winnipeg wired on Tuesday: "Three-quarters Manitoba Wheat badly damaged by rust; crop in Territories green and late; great danger from frost. Damage by frost reported from Regina, Lumsden and Moosomin." Another message said: "Weather ideal again, nothing definitely new about rust damage, but estimate crop cut down one-third; principal elevator companies and exporters who know best about the situation bought our October Wheat freely yesterday; they had not touched it before, and country dealers who had previously sold "short" covered their sales." The Winnipeg correspondent of the *Modern Miller* claimed that the reports sent from there regarding the damage to the Wheat crop were grossly exaggerated, and a report made up by the largest milling concern in Canada from sixty-five agents in Manitoba indicated that while the rust damage was serious, the outlook was for a total yield several million bushels larger than last year's crop, which was not short of 56,000,000 bu. The average yield of the Province was estimated at 19 bu. The Winnipeg *Commercial* said: "Grain men may talk wisely about rust and discount the crop possibilities to the fullest extent, but when hundreds of merchants from the country arrive on the scene with practically the same tale of splendid crop prospects, no rust to speak of, the business men relegate grain market theories and rumors to their proper, subordinate position." Minneapolis claimed the *Northwestern Miller* estimated the yield in the three States at 170,000,000 bu and claimed no damage by rust in Manitoba. A report from Swan Lake said: "The greater portion of the Wheat for seventy-five miles that I have ridden through this morning is fine. There were some fields affected by rust, but not enough to cut down the average materially. Many farmers at stations are claiming the best crop in many years. I rode across the country yesterday from the Canadian Pacific to Elgin on the Canadian Northern, and there are promises of some very heavy yields. There was a heavy rain yesterday in some sections; do not know how large an area it covered, but I do know it rained 'some' in a certain locality, for I was out in all of it in an open sea of Wheat; no damage to the Wheat. To sum up my impressions of the territory I have traveled, and from all I could learn of the country still farther west, there will be a good average crop this side of the line. The reports from the extreme Northwest in the new country up north of Regina state that it has been dry and crop will be light. While there is some rust all over a large section of Manitoba, I do not think it will cut the crop more than 10 per cent on the whole, and without rust or frost the prospects are for a very large crop." The Government weekly weather crop bulletin stated that the harvest was generally finished except in North Dakota and Northern Minnesota, where rust continued to cause great injury. Rains in North Dakota in latter part of week interrupted harvesting. Harvesting is also nearly finished on North Pacific Coast. Routine statistics received but casual consideration, though the showing of the visible was a surprise to most traders. Primary receipts last week were much larger than a year ago and exports considerably smaller, still there was a decrease in the amount in sight. It is generally conceded that a large percentage of the receipts are going into private elevators, and that the reported stocks in such elevators are not accurate. For the last four weeks receipts of Wheat in Chicago have been 3,947,000 bu, and shipments 1,876,000 bu, a difference of 2,071,000 bu, while in that time stocks of Wheat in the public houses have decreased about 200,000 bu, and stocks in private houses have increased about 800,000 bu. Foreign advices indicated no particular change in that quarter. *Broomhall's* weekly foreign crop summary cabled on Tuesday said: "United Kingdom—Reports regarding Wheat are a shade better. France—Crop reports are "bullish" in most cases. Germany—There are fair supplies of new Wheat, quality of which is good. Russia—At some ports arrivals of new Wheat are fair to good, with quality excellent, but at Odessa receipts very small and Grain of poor quality. Roumania—Rains needed to admit of plowing. Sweden—Heavy rains have stopped harvesting. India—Crop situation satisfactory." Paris *Echo Agricole*, in the issue of the 11th inst., said that it is now certain that the Southern, Central, Eastern and Western-provinces will show an important deficit in the crops, especially when compared with last year, but it is the general opinion that the North will produce rather better results, although reports are still very contradictory. The heat and drouth have seriously affected the crops, and Wheat is likely to suffer to the extent of about 25 to 30 per cent. In several districts the threshings show only 22 to 24 quintals per hectare, against 30 to 32 quintals last year. The visible decreased 235,000 bu, against 172,000 bu increase last year. Total now 12,323,000 bu, against 12,710,000 bu in 1903 and 20,689,000 bu in 1902. Local public stocks decreased 16,000 bu and are now 870,000 bu, compared with 1,844,000 bu one year ago. Stocks here in all positions were reported 2,687,000 bu, an increase of 195,000 bu, against a stock of 6,328,000 bu one year ago. Contract stocks increased 15,353 bu last week and now include 454,370 bu, against 1,540,276 bu one year ago. World's shipments were 8,376,000 bu, against 8,504,000 bu the previous week and 9,608,000 bu one year ago. Quantity on ocean passage increased 256,000 bu to 40,392,000 bu, against 27,336,000 bu in 1903. London *Statist* estimated the world's Wheat crop at 2,893,600,000 bu, against 3,087,800,000 bu in 1903 and 3,031,800,000 bu in 1902. Primary receipts from June 27 to August 22 aggregate 28,776,000 bu, against 25,410,000 bu in 1903 and 45,375,000 bu in 1902. Exports this week were 1,840,000 bu and since July 1 foot up 11,389,000 bu, compared with 25,097,000 bu one year ago. Argentine shipments were 1,512,000 bu, making 77,224,000 bu since January 1, against 56,292,000 bu in 1903. The visible supply there is now 8,240,000 bu, against 2,904,000 bu last week and 2,240,000 bu one year ago. The *Handels Zeitung*, of Buenos Ayres, on July 15 reckoned that Argentina had then still some 16,100,000 bu Wheat for export, and as 6,000,000 bu have been put afloat since, there should now remain fully 8,000,000 bu to be shipped.

CORN—There was a very good trade in Corn this week, and the feeling while unsettled was easier on the whole the close showing September ¼c lower, while the December lost ⅝c, and the May 1¼@1⅜c. Speculative offerings at the start were moderately free, but the same were well taken by commission houses and local professionals. The cool weather and fears of frost, together with the strength abroad, and "bullish" advices from the Continent, had a tendency to cause "shorts" considerable anxiety, and many covered. Reports of Hungary buying La Plata cargoes and advance in cash values at Liverpool likewise imparted a stronger tone to the local market. The seaboard and Southwest were both credited with buying the distant futures and the situation was decidedly "bullish." September advanced to 56⅛c, while December touched 54¼c and May 53⅛c. The improved demand for the cash article, with sales for direct export, was another one of the "bullish" influences. Receipts were moderate and stocks for the week showed a heavy reduction. Crop news from the other side was all in one strain, claiming shortage in coarse Grains and fodder crops was almost complete in sections of the far East and that importing countries would be obliged to seek other quarters for supplies. Foreign markets were decidedly firm and private Liverpool cables claimed there was an active demand for River Plate Corn and stated prices were not likely to decline on the cash article no matter what may happen to futures in America. Liverpool stocks decreased 5,000 bu last week to 360,000 bu, and are 523,000 bu smaller than a year ago. Domestic crop news was not of the best, private reports from the Ohio Valley and parts of the West being favorable to holders. Complaints of the weather being too cool and the crop making slow progress were numerous. The steady advance in face of the general rains over the Corn belt on Sunday and declining tendency of Wheat was looked upon by "bull" leaders as very encouraging, and many "long" lines were enlarged. The Government weekly weather bulletin, while admitting the outlook for the crop was unfavorable in certain sections, was not as "bullish" as many traders had anticipated. The report in detail was as follows: Principal Corn States experienced a week of favorable conditions, abundant rains having fallen throughout the belt, except in portions of Ohio and Nebraska. Corn made satisfactory progress in the States of the Missouri Valley and is generally improved in Central Mississippi and Ohio Valleys, although considerable part of the crop in Ohio Valley is injured beyond recovery. In middle Atlantic States and lower Missouri Valleys early Corn is now practically matured. As the week advanced, realizing and profit taking set in causing the September to react to 52c, while December receded to 50⅝c, and May to 49c. The statement of the *Price Current* that the outlook was for a crop of 2,500,000,000 bu was the "bear" influence. Receipts for the week 1,4[illegible] cars, against 788 cars last week, and 1,913 cars one year ago. Withdrawals from store here were liberal and exports somewhat larger at the seaboard. World's shipments this week were larger at 4,8[illegible],000 bu, against 3,916,000 bu last week and 4,[illegible] one year ago. Quantity on ocean passage increased 900,000 bu to 17,196,000 bu, against 19,509,000 bu one year ago. The visible decreased 450,000 bu, and the total is now 4,646,000 bu, compared with 6,417,000 in 1903 and 3,423,000 bu in 1902. Local public stocks were reduced 284,000 bu and are 1,774,000 bu against 2,863,000 bu one year ago. Stocks here in all positions reported 3,256,000 bu, a decrease during the past week of 919,000 bu. Stock a year ago 4,713,000 bu. Contract stocks were reduced 281,140 bu to 1,768,823 bu, compared with 2,710,337 bu same date in 1903. Exports this week were 736,000 bu, and total since July 1, 4,509,000 bu, as compared with 8,314,000 bu one year ago. Bookings for forward shipment were a little larger. Argentine shipments were liberal again at 4,192,000 bu, and aggregate 47,857,000 bu since January 1, against 38,497,000 bu for the same period in 1903. Market advanced 1½@1⅝c again on Friday, but the full gain was not maintained. The call for car lots was quite brisk most of the week and the offerings rather small. Prices were higher for all grades but the market closed easy.

OATS—Were weak most of the time and closed easy with losses of 1¾@2c. The close was at nearly the bottom at 32⅝c for September, 3[illegible] for December and 35⅝c for May. Cash interests were heavy sellers all week, and they supplied a good part of the demand. Receipts were liberal and the shipping demand rather indifferent. Oats are about 3c to 5c out of line for export and spot Oats in the East were offered cheaper than the West is able to put them down c.i.f. Buffalo. The weakness in Wheat and Corn was responsible for part of the decline in Oats. Prices are now lower than last year. In the country, many Oats are being stored and sold against here for May, it being more profitable to hold them than to sell at present. Stocks are piling up and in two weeks have increased 2,498,000 bu and are 3,7[illegible],000 bu. Of contract they increased 63,000 bu last week and are 429,000 bu. Public stocks increased 141,000 bu and are 527,000 bu. Arrivals for the week were [illegible] cars, compared with 2,098 cars the previous week and 1,250 cars last year. The sample market was fairly active and 1½@2c lower. Some of the samples from Iowa showed light weight and badly stained, but on the whole the grading is high. The inspection department, in connection with the Board of Trade sampling department, has raised the grading for the crop, raising it over last year's standard owing to the excellent quality. Export clearances were 166,000 bu compared with 111,000 bu the previous week and 118,000 bu last year. The visible supply increased 1,741,000 bu, and is 4,1[illegible] bu, against 5,964,000 bu last year. *Bradstreet's* available supply increased 4,022,000 bu, against 660,000 bu last year.

RYE—Ruled irregular in sympathy with the Wheat market. Early prices were from ½c to ¾c higher than the closing of last week, but an easy feeling developed and prices declined 4½c for September delivery and only about 2@2½c for spot fresh arrivals, followed by a partial recovery from inside prices. A fair demand existed for the cash but the futures ruled dull and neglected. There were fair offerings and no special demand for cash was taken for speculative purposes, to be bought to go to store. Millers bought only an occasional car. Quality of the Rye coming averaged good, grading mostly No 2. The receipts for the week aggregated 71 cars, against 53 cars the previous week. There were withdrawn from public elevators none and from private warehouses [illegible] bu and 8 cars. The visible supply increased [illegible] bu, and was reported at 964,000 bu, against 5[illegible] bu a year ago. Local stock in store was 537,000 bu and a year ago was 268,000 bu. No 2 in store entirely nominal and ranged 74c to 76c, fresh arrivals sold at 76c down to 73½c, and billed through at 72½@75c. No 3 sold at 72@74½c free on board and at 71c at the river. For future delivery [illegible] No. 2 trading was light. August nominally [illegible] under September. September sold at 75c down to 70c, up to 71½c, and closed at 71½c bid. December sold at 76⅝c down to 72c nominally. May was 80c asked early and nominally 75c later.

BARLEY—A steady to firm market was experienced during the past week. Maltsters and dealers were both represented in the market and grades of barley were salable. Early in the week offerings were liberal, much larger than in the corresponding week last year, and created by the postings. Later receipts fell off considerably. Most of the new barley is being stacked; that is makes forward movement a little slow. Offerings have been mostly of new Barley. Some new Barley received was hot and had to be sold low on this account. Receipts for the week ending August 26 were slightly from far to choice malting. Such old barley as appeared on the market was mainly screenings or low grade samples. Receipts for the week were 87 cars, compared with 43 cars the week before and 36 cars two weeks ago. Exports from New York reported as 101,346 bu, against none for the previous week and 20,839 bu. two weeks ago. There was a decrease of 41,000 bu. in the visible supply and it was reported at 779,000 bu. compared with 820,000 bu a year ago. There was no change in the stocks. Sales to arrive aggregated 50,000 bu for the week; in but few instances were prices made known. The first half of the week prices were steady, the last half easier, and closed at about the opening. Choice to fancy Barley sold at Duluth at 39@39c. Barley, old low grade, sold at 32@32c, some fair quality sold at 43c. New common, thin or considerably stained feed Barley sold at 30@32c. Malting, low grade new, about 42@43c. Fair to good, depending on weight and color, quotable at 50@53c, and some fancy early above.

OATS—A little more animation developed. Sales was particularly so in Timothy. This line was slow, easy, but did not change much. The next new Oberer of the crop came to the market the first week and was of nice quality. Higher prices for Clover were quoted; not all, yet most of the advance was maintained. The Flax market in a very quiet way followed a steady to firm course and rose to to a little higher level.

Timothy—There was a larger movement both ways Compared with the same week a year ago receipts and shipments were very moderate. A good deal of the crop came to the market the first week and was of nice quality. Higher prices very feeling prevailed. September delivery declined 5c. Cash quotations were much the same from day to day. Cash buyers were slow to take hold, and the market was given a very bad aspect. Receivers held their ground well and some, rather than sell, put Seed away in storage. On Wednesday there were good offerings, and few sales on the regular market. Later in the day the feeling was easier. There was not much business in the way of speculation. Thursday there were fair September sales. Fair offerings came out, and buyers were close to take it, yet it would hardly have been expected from the apparent lack of interest. To the disinterested observer there would appear to have been a little very nice genuine buying on both sides of the market. Cash on old Seed has become nominal; according to the last sale it was perhaps about $2 80. September sold early at $3 35 it worked down to $3 07; most sales at that and it closed at $3 07 bid. October was usually called $2 90 nominal. Country lots of new Seed were quotably $2 85@2 75 for fair to good, choice to fancy $2 85@2 90 to possibly a shade over, and $2 50 for dirty about 50@60 depending on quality.

Receipts the past week, lbs..... 579,469
A week ago..... 385,500
Two weeks ago..... 75,400
Corresponding week last year..... 2,329,900
Shipments the past week, lbs..... 245,182
A week ago..... 238,388
Two weeks ago..... 284,750
Corresponding week last year..... 1,412,363

Flax—There has continued a practically lifeless market. Its main feature has been as for some time past; and that in an absence of offerings. There were quoted daily the nominal bid prices and they were advanced 1c. They were in sympathy with a strong market in the Northwest. In that quarter low temperature was cited as a leading cause for the strong tone manifested. There have been but very small arrivals. So far as noticed, little new Flax out of the Southwestern crop is coming this way. Output was very small the past week. It probably will never be better at this season of the year when the Flax market has received so little attention as the past week. Posted receipts gave an aggregate of 22 cars, compared with 21 cars the previous week and 20 cars and 15,960 bu. by lake two years ago. Output was 7,485 bu.; the week before 66,519 bu. were taken out and two weeks ago 32,530 bu. Stock changes were small. Local stocks at Duluth were reported as 31,485 bu.; a year ago 129,821 bu. were in regular houses. Duluth decreased 425,245 bu., which left on hand 2,301,235 bu., and Minneapolis, which is a decrease, 1,876,000 bu. No. 1 Northwestern or No. 1 from the Northwest had a salable value of $1 54@ early to $1 26 later; closed at $1 28@. No. 1 in the same way improved from $1 17@ to $1 21; closed at $1 18@. Rejected was quoted at $1 13@1 17 to $1 14@1 18, nominal, depending on quality. September delivery advanced on the quotations from $1 17@ to $1 19 and closed at $1 19 bid.

Clover—During the week prices for Clover advanced rather sharply. Previous prices were regarded as pretty well up and still about $1 00 per 100 lbs advance was added to such figures. There has been a casting about for crop prospects at home and abroad. A good deal of winter killing was suffered in this country and the area has for some time been put at a low figure. It was hoped weather conditions might bring about a large yield. Recently there has been a conviction that this would hardly be realized, but that the home crop would be short. On this and basis prices have gone up. The advance was an unusual one, occurring without sales; there came a final small reaction. A few small lots of new Clover came to hand. October delivery quotation was raised from $12 00 to $13 00; closed at $12 75. Contract grades, old Seed, from $11 50@11 75 to $12 25, and finally $12 50@12 75. Prime, new Seed, to good, early at $8 00@11 00, later at $9 00@10 75 to $10 50@12 00. Movement very small, as the following shows:

Movement for the week, with comparisons, was as follows:

Receipts—The past week, lbs..... 6,530
A week ago..... 20,800
Two weeks ago..... 25,870
Corresponding week last year..... 35,031
Shipments—The past week, lbs..... 2,041
A week ago..... 2,041
Two weeks ago..... 2,950
Corresponding week last year..... 137,000

Other Seeds—There has been no business since the last weekly review and there has been no business done, nor is any looked for coming until about this head have not yet appeared, and there were no offerings of old. Some time ago quotations were discontinued for the lack of a market and no new quotations have been made since. There was an increase in both receipts and shipments. What this movement consisted of it impossible to say, those interested have no good reason for telling, and there is nothing on the regular market to indicate what it might be.

Receipts the past week, lbs..... 132,600
A week ago..... 20,800
Two weeks ago..... 40,480
Same time last year..... 102,000
Shipments the past week, lbs..... 977,100
A week ago..... 380,880
Two weeks ago..... 424,014
Same time last year..... 70,000

Hay—The receipts for the week were 5,375 tons, against 4,148 tons for the previous week and 183 tons for the previous week. Choice grades of Timothy and Prairie Hay were in only fair supply and the demand was moderate during the past week. A weak feeling prevailed however, and prices declined 50@$1 00 per ton. The arrivals of low grades were large and the demand was light. The market for this class of Hay ruled very dull, and receivers experienced considerable difficulty in disposing of consignments. Prices were weak. Quotations at the close ranged as follows: Choice Timothy, $9 00@10 00; No. 1 Timothy, $8 50@9 00; No. 2 Timothy, $8 00@$8 00; No. 3 Timothy, $8 00@9 00. Choice Prairie, $9 50@10 00; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, 5 00@5 50. Receipts of Clover Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@11 50 per ton to fancy Timothy, $8 50 for Three-fed Timothy, $8 50@9 00 for State, $7 00@10 00 for Kansas, Nebraska and Iowa Prairie Hay. Rye Straw sold at $7 75@7 75, Wheat Straw at $3 00 and Oat Straw at $5 50@7 00.

COMPARISONS—Only a very limited business was transacted in Congress during the past week, and there were no particular changes to note. Local packers have fair supplies on hand and not disposed to purchase while low labor troubles exist. Outside orders moderate Offerings were fair. No particular change to note in prices Ash Pork Barrels in small request and prices steady at $9 00@9 50. Oak Pork Barrels were in moderate demand for sale at $1 65@1 70. Lard Tierces were called for sparingly and prices were quotably steady at $1 25@1 27½. Iron bound Lard Tierces quiet and quotable at $1 10@$1 12½ for hoop and $1 12½@1 17½ for eight hoop. Oleo Tierces steady at $1 17½@1 20.

HOGS—There was a fair increase in the supply of Hogs during the past week, and the quality was quite good. Many of the sales were steady and the changes in prices were slight. Packers were more confident that they could take care a larger number, and purchased with considerable freedom, while shippers provided for fair orders from the Eastern markets. Market was a trifle stronger early and prices were about 5c higher. With a larger supply, a weaker feeling was developed, and prices receded 10@20c on the whole range. Toward the close the market was steadier again, and prices rallied 15@20c, and the market closed comparatively steady Sales during the week were made at $5 10@5 65 for light, $4 60@5 00 for rough packing, $5 00@5 50 for mixed, and $5 00@5 55 for heavy packing and shipping lots, with the bulk of the sales within the range of $5 35@5 50 for fair to good averages. At the close about 4,000 Hogs remained in the pens unsold. Pigs were in moderate supply, with good demand, and changed hands at $5 10@5 35 according to size and quality. Receipts of Hogs at the other large Western packing points were fair, and the quality rather good.

PACKING—With some increase in the Hog supply, a little improvement in working facilities, and prices of Hogs satisfactory, there was rather more business transacted at the packing houses during the week just closed. Manufacture of Products adjusted as much as possible to descriptions most required by the general trade. Fork of all kinds made sparingly. Lard produced liberally, and the average yield was good. Productions generally placed in tierces. Domestic cuts of Hams made moderately and chiefly packed by manufacturers. Skinned Hams made in fair quantities. Foreign cuts of Hams made very sparingly. Shoulders made in limited quantities, and only a small proportion delivered from the block. Picnic Hams made in fair quantities, and chiefly cured by manufacturers. Long Clear Sides and Extra Long Clear Sides neglected. Short Clear Sides made in small quantities. Extra Short Clear Sides made moderately. Short Rib Sides cut in moderate quantities. Extra Short Rib Sides made in limited quantities Rough Sides met with a little more favor, and the production was more general. Bellies and Sellies made in moderate quantities. Loins cut rather freely to meet current wants.

PROVISIONS—A fairly good speculative trade was transacted in Mess Pork during the week just closed, and the feeling was considerably unsettled. Outside orders were moderate, and local operators and packers traded in fair quantities Prices ruled somewhat irregular. A small share of the business was in transferring contracts from September to October at the current differences—about 15@20 on Mess Pork, and 7½@10c on Lard. Receipts of Hogs were in better supply, with prices a little more favorable to buyers, and the returns of the packing of the West for the week, exhibited an increase of 45,000 Hogs compared with the returns for the corresponding week in 1893. Foreign markets were stronger and prices ruled higher on all the leading articles. Domestic distributing markets were rather active. Local trade was well maintained. Receipts of Products were fairly liberal, as interior packers made rather free deliveries. Shipments were fair, and widely distributed—a little more Product destined for the foreign markets Speculative market attracted fair attention. Early in the week, the feeling was easy, and prices ruled slightly lower. At the decline, there was fair miscellaneous buying with less pressure to sell, and prices rallied moderately. Toward the close, there was considerable liquidation in the near deliveries, and packers were disposed to sell freely for September delivery. A weak feeling was developed, and prices declined to inside figures, and the market closed steady. Products for January delivery ruled steady at $5 45@5 47½ for Pork, $5 10@5 12½ for the shipping branch of the trade there was quite a good business transacted. Orders from abroad were moderate and for small quantities. Speculative trade was light. Interior distributing markets were disposed to enlarge their stocks. Offerings of all kinds were fairly well supported on all the leading description. Supplies of all kinds were moderate.

Pork—Trade was fairly active in the market for Mess Pork during the past week, but the feeling was somewhat unsettled, and prices irregular. Stock still slightly reduced, but the decrease bid rather in excess of general requirements, and tended to an easy market. Rather more doing in January contracts. Packers appeared to favor the selling side of the market, and early in the week, the feeling was rather firm, and prices ruled 5@7½c higher, but the market took a sharp turn downward, and a reduction of 15@17½c was developed. At the decline, the demand improved, while there was less pressure to sell, and prices rallied again 12@25c. This improvement brought sellers into the market again, and another feeling was developed. Prices gradually receded again 30@32½c, but rallied again 5@7½c, and the market closed steady. January declined 50@52½c from the outside figures reached, and prices fluctuated somewhat irregularly in the way of filling small orders, and offerings were not very large. Cash lots at the close were $11 00@11 05. Other cuts of Pork were in moderate demand for local offerings, and prices were without material change.

Lard—Trade was fairly active in the Lard market during the past week, and prices irregular, though the fluctuations was not as severe as in the other descriptions. Stock was reported reduced, and it was claimed that exporters were purchasing rather liberally, though sales were not made public, and these features made operators a little cautious. Bulk of the trading was in September and October contracts. Interest was manifested fair attention, mainly by local operators. 'Early in the week, the feeling was rather steady, and a few

---

trades were made at 2½c advance. Later, there was a little realizing, and an easier feeling prevailed. Prices settled back 5@7½c. Toward the close, there was fair miscellaneous buying, with moderate offerings, and prices were advanced 10@12½c. At the advance, however, offerings were slightly enlarged, and prices settled back 7½@10c, and the market closed comparatively steady. Country on shipping account was fairly active in a quiet way, and it was claimed that rather liberal quantities were disposed of, but trades reported were not up to give details. Prices of regular at the close were quotable at about September figures—$5 57½@5 60. Refined in fair request in a quiet way, and prices were without material change. Offerings were called for moderately, and offerings were only fair. Prices quotably steady at 47½c discount on October figures. Leaf Lard was in fair demand, with moderate offerings. Prices were quotable at $6 50@5 75—closing at 6 62½. Neutral was in fairly good demand, with fair offerings. Feeling was stronger. Sales were liberal at about former prices. Stearine was in moderate request, and prices were advanced 5@7½c. At the improvement, there was some pressure to realize, and prices receded 15@17½c. At the reduction, the demand improved, especially for export, and a stronger feeling was manifested. Prices rallied 7½@10c. Toward the close, offerings were again enlarged, and prices settled back 5@7½c, and the market closed comparatively steady. Demand on shipping account was fair, and offerings were not very large. Prices at the close were quotable at $7 25@7 37½, according to weight.

Green Meats—Very little business was transacted in Green Meats during the past week, and there were no particular changes to note. Offerings were moderate, and the demand was limited. Local curers backward about purchasing, and outside orders were small. Hams were quiet and prices were 1@c lower. Skinned Hams were in small request at about 9@10c decline. Shoulders were quiet and prices comparatively steady. Picnic Hams were called for sparingly, and prices were unchanged. Bellies were in light request and prices without material change.

Pickled Meats—Only a small business was transacted in Pickled Meats during the past week. Offerings were moderately free, and the demand was quiet active on domestic account. Foreign markets were quiet and prices generally higher, with the orders from that quarter were moderate. Domestic markets were steadier. Supplies of all kinds are quite large. Prices fairly steady. Stocks are widely distributed, and leading cars rather slowly. Hams were in fair demand and prices inclined in favor of buyers Skinned Hams were in rather good request and prices ruled 1@2c lower. Shoulders were called for sparingly and prices ruled steady. Picnic Hams were in fairly good demand and sales were fairly liberal at about former figures. Bellies were called for moderately and prices were comparatively steady.

Dry Salted Meats—Rather a good business was transacted in Dry Salted Meats during the past week. Offerings were rather free, and the demand was quite good from the domestic trade, but comparatively light from foreign markets. Stocks are widely distributed and leading cars rather slowly. Advices from abroad were a little more encouraging to sellers. Supplies of all kinds are fairly liberal. Manufacture moderate. Foreign cuts of Hams were in good request and prices ruled steady. Shoulders were in moderate demand and prices fairly well maintained. Long Clear Sides were called for moderately and prices were steady. Extra Long Clear Sides were inactive and prices nominal. Short Clear Sides were in very small demand and prices without material change. Extra Short Clear Sides were in moderate demand Rib Sides were fairly well supported—closing at 7½@7¾c. Extra Short Rib Sides were in fair request and prices ruled steady—closing at 7½@7¾c. Rough Sides were in moderate request and prices were considerably larger for shipment to the Southern markets. Prices were a little more favorable and closed steady at 7½@7¾c according to weight. Bellies were in fair request and prices ruled steady. Backs were in fair request and prices unchanged. Backs were in fair request between sizes at comparatively steady. Bellies were in rather good demand and sales were larger at about former figures Foreign fancy and special cuts of Meats were in light demand and prices ruled steady

Smoked Meats—Rather a good business was transacted in Smoked Meats during the past week, and the feeling was comparatively steady. The jobbing trade was good, and the jobbing trade was quite active. Orders from the Southern trade was rather liberal. Supplies of all kinds are moderately large. Prices fairly steady. Stocks are widely distributed and leading cars rather slowly. Hams were in fair request and prices were well maintained. Skinned Hams were called for moderately, and prices ruled steady. Shoulders were in fair request and prices unchanged Picnic Hams were in fair request and prices favored sellers. Breakfast Bacon in rather good demand and prices ruled 1@2c higher.

Beef Products—Trade was fair in the market for Beef Products, and the undertone to the market was stronger and prices more favorable to buyers Foreign markets were steady. Domestic markets were stronger, with a little better demand Cattle in rather good supply, and prices ruled lower. Manufacture of Products fair. Shipments of Canned Corned and rather liberal. Beef Hams were in fair request and firmer. Prices ruled 25@50c higher. Extra Mess Beef was called for moderately, and prices were about 5c higher. Plate Beef in fair demand and prices were about 25c higher. Extra Plate Beef in small request, but held about 25c higher. Tallow was quiet and steady at former figures. Oleo Stearine in moderate demand and prices steady at 7½@7¾c.

Greases—Only a moderate trade in greases during the past week, and there was no particular change to note in prices. Offerings were fair, and the demand demand was moderate, but trading chiefly in small lots.

THE WEATHER CONDITIONS.

The indications are for generally fair weather over the entire district, except possible showers in the extreme North Warmer weather Northwest will extend down into the Central Valleys and Lake Region.

ITEMS OF GENERAL INTEREST.

Owing to the impossibility of securing a quorum of the board of directors, no action was taken on the St. Paul dividend, Thursday.

Business failures in the United States and Canada for the past week were 295, against 250 the previous week, and 209 for the corresponding week last year.

The American Bridge Company of the United States Steel Corporation has secured contracts for building three Steel bridges for the Detroit Southern Railway.

The Secretary of State of Missouri has issued a certificate of incorporation to the South Missouri Iron and Smelting Company, of St. Louis. The capital stock is $1,000,000.

Earnings of the Wabash Company for the month of July show an increase in gross of $81,095 and a decrease in net earnings of $97,765, operating expenses having increased $179,760.

The Heywood Bros. & Wakefield Company has declared a regular semi-annual dividend of $3 00 per share on the preferred stock, payable Sept. 1, to stockholders of record Aug. 30.

The Central Foundry Company's annual report for the fiscal year ended July 31 shows net earnings of $467,504, a decrease of $197,945, and a surplus of $235,724, a decrease of $197,945.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,751,417,930 an increase of 6.5 per cent, compared with the corresponding week last year.

The Wheat acreage in the United States is only one-sixteenth of the 800,000,000 acres in farms in the country. The extent of the Wheat acreage is governed to a great extent by price of the cereal.

The fire in the Mammoth oil field, near Crowley, La., is reported to have been confined to the vicinity of Morse Wells Nos. 7 and 8, and efforts are being made to smother the flames. Estimated loss, $200,000.

A Des Moines, Iowa, dispatch, Thursday, said: "After talking with people from all over the State would say Corn will need until Sept. 20 at least before it is out of way of frost; quite a little will take to Oct. 1, as it is not yet 'in roasting ears.'"

At a meeting of the directors of the Tennessee Copper Company held a few days ago for the purpose of taking action on the dividend it was decided to postpone payments for the present and to put all available cash into construction and betterments.

The manager of the Pillsbury mills of Minneapolis, in a message to a Chicago commission man, Friday, said: "A crop of 125,000,000 bu of good Wheat in the three States will be thankfully accepted as all that is likely to appear when the work of the thresher is completed."

There is over 1,000,000 bu Wheat on the way to Chicago from the North Pacific Coast and more is likely to come. The freight rate is 33c per bu. This is a year when from out of the way places Wheat is likely to find its way to Chicago and other centers, the price being an attraction.

The first report of the receiver of the First National Bank of Grinnell, Iowa, was filed with the Comptroller of the Currency Thursday. The Comptroller authorizes the statement that owing to the large amount of forged paper among the assets, an assessment against the shareholders for their full 100 per cent liability is necessary, and has been levied.

An Argentine cable says: "Wheat markets do not exhibit strength that they previously had, but are still steady with continued good support. Arrivals from interior much larger, being now liberal, which is very unusual for this time of year. Quality remains satisfactory. Corn steady, with good export demand. Arrivals at ports large and condition satisfactory."

An official of the American Steel and Wire Company says that the demand for Wire products is about as good as last year and there has been no accumulation of finished product. On the other hand new business has been slow to materialize, although the cut has been in force long enough to bring increased orders from new buyers.

The strength of Southern Railway common in the past thirty days is explained by the fact that some 50,000 shares have been purchased by the Morgan interests at from $24 to $28 per share. The stock has been bought by these interests on the excellent prospects for the South this year and on knowledge that Seaboard Air Line was certain to lodge finally in friendly hands, as has now happened.

Another attempt at reorganizing the American Cotton Company will be made. The American Cotton Company is now capitalized at $2,000,000 6 per cent debenture bonds (which were sold two years ago at 90), $3,000,000 of preferred, and $4,000,000 of common stock, but the company, having passed through the reorganization, was slow in getting established, and a floating debt of $1,500,000 was accumulated.

France imported in July, the twelfth month of the present cereal campaign, 2,024,000 bu of Wheat, of which 580,000 bu as Wheat and Flour were delivered from bond for consumption, the rest being either exported or received as "temporary admissions," or consigned to entrepots. The quantities delivered for consumption in the corresponding month of the two previous years were 2,677,830 bu and 809,680 bu, respectively.

The Liverpool *Corn Trade News* of Aug. 15 says: "Harvest is now reported to be finished around Paris, and the work is in full swing in the North. According to the *Echo du Nord*, the crop of the important Northern region will prove to be satisfactory, but our own correspondent at Dieppe says that wherever it has been possible to get any returns of this year's yield the results have proved to be much below expectations, and a certain quantity of the new Wheat is thin. Instead of a very good Wheat crop, the country has only a very ordinary one. Reports generally continue to mention good quality and condition."

Vienna advices of Aug. 12 state that "the Austrian and Hungarian *Official Gazette*, yesterday, published the official notes prohibiting the export of fodder of all descriptions, such as Corn, Oats, Horsebeans, Potatoes, Straw, Clover, Oilcakes, etc. This to take effect immediately, so that only such shipments which were dispatched before the 12th inst. will be allowed to pass the frontier. The news had no particular effect on prices on our Grain market yesterday morning, but later, quite an unexpected development took place, inasmuch as Wheat and Corn underwent rapid fluctuations, while feedingstuffs remained practically unaffected."

The Union Pacific caused consternation in railway, industrial and commercial circles, Thursday, by announcing a cut of 41½ per cent in freight rates on wire and nails from Chicago to Colorado common points, taking effect next Monday. The rate has been 77c per 100 lbs and will be 45c. The American Steel and Wire Company, embraced in the United States Steel Corporation, will ship 500 car loads of its product at once to Colorado commercial centers. As there is no special demand there at this time for such wares, and the 500 cars to be shipped will be placed in storage, it is plain that the United States Steel Corporation has begun an aggressive campaign against the Colorado Fuel and Iron Company.

The directors of the United States Leather Company will meet this week and the indications are that the regular quarterly dividend of 1½ per cent on the preferred stock will be declared. It is believed that the earnings of the company have not been so large so far this year as they were in the same period last year, owing to the fact that there has been a material advance in the price of hides, while there has not been a proportionate advance in the price of leather. Interests close to the company regard the preferred stock as a good investment. There are now upwards of 40 per cent of back dividends due on the preferred stock, 2 per cent being added each year, because the stock is entitled to 8 per cent yearly, while only 6 per cent is being paid.

At a joint conference between representatives of the Republic Iron and Steel Company and the Amalgamated Association of Iron, Steel and Tin Workers held in Chicago, Wednesday, the company asked for a graduated reduction of wages. The company, which is the largest competitor of the United States Steel Corporation, controls thirty-seven plants throughout the country. Its proposition to the union is that mills earning $30 00 or less a day shall suffer no reduction; mills earning $33 00 a reduction of 1c a ton; 2c for mills making $36 00, and 3c for mills making $39 00 a day. The Carnegie plants of the United States Steel Corporation have made a similar offer, and it is probable that the men will accept the slight reduction, although they have asked for a renewal of the scale in force last year.

United States Treasurer Roberts at Washington was quoted, Thursday, as saying: "The shipment of currency for moving the crops has begun rather vigorously. We have sent already this week to New Orleans against deposits in New York $521,000, and to Chicago against deposits in New York $1,500,000. By comparison with last year it will be seen that the New Orleans movement is much about the same and the Chicago movement much more active. The total payments in Chicago last year from Jan. 1 to Sept. 1, against deposits in New York, were $1,200,000. We have already sent in that period this year, including the recent movement, $1,800,000, and it is possible that more will go between now and the 31st of August. There has been a total to New Orleans since Jan. 1 of $4,001,000 The amount last year for the period up to the close of August was $4,119,000."

The Chicago *Inter Ocean* says: "Most of the Chicago national banks have either ordered money shipped from New York already, in anticipation of the crop demands from the country, or are making arrangements for shipments of currency within a short time. New York Exchange went to 40c per $1,000 discount, Thursday, on very light trading. Practically all of the banks have Exchange to sell, but none cares to buy. If all the Exchange were sold that is offering, the price would go far below the currency shipping point of 40c discount. It is knowledge of this fact, and the inability of the banks to sell sufficient Exchange, that is causing the arrangements for shipments of currency from New York to Chicago. The Washington authorities report arrangements made for shipments of $1,500,000, New York to Chicago, through the sub treasury system."

INSPECTION OF GRAIN AND FLAX SEED.

The following table exhibits the inspection of Grain and Flax Seed at Chicago for the past 24 hours.

ITEMS OF GENERAL INTEREST.

New York Exchange 35c discount.

Documentary Sterling easier at 483¼

Chicago Bank Clearings to-day, $24,050,967.

Ten packers purchased 15 900 Hogs to-day, shippers 6,000: left over, 5,000. Market closed steady.

The quantity of Flour and Wheat on passage to Europe during the past week decreased 1,496,000 bu, and the quantity of Corn increased 2,046,000 bu.

Reported that 24,000 bu Wheat and 72,000 bu Corn were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 237 cars; Corn 876 cars; Oats, 630 cars; Rye, 14 cars, Barley, 76 cars; Hogs, 17 000.

The average cost price of Hogs at Chicago last week was $5.16, against $5 26 the previous week $5 33 a month ago, and $5 12 a year ago.

Exports of Flax Seed from India the past week were 376,000 bu, compared with 166 000 bu for the week previous and 184,000 bu for the corresponding week in 1903

The stock of Flax Seed at Duluth on Aug 27 was 4,970,734 bu, compared with 5,207,255 bu the previous week a decrease of 236,521 bu. Stock last year, 1,277,978 bu.

The average weight of the Hogs received at Chicago last week was 242 lbs, the heaviest of the year, against 241 lbs the previous week, 251 lbs the corresponding week in 1903, and 243 lbs in 1902.

Local Securities were handled in a moderate way and averaged higher. Can preferred was the most active and gained ½. Metropolitan Elevated preferred advanced 1 point. Carbon common was off ⅛.

Stocks in New York were strong and made substantial gains on Railways, and ¼ to 1 point on Industrials. Considerable manipulation is on in many stocks and sentiment is "bullish." Money ⅞@1 per cent.

The *Orange Judd Farmer* estimates the condition of Winter and Spring Wheat at harvest at 70 per cent, and placed the aggregate crop at little, if excess of 500,000,000 bu. Decline in Corn during August 5 points.

Stocks of Wheat in public warehouses in Liverpool reported at 2,960,000 bu, against 2,816,000 bu one week ago and 3,124,000 bu one year ago. Stocks of Corn reported at 300,000 bu, against 360,000 bu one week ago and 120,000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 336,000 bu Wheat and 748,000 bu Corn, and increases of 2,204,000 bu Oats, 101,000 bu Rye and 35,000 bu Barley.

Cotton in New York advanced on the better cables. There was nothing in the general run of news to make a strong market. The buying appeared to be good enough to take all the offerings and make a higher range. Closing sales were at gains of 16@21 points.

East bound shipments of the past week are as shown in the following table:

	Flour, brls.	Grain, bu.	Prov. tons.
Past week	60,831	898,000	20,468
Previous week	60,339	1,470,000	21,657
Last year	59,052	752,000	18,916

WORLD'S EXPORTS OF BREADSTUFFS.

The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1904, to August 27, 1904, compared with the corresponding period in 1903:

Countries—	1904, bu.	1903, bu
America	12,096,000	27,776,000
Russia	15,128,000	15,608,000
Danubian	7,744,000	8,296,000
India	13,762 000	7,656,000
Argentina	11,376,000	8,994,000
Australasia	3,136,000	.....
Austria-Hungary	8,000	754,000
Chili, North Africa	2,056,000	1,592,000
Totals	65,012,000	70,676,000

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market continues in a quiet and unsatisfactory condition. Sales moderate and prices steady.

WINTER WHEAT—Was in good demand, chiefly local, and prices ½@1c higher for good to choice Wheat and about ½c lower for poor Wheat. Good Wheat would sell all right—wanted chiefly by speculators—but for poor Wheat there was little sale. No. 2 Red in store quotably $1 07¾@1 09⅝, and fresh arrivals to go to store sold at $1 10 and free on board at $1 10@1 11 No. 3 Red fresh arrivals free on board sold at $1 08@1 09. No. 4 Red fresh arrivals sold free on board at 95c@$1 05 for poor to good and at $1 08½ for choice. No Grade Red sold at 85c@$1 08. No 2 Hard fresh receipts free on board sold at $1 08@1 09. No. 3 Hard fresh arrivals sold at $1 04@1 09, with sale billed through at $1 07½. No. 4 Hard fresh receipts free on board sold at 95c@$1 04 and at the river at 93½@97c. No Grade Hard sold at 85c. No. 3 White sold at $1 07.

SPRING WHEAT Very quiet Offerings small and really not enough offered to make a market. Poor Wheat very dull and not wanted. Choice Wheat would sell readily No 1 Northern entirely nominal at about $1 16 No. 2 Northern quotable $1 10@1 14 No. 3 Spring nominally $1 02@1 10, with a sale at $1 10. No 4 Spring sold at 83c and ranged at 80@$1 04 for poor to choice

REGULAR WHEAT—A good trade and unsettled market, the start being easy, followed by a sharp rally, the close being anywhere from 1⅜c to 2c higher than Saturday. The easier cables and "bearish" foreign statistics were the early factors, and local traders were among the principal sellers Later sentiment changed about and offerings became light, while the demand was more general. Crop reports were "bullish," one private estimate making the yield 504,000,000 bu, with 128,-000,000 bu for the Northwest, and another not over 500,000,000 bu, with combined condition of Spring and Winter not over 70 per cent. "Shorts" covered freely and situation became decidedly firm. The strength in the Northwest was a feature The visible supply decreased 336,000 bu, against 493 000 bu increase a year ago, and present total reported at 17,087,000 bu, against 13,203 000 bu in 1903 and 20,036,000 bu in 1902. Local public stocks increased 186,000 bu, to 1,058 000 bu, against 2,328,000 bu same date in 1903 World's shipments 9,552,000 bu, against 8 376 000 bu previous week and 8,714,000 bu in 1903 Quantity on ocean passage decreased 1 436 000 bu, to 30 896 000 bu, against 37,661,000 bu in 1903 Liverpool quoted spot steady to ½d lower and futures ⅜d lower. Stocks there 2 960,000 bu increased 144 000 bu last week London was ½@⅜d lower. Paris ⅛@½c lower and Antwerp was unchanged Berlin declined ½c and Buda Pesth ⅜c Primary receipts were 401,000 bu larger than a year ago Kansas City and St. Louis received 774 000 bu: last year 384,000 bu. Northwest cars 211 less than a year ago Map showed local light rains in Manitoba, North Dakota and Minnesota, with temperatures lower. Unsettled showery conditions were indicated. Comstock, Minn, reported Wheat threshing out 6 bu and testing 49 lbs to bu Expert at Fargo wired: "Damage rather serious; prospects 12 bu, harvesting in full blast; cool last night; threshing expected to commence last of week, farmers inclined to sell freely at present prices; look for a big movement in about three weeks; nine-tenths of Spring Wheat will be in shock Tuesday Prospects indicate total Spring Wheat in United States, Manitoba and Northwest Territories will not be more than 10,000 000 bu from last year." Kansas City expects 605 cars to-morrow. Exports were very moderate and 3 boat loads accepted at the seaboard Duluth reported five loads Manitoba for export early, and since then Winnipeg advanced 3c on bad crop reports. Receipts at Duluth 20 cars and at Minneapolis 333 cars, a total of 353 cars, against 171 cars Saturday, 215 cars a week ago, and 504 cars last year. Local receipts included 107 cars Winter, 2 cars Spring and 2 cars mixed, a total of 111 cars, against 174 cars last year. Included in the above were 3 cars of contract grade There were 42 cars and 36,000 bu from unlicensed elevators The estimated receipts for to-morrow are 237 cars. Withdrawals to-day were 10,600 bu. Receipts at Western points were 1,472 671 bu, against 1,071,772 last year. At Eastern points 94,228 bu, against 121 824 bu last year Shipments from Western points were 264 002 bu, against 570,-351 last year, and from Eastern points 3(?)4 bu, against 74 164 last year. Shipments of Flour were 21 556 brls Exports of Wheat in Flour were equal to 95,547 bu

Future Deliveries of Regular Wheat—Good trade and prices higher.

SEPTEMBER—Old Style—Sold at $1 07¾@1 09⅝. Opened with sales at $1 07⅞c; sold to $1 07¾, to $1 08½, to $1 08¼, to $1 09½, and closed at $1 09⅝.

SEPTEMBER—New Style—Sold at $1 04⅞@1 07¾ Opened with sales at $1 05¼; sold to $1 05½, to $1 06, to $1 05¾, to $1 06¾, to $1 06¼, to $1 07½, to $1 07, to $1 07¾, to $1 07⅝, and closed at $1 07⅝

DECEMBER—Sold at $1 06½@1 09½ Opened with sales at $1 07 to $1 06½, sold to $1 06⅝, to $1 07⅜, to $1 07¼ to $1 07⅝ to $1 07, to $1 05, to $1 07¾, to $1 08¼, to $1 08, to $1 08¾, to $1 08½, to $1 09 to $1 08½, to $1 09⅛, to $1 08¾, to $1 08¾, to $1 08½, to $1 09, to $1 08¾, to $1 09½, to $1 09⅝, and closed at $1 09⅝.

MAY—Sold at $1 08⅞@1 11⅞ Opened with sales at $1 09½ to $1 09⅞: sold to $1 09⅞, to $1 09¾, to $1 10⅜, to $1 09¾, to $1 10¾, to $1 10¼, to $1 10⅞, to $1 10½, to $1 11¼, to $1 11, to $1 11½, to $1 10⅞, to $1 11½, to $1 11⅜, to $1 11⅝, to $1 11½, to $1 11⅞, to $1 11¾, to $1 11⅞, to $1 11¾, and closed at $1 11¾

CORN—Was active and stronger, the close showing gains of ½c and 1⅛c. There was a large trade, with local selling at the start on the heavier receipts, cables, larger world's shipments and increase on passage, but the offerings were well taken, the commission house demand being good and prices advanced sharply, floor traders being "short." The cloudbursts in Iowa and Nebraska and cool weather generally was one of the chief "bull" helps. The map showed heavy rains in Nebraska and Iowa. Fort Dodge had 4 inches, Iowa City 1.52, Marshalltown 2, Oscola 1 50; Missouri Kidder 2 42, Marysville 3.50; Hastings, Nebraska 4 inches and North Platte 1.06 and unsettled showery conditions were generally predicted. Country acceptances moderate. Receipts 801 cars last year 425, and 876 cars looked for to-morrow Liverpool quoted La Plata spot off 1¾d and futures ⅝@⅞d lower. World's shipments, 5,488,000 bu, previous week, 4,952 000 bu, year ago, 5 435,000 bu. Quantity on passage increased 2,046,000 bu to 19,242 000 bu; last year, 22,068,000 bu. Report of a local crop expert indicated a crop of 2,350,000,000 bu, with losses since Aug. 1 in Ohio 8 points Indiana 15, Illinois 7, Iowa 1, Missouri 6, Kansas 1 and Nebraska 10 Late cables from Austria-Hungary claimed the drouth severe and Vienna contemplating asking Hungarian cabinet to join them in framing laws prohibiting exports of Grain and fodder. The visible decreased 748,000 bu, against 559,000 bu decrease in 1903, and total is now 3 898,-600 bu, against 5,888,000 bu in 1903 and 3,077 000 bu in 1902. Local public stocks decreased 319,000 bu to 1,445,000 bu; last year, 2 136 000 bu Western receipts, 707,000 bu; last year, 768 000 bu. Shipments, 655,000 bu; last year, 1 037,000 bu. Local arrivals, 377,000 bu; shipments, 554 000 bu Withdrawals here, 300,000 bu. Exports, 37,000 bu. Cash demand moderate—sales, 125,000 bu: Southwestern markets strong Car lots in good demand and larger supply. Prices were ½@¾c higher No. 2 closed at 53c. No 2 Yellow at 54½c. No. 2 White at 53¼@53½c No. 3 White sold at 53½c. No 3 closed at 52¾c No. 3 Yellow sold at 54½@54¾c, and closed at 54¼c. No 4 at 52½@53c

Corn by sample—Offerings were larger, but the demand was very good Market started out steady and later on advanced about ¼c. Sales on track and free on board: No Grade sold at 51½c No 4 at 52½@54¾c. No 3 at 52¾@54½c No 3 Yellow at 54¼@55¼c. No 2 at 53@54½c No. 2 Yellow at 55¼@55½c. No. 3 White at 52¾@53¾c No 2 White at 53¼@54c. Billed through: No Grade at 50½c. No. 4 at 51@53½c. No 3 at 51¾@52¼c. No. 3 Yellow at 53@53¾c. No. 2 Yellow at 53½@53¾c No 3 White at 51¾@52¼c. No 2 White at 51¾@52c.

Future Deliveries of No. 2 Corn—Active and stronger, closing ½@1⅛c higher.

AUGUST—Inactive and closed nominally at 52½c

SEPTEMBER—Sold at 51⅞@53c. Opened at 51⅞c to 52¼c, and sold at 51⅞c, to 52c, to 51⅞c, to 53c, to 52⅝c, to 52⅞@53c, to 52⅝c, and closed at 52⅝c.

DECEMBER—Sold at 50⅝@52¼c. Opened at 50⅝c to 51⅛c, and sold at 51¼c, to 51c, to 51⅛c, to 51⅛c, to 51⅝c to 51½c, to 51⅞c, to 51¾c, to 52¼c, to 51⅞c, to 52c, to 51¾c, to 52c, to 51⅞c, and closed at 51⅞c.

MAY Sold at 48¾@50¼c. Opened at 48¾c to 49¼c, sold at 49⅜c, to 49⅛c, to 49½c, to 49¼c, to 49⅝c, to 49⅝@49½c to 50¼c, to 50⅛c, to 50¼c, to 49⅞c, to 50c, to 49¾@49⅞c to 50¼c, to 49⅞c, to 49⅞@50c, and closed at 49⅞@50c.

OATS—Were liberally traded in and prices yielded ⅛c under Saturday's close at the start, but advanced ½@1c, May leading, only to react and close steady on September, to ⅛c higher for May. The strength was due to sympathy with Wheat. Elevator interests were the best sellers Statistics were "bearish." The visible supply increased 2,209,000 bu, and in two weeks 3 592 000 bu Local stocks increased 410,000 bu, and are 937 000 bu. Arrivals were 381 cars, with 294 cars contract Estimates for to-morrow 630 cars Seaboard clearances were 15,637 bu Cash sales were 50,000 bu Car lots in store and to go to store were steady to ½c higher No 4 White at 31@32½c No. 3 White at 31¾@33½c Standard at 33½c No 2 at 31½c. Standard in store closed about 31¾@31⅞c.

Oats by sample were in fair demand with supplies larger. Prices were steady to ½c higher, with futures. Sales on track and free on board, No. 4 at 32c No. 4 White at 31¾@3?c No 3 White at 33@33¼c Standard at 33@34c No 2 at 31¼@31½c No. 2 White 33½@31c. Billed through No 4 White at 32¼c. No 3 at 31¾c. No. 3 White at 31½@33c Standard at 33@33½c. No. 2 at 31c No 2 White at 33¼c. At the river: No. 4 White at 31@3?c No 3 White at 31@32½c. Standard at 32@32½c No 2 White at 32¼c

Future Deliveries of Contract Oats Were active and closed strong for distant futures and steady on September.

AUGUST Slow. Closed to 32c

SEPTEMBER - Active. Sold at 31⅞@32⅜c. Opened at 32c sold to 31⅞c, to 32⅜c, to 32c, and closed there

DECEMBER—Fair trading. Sold at 33@34⅛c. Opened at 33c to 33⅛c, sold to 33¾c, to 33¼c at close

MAY—Active Sold at 35⅛@36⅛c Opened at 35⅛c to 35⅝c, sold to 36⅛c, to 35½c at close

RYE Was quiet and steady There was no special feature to the market, the demand and offerings being both light. There were 15 cars received and no withdrawals from store here, and no exports from New York The visible supply increased 101,000 bu. and local stocks increased 24,000 bu No 2 in store quotably about 71¼c, and fresh arrivals free on board sold at 72¼c. No 4 sold to go to store at 69½c

Future Deliveries of No. 2 Rye—Quiet. September sold at 71¼c, and closed at 71¼c. December nominally 73c, and May 77c asked.

BARLEY—There was a very fair business in car lots More Barley offered than any time yet. Several maltsters were buying The offerings were fully ample for the demand. For the best grades there was a steady market; under grades were easy. In no case was any material change noted. Some cars of new were badly mixed some with Oats and Seeds, and some with Corn Such cars had to be heavily discounted. A few cars of musty old on the market and they were dull. Fairly sound, but stained too badly for malting very slow. Choice old Screenings, bright, met with some call and ruled steady. Posted receipts 26 cars. Visible supply increased and local stock decreased. To-arrive lots inactive not much demand, still some bids put out were refused. Old Screenings, choice, sold at 40c Old Barley, stained, thin or musty, sold at 35@38c. Some cars of new, mixed with Oats, Seeds or Corn, sold at 40½@41½c Common malting, stained, at 41@43c Fair to good, depending on weight or color, at 45@49c and choice at 50@53c; Very fancy possibly above

SEEDS—There was quite an active trade in Timothy, at the same time all other lines were quiet. Above line was heavy and all the rest appeared to be about steady

Timothy There was a fairly active cash trade About 3 000 bags were sold within a range of $2 60 @2 75, the bulk going at $2 65 @2 72½ Seed is running uniform, and the range is not so wide as in other years The higher grades were quotably steady, less desirable Seed easy, but values not essentially changed Speculative market has become rather neglected Contract old Seed was nominally $2 95 September quotably $2 95, sold in exchange for October at that, the deferred delivery going at the same price October also sold in the regular way at $2 85 Country lots of new Seed quotably $2 60@2 72½ for fair to good, choice to fancy $2 75@2 85 to possibly a shade over, and dark or dirty about $2 50@2 60, depending on quality Very poor lower

Flax There was nothing important developed. The market ruled very quiet. The sales prices and nominal quotations reflected no change. A few cars of cash Seed were sold and a small lot for December delivery—about the first trade in latter delivery Six cars or 5,400 bu came in and none taken out Local stock last week increased 1,201 bu, and was 16,?41 bu, against 209 470 bu a year ago Receipts at Minneapolis, two cars, at Duluth five cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 25, and No 1 remained at $1 18 bid Rejected quotable at $1 15@1 18, depending on quality. September $1 18 bid December sold at $1 20½.

Clover—Was about steady at last week's closing quotations There was no Clover on sale and no business Quoted as follows October delivery nominally $12 50. Contract spot Seed was quotably about $12 50. Country lots, common to choice, $9 00@12 00; fancy above Fair to good $10 50@11 50

HOG PRODUCTS—A fairly good speculative trade was reported in Hog Products. At the opening, the feeling was rather easy, with considerable pressure at sell the near deliveries, and lower prices were accepted for all the leading articles The receipts of Hogs were fair, and prices higher, and the Grain markets were stronger, and after early liquidation the market exhibited considerable strength Demand improved generally, and offerings were lighter. Outside parties were inclined to purchase, and local operators traded more freely Prices were advanced somewhat all around, and the market closed rather strong for all articles around outside figures Receipts of Hogs at the leading Western packing points were estimated at 46,600, compared with 58,200 one year ago Foreign markets were firm for Meats, and Cumberland Sides were quoted 6d higher, but easy for Lard at 6d decline. Domestic markets steady Receipts of Products were good—of Lard and Meats about 21 cars Shipments were fair—of Lard and Meats about 121 cars Exports for the week, compared with those of the corresponding week in 1903, exhibited decreases of 1,550 brls Pork 171,000 lbs Lard, and 13,260 boxes Meats. Demand on shipping account was only fair, and offerings were not very large. Prices were without material change, with moderate sales

Mess Pork—Quite a good business was reported in the market for Mess Pork, and the feeling was somewhat unsettled. Offerings were rather free early, and prices declined 10@12½c. Later, the market was stronger, with a good miscellaneous demand, and prices rallied 20@22½c and the market closed comparatively steady around outside figures Demand on shipping account was light and offerings were moderate Cash lots quotable at $11 37½@11 50

SEPTEMBER—In rather good demand and offerings were fair. Sales were made at $11 17½@11 40 Opened at $11 20, sold to $11 17½, to $11 22½, to $11 20, to $11 35, to $11 30, to $11 40, and closed firm

OCTOBER Offerings were moderately free and the demand was fair. Sales were made at $11 27½@11 47½. Opened at $11 30, sold to $11 22½, to $11 27½, to $11 32½ to $11 30, to $11 45, to $11 37½, to $11 47½, and closed steady.

JANUARY In fair request and offerings were moderate Sales were made at $12 35@12 65. Opened at $12 40, sold to $12 35, to $12 47½, to $12 45, to $12 65, to $12 60 to $12 62½, and closed steady

MAY—Quiet, with small sales at $12 62½

Lard—Rather a good trade was reported in the Lard market, and the feeling was unsettled Offerings were moderately free and the demand was fairly active Market opened rather steady at about the closing figures of Saturday Later, a stronger feeling was developed, and prices rallied 12½@15c, with fair miscellaneous buying, and closed steady. Foreign advices unfavorable holders. Demand on shipping account was moderate, with rather light offerings. Cash lots quotable at $6 95 @6 97½ Loose lots in moderate request with limited offerings Prices steady at about 47½c discount on October figures Leaf Lard was in light demand, with moderate offerings. Quotably steady at about $6 75. Neutral in fair demand, with moderate offerings. Prices quotably steady at $8 12½@8 25 for No 1, and $7 62½@7 75 for No. 2

SEPTEMBER—In rather good demand and offerings were fair Sales were made at $6 82½@6 97½ Opened at $6 82½, sold to $6 92½@6 95, to $6 92½ to $6 97½ and closed steady

OCTOBER—Offerings were moderate and the demand was fair Sales were made at $6 90@7 07½ Opened at $6 90 sold to $7 02½, to $7 00@7 02½, to $7 07½ and closed steady

JANUARY—In fair request and offerings were moderate Sales were made at $6 97½@7 07½. Opened at $6 97½@7 00, sold to $7 02½@7 05, to $7 02½, to $7 07½, and closed steady

MAY Quiet, with light trading at $7 12½.

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides, and the feeling was stronger Offerings were moderately free and the demand was fairly active Prices ruled about 2½c lower early, but a stronger feeling was developed and prices ruled 10@15c higher on the whole range, and the market closed comparatively steady around outside figures, Shipping demand was light, and offerings were moderate Cash lots were quotable at $7 25@7 37½ according to weight

SEPTEMBER—In rather good demand and offerings were fair. Sales were made at $7 22½@7 37½. Opened at $7 22½ sold to $7 37½, and closed steady

OCTOBER—Offerings were moderately free, and the demand was good. Sales were made at $7 32½@7 47½ Opened at $7 32½ sold to $7 47½, and closed steady

JANUARY - Demand was fairly active, and the offerings were fair. Sales were made at $6 52½@6 65. Opened at $6 52½, sold to $6 65 to $6 60@6 62½, to $6 65 and closed steady

Other Meats—Trade was only fair and mainly on domestic account Exporters bought sparingly. Offerings not very large, and inquiry was fair Green Meats in limited supply with a light inquiry and prices favored buyers Pickled Meats in fair request, with only moderate offerings, and prices ruled steadier Dry Salted Meats were in active demand, with liberal offerings, and prices ruled steady. Smoked Meats called for moderately, and prices well supported Closing prices were as follows

Sales were. ON TRACK—Tangled *Rye*—1 car at $7 50.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Aug 16.]

United Kingdom—In spite of somewhat showery weather, harvest has continued to make good progress, and if the weather keeps favorable this week it is expected that the work will be practically finished in the earliest districts of the south of England. Wheat cutting is reported as far north as Lincolnshire. Many eastern, midland, and southern markets have reported offerings of new Wheat, and at Norwich last Saturday there was even a good supply mentioned. Good quality and condition are mentioned on all sides, and prices have ranged from 29s to 32s per qr for Red sorts, while White Wheat has made 1s more, as usual. The official returns should soon show a substantial advance both for quantity and price. Regarding the yield of this year's Wheat crop, there is no better news—the most favorable reports only describe the crop as fair on a very small acreage. The recent rains have had a most beneficial effect on fodder and root crops; also prospects for Potatoes have improved on the whole.

Russia—We have received confirmatory advices, by mail and telegraph of the favorable results from the Spring Wheat crop, which we referred to last week. Our correspondents at Rostoff-on-Don say, indeed, that the harvest has surpassed all expectations, both as regards quality and quantity, and in their yesterday's cable they report that the crop of the south is medium, that of the Volga regions abundant. These crops are important, for last year 144,000,000 bu of Spring Wheat were raised in the southeast and along the Volga, besides which the crop is grown right across the southern belt to Bessarabia, but it is well known that the crops of the southwest are very poor in places. Odessa reports that the weather keeps very fine and warm, very favorable for the finish of harvest and Wheat threshing. Arrivals at Nicolaieff have increased and Rostoff reports considerable quantities coming forward, but at Odessa the movement inwards so far is restricted. The quality of the new Wheat continues to receive favorable mention. Exports are fair.

Roumania—The weather continues too dry for plowing, but growers are pushing on with the work in the hope that rain will come in time for owing. The Corn crop is now only reckoned at 20 to 25 per cent of an average.

Bulgaria—The Wheat crop is estimated by the Director of the Meteorological Bureau at 58,000,000 bu, which is equal in size to last year's, while the quality is better. The Oats and Corn crops are reported to be under average, owing to the drouth.

Austria-Hungary—Our last reports stated that growers are holding their Wheat firmly, and this has caused numerous purchases abroad—over 1,600,000 bu are said to have been already bought. The Corn crop has been further damaged by drouth, and, although stocks of old crop are liberal, prices have been lifted to an importing level.

France—Some Northern reports say that the Wheat crop of that important region is satisfactory, but most agree that some of the Wheat is thin and the yield likely to be inferior to last year's; 25 per cent less has been mentioned. Our own Dieppe correspondent says that actual results, when ascertained, have invariably proved disappointing, and the country has but a very ordinary crop instead of the good one which had been expected. Business continues very quiet on provincial markets, as growers offer little, but fair quantities of new Wheat have been offered in Paris; prices advanced about 6d per quarter.

Italy and Spain—We have no fresh news of these crops, but both countries are making a good start with their foreign purchases.

Germany—Further rains have fallen, and the outlook for fodder crops, roots and Potatoes has improved. Interior navigation is still interrupted, however, and this is a great hindrance to business. The firm of Jacob Hirsch & Sons, Mannheim, estimates that the Grain crops of the Empire are 25 per cent smaller than last year's, but it is a fact that complaints regarding Wheat have so far scarcely been heard, Rye and Oats having received most dispraise.

Sweden—This country has had some rain, and the same was most welcome, although it came rather late. The official report for July indicates about average condition for the chief crops.

India—Shipments have been well maintained, but Kurrachee points to smaller quantities for this week.

Argentina—Latest reports say that the weather is very favorable for the new crops of Wheat and Flax Seed. The *Review of the River Plate* maintains that the increase in the Wheat area is about 10 per cent. Shipments last week were very liberal for the time of year, and the reduction of stocks was but small.

Australia—Mail advices continue to report favorably of the young crops. Shipments last week were only moderate, but it is quite certain from the number of vessels chartered that we shall have larger quantities again before long.

Belgium and Holland The former country reports beneficial rain, but in Holland drouth continues to prevail, damaging fodder crops.

THE WEATHER CONDITIONS.

The weather map shows much lower temperatures—Manitoba 38@54. Cloudy Northwest, rains heavy and general West. Cloudy Southwest and partly cloudy in Ohio Valley.

Indications are for unsettled weather and showers in Central Valleys and probably Northwest; partly cloudy elsewhere; temperatures unchanged

ITEMS OF GENERAL INTEREST.

A permit was issued by the Illinois State Auditor of Public Accounts at Springfield, Friday, to organize the First Labor Bank of Chicago, with a capital of $200,000.

The directors of the South Side Elevated Railroad Company, Chicago, Thursday, declared the regular quarterly dividend of 1 per cent, payable Sept. 30. Books close Sept. 19 and reopen Oct. 1.

Directors of the Federal Mining and Smelting Company have declared dividends of 1¾ per cent on the preferred stock and 1½ per cent on the common, payable Sept. 15, to stockholders of record Sept. 1.

The annual report of the American Agricultural Chemical Company gives the total profits of the company for the year ended June 30 at $2,143,925, an increase over the previous year of about $91,000. There is an increase in other income of about $60,000, with a small increase in the reserve fund and a slight increase in the amount charged off for betterments. The amount applicable to dividends is $1,500,771, against $1,370,005 last year, and the surplus after dividends is $128,790, against $291,205.

The August report issued by the Canadian Department of Agriculture shows an immense falling off in the estimated yield of fall Wheat in Ontario. The yield is estimated at 9,827,750 bu, compared with 17,213,763 bu last year. This is the smallest yield of any year on record, and chances are the final figures will be even more disappointing than the above indicates. The Hessian fly is assigned as the chief cause of the reduced yield and the severe winter is given as a secondary cause. A decrease of over 6,000,000 bu is given in Oats and 671,000 bu in Rye. Altogether the year has been one of the most disastrous for the farmer in the history of Ontario.

Dornbusch Braila correspondent, writing under date of Aug. 11, says: "We have had another week of very hot weather with very little rain in the country, but plowing is being proceeded with although the ground is dry and dusty. Farmers are waiting for a rainfall to continue sowing Rapeseed, and as the sky is clouding over this afternoon, there is every appearance of rain in the neighborhood. There is little further information to be obtained about the Corn, and the general opinion with regard to the yield remains at 20 to 25 per cent of an average crop. Threshing of Wheat and Barley is drawing to a close in Wallachia and is continued actively in Moldavia. The peasants in Wallachia are now busy with the ingathering of their crops. Some superior qualities of brewing Barley are making their appearance, but the quantities are comparatively small, and are held for very high prices."

The annual report of the Brooklyn Rapid Transit for the fiscal year ending June 30, 1904, shows a surplus after the payment of charges equal to 3 per cent on the $45,000,000 capital stock, compared with 2 per cent shown in 1903. Gross earnings for the year increased $1,458,388, or nearly 11 per cent. Net earnings increased $629,028, or about 11½ per cent. The operating ratio was 53 4 per cent, compared with 69 9 per cent in 1903, and 65.4 per cent in 1902. The details of operating expenses indicate an even larger gain in earning capacity than is indicated by the gain in surplus over charges. The company increased its maintenance charges $528,984, which is equal to over 1 per cent on the capital stock. The decrease in the item of operating power plants is due in part to the completion of the new central power plant. It is believed that the company will effect a still greater saving in this item during the current year. The increase in cost of operating cars was less than one-third the increase in gross earnings.

The chief features of the Colorado Fuel and Iron Company funding plan and agreement declared operative by the debenture bondholders' committee appear to be: That John D. Rockefeller and George Gould, principals in the Rockefeller-Gould combination now controlling the company, will get back the $12,991 200 cash they advanced to the company in July and November, 1903. That the bonded indebtedness will be increased to $45,000,000, although the refusal of the holders of $1,710,000 of the debenture bonds makes necessary changes in the original plan, so that the dissenting bonds may retain priority. That the most valuable earning properties of the company which since November, 1903, have been held by Edward V. Cary of the Standard Oil Company as pawns for the repayment of the $12,991,200 cash advanced by Rockefeller and Gould, will be returned to the company so stockholders may derive some benefit from their earnings. The Colorado Fuel and Iron Company through the operation of the plan will have its bonded debt increased to $45,000,000 and its common stock increased by $6,200,000.

ITEMS OF GENERAL INTEREST.

New York Exchange 2½c discount.

Documentary Sterling steady at 483¾@484.

Chicago Bank Clearings to-day, $24,577,608.

Nine packers purchased 9,200 Hogs to-day; shippers, 8,500; left over, 5,000. Market closed weak.

Reported that 88,000 bu Wheat and 125,000 bu Corn 50,000 were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago, Monday, was $5 54, against $5 42 Saturday, $5 24 a week ago and $5 40 a year ago.

Estimated receipts for to-morrow: Wheat, 63 cars; Corn, 332 cars; Oats, 203 cars; Rye, 3 cars; Barley, 16 cars. Hogs, 20 000.

A milling firm at Fostoria, O., has leased to a Chicago elevator firm storage capacity for 1,000,000 bu Oats, owing to the scarcity of Wheat.

The receipts of Wheat at Liverpool during the past three days were 712,000 bu, of which 32,000 bu were American. Receipts of Corn, 160 000 bu, of which none was American.

The Governing Committee of the New York Stock Exchange, at its special meeting to-day, granted a petition of the members to close the Exchange next Saturday. It will also be closed on Monday—Labor Day.

Stocks in New York were weaker and lower for the greater part of the list. Western Railway shares lost ¼ to ¾; Industrials ½ to ¾. Steel preferred was an exception, advancing 1¼, and reacting ¾. Money ⅞@1 per cent

The New York *Journal of Commerce*, in its August Cotton report from Texas, says. "A deterioration of 10 per cent is indicated, and the State seems to be going into a panic over the boll weevil. The crop is two weeks earlier than usual."

Cotton in New York made substantial advances, although the market was feverish. Crop news from Texas was "bullish," a loss of 10 per cent being sustained in condition this month. Heavy selling on the bulges was a feature. Closing sales were at gains of 20@27 points.

Local Securities were more active, a larger number of stocks being handled. Metropolitan Elevated, Union Traction preferred, and West Chicago Railway and North Chicago Railway made good advances, the latter gaining nearly 5 points. The losses were in Can and Biscuit preferred.

The Winnipeg *Commercial* of Aug. 27 says: "Our private advices on the situation indicate that the amount of damage done by rust has been greatly exaggerated, and that a good crop is still probable. It is likely, too, that the acreage is underestimated, and threshing returns may be expected to be somewhat below the real figures."

The Minneapolis *Market Record* estimates the Wheat crop of the Northwest at 158,000,000 bu, and allows 2½ per cent in Minnesota, 3 per cent in South Dakota, and 4 per cent in North Dakota for abandoned acreage. The average yields reported are 14 bu in Minnesota, 12.4 bu in North Dakota, and 9.2 bu in South Dakota.

Bradstreet's report of the available supply for the past week shows the following changes:

		1904, bu.		1903 bu.
Wheat east of Rockies	Inc.	349,000	Inc.	306,000
Europe and afloat	Inc	800,000	Inc.	600,000
Total	Inc	1,149,000	Inc.	906,000
Corn	Dec.	913,000	Dec.	438,000
Oats	Inc	5,296,000	Inc.	1,260,000

The Minneapolis *Market Record* claims that the Wheat crop of the Northwest in 1903 was 196,000,000 bu. Receipts at Duluth and Minneapolis, 116,000,000 bu; consumed by interior mills, 70,000,000 bu, and required for seeding, 18,000,000 bu. Shipped to other States, 12,000,000 bu. Total supply, 216,000,000 bu. Reshipped to interior from Minneapolis, 6,000,000 bu. Winter Wheat received, 14,000,000 bu. Leaving a net supply of 196,000,000 bu

Broomhall's weekly foreign crop summary says: "United Kingdom—There is a great deal of Wheat stacked. Indications point to yield not over 30 bu to the acre; the average for recent years has been about 38 bu per acre. France—Not much Wheat has been threshed and there is no improvement in crop indications. Germany—There are free offerings of Wheat, which is of excellent quality. Russia—Continued good reports come from the Southeast and East. In the Southwest, including Odessa, arrivals are increasing. Roumania Heavy general rains have fallen, which have been of great benefit in softening the ground for plowing. India—Weather situation continues satisfactory."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is ruling quiet, with sales small and confined to local and domestic trade. Foreign bids still out of line

WINTER WHEAT—Demand fair and offerings not so large. Prices were fairly steady part of the session, but owing to the severe break in futures later in the session, the closing was 1c lower all round. Good Wheat will sell all right—it is taken mostly on speculative account. No 2 Red in store ranged nominally $1 07⅝@1 09½, and fresh arrivals free on board sold at $1 09@1 11 No 3 Red fresh receipts free on board sold at $1 05@1 10. No. 4 Red fresh arrivals free on board sold at $1 02@1 08½ No 2 Hard fresh arrivals free on board sold at $1 18½@1 19. No. 3 Hard fresh receipts sold at $1 12@1 16½. No 4 Hard sold at $1 00 No. 3 White sold at $1 08.

SPRING WHEAT—Was quiet. Offerings small. Poor Wheat very dull and not wanted. Choice Wheat would sell readily. No. 1 Northern entirely nominal at about $1 14 No. 2 Northern quotable $1 10@1 14. No. 3 Spring ranged at $1 02@1 10, with sales free on board at $1 07@1 10 and at the river at $1 16. No. 4 Spring sold at 90c and ranged at 80c@$1 01 for poor to choice.

REGULAR WHEAT—A fair trade, but volume smaller than of late. Feeling, while a little unsettled, was weaker on the whole and the close showed declines of 1½@2c. The market started higher, the weather in the Northwest not being of the best, local professionals being the leading buyers but market soon developed a reactionary tendency and prices gradually receded. The largest milling concern in Canada in a message to a New York exporter said: "After an exhaustive personal investigation by our experts during the last week and completed yesterday it is our own opinion that the Manitoba crop will equal last year in quantity, making due allowance for depreciation from rust." The Minneapolis *Market Record* estimated the crop in the three Northwestern States at 158,000,000 bu. Cables responded only partially to yesterday's advance on this side, and the idea was prevalent that the Northwest was a liberal seller here and that it had been coloring the "bullish" news strongly to help such sales along. There was some selling of September, probably on fears of liberal deliveries next Thursday. The spread to May was about 4½c, against 3⅛c a few days ago. Liverpool quoted spot ⅛d lower to ⅛d higher and futures ⅜@½d better London, ¾@1⅛d higher. Paris unchanged to ¼c up Antwerp unchanged Berlin, 1⅜c higher, and Buda Pests 1⅝c lower. Primary receipts were 48,000 bu smaller than a year ago and Northwest cars 120 less. Kansas City and St Louis received 313,000 bu, against 425,000 bu one year ago Contract stocks increased 2,715 bu last week and are 457,085 bu, against 2,037,990 bu one year ago. Stocks here in all positions increased 591,000 bu to 3 2.8 000 bu. Stocks a year ago 6,138,000 bu. *Bradstreet's* increased 1 110,000 bu, last year increased 906,000 bu Clearances were very moderate and 11 boat loads accepted at the seaboard. Duluth reported 50 000 bu old Wheat sold to millers Minneapolis stocks decreased 70,000 bu so far this week, but increase expected on the week. St. Louis wired: "Wheat offered freely to arrive at cheaper prices: prospect our stock will increase rapidly." Minneapolis wired that elevator interests were liberal sellers there. Foreign crop news more favorable than a week ago. Receipts at Duluth 20 cars and at Minneapolis 205 cars, a total of 225 cars, against 363 cars yesterday, 2 4 cars a week ago, and 315 cars last year. Local receipts included 180 cars Winter, 12 cars Spring and 4 cars mixed, a total of 196 cars, against 186 cars last year. Included in the above were 13 cars of contract grade There were 57 cars and 24,000 bu from unlicensed elevators The estimated receipts for to-morrow are 62 cars. Withdrawals to-day were 23 930 bu Receipts at Western points were 832 252 bu, against 901,290 last year At Eastern points 206,570 bu, against 252,749 bu last year Shipments from Western points were 541,078 bu, against 405,816 last year, and from Eastern points 8 500 bu, against 157 160 last year. Shipments of Flour were 24 013 brls. Exports of Wheat in Flour were equal to 116,858 bu

Future Deliveries of Regular Wheat—Good trade and closing lower

SEPTEMBER—Old Style—Sold at $1 07⅝@1 09½. Opened with sales at $1 09½, sold to $1 08⅝, to $1 09⅛, to $1 08, to $1 08¾, to $1 08¼, to $1 07⅝, and closed nominally at $1 07⅝

SEPTEMBER—New Style—Sold at $1 05½@1 08¼. Opened with sales at $1 08; sold to $1 08¼, to $1 07¼, to $1 07⅝, to $1 08⅞, to $1 07, to $1 06¾, to $1 07½, to $1 06¼, to $1 06¾, to $1 06, to $1 07, to $1 05½, to $1 05⅝, and closed at $1 05⅝

DECEMBER—Sold at $1 07¾@1 10. Opened with sales at $1 10 to $1 09¼; sold to $1 09⅞, to $1 09⅛, to $1 09¼, to $1 08⅞, to $1 09¼, to $1 08⅝, to $1 09, to $1 08½, to $1 09⅛, to $1 08, to $1 08¼, to $1 07⅞, to $1 09, to $1 08¼, to $1 08¾, to $1 07¾, to $1 07⅞, and closed at $1 07⅞.

MAY—Sold at $1 10⅛@1 12¼. Opened with sales at $1 11⅝ to $1 12¼; sold to $1 12, to $1 12¼, to $1 11½, to $1 11⅞, to $1 11¼, to $1 11½, to $1 10⅞, to $1 11⅝, to $1 10½, to $1 10⅞, to $1 10⅜, to $1 11½, to $1 10½, to $1 11⅛, to $1 10⅛, and closed at $1 10⅛@1 10¼

CORN—Was fairly active and a little unsettled, the close showing September ⅛c lower, while December lost ½@⅝c and May ¾@⅞c. The start was higher and for a while the tone was firm, but sentiment became more "bearish" later and prices receded. Wheat and weaker, crop bulletins favorable, and indications were for better weather. Receipts were larger than expected at 917 cars and 332 cars were estimated for to-morrow. Country acceptances moderate. Selling was led by floor traders and professionals. Commission houses bought December at the decline. Foreign "longs" credited with selling September. Liverpool spot steady to 1d higher, and futures ⅜@½d higher. Stocks here in all positions decreased 438,000 bu, to 2,812,000 bu, stock a year ago 4 170 000 bu. Contract stock decreased 317,824 bu, to 1,450 990 bu, against 2,043,578 bu in 1903 *Bradstreet's* decreased 913,000 bu, last year 438,000 bu Western receipts 726,000 bu; last year 736 000 bu. Shipments 483,000 bu and 533 000 bu respectively. Local arrivals 445,000 bu; shipments 370,000 bu. Withdrawals here 245,000 bu, and exports on coast 127,000 bu. Shipping demand moderate. Sales 125,000 bu. No. 2 closed at 52¾c and No. 2 Yellow closed at 54¼c. No. 3 closed at 52½c No. 3 White sold at 53¾c. No. 3 Yellow sold at 55c and closed at 54c. No. 4 sold at 53@54½c New York reported 15 loads taken for export.

Corn by sample—There was a good demand and offerings smaller. Feeling was firmer and prices unchanged to ½c higher. Sales on track and free on board: No Grade sold at 51½@52c No 4 at 52½@54⅞c. No 3 at 53¾@55c No 3 Yellow at 55@55¼c. No. 2 at 54c. No 2 Yellow at 55¼@55½c. No 3 White at 53¾c No 2 White at 54c Billed through: No. 4 at 51@53½c No 3 at 52¼@53¾c. No. 3 Yellow at 53½@54½c No. 2 at 52¼c. No. 2 Yellow at 54@54¼c No 3 White at 52½c. No. 2 White at 52½@52¾c

Future Deliveries of No. 2 Corn—Fairly active and easier closing ⅛c to ⅝@⅞c lower

AUGUST Inactive. Sold at 53⅛c, and closed nominally at 52½c.

SEPTEMBER—Sold at 52½@53⅛c. Opened at 52¾c to 53c, and sold at 52¾c, to 52⅞c, to 52½c to 52⅝c, to 52½c, to 52⅞c, to 52¾c, to 53⅛c, to 52⅜c, to 52⅞c, to 52½c, to 52¾c, to 52½c, and closed at 52½c

OCTOBER—Sold at 53⅜c

DECEMBER—Sold at 51¼@52¼c Opened at 52⅛c to 52¼c and sold at 52@52½c, to 52⅛c, to 51½c, to 52c, to 51¾c, to 52¼c to 51⅝c, to 52c to 51⅝c, to 51½c to 51¼c, to 51¼@51⅜c and closed 51¼@51⅜c.

MAY—Sold at 49⅛@50¼c Opened at 50⅛c to 50¼c, and sold at 50⅛@50¼c to 49½c, to 49¾@49⅞c, to 49⅝c, to 49⅞@50c, to 49⅝@49¾c, to 49¾c to 49¼@49⅜c to 49½c, to 49⅛c, and closed at 49⅛c bid.

OATS—Were weak and declined ½@⅝c and closed ¼@⅜c lower. There was a moderate trade, the feature being the changing by elevator interests from September to December at 1⅜@1½c and to May at 3⅞@4c difference Cash houses were good sellers and commission houses who do largely a country business were good buyers on the decline. Stocks are increasing, gaining 2,138,000 bu in all positions and they are 5,897,000 bu. Contract stocks are 815,353 bu, an increase of 385,435 bu last week. Cash sales here were slow, 25,000 bu, but New York reported 50,000 bu sold for export Seaboard clearances were 51,445 bu. Arrivals 524 cars, with 203 cars expected to-morrow Car lots to go to store were ½@1c lower No Grade sold at 30½c. No. 4 at 30½@31¼c No. 3 White at 32¼@33c Standard in store sold in small lots at ¼c over September and closed about 31½@31⅝c

Oats by sample were slow, weak and ½@1c lower Offerings were liberal. On the break local buyers took hold fairly Sales on track and free on board: No. 4 at 30@31¼c No. 4 White at 31½@32½c. No. 3 at 31c. No. 3 White at 31¾@34c. Standard at 32¼@34c No. 2 at 31¾@31⅝c No. 2 White 32½@31¼c. Billed through No Grade at 29¾@31½c. No 4 White at 31½@32c No 3 at 30½@31½c No. 3 White at 32@32½c Standard at 32¼@33¼c. No. 2 at 30¾c. No. 2 White at 33@33¼c At the river: No Grade at 29c No. 4 at 30½c No. 4 White at 30½@31c. No 3 at 29½c No. 3 White at 30½@31¾c Standard at 31¼@32c.

Future Deliveries of Contract Oats—Were weak and lower

AUGUST—Closed about 31⅜@31½c.

SEPTEMBER Fair trading. Sold at 31½@32⅛c. Opened 32⅛c, sold to 31½c, to 31⅝c at close

DECEMBER Active Sold at 32¾@33⅜c. Opened at 33¼c to 33⅜c, sold at 32¾c, closed at 32⅞c asked.

MAY—Good trading. Sold at 35¼@36⅜c and at 35¾c. Opened at 35⅝@35¾c, sold to 35¼@35⅜c and closed there.

RYE—Was rather steady with prices ½@1c higher for cash, and unchanged for September December 1c higher early but closed with advance lost. Demand fair and offerings moderate. Receipts 14 cars None withdrawn from elevators here and no export clearances from the seaboard No 2 in store nominally 71½c, and fresh arrivals free on board sold at 73@73½c No. 3 fresh arrivals sold at 70½@71¾c

Future Deliveries of No. 2 Rye—Moderate trading and steady September sold at 71½c, and closed at 71½c. December sold at 74c to 73c and closed at 73c May nominally 77c.

BARLEY—Less Barley was offered. Postings indicated more Barley, for 72 cars were reported inspected, but most of that was yesterday's arrivals. Demand was fair for good to choice malting, at the same time poor for under grades Some buyers remain out of the market. Views as to the state of the market varied It was quoted all the way from steady and unchanged to easy and a shade lower. Trading is by sample, and idea of value will vary in the minds of different persons. Low grades dull and weak. No one seems to care for dark, stained new Barley Occasional cars are dirty or mixed with other Grains; they are at a discount, depending on color mixture. Cars of poor, musty old received, they sold low. Old Screenings sold at 28c for heating, to 31c for musty while choice had a nominal quotation of 40c Barley, poor, musty to bad color and Oats mixed sold at 34@38c, better cars, yet dark or dirty quotably dull at 40@42c Fair to good malting, depending on weight or color, sold at 45@49c; and choice at 50@52c; very fancy possibly above.

SEEDS—Market for Timothy ruled fairly active, while all other lines were very quiet. Timothy was weak. The rest of the market was quotably steady

Timothy—There were again free offerings. Receipts were good. Some cars which have been here for some time, which had been withdrawn from the market were placed on sale again. Buyers were not anxious, but rather indifferent Some early sales at about former prices were made, later there was about 5c decline Fair to good country lots ranged at $2 55@2 65 and some high grade to choice sold at $2 70@2 75. Fancy bright unhulled nominally higher, $2 8 @2 90; not offered Common dark, dirty, about $2 20@2 40, very poor lower In the regular way nothing was done in the contract grade Spot Seed was about $2 90. September nominally $2 90 It was offered at $2 95. October nominally $2 95 September and January changed at $2 90 for the former and $3 05 for latter.

Flax—There was no change in prices. The market ruled very quiet Demand and offerings both very small Local receipts 8 cars or 5,400 bu and none taken out At Minneapolis, 3 cars were received and at Duluth 10 cars No 1 Northwestern or No 1 from the Northwest sold at $1 25, and No 1 remained at $1 18 bid Rejected quotable at $1 15@1 18, depending on quality September $1 18 bid. December nominal $1 20½

Clover—Was quotably steady based on outside reports. There was no Clover on sale to-day. Quotable. October delivery at $12 50. Contract spot Seed was quotably about $12 50. Country lots, common to choice, $9 00@12 00; fancy above. Fair to good $10 50@11 50

HOG PRODUCTS—Speculative trading was fairly active in Hog Products, and the market was somewhat unsettled Hogs were in fair supply, and sold at about former figures Grain markets were rather easy. These features had a little influence on the course of the market Outside orders were moderate, and local trading was fair Offerings were moderately free, and the demand was fairly active. Market in a general way opened rather firm, and slight advances were gained in some instances. Later there was considerable realizing, and a weaker feeling was developed. Prices settled back on all the leading articles. Toward the close, prices rallied slightly all around, the market closed rather steady Fair trading in January contracts Receipts of Hogs at the leading Western packing points were estimated at 62,800, compared with 50,700 one year ago. Foreign markets were steadier, and quotations were advanced 1s on Backs and 6d on Lard. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 20 cars. Shipments were moderate—of Lard and Meats about 62 cars. Shipping demand was fair, and offerings were moderate Sales were not very large, and prices well maintained.

Mess Pork—Rather an active business was transacted in Mess Pork, and the feeling was somewhat unsettled Offerings were rather free, and the demand was fair. Prices ruled irregular. Market opened rather steady, but a little pressure to sell developed a weaker feeling, and prices receded 7½@10c, and the market closed steady around medium figures, especially for the near deliveries. Shipping demand was light, and offerings were moderate Cash lots quotable at $11 30@11 40.

SEPTEMBER—Offerings were rather free and the demand was fair. Sales were made at $11 27½@11 37½ Opened at $11 30 to $11 37½, sold to $11 32½, to $11 35, to $11 30, to $11 35, to $11 30, to $11 32½ to $11 27½, to $11 32½, to $11 30, to $11 35, to $11 30@11 32½, and closed steady

OCTOBER—Demand was fair, and offerings were rather liberal. Sales were made at $11 37½@11 45. Opened at $11 45, sold to $11 42½ to $11 45, to $11 40@11 42½, to $11 42½, to $11 40, to $11 42½, to $11 37½, to $11 40, to $11 37½, to $11 42½, and closed steady

JANUARY—In fair request and offerings were not very free Sales were made at $12 55@12 70. Opened at $12 67½, sold to $12 70, to $12 55@12 67½, to $12 60, to $12 57½, to $12 62½, to $12 57½, and closed steady.

Lard—A fairly good trade was reported in the Lard market and the feeling was steadier. Offerings were moderate and the demand was fair. Some speculative trading was credited to foreign operators Foreign markets were favorable to holders Prices were advanced 2½@5c early in the day, but receded again Toward the close rallied to outside figures, and market closed steady Demand on shipping account was moderate with rather light offerings. Cash lots quotable at $7 00@7 02½ Loose lots in fair request with moderate offerings. Prices were steady at about 15c discount on October figures. Leaf Lard was in light demand with the offerings moderate. Quotably steady at about $6 87½. Neutral in fair demand with moderate offerings Prices quotably higher at $8 50@8 50 for No 1 and $7 75@7 87½ for No 2

SEPTEMBER In fair request and offerings were moderate Sales were made at $6 97½@7 02½. Opened at $7 00, sold to $7 02½, to $6 97½, to $7 02½, and closed steady.

OCTOBER—Offerings were fair and the demand was moderately active. Sales were made at $7 05@7 12½ Opened at $7 10, sold to $7 12½, to $7 15@7 07½ to $7 12½, and closed steady.

DECEMBER Quiet with small sales at $7 12½

JANUARY—Called for sparingly and offerings were moderate Sales were made at $7 10@7 15 Opened at $7 12½ sold to $7 10, to $7 15, to $7 12½@7 15, and closed steady.

Short Rib Sides—Rather a good business was reported in Short Rib Sides, and the feeling was comparatively steady Offerings were fair, and the demand was moderately active Prices ruled about 2½c higher early, but receded again 2½@5c and the market closed steady. Shipping demand was only fair, and offerings were not very large Cash lots at the close were quotable at $7 30@7 40 according to weight.

SEPTEMBER—In fair request and offerings were moderate Sales were made at $7 35@7 40 Opened at $7 40, sold to $7 37½, to $7 40, to $7 35, to $7 37½, and closed steady

OCTOBER—Offerings were fair and the demand was moderately active. Sales were made at $7 45@7 50. Opened at $7 50, sold to $7 47½, to $7 50 to $7 45, to $7 47½, to $7 45, and closed steady

JANUARY—In fair demand and offerings were not very large Sales were made at $6 60@6 67½ Opened at $6 67½ sold to $6 60@6 62½, to $6 62½, to $6 60@6 62½, to $6 65, to $6 62½@6 65, and closed steady

Other Meats—Trade was only fair and mainly on domestic account Exporters bought sparingly Offerings not very large, and inquiry was fair. Green Meats in limited supply with a light inquiry and prices ruled steady. Pickled Meats in fair request with only moderate offerings, and prices ruled steadier. Dry Salted Meats were in active demand, with liberal offerings, and prices ruled steady Smoked Meats called for moderately and prices well supported. Closing prices were as follows

GREEN—Hams, av 10@12 lbs, 9⅛@9¾c 12@14 lbs, 9½@9⅝c 14@16 lbs, 9⅜@9½c; 18@20 lbs 9½@9⅝c Skinned Hams, 10⅛@10¼c Shoulders, 7@7⅛c Picnic Hams, 7⅛@7¼c; Bellies 9½@11½c PICKLED loose—Hams, 10@12 lbs, 9¾@10c 12@14 lbs 9⅝@9¾c; 14@16 lbs, 9⅝@9¾c cash, 9¾@9⅞c September 18@20 lbs, 10⅛@10¼c; Skinned Hams, 11@11¼c cash 11⅛@11¼c September Shoulders, 7⅛@7½c Picnic Hams, 7½@7⅝c, Bellies, 9½@11c DRY SALTED—loose—Shoulders, 7½@7⅝c Short Fat Backs, 6@7¼c, Short Clear Backs 8¼@8¾c, Clear Bellies 7⅞@8⅞c, Rib Bellies, 7¾@8¾c Extra Short Rib Sides 7⅛@7¼c, Extra Short Clear Sides, 7⅜@7½c, Rough Sides, 7¼@7⅜c; Plates, 5⅝@5⅞c; Jowl Butts, 4¾@4⅞c EXPORT CUTS—boxed Long Cut Hams, 10¼@10½c, Cumberland Sides, 9¼@9⅜c; Long Clear Sides, 8⅜@8½c; Extra Long Clear Sides, 8¼@8½c, Short Clear Sides, 8¼@8½c SMOKED—loose—Hams 11¼@11¾c, Skinned Hams, 12¼@12¾c, Shoulders, 8⅛@9c, Picnic Hams, 9@9½c.
